He described "basic operating positions" as: technical director, video man, audio man, cameraman, audio assistant and light direction engineer.

Nationwide Stoppage • The work stoppage was nationwide, affecting the network in New York, Philadelphia, Washington, Chicago, Hollywood and San Francisco, where NBC owns and operates stations.

NBC filed three suits against NABET and its officials during the week. On Tuesday, the network started a $500,000 damage suit in the U.S. District Court in New York and later that day filed suit in Los Angeles Superior Court seeking $200,000 in punitive damages and $100,000 a day in actual damages. A court hearing in California is scheduled for today (May 4) on a petition for an order to stop picketing there.

Last Wednesday NBC brought a suit for a total of $100,000 against four NABET officials in New York Supreme Court. Named in the suit were Mr. Byrne; Harold L. Byers, regional director; Lawrence J. Dworkin, chairman of the New York local's grievance committee, and Howard T. Atlas, president of the New York local.

NABET officials said Thursday that the union was in the process of preparing countersuits against NBC.

Sessions were held on Tuesday and

MR. GARROWAY AND MISS BARDOT IN PARIS
Her interview in the Eiffel Tower set off a strike

Wednesday with J.R. Mendelbaum of the Federal Mediation & Conciliation Service but "no progress" was reported. Both parties were on call for meetings but no session was scheduled Thursday.

The work stoppage prevented the showing of the first *Today* tape last Monday but it was carried on Tuesday with supervisory employes serving as technicians. This segment featured Brigitte Bardot, who recited Shakespeare in English during an interview with Dave Garroway. Though five taped programs were scheduled originally, only four were produced after the dispute erupted and the final program was set for last Friday.

NBC Operations Smooth • NBC said that about 300 supervisory and management workers were used during the week to replace the 1,500 NABET members participating in the walk-out. Officials said that "operations are running very smoothly." They conceded there were "a few fluffs" but claimed that on-the-air telecasts during the week were "generally very good."

The network reported that all employes participating in the work stoppage would be docked pay as of 7 a.m. last Monday. Officials estimated that the payroll for these workers averages $40,000 a day for a seven day week.

NABET officials late last week were attempting to rally support for their action from other unions in the broadcast field, but aside from the teamster council's statement, they had received no commitments. Members of other unions had crossed NABET's picket lines freely during the week.

AWRT CONVENTION
Sen. Kennedy wants tv women emancipated

Why limit women to weather reporting? Lift the discriminatory bars which block their access to electronic journalism. This admonition to broadcasters on the part of Sen. John F. Kennedy (D-Mass.) was warmly received by his audience of over 800 American Women in Radio & Television members at the banquet opening their eighth annual convention last Thursday (April 30).

Included in the activities of the four-day conclave at New York's Waldorf-Astoria was presentation of *McCall's* magazine "Golden Mike" awards for women in radio and TV.

Top winner at the Saturday night banquet (May 2) was Mildred Freed Alberg, executive producer of the *Hallmark Hall of Fame* series on NBC-TV, for her "remarkable contribution to the cultural pattern of the country."

Other McCall's selections: Patti Cavin, broadcaster, WRC Washington, and Ellen Stoutenberg, executive WIP Philadelphia, for "service to the community in general;" Susie Strother, broadcaster, WJLB Detroit and Mercer Livermor, executive, WKKO Cocoa, Fla., "service to women;" Marge Miner, broadcaster, KFEQ-TV St. Joseph, Mo., and Sophie Altman, executive, WRC-TV Washington, for "service to youth."

Over 800 delegates were on hand for the convention at the Waldorf-Astoria. The four-day event had its formal beginning with a banquet Thursday night (April 30) at which Sen. John F. Kennedy (D-Mass.) discussed "The Challenge Ahead".

Election of club officers and directors were among the many items of business (see FATES & FORTUNES, page 88).

Included in the opening-night activities was presentation by AWRT President Nena Badenoch of the fifth annual scholarship award by the organization. Gay Pauly, 19-year-old junior at Lindenwood College in St. Charles, Mo., received the $750 for continuation of her radio-tv studies.

'History making trip' • That's what NABET news release said about departure of these five union technicians for Paris on assignment by NBC-TV to video tape *Today* there. Four other NABET men flew earlier. L to r: John Evans, Fred Wagner, Clarence Westover, Stan Levin and Calvin Broadhead. Just how "history-making" remained to be seen as dispute over use of French technicians on same show erupted into nationwide strike against NBC-TV in U.S.

Radio Month underway with official salutes

National Radio Month opened last week with a series of tributes to the medium from high government and Congressional leaders.

Special network and station promotions will continue through the month, with many industry and civic groups joining broadcasters in the observance.

FCC Chairman John C. Doerfer observed in a message to NAB that the number of radio stations has practically doubled in the last decade. "This phenomenal growth, in pace with the expanding and advancing developments of our nation's economic, social, scientific and cultural life unmistakably attests to radio's high record of performance in the public interest," he said.

Rep. Oren Harris (D-Ark.), chairman of the House Commerce Committee, added, "Taking radio for granted is a great compliment we pay unconsciously every day to a service which reaches almost every home and 38 million automobiles in our country."

Radio continues to provide "an unexcelled means of getting the news to the people immediately," said Sen. Hubert H. Humphrey (D-Minn.).

FCC Comr. Frederick W. Ford used an at-home incident to show radio's impact. "Last year my young daughter discovered radio," he said. "For the first time she began to appreciate this older medium and its advantages and convenience. So far this year she has worn out three sets of batteries in her portable. This proves to me that radio does indeed live in the minds and hearts of the oncoming generation just as it has in ours for the past 40 years."

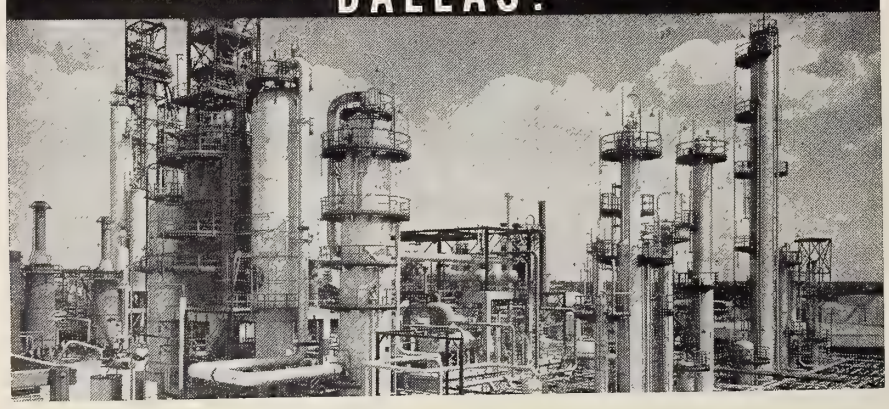
BASEBALL TV
Blackout bills to kill network shows—DFS

Blackouts of major league baseball telecasts within 50 tor 75 miles of minor games could force tv networks out of baseball broadcasting, according to Dancer-Fitzgerald-Sample.

In a confidential letter to tv stations that have carried baseball telecasts, the agency showed how pending legislation could put an end to major league networking. DFS places Falstaff Brewing Co. business on the CBS-TV game-of-the-week.

DFS said a 50-mile protection around minor league cities on game days would affect 17.6 million (77%) of the 22.8 million tv homes in non-major league cities at least half of the time. Major league cities are always blacked out because of local baseball broadcasts.



A 75-mile blackout, it added, would affect 12.8 million tv homes 100% of the time and 6.5 million half of the time. Six bills containing a 75-mile proposal are pending (HR 2370, 2371, 2372, 2373 and 2374; S 616).

DFS conceded in its letter that minor league baseball is in a serious financial shape; that attendance is down, and that franchises are dropped each year.

Change of Life • According to DFS, the minors are victims of "a growing America, an America on wheels, a to-the-beach or to-the-mountains America, an outdoor barbecue-pit America. As the culture of America changes, as people develop more sophisticated tastes in food, clothing, leisure, entertainment; as all these things change, all else changes with them. The day of the one-car garage is ending; so is the day when people depended on the local ball team in the local park for entertainment."

Of about 180 stations carrying the game-of-the-week, 137 will be affected by a 75-mile blackout, according to the agency. DFS adds, "It is obvious that the extent of these blackouts will make it impossible for any network or advertiser to justify consideration of continuation of a game of-the-week program. We are bringing this to your attention in the hope that you will convey your sentiments, and those of your viewers, to your elected representatives in Washington."

THE TV RATECARD
Petry price review cuts down cut-rates

A broad program aimed at reducing discounts on tv stations' package rates and gradually raising the cost of daytime and late-night minutes is in progress at Edward Petry & Co., station representative (CLOSED CIRCUIT, March 9).

The rate cards of 15 of the Petry firm's 30 client television stations were revised during the first quarter of this year as a result of detailed reviews and recommendations by the company. At this rate, all Petry stations' prices will be subject to review at least twice a year. Aside from the increases, a number of stations' rate cards were simplified in format.

Martin Nierman, Petry executive vice president, explains that increased viewing and continued growth in tv set ownership are big factors behind the card review program: "Our stations are delivering more for the advertiser, so they are entitled to make rate card adjustments accordingly."

The changes are recommended on a market by market rather than general basis. Each evaluation—which may take several weeks—goes into a number of factors, such as set ownership changes, audience patterns, and the client station's competitive position on rates and audiences in relationship to other stations in the market.

Sets and Prices • Petry officials feel that as tv saturation gets greater and greater, rate increases must be scrutinized more carefully. The time has past, says Mr. Nierman, when blanket increases can be justified on the basis of increasing set ownership. But they also feel that in established tv markets where all allocated channels have been in operation for more than a year there will still be a need to re-examine rates and make adjustments which are equitable to advertisers and yet assure the stations enough income to meet rising operating cost. They do not feel that even established markets have reached their maximum rates: "As long as there are programming changes there will always be a need for re-examination of rates."

The policy of reducing package discounts stems from audience gains in all hours. Originally, Mr. Nierman points out, packages were set up as inducements for the sale of marginal time—"which tv no longer has."

The Petry company also wants to widen the differential between the minute rate and the station-break rate on the theory that a full minute offers vastly more opportunity for hard sell.

Ohio station rep adds out-of-state stations

Ohio Stations Representatives, Cleveland, is expanding two ways—it's adding Ohio representation of stations located outside of Ohio, and it's working up programming for client stations.

The company was founded by owner-manager Leonard F. Auerbach in July 1956 to represent Ohio radio stations throughout the state except in their own markets. Mr. Auerbach currently has 24 Ohio stations on the list. The first "outside" station signed for representation within Ohio was WITH Baltimore, Md.

R.C. Embry, WITH vice president, is quoted by Mr. Auerbach as explaining his signing with the Ohio regional firm thus: "Due to the growing importance of agencies in the state of Ohio—cities such as Cleveland, Cincinnati and others—we felt that it would be far better for us to have a representative in this area who makes constant calls on those agencies, who lives with them from day to day, rather than depend on representation by a firm which normally would send a man into the state only three or four times a year. I am happy to say that our theory has been working very well."

At least two special programs—which would be fed to a "network" of OSR station clients via fm relay—currently are being planned. One is a daily farm program, the other an hour-long variety-interview show, probably originating in Cleveland but giving the stations five minutes for local news, plus news headlines and weather, to retain the local touch. The idea is to provide the stations with special programming that not only is commercial but also will build audiences.

Expansion • Len Auerbach (r) of Ohio Stations Representatives discusses two new station clients with Garry McKelvey (l), head of timebuying for the Carling beer account at Lang, Fisher & Stashower, Cleveland, and Peter Turk, Mr. McKelvey's assistant.

Mr. Auerbach, who was sales manager of WDOK Cleveland immediately before starting the rep firm, says Ohio Stations will open offices in Columbus and Cincinnati "as soon as we get ourselves in a position where we can increase our service to our customers by offering them markets outside of Ohio."

Tv breaks liberalized in network hour shows

The tv networks are taking steps to assure their affiliates of protection spot revenue in hour-long shows scheduled in prime time.

The actions apparently have been precipitated by a discernible network trend to slate more hour-long shows in nighttime periods for the next season.

Robert E. Kintner, NBC's president, in a letter to affiliates outlining the status of the fall program schedule, reported that his network decided to simplify and liberalize policy on station breaks in hour programs.

NBC in the fall will include a station break in all hour programs except those

The face that launched a million sales: GLENCANNON

sold to a single sponsor. Another exception is *Wagon Train* that was sold without a break under the network's former policy and renewed on that basis.

ABC-TV reportedly has adopted a similar policy with one essential difference: where it is not possible to insert a station break in an hour-long program, the network has the objective of providing stations with 10 seconds at the end of the show. CBS-TV has a station-break policy similar to NBC-TV's.

No Sales Trouble • Mr. Kintner said NBC expected to have its nighttime sales quite firm "in the next several weeks," but he carefully explained that there has been no sales trouble. "If we had elected to accept every order submitted to us, regardless of program or time period involved, our nighttime schedule could have been fully sold out several weeks ago."

NBC-TV, he said, has been concerned more with getting the "best possible shows in the best possible competitive time periods than it has with announcing new records in springtime sellouts."

Mr. Kintner emphasized that the bulk of the fall nighttime schedule had been sold as of April 24 and certainly would be completely sold "well in advance of the fall." He said it was more important to obtain a balanced schedule for "audience and prestige leadership" than early sellout. Other points:

• NBC-TV will program past 10:30 p.m. to 11 p.m. on five of the seven nights of the week, to add strength to the schedule and to meet competition. Mr. Kintner noted that CBS-TV is programming all of the 10:30 periods, all of the 7:30 positions and from 6-7:30 on Sundays while ABC-TV is programming to 11 p.m. five out of seven evenings.

• Emphasis on the need for station clearance "for the success of our schedule and for the welfare of NBC and its affiliates in this era of the most intense competition for audience and sales."

Mr. Kintner enclosed a planned fall schedule, which he cautioned may still be subject to some change. It corresponds quite closely to the nighttime schedule for NBC-TV (as well as the other networks) printed in BROADCASTING April 20.

Briefly the shows are: Sunday, starting at 7, three hour-long stanzas, *Riverboat,* a comedy-variety show, and the *Chevy Show* in that order followed by the 10-10:30 *Loretta Young Show;* Monday, starting at 7:30, *Whispering Smith, Love and Marriage, Wells Fargo, Peter Gunn* and *Alcoa-Goodyear,* all half hours and ending with the 10-11 *Steve Allen Show.*

On Tuesday, *Laramie* to 8:30, *Challenge* and *Arthur Murray,* each a half-hour and concluding with Ford Motor's projected specials starting at 9:30; Wednesday, hour-long *Wagon Train,* 8:30 *Price Is Right,* the hour-long *Perry Como-Kraft* show at 9 and the half-hour *This Is Your Life* and *Wichita Town* programs; Thursday, all half-hour shows, *Johnny Ringo, Bat Masterson,* an adventure program, *Bachelor Father, Tennessee Ernie, Groucho Marx* and *Troubleshooters;* Friday, *People Are Funny,* the 8 o'clock *Fibber McGee,* hour-long specials, half-hour *M-Squad* and *Cavalcade of Sports* at 10 p.m.; Saturday, *Bonanza* at 7:30-8:30, the half-hour *Johnny Staccato* and a western, *Five Fingers* (hour-long) and *Black Cat* at 10:30.

ABC-TV studio plant grows east & west

ABC-TV this summer will spend approximately $3 million in new building and engineering facilities for its New York and Hollywood live programming operations, the network announced Tuesday (April 28). The expenditures are expected to be split equally between the two tv centers, it was disclosed.

In New York, the expansion and improvement plans include a new "push button" theatre-studio, transistorized lighting control units, new audio control consoles, a special effects amplifier with more than 100 electronic effects, newly-designed transistor video switcher and improved separate control booths for audio and video engineers and directors. The theatre-studio, reportedly the largest in Manhattan, will have completely mechanized walls, ceiling and seating for rapid removal when the entire 9,500 square feet of space is needed as a studio.

At ABC Television Center in Hollywood, construction is starting on a new service building, the second major building in the network's long range Hollywood development plan, and a studio for KABC-TV Los Angeles whose present theatre-studio in the center will be remodeled and expanded. This will increase to four the number of studios available in the center. Additional dressing rooms will be built for all four studios.

The service building, which will be completed in about six months, will include space for set manufacture, a paint shop and scenery storage. Audio control consoles providing facilities for 42 microphones and adapted for two- or three-track stereo sound will be installed in both the New York and Hollywood studios. The present theatre-studio in Hollywood will be remodeled into a permanent theatre with a 65 by 90-foot stage and seating for 450 persons.

Radio-tv revenue pushes AB-PT net up

The improvement in billing by the ABC broadcasting division was responsible for a 25% increase in the estimated net profit of American Broadcasting-Paramount Theatres Inc., New York, for the first quarter of 1959 over the comparable period of 1958.

This development was a highlight of the first quarterly report of AB-PT mailed to company stockholders last week. Leonard H. Goldenson, president, reported that net operating profit for the first quarter amounted to $2,313,000 or 54 cents a share, as against $1,854,000 or 43 cents a share, in the 1958 quarter.

"The television and radio operations of our ABC broadcasting division showed improvements over the comparable quarter of the preceding year," Mr. Goldenson stated. "The ABC television network's programming for the 1958-59 season, which started this past fall, continued to reflect increased billings and audience gains."

AB-PT's theatre business, Mr. Goldenson said, was not equal to the same quarter of last year, due to the substantial business which was included in the 53-week, 1958 fiscal year. A company spokesman later said that theatre business showed a profit but was not so high as in the 1958 period.

• Media report

• WEJL Scranton and WILK Wilkes-Barre, both Pennsylvania, have entered into a "competitive but cooperative" news exchange agreement. As news stories break in the stations' respective areas, they beeper phone reports to each other.

• Rep appointments

The everyday miracles of oil

WHO'S A "BEAST OF BURDEN" NOW? Not our Cub Scout den mother. Not in this efficient day and age. It's Monday afternoon. The wash is done. The house is clean. She's free to spend leisure time in many rewarding ways – like taking her boys on an outing.

And what has oil to do with this new freedom? Oil helps the appliances run, the detergents clean, the synthetic fabrics dry fast and smooth, and powers the family car. In fact, the everyday miracles of oil supply over two thousand products that serve us all, every day.

Helping to build a better future . . . **Standard Oil Company (New Jersey)** Esso

One of a series of messages appearing monthly in newspapers from Maine to Louisiana—the area served by Esso Standard Oil Company. Other Jersey Standard affiliates and their distributors market elsewhere in the United States and 134 other countries and dependencies.

CBS, NBC CHALLENGE REPPING BAN

Networks, some of spot clients buck proposal by FCC to prohibit national representation by networks. Only SRA, Petry want rule change

Vigorous opposition to the FCC's proposal to ban networks from the station representation field was voiced last week by both CBS and NBC—and some of their spot sales clients.

The objections were made in comments filed on an FCC proposal to force CBS and NBC to divest themselves of their spot sales organizations. ABC does not have a spot sales subsidiary.

The Commission's proposal was issued last January and followed recommendations by the Network Study Staff (BROADCASTING, Feb. 2).

Only two comments favoring the proposal were filed—by the Station Representatives Assn. and by Edward Petry & Co., station representative firm.

Question FCC's Right • Both CBS and NBC—and stations represented by these networks—challenged the FCC's authority to forbid the stations from being represented by the networks.

A group of CBS television stations added, however, that if the Commission were to enact this regulation, it should "grandfather in" the existing number of stations represented by the networks.

Both networks and the stations they represent claimed that there is no need for such a regulation in radio.

Extracts of the comments follow:

CBS Television Stations, a division of CBS Inc., made these points:

• CBS and NBC Spot Sales have not played a dominant role in national spot representation in the tv field.

• The decisions of the stations to be represented by CBS or NBC Spot Sales are business judgments by the stations, and they have suffered no adverse effects because of this.

• Both CBS and NBC Spot Sales limit their representations to affiliated stations and also limit the number of stations represented.

• Other representative firms have not suffered competitively because of the networks' participation in this business.

• CBS Spot Sales has not pressured its station list to take any action to equalize station spot rates and network rates.

• Activities of both CBS and NBC Spot Sales have promoted national spot advertising.

• There is no public interest reason to divorce the networks' spot representation activities from network operations. No proof has been submitted that a reason exists for such divestiture.

• The FCC has no authority to issue such a rule.

On this last point, the CBS presentation stated:

"Thus, the legal issue confronting the Commission is whether the record will permit a finding that by reason of the operation by CBS and NBC of spot sales units, or by their conduct in operating the same, the scope, character or quality of service to the listening public has been or may be adversely affected. . . .

"On this, the [Barrow] Report and those who testified in support of the proposed rule have made no showing."

The CBS comment contained also an affadavit by Bruce R. Bryant, general manager of CBS Television Spot Sales, who maintained that the alleged conflict of interest between his organization and networking is more apparent than real. "There is the strongest and most effective competition between CBS Spot Sales and the Network Division," he stated.

Who Decides • "It is the station's—not our—decision as to which program it will accept," he said.

He then made this point:

"By and large, however, the success of national spot advertising is largely dependent upon successful network programming and far from being competitive, the two services are basically complementary. . . . The greater the popularity of the network program, the greater the demand by advertisers for a spot adjacency."

He also denied the allegation that networks attempted through their spot sales units to force stations to equalize spot and network rates.

Clients Protest • Seven independently owned stations represented by CBS Television Spot Sales told the Commission that (1) it didn't have the power to impose a divestiture rule regarding spot representation by networks, and (2) there is no need for such a divorcement.

But, they added, if any type of rule is promulgated, it should be one limiting the networks to the number of stations they now represent in the spot field.

The stations — KGUL-TV Houston-Galveston, Tex.; KOIN-TV Portland, Ore.; KSL-TV Salt Lake City, Utah; WBTV (TV) Charlotte, N.C.; WBTW-(TV) Florence, S.C.; WJXT (TV) Jacksonville, Fla., and WTOP-TV Washington, D.C.—held to these points:

• The Commission should not forbid networks from representing independent stations without a "compelling" public interest reason.

• There is no such public interest reason — the stations represented by CBS and NBC Spot Sales constitute a small group among all stations.

Charges that network representation handicaps other station representatives in adding network affiliates to their client lists and restrains competition between network advertising and national spot advertising to the latter's detriment is false, the CBS represented stations declared.

Both CBS and NBC are committed not to increase appreciably the number of represented stations, the statement said. And, it added, there is active and vigorous competition between the spot sales divisions and the network divisions of both CBS and NBC.

The seven CBS-TV affiliates represented by CBS Spot Sales account for only 3.6% of all CBS affiliates and 1.4% of all operating tv stations, the document related.

The six NBC-TV affiliates represented by NBC Spot Sales account for only 3.2% of all NBC television affiliates and only 1.2% of all operating stations, it stated.

Thus, it pointed out, the 13 CBS and

Beat the heat

The FCC has announced its usual August recess, during which there will be no hearings or oral arguments. The Commission will hold one meeting during the month, Saturday, Aug. 1, and then will not convene again until Sept. 2. Different commissioners will be on hand during the month, however, to handle motions, emergency matters and expedite routine business. The FCC notes that its annual summer recess "is a convenience" to those who deal with the agency.

NBC affiliates represented by the networks' spot sales divisions account for only 3.4% of all CBS and NBC affiliates, and only 2.6% of all operating tv stations.

Down the Line • CBS and NBC Spot Sales rank 19th and 21st respectively in the number of stations represented, the statement noted. The largest representative, Blair-Tv and Blair Television Assoc., has 51 clients, the CBS represented stations said. This is 10% of all tv operating stations, it pointed out.

The document urged that no rule be adopted, saying "The Commission was not created to control the internal management of stations or the normal business operations of licensees."

The seven CBS affiliates which chose to be represented by CBS did so on their own initiative, voluntarily and of their own free will . . . for hardheaded business reasons."

In order to allay fears that CBS or NBC might some day expand their spot sales lists, the CBS affiliates suggested a rule which would limit CBS and NBC to approximately the present number of stations.

Such a rule containing a "grandfather" clause, the affiliates said, would not only take care of this fear of expansion, but also would not disrupt existing business relationships.

NBC's Charge • NBC contended that the FCC proposal is not only illegal but violates the right of stations to make their own business judgments.

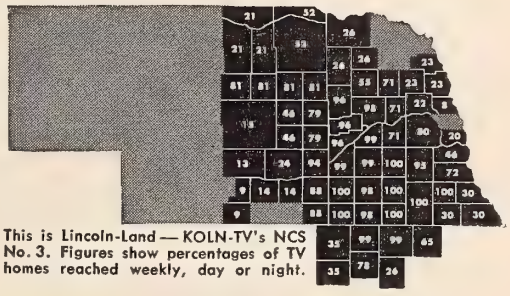
In its statement, NBC makes five points:

• NBC has not restrained competition among national spot sales representatives for clients, nor has it the "potential" to do so.

• NBC has not restrained competition between national spot and network business, nor can it be assumed that such restraint will occur.

• The proposed rule would restrain stations in making a "free" choice of national spot representation, would force them to discharge their present national spot representatives, and would reduce by two the number of spot representatives in the business of representing stations.

• The "drastic" remedy of divestiture is not appropriate where there has been no finding of domination or monopoly, nor can it be utilized on mere "potential" restraint.



• The FCC has no legal authority to promulgate this rule.

In its discussion of these points, NBC noted that only one of the six tv stations it represents is in a market that has more than three comparably competitive tv stations on the air—and this is in Denver (where NBC Spot Sales represents KOA-TV). In the five other

cities, the networks are at the mercy of the stations, it noted.

Other NBC represented stations are KSD-TV St. Louis, WCKT(TV) Miami, WAVE-TV Louisville, WRGB (TV) Schenectady, and KONA(TV) Honolulu.

Actually, the network stated, the stations represented by NBC Spot Sales represent only a "minute" segment of the national tv spot sales medium.

Supposition • The charge that NBC Spot Sales has the potential to affect the competition between national spot and network advertising is theoretical, NBC said.

It continued:

"The basic error of the [Barrow] Report is in failing to see that it is not the *individual* stations which compete with the networks for the business of national advertisers, but rather it is the stations *collectively* in all the markets of the United States which constitute the national spot advertising medium. The networks do not compete for advertising revenue with any of the individual stations represented by their national spot representatives, so therefore, competition between them cannot be restrained."

The proposed rule would "for the first time" artificially restrict licensees in their choice of a national spot sales agent, NBC said. It continued:

"We thus have a situation where it is proposed to impose a present and actual restraint on the freedom of choice of a licensee in order to save him from the hypothetical possibility that at some future date his freedom of choice may be restrained."

Competitive Disadvantage • The proposal would force stations to hire what they consider less capable sales representatives, NBC said, and thus render themselves less able to compete with other tv stations and other media in their markets.

In another reference to the Barrow Report, NBC declared that "since it [the Report] could find no facts indicating restraints by NBC, what the Report has done is to conjure up these assumptions in order to shift to NBC the burden of proving that its operation of a national spot sales representative is not actually or theoretically wrongful."

This is neither fair nor due process, NBC said.

Essentially, NBC charged that the proposed regulation would impose the 'harsh' remedy of divestiture without finding the present system has produced ill effects or attempting to determine if some other remedy might be used as a preventative.

In attacking the FCC's legal authority to act in this area, NBC made this observation:

"Merely because the Commission has jurisdiction to make special regulations applicable to 'stations engaged in chain broadcasting' does not mean that once a station engages in chain broadcasting, *all* its activities become subject to regulation under Sec. 303(i), including activities not involved in chain broadcasting."

The Represented • In two similar comments—by KSD-TV St. Louis and WAVE-TV Louisville, both represented by NBC Spot Sales—the charge was made that the Commission is attempting to expand its authority to regulate the internal business practices of licensees.

This, the documents stated, is contrary to the intention of the Commission itself "as expressed over many years." The two stations made these points:

• Unless the Commission is prepared to take over direct regulation of networks, "it would be a matter of gross insufficiency if the Commission, part by part, were to intrude itself into this field."

• Neither the Communications Act nor the FCC's chain broadcast regulations are in any way devoted to the control of the business practices of stations.

• By forbidding a station to engage a network to act as national spot representatives the Commission in actuality is telling a station who may be employed as a station representative. If this is correct, the FCC must go one step further and prescribe standards and character of all representative organizations, their methods of competition with each other and the terms of their contracts with FCC licensees. This might very well involve the Commission in amounts of payments, commissions and rebates.

Both stations maintained that their choice of NBC Spot Sales as national representative was conditioned solely on their belief that it was the best type of representation they could get ". . . and experience has justified this decision," the documents stated.

KOA-TV Denver, represented by NBC Spot Sales, said it is in a four-station market where the network is "relatively free to 'ditch' an uncooperative affiliate.

KOA-TV noted its present owners bought KOA from NBC in 1952 and were solicited for representation by NBC Spot Sales, but at that time decided to use another organization. NBC Spot Sales acquiesced and didn't attempt any pressures, though KOA sought affiliation with NBC-TV if it won in the contest for ch. 4, the station said.

No Pressure in Denver • After KOA-TV won ch. 4 in the summer of 1953 it decided not to use NBC Spot Sales, but still it acquired NBC-TV affiliation. NBC-TV used no pressure, though it could have threatened to affiliate with another Denver station, KOA-TV said.

But by the fall of 1955 KOA-TV felt it wasn't getting as much national spot business as it should and invited presentations from six representative firms, analyzing them several months and finally deciding to go with NBC Spot Sales, both am and tv. The station said that this judgment was not misplaced as indicated by the fact its spot business was up in 1958 by 34.2% over 1955. KOA Radio decided to join another representative in 1957 and the network "gracefully accepted" the decision, the station said.

The station held there is no illegality in a network representing a non-owned station and that a rule against this would needlessly restrict the station's choice.

Rest of the Reps • Station Representatives Assn. plumped for the divorce of both tv and radio networks from representing independent stations in the spot field.

The strength of the network bargaining position due to affiliation makes it difficult for independent station representatives to solicit national sales representation contracts from licensees where the network also is in the same business, it said.

SRA stressed what it called the inherent conflict of interest involved when a network acts as a station representative for an affiliated outlet. On the one hand it is selling network time; on the other, spot sales. Each is competitive with the other, with the net-

No second helping

If a political candidate declines a broadcaster's offer of free time to participate in a conference-type program with his opponents, he can't force the broadcaster to give him free time for a monologue later, the FCC ruled last week.

The Commission ruled to this effect at the request of Alvis H. Temple, WKCT Bowling Green, Ky., president of the Kentucky Broadcasters Assn. Mr. Temple told the FCC a group of Kentucky radio stations had invited all Democratic and Republican candidates for nomination for governor and lieutenant governor to participate in the discussion hookup, but only about half had accepted. He asked if the broadcasters, under Sec. 315, would be required to offer equal time to those who declined the offer or didn't show up for the hour-long broadcast.

The stations involved were not indicated in the correspondence.

work aspect by far the most important to the firm, SRA said.

This gives the network the incentive to see that its represented stations maintain a close relationship between national spot rates and network rates "so as not to encourage the diversion of advertising revenues from network business to spot business," it charged.

Relative Emphasis • In addition, SRA stated, since both the network division and the network's spot sales division are working for the same owner, "an accommodation must be made between network sales effort and national spot sales efforts. National spot sales cannot be pushed so vigorously as to cause a dip in network revenue—the principal business interest of the company."

In its proposed rule language, SRA emphasized that the bar against networks acting as spot sales representatives would apply not only to networks as such but also firms or persons who are under common control with a network organization. It suggested that the rule become effective in 30 days, except where a station is now being represented by a network, where the prohibition becomes effective in two years.

Petry Text • Edward Petry & Co., supporting the proposed rule, said it also should be applied to radio. Petry said that when network tv and national spot sales are under the same ownership, one of them inevitably must suffer because "these two time products are competitive." Petry said it doesn't believe the networks have used pressure to establish artificial spot rates, but that networks have special advantages because of their ownership of stations in the biggest markets. National sales representation is not the function of a network, as ABC's position proves, Petry said. The representative added that though a network may not have consciously used affiliation as a pressure on stations, that power, nevertheless, puts it in an "unmatchable position."

Petry said that if the proposed rule is adopted, a two-year "grace" period for stations to move to another representation firm is not "reasonable, practical or necessary." Six months is enough, Petry said.

The Radio Side • CBS Radio—in a separate filing in reference to the Commission's request that comments on the television representation question also relate it to radio—declared that "there is such an obvious lack of need for a [divestiture] rule in radio that the inquiry should be dismissed.

The point made by CBS Radio was that in 1948 at a hearing before the FCC on the question of network representation of radio stations, the fear was expressed by the then National Assn. of Radio Station Representatives that networks might in the future subordinate spot sales to network sales.

This has not proved out, CBS Radio said since (1) radio national spot sales have increased (from $104,759,761 in 1948 to $169,511,000 in 1957); (2) the number of standard broadcast stations have increased from 1,824 in 1948 to 3,097 in 1957; (3) the number of independent national spot representatives has increased from 55 (representing 1,135 stations) in 1948 to 110 (representing 1,910 stations) in 1958.

CBS Radio also cited decreased advertising expenditures for national radio networks (from $137,618,799 in 1948 to $47,951,000 in 1957), and the lessened percentage of total radio advertising expenditures attributed to network (from 37.5% in 1948 to 10.5% in 1957), with the concurrent percentage increase in national spot expenditures for the same period (21.5% in 1948 to 30.2% in 1957).

Opposition to the inclusion of radio in any rule prohibiting networks from representing non-network owned stations in the spot sales field was expressed by five stations represented by CBS Radio Spot Sales.

The stations—KOIN Portland, Ore.;

WILLIAM TELL

WILLIAM TELL PACKS THE BIG SELLING PUNCH! And whatta punch! Socko in Cleveland with audience research comments like this: "well acted," "wholesome," "fast-moving," "suspenseful.*" Socko in Pittsburgh, Houston, and all around the country for such advertisers as Meadow Gold Dairy, Fisher Foods, and Lucky 7 Stores. And soon William Tell comes out swinging in 5 new markets via the Triangle stations who've just bought into the big excitement. What's more, William Tell keeps punching for advertisers with unprecedented merchandising, on-the-air, at-point-of-sale, everywhere! And it's all part of the buy...when the buy is "THE ADVENTURES OF WILLIAM TELL."

NTA PROGRAM SALES A DIVISION OF NATIONAL TELEFILM ASSOCIATES, INC., TEN COLUMBUS CIRCLE, NEW YORK 19, JUDSON 2-7300

KSL Salt Lake City, Utah; WBT Charlotte, N. C.; WCCO Minneapolis, Minn., and WTOP Washington, D.C. —maintained that this business accounts for only a small segment of the industry.

Five CBS affiliates and three NBC-represented affiliates make up only 2% of all CBS and NBC radio affiliates, less than .3% of all radio stations.

Past 11 Years • Predictions of dire consequences made at the 1948 FCC hearing on station representation by networks have failed to materialize, the group noted. The data presented was much the same as those submitted by CBS Radio (see above).

The group stated:

"The Commission should not institute any proceeding looking toward adoption of any rule prohibiting independently owned stations from being represented by CBS Radio Spot Sales. It does not have legal power . . . there is no affirmative public interest reason which would justify the Commission's interference with the business relationship between stations and their sales agents."

Regional Aspect • Intermountain (regional radio) Network said consequences of extending to radio a similar rule as that proposed for tv would be unfortunate for regional operations. Since such a rule for radio would follow that proposed for tv, the proposed rule for tv should be "carefully phrased" to limit its applicability to national tv networks in the business of national spot sales, Intermountain said. Intermountain said there apparently is no problem in radio similar to that in tv and that it would be "most unfortunate" if the FCC foreclosed with such a rule the type of business now carried on by regional radio networks.

AT&T toll protested

The FCC was asked last week by WSAZ-TV Huntington, W.Va., to order American Telephone & Telegraph Co. to refund $5,436 in charges passed on to the station by NBC-TV for "certain extra interexchange and/or interconnection charges" made from April 29 to Sept. 28, 1958.

WSAZ-TV said it "believes" the charges were made to NBC by AT&T's Long Lines Dept. for tv transmission channels between Columbus, Ohio, and Huntington. WSAZ-TV said Long Lines previously had "agreed" no such extra charges, besides the NBC monthly charges, would be made, but that at the beginning of the period in question AT&T "started a new form of billing to NBC," requiring the network to pass on the extra charges to the station.

WSAZ-TV asked the FCC to issue a cease and desist order and require a refund plus "reasonable" attorney's fee.

A SWAP TO GET MORE VHFS?

FCC, OCDM in long-range allocations talks

The FCC announced last week that it is conducting joint long-range planning with the Office of Civilian & Defense Mobilization on overall civilian and government frequency allocations.

This is the first official word that the FCC and the executive department are exploring the possibility of swapping frequencies in order to add more vhf channels to the television allocations.

Informally, the news has been known for some weeks.

The statement stressed one significant factor—time. It said that the consultations are for the purpose of producing "an improved pattern of frequency allocations which could be implemented within the next 10 or 15 years."

The program, the Commission said, will be on a continuing basis. One of its aims will be to "simplify" allocations for radio "including television."

The technical studies are being made jointly by the Interdepartment Radio Advisory Committee (IRAC) and the Commission staff.

It also stated that the industry would be called on for information on the anticipated state of the radio art.

What's the Timetable? The long range program, the announcement said, is planned for the future—well beyond the studies already completed for the 1959 Radio Conference (scheduled to be held in Geneva this summer).

The statement said that this is a new approach in government planning for the long-term future in the field of frequency allocations. Before this, it was explained, conclusions were coordinated after individual plans had been made by the FCC and the government.

Although the announcement referred broadly to the entire field of radio communications, it was understood that the initial objective was the tv allocations situation.

This involves the possibility of the exchange of the present uhf tv frequencies for additional vhf bands, now used by the government services, primarily the military services.

The announcement of the FCC-OCDM consultations came a week after the FCC's approach to the tv allocations problem was released (BROADCASTING, April 27).

Shoehorning Assailed • Only one reaction to the Commission's statement on tv allocations was announced. This was by the Assn. of Maximum Service Telecasters, the organization which represents major tv stations in most of the big markets.

AMST warned that plans for an interim solution—drop-ins of additional vhf channels in "critical" markets by cracking the mileage separation standards—would be fought.

The association said it would "vigorously" support the FCC in its efforts to secure more vhf frequencies from the military.

Its objections to the drop-in plan stems from its feeling that such a move would place the FCC in an inferior bargaining position with government agencies. The interim action, AMST said, is premature.

The group's board met in Washington April 25 and 26, the weekend following the release of the FCC's tv allocations plan.

AMST said that if the FCC did move forward to add more vhf channels in "critical" areas waiving existing mileage separations between stations, it should adopt a policy of "careful preplanning."

This policy should have two aspects, AMST said:

• Proper standards of selection should be established to govern any departure from present minimum spacing requirements and to circumscribe them to instances where they are in fact "most critical shortages."

• Firm engineering standards should be established fixing limitations beyond which no impairment would be permitted of the service provided by existing stations to the public.

The organization opposed the FCC's avowed intent to follow a case-by-case policy on drop-ins.

Lester W. Lindow, executive director of AMST, explained:

"The members of this group are operating television broadcasting facilities at the maximum service permissible by Commission regulations. The Commission wisely has rejected, to this time, many proposals for reduction of co-channel and adjacent-channel mileage separation, thus insuring the fullest possible service of this medium to the American public.

"Any reduction in mileage separation in our present system of television can lead to interference which would particularly damage reception now enjoyed by rural-small town America."

High Saturation Statistics • Mr. Lindow said 99% of the American homes are within the service area of at least one tv station. He also called attention to a recent A. C. Nielsen Co. report which indicated that 98% of U.S. tv homes receive at least two signals, 94% at least three, and 81% at least four. Mr. Lindow stated that the average American home receives five different tv signals.

Television service should not be re-

INFLATION...

Here's where inflation <u>really</u> hurts you

You really feel inflation when you get to the check-out counter. That is when the dollars you have in your pocket seem to vanish fast.

Some people *think* they benefit from a little inflation — for a while.

The awakening comes when they find they are *paying* more and more for less and less — that more dollars are needed for the things that cost fewer dollars a while back.

That's inflation.

Inflation is caused by a lot of things. But one of the most important is rising labor costs without a substantial increase in the nation's productive efficiency. The reason: 75 percent or more of the final cost of what you buy goes for labor.

It's kind of a chain reaction. With each round of wage and price increases, your dollars lose another chunk of purchasing power.

If things keep on this way another twenty years — or ten — or five, what will you get for your dollar? What will happen to your savings, your insurance, your pension plans ... your children's education?

Isn't it time to stop this spiral that eventually robs you of your future security?

This message is being brought to you by

REPUBLIC STEEL

as a member of the

AMERICAN IRON AND STEEL INSTITUTE

Republic Steel serves the food industry from farm to grocery. Republic is one of the largest suppliers of steel for farm machinery; of stainless steel for food processing equipment; of high strength alloy steels for trucks and trains; and of galvanized or Electro Paintlok® steel sheets for the counters, racks and cash registers of grocery stores.

duced, whatever plans are adopted, Mr. Lindow said. He added:

"It would be paradoxical if any plans designed to improve the public's television service resulted in degraded or impaired service."

The AMST board also supported the suggestion of the Commission that legislation be passed by Congress requiring all tv receivers in interstate commerce to be equipped to receive all tv channels.

It also urged the maintenance of all of the existing 12 vhf tv channels. In the FCC's discussion of alternative plans, there are two instances where it foresaw the possibility of an expanded vhf service beginning with the present ch. 7 (174-180 mc).

In the resolution passed unanimously by the board, AMST stated:

"That wide area television service should be maintained on the existing 12 vhf channels in order to provide maximum television service for the American people, including rural and small town America, and that the FCC minimum spacing requirements are the only existing FCC standards which assure such service and should continue to be the basic standards to assure such service."

ABA ethics bill offered in House

Proposals by the American Bar Assn. to establish standards of conduct for FCC and other agency hearing proceedings of record were introduced last week by Rep. Oren Harris (D-Ark.), chairman of the House Commerce Committee.

The ABA bill would add a new section to the Communications Act reading: "In agency hearing proceedings which are subject to notice and opportunity for hearing and required by law to be based upon a hearing record, the agency's determination and decision shall be based solely and exclusively upon the issues, pleadings, evidence and contentions of record in the proceedings." The provision would not apply to administrative actions and rulemaking proceedings.

Commissioners and staff personnel would be prohibited from taking part in ex parte contacts and all communications would be made a part of the public record. Those making off-the-record presentations or commissioners failing to report same would be subject to a $10,000 fine and/or one year in jail.

In introducing the ABA bill, HR 6774, Rep. Harris told the House that it covers some of the same problems as HR 4800, which he also introduced, The two bills also differ in some respects, he said.

Rep. Harris said that both bills will be the subject of future hearings by the House Commerce Committee, of which he is chairman. "It is my hope that by introducing this bill witnesses interested in this subject will take occasion to study and compare the two bills," he said.

HR 6774 also has sections dealing with five other independent agencies, as does HR 4800.

Drawn-out Mack trial may go another month

The Miami ch. 10 conspiracy trial of former FCC Comr. Richard A. Mack and his friend Thurman A. Whiteside ground through its fourth week last Thursday amid indications from counsel it may last into June.

Witnesses were Myrtle Adams (April 27), head of FCC's auditing section, who concluded testimony begun the week before on Mack-to-Whiteside long distance phone calls; FCC Chairman John C. Doerfer (April 28), who testified on voting practices at the time the FCC made the March 1957 award of ch. 10 to Public Service Tv Inc., subsidiary of National Airlines; and William Y. Stembler (April 28-30), president of the Whiteside-controlled Stembler-Shelden Insurance Agency, on payments made by the agency from 1955 to 1957 to Mr. Mack or to Andar Inc., a firm given to Mr. Mack by Mr. Whiteside.

Federal District Judge Burnita S. Matthews denied requests by defense counsel Nicholas J. Chase (Mack) and Arthur J. Hilland (Whiteside) that she disqualify herself in the case. They charged her with bias and with influencing the jury against the defendants. She denied this.

Why the Delay • Chairman Doerfer said the FCC grant was held up a month to answer inquiries made by three senators, A.S. Mike Monroney (D-Okla.), former Sen. Frederick G. Payne (R-Me.) and Alan Bible (D-Nev.). He didn't say what the senators had asked.

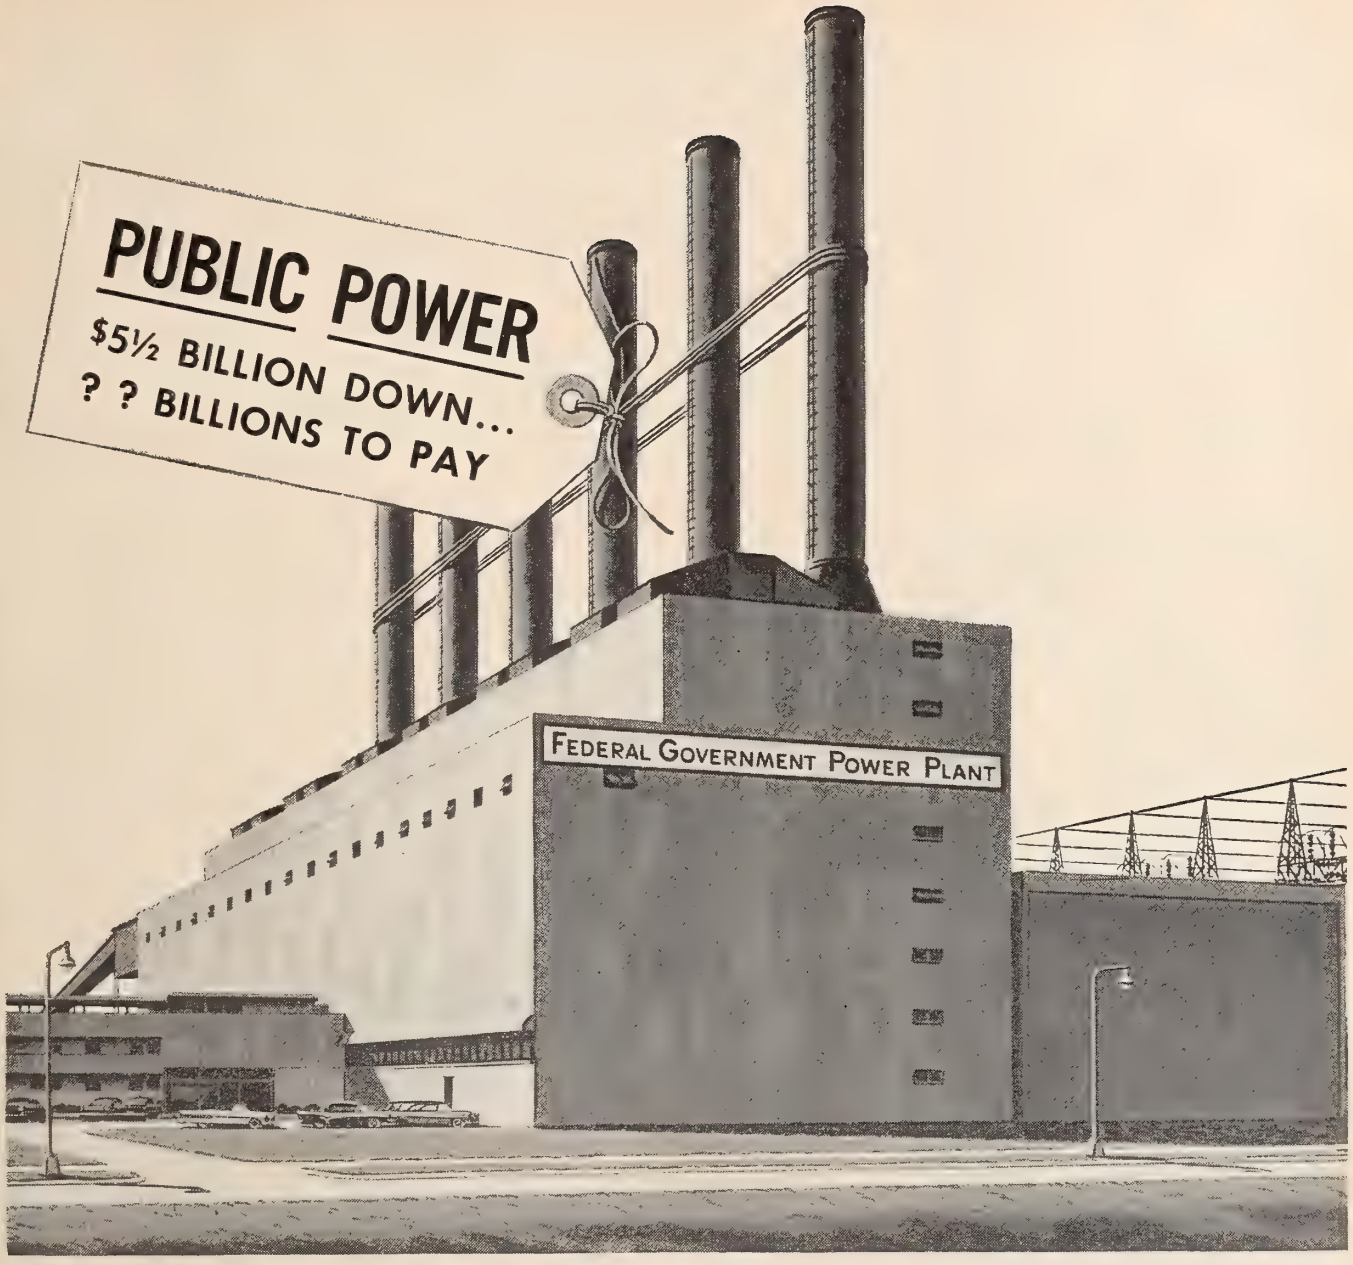
The FCC chairman, who appeared under subpoena before his departure for Tokyo (Pacific cable talks) last week, said there were differing views as to how many votes at the time were needed to make a valid grant. He said he himself felt that if a quorum were present a majority vote would determine the award—or a plurality where there were three applicants. (The FCC vote was 4-2 for PST, Comr. T.A.M. Craven abstaining; defense lawyers have held that the award could have been made with a 3-2 vote and that Mr. Mack's vote was not needed in the grant.)

Questioning on Chairman Doerfer's views on this was dropped after Mr. Chase objected.

Mr. Stembler, testifying on Stembler-Shelden payments to Mr. Mack, said Mr. Mack's account with the firm was continuously overdrawn while he was on the FCC. He added that so was his own and Charles F. Shelden's. The witness pleaded poor memory of many of the transactions listed on the company's subpoenaed records and said the information would have to come from Mrs. Elaine Wood, the company bookkeeper, who presumably will be called in to testify.

In one joust between defense lawyers and Justice prosecutor J. Frank Cunningham, Mr. Chase charged Mr. Cunningham with asking Mr. Shelden an unfair and leading question. He asked that the trial be stopped and that the record be forwarded to Mr. Cunningham's boss, Attorney General William P. Rogers, for study. Both requests were denied.

New Witness • Defense counsel said Chairman Warren G. Magnuson (D-Wash.) of the Senate Commerce Committee has agreed to testify without subpoena on the committee's 1955 hearing of Mr. Mack's nomination to the FCC. Mr. Chase said testimony will be designed to indicate Mr. Mack's "state of mind" during the adjudication period of the ch. 10 case. This has to do, he said, with senators exhorting Mr. Mack to help overcome the "regulatory lag" by speeding up proceedings in tv contests and thus bringing early tv service to U.S. cities.



Harris plans hearings on eight etv bills

Rep. Oren Harris (D-Ark.) last week announced that his Communications Subcommittee of the House Commerce Committee will hold public hearings May 12-13 on eight bills designed to grant federal aid for educational tv.

Among the bills slated for consideration is S 12. co-sponsored by Sens. Warren Magnsuon (D-Wash.) and Andrew Schoeppel (R-Kan.), which already has passed the Senate this session over White House objections. The Senate bill would grant each state and the District of Columbia up to $1 million for the establishment and improvement of etv facilities.

Also to be considered are HR 32 by Rep. Hale Boggs (D-La.), HR 1981 by Rep. Stewart Udall (D-Ariz.), HR 2926 by Rep. Kenneth Roberts (D-Ala.), HR 3043 by Rep. Morgan Moulder (D-Mo.), HR 3732 by Rep. John Foley (D-Md.), HR 4284 by Rep. Harris McDowell (D-Del.) and HR 4572 by Rep. Alvin Bentley (R-Mich.). All except the Roberts bill are very similar to S 12.

Rep. Roberts' proposal would allocate up to $1 million to each state for etv, provided that the federal ap-

Is the U.S. buying socialism on the installment plan?

There's clear evidence that socialism is being sold to Americans on time.

So-called "public power" has already put 1/5th of the country's electric generating capacity into the federal government's hands. And the taxpayers have footed the bill—to a total of $5,500,000,000.

But this is only a down payment according to the plans of the lobbyists for federal government "public power." They are pressing for an *additional* $10,000,000,000—almost twice as much more.

And from any economic point of view, this multi-billion-dollar spending is unnecessary. For the country's hundreds of *independent* electric light and power companies are ready to provide amply for America's growing power needs—and *without* depending on taxes.

Federal "public power" can go on spending and spending largely because people don't realize they're paying for it—and don't see the socialistic implications.

But it can be stopped—by informed and understanding people. Will *you* help spread the word?

America's Independent Electric Light and Power Companies

Company names on request through this magazine

propriation is matched dollar-for-dollar by the state receiving funds. In addition, $10,000 in federal monies would be granted each state to survey its need for etv.

The Alabama Democrat, a member of the parent committee, said that he would urge the subcommittee to adopt his bill over the Senate-passed measure. He said the matching-funds grant is preferred because of the current federal budget situation and it would be fairer to states which already have established etv stations. Rep. Roberts plans to amend HR 2926 to specify that states which already have invested in etv may get matching federal funds based on current value of existing facilities.

Sen. Magnuson said last week that he would be willing to discuss with the House proposed amendments to his bill. He did not, however, state whether he would accept the matching-funds provision of the Roberts bill.

During the 85th Congress, the Senate passed an identical etv bill authored by Sen. Magnuson. Just prior to adjournment last summer, the House Commerce Committee approved the measure but it never reached the House floor. The Dept. of Health, Education & Welfare, which would administer the etv funds under provisions of all the bills, has objected to the proposals on the grounds federal aid to etv is not needed. The Budget Bureau also is opposed.

Subpoena delayed

Subpoena of correspondence by WSPA-TV Spartanburg, S.C., with Sen. Strom Thurmond (D-S.C.), former state Gov. and former U.S. Secretary of State James F. Byrnes and the FCC was withheld last week in the court-remanded rehearing in the Spartanburg ch. 7 case. FCC Chief Hearing Examiner James D. Cunningham said he will rule on the subpoena requested by uhf WAIM-TV Anderson, S.C., sometime this month after counsel for WSPA-TV and WAIM-TV have submitted briefs on WSPA-TV's move to quash the subpoena.

WAIM-TV, in whose favor the U.S. Court of Appeals in Washington ruled last May in remanding the FCC's grant to WSPA-TV to move its transmitter to Paris Mt., asked that such correspondence from 1954 to the time the appeals court issued its 1958 ruling, be subpoenaed. Joining in WAIM-TV's appeal was WGVL (TV) Greenville, S.C., a uhf outlet now off the air.

The court decision remanded the FCC's decision of July 1957 (reaffirming a 1954 grant to WSPA-TV), saying the FCC failed to justify the service curtailment resulting from the grant to WSPA-TV to move its transmitter site from Hogback Mt., outside Spartanburg, to Paris Mt., nearer Greenville, S.C. The court also refused to accept the FCC's ruling of "excusability" for a misrepresentation issue raised by the two uhf outlets.

Property rights test filed in Idaho court

Suits to determine whether a television station has a property right in the signal it disseminates and the programs the signal carries were filed Wednesday (April 29) in an Idaho federal district court by three Salt Lake City tv stations.

The suits—by KUTV (TV), KTVT (TV) and KSL-TV—were filed against Cable Vision, a community antenna operation in Twin Falls, Idaho, and Idaho Microwave Inc., common carrier which plans to relay programs of the three stations to the Twin Falls catv system by microwave. Both are controlled by W.L. Reiher. The stations asked a permanent injunction to halt the catv system's planned expansion in Twin Falls by microwave pickup and relay.

NAB Chief Counsel Douglas A. Anello said last week his organization hopes the suit will determine "once and for all" the question of the rights a broadcast station has in its signal, particularly use of the signal for commercial purposes without its consent. He said he understood the National Community Tv Assn. also is anxious to have this question resolved.

KUTV, an ABC-TV affiliate, said it sells KLIX-TV Twin Falls the right to pick up and rebroadcast its signal, KLIX-TV having an agreement with ABC-TV to use network programs. The proposed catv operation would cause KUTV to lose its fee for KLIX-TV's right to rebroadcast, the station said in its suit.

The Salt Lake City outlet also said the community antenna would deprive KUTV of the fruits of its efforts with no compensation; interfere with property and contractual rights; possibly degrade the KUTV signal and thus cause a loss of goodwill; and cause KUTV to have to pay more for talent, performers and program product to the extent that these are deprived of a market in Twin Falls where they can sell their talent, performances and products.

KTVT and KSL-TV joined the action on similar grounds but are not involved in the sale of any rebroadcast rights.

Cable Vision began operation in May 1955 and carries the signals of KBOI-TV and KTVB (TV) Boise, KID-TV Idaho Falls and KLIX-TV.

Rep. Shipley pushes am daytimers' fight

Daytime am stations' continuing fight for longer wintertime hours again was put before Congress last week. Rep. George E. Shipley (D-Ill.) introduced a bill, HR 6676, authorizing daytime stations to operate "at least from 6 a.m. to 6 p.m."

The question of extending operating hours of daytimers long has been before the FCC and the Senate held hearings on the subject two years ago. Comments are due Wednesday (April 8) on Commission rulemaking to permit daytime-only stations to operate from 6-to-6 or from local sunrise to local sunset, whichever is longer.

Under current requirements, daytimers cannot sign on before local sunrise and must sign off at local sunset.

Rep. Shipley pointed out that of 1,700 daytime stations, over 1,000 are in cities not served by a fulltime outlet. "Through federal government regulation, we are making them second-class citizens," he charged, "actually discriminating against them." He said the small local community station is more vital today than ever before.

"Revisions are long overdue to keep in step with the listening habits of our people," Rep. Shipley maintained. "Today, man lives by the clock, not by the sun. Engineers may try to confuse the issue with technical details, but this goes much deeper. It is a moral and social issue that will grow in magnitude unless something constructive is done immediately by the U.S. Congress."

In the spring of 1957, a special subcommittee of the Senate Small Business Committee under Sen. Wayne Morse (D-Ore.) held lengthy hearings on the subject. The following September, the subcommittee issued a report charging the FCC with "inaction" and "discrimination" against daytime broadcasters (GOVERNMENT, Sept. 16, 1957).

Beaumont reopened

The Beaumont, Tex., ch. 6 case was reopened and designated for further hearing by the FCC last week in the wake of a ruling by the U.S. Court of Appeals for D.C. At the same time, the Commission instructed its staff to prepare an order for the Biloxi, Miss., ch. 13 case, opening it for further hearing.

The Appeals Court had remanded the Beaumont proceeding to the Commission (BROADCASTING, Feb. 2) on the issue of the nature of $55,000 expense money paid KTRM Beaumont for its withdrawal from the case. Ch. 6 Beaumont was originally awarded to Beaumont Broadcasting Corp. (KFDM) in

1954 and is currently operated as KFDM-TV. The *Beaumont Enterprise* (KRIC) was the other unsuccessful applicant in the case and appealed the FCC decision to the Court.

The Court had remanded the Biloxi case to the Commission (BROADCASTING, Sept. 22, 1958) on the question of control and financial qualifications of the winning applicant, Radio Associates Inc. Radio Associates operates KVMI Biloxi. WLOX Biloxi, losing applicant, had taken the case to court.

Electronics Capital registers with SEC

Electronics Capital Corp., San Diego, Calif., which plans to provide capital to selected small electronics companies with growth potential—primarily through the purchase of convertible debentures—last week filed a registration statement with the Securities & Exchange Commission. Under provisions of the Small Business Investment Act of 1958, (which encourages investment of venture capital in small business) the corporation, headed by Charles E. Salik, former owner of KCBQ San Diego, will obtain tax benefits for shareholders.

The corporation will offer 1,200,000 shares to the public at $10 a share through an underwriting group headed by Hayden, Stone & Co.

Prior to the public stock offering, Charles E. Salik and David Salik, San Antonio, Tex., manufacturer, will each purchase 46% of the corporation's capital stock (15,556 shares each) for $305,001 ($9 a share).

Richard T. Silberman, executive vice president and treasurer, will own the remaining 8% of the capital stock. Mr. Silberman is a director of Cohu Electronics, San Diego.

After the public stock sale, control will shift from the Messrs. Salik into the hands of public owners.

Electronics Investment Management Corp., San Diego, will act as economic, technical and statistical consultant to Electronics Capital Corp. Executive offices are in the Bank of America Building, San Diego. Charles Salik is president. Bernard Koteen, Washington attorney, is listed as secretary and legal counsel of ECC.

ABC-TV in Tijuana

A Mexican tv outlet will continue to receive ABC-TV programming according to an FCC decision last week, despite an across-the-border dispute with KFMB-TV San Diego.

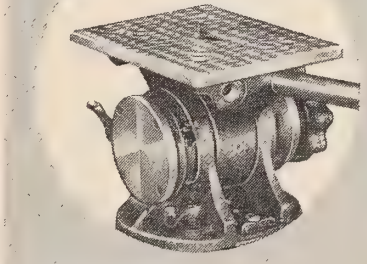
The Commission granted a one year renewal of ABC-TV's permit to transmit programs to XETV (TV) Tijuana and denied a request by KFMB-TV to revoke the permit. KFMB-TV has moved against the Mexican outlet on a number of fronts in recent weeks (BROADCASTING, April 6), declaring that XETV has misrepresented itself as an American station.

• Government notes

• The FCC budget in 1968 will be about $15 million, a report by Dr. Otto Eckstein, Harvard U., for the Committee for Economic Development indicates. The report projects trends in public expenditures over the next decade. According to Dr. Eckstein, the FCC budget will increase from the $8 million spent in 1958 to: $10 million, 1959; $11 million, 1960 and '61; $12 million, 1962 and '63; $13 million in 1964, and $15 million in 1968. The FCC budget for fiscal year 1959 exceeds $9 million.

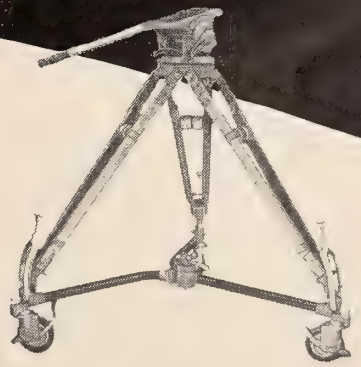
• KGAK Gallup, N.M., which programs Indian language shows, has filed with the FCC for location of a studio at Window Rock, Ariz., headquarters of the Navajo people. The station wishes to originate all Navajo broadcasts from Window Rock, with 4½ hours per day directed to the Indians.

• KRON-TV and KGO-TV, both San Francisco, were designated by the FCC last week for a consolidated hearing on applications for antenna changes. KRON-TV (Chronicle Publishing Co.) wants to increase its antenna height



Portable
Versatile
Dependable

CECO* Vidicon
SUPPORT EQUIPMENT
gives top performance—Indoors or Outdoors



Expressly designed for the ever increasing TV field, this equipment consists of a pan and tilt Tripod Head with internal Balancing spring. Vidicon Cameras with electronic viewfinder can be easily mounted and operated. The head mounts on the CECO Professional Tripod (or any other standard mounting flange) and the CECO Pro Senior Collapsible Three Wheel Dolly makes this a complete versatile package.

Specifications:
CECO Vidicon Head designed for use with a variety of Vidicon cameras, weighing from 45 pounds up. Vertical and horizontal movement of tilt head controlled by independent friction locking devices. Super-smooth action.
Tripod folds quickly and compactly. Offers a height range from 36 to over 53 inches. Double leg locks.
Pro Senior Collapsible Dolly is lightweight and compact. Rubber-tired wheels may be locked or set in a straight line position.

Professional Jr. Spring Head
Ideal for Viewfinder Vidicon Cameras weighing up to 35 lbs. Internal balancing spring. Built-in spirit level. Fits standard Pro Jr. Tripod, Baby and Hi-Hat (low mount).

CECO trademark of
Camera Equipment COmpany

FRANK C. ZUCKER
CAMERA EQUIPMENT CO., INC.
Dept. B 315 West 43rd St., N. Y. 36, N. Y. JUdson 6-1420

from 1480 ft. to 2049 ft. and makes changes in its antenna system. KGO-TV (American Broadcasting-Paramount Theatres) has applied to increase antenna height from 1,348 ft. to 1,811 ft. and change its transmission line. A petition for a consolidated hearing was brought by KGO-TV. The Commission, in granting it, denied a petition by KRON-TV for an immediate grant and made the Dept. of Defense and the Federal Aviation Agency parties to the proceeding.

• KJCF Festus, Mo., was granted a power increase by the FCC on April 29, to operate on 50 kw, day, directional. The station, which is on 1010 kc, and had a power of 250w, was also granted the right to identify itself with St. Louis as well as Festus. The Commission at the same time granted the sale of KJCF from Donald M. Donze to Garrett Broadcasting Inc. (Cora Lee Garrett) for $51,500 plus an employment agreement with Mr. Donze and KJCF Chief Engineer Russell Seals Jr.

• Two tv outlets were granted waiver of FCC rules by the Commission April 29 to enable them to use dual identifications. Ch. 11 KTNT-TV is permitted to identify itself as a Seattle station as well as Tacoma. Ch. 15 WTAP-TV Parkersburg, W. Va., is allowed to identify itself also as Marietta, Ohio.

• The Federal Communications Bar Assn. will hold a luncheon meeting with FCC officials this Friday (May 8) in Washington's Willard Hotel, it has been announced, to discuss the new Commission cutoff policy on am application processing (BROADCASTING, April 13). On April 29, the FCC denied an FCBA petition to postpone from May 16 to June 15 the effective date of the new procedure. Among the issues involved, according to the FCBA, were ones on possible violation of "McFarland rights" as well as Sec. 4 of the Administrative Procedure Act.

• The chairmen of both the Senate and House Commerce Committees last week introduced bills carrying out recommendations made by the FCC placing certain restrictions on community antenna operations (BROADCASTING, April 27). Under both measures, CATV systems would be required to receive permission from any tv station before rebroadcasting its signal and to offer the programs of a local station. The bills were introduced by Sen. Warren Magnuson (D-Wash.), S 1801, and Rep. Oren Harris (D-Ark.), HR 6748.

PROGRAMMING

GUILD KEEPS SEC WAITING

U. S. in court to get financial reports

Guild Films, its officers and directors and its subsidiary Interworld Tv Films Inc. ran afoul of the Securities & Exchange Commission last week for failure to file a number of reports. The SEC went into U.S. district court in New York to seek mandatory and permanent injunctions which would (1) see that the overdue papers are filed and (2) that the companies keep up to date in the future.

The SEC's complaints, one naming Guild and its officers as defendants, the other naming Interworld and Guild and the same roster of officers, dealt with failure to file annual reports, semi-annual reports and current reports. The actions were taken after Guild missed both its filing deadline for the annual report, due March 31, and a 20-day extension it had asked and received. A second extension was refused by the SEC, and the court action instituted.

Current reports are required on the 10th of the month following transactions which significantly affect ownership or operation. In the case of the Guild complaint, the SEC charged the company did not report: (1) a deal to sell $3.6 million in tv time to Bon Ami Co. in August 1957; (2) the sale of $8 million in tv time to Nestle Lemur and Glamorene; (3) an agreement in October 1957 to purchase 173,000 Guild shares from Robin International Corp. for $519,000; (4) the transfer to Standard Sulphur (the old name for Interworld Tv) of foreign residual property and distribution rights to the Guild Films library in exchange for stock of Standard Sulphur; (5) reports on the annual meetings of May 1957 and July 1958; (6) sale to Chatham Corp. of $1.25 million in tv time, and (7) acquisition of the *Minutes of Prayer* series from Reynard International.

(The name of Chatham Corp. cropped up during the SEC's actions against Alexander L. Guterma, ex-head of the Mutual Broadcasting System and Hal Roach Studios, as did that of Bon Ami, which Mr. Guterma also once headed. Guild itself was mentioned frequently in papers on that case in regard to tv time transactions.)

Other Omissions • The SEC also said Guild failed to file corrected annual reports for 1955 and 1957, its 1958 annual report, and the semi-annual report for May 1958.

In the complaint against Interworld and Guild the SEC said annual reports were missing for 1957 and 1958, semi-annual reports for the same years, and current reports on actions relating to bankruptcy proceedings against Standard Sulphur, as well as a report on the 1958 annual meeting.

Defendants in the complaints, besides the two companies, are John J. Cole, president and director; George J. De Martini, vice president, secretary and director; Irving Feld, vice president and director; Arthur R. Lerner, treasurer and director, and directors Irwin Margulies, Harry McDonald, Kenyon Brown, C.W. Alden Jr. and Gerald Dickler.

Guild and Interworld have 20 days to file answers to the SEC complaints. Mr. Lerner, speaking for the companies, indicated the reports were held up by a change in outside auditors, and that the companies planned to submit the reports to the SEC last Friday.

Other Headlines • Guild also came in for public mention last week in the annual report of Bon Ami Co. President R. Paul Weesner said the company is filing a claim against Guild for "substantially overcharging" for tv spots last year.

The Bon Ami-Guild deal, he said, called for delivery of $1,250,000 of tv time at end card rates for which Bon Ami paid $830,000. As of Dec 31 Guild had delivered $882,085 of the time at "alleged end card rate value" (which the company said represented $585,347 of its investment), leaving undelivered $244,653 of the company's investment, which presumably would be worth $367,915 at end rates. Mr. Weesner did not say how much he thought Bon Ami had been overcharged.

5-year 'Rinty' sale

General Mills Inc., Minneapolis, has bought multiple-use re-run rights to 195 programs in *The Adventures of Rin Tin Tin* series for a period of five years, it was announced last week by John H. Mitchell, vice president in charge of sales for Screen Gems Inc., New York, producer-distributor of the series. The purchase price was not disclosed.

General Mills plans to use Rin Tin Tin on ABC-TV during 1959-60 on Monday and Friday (5:30-6 p.m.). The program has been sponsored continuously for five years by the National Biscuit Co., New York, through Kenyon & Eckhardt, New York (ABC-TV, Fri., 7:30-8 p.m.). The agency for General Mills is Dancer-Fitzgerald-Sample.

Fox and Webb & Knapp make $56 million deal

Twentieth Century-Fox Corp., New York, revealed last week that the company has entered into an agreement with a subsidiary of Webb & Knapp Inc., New York, to sell its film studio property in Los Angeles for an amount that eventually would reach $56.1 million (CLOSED CIRCUIT, Jan. 19).

Details of the agreement to sell the 260-acre property to a wholly-owned subsidiary of Webb & Knapp, known as 91091 Corp., were contained in a proxy statement sent to Fox stockholders. The transaction is subject to the approval of a majority of Fox stockholders at the company's annual meeting in New York on May 19.

Under the proposal, Fox would retain the right to rent back part of the property to continue producing motion pictures and tv films for a period of 25 years. The agreement does not include Fox's oil and mineral rights on the studio property.

Webb & Knapp is expected to construct a huge development, containing apartment houses, office buildings and shopping centers on the property. William Zeckendorf, president of the real estate company, said he would outline company plans at a later date.

The proxy statement said that funds from sale of the property would be used by the company for working capital, purchase of other assets, retirement of debt and possibly for purchase and retirement of outstanding common stock of the company. Fox's common stock closed at 42 last Monday (April 27) on the New York stock exchange. Stock has hovered between 37 and 42⅝ since January of this year.

Tv on the Fox ledger

The annual report of the 20th Century-Fox Corp., New York, mailed to stockholders last week with a proxy statement (see story above) pointed up the growing importance of Fox's television activities and the company's plans to expand this phase of the business.

The report noted that for the past three years, Fox received a total of $18,990,000 in rentals from National Television Assoc., New York, for 263 features from its pre-1948 library. There remain more than 450 pre-1948 features, of which 52 have been committed to NTA for 1959, the report stated.

In the past four years, Fox produced five tv film series—*The 20th Century-Fox Hour, My Friend Flicka, Broken Arrow, How to Marry a Millionaire* and *Man Without a Gun*. This "limited" production output is being expanded, the report said, with "many television properties in production and in preparation." As previously announced, four dramatic series already have been sold for network showing this fall. They are: *Adventures in Paradise, The Last Frontier, Five Fingers* and *The Many Loves of Dobie Gillis*. The report remarked significantly:

"We hope in time that our television film activity will equal that of our theatre film production."

Token from Tibet • Church World Service for Tibetan refugee relief honored the CBS-TV Public Affairs Dept. for its "contribution in aiding world understanding of recent events in Tibet." Presenting an ancient Tibetan bowl to CBS Newsman Howard K. Smith (r) is the Dalai Lama's brother, Thubten Norbu, who represented the church organization. Mr. Smith has focused on Tibet on his Sunday program, *Behind the News With Howard K. Smith*.

Lasker awards to two

Two network shows won Albert Lasker Medical Journalism Awards announced Thursday (April 30) at an awards luncheon at the Waldorf-Astoria in New York. Winners of the $2,500 cash prize, engraved scroll and a silver statuette were Al Wasserman, producer, writer and director of "The Addicted: Criminal or Patient," a two-part series telecast on CBS-TV's *The Twentieth Century*, and Dave Garroway for his *Today* show on NBC-TV. *Today* was honored for its "overall excellence of day-to-day coverage of significant events in public health programs and medical research in 1958." The Albert Lasker Awards, established in 1949 by the will of the late advertising executive, are made annually to encourage the writing and publication of outstanding articles on public health and medical research. In 1955 the awards were extended to include radio and tv. Mr. Wasserman was honored by the foundation previously for his 1956 CBS-TV show on mental health, *Out of Darkness*.

Radio Press expands quarters and service

Radio Press Inc., New York, radio news agency, last week demonstrated its growth since starting business last November by announcing new and larger headquarters, expansion of service and five executive promotions. (See FATES & FORTUNES, page 88).

George Hamilton Combs, president of Radio Press, reports the company is making "substantial capital investments for the most modern communication center in New York." Although remaining at 18 E. 50th St., the agency has leased the 10th floor which will permit "indefinite expansion," Mr. Combs said.

Radio Press serves its nearly 70 station subscribers with two quarter-hour transmissions daily with from 8 to 15 stories per feed. Set up on a 24-hour basis the agency also can provide feeds to handle emergency situations.

An additional service slated to start this month is a weekly Washington political forum program. It will be a regular Sunday, half-hour feature with guest panelists interviewing government and political leaders, Mr. Combs said.

CBS-TV displays new production method

CBS-TV is staging a network production exhibit in New York to acquaint agencies, advertisers and producers with the latest techniques, devices and materials developed by the network to upgrade live and tape production.

The display includes examples of new plastic forms for scenic architecture, abstract decoration and realistic representation. A full plastic house exterior and an all plastic kitchen have been assembled for visitors.

New optical and projection devices are illustrated by working models. A film explains the importance of Video-Scene in tv production of the future.

CBS officials said that top officials of many of the New York advertising agencies have seen the exhibit over the past few weeks. They declined to pinpoint the economies that can be effected through the use of the new techniques, devices and materials, as these can vary depending on the requirements of the client.

Virginia AP men present news awards

Virginia AP Broadcasters' awards for "outstanding preparation and broadcast of news" were presented Saturday (May 2) at the National Press Club in Washington.

The contests are divided into two major divisions, metropolitan for stations in multi-station cities, and non-metropolitan for others. These are the winners:

Comprehensive newscast (metropolitan) Frank Wilson, WRVA Richmond; Frank Messer, WRNL Richmond; Harry Kevian, WDBJ Roanoke. (Non-metropolitan) James MacNeil, WSVA Harrisonburg; Don Greene, WJWS South Hill; Bob Fulcher, WPUV Pulaski.

State and local (metropolitan) Jack Clements, WRVA; Mr. Messer; Joe Moffatt, WSLS Roanoke. (Non-metropolitan) Dave Taylor, WBBI Abingdon; Vic Avers, WRAD Radford; Wip Robinson, WSVA Harrisonburg.

Commentary, (metropolitan) Bob Story, William D. Montgomery, Jerry Joiner and Paul Hennings, WNOR Norfolk; Harry Monroe, WRVA; Guy Friddell, WRNL. (Non-metropolitan) H. Harry Fuller, WRAD; Tom Carlin, WBOF Virginia Beach; Mr. Taylor.

Sports (metropolitan) Blair Eubanks, WTAR Norfolk; Bob Smith, WRVA; Mr. Messer. (Non-metropolitan) Tubby Walthall, WJWS; Fred Isaacs, WBOF; Wayne Farrar, WTON Staunton.

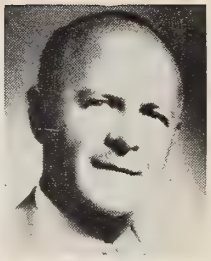
Farm (metropolitan) Doug Ford, WCYB Bristol; John Jennings and Art Glover, WDBJ; Ray Schreiner, WRNL. (Non-metropolitan) H. B. Eller and Dick Wagoner, WMEV Marion; Lindy Seamon, WBBI; Fred Williams, WYTI Rocky Mount.

Special events (metropolitan) Jack Hurst, WLEE Richmond; William D. Montgomery, WNOR; Larry Saunders, WTAR. (Non-metropolitan) Leo Hoarty and Mr. Carlin, WBOF; Joe Gollehon and Bob Wolfenden, WMEV; Phil Doran, WBBI.

Women's news (metropolitan) Alice Friberg, WCYB; Mildred Alexander, WTAR; Barbara Zimmerman, WMVA Martinsville. (Non-metropolitan) Maxine Hilton, WBBI; Virginia Lindamood, WSVA; R.H. Honaker Jr., WTON.

Cited for honorable mention: (metropolitan) comprehensive—Ray Niblack, WINA Charlottesville; sports—Pete Bluhm, WMVA; commentary—Maynard Dillaber, WMVA; farm—Alden Aaroe, WRVA; special events—Dick Kidney, Bob Calvert, Pete Glazer, Jim Stanley, Dan Hydrick and Art Merrill, WGH Newport News. (Non-metropolitan) comprehensive—Wayne Clements, WMEV; and Charles Seebeck, WTON; state & local—Warren Mitchell, WPUV; Keith James, WTON; commentary — Mr. Robinson; sports — John Columbus, WPUV; women's news—Carol Bundy, WMEV; special events—Ray Williams, WTON; farm—Richard Cockrell and Barnes Allen, WBOF.

The WDBJ cup, given to the station providing the best news protection to the AP in the preceding year, goes to WSLS.



Missouri men honored

The U. of Missouri's awards for "distinguished service in journalism" will be presented Friday during its School of Journalism's annual journalism week (May 3-9). Among the 10 cited:

MR. JACOBS

Morris E. Jacobs, president, Bozell & Jacobs Inc., Omaha advertising agency, and chairman of the journalism school's 50th anniversary executive committee; Elmer W. Lower, New York operations director, CBS News, and Irwin A. Vladimir, board chairman, Gotham-Vladimir Adv. Inc., New York agency. In observance of the School of Journalism's 50th anniversary, this year the 10 awards are confined to university alumni.

MR. LOWER

MR. VLADIMIR

The Missouri Broadcasters Assn., meeting on the Columbia campus, will hear Chuck Tower, NAB's administrative assistant to the president in a luncheon address Wednesday. Oliver Treyz, president, ABC-TV, New York, will speak that evening at a session in the Neff Auditorium.

Tv tape syndication pays for KTTV (TV)

KTTV (TV) Los Angeles has told 150 agency executives how its nine-month-old venture into program syndication via video tape has been snowballing into a successful operation. The status report was made by Robert Brechner, program vice president, at the station's second vtr clinic, April 23.

At the time of the first tv tape meeting last summer (BROADCASTING, July 21, 1958) the station was planning to put one of its programs, the hour-long *Divorce Court*, into tape syndication through Guild Films, Mr. Brechner reminded. Today, he reported, *Divorce Court* is being broadcast in 19 markets, producing high ratings for the stations carrying it and "profits in six figures" for KTTV. Two other KTTV programs have also been put into syndication by tape, he said: *Juke Box Jury* through NTA which in less than a month has been sold in eight markets, and *Paul Coates 10:15 Report*, which KTTV has just started to sell, already has been placed in three markets.

Video tape has also helped the Coates show by enabling him to get guests for his nightly interviews who were not available at 10:15 in the evening. Mr. Brechner noted that use of delayed broadcasts by tape had enabled KTTV to get tv rights to an assortment of sports events for which live telecasts would not be permitted. Begun as an experiment, sports-on-tape will be continued, he said, as the delayed telecasts have proved themselves able to attract good audiences, and to get sponsors.

The use of tv tape in producing commercials was discussed by John Vrba, KTTV sales vice president, who showed and described taped commercials for three KTTV clients: Sears Roebuck, Ben Alexander Ford Agency and Gallo Wines, at costs running from $100 each for 10-second commercials using one camera and one announcer, to $1,250 each for elaborate productions with film inserts and other special effects, using three cameras. Both prices are exclusive of talent costs.

Tackling the much-discussed topic of editing taped programs, Edward Benham, KTTV chief engineer, said that splicing is no longer a problem and that today it is possible to edit tape almost as closely as film. "We feel the more editing we can do in the camera, before the action is registered on the tape, the better off we are," he stated. All of the standard optical effects of motion pictures can be produced electronically by the tv camera, he said, showing a variety of wipes and other effects.

Commercials on tape tend to wear out a little faster than the tape itself. Mr. Benham explained, that unless machines on which the commercials are played are in perfect alignment, each play erases a little bit of the taped material, eventually rendering the commercial unusable. He said that on the average a taped commercial is good for about 50 plays, in KTTV's experience.

$100,000 first prize in tv program contest

A contest to find, and finance, several new tv series was announced last week by Financial Credit Corp., New York, commercial banking firm which operates nearly a hundred loan companies across the country. First prize of $100,000 would go to the winning show, with second prize of $30,000, third prize of $20,000 and $1,000 to all films accepted for the contest.

Financial Credit says it would offer to finance those programs which show most promise, but that financing would not be a condition of the contest. Although final plans have not been made, the company says it contemplates showcasing the accepted pilots nationally via either network tv or closed circut. The public would vote on the entries along with invited businessmen, journalists and advertising agency executives.

Financial Credit asks that entries be sent to "Creative Awards," Windsor Towers, 5 Tudor City Place, Penthouse 2209, New York 17, N.Y. The company's announcement of the contest was signed by George S. Groves, president, and accompanied by a consolidated balance sheet as of September 1958 showing total assets over $10 million.

PATH TO PAY TV
Criticism of free tv heartens Paramount

The more commercial tv is damned, the easier the path toward public acceptance of pay television.

That was the impression Paramount Pictures Corp. stockholders were left with last week after digesting the firm's annual report. This covers Paramount's financial status and provides a rundown on its motion picture and adjunct affairs including the wholly-owned International Telemeter toll tv.

And, said Paramount's President Barney Balaban, "Telemeter, with its simple cash 'home box-office,' is ready to take advantage of this public acceptance."

What stimulates public acceptance of pay tv? A trend of increased commercial control of tv programming content. As part of the cycle, Mr. Balaban pointed to an increased volume of brickbats hurled against tv programming by critics in magazines and newspapers.

Sure to Come • Thus, acceptance of pay tv is "inevitable" so long as the anti-commercial tv force continues.

Mr. Balaban also restated his faith that tv will become an "important outlet for motion pictures" through subscription channels, and that pay tv "holds a key to the future of film production."

Also revealed in Mr. Balaban's report:

Paramount is on the way to realize its guarantees from Music Corp. of America which is selling the motion picture firm's pre-1948 feature library to tv stations. Paramount already has received $10 million from purchaser MCA. The latter company in over 10 months has rung up more than $50 million in rental contracts for the films, Mr. Balaban said, meaning that when the contracts are liquidated, the remaining $25 million of the guaranteed $35 million purchase price will be covered. There's also a reasonable prospect for MCA to attain at least the $75 million rental level that will bring in an additional $15 million to Paramount (also part of the original Paramount-MCA deal—a total of $50 million over a period of time).

Film and Tape • Production specifically for tv via film and tape has begun at the Sunset lot with prospects of "utilizing our production know-how profitably."

Paramount is discussing the "problems of commercial use" of the Lawrence single-gun color tube on a mass production basis with "several large American tv set manufacturers." (Chromatic Div. of Paramount overlords the Lawrence tube operation with Allen B. Du Mont Labs, a U.S. licensee, continuing its developmental work.)

A 51% Paramount-owned consolidated subsidiary, Famous Players Ltd., which owns three tv stations in Canada, had a profitable last year and looks forward to "intriguing possibilities" (no details given). KTLA (TV) Los Angeles (KTLA Div. of Paramount) is decreasing filmed shows and laying stress on live programming, including video-taping that opens the way to additional revenue in other markets through syndication.

For the approximately 22% holding in Metropolitan Broadcasting Co. sold last January, Paramount picked up about $4 million in cash, an amount "substantially in excess of our cost of this investment." (This cash will be reflected in the 1959 financial statement).

Earnings were substantial: after taxes, consolidated earnings for last year were over $12.5 million or $7.15 per share. Since these figures include $7.9 million-plus in income from special items, earnings from actual operations were over $4.5 million or $2.60 per share compared with $5.4 million, or $2.80 per share, for 1957.

New tv-tape firm

A new organization, Mobile Video Tapes Inc. is offering to record tv programs and commercials on tape either in a studio or by using its mobile unit, equipped with RCA cameras, an Ampex tape recorder and its own power supply, enabling the unit to record while in motion. President of the new firm is Lester E. Hutson, builder and construction company executive. Other principals are Jack Meyer, Clair Higgins and John T. Allen Jr., former ABC-TV employes. Headquarters are at 1607 N. El Centro, Hollywood, Calif. Telephone: Hollywood 4-7188.

Mobile Video Tapes is currently making pilot tapes for *Congo,* jungle series for Wisberg-Klin Productions; *It's News to Me,* for Joe Landis Productions; *Las Vegas Starwagon, A Date to Remember* and *International House* for Monte Prosser Productions. The firm is also taping for syndication 20 programs of Jack La Lanne's health and exercise series now being broadcast live in San Francisco.

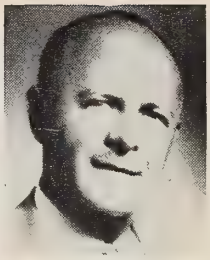
The WDBJ cup, given to the station providing the best news protection to the AP in the preceding year, goes to WSLS.



Missouri men honored

The U. of Missouri's awards for "distinguished service in journalism" will be presented Friday during its School of Journalism's annual journalism week (May 3-9). Among the 10 cited:

Morris E. Jacobs, president, Bozell & Jacobs Inc., Omaha advertising agency, and chairman of the journalism school's 50th anniversary executive committee; Elmer W. Lower, New York operations director, CBS News, and Irwin A. Vladimir, board chairman, Gotham-Vladimir Adv. Inc., New York agency. In observance of the School of Journalism's 50th anniversary, this year the 10 awards are confined to university alumni.

MR. JACOBS

MR. LOWER

MR. VLADIMIR

The Missouri Broadcasters Assn., meeting on the Columbia campus, will hear Chuck Tower, NAB's administrative assistant to the president in a luncheon address Wednesday. Oliver Treyz, president, ABC-TV, New York, will speak that evening at a session in the Neff Auditorium.

Tv tape syndication pays for KTTV (TV)

KTTV (TV) Los Angeles has told 150 agency executives how its nine-month-old venture into program syndication via video tape has been snowballing into a successful operation. The status report was made by Robert Brechner, program vice president, at the station's second vtr clinic, April 23.

At the time of the first tv tape meeting last summer (BROADCASTING, July 21, 1958) the station was planning to put one of its programs, the hour-long *Divorce Court*, into tape syndication through Guild Films, Mr. Brechner reminded. Today, he reported, *Divorce Court* is being broadcast in 19 markets, producing high ratings for the stations carrying it and "profits in six figures" for KTTV. Two other KTTV programs have also been put into syndication by tape, he said: *Juke Box Jury* through NTA which in less than a month has been sold in eight markets, and *Paul Coates 10:15 Report*, which KTTV has just started to sell, already has been placed in three markets.

Video tape has also helped the Coates show by enabling him to get guests for his nightly interviews who were not available at 10:15 in the evening. Mr. Brechner noted that use of delayed broadcasts by tape had enabled KTTV to get tv rights to an assortment of sports events for which live telecasts would not be permitted. Begun as an experiment, sports-on-tape will be continued, he said, as the delayed telecasts have proved themselves able to attract good audiences, and to get sponsors.

The use of tv tape in producing commercials was discussed by John Vrba, KTTV sales vice president, who showed and described taped commercials for three KTTV clients: Sears Roebuck, Ben Alexander Ford Agency and Gallo Wines, at costs running from $100 each for 10-second commercials using one camera and one announcer, to $1,250 each for elaborate productions with film inserts and other special effects, using three cameras. Both prices are exclusive of talent costs.

Tackling the much-discussed topic of editing taped programs, Edward Benham, KTTV chief engineer, said that splicing is no longer a problem and that today it is possible to edit tape almost as closely as film. "We feel the more editing we can do in the camera, before the action is registered on the tape, the better off we are," he stated. All of the standard optical effects of motion pictures can be produced electronically by the tv camera, he said, showing a variety of wipes and other effects.

Commercials on tape tend to wear out a little faster than the tape itself. Mr. Benham explained, that unless machines on which the commercials are played are in perfect alignment, each play erases a little bit of the taped material, eventually rendering the commercial unusable. He said that on the average a taped commercial is good for about 50 plays, in KTTV's experience.

$100,000 first prize in tv program contest

A contest to find, and finance, several new tv series was announced last week by Financial Credit Corp., New York, commercial banking firm which operates nearly a hundred loan companies across the country. First prize of $100,000 would go to the winning show, with second prize of $30,000, third prize of $20,000 and $1,000 to all films accepted for the contest.

Financial Credit says it would offer to finance those programs which show most promise, but that financing would not be a condition of the contest. Although final plans have not been made, the company says it contemplates showcasing the accepted pilots nationally via either network tv or closed circut. The public would vote on the entries along with invited businessmen, journalists and advertising agency executives.

Financial Credit asks that entries be sent to "Creative Awards," Windsor Towers, 5 Tudor City Place, Penthouse 2209, New York 17, N.Y. The company's announcement of the contest was signed by George S. Groves, president, and accompanied by a consolidated balance sheet as of September 1958 showing total assets over $10 million.

PATH TO PAY TV
Criticism of free tv heartens Paramount

The more commercial tv is damned, the easier the path toward public acceptance of pay television.

That was the impression Paramount Pictures Corp. stockholders were left with last week after digesting the firm's annual report. This covers Paramount's financial status and provides a rundown on its motion picture and adjunct affairs including the wholly-owned International Telemeter toll tv.

And, said Paramount's President Barney Balaban, "Telemeter, with its simple cash 'home box-office,' is ready to take advantage of this public acceptance."

What stimulates public acceptance of pay tv? A trend of increased commercial control of tv programming content. As part of the cycle, Mr. Balaban pointed to an increased volume of brickbats hurled against tv programming by critics in magazines and newspapers.

Sure to Come • Thus, acceptance of pay tv is "inevitable" so long as the anti-commercial tv force continues.

Mr. Balaban also restated his faith that tv will become an "important outlet for motion pictures" through subscription channels, and that pay tv "holds a key to the future of film production."

Also revealed in Mr. Balaban's report:

Paramount is on the way to realize its guarantees from Music Corp. of America which is selling the motion picture firm's pre-1948 feature library to tv stations. Paramount already has received $10 million from purchaser MCA. The latter company in over 10 months has rung up more than $50 million in rental contracts for the films, Mr. Balaban said, meaning that when the contracts are liquidated, the remaining $25 million of the guaranteed $35 million purchase price will be covered. There's also a reasonable prospect for MCA to attain at least the $75 million rental level that will bring in an additional $15 million to Paramount (also part of the original Paramount-MCA deal—a total of $50 million over a period of time).

Film and Tape • Production specifically for tv via film and tape has begun at the Sunset lot with prospects of "utilizing our production know-how profitably."

Paramount is discussing the "problems of commercial use" of the Lawrence single-gun color tube on a mass production basis with "several large American tv set manufacturers." (Chromatic Div. of Paramount overlords the Lawrence tube operation with Allen B. Du Mont Labs, a U.S. licensee, continuing its developmental work.)

A 51% Paramount-owned consolidated subsidiary, Famous Players Ltd., which owns three tv stations in Canada, had a profitable last year and looks forward to "intriguing possibilities" (no details given). KTLA (TV) Los Angeles (KTLA Div. of Paramount) is decreasing filmed shows and laying stress on live programming, including video-taping that opens the way to additional revenue in other markets through syndication.

For the approximately 22% holding in Metropolitan Broadcasting Co. sold last January, Paramount picked up about $4 million in cash, an amount "substantially in excess of our cost of this investment." (This cash will be reflected in the 1959 financial statement).

Earnings were substantial: after taxes, consolidated earnings for last year were over $12.5 million or $7.15 per share. Since these figures include $7.9 million-plus in income from special items, earnings from actual operations were over $4.5 million or $2.60 per share compared with $5.4 million, or $2.80 per share, for 1957.

New tv-tape firm

A new organization, Mobile Video Tapes Inc. is offering to record tv programs and commercials on tape either in a studio or by using its mobile unit, equipped with RCA cameras, an Ampex tape recorder and its own power supply, enabling the unit to record while in motion. President of the new firm is Lester E. Hutson, builder and construction company executive. Other principals are Jack Meyer, Clair Higgins and John T. Allen Jr., former ABC-TV employes. Headquarters are at 1607 N. El Centro, Hollywood, Calif. Telephone: Hollywood 4-7188.

Mobile Video Tapes is currently making pilot tapes for *Congo,* jungle series for Wisberg-Klin Productions; *It's News to Me,* for Joe Landis Productions; *Las Vegas Starwagon, A Date to Remember* and *International House* for Monte Prosser Productions. The firm is also taping for syndication 20 programs of Jack La Lanne's health and exercise series now being broadcast live in San Francisco.

Godfrey 'excellent' after cancer surgery

A "cancerous growth" was found in the left lung of CBS personality Arthur Godfrey by surgeons who performed a chest operation on the entertainer Thursday (April 30). Surgeons who removed the "malignant tumor," later said his condition was "excellent," but declined to speculate on the outlook for the future.

The operation was treated as a highly significant news event by many New York newspapers and radio and tv stations. Starting several days before the operation, newspapers often devoted front-page attention or other prominent display to Mr. Godfrey's hospital schedule. Radio-tv stations mentioned the Godfrey story frequently in newscasts.

RTNDA board hits newscast 'gimmickery'

"Gimmickery" in newscasts, attempts at sensationalism which "serve only to create possible hysteria," have been soundly scored by the board of the Radio Television News Directors Assn. It also had something to say about unqualified editorializing.

Directors meeting in New Orleans April 25 adopted a strong resolution attacking news techniques which tend to distort the news and deceive audiences. It will be presented to the RTNDA membership at its annual convention in that city Oct. 14-17.

The use of filter mikes, sirens and whistles, designed to simulate on-the-scene news reports, was cited as part of the gimmickery practiced by some stations. "News is not vaudeville," it was pointed out in the resolution, released by Ralph Renick, WTVJ (TV) Miami, Fla., and RTNDA president.

Among other practices deplored by the RTNDA board: false claims on exclusivity, of wire service byliners, "of men on the street." It also commended stations for high quality journalism. The resolution touched on editorializing:

". . . The RTNDA board feels every editorial should represent an official expression of station opinion, and should, accordingly, be researched and prepared by the station broadcasting it. No material should be presented as a station editorial unless it has been initiated, as to the planning and writing of it, by the station."

• Program notes

• Goodson-Todman Productions, New York, in conjunction with the Western Writers of America Assn., will produce a western film anthology for the next tv season. Work begins in Hollywood within a month. WWA members must have three published novels, 30 tv shows or 200 published magazine stories to their credit. Contributors to the G-T series include Tom Blackburn, W.R. Burnett, Borden Chase, T.T. Flynn, Frank Gruber, A.B. Guthrie Jr. and Louis L'Amour.

• National Telefilm Assoc. International Inc., New York, is making available to tv stations throughout the world *The Twentieth Century-Fox Hour,* a series of 37 feature films, it was announced last week by Harold Goldman, president. The TCF package and other NTA properties for television and theatrical distribution will be introduced this month to industry executives attending the Cannes Film Festival. NTA also announced it will produce a half-hour film of special festival highlights which will be offered free of charge to U.S. television stations as a good will service from NTA.

• WCAU-TV Philadelphia will demonstrate scientific and medical advancements in *Research* (Sunday 11-11:30 a.m.), starting May 10 for 13 weeks. The premiere is about cancer.

• SRT Television Studios (The School of Radio Technique Inc.), New York, has been purchased by members of its faculty and staff, following death of the founder, John F. Gilbert. Former Dean Robert C. Stebbins is now president and director. He announced last week the addition of a course in acting for radio and television with William Hodapp, former Columbia U. dramatics teacher, as director. Training is to take place before live cameras in the school's two tv studios.

• ABC-TV has pegged the *Man From Black Hawk* to fill its 8:30-9 p.m. Friday segment starting Oct. 9. The new action-adventure series, based on exploits of an insurance company investigator in the late 1800's, will be sponsored by Miles Labs Inc. through Geoffrey Wade Co. and R.J. Reynolds Tobacco Co. via William Esty Co. Robert Rockwell will star in the series to be produced by Screen Gems.

• California National Productions (NBC subsidiary) has set two new series (39 episodes of half-hour films), titled, *Pony Express* and *Provost Sergeant,* for production. They will be placed in syndication. CNP's latest network sales: *Philip Marlowe* (to go on ABC-TV) and *Lawless Years* (now on NBC-TV).

• The need of a strong Navy as a means of keeping world peace and insuring national security is stressed in a series of tv commercials now being distributed by the Navy's operations department in the Pentagon to some 500 tv stations for use starting early in May. Production is by Sande & Greene & Assoc., Hollywood. Sponsored by the U.S. Navy League, the four one-minute public service spots (also available in 20-second versions) have been printed in color and in black-and-white. The project was coordinated by Capt. W.L. Guest and Comdr. Robert Murphy of the Navy Dept., Washington, and Comdr. Howard Sturm of Navy office, Hollywood.

• Community Television Systems of Colorado and Salida Community Antenna Co., CATV operators in five towns in Colorado, have been sold by the wife of the late Larry Peay to Winston Cox of Billings, Mont., who has other CATV interests. The sale was handled by Daniels & Assoc. of Denver for an undisclosed price. The two systems have an aggregate of over 3,300 subscribers and will be operated by Mr. Cox from June 1, it was announced.

• In response to a request by the U.S. State Dept., Ed Sullivan and director Robert Precht this summer will put on 24 stage shows at the Moscow Trades Fair and tape a 90-minute program for Russian tv. This contribution to the cultural exchange program, scheduled for a three-week period beginning Aug. 3, will include both American and Russian acts. The 90-minute tape show

COLORCASTING

Here are the next 10 days of network color shows (all times are EDT):

NBC-TV

May 4-8, 11-13 (2:30-3 p.m.) **Haggis Baggis**, participating sponsors.

May 4-8, 11-13 (4-4:30 p.m.) **Truth or Consequences**, participating sponsors.

May 4, 11 (10-10:30 p.m.) **Arthur Murray Party**, P. Lorillard through Lennen & Newell and Pharmaceuticals Inc. through Parkson Adv.

May 5, 12 (8:30-9 p.m.) **Jimmie Rodgers Show**, Liggett & Myers through McCann-Erickson.

May 6, 13 (8:30-9 p.m.) **The Price Is Right**, Speidel through Norman, Craig & Kummel and Lever through J. Walter Thompson.

May 6, 13 (9-9:30 p.m.) **Milton Berle**, Kraft through J. Walter Thompson.

May 7 (9:30-10 p.m.) **Ford Show**, Ford through J. Walter Thompson.

May 7 (10:30-11 p.m.) **Masquerade Party**, P. Lorillard through Lennen & Newell.

May 8 (7:30-8 p.m.) **Northwest Passage**, sustaining.

May 8 (8-9 p.m.) **Why Berlin?** (NBC News special), Bell & Howell through McCann Erickson.

May 9 (8-9 p.m.) Perry Como Show, participating sponsors.

May 10 (7:30-8:30 p.m.) **Steve Allen Show**, RCA through Kenyon & Eckhardt.

May 10 (9-10 p.m.) **Dinah Shore Chevy Show**, Chevrolet through Campbell-Ewald.

is to be presented as a CBS-TV special next season.

• Screen Gems Inc., N.Y., and David L. Wolper, tv film producer, have entered into an agreement under which Mr. Wolper will function as an independent production unit, fully financed by SG.

• Marlin Productions is producing *Stand By!*, a pilot film for a tv series, in association with Paramount Pictures. The series, starring Alan Hale and Robert Brubaker as Coast Guard officers, is being produced by Marlin head, Thomas M. Dykers. Agency: William Morris.

• This week (May 4-8) KPHO-TV Phoenix, Ariz., is conducting an experiment in educational tv, broadcasting four daily physics classes from North Phoenix High School to West Phoenix High, with special quizzes to be given Friday to evaluate effectiveness of the tv instruction.

• Ben Hecht is to write the script of "Charlie," a television play for *Alcoa-Goodyear Theatre* (NBC-TV). The play will be about the late Charles MacArthur, co-playwright of Mr. Hecht's.

• National Telefilm Assoc. Inc. has moved to 250 N. Canon Dr., Beverly Hills, Calif. Telephone: Crestview 4-8781.

• KFWB Los Angeles Wednesday (April 29) aired an exclusive interview with Sen. Wayne Morse, taped from a telephone call to the chairman of the Senate Foreign Affairs subcommittee on Latin America by Bill Crago, KFWB news chief. In the interview Sen. Morse labeled Mrs. Clare Booth Luce as "completely unqualified to serve as Ambassador to Brazil."

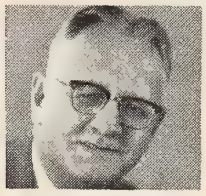
• Goodson-Todman Productions, N.Y., is showing advertising agencies the pilot film of a new half-hour tv film series, *Rebel*, dealing with adventures of a Civil War veteran who heads for the west. G-T is offering the series for network presentation this fall.

INTERNATIONAL

GLOBAL AND PLANETARY TV

CCIR ready with recommendations for Geneva

Approaches to standardizing the techniques of tv picture presentation and establishing standards for the new fields of space communications and radio astronomy were probably the major achievements of the Ninth Plenary Assembly of the International Radio Consultative Committee (CCIR), Dr. Arthur L. Lebel, chairman of the assembly, said Wednesday (April 29), final day of the meeting which opened April 2 in Los Angeles.



Dr. Lebel, assistant chief, Telecommunications Div., U.S. State Dept., and chairman of the U.S. delegation to the assembly as well as of the assembly itself, told a news conference that CCIR is the recognized international unit on agreed international standards for radio engineering and science, to which all governments, manufacturers and international organizations refer, as well as broadcasters and other users of radio communications. CCIR, he explained, is a branch of the International Telecommunications Union, responsible for establishing world-wide allocations of the various parts of the radio spectrum from 10 kc to 40,000 mc.

During its month in Los Angeles, CCIR has examined some 700 documents on various phases of international radio and adopted about 150 reports and recommendations on radio engineering standards made by its 14 study groups. These CCIR-approved documents will be compiled into a volume for use by ITU during its Radio Conference, to be held in Geneva, Switzerland, starting in August to review the status and functions of the International Frequency Registration Board. IFRB is another ITU agency whose function is to help the governments of the world to manage and control the use of frequencies throughout the radio spectrum.

Trans-Curtain Group • Of the 97 nations who are members of ITU, 45 were represented at the CCIR assembly, including the USSR and a number of other Iron Curtain countries, Dr. Lebel reported. Outside of a cursory regret that the Chinese Communist state, which is not an ITU member, was not represented at the assembly, the communist representatives did not inject any political matters into the engineering considerations of the assembly, he said.

Television recommendations dealt chiefly with standardizing picture techniques, Dr. Lebel said. He expressed the view that U.S. television is the best

REORDERED

says Gunnar O. Wiig, Station Manager

WROC-TV

ROCHESTER, N. Y.

Warner Bros. features really rack up the ratings in any time slot, day or night. According to Mr. Wiig of WROC-TV they're ordered and reordered by stations . . . and by sponsors.

"We first bought one group of 58 Warner Bros. features last October. The reaction, both by audiences and by sponsors, was so good that we have now bought the entire remaining portion of the Warner Bros. library—over 600 films. They're great!"

Warner Bros. features have what it takes to make a station manager happy—big Hollywood stars—great track records—real sponsor appeal.

Fatten up those lean periods in your programming with profitable Warner Bros. features.

U.A.A.

UNITED ARTISTS ASSOCIATED, INC.

NEW YORK, 345 Madison Ave., MUrray Hill 6-2323
CHICAGO, 75 E. Wacker Dr., DEarborn 2-2030
DALLAS, 1511 Bryan St., RIverside 7-8553
LOS ANGELES, 9110 Sunset Blvd., CRestview 6-5886

in the world, picturewise, attributing the superiority to more money which enables American tv broadcasters to have better studio equipment and to man the studios and transmitters with an adequate supply of well-trained personnel, a glowing if perhaps unintended tribute to the commercial broadcasting system of the U.S. in comparison to the state-controlled tv systems of other nations.

The television study group reported "considerable progress towards the realization of a common channel spacing of 8 mc in Europe in bands IV and V and some progress towards the adoption of a common definition standard of 625 lines, using either a 7 mc channel with 5.5 mc separation between vision and sound carriers or an 8 mc channel with 6.5 mc separation. Many administrations have indicated that they would be prepared to adopt a color sub-carrier of the order of 4.43 mc for a 625-line color tv system."

Another CCIR recommendation on tv, drafted by the study group on broadcasting, sets standards for the international exchange of film, including a coding system for the film leaders to show at a glance the gauge of the film, whether sound and picture is magnetic or optical.

This study group, whose chairman was A. Prose Walker, NAB manager of engineering, also obtained CCIR approval for a study program of the simultaneous use of two sound channels with a tv picture for international broadcasting to various language groups in stereophonic sound. The study would cover systems of dual-sound broadcasting which would not increase the bandwidth of the tv channel nor diminish the quality of the picture and what modifications would have to be made to existing receivers. Also authorized were studies of compatible stereo systems for both radio and tv broadcasting and of stereo recordings for broadcasting.

Tape Standards • Standards of sound recording on magnetic tape for international program exchange were set at primary speeds of 15 inches or 7½ inches per second and secondary speed of 30 inches per second on tape 0.246 inches wide.

The Walker study group will also study compatible single sideband transmission for am stations to determine what methods can accomplish CSSB and what significant factors should be standardized to derive the maximum possible advantages from such transmissions, as well as its effects on transmitter coverage, audio fidelity and reduced interference.

A new study group was established to study space communications. It will study all aspects of radio communications between space satellites and between them and the earth, as well as the use of such satellites as relay stations for long distance transmission (of tv signals, for instance) from one part of the world to another.

In the new field of radio astronomy, Dr. Lebel said, studies will be aimed at protecting the faint electromagnetic radiations of the stars from earth-originated interference. Unlike other forms of radio communication, he noted, these signals are one-way and they are beyond the control of man. They appear to occur in five bands distributed throughout the whole range of the radio spectrum, he said.

Pressed by newsmen for something sensational in the way of achievements at the month-long meeting, Dr. Lebel emphasized that the CCIR is a scientific body and that its function is not research and development but the examination of the findings of researchers the world round as an aid to efficient use of the radio spectrum. "Nothing surprising developed," he said, "and it would have been most surprising if it had." CCIR's next assembly will meet in 1962 in India.

Welsh mist

Radio Wales, a pirate radio station, is baffling the BBC.

Claiming to be the voice of Welsh nationalists, the station demands self-rule for Wales. The broadcasts, originating from a mobile transmitter using the BBC's television wavelength, start nightly as BBC-TV closes down. Radio Wales announces it is bringing four more transmitters into use, making it even more difficult for authorities to locate the operation.

CBC expands up north to compete with Russia

Canadian Broadcasting Corp. is expanding in northern Canada to combat reception of Russian stations with programs beamed at the Canadian northern settlements (few Canadian broadcast stations can be heard in the far north). CFWH White Horse, Yukon, has been added to the CBC Trans-Canada radio network; CFYK Yellowknife, Northwest Territories, now has equipment for picking up the nearest CBC transmitter (CBX Edmonton, Alta., almost 800 airmiles to the south) and relaying programs; new transmitters are ordered for CFYT Dawson, Yukon, and CFGB Goose Bay, Labrador.

CHAK Aklavik, N.T., will have a transmitter at Inuvik, under construction by the Canadian government some 20 miles from Aklavik. Low power repeater stations will be installed at Fort Smith, N.T., Fort Nelson, B.C., and Watson Lake, Yukon. CFHR Hay River, N.T., operated by the local community, is to be taken over by the CBC.

BBG'S NEW RULES Change in hourly ad content proposed

New advertising content regulations, proposed by the Canadian Board of Broadcast Governors on April 16, will allow Canadian stations to use five announcements totalling four minutes in a 15-minute time segment.

Stations will be allowed to use a greater number of such announcements and use more time in a quarter-hour period, provided the total advertising time and number of announcements is averaged out in the remaining 45 minutes of the hour. This is a change from previous regulations under the Canadian Broadcasting Corp., by which such additional announcements could be averaged out in other periods of the day. Now the total in any one hour may not be exceeded.

The BBG has announced no major change in news sponsorship regulations, which forbid use of commercials in the middle of newscasts. The BBG has tightened up the regulation by stating that no advertising message may be inserted between a news summary and the main newscast. "A summary is deemed part of the body of the broadcast," BBG's regulations stipulate.

BBG has dropped a CBC regulation which interpreted as political broadcasts programs dealing with "any by-law which is the subject of municipal balloting or any plebiscite or referendum which is the subject of national, provincial or municipal balloting." BBG does not feel it should define what Canada's Parliament means by political broadcasts.

To make sure that top management of Canadian stations will be aware of any infractions of regulations that show up in station logs, BBG rules propose that top management will have to sign up the station's logs daily.

BBG is expected to discuss the new regulations with broadcasting stations May 12-14, at Ottawa.

2nd French tv network

France will have its second noncommercial television network next year, informed observers there say. The network is expected to operate under government - controlled Radio - Television-Francaise in the Paris area. It will later expand to northern France.

well-balanced nutrients in moderate low-fat cereal and milk serving

Medical and nutrition authorities now include the cereal and milk serving when a moderate reduction of dietary fat is indicated. This dish is recommended because it is *moderately low in dietary fat*. Few foods can better its *well-balanced nutritional contribution* as shown in the table below. It furnishes approximately 10 per cent of the recommended daily allowances of protein, important B vitamins, essential minerals; and it also provides quick and lasting energy. Served with nonfat milk, the fat content is very low.*

nutritive composition of average cereal serving

	Cereal, 1 oz. Whole Milk, 4 oz. Sugar, 1 teaspoon	Cereal** 1 oz.	Whole Milk 4 oz.	Sugar 1 teaspoon
CALORIES	203	104	83	16

THESE STATIONS INCREASED COVERAGE WITH Symmetra-peak

A.M., F.M. and T.V. stations everywhere are getting greater voice coverage and improved limiter and AGC performance. Here's what some enthusiastic users say . . .

"after seeing and hearing this unit at WERE, Cleveland, we would like one as soon as possible" - WADC, Akron.

"We have recommended its (Symmetra-peak) use at all Westinghouse stations" - WIND, Chicago.

"With the use of Symmetra-peak, we find constant modulation regardless whether it is speech or music. We are very pleased" - WCLS, Columbus, Ga.

"We have completed our series of tests on your Model SP58-1A Symmetra-peak. . . we wish to thank you for making available a device of merit to AM broadcasting stations" - KVOO, Tulsa.

Others using Symmetra-peak include: WCBS, WOR, WINS, WMGM, Press Wireless, CFPA, KWJJ and RCA Communications (a list of approximately 200 Symmetra-peak equipped stations is available for your inspection).

Sales, earnings soar for Zenith, Admiral

Sales and earnings of Chicago-based electronics companies are booming, based on first-quarter reports released last week by Zenith Radio Corp. and Admiral Corp.

Admiral reported consolidated net sales of $44,739,388 and pre-tax earnings of $1,422,076 compared with $38,418,799 and $152,136 respectively, for the same period in 1958. Profits after taxes amounted to $711,644, or 30 cents a share on 2,385,296 shares outstanding, as against a loss of $91,977 (or four cents a share loss) in last year's first quarter.

Estimated net consolidated profits reported by Zenith for itself and subsidiaries reached $3,323,891, or $3.37 per share, after depreciation and estimated provision for income taxes of $3,745,162—a net quarterly record. Profits were 63% higher than $2,036,759 over the first three months in 1958. Consolidated sales hit $59,220,776, a 40% increase over last year's similar period.

• Technical topics

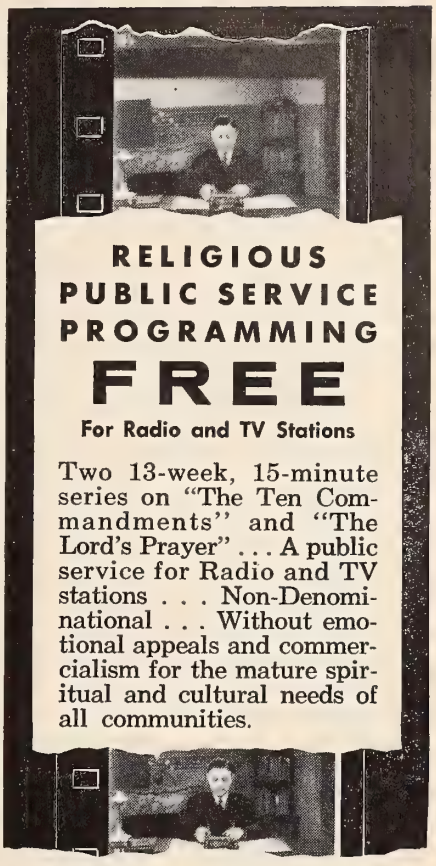
• Philco Corp., Philadelphia, has announced a germanium transistor with maximum frequency of oscillation of 3000 mc. The new transistor reportedly exhibits a power gain of 9.8 db at 1000 mc, at which frequency it is possible to obtain 10 milliwatts of output power. At 200 mc (tv range), the unit provides a gain of 22 db and 4 dbs noise.

• Acoustex Chemical Corp., New York, is offering a new product called Acoustex paint for use in broadcasting studios. The sound-proof paint comes in 11 colors and is a speckled material containing an alkyd-latex base with sound controlling granules of a spongy cork-like quality. One gallon sells for $8.70, covers 150 sq. ft.

• Visual Electronics Corp., New York, has selected "$pot $aver" as the winning entry in its contest to name the company's new program automation system. Winner Morris C. Barton Jr., chief engineer, KSLA-TV Shreveport, La., was awarded a Conracale Fleetwood Model 900 Remote Receiver.

• Miratel Inc. (electronic equipment), St. Paul, Minn., has introduced new 8-inch tv monitor L59B/8. Specifications: weight, 32 lbs.; height, 9¾ inches; width, 12¾ inches; depth, 16 inches; definition, 600 lines; price, $199.

Friendly 'Banshee' warning



A small device dubbed "Banshee" developed for the Atomic Energy Commission could be added to battery radio sets to provide an audible warning of radioactive fallout, according to a series of civil defense articles running in the *Buffalo Evening News* (WBEN-AM-TV)

Nat S. Finney, head of the paper's Washington bureau, says the device could save millions of lives in the event of nuclear attack. He contends the Office of Civil & Defense Mobilization has offered little help in development of Banshee but adds that Leo A. Hoegh, OCDM director, has indicated he will order 5,000 Banshees if his staff finds they will work satisfactorily.

The Finney series points out that battery radios would probably be the ordinary citizen's only way of getting news or instructions in case of nuclear war though he anticipates that "not much radio and no television could stay in operation." An article in the March 16 BROADCASTING took the position that an estimated 65 million battery and auto radios offer a means of public communication with emergency broadcast facilities.

The newspaper reported Comr. Willard F. Libby, of the AEC, induced Tracerlab Inc., Waltham, Mass., to develop the Banshee, using cadmium sulfide crystals in the unit. AEC ordered two dozen prototype models. Banshee can be plugged into existing radios or built into new ones, requiring no knobs or dials and using no current, it is stated. When radioactivity reaches a danger level, Banshee squeals low and softly, the tone becoming higher and louder as the level becomes more dangerous. Banshee-equipped radios could be sold for $5 more than normal sets, according to the series.

James D. Secrest, executive vice president of Electronic Industries Assn., said he believed manufacturers would be willing to produce such a device in quantity if a public demand were indicated or if a government agency ordered them in quantity. He said that a device adding around $5 to the cost of a set at the factory would be translated into $10 or $12 at retail. He observed that a low-cost automatic Conelrad emergency receiver has failed to interest the buying public.

Pacesetting survey for Intermountain

A radio audience survey described as the largest and most comprehensive ever made in the Intermountain West is being released today (May 4) by The Pulse. Made for the Intermountain Network and covering an area of 996,580 homes, the results are being circulated among timebuyers by Avery-Knodel, national representative of Intermountain Network.

The Intermountain report contains detailed audience data for the entire five-state area, with results also available individually for each of the states (Utah, Colorado, Wyoming, Montana and Idaho) and for each of the 45 markets surveyed. Avery-Knodel officials said it covers not only major Intermountain Network markets, such as Denver and Salt Lake City, but also many areas for which no usable audience information had been available, either because the areas had not been surveyed before or because of programming changes since the last survey.

John J. Tormey, Avery-Knodel radio sales director, said the study showed high levels of radio tune-in throughout the day, with Intermountain getting 28% of the daytime audience and 29% of the evening audience. Laurence Roslow, associate director of Pulse, said it was the most extensive study of its sort ever undertaken by Pulse. "In detail," he said, "it is comparable to Pulse reports issued regularly for the national radio networks." Field work was done in January and February.

The advertisers using more spot tv in the summer than during other times of the year, as compiled by The Katz Agency:

Adell Chemical, P. Lorillard, American Home Products, Carter Products, Warner-Lambert, International Latex, Texize Chemical, American Tobacco, Food Mfrs. Inc., Anheuser-Busch, General Mills, Sun Oil, Welch Grape Juice, Pabst Brewing, Pepsi-Colo Bottlers, Continental Car-Na-Var and S. C. Johnson.

Also, Theo Hamm Brewing, William Wrigley Jr., B. T. Babbitt, Armstrong Rubber, Jos. Schlitz Brewing, Standard Oil of Ind., Andrew Jergens, Revlon, U. S. Borax & Chemical, Harold F. Ritchie, Norwich Pharmacal, F & M Schaefer Brewing, Phillips Petroleum, Eversharp, M. J. B. Co., Stokely-Van Camp, Standard Oil of Calif., Fels & Co., Ex-Lax, Blatz Brewing, National Brewing, Taylor-Reed, Atlantis Sales, and Scott Paper.

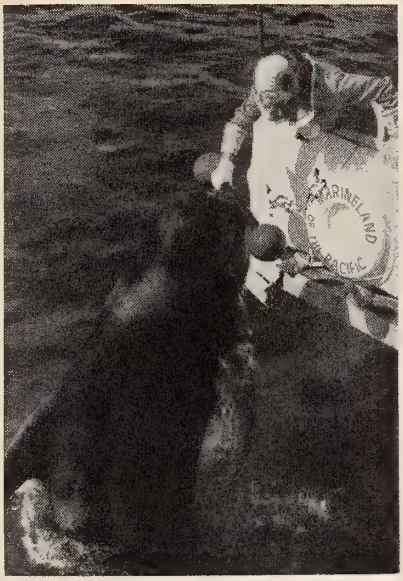
Packing them in • The telephone booth has given way in college squeeze play to the foreign automobile on campuses in upstate New York. WROW Albany took a Simca, the "WROW Sardine Sedan," to Union College and Rensselaer Polytechnic Institute offering small prizes to all who could squeeze in. The promotion turned into a fraternity rivalry, with Kappa Nu of R.P.I. victorious. Through "superior engineering talents" 50 shoeless, coatless and, in some cases Bermuda-clad Greeks managed to stuff themselves into the vehicle. Each participant received a can of sardines from WROW.

Stampmen, stations collecting collectors

Radio stations and trading stamp firms are finding crowds of collectors in the listening audience. King Korn Stamp Co. of Chicago, a leader in its field, thinks that campaigns in the Midwest point to expansion.

Stations are using the King Korn plan as a sales and audience builder and King Korn is using stations to the same end. Results from long-run contests conducted on WQUA Moline, Ill., KDAL Duluth, Minn., and a handful of other midwest stations have been claimed as phenomenal.

Here's how the stamp plan usually works: The station buys the stamps from King Korn (cost unrevealed) and gets local advertisers who sell products in supermarkets and retail stores to buy local time for mentions in its "key word commercials" during nine-week "King Korn Carnival" contests. For rotating paid spots, each advertiser gets a free spot announcement. King Korn itself buys announcements prior to the contest for promotional value. The account is handled by Powell, Schoenbrod & Hall, Chicago.



Sponsor Bait • The station thus builds its audience and induces participating advertisers to place other business on its facilities. When a local advertiser (for example, a local Coca-Cola bottler) participates, he is assured of mention in the periodic key commercial for nine weeks.

Listeners get 10 free stamps merely by supplying their names and addresses and 10 more for submitting correct phrases or words. In one instance, a listener can claim 1,000 stamps if his letter is chosen and he calls the station within three minutes of the announcement. Ten key words are repeated daily throughout the week.

King Korn cites the campaign at WQUA (ended April 2) as an example of tremendous response. It claimed 45,000 letters bidding for a million King Korn trading stamps each week. The station reported it had to double its staff to handle the volume. The stamps were redeemed at 150 retail stores, including 22 supermarkets. Pre-contest spots and full-page newspaper advertising helped set the stage for the "Carnival."

Mahalia in Garden for WLIB

A five-hour gospel music performance featuring singer Mahalia Jackson is to be presented at New York's Madison Square Garden May 24 by WLIB

Whale of a pull • More than 35,000 youngsters entered a month-long "Name the Whale" contest that was started after viewers of KTLA (TV) Los Angeles asked about a whale seen in an afternoon cartoon.

In cooperation with Marineland of the Pacific, an oceanarium, KTLA embarked on its contest. To pick the winning entry KTLA's Vance Colvig (left), host of *Bozo the Clown* show (Mon.-Fri., 5:30-6 p.m.), tossed into the water at Marineland five life preservers with the finalists' entries attached. Whichever one was picked up first by "Bubbles," a real whale, was declared the winner. The finals were seen in a remote telecast from Marineland. Prizes included a weekend stay at Marineland for winner and family, and for runners-up, a midget automobile, Bozo toys, clothes and novelties.

Contest exploitation: daily mentions on the KTLA program, plugs on Marineland's local radio campaign on KMPC Los Angeles and KBIG Santa Catalina, and publicity feeds to 100 Southern California community newspapers.

The cartoon series is produced by Larry Harmon Pictures Corp., Hollywood, and is syndicated by Jayark Films Corp., New York.

there. The independent station, which aims its programming at the Negro audience, is rounding up spiritual and folk music luminaries from around the U.S. and will also bring in by remote broadcast a group then appearing in Sweden.

Use of the hall will cost about $5,000. (WLIB will charge admission of $3-4-5.) The station sees the project as a means of demonstrating a "dominant position" with the Negro audience in New York.

'Horizons' service series

KYW Cleveland has consolidated its public service efforts into a six-point project known as "New Horizons." The categories to be emphasized are mental health, safety, science, government and history, community self-help and culture.

New programming contemplated: science fiction writers discussing relationship between today's dreams and tomorrow's achievements; broadcasts from pre-citizenship classes of the Cleveland Board of Education; at-home interviews with public figures, and 13 trans-Atlantic discussions between Western Reserve U. (Cleveland) students and faculty and their counterparts at the U. of Edinburgh, Scotland.

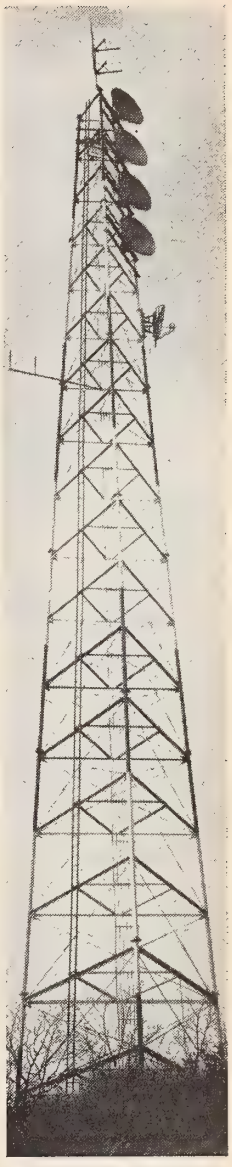
These programs are to be added to those already in existence, such as taped traffic court proceedings, weekly science newscasts, and talks with noted thinkers on art.

Holiday from 3,000 homes

The WRAP Norfolk, Va., second annual Homemakers Holiday attracted nearly 3,000 Negro housewives April 21. The homemakers' program included WRAP client product exhibits, budget meal demonstrations, style shows and entertainment. WRAP flew a group of New York admen to the Tidewater market for the event. In addition to visiting the homemakers' exhibits, the New Yorkers toured local Navy bases and lunched aboard a destroyer.

Torn-shirt school

During the civil defense Operation Alert exercises (AT DEADLINE, April 20), KRIZ Phoenix, Ariz., promoted its



Northwest Area
Clear Channel Fulltimer

Number One rated station in substantial growth market. Purchase of major market facility forces owners to dispose of this highly desirable property under the FCC's multiple ownership rule. Grosses excess of $175,000. Priced for immediate sale at $225,000 with $60,000 down or $210,000 with $75,000 down. Balance over ten years. Valuable real estate included.

NORTH WALES • PENNSYLVANIA

'Visual Orchestration' • Visitors to the home of KFSD-AM-FM-TV on the outskirts of San Diego, Calif., are stopped by this collage, composed of actual parts of radio and tv transmitting equipment and mounted on the wall of the lobby. The collage was conceived by W. E. Goetze, general manager of the stations, and his wife, who supervised decorating of the building, which was formally opened in February 1958. John Dirks at the art department of San Diego State College was commissioned to execute the work, which is composed of double cooling fins, varicolored wire and other transmitting components. The completed component collage, in the artist's words, is "Visual Orchestration."

silenced morning man, Don Lincoln. Since KRIZ was not broadcasting during the alert, Mr. Lincoln spent the time wandering downtown Phoenix with $20 worth of records as the prize for finding and identifying him. Carloads of people participated in the search, and a group of girls finally located Mr. Lincoln in a service station driveway and collected their records. But only after tearing the KRIZ staffer's shirt.

His ship came in

Joseph O'Brian, media buyer at Young & Rubicam, received a model ship displaying as a flag a $100 check from WDSM-AM-TV Duluth, Minn., for coming up with an estimate that was nearest the actual time the first ship of the year came through the Duluth Ship Canal opening the 1959 navigation season at the head of the Great Lakes. C.D. (Duke) Tully, general manager of the station, and Lloyd Griffin, vice president and director of tv, Peters, Griffin, Woodward, made the presentation in New York.

The contest is an annual event. Two winners are named from agencies in New York, Chicago, Detroit, Minneapolis and one category for elsewhere around the country. First prize for each market is $100, second prize, $50. The winners: Mr. O'Brian and George Magee (second) of Radio Reports in New York, Peggy McGrath of Y & R and Doug Birch of Leo Burnett in Chicago; Judy Anderson of McCann-Erickson and Don Cooke of Luckoff & Wayburn in Detroit, Mary Ann Doss of Bruce B. Brewer Co. and Fred Jones of John W. Forney Co. in Minneapolis, and Arvilla Phillips of Liller, Neal Battle & Lindsey, Atlanta, and Wes Parker of the Doctor Pepper Co., Dallas. Season for the Duluth canal breakthrough spans the period of March through May. Actual date this year was April 18 with the time for the sailing of 7 hours 5 minutes 47 seconds. Mr. O'Brian's estimate was only 4½ hours off.

• Drumbeats

• KDKA-TV Pittsburgh's Josie Carey, who guested Saturday morning (May 1) on the CBS-TV *Capt. Kangaroo* show was presented to 13 advertisers last Friday in a special New York reception by Peters, Griffin, Woodward. Miss Carey, who conducts *Josie's Storyland* on the Pittsburgh station is recipient of a Sylvania award for her educational children's education series and previously had been with WQED (TV), Pittsburgh etv.

• CHUM Toronto got extra publicity out of the Toronto Sportsman's show by active participation. In addition to originating broadcasts from a show booth, the station staged a "CHUM Champion" contest. Six announcers were entered in fish-skinning, log-rolling, bait-casting, judo and bowling events. Listeners named their favorite CHUM contender in letters. The high-scoring announcer drew from his votes to award a boat and motor to a listener.

• WSB awarded first prize in a coverage contest to a listener writing from Hawaii. Later a letter arrived from New Zealand. The contest publicity file includes a clipping from a publication of Radio Sweden, Stockholm.

• To publicize Saturday's (May 9) Handle Bar Mustache contest organized by WKRC Cincinnati d.j. Ted McKay, a woman with a false beard paraded downtown last week. As mustached men passed by she asked them if they were members of the Ted McKay Mustache Club. If they were club members, they received $5 merchandise certificates. The winner of Saturday's contest will receive a cash prize.

• Dan Ronald, d.j., WEBC Duluth, Minn., is helping local housewives with their housework in his "Handy Dan" contest. Listeners write in to say why they would like to have Mr. Ronald give them a hand with their Saturday chores and the d.j. chooses a winner.

• More than 100 child participants and 300 onlookers gathered for the first annual "High Flying KIOA [Des Moines] Kite Contest." Participants had to make their own kites. Prizes: highest-flying kite—a racing bicycle; the smallest kite that flew—a record player; the most artistic kites—six long-playing phonograph albums.

• Grace Porterfield, timebuyer at Benton & Bowles, New York, has won first prize in a contest for promotion ideas at WUSN-TV Charleston, S.C. The station invited timebuyers at recognized ad agencies to tell how, if they were station managers, they would promote a station and market. Suggestions were limited to a maximum of 25 words. The winner's prize is a seven-day cruise for two to Havana and Nassau. Runners-up, who received fountain pens, were: Bob Atwood, J. Walter Thompson, Chicago; Bill Kane, N.W. Ayer, Philadelphia; C.V. Barkley, Piedmont Advertising, Salisbury, N.C.; Pam Tabberer, Liller, Neal, Battle & Lindsey, Atlanta, and John Catanese, Ted Bates, New York.

Critics' say

A poll of 100 tv editors on key newspapers throughout the country reveals that although they consider the Emmy tv award program worthwhile, they believe the show should be shortened and the winners selected by a small, selected group of judges.

The tv editors' recommendations, announced last week, emerged from a poll conducted by Grey Adv., New York, agency for Procter & Gamble, Cincinnati, and the Benrus Watch Co., New York, co-sponsors of the Emmy show on NBC-TV Wednesday (May 6, 10-11:30 p.m.). Other suggestions made by the editors: give fewer awards to make the Emmy "more of a prestige symbol"; get away from the "Oscar format"; show film clips of Emmy-winning performances; dignify the proceeding with more sophisticated entertainment; schedule repeats of winning shows and performances.

'Thou shalt deliver'

In a speech at the Ohio State Broadcasters Convention, Edward J. Broman, sales manager, regional sales division, Ziv Television Programs, discussed the growth and present strength of tv advertising.

. . . We have all witnessed the tremendous growth of television within a relatively few years. . . . It has grown to its present position, not by chance, but because of one basic fundamental fact: it has obeyed the law of advertising which says "thou shalt deliver the goods."

Television advertising has delivered the goods in unprecedented volume for local advertisers as well as national branded products. Today it stands pre-eminent—fully recognized as the greatest sales stimulator available to business. . . .

We believe that a television program must do more than just entertain people. An advertiser buys a program not because he is philanthropic or feels loyal to the producer of the television program, or the station over which it is to be telecast. He buys a television program for strictly selfish reasons and that is, to increase his sales. He has every right to expect that the television program which he buys should increase his sales.

We at Ziv believe that there are four basic requirements that every television program must have in order to be successful.

Basic number one—a television series must be of a nature that it will develop within a reasonable period of time, a profitable audience. . . .

The second basic qualification which a program must have is the quality to win sponsor identification. . . . When viewers are conscious of the sponsor, they are receptive to his sales messages. . . .

Basic number three: It is essential that the television program one sponsors provide a high quality show-case for an advertiser's sales message. . . .

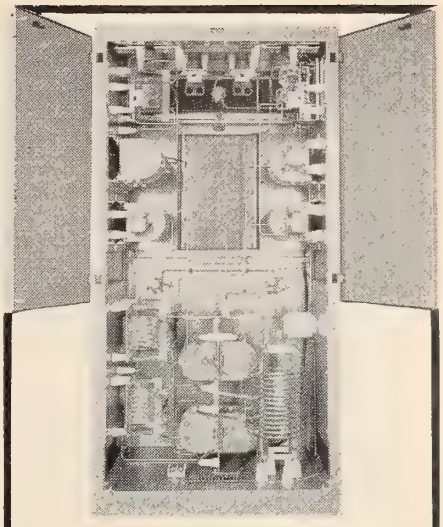
The fourth basic requirement is that a television program and the attendant merchandising plan associated with that program be of such a nature that it will enthuse the sponsor's own organization.

. . . Obviously in this room, there are many people who also represent radio, and what I have said about television also applies to the radio medium. It is amazing the comeback that radio on a local level has made. They have learned to be better salesmen. They have taken inventory of what they had to offer and they presented their merchandise in pleasing and palatable forms to advertisers, and as a result, many stations are doing as well today in radio as they ever did.

The talent cost trap

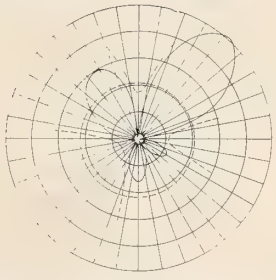
Philip L. McHugh, radio-tv vice president, Campbell-Ewald, Detroit, addressing the Atlanta Advertising Institute April 27:

Some real method [is needed] for developing new, young personalities to increase today's scarce talent pool and to replace tv personalities now in declining stages of viewer popularity. Tv audience increases from here on will follow a population growth pattern and network time costs should reflect this stability. However, talent and new ideas are so scarce and getting scarcer, that the advertiser's agency must work harder than ever before to deliver a quality program without being trapped by talent costs that won't fit into the advertiser's budget.



Instant truth

Matthew J. Culligan, executive vice president in charge of NBC Radio, speaking at the U. of Florida, Gainesville, April 27:



There are many similarities between print and broadcast journalism. It is, however, in the way the reporter communicates truth to the world that print and broadcasting differ most sharply. Whereas the print journalist can take hours, even days, to collect, evaluate and write his facts, the broadcast journalist must do all of this sometimes on the spur of the moment. Like the difference between a time bomb and a proximity fuse, the print journalist explodes when he's ready; the broadcast journalist explodes on contact.

The 'carny' pitch

Broadcast commercials drew criticism from Walter B. Cooper, chairman of the Advertising Ethics Committee, National Automobile Dealers Assn. He said "far too many announcers bark at me as if I were a crowd watching a sideshow at a carnival." This degrades product, manufacturer and seller alike, he contended. Mr. Cooper said people are beginning to think "the world's most blessed invention is the on-off switch." He ascribed this feeling to bad commercials rather than bad programming.

DEPENDABLE PATTERN CONTROL

With Collins Directional Antenna Equipment

Each Collins Directional Antenna Installation is custom designed and built to a broadcaster's individual specifications and coverage requirements. Variable independent phase and amplitude adjustments are provided for ease of tune-up — insure stable pattern control.

Collins Phasing Units are complete with antenna tuners, specially housed in waterproof cabinets if desired.

For dependable, easily maintained directional antenna equipment specify Collins — your one complete source for all broadcast needs.

For complete information call or write Collins Radio Company, Broadcast Sales Division, 315 Second Ave., S.E., Cedar Rapids, Iowa.

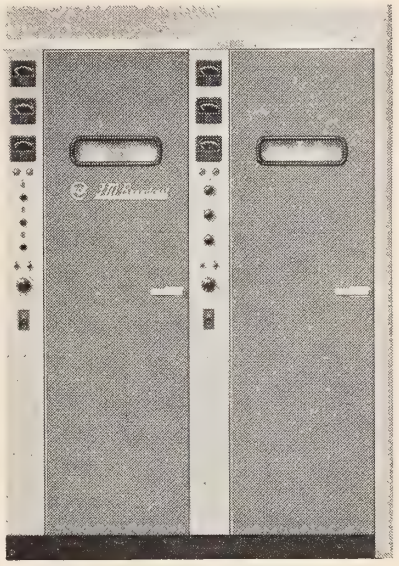
Hearing Cases

FINAL DECISION

By order, Commission (1) denied motion by Tucumcari Television Inc., to dismiss with prejudice its application for new tv translator station on ch. 70 in San Jon, N.M., to translate programs of station KFDA-TV (ch. 10) Amarillo, Tex., and (2) made effective immediately March 25 initial decision and denied Tucumcari application. Action April 23.

INITIAL DECISIONS



Hearing Examiner Thomas H. Donahue issued initial decision looking toward granting application of Venice-Nokomis Bcstg. Co. for new am station to operate on 1320 kc, 500 w, D, in Venice, Fla. Ann. April 27.

Hearing Examiner Forest L. McClenning issued initial decision looking toward (1) dismissing for default application of Falcon Bcstg. Co. for new class A fm station to operate on 107.1 mc in Vernon, Calif., and (2) granting application of Sierra Madre Bcstg. Co. for similar station in Sierra Madre, Calif. Ann. April 24.

OTHER ACTIONS

By order, pursuant to Jan. 29 remand by U.S. Court of Appeals, Commission reopened record and designated for further hearing Beaumont, Tex., ch. 6 proceeding. Chairman Doerfer concurred in result; Comr. Bartley not participating; Comrs.

Equipping a Radio Station?

New RCA 5 KW FM Transmitter Designed for Multiplexing

A "Direct FM" system plus many other outstanding performance features such as built-in remote control provisions and screen voltage power output control, make the BTF-5B today's best FM transmitter buy. Its 5000-watt power output provides adequate coverage of a multiplex channel and improved coverage for conventional operation. New Exciter, Type BTE-10B, uses "Direct FM" modulator circuits, thus fewer tubes are required. Whatever your equipment needs—SEE RCA FIRST!

Or write for descriptive literature to RCA, Dept. T-22 Building 15-1, Camden, N. J.

RADIO CORPORATION of AMERICA

RCA Tmk(s) ®

Ford and Cross absent. Commission decisions of Aug. 4, 1954 and April 16, 1958 granted application of Beaumont Bcstg. Corp. for new tv station (KFDM-TV) to operate on ch. 6 in Beaumont and denied competing application of The Enterprise Co. Ann. April 29.

By memorandum opinion and order, Commission denied petition by Federal Communications Bar Association to postpone from May 16 to June 15 effective date of amendments to Part I of procedure rules adopted by report and order of April 8 which set fourth new procedure for processing am applications and established new "cut-off" dates determining time and order in which these applications will receive consideration. Comr. Craven dissented. Ann. April 29.

By memorandum opinion and order, Commission amended hearing issues to except application of KTAG Associates (KTAG-TV), Lake Charles, La., from air hazard consideration imposed on other applicants in Lake Charles-Lafayette, La., tv ch. 3 comparative proceeding. In so doing, it denied various pleadings of three of four applicants. Ann. April 29.

By letter, Commission waived sect. 3.651 (c) and extended for six months from April 15 temporary authority to the Chicago Educational Television Association (WTTW ch. 11), Chicago, Ill., to utilize aural trans. of its station to transmit stereophonic sound broadcasts in conjunction with station WFMT-FM Chicago. Ann. April 29.

Commission scheduled following am proceedings for oral argument on May 21: Birch Bay Bcstg. Co., Blaine, Wash.; and Hardin County Bcstg. Co., Silsbee, Tex.

Commission on April 29 instructed its staff to prepare order reopening record and designating for further hearing on matters specified by U.S. Court of Appeals in remanding Biloxi, Miss., ch. 13 cases to Commission. (Decision of Aug. 6, 1957 granted application of Radio Associates Inc., for new tv station to operate on ch. 13 in Biloxi and denied competing application of WLOX Bcstg. Co.)

William Parmer Fuller, III, Salt Lake City, Utah; Kanab Bcstg. Co. Kanab, Utah; Inland Empire Bcstg. Co. Price, Utah; KVNU Logan, Utah—Designated for consolidated hearing applications of Fuller, Kanab and Inland for new am stations—Fuller and Kanab to operate on 630 kc, 1 kw, D—Fuller with DA-D—Inland to operate on 600 kc, 1 kw, D, and KVNU to increase daytime power from 1 kw to 5 kw, continuing operation on 610 kc, 1 kw-N, DA-N; made KSTR Grand Junction, Colo., KCLS Flagstaff, Ariz., and KSUB Cedar City, Utah, parties to proceeding; denied requests by Inland and Kanab for an extension of time to reply to Feb. 18 309 (b) letter. Ann. April 29.

Routine Roundup

Following its annual practice, Commission will schedule no hearings or oral arguments during August, in which month it will hold but one meeting (Saturday, August 1). This summer recess is convenient to vacationing and other planning by those who do business with Commission. Different Commissioners will be present in August to act as Motions Commissioners, handle emergency matters and expedite Commission's routine business. Ann. April 29.

The paradox of Florida summers

Many people think because Florida is warm in winter its summers must be scorchers. The facts, which run contrary to this general opinion, make a newsworthy feature enlightening as only a paradox can be.

Those who have never visited Florida in summer are always surprised to learn it is cooler than many places a thousand miles to its north.

For example: According to U. S. Weather Bureau figures, the record high temperature at Miami stands at 95°. This compares with New York's record high of 102°, Cleveland's 103°, Chicago's 105°, Denver's 105°, St. Louis' 112°, and Los Angeles' 109°. Miami's normal summer-time maximum temperatures range below 90° and no point in the state registers the extreme highs recorded in these more northern cities. Cool morning and evening air tempers the climate and prolonged heat waves are unknown.

Though most of Florida lies in subtropic latitudes, the whole state benefits from a unique insular location. It is cooled by breezes off Gulf of Mexico and Atlantic Ocean waters and thousands of inland lakes. State-wide daily mean summer temperatures, reported by seven Florida U.S. Weather Bureau Divisions, have an average of 82.1°.

Florida's ideal summers coupled with attractive off-season rate reductions, now vie with its winters for vacation popularity.

YEAR 'ROUND LAND OF GOOD LIVING

OUR RESPECTS TO . . .

Aloysius Burke Crotty

A. Burke Crotty remembers the day as if it were yesterday. But it was 20 years ago last Thursday (April 30) that Mr. Crotty and other members of an NBC crew participated in an epoch-making event: the telecasting of the opening of the New York World's Fair on April 30, 1939, marking the advent of the first regular schedule of tv broadcasts in the U.S.

Today, Mr. Crotty is vice president in charge of radio and television for Ellington & Co., New York advertising agency. But 20 years ago, he was producer of remote telecasts for NBC. Everyone was keyed up for the World's Fair telecast, Mr. Crotty recalls, but operations ran smoothly. He remembers the many dignitaries who appeared on the first program, including President Franklin D. Roosevelt and Maj. Gen. James G. Harbord, then RCA board chairman; David Sarnoff, RCA president; Lenox R. Lohr, NBC president; Neville Miller, NAB president, and Dr. Vladimir Zworykin, RCA scientist.

Mr. Crotty subsequently was involved in a round of television "firsts", among which are the telecasting of the first college baseball game, the first heavyweight boxing bout, the first college football game and the first political (Republican) convention in 1940. Mr. Crotty recalled that after he had left NBC and joined ABC, he produced the first on-the-air programs of WMAL-TV Washington, WNBQ (TV) Chicago (now WBKB) and WABC-TV New York.

Enthusiasm Still Strong • After 20 years, Mr. Crotty still retains his enthusiasm for television, but acknowledges that the medium in one sense has "disappointed" him over the past three years. He believes there was "more excitement in the old days," adding, "That was an era of experimentation. Today, programming is largely out of the hands of broadcasters and is controlled by people who do not know advertising. In the past few years, programming has been of the 'copy cat' variety and I mean westerns and who-dun-its. I maintain that these programs do not provide the proper environment for a commercial."

He regards as "heartening" the present trend toward live specials and believes this type of programming will be accentuated more and more over the next few years.

Mr. Crotty is a medium-sized man with a ruddy complexion and blue eyes that seem to twinkle constantly. He is a fluent and engaging conversationalist. The "A" in his name stands for "Aloysius" but he always has been known as Burke to his friends.

Mr. Crotty was born in Atlantic Highlands, N.J., on Sept. 3, 1911, but since his father was a shoe salesman, the family lived at various times in New York, Illinois, Michigan and New Jersey. He was graduated from George Washington High School in New York in 1931. While still a senior he obtained a job in the mailroom at NBC. Mr. Crotty explains that he was forced to stay out of high school for a year because of a hip injury and he decided to accept the position "to make up for lost time."

NBC Is the Winner • His family had hoped he would attend Harvard U. and study for a career in medicine, but Mr. Crotty found his introductory taste of broadcasting too palatable. He chose to remain with NBC.

In 1932 Mr. Crotty was appointed photo editor of the NBC press department. He remained in this position for seven years and the knowledge and background he acquired proved useful when NBC organized its television operation in 1939.

He points out that as photo editor, he learned about photography in all its phases, including newsreel photography. He carried on a spirited campaign to associate himself with the fledgling television unit and early in 1939 he was appointed producer of remote telecasts.

Mr. Crotty recalls these early days as "lots of fun," but confesses the work was "hard" and the pace was "hectic." Numerous problems cropped up and solutions had to be tested for their feasibility. Mr. Crotty and his colleagues, for instance, designed the black and white trunks worn by boxers appearing on telecasts.

TV PIONEER CROTTY
Keen on 'commercial environment'

Despite his hip injury, Mr. Crotty tried to enlist in the Army, Navy and Marines shortly after Pearl Harbor but was rejected. "But, naturally I was drafted in 1944," Mr. Crotty comments with good humor. Inducted as a private, he was assigned to produce USO shows at the Hampton Roads Port of Embarkation in Newport News, Va. He attended Officer Candidate School of the Signal Corps at Fort Monmouth, N. J., in 1945. He passed the course and was commissioned a second lieutenant. He was released from service in 1946.

Station Experience Next • He returned to NBC after the war but resigned in 1947 to join ABC-TV as an executive producer. For six months, the network assigned Mr. Crotty to WMAL-TV Washington, which then was going on the air as an ABC-TV affiliate. He served there as manager of television. Similarly, he was dispatched by ABC-TV to WABC-TV New York, WNBQ (TV) Chicago and WXYZ-TV Detroit.

In 1950 Mr. Crotty joined the Ellington agency as executive producer. He was promoted to vice president in charge of radio-tv in 1957. Among the programs he produced for Ellington were the *Celanese Theater* (ABC-TV), *Ellery Queen* (ABC-TV), *Saturday Night Fights* (ABC-TV) and *Cities Service Band of America* (NBC Radio). He points with pride to *Celanese Theater,* which won a Peabody Award in 1951.

Ellington's clients now are active in local program sponsorships and spot radio-tv. The list includes Cities Service Oil Co., Celanese Corp. of America, Pharmaco Inc., Houbigant Sales Corp. (perfumes and cosmetics), April Showers Toiletries and Stroehmann Bakeries.

The Right Impression • "In producing commercials for these clients," Mr. Crotty reveals, "we try not only to create 'sell' copy but also a favorable corporate image. We're proud to say that we've obtained some very satisfactory results."

Mr. Crotty married the former Louise Schneider of New York in 1936. They have a daughter, Gale, 16, a student at the Oakwood School in Poughkeepsie, N.Y. The family home is in Redding, Conn.

He is a member of the Radio & Television Executives Society, the Academy of Television Arts & Sciences and the Silver Spring Country Club in Ridgefield, Conn. Mr. Crotty is an outdoor man: he enjoys horseback riding and salmon fishing.

Labor's day

LABOR was in the news last week. NBC-TV was struck without warning by NABET in the first incident involving video tape. President Eisenhower last Wednesday expressed disappointment over the Senate's labor legislation passed the preceding week because it does not deal effectively with secondary boycott or blackmail picketing.

The NABET strike is indicative of the arrogance of labor unions since the last elections in which labor-supported candidates won handily almost everywhere. The Kennedy Bill as passed by the Senate proved the strength of labor lobbying in that body.

Broadcasters are vulnerable to the economic pressures applied by labor unions because they are small employers. Two stations which suffered secondary boycotts last year received no help under the existing law.

The Kennedy Bill goes to the House. The President expressed the hope that it will pass a stronger bill. Broadcasters hope so too because they become sitting ducks without protection against secondary boycotts.

The NAB Labor Committee met in Washington last Wednesday, in the midst of the turmoil. A subcommittee was named by Committee Chairman Ward Quaal, WGN-AM-TV Chicago, to direct legislative activities. With him are Les Johnson, WHBF-AM-TV Rock Island, Ill., subcommittee chairman, and William Grant, KOA-AM-TV Denver.

Broadcasters, in their own self-interest, should make known to their Congressmen, who now alone have the power to act, the dire consequences of failure to provide protection against the practices of secondary boycotting and coercive picketing, among other evils.

Option time crackdown

THE world of television won't have to wait until the June 22 reply deadline to learn the reaction of networks and affiliated stations to the FCC's rule-making proposal that option time be cut by one-half hour per segment and that other restrictions be imposed on network clearances.

The three television networks will oppose the restrictions down the line. The affiliates, through their representative committees which testified a year ago in the Barrow network proceedings, can be expected to renew their pleas for the *status quo* on the three-hour segments. But, to varying degrees, they may go along with the other proposals.

In its ruling, which had the full backing of only four of the seven commissioners, the FCC again concludes that option time is essential in the operation of networks and that networks are necessary. It has done this in the face of a Justice Dept. opinion that option time appears to constitute a violation of the antitrust laws.

Thus, the FCC's proposed action is in the nature of a compromise. It could just as well conclude, after receiving the comments next June and the replies 30 days later, that the existing rules are in the public interest. Or it may ordain a deeper cut than one-half hour per segment.

What is most disturbing is the FCC's further intrusion into contractual and business affairs of stations, networks and other program suppliers. This departs from the Congressional intent in creating the FCC as a regulatory body to effect orderly allocations and to see that electrical interference is controlled.

If the FCC's proposals were adopted *in toto* the Commission would create for itself a new and thankless problem—policing network-affiliate relations. The FCC has complained over the years that it does not have the budget or manpower to adequately perform its present functions.

Option time and all of the other clearance problems spring from the scarcity of stations in some top markets. If the FCC resolves the allocations plight, there would be no pressures from non-network groups.

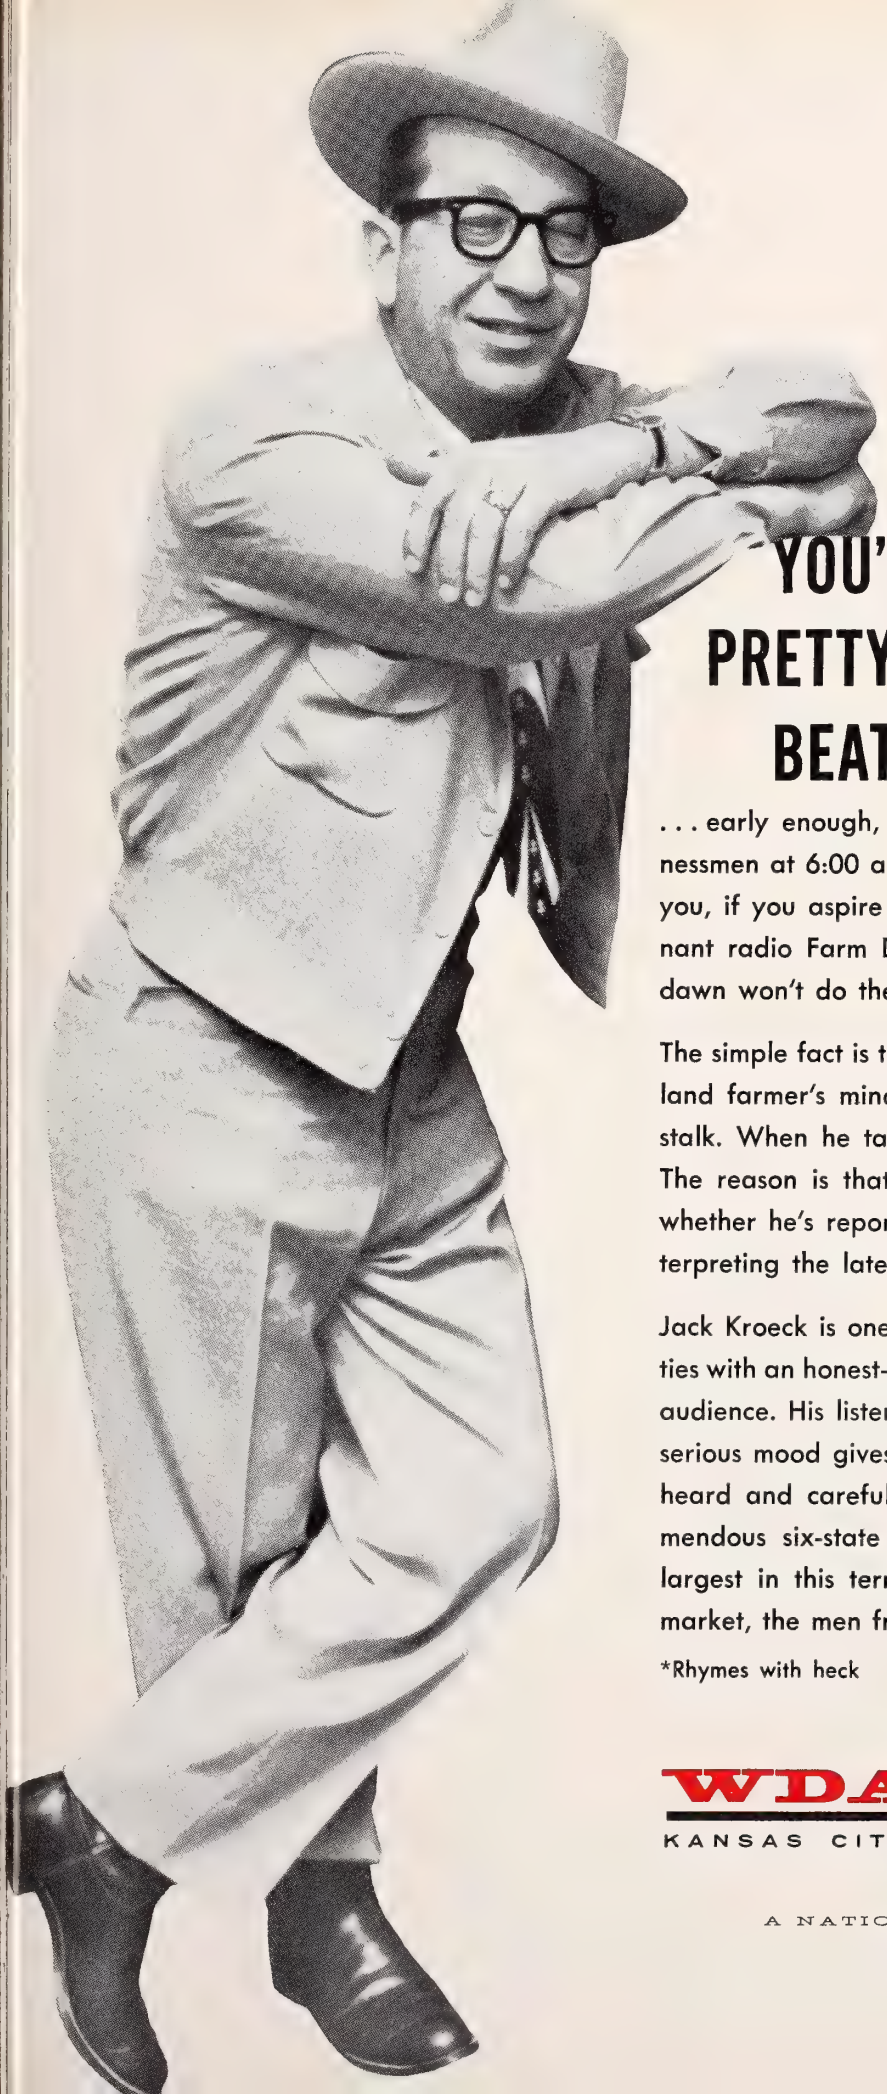
One day the tv scarcity problem will be solved. The FCC is actively pursuing this goal, under the eyes of Congress. It would be wrong to saddle existing stations and networks with onerous and possible destructive regulations if the problem can be solved through interplay of competition by alleviating the scarcity factor.

Destination Washington

WHATEVER decisions may emerge as a result of the Greenbrier meetings 10 days ago, the American Assn. of Advertising Agencies is entitled to an "A" for achievement there in coming to grips with advertising's public relations problems.

These problems—and ways of meeting them—dominated the business sessions of the convention, as reported in this journal a week ago. The agency leaders heard about them on all sides: from a Congressman, from their principal banquet speaker, from their retiring chairman, Dave Danforth of BBDO (MONDAY MEMO, April 20). And the new chairman, Bob Ganger of D'Arcy, saw a "vital need" for greater understanding between advertising and its "publics."

It didn't just happen that pr in one phase or another, especially government relations, occupied such a high place on the agenda. Obviously Chairman Danforth, President Fred Gamble and the other convention planners intended it to be that way.



Delineating the problem is the first step toward solution in any situation. So the Greenbrier sessions, having so amply and articulately pointed up the difficulties advertising faces in getting across a true picture of its function, must be called successful.

Action, of course, must follow delineation in the sequence toward solution. Chairman Ganger mentioned proposals for "lobbying, for a Washington headquarters for advertising, for a self-imposed levy on advertising revenue to finance a public education campaign, and for many other kinds of action" as possibilities that are being considered. What course will be chosen—and whether it will involve separate AAAA projects or will proceed through the Advertising Federation of America or as some such joint undertaking —remains to be seen. But it is clear that advertising's image problem, like the one with which television is wrestling, will not go away unassisted.

Drawn for BROADCASTING by Sid Hix

"So I said to the publisher, let's drop the damn tv log out of the paper and see what happens. . . ."

YOU'VE GOT TO GET UP PRETTY EARLY TO BEAT JACK KROECK*...

. . . early enough, in fact, to talk to attentive farm businessmen at 6:00 a.m., six days a week. Unfortunately for you, if you aspire to replace him as Kansas City's dominant radio Farm Director, simply setting your alarm for dawn won't do the job.

The simple fact is that Jack's drilled himself into the Heartland farmer's mind like a corn borer into a fresh green stalk. When he talks, the prosperous farm group listens. The reason is that Mr. Kroeck speaks with *authority* . . . whether he's reporting fast-breaking market prices or interpreting the latest Washington legislation.

Jack Kroeck is one of the few remaining radio personalities with an honest-to-goodness pre-television style *listening* audience. His listeners want facts, not entertainment. This serious mood gives his sponsors a rare opportunity to be heard and carefully considered throughout WDAF's tremendous six-state coverage area . . . far and away the largest in this territory. If you're interested in the farm market, the men from Christal have the facts.

WHIZZO

KANSAS CITY'S SELLING WHIZ-

Channel 9--KMBC-TV

"Whizzo" (famous circus clown Frank Wiziarde) is the highest Nielsen-rated kids' personality, network or local, in Kansas City daytime television.

The "Pied Piper of Channel 9"

Every weekday from 10 to 11 a.m., practically every pre-school child in the KMBC-TV area finds himself happily lost in the magic world of "Whizzo's Wonderland." These small citizens of the Kansas City area's kiddie kingdom count it one of their greatest honors to appear as guests in the studio court of this king of clowns. And each day, eight boys and girls from 3 to 6 years old do just that, singing their favorite tunes—the sponsors' jingles! When her children watch, mother hears them, too!

Sponsors Profit from Whizzo's Appeal

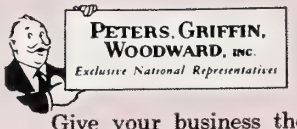
Hill Brothers Self-Service Shoe Stores during their *first week* on "Whizzo's Wonderland," noted more than a thousand mentions of the show from customers. Later, an in-store promotion by Whizzo was swamped by 4,000 youngsters and adults. After five months on the show, Hill Brothers expanded their area retail outlets from four to nine.

Hy-Power Chili got a clear idea of the size and enthusiasm of Whizzo's audience through a Whizzo mail contest which pulled more than 50,000 entries!

Holsum Bread, sponsor for two years now, carries Whizzo's picture on every loaf.

Another sponsor, Milgram Food Stores, large local chain, featured Whizzo at a new-store promotion and in a two-hour period drew 3,130 children and 1,981 adults!

TOPularity Rating with Adults



Whizzo's off-air appearances range from hospitals, orphanages and boys' clubs to such visits as that at the Sertoma Club where he drew the largest crowd in the organization's history—all adults!—plus his appearance as a featured personality in 1958 for the American Royal Livestock and Horse Show and the Kansas City Automobile Show.

Will Hutchins, star of ABC-TV **Sugarfoot,** kids WHIZZO during a recent Hollywood appearance. The elkhide shoes originally were worn by the clown's father in a high-wire circus act (The Wiziarde Trio). Frank started as third member of the trio at age 5.

"Do you like gooseberry lollipops?" Whizzo asks a delighted little girl during his most recent visit to an out-of-town U. S. Army post hospital. With eyes sparkling, she told Whizzo, "this is the happiest day of my life!" (Incidentally, the post authorities dispatched an army airplane for Whizzo's mirth-making mission.)

CALL YOUR 'COLONEL' at Peters-Griffin-Woodward now for further facts and availabilities on "Whizzo's Wonderland." Give your business the boost of Kansas City's TOPularity television station . . . join the SWING to KMBC-TV!

CLOSED CIRCUIT®

Hurt that helped • Advertising plans for Preparation H, hemorrhoid remedy, haven't been hurt by NAB Television Board's punitive action against eight television code subscribers who defied Tv Code Review Board's directive to cancel Preparation H commercials (BROADCASTING, May 4). Last week Whitehall Pharmacal, maker of Preparation H, added $250,000 to its spot tv budget, and Ted Bates, its agency, asked station representatives for availabilities for new schedule to begin within month. With new budget, Preparation H will be spending nearly $1.5 million a year in spot tv.

So far Whitehall has had no trouble maintaining existing list of stations carrying Preparation H's forbidden copy. None of the 142 stations, including 68 code subscribers, has cancelled in week since code board's order. Interesting footnote: one station represented by member of NAB Television Board has been and is carrying Preparation H schedule, according to Bates records.

Chesterfield's network • Chesterfield cigarettes (Liggett & Myers Tobacco Co.) is all over ABC-TV's fall schedule in unique pattern for cigarette advertiser. On three nights alone, Chesterfield will sponsor alternate hour of each following programs all slated for 9:30-10:30 p.m.: *The Alaskans* on Sunday with P & G picking up other half, *Adventures in Paradise* on Monday and *The Untouchables* (Desilu package) on Thursday, with alternate hours of last two still open. And for good measure, Chesterfield also is adding two half-hour weekly shows on ABC-TV by sponsoring half of *Black Saddle* (which moves from NBC-TV) and new *Rebel*, Goodson-Todman production that is slated for Sunday, 9-9:30 p.m. with P & G again joining in sponsorship. McCann-Erickson, New York, is agency.

Box-office notes • Notion that tv play-by-play kills box office being given lie in Milwaukee, home of Braves. National League team, as hot this year as last, is averaging only 15-16,000 per home game as against 22,000 last year. There have been no telecasts either of home or road games last year or this.

Tv eyes are on Milwaukee for another reason. With FCC's approval last Thursday of renewal of ch. 18 WXIX license and transfer to WMIL owner, Gene Posner, for $50,000 from CBS, insiders expect Zenith to resume negotiations for pay tv test on that facility in line with FCC's new test rules. Zenith, of course, hopes to get Braves' games on pay tv basis as centerpiece of test.

Trust-buster • It may be some time before administration chooses permanent successor to Victor R. Hansen who resigned month ago as assistant attorney general in charge of Dept. of Justice's Antitrust Div. Robert A. Bicks, 31-year-old assistant to Judge Hansen, has been acting chief since his old boss left and would like to move up. He is opposed for his tough policies by some big business supporters of Republican administration but does have substantial political support.

Milk fund • American Dairy Assn. is toying with idea of media indoctrination campaign to offset what it considers unfavorable press (national news magazine and newspaper) allusions to effects of radiation (such as strontium 90) and other agents on dairy products. Organization is considering aggressive campaign among broadcasters and print media to counteract publicity. One possible facet: tiein of some kind with NAB fall conferences around country.

Tape remotes • Indicative of growing importance of video-tape programming is formation of new organization, Production Alliance, which plans to specialize in on-location taping of special events through use of mobile equipment. Heads of company are Clay Yurdin and Phil Mellilo, who have been active in tv directing and producing, respectively. Initial major assignment: tape production of Mrs. America contest from Fort Lauderdale, Fla., in late June, slated for presentation on CBS-TV.

Awards, awards • Whether they're Emmies or Oscars, there's unanimity among critics that tv presentations have little to commend them and that unless some new technique is developed and categories reduced to meaningful limits, they should be abandoned. This was view after last month's movie Oscar awards. It was even more pronounced following last week's Emmy awards (story, page 78).

To get away from glut of awards in late spring season, board of directors of National Academy of Recording Arts & Sciences is seriously considering holding second awards dinner this fall, making it annual fall event thereafter. Last week, first NARAS "Grammy" awards ceremonies on Monday were sandwiched between L.A. Ad Women's "Lulu" awards luncheon on Sunday and Academy of Television Arts & Sciences "Emmy" awards on Wednesday (story, page 78).

Drop-ins • Although FCC discussed new vhf tv drop-ins for at least three markets (Fresno, Columbus, Ga.; Baton Rouge-Hattiesburg) at its meeting last Wednesday, it was unable to resolve them and deferred further consideration for two weeks (until May 20 meeting). FCC Chairman John C. Doerfer, in Japan on cable mission, then will be on hand and in position to break reported 3-3 tie. (Craven, Ford, Cross for; Hyde, Bartley, Lee either against or undecided.) These drop-ins would not entail deviations from existing mileage separations but, like some others under consideration, require acquiesence of Mexico or Canada.

Buick's the buy • Details still are under wraps but Buick Div. of General Motors Corp., Detroit, reportedly will sponsor six Bob Hope specials next season on NBC-TV and four 90-minute shows in alternate positions in *Playhouse 90* spot on CBS-TV, Thursdays, next fall. CBS-TV foursome will be based on Ernest Hemingway stories. Agency is McCann-Erickson, New York.

Field trip • Miami's ch. 7 case (WCKT, owned by principals in *Miami Herald* and *Miami Daily News*, plus former NBC President Niles Trammell) comes under scrutiny this week with departure of FCC Associate General Counsel Edgar W. Holtz and attorney James Brennan for preliminary investigation in Tampa and Miami. They will interview those mentioned in House Legislative Oversight Committee proceedings, including Mr. Trammell and John S. Knight, and hope to have investigation completed within two or three weeks. Actual hearings, assigned to FCC Examiner Horace Stern, are expected to get under way by June—assuming completion of testimony in Mack-Whiteside trial before Federal District Court in Washington (story page 71).

Incentive plan • United Artists Television is said to be near deal that could act as strong magnet to movie producers who haven't yet tried tv. UA-TV's plan is ambitious tv anthology to which independent motion picture producers—who work under contract for UA-TV's parent United Artists Corp. but never before in tv—would contribute at least one filmed program. In addition to anthology, UA-TV would consider using any one of episodes if it has promise as peg for individual series.

Experienced hands open a new chapter in Milwaukee TV. For the first time all of the people of Milwaukee can see **CBS programs** which are now on VHF Channel 6,

WITI-TV a Storer Station

Backing up the great CBS lineup of stars are over 3,000 top movies from Paramount — MGM — 20th Century Fox — Screen Gems, and many others. And experienced Storer management assures integrity of operation and close identification with the community's best interests.

WEEK IN BRIEF

MR. SIMMONS

Fact and three fables • Aesop might have told these tales in some other fashion, but the morals would have been the same: don't scare off your prospect by loud argument with a competitor; merchandising benefits may clinch the sale, and don't overprice yourself. These words of wisdom are pearls from the pen of John C. Simmons, national advertising manager, Dr. Pepper Co., Dallas, and they're sprinkled generously in this week's MONDAY MEMO. Page **25.**

Dept. of Justice vs FCC • Attorney General calls FCC's Lar Daly ruling requiring equal time after rival candidates were shown in newscast, a blow at public interest, democratic government and news coverage of political campaigns. Page. **27.**

March billings roar • Tv networks gross time purchases hit over $55.5 million mark, for gain of 12.2%. TvB's report on network gross billing for March and January-March. Page **32.**

Top network advertisers • TvB reports Whitehall's Anacin as No. 1 brand expenditure in February, P&G leading advertiser and food advertisers continuing ahead of the pack in product category. Page **32.**

Cultural tv spree • CBS-TV plans a splurge of informational one-hour specials beginning this fall on a monthly basis, eventually weekly, if networks are allowed to keep their status quo. That's message of CBS President Frank Stanton to the Ohio State U.'s Institute for Education by Radio-Tv last week. IERT also scans educational tv field. Page **50.**

NABET-NBC stalemate • Network rescinds its NABET contract on ground union violated "no strike" clause; union calls this "a unilateral and irresponsible act." Page **57.**

Commission's option • FCC almost eliminated itself from option time regulation entirely; Bartley motion last month to "cut out" Commission from any supervision over option time lost by only one vote. Page **64.**

Probe of programming • No fireworks as FCC starts taking evidence in television network program practices study. First phase consumed with records; inquiry to be resumed after July 1. Page **64.**

The v' shortage • FCC considers, briefly, temporary vhf drop-in actions; staff document lists 36 cities which have less than three v's. Another review possible next week. Page **66.**

Fred Astaire's Emmys • Dancer's telecast draws nine awards. NBC-TV programs win 26, CBS-TV 16 and ABC-TV 2. Page **78.**

Alltime RCA record • First quarter net after taxes is $12.9 million, 44% above same period last year. "NBC is not for sale," says RCA Chairman David Sarnoff. Page **95.**

Payoff in Britain • Commercial tv is prospering there, according to a series of special reports that spell out programming trends as well as the dollars-and-cents aspect. Page **98.**

Now more advertisers than ever before can piece together some of the strongest – and largest – station line-ups ever made available over network radio. Where? On the *expanded* ABC Radio Network!

With the addition of Don Lee (a No. 1 regional network) and the affiliation of the important Intermountain and Arizona Networks, ABC has added more than 50 new stations to its powerful line-up. A line-up, by the way, that carries an extensive array of talent – with entertainment, sports and news personalities like those illustrated above, and a 125-man national and international news staff.

Result: An advertiser can sew up the top 50, top 100 or even the top 200 markets with ABC's superior inside coverage – now stronger than ever before!

We wouldn't want to needle the competition, but if you're looking for penetration, where else would you look but ABC?

ABC RADIO NETWORK

SPRINGFIELD CH. 2 REMANDED

Court expands ex parte contact ruling

Private conversations with FCC commissioners cannot be excused even if case involves rule-making rather than adjudication.

This is what U.S. Appeals Court said Friday in sending back to FCC Springfield, Ill., ch. 2 case—with orders to hold special hearing to investigate charges of *ex parte* representations and qualifications of commissioners to vote.

FCC in March 1957 shifted ch. 2 from Springfield to St. Louis, assigned it temporarily to KTVI (TV) there. St. Louis ch. 2 station, now on regular license, is owned by Harry Tenenbaum, Paul E. Peltason, 37.5% each; *St. Louis Globe-Democrat*, 25%, and stockholders of Louisiana Purchase Co. holding options to purchase about 10%. Messrs. Tenenbaum and Peltason owned KTVI originally when it operated on uhf ch. 36.

During 1958 Legislative Oversight Committee hearings, Mr. Tenenbaum acknowledged that he had seen various commissioners privately, had lunched with each one at one time or another and that he had sent each commissioner Christmas turkey in 1955 and 1956. He admitted that he had urged move of ch. 2 to St. Louis and had discussed desire to get vhf channel for KTVI (BROADCASTING, June 16, 1958).

Springfield ch. 2 originally was granted by FCC to WMAY that city, but construction was forbidden pending outcome of deintermixture case. When Commission removed ch. 2, WMAY appealed. Appeals Court upheld FCC on merits year ago this month. WMAY then asked review by U.S. Supreme Court. Supreme Court returned case to Appeals Court because of information in Justice Dept. brief referring to Legislative Oversight Committee testimony.

When case was argued again before Appeals Court, Justice Dept. maintained rule of fair play required that no behind-doors representations should be permitted no matter what type of hearing was being conducted. Commission argued that since proceeding was rule-making, *ex parte* contacts should not invalidate decision.

Circuit Judge Henry W. Edgerton, writing for himself and associate Judges Charles Fahy and Walter M. Bastian, stated:

"We agree with Dept. of Justice. Accordingly, the private approaches to the members of the Commission vitiated its action and the proceedings must be reopened."

Appeals decision also ruled that case must be reopened because Commission prescribed cut-off for comments and replies in rule-making case. "The rule cannot be interpreted to permit parties to make off the record contentions that it forbids them to make on the record," decision stated.

Court ordered new hearing, "with the aid of a specially appointed hearing examiner," to determine nature and scope of all *ex parte* pleas and other approaches and "any other factors that might be thought to require either disqualification" of some Commissioners or parties.

Court said FCC could, in its discretion, continue service in St. Louis on ch. 2. It also retained control of case.

In reference to same court's 1956 ruling in Albany, N.Y., deintermixture case, Judge Edgerton said off-record representations excused there on basis matter was about nationwide intermixture problem and record showed FCC did not consider these off-record interviews in deciding Albany deintermixture.

Springfield ch. 2 case is fifth involving backdoor influences remanded to Commission by courts—although it is first involving rule-making proceeding. Other such cases: Miami ch. 10, Miami ch. 7, Boston ch. 5 and Orlando ch. 9.

Guild Films reports data sought by SEC

Guild Films Inc., taken to court fortnight ago by Securities & Exchange Commission (BROADCASTING, May 4), filed delinquent 8-K and 10-K reports Friday listing Guild activities, as required by SEC.

Giving information requested by SEC, 8-K report lists (1) June 1957 contract with Chatham Corp. for $1.25 million in spot time (Chatham subsequently assigned contract to Bon Ami); (2) two August 1957 contracts with Bon Ami, one for spot time at $6 million value, second $1.2 million feature film deal. Guild said both contracted were canceled in February because of "difficulties involved in collecting the monthly [$60,000] payments from the Bon Ami Co."

(3) May 1957 agreement with Glamorene Inc. for $3.4 million in spot time over five years (canceled because of difficulty with agency, Product Services Inc., and Glamorene as to type of spots desired); (4) May 1957 agreement with Nestle-Lemur through Product Services and also for $3.4 million in spot time (canceled for same reason as Glamorene contract, Guild said); (5) October 1957 agreement with Reynard International Inc. for foreign distribution of *Minutes of Prayer* tv series, cost $2,225,000; (6) May 1958 agreement with Robin International Inc. to purchase from Robin 173,000 Guild shares for $519,000, canceled later; (7) June 1958 contract with then Standard Sulphur whereby Guild turned over foreign distribution rights to certain of its properties to Inter-World Tv Films Inc., formed from Standard Sulphur, in exchange for $5 million in debenture bonds and 3 million shares (5 million outstanding) in Inter-World.

In 10-K report filed by Guild, firm disclosed that its operations resulted in $4 million loss for fiscal year ended Nov. 30, 1958. Also, Guild said, losses for three months ended Feb. 28 totaled $350,000.

NBC, NABET talk

Prospects for settlement of three-week work stoppage at NBC by National Assn. of Broadcast Employes & Technicians brightened Friday (May 8) when disputants held session for several hours with J. R. Mandelbaum and scheduled another meeting for Saturday (May 9) at 10 a.m. Neither network nor union spokesman would comment on developments at session but it was reported that general atmosphere had improved. NBC was continuing broadcast schedule with use of about 300 supervisory and management personnel replacing about 1,500 NABET members involved in work stoppage which began April 27 over production of taped program in Paris.

AT DEADLINE

CONTINUED *from page 9*

Hagerty stands firm

In address prepared for delivery over Mutual Saturday (May 9) James C. Hagerty said there would be no live radio-tv coverage of President's regular news conferences "as long as I am the President's press aide." Reason for obduracy: to prevent communist propagandists from getting hold of "human fluff" and distorting it to their advantage. Earlier in week Mr. Hagerty had substantiated his observation that "everybody makes fluffs." At Emmy Awards ceremonies Wednesday (May 6) upon presenting citation for spot news coverage won by CBS to its representative, John Day, he referred to recipient as John Charles Daly (ABC vice president-commentator).

Bolling still grows

Bolling Co., N.Y., radio-tv station representative which last week announced opening of offices in Atlanta, Memphis and Denver, today (May 11) also announces addition of St. Louis and Kansas City offices, opening June 1.

Eugene F. Gray, previously general sales manager at KTVH (TV) Wichita, Kan., and media director at Allmayer, Fox & Reshkin Agency Inc., Kansas City, appointed manager of new Kansas City branch in KMBC Bldg., 11th and Central; telephone: Grand 1-7822. Mr. Gray also will be in charge of St. Louis operation until manager is named there. St. Louis address is 705 Olive St.; telephone: Chestnut 1-4350.

Daly wants hearing

Lar Daly, perennial splinter candidate, said Friday he has asked FCC to reject petition of Attorney General Rogers in Chicago Sec. 315 newscast case (page 27) and has requested immediate personal hearing in Washington.

WEEK'S HEADLINERS

MR. PELLEGRIN

FRANK E. PELLEGRIN, partner, vp and tv sales manager of H-R Television and H-R Representatives, N.Y., slated to assume presidency of Radio & Television Executives Society Wednesday (May 13) at business meeting in New York. Mr. Pellegrin thus scores twice: first executive from station representative field to head RTES and first executive in broadcast field to head both RTES and Broadcast Pioneers at same time (he leaves presidency of Broadcast Pioneers on July 1). Mr. Pellegrin has been active in radio-tv management, sales, promotion and public relations for past 25 years, is author of two books on time sales, was founder and first director of the Broadcast Advertising Bureau of NAB, which evolved into Radio Advertising Bureau and Television Bureau of Advertising.

LEN V. LEVY, previously executive producer and manager of Chicago office of Robert Lawrence Productions, film producer, and formerly executive producer of Kling Film Productions' tv commercial department, appointed chief of radio-tv production at North Adv., Chicago-based agency.

MR. SCHOEN

MR. DOUGHERTY

ARNOLD F. SCHOEN JR., general manager of WPRO-AM-FM-TV Providence, R.I., appointed executive vp of WBDO - AM - FM - TV Orlando, Fla. (Cherry Broadcasting Co.) JOSEPH P. DOUGHERTY, formerly sales manager of WJZ-TV Baltimore, appointed general manager of WPRO-TV effective today (May 11). Mr. Schoen, who will remain in full-time capacity with Providence stations for at least another month, will continue to serve Capital Cities Television Corp. (which bought WPRO-AM-FM-TV in March) as administrative consultant. In Orlando he will also be responsible for acquisition of additional and related properties for Cherry Broadcasting Co. Mr. Dougherty, prior to his WJZ-TV service, was assistant sales manager of KYW-TV Cleveland, both stations being Westinghouse Broadcasting Co. stations.

MR. KINTNER

EARL W. KINTNER, general counsel of Federal Trade Commission, nominated by President Eisenhower to be member of FTC. Mr. Kintner was named to succeed JOHN W. GWYNNE, whose resignation effective June 1 was announced by White House last Thursday (May 7). Mr. Kintner slated to fill Mr. Gwynne's unexpired term until September 1960. With FTC since 1948 when he was employed as senior trial attorney, Mr. Kintner has been its general counsel and chief legal advisor for past six years. Previously he was with United Nations War Crimes Commission from 1945-48.

MR. REED

PINCKNEY B. REED, vp of RCA, appointed to newly-created, top-level position in Washington, where he will provide staff coordination of RCA's business activities with federal agencies and represent company's management. He has been vp of RCA since 1957, and formerly was in charge of RCA International Sales and most recently of educational electronics. He has served RCA continuously since 1930 in various engineering, sales and administrative positions. Mr. Reed was also vp of RCA Service Co. where he organized Government Service Dept.

MR. MCCORMICK

STEPHEN J. MCCORMICK, news editor of Mutual Broadcasting System, promoted to director of network, effective today (May 11). Starting this week, Mr. McCormick will reduce his on-the-air assignments from three five-minute shows daily to one five-minute news broadcast to concentrate on his new duties. He joined Mutual's news staff in Washington in 1957. Mr. McCormick was White House reporter and presidential announcer for WOL Washington from 1936 until 1951, and subsequently was free-lance announcer for several radio programs, including *American Forum of the Air* and *Youth Wants to Know*. From 1951-53, Mr. McCormick was radio-tv counsel to Federal Civil Defense Administration.

A CALENDAR OF MEETINGS AND EVENTS IN BROADCASTING AND RELATED FIELDS

(*Indicates first or revised listing)

May 12—**Wisconsin Fm Clinic**, Center Bldg., U. of Wisconsin, Madison.

May 12-13—**RCA Broadcast Equipment Seminar**, Statler Hilton Hotel, Washington, D.C.

May 12-13—**Communications Subcommittee of House Commerce Committee** hearings on Senate-passed bill (S-12) and seven House bills providing federal grants for educational tv.

May 12-14—**Toilet Goods Assn.**, Waldorf-Astoria, New York. Opening day agenda includes panel, "Power of an Idea," with these participants: Herbert R. Mayes, **McCall's**, moderator; Louis G. Cowan, president, CBS-TV; Edwin Ebel, vice president-advertising director, General Foods; George R. Marek, general manager, RCA Victor Div.; Charles W. Ferguson, **Readers' Digest**, and Dore Schary, author-producer.

May 12-14—**Public hearings, Board of Broadcast Governors**, Transport Board Rooms, Union Station, Ottawa, Ont.

May 13—**Iowa Broadcasters Assn.**, Hotel Ft. Des Moines, Des Moines. Howard Bell, NAB assistant to the president, will be luncheon speaker.

*May 13-15—**Pennsylvania Assn. of Broadcasters**, Bedford Springs. Frank Palmer, WFBG-AM-TV Altoona will direct panel on reduction of operating costs and Ralf Brent, WIP Philadelphia, will be chairman of panel on service to local advertiser. Other speakers: Daniel W. Kops, WAVZ New Haven, Conn., editorializing; Elliott M. Sanger, WQXR-FM New York, new fm developments; Michael J. Donovan, Benton & Bowles vp, agency's view of programming; Robert E. Eastman, "From Rep to Net to Rep"; Thaddeus S. Kelly, McCann-Erickson, and Walter Bowe, Warner-Lambert Pharmaceuticals, agency-advertiser station relations; John J. Ryan, Advertising Federation of America.

May 14—**Sigma Delta Chi** annual banquet ceremony, Ambassador West Hotel, Chicago. James A. Byron, news director of WBAP Fort Worth and president of fraternity, will present bronze medallions and plaques to winners of 1959 SDX distinguished service in journalism awards in 15 categories.

*May 14—**U. of Michigan Advertising Conference.** Agency and advertising executives will appear as panel leaders. Theme is the search for certainty in advertising. Speakers include Charles F. Rosen, W.B. Doner & Co., Detroit; Maxwell Ule, Kenyon & Eckhardt; Patrick J. Robinson, Imperial Oil Ltd.; Prof. Irving M. Copi and Prof. Norman R.F. Maier. Michigan, Ohio, Indiana and Ontario advertising groups are cooperating.

May 14—**Washington AP Broadcasters Assn.**, Washington Athletic Club, Seattle.

May 14—**NAB Tv Advisory Committee** on Video Tape Usage, NAB hdqrs., Washington.

May 14-15—**Nebraska Broadcasters Assn.**, annual convention, Cornhusker Hotel, Lincoln. A discussion of broadcast editorializing is planned as well as freedom of information and radio programming.

May 15—**Iowa AP Radio & Television News Assn.** annual spring meeting, Fort Des Moines Hotel, Des Moines. To be held in connection with **Iowa Radio & Television News Directors Assn.** convention.

*May 16—**Florida UPI Broadcasters**, Silver Springs.

May 16-17—**Illinois News Broadcasters Assn.**, spring meeting, Southern Illinois U., Carbondale. Speakers include Sam Sharkey, executive news director of NBC, and Frank Edwards, onetime network commentator now with WTTV (TV) Indianapolis. **Illinois AP Radio-Tv Assn.** annual meeting and **United Press International** business meeting also to be held.

May 18-20—**Annual Electronic Parts Distributors Show**, Conrad Hilton Hotel, Chicago.

May 19—**Film Producers Assn. of New York**, annual industry dinner, Hotel Plaza, New York.

*May 19—**Wisconsin Broadcasters Assn.**, Plankinton Hotel, Milwaukee. H.V. Kaltenborn, pioneer news commentator, and Charles H. Tower, NAB personnel-economics manager, will be speakers.

*May 19—Broadcasting Day, **Emerson College**, Boston. Theme is international broadcasting. Panel moderator will be Franklin A. Tooke, WBZ-TV Boston. Banquet follows at Hotel Vandome with Henry Loomis, Voice of America director, as speaker.

*May 20-22—**Electronic Industries Assn.** 35th convention, Sheraton Hotel, Chicago. Fred R. Lack, past EIA director, will receive 1959 EIA Medal of Honor. Officers will be elected.

May 20-22—**Assn. of National Advertisers**, spring meeting, Edgewater Beach Hotel, Chicago.

May 21—Oral argument before FCC en banc on Miami ch. 10 case involving charges of behind-the-scenes wirepulling Docket No. 9321 et al.

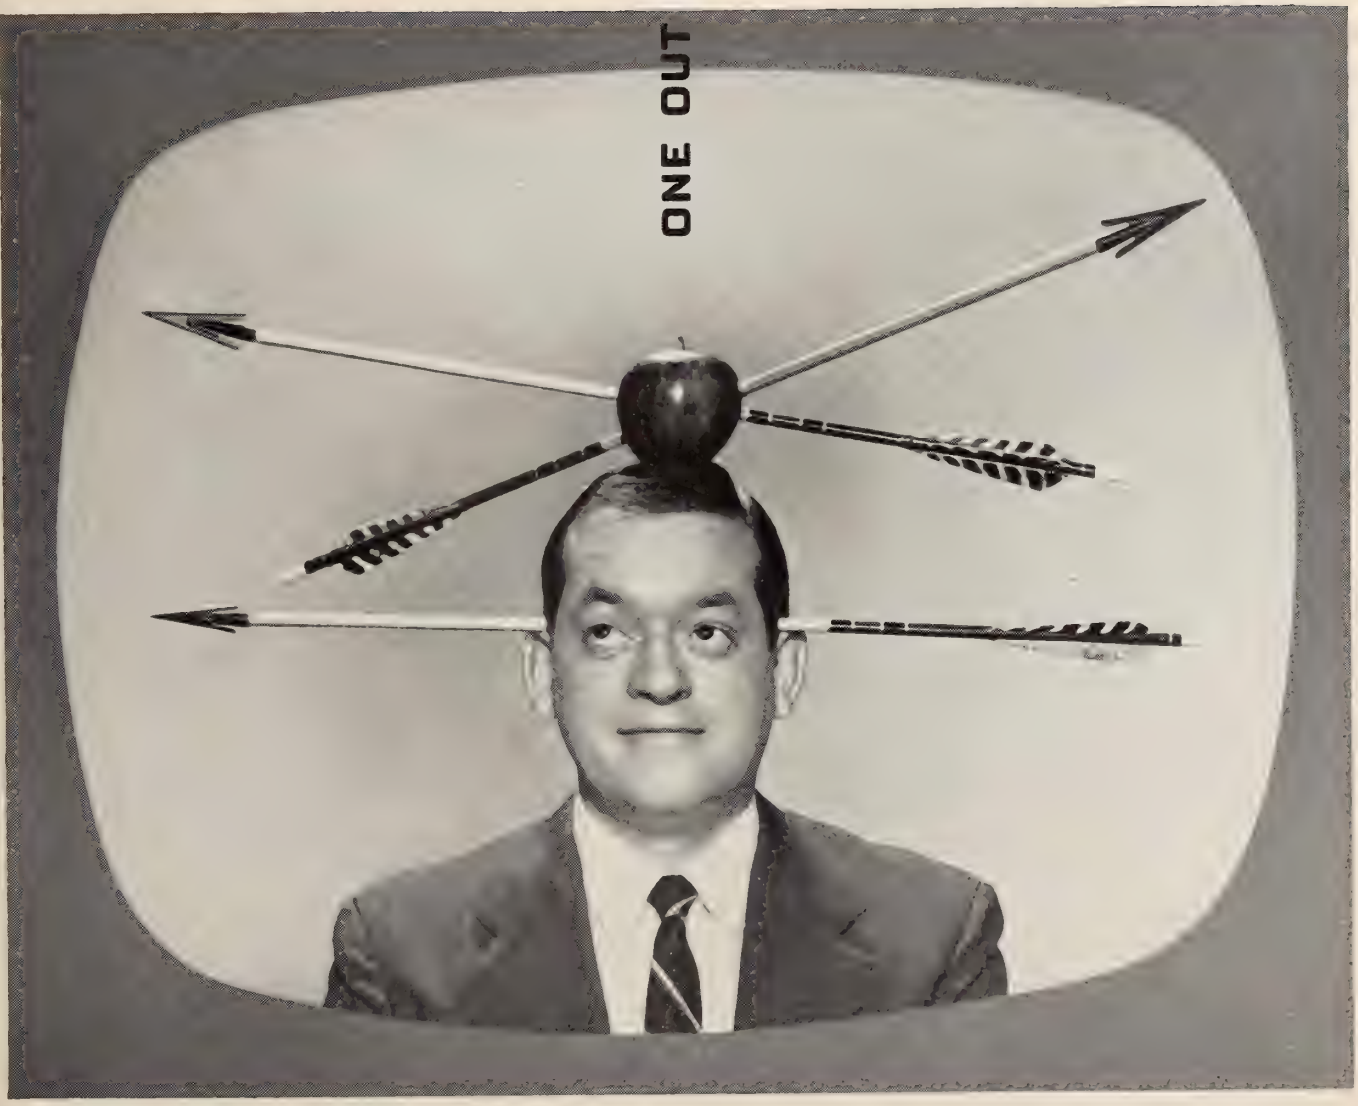
May 21—**National Assn. for Better Radio & Television**, tenth anniversary dinner meeting, Statler-Hilton, Los Angeles. Dr. Garry Cleveland Myers, editor, **Highlights for Children** magazine, will be chief speaker.

*May 21-23—**Montana Radio Stations Inc.**, Rainbow Hotel, Great Falls.

*May 22—**Chesapeake AP Radio-Tv Assn.**, Sheraton-Belvedere Hotel, Baltimore. Topic: "Opening closed doors to radio and tv newsmen."

May 23—**California AP Television & Radio Assn.**, El Cortez Hotel, San Diego.

*May 23-24—**Kansas Assn. of Radio Broadcasters**, Lassen Hotel, Wichita. Douglas A. Anello, NAB chief attorney, will speak.



May 25—Testimony commences in FCC's study of use of spectrum in 25-890 mc region. Witnesses permitted to spend 15 minutes on position already stated in comments filed in March. Broadcast representatives bring up tail of witness list. Hearing is before FCC en banc. Docket 11,997.

May 27—**Chicago Federated Adv. Club**, 17th annual advertising awards contest dinner, Carson Pirie Scott & Co.

*May 27—**New Jersey Broadcasters Assn.** spring meeting, Rutgers U. campus, Rutgers. Topics include single vs. multiple rate and station appraisals.

May 29-31—**Second Annual International Radio Programming Seminar and Pop Music Disc Jockey Convention**, Americana Hotel, Miami, Fla. Speakers will include Matthew J. Culligan, NBC Radio executive vice president; Gordon McLendon, head of McLendon station group; NAB President Harold E. Fellows (keynoter) three station representative executives—John Blair, Robert Eastman and

ONE OUT OF THREE WILL MISS

One-third of all commercials today are completely ineffective in selling the product. So says research. . . . 9 out of 10, you will probably agree, are less than great. To score over competition, you must look upon Radio-TV as a *selling medium*, not just a form of entertainment . . . and on the commercial as the most important part of this great selling tool. **N. W. AYER & SON, INC.**

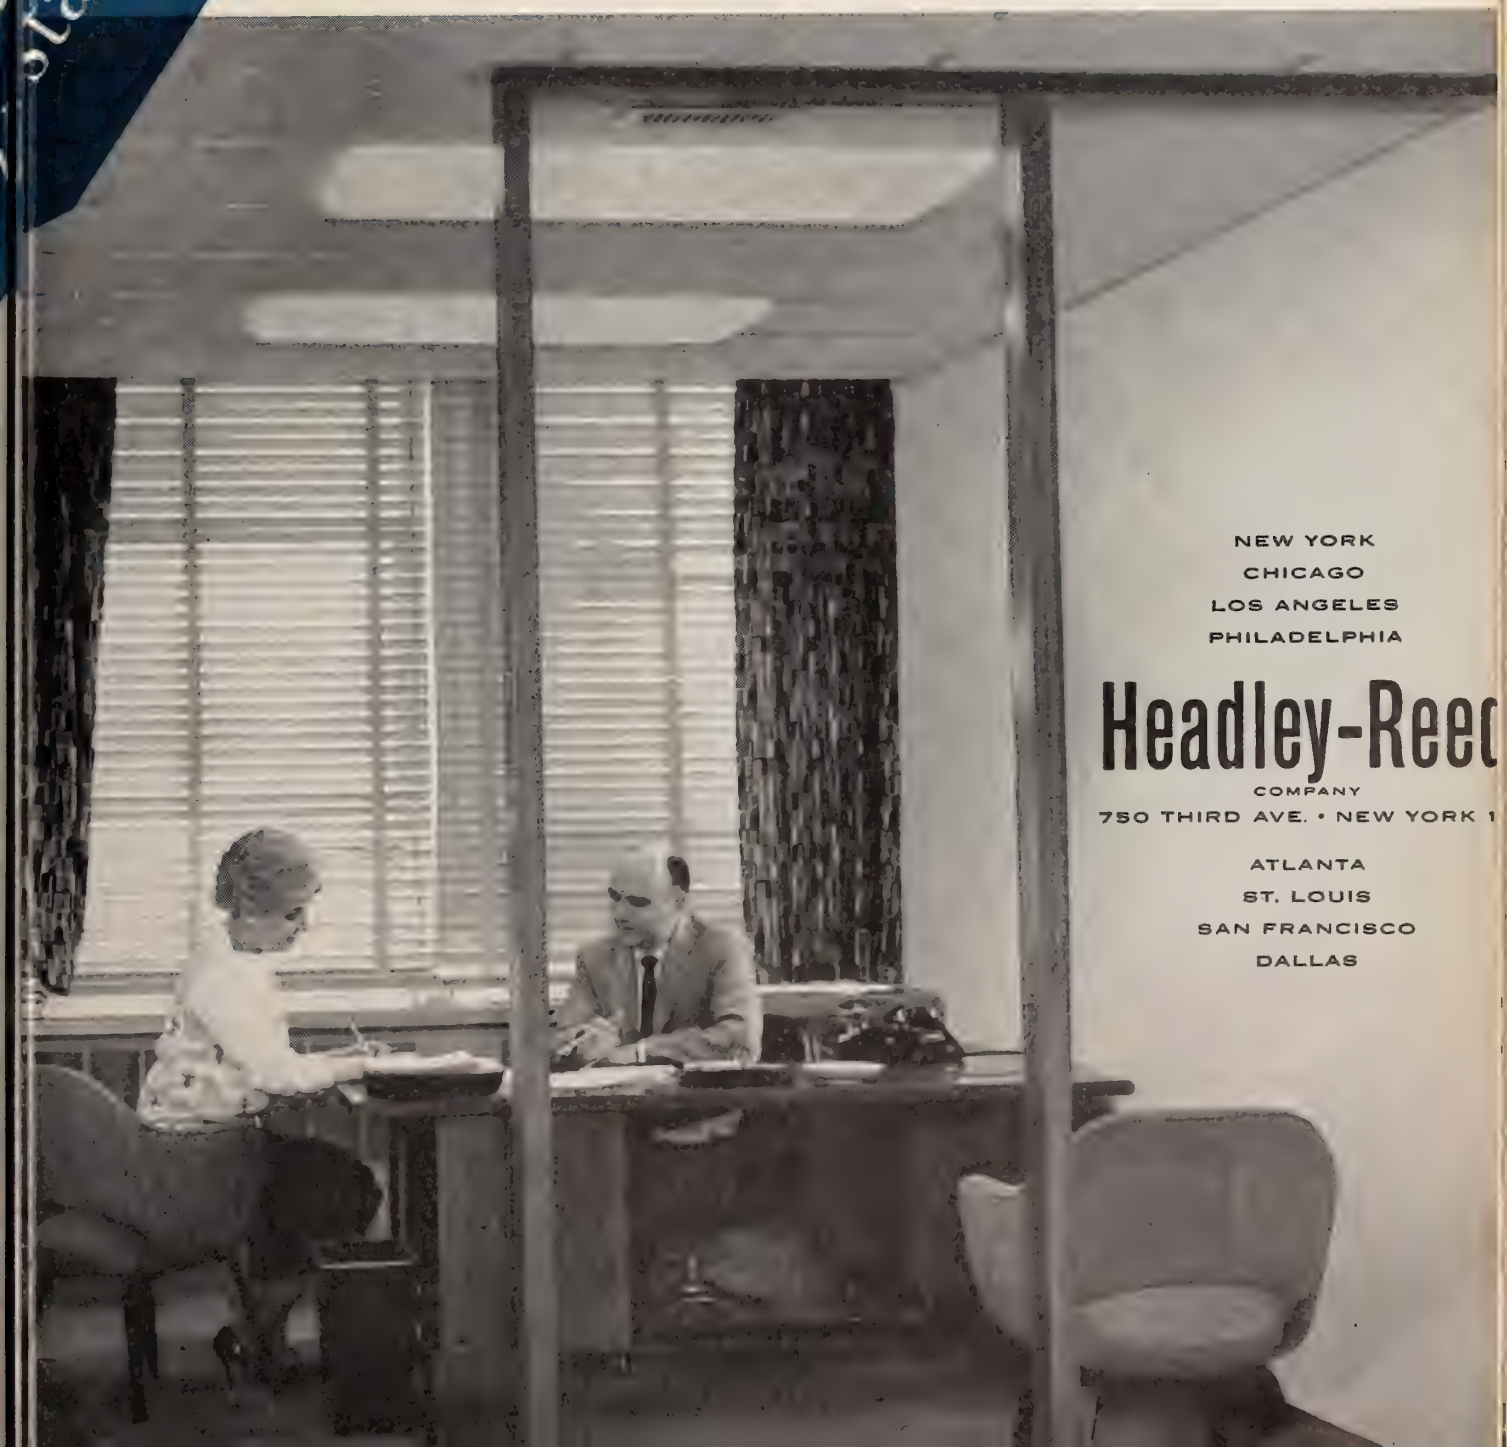
The commercial is the payoff

AWARD

and

REWARD

We are pleased that Office Management Magazine selected our new offices (shown in the background) for their 1959 Award for functional excellence—but we are far more pleased with the salesmanship emanating from these offices, which resulted in an average dollar increase of 58% for *all* Headley-Reed represented television stations so far this year.



These gains, for the first quarter of '59 over '58,

stations!

are for the same 16 television properties represented a year ago. They are not accident, but the result of a definite sales plan, unique we believe, in station representation.

TV Station Operators: We will be glad to tell you, in confidence, of our new approach and explore with you, quite frankly, whether it will mean sales increases for you. Contact: Robert A. Schmid, Vice President, Station Development Division, New York.

in TV and Radio . . .

IT'S BROADCASTING YEARBOOK!

Make no bones about it. Among medical men, Gray's simple-titled "Anatomy" is **THE** factual authority in its field. And among the busy people who spend money in broadcast advertising, there's no substitute for **BROADCASTING YEARBOOK** — the annual compendium of television and radio information compiled by the business-wise editors of **BROADCASTING** Magazine. Here, within a single set of covers, are all **THE** authoritative facts, analyses, studies and directories that TV-&-radio decision-makers will consult again and again for a full year. The 1959 edition of **BROADCASTING YEARBOOK** comes off the press in August—more comprehensive, more indispensable than ever. Among its 16,000 **paid** subscribers will be (as usual) the most important people in broadcast advertising . . . men and women who **must have facts** (and know where to find them). In short, it's a perfect place to tell **your** facts. **Deadline for proofs,** July 1; **final deadline,** July 15. Regular rates prevail. Reserve **NOW** and be sure of a front-row seat! **Call or wire collect!**

THE BUSINESSWEEKLY OF TELEVISION AND RADIO
1735 DeSales Street, N. W., Washington 6, D. C.

Adam Young. Storz stations are sponsoring seminar with Bill Stewart as convention coordinator.

JUNE

June 1-3—National microwave symposium, **Professional Group on Microwave Theory & Techniques, Boston Section,** Paine Hall, Harvard U., Cambridge, Mass.

*June 2—**Special NAB Tv Public Information Committee,** formed to draw up national program, will hold first meeting in New York.

June 3-5—**Armed Forces Communications & Electronics Assn.,** annual convention, Sheraton-Park Hotel, Washington, D.C.

*June 4-6—**Fm Multiplexing Seminar** under auspices of WGH-FM Newport News, Va., Chamberlin Hotel, Old Point Comfort, Va. Agency panels on fm and its future are planned. Other topics—FCC multiplexing regulation; is multiplex a broadcast or nonbroadcast service; must background and store services be broadcast on a subchannel only; music licensing fees; stereo; fm sales prospects; fm promotion. Dan Hydrick Jr., WGH-FM general manager, is in charge of planning.

June 4-6—First meeting of new **FM Assn. of Broadcasters,** Chamberlin Hotel, Old Point Comfort, Va. Association was formed during NAB convention last March, supplanting FM Development Assn.

*June 5—**NAB Tv-Music Advisory Committee,** NAB hdqrs., Washington.

*June 5—First Gold Liberty Bell Award of **Philadelphia Tv & Radio Advertising Club** will be presented at club's banquet, Warwick Hotel. Recipients will be Freeman Gosden and Charles Correll (Amos 'n' Andy).

*June 7-9—**North Carolina Assn. of Broadcasters,** Morehead Biltmore Hotel, Morehead City.

June 7-10—**Advertising Federation of America,** annual convention, Hotel Leamington, Minneapolis. An advertising "situation report" will feature Jean Wade Rindlaub, BBDO vice president; Fairfax M. Cone, chairman of Foote, Cone & Belding, and Sen. Hubert H. Humphrey (D-Minn.). Public service awards will be presented. Other speakers: David Susskind, executive vice president of Talent Assoc.; Mitch Miller, Columbia Records; James S. Fish, General Mills, presiding at the awards luncheon; John J. Ryan, AFA counsel.

*June 8-9—Panel on spectrum allocations before **Communications Subcommittee of House Commerce Committee.**

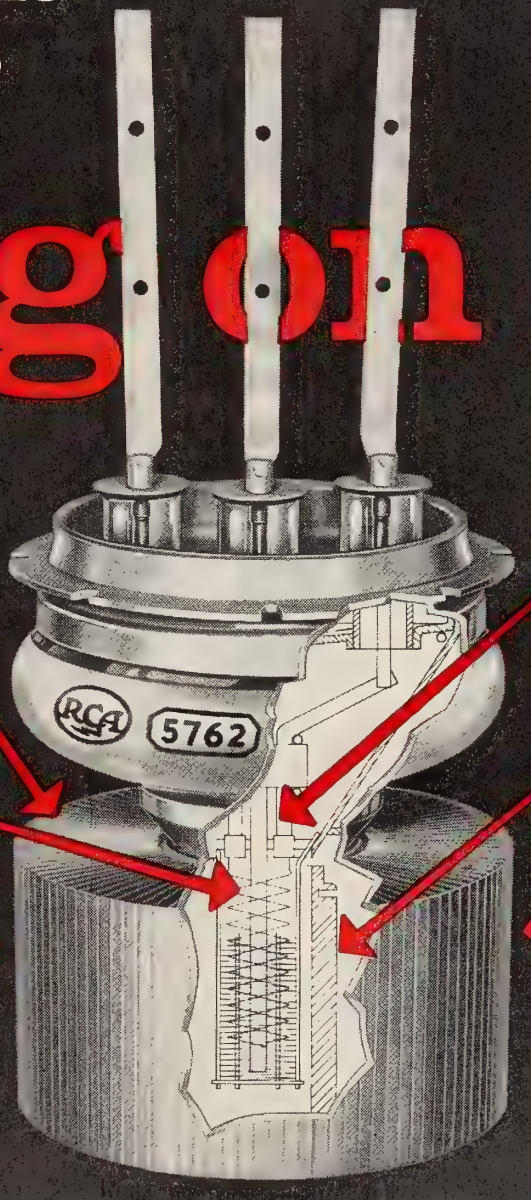
June 12-16—**National Federation of Advertising Agencies,** annual convention, Chatham Bars Inn, Chatham, Mass.

June 13—**UPI Broadcasters of Pennsylvania,** Penn-Harris Hotel, Harrisburg. Gov. David L. Lawrence, principal speaker.

June 13-14—**UPI Broadcasters Assn. of Texas,** annual meeting, Hilton Hotel, San Antonio.

June 13-14—**Louisiana-Mississippi AP Broadcasters Assn.** Jacksonian Motel, Jackson, Miss.

June 14-17—**National Industrial Advertisers Assn.,** national convention, Fairmont and Mark Hopkins Hotels, San Francisco.



*June 15-16—Tv medical symposium, Naval Medical Center, Bethesda, Md., for armed forces and medical schools. On agenda: Color microscopy, medical and dental tv systems; tv cameras; tv distribution; projectors; lighting; recording; tv costs and planning.

*June 15-19—**NAB Combined Boards of Directors,** NAB hdqrs., Washington. Committee meetings and indoctrination of new directors June 15-16; Tv Board June 17; Radio Board June 18; joint boards, June 19.

*June 15-26—Summer workshop for communications librarians, **Syracuse U. School of Journalism** and **School of Library Science,** Syracuse, N.Y.

It's the "built-in" engineering details that make RCA-5762's

long on life

LOUVRED-FIN radiator provides more cooling for a given air flow than a straight-fin type.

GRID AND SUPPORT ASSEMBLY is "vacuum fired" at more than 1700°F for maximum freedom from gas.

FILAMENT IS "CARBURIZED" in an atmosphere which utilizes liquid-nitrogen-cooled hydrogen (—392°F) for super purity.

ELECTRO-POLISHED ANODE reduces internal arcing in this time-proved power triode.

LONG LIFE is assured by leak-detection analysis utilizing the mass-spectrometer principle during manufacture.

ENTIRE TUBE is "spot-knocked" at tens of thousands of volts to reduce internal electric leakage.

Long life and stable performance of RCA power tubes are a result of more than two decades of experience in designing and building tubes for transmitters at all commercial power levels. Take the RCA-5762, for example. The time-proved original design of this famous power triode has withstood severe tests over many years of on-air operation. Kept up-to-date with the most modern techniques, this high-quality power tube is today a better investment than ever.

To get all the hours of tube life you pay for, go RCA. For prompt service, all it takes is a phone call—to your RCA Industrial Tube Distributor.

Border station 'feuding'

EDITOR:

Regarding the continuing harassment by KFMB-TV [San Diego] of XETV (TV) [Tijuana] for serving the greater San Diego community (BROADCASTING, April 6, page 79): a similar situation has satisfactorily prevailed in the Detroit market for many years with CKLW-TV serving the greater Detroit community from Windsor, Ont.

The Tijuana station is certainly no . . . quack-medicine type of operation. Surely the "good neighbor policy" deserves better than mere lip service!

MONDAY MEMO

from **JOHN C. SIMMONS,** *national advertising manager, Dr. Pepper Co., Dallas*

Don't forget the fundamentals

Here are three fables. If they start you thinking of station rating wars, unrealistic rate structures or similar broadcasting foibles, it's because they're supposed to. They're reminders to us all not to forget the fundamentals.

* * *

Two very large and very proud bull elephants occupied the same area in a jungle on opposite sides of a wide, uncrossable watering hole. The first elephant, mighty of tusk and wide of ear, considered himself quite important—particularly to female elephants—and spent hours on his side of the wide, uncrossable watering hole trumpeting, throwing dust on his back and otherwise cavorting in the prescribed manner of an important elephant.

The second elephant, equally endowed and self-appreciated, spent his time in the same manner on his side of the wide, uncrossable watering hole.

Whenever the two elephants spied each other across the pond—particularly when female elephants were around—there was much bellowing, tearing down of small trees and general raising of dust clouds. Violent, angry accusations, threats and comments on the other's ancestry and ability bounced back and forth across the wide, uncrossable watering hole.

When this occurred, insects, birds, rodents, reptiles and all the lesser creatures vacated the immediate area with great speed—and, sure enough, so too did all the female elephants.

Moral • Loud, public arguments among the mighty may be good for the ego—but they sometimes turn away those we're trying to impress.

* * *

Many years ago, a certain rich king wished to build a room onto his castle in which to store his vast supply of spears, broadaxes, armor, swords and trappings. The king was quite concerned about this because just being king was trouble enough.

There were constant skirmishes to look after—a cousin or brother or nephew who occupied a nearby kingdom would attempt to steal cattle, or serfs, or acquire a little more land, and *down* would go the drawbridge and *off* would go the king and his men to settle the matter.

This oft-repeated activity meant that spears, broadaxes, armor, swords and trappings must be kept handy and in good supply. And, after stumbling over his sword and bumping his royal head on his hanging armor a few times, the good king decided to construct a storage room.

Being a sound businessman, he called in three builders and discussed the matter with each of them. After serious consideration the king asked the third builder to construct the room. The other builders came to ask why they had not been granted the job.

To this the king answered, "Like you, builder No. 3 promised much quality in stone blocks, oaken beams and hand-hammered iron hinges—but—something you did not do—he promised one additional service . . . he will *tell* all my people, and all of the people of my cousins and nephews and brothers all about the quantity and quality of my spears, broadaxes, armor, swords and trappings. . . ."

Moral • Merchandising benefits can often be the deciding factor in the selection of services which appear to be nearly equal.

* * *

While scooping out a tree-trunk to make a canoe one day, a caveman named Lesser Oog discovered that a particular type of rock—found only under a particular waterfall—cut wood fast and cleanly. He finished his canoe rapidly, while his neighbors were still chipping and chopping and gouging. He offered to finish their canoes for seven clams each and, at six clams and ten grubworms each, agreement was reached and Lesser Oog went to work. Soon he was chopping out tree-trunks for everyone, making new canoes for ten clams each and the whole community gleefully paddled up and down the river digging more clams to buy more canoes.

After a time, Lesser Oog—by now employing five second cousins to chop down and haul tree-trunks for him—decided he was underpaid for his canoes. After all, no one else had been able to find the particular type of rock—found only under a particular waterfall—and orders on hand would keep him busy for many moons. So Lesser Oog announced a new charge: 20 clams.

This was received with some grumbling but business continued at almost its former pace. There was, of course, the unpleasantry of having to give more grubworms to the tree-haulers, but generally things went well for Greater Oog (a name change was only proper for a man of such importance).

Then, suddenly the word spread like wildfire—there was no need to buy twenty-clam canoes from Oog! Lesser Igg had discovered an even harder type of rock—found only under another particular waterfall — that chopped wood even faster . . . and Lesser Igg would sell his canoes, with a fishing bone thrown in, for only six clams! Very soon, Lesser Oog was a tree-hauler for Greater Igg, being paid twelve grubworms a moon and wondering what had happened.

Moral • It can be dangerous to assume that, as long as you've got all the business, you should price your service accordingly.

John C. Simmons has worked with radio-tv all of his business life. An advertising agency man for 10 years, Mr. Simmons was formerly vice president and office manager of Ruthrauff & Ryan. Earlier, he organized and managed the 105-station Griesedieck Bros. Cardinal Baseball Radio Network (St. Louis-originated) for several years. A graduate of Louisiana State U. and an Air Force veteran, Mr. Simmons continually works for better productivity of broadcast media and was a charter board member of the Assn. of Broadcasting Executives of Texas. He joined Dr. Pepper in 1956 and is responsible for all advertising activities of the company, including its national network radio show and tv programming on many stations around the country. Radio and tv easily represent Dr. Pepper's largest single ad investment.

HOPES RISE FOR SEC. 315 RELIEF

Attorney General urges FCC to reverse equal time ruling; Senate gets new bill to correct some campaign coverage ills

A major break-through in the industry's fight for relief from equal-time requirements of the political broadcasting law was supplied last week by the Dept. of Justice.

A spring-long series of developments in the political broadcasting controversy culminated Thursday (May 7) in a knuckle-cracking rebuke administered to the FCC by Attorney General William P. Rogers.

Official Washington and broadcasters watched with interest as the top legal branch of the government told the FCC in blunt language that it ought to apply the "public interest" test to its Feb. 18 decision in the Lar Daly case.

The FCC was urged to reconsider and reverse its ruling that the Chicago splinter candidate for the mayoralty was entitled to equal time when his opponents appeared in ceremonial roles on regular newscasts.

President's Order • Attorney General Rogers' recommendation was made in response to a Presidential request. "Ridiculous," the President had stated last March 18 when he heard of the Lar Daly decision.

Last week's activity included:

• House Commerce Committee viewing of a film of a Lar Daly appearance on WBBM-TV Chicago (see pictures below).

• Intense FCC silence after receipt of the Attorney General's report, with no word on what might come next.

• Introduction of a bill by Sen. Vance Hartke (D-Ind.) amending Sec. 315 of the Communications Act to exempt newscasts from the equal-time clause, remove stations from libel liability in some political broadcasts and eliminate splinter candidates for President and Vice President from equal-time requirements (see story next page).

A tribute to the news role of radio-tv in political campaigns was paid by Mr. Rogers; a "real benefit" he said might disappear if the decision isn't reversed. He argued the matter goes right to the core of the American system of government.

In viewing a film of Lar Daly's Feb. 18 appearance on WBBM-TV, granted by the station after other candidates had been given a chance to campaign on its facilities, the House committee saw him in a typical "America First" role with Uncle Sam costume and off-beat campaign issues.

This Feb. 18 program was a direct equal-time grant by WBBM-TV and not related to the controversy over the status of newscasts under Sec. 315. It preceded the incident that led to Mr. Rogers' opinion of last week.

Special Conference • First word of the Attorney General's demand, appearing in "a memorandum of the United States re applicability of Sec. 315 to routine news coverage of political campaigns," came during a special news conference called at 11:30 a.m. Thursday (May 7) by James C. Hagerty, Presidential news secretary.

Mr. Hagerty said the memorandum had been presented in person to the President by Attorney General Rogers.

By afternoon federal officials and communications attorneys were specu-

Majesty of the law • CBS-TV demonstrated to the House Commerce Committee last week the most recent example of Sec. 315 in action. Joseph H. Ream, CBS Washington vice president, showed committeemen a half-hour film of a political broadcast by candidate-for-everything Lar "America First" Daly which the network's WBBM-TV Chicago broadcast last Feb. 18. Mr. Daly was a splinter candidate for mayor of Chicago, and was granted time after the incumbent, Mayor Richard Daley, a candidate for re-election, had made a "report to the people" on the station.

The picture at left shows the film as it was presented Thursday (May 7) to about half of the 33 members of the House Commerce Committee. In this frame, Mr. Daly, dressed in the costume he has worn for many campaigns, including one for the U.S. presidency in 1956, appealed for votes (he received the grand total of two in the general majoralty election). The principal planks of Mr. Daly's platform which he presented on WBBM-TV were: (1) abolish the public schools, (2) abolish public housing, (3) legalize gambling for tax revenue.

The picture at right shows some of the House committeemen as they watched the Daly film.

lating on the unusual situation. While the Dept. of Justice and FCC have disagreed frequently on such matters as antitrust policies and routine appeals, the strong language used in the memo was noted with interest. The speculation included such angles as the Dept. of Justice role should FCC stick to its original Lar Daly decision and the case go to an appellate court.

Petitions for reconsideration of the Lar Daly decision have been filed with the FCC by CBS, NBC, Westinghouse Broadcasting Co. and NAB.

The Attorney General's memorandum urged "reconsideration and reversal of the Commission's Lar Daly ruling." The memo cited the routine nature of the newscasts that led to the Chicago trouble.

In the newscasts Mayor Richard Daley was shown greeting the president of Argentina at the Chicago airport, opening the Mothers' March of Dimes drive and filing his nominating petition for re-election.

Lar Daly, also a candidate in the primary election, demanded equal time and protested to the FCC when it was not granted.

The FCC held that Mayor Daley's appearances amounted to a "use" of the station under Sec. 315 though the candidate in no case directly or indirectly asked to go on the air.

Not a 'Use' • The Attorney General's memo last week said: "Urging reconsideration and reversal of this decision, the United States' position is that Sec. 315 does not support the holding that every time a candidate is shown on a regular news program, at the station's sole initiative, such showing constitutes a 'use' by him. Especially so since such holding, by requiring the grant of equal time for all other candidates, might effectively bar all direct news coverage of important campaign developments."

Taking a practical look, the Attorney General said the holding "would make impossible the successful news programming of a campaign. Thus the public interest which is best served by the widest coverage of campaign events would be frustrated."

What's needed, the memo added, is "a common-sense application of the Communication's Act's 'public interest' standard which requires television and radio stations to make a fair presentation of public issues."

The Attorney General contended Sec. 315 provides that if a licensee "permits" a person to use the station it shall afford equal opportunity to other candidates, but said it is clear the language is aimed at use by candidates of particular station facilities as part of their political campaign activities rather than reporting of the news.

Vital Question • The Attorney General said the question "goes to the heart of the effective operation of our system of government," pointing to the need of an informed electorate. The memo said, "To this end, radio and television broadcasting, bringing the voices and visual images of candidates into the homes of the voters, performs a service impossible in previous generations."

This "real benefit" to the people may be virtually eliminated as far as news programs are concerned if the FCC's ruling stands, the department continued. It suggested the ruling conflicts with FCC's view that it believes wide campaign coverage is in the public interest.

Every station is required by law to give fair, balanced news coverage of campaigns, it was stated, and "generally speaking" they have done so, according to the memo.

The memo's conclusion cites the unsettling effects of the FCC's Lar Daly ruling on news coverage of campaigns, stating, "An opinion reversing its previous determination . . . seems called for."

Signing the memo besides Attorney General Rogers were Robert A. Bicks, acting assistant attorney general, and Richard A. Solomon, Dept. of Justice attorney and formerly FCC assistant general counsel in charge of litigation.

How It Began • FCC's Lar Daly ruling last Feb. 18 started the turmoil over political candidates. The Commission by a 4-3 vote ruled Mr. Daly was entitled to equal time after Mr. Daly had filed an FCC appeal Feb. 14. After viewing film clips of newscasts showing Mayor Richard J. Daley, of Chicago, in ceremonial roles, the FCC handed down its ruling. FCC dissenters were Chmn. John C. Doerfer, John Cross and T.A.M. Craven. The ruling climaxed a long fight that started in 1956 when Mr. Daly asked time from all networks to answer broadcasts by President Eisenhower. At that time Mr. Daly was a candidate for the Republican Presidential nomination.

President Eisenhower's attention was called to the equal-time confusion last March by Frank Stanton, CBS president. After reviewing the facts the President made known his views March 18 through Mr. Hagerty. "Ridiculous," the President said. Mr. Hagerty stressed the President was not criticizing the Commission but said the Attorney General should study the case. The President's request was limited to the question of newscasts and did not go into the problem of requiring equal time for splinter and crackpot candidates.

Doerfer and repeal

The "legitimate candidate who has a chance" should be permitted to appear on tv and radio, but if "crackpot" candidates "multiply to the extent that has been indicated," then the people will get to see no one, FCC Chairman John C. Doerfer said in a filmed tv interview with Rep. Alvin M. Bentley (R-Wis.), sent to tv outlets in the congressman's home district last week. Chairman Doerfer said he advocates repeal of Sec. 315, but added: "You can go too far the other way." Incumbent candidates, he said, may "under the guise of newscasts" appear "all the time" to the exclusion of their opponents.

Mr. Doerfer first called for repeal of Sec. 315 in a news conference during the NAB convention (BROADCASTING, March 23).

Sen. Hartke offers Sec. 315 corrections

Sen. Vance Hartke (D-Ind.) introduced his "Fair Political Broadcasting Act of 1959" (S 1858) last Tuesday (May 5) and within two days had five co-sponsoring Senators. His bill goes far beyond five others giving broadcasters relief from Sec. 315 which already have been introduced in this session of Congress.

In addition to exempting newscasts from equal time, S 1858 also removes stations from any responsibility from libel as a result of political broadcasts and defines "qualified" candidates for President and Vice President. For general elections, qualified candidates are described as those representing a party which received at least 4% of the votes cast in the last presidential election or candidates supported by petitions signed by at least 1% of total voters in the past election.

Candidates eligible for equal time in

The Above Advertisement Appeared Monday, April 27, 1959 In *The Sun* and *The Evening Sun* of Baltimore. A Similar Advertisement Appears Each Monday.

primaries, as defined by the Hartke bill, would be (1) an incumbent of any elective federal or statewide office, (2) anyone nominated for President or Vice President at any prior party convention and (3) anyone supported by petitions signed by 1% of the total popular vote or 200,000 persons.

For state and local elective positions, current provisions of Sec. 315 remain in force. The bill also states that "no obligation is hereby imposed upon any licensee to allow the use of its station by any such candidate."

No Libel or Censorship • A new paragraph would be added to the act reading:

"No licensee shall have any power of censorship over the material broadcast under the provisions of this section. No action, either civil or criminal, shall be maintained by any person in any court against any licensee or agent or employee of any licensee, because of any defamatory or libelous statement made by a legally qualified candidate for public office in a broadcast made under the provisions of this section, unless such licensee, agent or employee participated in such broadcast willfully, knowingly, and with intent to defame."

Sen. Hartke's bill, in a preface to the proposed amendments, states that " . . . the great variety of factors which are relevant in deciding what constitutes 'fair and equal' opportunity have afforded constant frustration and pitfalls to legally qualified candidates for public office and the broadcast industry and recent rulings by the FCC concerning the interpretation of Section 315 as it now stands have tended to be inconsistent with the original intent of the Congress and thus with the objective of public service and public enlightenment."

The freshman senator said he became convinced changes were needed in the Communications Act during his campaign for the Senate last fall. The final impetus, he said, was provided by the FCC in its Lar Daly-Chicago decision. Several stations, he said, completely ducked political broadcasts during the 1958 campaign because of Sec. 315 interpretations.

"Having recently emerged from a strenuous campaign . . . I am acutely aware of the shortcomings of the present law," Sen. Hartke stated. "Because of interpretations of the existing law, many broadcasters refuse to take any part in a political campaign. Who suffers? The American public suffers. It suffers in its right to know."

Let Broadcasters Decide • Greater discretion and freedom should be given to individual stations and networks concerning equal time, Sen. Hartke said. He maintained the radio-tv industry is responsible to the public and will decide individual issues in the public interest.

Sen. Hartke pointed out that S 1858 will eliminate many "nuisance" candidates in their equal time demands or will make them "assume the burden of some serious work to qualify . . ." for equal time.

Both CBS and NBC were quick to give their unqualified support to the Hartke bill. NBC President Robert Sarnoff said it "represents a constructive effort to remove the shackles from American broadcasters in the coverage of political news."

CBS President Frank Stanton stated that, if enacted, "Sen. Hartke's bill will permit broadcast journalism more effectively to fullfill its role in informing the people and more fully to participate in the democratic process. It will permit broadcasters to make a far more vital contribution than ever before to an informed electorate."

Chances Excellent • Sen Hartke, a member of the Senate Interstate & Foreign Commerce Committee to which S 1858 was referred, said that "we are going to push real hard for passage of the bill. We hope to get it through in this session. There is every indication that we will be successful." The Senate committee meets in executive session this Wednesday (May 13) and Sen. Hartke said he would discuss his bill prior to this session with Committee Chairman Warren Magnuson (D-Wash.).

When the bill was introduced, Sen. Hartke noted that Sen. Magnuson "has been a leader in the many attempts to clarify and bring into focus those laws dealing with the broadcasting industry." Sen. Magnuson, however, has declined to comment on equal-time revisions during this session of Congress but has indicated his committee would schedule hearings at a future date.

Five other bills have been introduced in the 86th Congress which would amend Sec. 315 but all are limited to exempting newscasts from equal time provisions. Rep. Glenn Cunningham (R-Neb.) introduced the first such measure (HR 5389) and has actively been pushing Rep. Oren Harris, chairman of the House Commerce Committee, for hearings (BROADCASTING, March 23, 16).

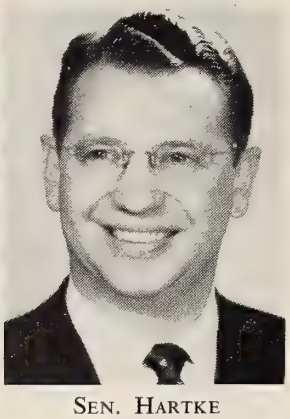
Other equal time-newscast bills have been introduced by Sens. Strom Thurmond (D-S.C.) (S 1585), a member of the Senate Commerce Committee, and Gordon Allott (R-Colo.) and Reps. J. Arthur Younger (R-Calif.), member of House Commerce Committee, and Paul Rogers (D-Fla.).

Signing as co-sponsors of the Hartke bill as of May 7 were Sens. Thurmond, Theodore Green (D-R.I.), Eugene McCarthy (D-Minn.), Gale McGee (D-Wyo.) and Stephen Young (D-Ohio).

The Hartke measure to amend Sec. 315 remained on the desk in the Senate until Friday in order to provide additional co-sponsors with an opportunity to sign.

Problem Not New • Proposed revisions of the equal-time rules have been before past Congresses, with hearings held, but to date no changes of consequence have been made in the 1932 law. In 1952, an amendment was added prohibiting stations from charging candidates more than their regular rates.

During the 85th Congress, Sens. Hennings and Green sponsored two "clean election bills" which would have accomplished the same thing as the Hartke bill. Hearings were held by the Senate Rules Committee and the bills were favorably reported but the Senate took no further action. Also in the past Congress, Sens. Magnuson and Albert Gore (D-Tenn.) introduced bills designed to define qualified candidates for equal time.



Rep. Harris sponsored and held hearings on legislation similar to the Hartke bill during the 84th Congress. The House Commerce Committee chairman has indicated that he might reintroduce the 1955 bill for consideration of his committee.

Each proposes a different cure for political broadcasting law

Gets to Detroit's big mobile audience with vital traffic bulletins!

Combining public service with direct selling to a highly receptive market, the dramatic "Traffic-Copter" is another reason why WJBK is Michigan's most result-producing independent radio station. During Detroit's peak automobile movement the "Traffic-Copter" spots accidents and congestion, checks traffic flow, and relays the information immediately to a vast automobile audience. It covers all the main arteries and advises of best routes. It performs a genuine service. WJBK *presents your message to an appreciative and responsive audience out-of-home and in home!* . . . Storer Radio sells with the *impact of integrity.*

ANACIN ON TOP
Out-spends 14 brands on network tv in Feb.

Anacin tablets—a Whitehall Labs product—topped the February listing of the leading 15 brand advertisers in network television. Whitehall spent $740,627 gross in time charges that month. Anacin also was the leading brand (in gross dollars) in January.

Procter & Gamble rode its usual first place in the top 15 network advertising listing, spending an estimated $4 million-plus in February in time purchases. Lever and American Home Products continued to invest at a $2 million monthly clip, again residing in the second and third notches in the leading 15 list.

Among the brand leaders, Dristan—another Whitehall product—continued its tv investment in February, ranking No. 6 among the 15, or an advance of two places over January. Dristan has been resigned by the Bryan Houston agency, thus putting that account up for grabs effective in June.

Aside from Whitehall, R.J. Reynolds was the only other network advertiser to have more than one brand in the top 15. Reynolds' investments were Camel (nearly $500,000) and Winston ($431,492) cigarettes.

The tobacco firms made hay for the networks during February according to the figures as compiled by Leading National Advertisers and Broadcast Advertisers Reports and reported by Television Bureau of Advertising.

In addition to Camel and Winston in the R.J. Reynolds' cigarette family the top 15 brands included Brown & Williamson's Viceroy (ranked second), P. Lorillard's Kent (ranked ninth), American Tobacco's Pall Mall (No. 12) and Liggett & Myers' L & M filters (ranked No. 15).

In other perspectives: daytime networking showed advances in time purchasing compared to February 1958, a consistent gain this year for daytime television. Nighttime also picked up 1.8% (comparing February of this year with the same month of a year ago).

Up in front in estimated advertising expenditures by product category: food products with more than $9.7 million invested in February. For the first two months of this year, food advertisers already have topped the $20 million mark.

Tv network gross keeps climbing in March

The tv networks grossed a total of $55,519,731 in time charges in March, a gain of 12.2%. The month also was the network tv highwater mark for the first three months of the year. The total gain for the three months over a year ago came to 8.9%.

ABC-TV chalked up more than $11.5 million in gross billing, a figure that is 23% higher than the total billed in March 1958. CBS-TV and NBC-TV also were stepping out smartly, these networks registering respective 9.5 and 9.8% advances.

The March time purchases compiled by Leading National Advertisers and Broadcast Advertisers Reports are being released today (May 11) by the Television Bureau of Advertising.

The breakdown:

MARCH

	1958	1959	Change		1958	1959	Change
ABC	$ 9,402,407	$11,565,031	+23.0%	ABC	$ 27,013,004	$ 32,236,569	+19.3%
CBS	$21,211,070	$23,226,385	+ 9.5%	CBS	$ 62,715,826	$ 66,161,853	+ 5.5%
NBC	$18,874,597	$20,728,315	+ 9.8%	NBC	$ 54,004,023	$ 58,081,996	+ 7.6%
Total	$49,488,074	$55,519,731	+12.2%	Total	$143,732,853	$156,480,418	+ 8.9%

Month by Month—1959

	ABC	CBS	NBC	TOTAL
January	$10,647,078	$22,129,248	$19,299,853	$52,076,179
February	$10,024,460	$20,806,220	$18,053,828	$48,884,508
March	$11,565,031	$23,226,385	$20,728,315	$55,519,731

The figures for February revised as of May 5, 1959.

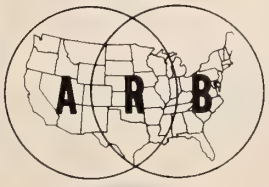
Announcing . . . . .

ANOTHER TELEVISION FIRST FROM ARB

Audience size for **every** U. S. TV station
in **every** U. S. television market with . . .

nationwide tv measurement!



- Sampling in **every** U. S. county
- Complete ¼ hour viewing to **every** U. S. TV station
- Total homes reached by **every** program and spot
- Simultaneous coverage data for the entire U. S.
- Fully automated UNIVAC® data processing

Once more ARB leads the TV research industry in a dramatic new advance to be introduced in fall 1959 . . . TOTAL U. S. TV MEASUREMENT! By means of an entirely new concept . . . a progressive sampling approach reaching into every U. S. county, plus electronic digesting and interpretation of data by the newest UNIVAC® . . . ARB makes possible simultaneous measurement of all TV viewing to every U. S. TV station, wherever that viewing might occur.

For the first time in history, stations and buyers of time will be supplied with actual homes delivered by every one of the 500 plus U. S. TV stations separately, by each quarter-hour of the week for each station, **plus** complete station circulation figures showing **where** these viewers are.

These new features will be included in addition to ARB's regular metropolitan area rating reports and audience composition studies already standard in over 150 important markets.

You'll be hearing more soon about this fabulous new fall 1959 package from ARB—first with the interviewer supervised diary, first with one-week/four-week measurement, first with the all-electronic ARBITRON, and now . . . first with **NATIONWIDE TV MEASUREMENT!**

TV SPOT SUMMARY
Katz agency prepares source for timebuyers

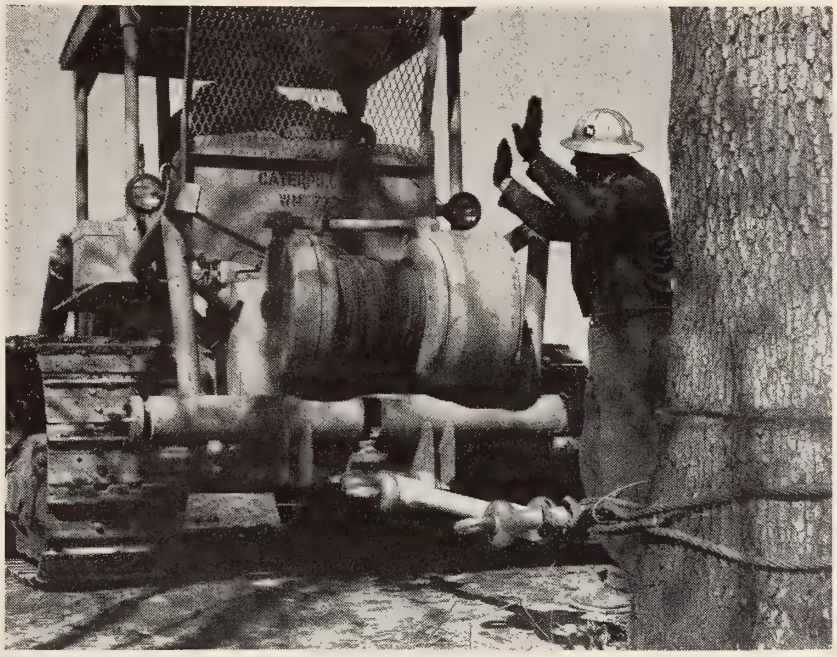
A new tabulated summary of spot tv costs for timebuyers to consult for quick estimates using 1 to 239 markets has been prepared by The Katz Agency, station representative.

In compiling the summary, Dan Denenholz, director of research-promotion at Katz, found a new trend developing in the rates charged by stations for minute announcements compared to those for 20-second spots.

What the trend amounts to generally is the raising of prices by many stations of their minute announcements. Up to this time, it was indicated, minutes and 20-second announcements were comparable in costs (particularly in choice time periods).

In a sampling of all stations covered —including those which had no appreciable difference between minutes and 20-second rates as well as those which have—the average difference comes to:

	Nighttime %	Daytime %
Minutes	100	100
20-second	95	93



These figures are interpreted as follows: using the 100 percentage as the base for minutes, the 20-second average cost would come to 95% of that base in the nighttime periods and 93% in the daytime.

The summary includes Katz' formulas for estimating spot tv budgets. These formulas are based on rate cards of a representative sample of 50 leading network affiliates and show weighted average discounts and other frequently requested rate ratios.

The tabulation covers for each market the highest one-time and lowest classification; one-time rate for the half-hour as well as the one-time, and 260-time rate for 20-second announcements all in the nighttime period; the one-time and maximum discount rate (including various plans) for a minute announcement in the daytime and similar information for the minute announcement in the late night period (after 11 p.m.).

On this basis an advertiser could buy a nighttime half-hour for all 239 markets for: $90,236 at the highest one-time rate and $60,946.55 for the "lowest" one-time rate.

He could buy a nighttime 20-second spot for: $32,994.75 at the one-time rate and $27,101.39 at the 260-time rate. An advertiser could also buy a daytime minute spot for: $13,107.85 at one-time and $6,877.60 at maximum discount; and a late-night minute spot for: $16,929.75 at one-time and $9,801.59 at maximum discount (all rates for 239 markets).

PREVIEW . . .

Proof of the pudding • How to demonstrate dramatically the true strength of a new plastic, "Delrin," was the problem faced by the du Pont Co. for its commercial to be seen May 25 when *du Pont Show of the Month* presents Herman Melville's "Billy Budd" on CBS-TV. This scene is from the three-minute commercial. It was decided to shoot a "tug of war" in which a 2¾-inch bar of white Delrin would be the connecting link between a roaring 16-ton bulldozer and a sturdy 45-foot high, two-foot diameter oak tree. The full documentary-commercial tells the story of how du Pont research developed Delrin. George Neilsen of du Pont's advertising department supervised the filming. Collaborating on the production was du Pont's agency, BBDO, New York.

Paint firms spend $1.6 million in tv

National and regional paint industry advertisers in 1958 poured an estimated $1,184,600 into spot tv, according to Television Bureau of Advertising. The amount represents a 4% increase over the previous year's mark of $1,137,000 and is 33% greater than the $892,000 spent in 1956, the first year the industry's expenditures became available.

Rust-Oleum Corp., Evanston, Ill., led the list of paint advertisers in spot tv with $206,440 on its Rust-Oleum rust preventative.

In network tv, Pittsburgh Plate Glass Co. and du Pont Co. invested a total of $459,650 on their home paint products, raising the total 1958 all-industry tv advertising expenditure to $1,644,250, representing gross time costs only, TvB reported.

Trek to tv

The nation's top 100 newspaper advertisers spent 15.9% more in television in 1958 than during the previous year, and cut their newspaper expenditures by 4.5% over the same period. As reported by the Television Bureau of Advertising, gross tv time sales, spot and network, to this group totaled $581,983,460 in 1958 as against $502,137,986 in 1957. Their newspaper purchases fell from $381,151,000 in 1957 to $364 million last year.

Ad focus changes

Increased competition for consumer time and attention today demands advertising be brief and yet interesting, Melvin Brorby, senior vice president of Needham, Louis & Brorby, Chicago, told an advertising seminar May 1 at the U. of Wisconsin, Madison. He said the "increase in education forces us to be both more credible and in better taste." He explained that emotional appeals and symbols still must be employed, but they must be in harmony with consumer symbols and motivations.

LOCAL PRODUCTS:

Postage Stamps... and WMAL-TV

ABC IN THE
NATION'S CAPITAL

Stamps take mail to far-off places. WMAL-TV takes whole families, via ABC network programs and news.

Postage stamps display some of the finest artistic talent available. WMAL-TV is a showcase for *entertainment* talent, with top network names, and local personalities like Louis Allen, Pete Jamerson and Bill Malone.

Stamps are in great demand at Christmas time, when people wait in line at the Post Office to buy them. Eager buyers for your product are available all year 'round, in the WMAL-TV audience.

Stamps provide a maximum of service at a minimum cost. So does WMAL-TV, where programming is arranged to give advertisers sensibly priced one-minute spots in *all* time classifications.

RAB 'Road' report: healthy local gains

Increased business this year at the local level will show gains in overall radio revenue, Kevin B. Sweeney, Radio Advertising Bureau president, predicted in his "Report From the Road" to be released today (May 11). Mr. Sweeney's assessment of radio's health (CLOSED CIRCUIT, April 27) was developed at the bureau's 1959 area sales clinics, now entering their fourth week.

Reasons for Mr. Sweeney's optimistic outlook for the radio business:

- Automobile dealers are replacing supermarkets as radio's principal local customer, and not because supermarkets are spending less, but because auto dealers are spending more.
- Summer business will be at an all-time high, with soft drinks nationally and through their bottlers spending at least 20% more than in any recent year.
- National business is still sluggish, but RAB's national sales department forecasts a substantially better second half with a clear gain over the second half of 1958.

Reporting from the West Coast where last week he supervised clinics in San Francisco and Los Angeles, Mr. Sweeney analyzed the retail swing to radio with the observation that retailers are becoming more aware of the need to diversify their media approach . . . "And that has to mean more radio."

Ad turnabout

The newspaper strike in New York last December was responsible for a turnabout in the advertising strategy of Fairbanks Motors Co., the Bronx, which has been a consistent space user in area newspapers. The company, which rebuilds auto motors and transmissions, channeled its advertising dollars into radio via WLIB New York. The result: a 25% increase in business over the past five months.

Fairbanks' uses spot announcements on WLIB early in the morning and late in the afternoon, scheduling as many as six announcements per day. The campaign is handled by Gelles Adv., New York. Michael Abruzese, president of Fairbanks, reported last week that the radio announcements out-pull the newspaper insertions by more than three to one.

IT TAKES PEOPLE TO SELL PEOPLE / Sir Winston Churchill.

A creative genius. Writer, statesman, historian, artist. An idea man. But, like all ideas, it took a salesman to sell them. And, Sir Winston, above all, is a salesman – with stature.

On Radio WIL, behind the news and music, behind the weather reporting and radio personalities are salesmen. Salesmen that sell your products, services and ideas. In short, it takes people to sell people.

In St. Louis, WIL is known for many things. But above all, WIL is a salesman–with stature.

Folger fills broadcast cup

It's still too early to tell, but J.A. Folger & Co. is "quite pleased" with response to a saturation broadcast advertising campaign in Chicago—it already has helped meet "anticipated sales figures," according to a company executive.

Starting March 9-16, the Kansas City firm launched a spirited teaser drive in radio, tv and other media to introduce Folger's coffee to Chicago. The theme: a promise by "Captain Folger" to "bring a mountain to Chicago." The gimmick: a mailed coupon by which a consumer could get an extra pound of Folger's for every one purchased in a chain or independent store.

Through Cunningham & Walsh, Folger bought 60- and 20-second spots on nearly two score radio outlets in the Chicago area, plus announcements on the city's four commercial tv stations. By month's end, it added tv schedules in South Bend and Elkhart, Ind.

Don Atha, of Folger's advertising department, told BROADCASTING that while his company is now "taking inventory" of actual sales for the first two months, it's gratified with the initial air campaign, of which tv has gotten the largest dollar share (out of an estimated $500,000-plus). Folger spent nearly $3 million in television last year.

The spot tv schedule, involving 52 week commitments, will continue in Chicago indefinitely, Mr. Atha reported, while radio has been "temporarily cut back" pending a sales inventory. "We will be using more radio, however, when the situation warrants it," he added. Newspapers, posters and other media also were utilized. The campaign set off lively competition in Chicago's coffee market.

Multi-spots decried by ad media planners

Nobody has been able to document the actual harm to advertising by multiple-spotting, but it was agreed last Tuesday (May 5) by members of the New York Advertising Media Planners that agencies are continually short-changed by many tv stations.

Led by a panel of three—Dick Jones, vice president at J. Walter Thompson; Max Tendrich, vice president and media director, Weiss & Geller and William E. Matthews, vice president and assistant media director, Young & Rubicam—a group discussion was held on the effects of multi-spotting and what is being done to restrain the practice. The NYAMP takes no action as a group, but meets monthly to discuss topics of mutual interest.

The panelists, reporting on their surveys of New York advertising agencies, concluded that the agencies are disturbed by the practice. None of them like having their time cut short and most of them do take some form of action, but there is no dependable, clear-cut way of checking or policing.

The form of action varies from inserting special clauses in contracts to not placing further business with the guilty station. Most agencies use some form of monitoring service, which, at least in time, reveals what the pattern of the station is. One proposal was that stations should refuse spots to avoid triple spotting. It would be better, it was argued, for them to raise their rates. The agencies, however, object to paying any premium for promises of no triple-spotting.

The NAB's tv code, in the news in recent weeks for its stand on personal advertising (BROADCASTING, May 4), was criticized by the NYAMP for its loose terminology regarding spot advertising. The code does not make it clear, several mediamen said, as to the policy a station should abide by. A bad mixture of semantics, it was declared, enables a station to hide behind the code and feel secure in its placement of spots.

Stop playing by ear, Dodge ad chief asks

Advertising agencies were criticized sharply last week by W.D. Moore, advertising director of the Dodge Div., Chrysler Corp., for failing to make "full use of research in creative approach to the marketing problem."

Mr. Moore told members of the Toledo Advertising Club last Wednesday (May 6) that agencies rely "too much on gimmicks, glamour and gross circulation instead of researched fact in moving goods in the market." He advocated more information about markets, motivations, messages and media to build "a more solid foundation for creating scientific advertising campaigns."

"Research is not restrictive at all," Mr. Moore declared. "In fact, it clearly defines areas which need the most creative assistance. By marking the channels for action, research prevents us from sailing off in all directions—on indirect, and often incorrect, courses."

He contended that advertising men are "wrong" to sell themselves to management as "creative artists," since management "wants them to be scientists." He continued:

"We advertising people are not evangelical prophets of even the first-coming of the cash-paying customer."

Seattle switch

Kraft, Smith & Ehrig will be the name of Honig-Cooper, Harrington & Miner's Seattle office after July 1.

KSE will continue as an affiliate of the latter. The officers: Warren E. Kraft, Sr., now senior vice president, will be chairman; Hugh A. Smith, president of Washington Market Research Co. (a H-CH&M division), will be senior partner; Donald B. Kraft, vice president-manager also senior partner; Jack Ehrig, vice president, partner, and Warren E. Kraft, Jr., vice president-assistant treasurer, partner.

Y&R picks four

William Milton Samuel, a son of Milton Samuel of Young & Rubicam's tv-radio promotion department in Hollywood, was one of four winners in this year's competition for scholarships under Y&R's aid to education program administered by the Young & Rubicam Foundation that was created in 1955 by Sigurd S. Larmon, board chairman and chief executive officer of the agency.

Under the program, the agency awards four-year scholarships to sons or daughters of Y&R employes who

Trust Co. banks on etv series

Advertising returns of the U. of Rochester's (N.Y.) programs over WROC-TV there for the Lincoln Rochester Trust Co. have been assessed by the bank.

Spot audits show that the mention of a bank service on two primarily educational programs: *University Commentary*, or *University Open House*, can attract several million dollars of business to the bank.

The two university programs, in their sixth year of commercial sponsorship, are presented on alternate weeks. *Commentary* is a telephone forum. University students and a panel of experts deal with questions telephoned by viewers while the program is in progress. *Open House* presents lecture-demonstrations, discussions, films, etc.

Some of the ways Lincoln Rochester has been able to gauge the effectiveness of its brief messages at the beginning and ending of each show:

The script of one of the programs ("How to Buy a Home") was made into a booklet. The bank received 2,000 requests for it after announcing over WROC-TV that the booklet was available. "Undoubtedly," the bank says, "this helped increase our mortgage loans." Another university program dealing with investments brought inquiries at the bank and resulted in one large investment account. A program about trusts and wills that included a Lincoln Rochester trust officer on the panel is credited by the bank with bringing several million dollars in new accounts to its Trust Dept.

Lincoln Rochester Trust Co. has renewed the university-WROC-TV series for the seventh year.

qualify. Amount of each grant is determined by the winner's need. Other winners included Ellen Jane Press, daughter of Mrs. Kay Press in the accounting department; Frederick Harris Gardner, son of Paul Gardner in Y&R's publicity department. A fourth award was a special scholarship to Natalio P. Bayonet, son of Mrs. Lydia Rivera Lugo of Y&R's copy department in the Puerto Rican office, the first educational benefits extended by Y&R beyond the continental U.S. Y&R also is engaged for the fourth year in its program of matching contributions made by its employes to privately-endowed colleges. Already, the foundation has contributed this year to 52 colleges in amounts equivalent to those made by 126 employes.

L.A. ad Women step up for Lulus

Los Angeles Advertising Women Inc. presented 24 golden Lulu trophies to top ad women May 3 at the local Hotel Ambassador.

Top honor for radio commercials was won by Marion Sternbach of Honig-Cooper, Harrington & Miner, Los Angeles (for Interstate Bakeries Corp. [Weber's bread], Kansas City, Mo.). Second prize for radio commercials went to Terri McFadden of Robinson, Jenson, Fenwick & Haynes, Los Angeles (for Breast O' Chicken Tuna Inc., San Diego).

The best monochrome tv commercial award was given to Nora M. Fischer of Brewer, Mulcahy & Fischer, Los Angeles (for the Woggle Stick Co.). Second prize to Mary Louise Metcalf of Kenyon & Eckhardt, Los Angeles (for Max Factor & Co., Hollywood). The best color tv commercial was by Gretta Van Dyke of Carl Lawson Adv., Phoenix, Ariz. (for Arizona Savings & Loan).

The first-place sales promotion and merchandizing Lulu went to Norma Fulcher of Portland (Jantzen). Second to Gena Melin of Hixson & Jorgensen Inc., Los Angeles.

Civic and public service film production awards went to Avalon Daggett of Avalon Daggett Productions (for The Tribal Council of the Apache Nation), and Adele Ullman of Los Angeles City Schools and KNXT (TV) Los Angeles.

• Business briefly

Time Sales

• Wilson & Co. (for Ideal dog food), Chicago, buys spot radio schedule in 23 markets to supplement *Take Five* tv series in 17 others. Agency: Roche, Rickerd & Cleary, Chicago.

• Oldsmobile Div., General Motors Corp., Lansing, Mich., is sponsor of *Too Young to go Steady*, situation comedy series (NBC-TV Thurs., 8:30-9 p.m.) making its debut on May 14. *Too Young* replaces the auto manufacturer's prior entry in the same time slot, *The Oldsmobile Theatre*. Agency: D.P. Brother & Co., Detroit.

• Pharmaceuticals Inc., N.Y., through Parkson Adv., N.Y., will sponsor a new adventure series tentatively titled *Undercover Man* on CBS-TV Tues., 9-9:30 p.m. starting in the fall. Screen Gems is filming the series, with which the successful motion picture writer-producer-director team of Clarence Greene and Russell Rouse will make their tv debut. Mr. Greene will produce and Mr. Rouse will direct the series, with the pair collaborating on the scripts. Mike Connors will be starred.

• Procter & Gamble, Cincinnati, will sponsor *Captain of Detectives* which stars Robert Taylor on ABC-TV, Friday, 10-10:30 p.m., in the fall (starts Oct. 16). Weekly series marks Mr. Taylor in his tv debut in role of criminal investigator. William Morris Agency represented Mr. Taylor, Four Star Films and Hasting Films both in the packaging and in negotiations with the network. Benton & Bowles, N.Y., is agency for P&G.

• The R. J. Reynolds Tobacco Co., Winston-Salem, N.C., will be an alternate sponsor of *Johnny Staccato* (NBC-TV, Thurs., 8:30-9 p.m.). The filmed mystery series starts Sept. 10. Agency: William Esty Co., N.Y.

• General Mills Inc., Minneapolis, will sponsor four quarter-hours per week of ABC-TV's weekday series of cartoon, action and adventure programs (5:30-6 p.m.) beginning Sept. 28. Agency: Dancer-Fitzgerald-Sample, N.Y.

• 5 Day Labs, Div. of Associated Products Inc., N.Y. will co-sponsor *Leave It to Beaver* (ABC-TV, Thurs.,) effective July 2 when the show moves from its present 7:30-8 p.m. time slot to 9-9:30. The order, in behalf of 5 Day deodorant pads, was placed through Grey Adv., N.Y.

• *Tales of Wells Fargo* (NBC-TV, Mon., 8:30-9 p.m.) is sold out for next season. Alternate sponsors are American Tobacco Co., New York, renewal placed through Sullivan Stauffer, Colwell & Bayles there, and Procter & Gamble, Cincinnati; new order through Benton & Bowles, N.Y.

• Old London Foods, N.Y., has signed as a participating sponsor of *American Bandstand* (ABC-TV Mon.-Fri. 4-5:30 p.m.). Involved are five alternate-week quarter hours May 7-June 25 and 13 alternate-week quarter hours Sept. 24-March 10, 1960. Agency: Richard K. Manoff, N.Y.

• The Continental Baking Co., Rye, N.Y., enters its eighth year as a sponsor of *Howdy Doody* (NBC-TV Sat. 10-10:30 a.m.), effective June 13. Renewal of half-sponsorship was placed through Ted Bates & Co., N.Y.

• Sponsorship of ABC-TV's *Cheyenne* next fall: Ralston Purina Co. (Purina dog chow), St. Louis, through Gardner

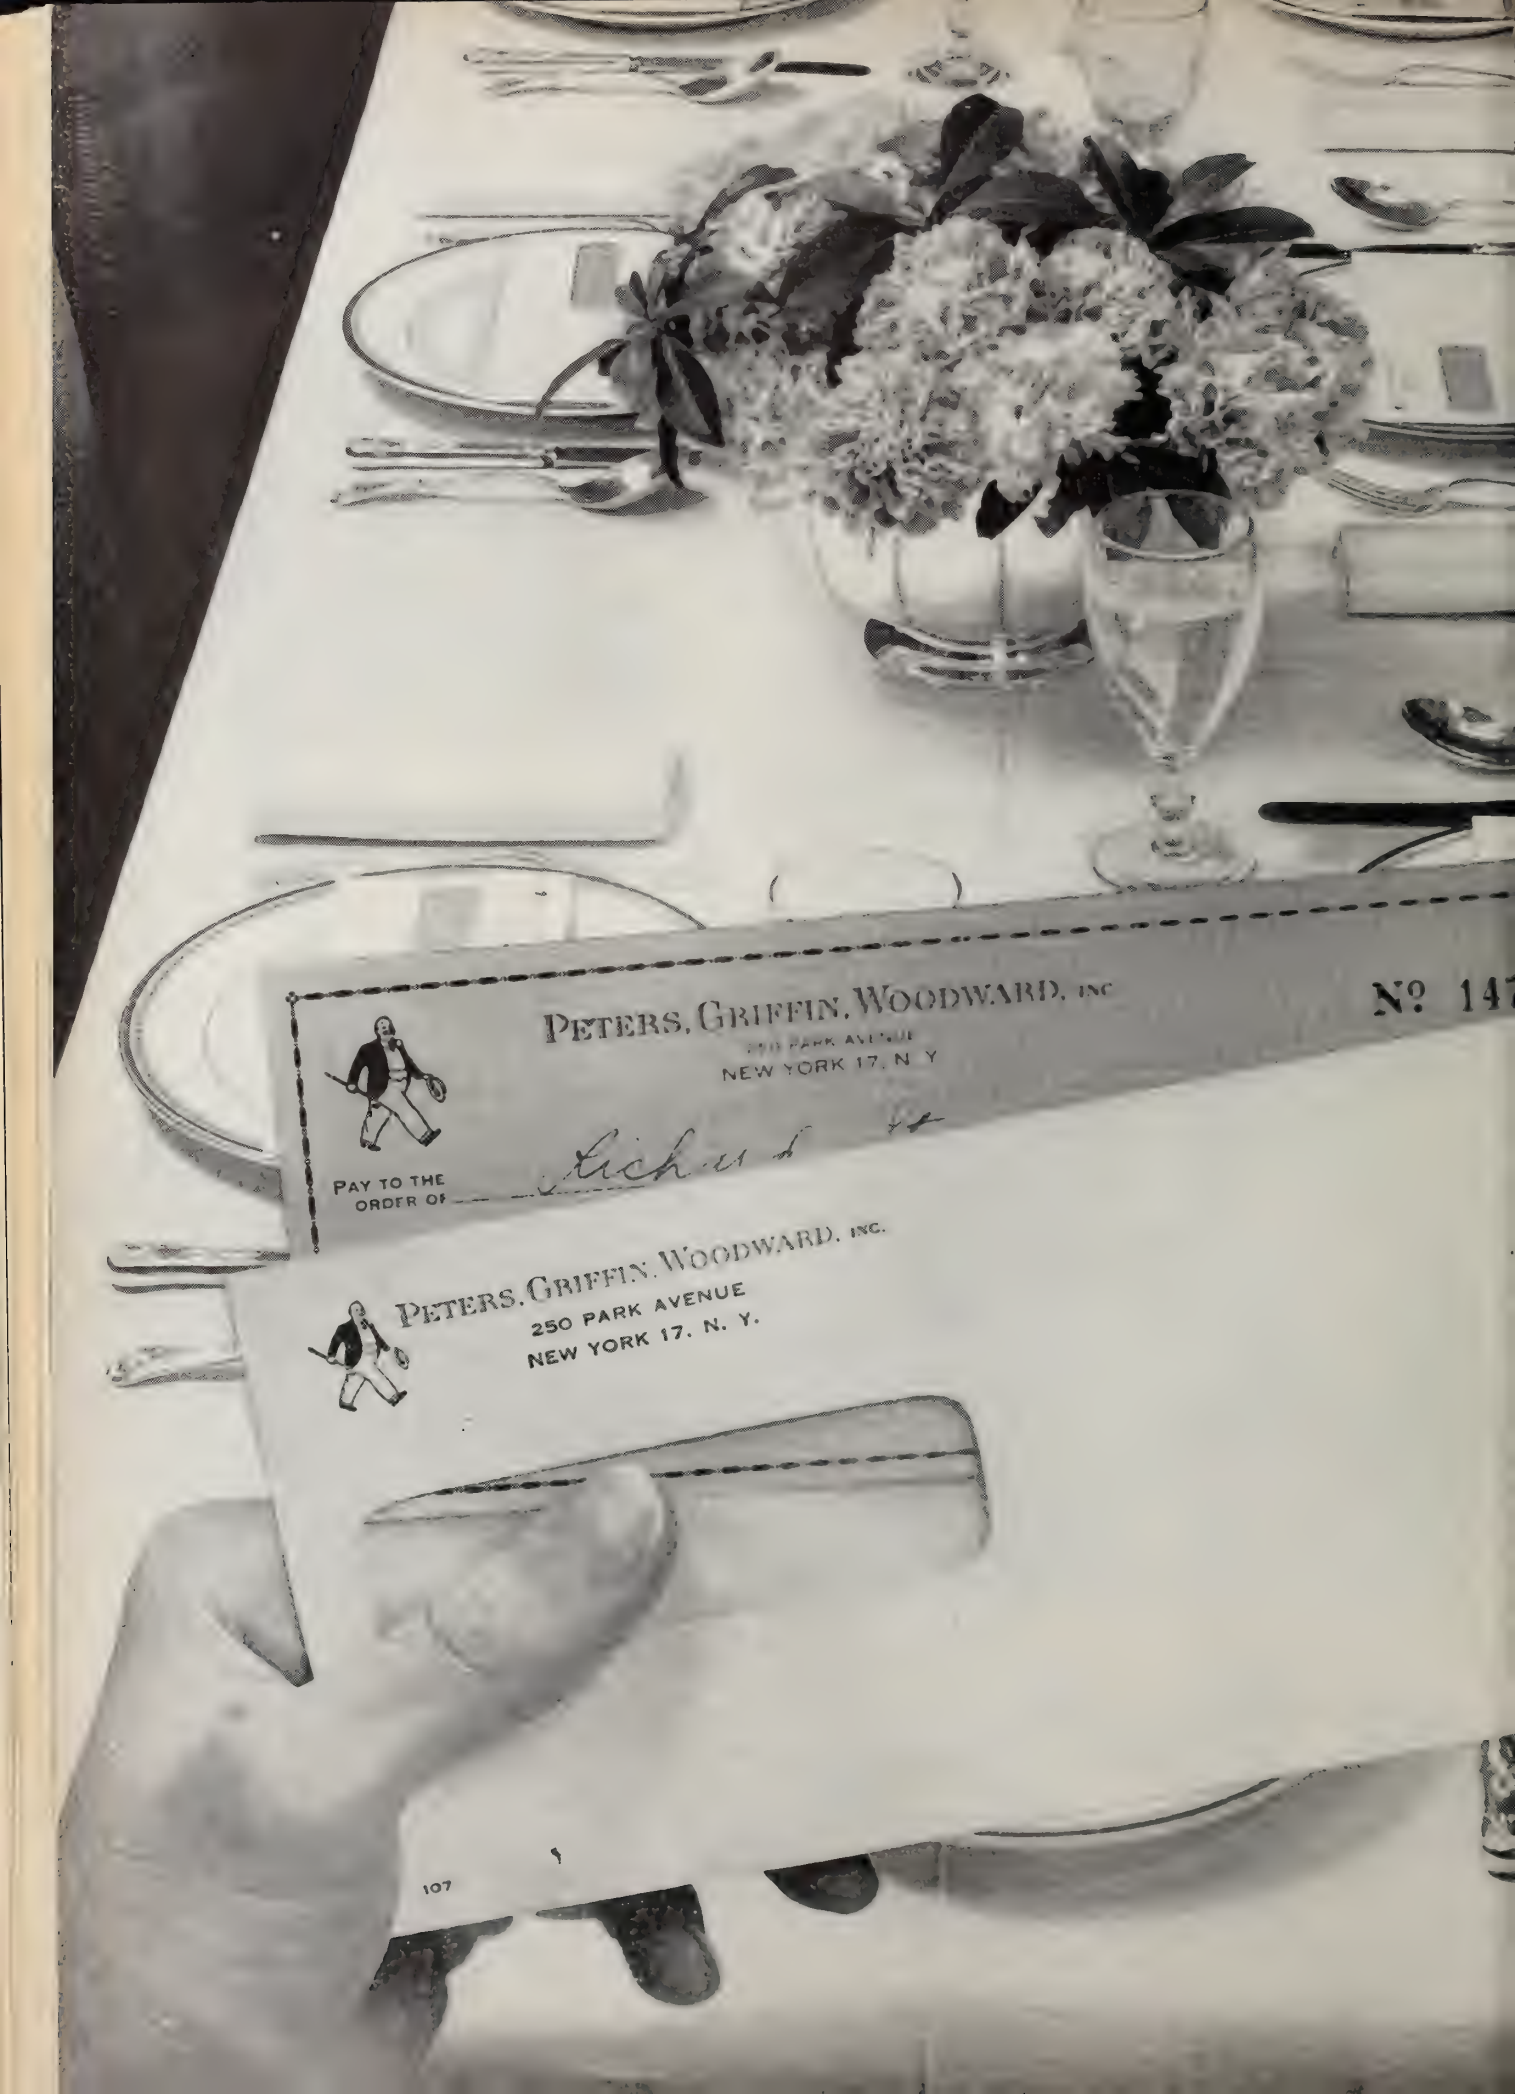
NO TALL TALES ABOUT TOWERS

. . . for us! Naturally we have one. Couldn't be in business otherwise. And, since this truth is self-evident, we think you're more interested in other aspects of a station's operation. Such as . . .

. . . *Audience.* KSLA-TV has led in every Shreveport survey made.

. . . *Creative programming.* KSLA-TV has 64% more local live time than its competition.

. . . *Staff.* Take our News Department. Six full-time newsmen at KSLA-TV shooting 1,800 feet of film a week.



. . . *Community Interest.* Well, our station manager is Shreveport's "Outstanding Young Man of the Year."

These are the things that measure KSLA-TV's position in its market, not the height of its tower. But if you ask, any Harrington, Righter and Parsons man will gladly tell you it tops at 1,195.

• Also in advertising

• James Thomas Chirurg Co. has moved its Boston office to 824 Boylston St., Chestnut Hill, Mass.

Little man grows

One of four NBC-TV clients in 1958 spent less than $50,000 for gross time and more than half of the network's clients (94) spent less than $250,000, Hugh Beville, vice president for planning and research, told the fourth district convention of Advertising Federation of America in St. Petersburg, Fla., May 1. He predicted that all tv networks will widen attractions for smaller advertisers in the next 10 years.

• Young & Rubicam will move its Hollywood office Aug. 1 to larger quarters on the 11th floor of the new First Federal Bldg. at Hollywood Blvd. and Highland Ave. Floor space will be increased more than 1,000 sq. ft., to accommodate expanded operations of its radio-tv department. The agency's downtown Los Angeles office is unaffected by the change.

• Affiliated Ad Agencies Network, has moved its international headquarters from Spokane to the Wrigley Bldg., Chicago. Benjamin Tallman, formerly vice president, Tallman, Smith & Assoc., Chicago, succeeds Donald M. Alexander as executive secretary of AAAN.

• Hudson Pulp & Paper Corp., N.Y., and its agency, Norman, Craig & Kummel, N.Y., announced jointly last Thursday (May 7) the termination of their association, effective Aug. 31. The account bills about $1 million and is an active spot radio-tv user.

Agency appointments

• Whitehall Labs division of American Home Products, N.Y., last week settled its outstanding account—loose actually for about a week—by appointing Tatham-Laird, Chicago (which has an office in New York) to handle Dristan (AT DEADLINE, May 4). It's estimated that the Dristan account is worth some $8 million in billing, its spot and network broadcast investment alone over $5 million. (An earlier estimate of $5 million from an agency source has been scaled up.) Byran Houston, N.Y., resigns Dristan and two test products June 30.

• Hawthorn-Mellody Farms Dairy, active broadcast advertiser, appoints Lilienfeld & Co. to handle advertising for its Kansas City and Cleveland divisions.

• Blitz Weinhard Co. (beer), Portland, Ore., appoints Johnson & Lewis, S.F., for Pacific Northwest.

• Chun King sales (Oriental foods), Duluth, Minn., appoints BBDO for its estimated $1.5 million account. The advertising has been handled by J. Walter Thompson Co., Chicago.

PLAYBACK QUOTES WORTH REPEATING

Call to arms

In his president's report to the 14th convention of the West Virginia Broadcasters Assn., Robert W. Ferguson (general manager, WTRF-TV Wheeling) called for less talk and more action in broadcasters' public relations:

You don't have to have much perceptive sense to be able to say that tomorrow in our business we will be in for more harassment from all sectors and segments of our society. The turmoil pot is going to boil and bubble with greater intensity. Competitively we'll probably get dirtier with our own broadcaster brother through rate-and-throat-cutting and not attempt to direct collective efforts against other media. I suppose the main reason that almost everyone connected with broadcasting proclaims we need better public relations is that the necessity is obvious and that our past relations have been so lousy and inept.

Certainly one area where we can do this is to publicly support bills and legislation that are in the public interest.

Further, I think we should go all-out for highway safety campaigns, Voice of Democracy contests and support of state educational institutions. Certainly, we should investigate scholarships and achievement awards. Your state association must have more public and governmental recognition if it is to be fully effective as the authoritative representative of the broadcasting industry in West Virginia.

We will never reverse Canon 35 unless the above objective is met first.

Retailers and radio-tv

Edward Prager, head of his own agency in Baltimore, told delegates to the sales promotion convention of the National Retail Merchants Assn. in Miami last month that advertising thinking must be updated to today's world of change. He spoke in part:

There was a day, just one brief generation ago, when there was only one place to shop—downtown—and virtually one way to advertise—in print media: newspapers and direct mail. That day is gone; but the old advertising habits remain, often to your cost. Perhaps I can embolden you to explore the new world of media, to your profit!

Regardless of which surveys you accept or reject, you know that most Americans spend the biggest part of their at-home time in front of tv sets. You know, as retailers, that sales of radio sets have been on the increase for the last two or three years. And you've observed that people drive automobiles, many with the radio turned on.

The conclusions are rather obvious, aren't they? Which of these media can and should you use, as part of your total advertising effort, for bigger results on a small budget. You'll have to give it careful study—or have a consultant or an advertising agency or a knowledgeable media man study it for you. But the chances are better than two-to-one that you *do* need to supplement your print media with either television, radio, outdoor, or transit-vehicle advertising—not simply because modern America is spending far more than twice its reading time with air media and outdoors, but for other cogent reasons as well.

IERT EXPLORES 'CULTURAL' TV

CBS-TV announces plan for major informational series

Hour-long informational broadcasts will be presented by CBS-TV once a month starting this fall and next year. "We proposed to make this a bi-weekly, and after that a weekly, program—if networks are permitted to maintain their present structure," Dr. Frank Stanton, president of CBS Inc., said last week. He addressed the Ohio State U. Institute for Education by Radio-Tv on Wednesday.

Other featured speakers before the May 6-9 meeting included John P. Cunningham, board chairman-president, Cunningham & Walsh; FCC Comr. Frederick W. Ford; Paul Chamberlain, General Electric Co., and by closed circuit from Washington, Sen. Warren G. Magnuson (D-Wash.) and Rep. Oren Harris (D-Ark.). IERT also announced its annual awards (see separate listing pages 53, 54).

Dr. Stanton said the special informational programs "will report in depth on significant issues, events and personalities." CBS-TV, he said, is "determined to press the medium to its fullest development as an informational force as effectively and as fast we can."

The CBS chief said television is "obliged to serve an extraordinarily heterogeneous society . . . must take into account the desires and wants of *all* the people."

A "responsible broadcaster," Dr. Stanton said, "must do more than just respond. He must lead. He must stay ahead."

The Ultimate Goal • Dr. Stanton said that as yet no one has had time to develop perspective in criticism of tv programming. "We are still attempting, through honest and sincere application, to arrive at standards that other media took centuries to discover—even though they had much less inclusive audiences," he explained.

A book is a best seller if 40,000 copies are sold, he said. "But seven or eight million people watch television programs that are highly intellectual in character and 25 to 50 million have seen such plays as 'Hamlet' or Henry James' 'Wings of the Dove' or Thornton Wilder's 'Our Town' on television —enough to fill a large legitimate theatre for 20,000 to 40,000 nights, from 50 to 100 years."

Dr. Stanton said "our major and over-riding problem in programming is not only the danger of getting too far ahead of the people, but also getting too far behind—how far we can go in any direction and how soon."

Cunningham predicts tv ad, program split

Agency executive John P. Cunningham delved into three different areas of television—commercial, educational and "cultural"—and presented a platform for each before the IERT. (CLOSED CIRCUIT, May 4.)

In brief, Mr. Cunningham predicted:

• Commercial or "entertainment" tv—Eventually there will be separation of advertising from programming (or "editorial content") in television, with advertisers buying commercials *en bloc* and which will be rotated among various shows.

• Educational tv—If not enough vhf channels are available for an educational tv "network," then the money ought to be coughed up and the channels purchased.

• Cultural tv (sponsored or sustaining)—This is not the cup of tea for the advertiser of packaged goods so don't expect too much from them in this area of programming. But more of culture tv programming can be expected from companies selling services or in need of a respected corporate image.

Mr. Cunningham campaigned in greater detail a proposal he had made earlier this year: that a joint "24-hour" etv facility be established and manned nationwide (AT DEADLINE, Feb. 9). He noted that since his proposal—made before the Advertising Federation of American mid-winter conference at Washington—"I have been battered by some of my own brethren in advertising, but have had many, many others volunteer to help."

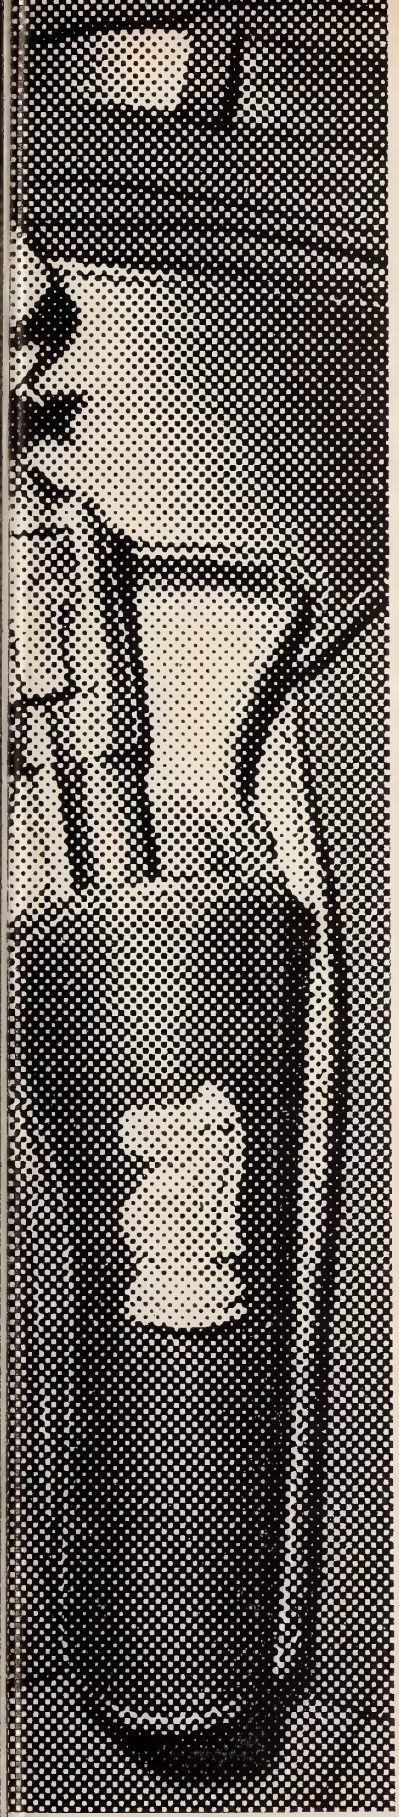
Funds Source • As for financing national etv (which he reiterated was essential to "upgrade our national mind"), Mr. Cunningham left no doubt he was aiming his plea for funds to American business, particularly the corporation that spends "each year individually as much as $10-40 million in television."

Of the tv-oriented, heavy spending advertisers, he said, "they owe the medium a lot and they know it," and since tv gives them so much, "I am sure they will move it [etv] up high on their annual budget of gifts to civic and charitable causes which in many companies is quite substantial."

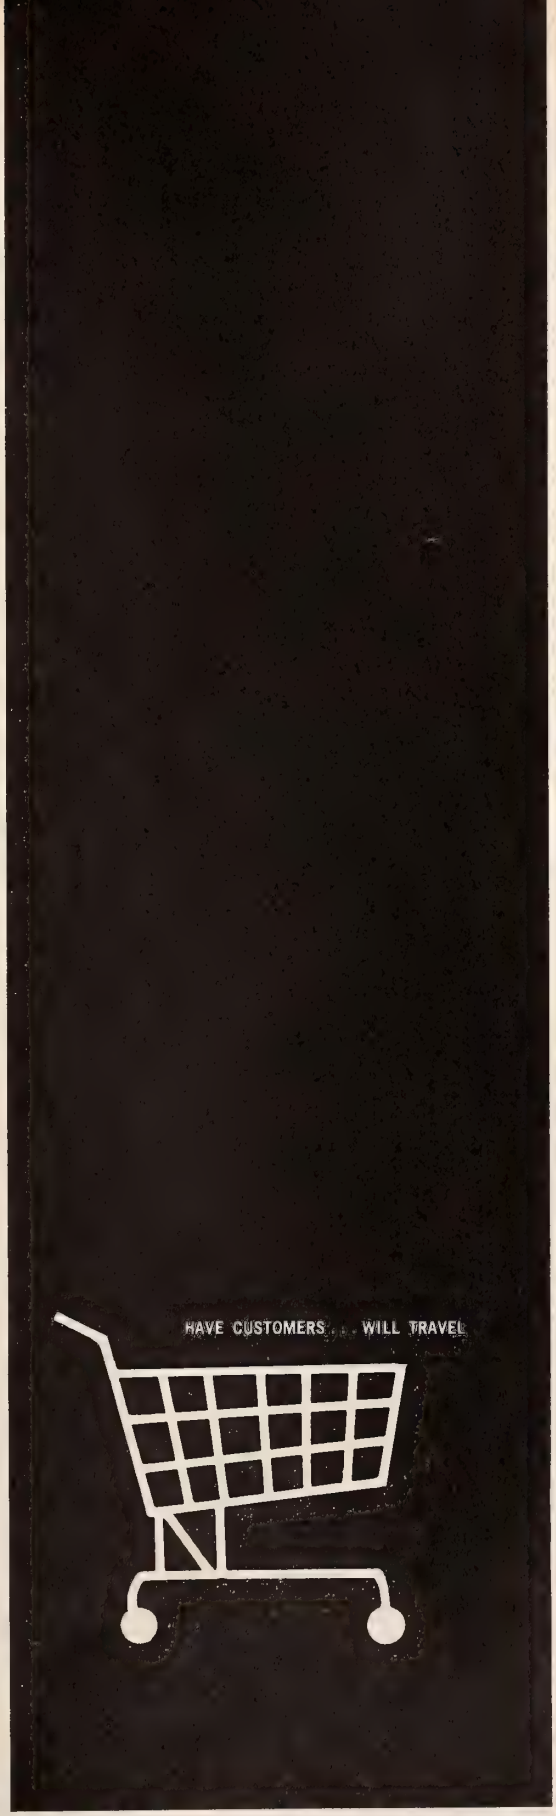
So far, he reminded, the etv "seed money" has come from foundations such as The Ford Foundation, but he said, American business must give "generously" too for the establishment of etv stations. Most of the operational funds, he thought, would come from federal, state and local educational sources. Mr. Cunningham asked the advertising profession—suggesting perhaps the Advertising Council—to wade into what he termed "project headway" by contributing its "most skilled merchandising techniques and sell the advantages of educational tv to the masses."

He sought to allay broadcaster "fears" of etv competition by suggesting FCC could accommodate a national etv system without disrupting commercial channel allocations.

Many "good things" can come from the transition of advertising separation from programming ("as it is in the public prints"), according to Mr. Cunningham. Among them he would predict:



End of Rating Manacle • An end to "blind devotion" to ratings; softening of "monopolies" by a few large advertisers in prime time; a reduction of imitation and mediocrity; a relief for sponsors of concern for program content; a liberating of "tv editors" from commercial control and restriction, permitting them to experiment; the emergence of "some great new tv editors of the airwaves."



Mr. Cunningham also hinted that one "country-wide" etv channel would not be enough. He suggested that the excise tax on uhf-vhf portable tv sets be removed to put them on a competitive footing with vhf-only portables. He also lauded commercial broadcasters for having already contributed more than $1.1 million to 31 of 43 "activated" educational stations.

Etv bills in Congress are promised support

The IERT meeting—via a conference telephone call—quizzed congressional Commerce Committee chairmen Sen. Warren Magnuson (D-Wash.) and Rep. Oren Harris (D-Ark.) Thursday afternoon in their Washington offices about pending educational tv legislation. Their answers were heard on a loudspeaker by the delegates in Columbus.

Sen. Magnuson said he had pushed

S 12, granting $1 million to each state for etv, through his committee and the Senate because of the great need for more etv stations. He said etv has been one of the U.S.' most unused resources.

Rep. Harris, whose committee will hold hearings tomorrow and Wednesday (May 12-13) on S 12 and seven similar House bills (BROADCASTING, May 4), explained just what information witnesses could give which would help the committee. He said that the committee would consider the etv proposals in executive session within two or three weeks after the public hearings.

In answer to a question, Rep. Harris said that Secretary of Education Arthur Flemming would be asked to explain his department's opposition to S 12. He said he could not predict whether the committee would act favorably on the proposed federal aid to education—opposed by the Administration as unneeded and for budget reasons.

Federal Aid 'Needed' • Sen. Magnuson, replying to Sec. Flemming's contention federal aid is not needed, stated, "That is not so." He said the best proof states do need money is that several have requested federal aid and only 43 etv stations are on the air of 257 reserved. Both legislators cited the pressures by commercial interests to put to use these idle channels.

Sen. Magnuson, a member of the Senate Appropriations Committee, drew liberal applause from his long distance audience when he promised that if Congress approves federal money for etv, the Appropriations Committee will approve a bill providing the needed funds.

Witnesses scheduled to testify before the Harris committee this week include FCC Comr. T.A.M. Craven; Reps. Morgan Moulder (D-Mo.), Kenneth Roberts (D-Ala.), Hale Boggs (D-La.) and Harris McDowell (D-Del.), all authors of etv bills; John Ivy Jr., executive vice president of New York U.; Raymond D. Hurlburt, general manager of Alabama's three-station etv network; Novice Fawcett, president of Ohio State U. Also, Darwin Fenner of Merrill Lynch, Pierce, Fenner & Smith, New Orleans; John Cunningham, board chairman of Cunningham & Walsh; Ralph Steetle, executive director of the Joint Council on Educational Tv; William Harley, president of the National Assn. of Educational Broadcasters; Leland Hazard, Educational Tv & Radio Center; William Friday, president of the U. of North Carolina; L. D. Haskew, vice president of the U. of Texas, and Donald McGannon, president of Westinghouse Broadcasting Co. Many of these same witnesses testified before the Senate Commerce Committee during January hearings on S 12 (BROADCASTING, Feb. 2).

FCC tv set control urged by Comr. Ford

FCC Comr. Frederick W. Ford expressed his belief that an adequate nationwide tv system can be achieved only if the FCC is given legal authority to require that tv sets shipped in interstate commerce be equipped to tune all channels assigned to television.

Also he felt the FCC should control set performance characteristics so the tuning range of tv sets would be as good as technically possible consistent with the economics of manufacturing.

All-channel sets would be needed whether tv gets more vhf spectrum space from the military, continues the present 82-channel vhf-uhf system or is moved to an all-uhf system, he said. The only other alternative is a 12-channel vhf system only, which Comr. Ford felt would "finally result" in less service to the public than it presently receives.

Noting there are 32 vhf and 10 uhf noncommercial educational stations,

REP. HARRIS

SEN. MAGNUSON

Commercial broadcasters, educators, public officials share cultural tv views before IERT at Columbus

Comr. Ford wondered whether the history of education would have been different, considering there are 162 uhf channels reserved for education, if tv sets had been required to receive all channels.

Comr. Ford said he "firmly" believes the public would willingly pay the extra cost per set ($35 to $45) for all-channel tuning.

National etv system seen aiding schools

General Electric's Paul Chamberlain urged the adoption of an educational tv system to "supplement our learning on a broad national scale." Instead of concentrating on what one station can do for one school or one community, he suggested setting up a system of educational stations "serving an entire area of many school districts."

The GE marketing expert declared that the cost of such a system would not be prohibitive. "In Dade County, Fla.," he revealed, "some 5,600 pupils are participating in a classroom educational-tv experiment using one station. According to figures published in *Newsweek* magazine . . . teaching by tv is saving the school system $300,000 this year. . . ."

He listed four major benefits of an educational tv system:

- It would alleviate the shortage of qualified and capable teachers by making more effective use of teaching talents.
- It would pave the way for tremendous economies in overall educational budgets by making more efficient use of present and planned school facilities.
- It would reduce future construction costs by allowing more rooms for large-scale teaching, thus lowering the rising costs of classroom duplication.
- It would apportion capital and operational costs over many school districts, with the initial investment in a tv system lower than the cost of one additional classroom per district.

Annual awards

Here are the annual radio-tv awards announced by IERT:

RADIO—CLASS 1 (Programs for Special Interest Groups):

Group I, national—First Award, "Summerfallow." CBC.

THE TALK OF BUFFALO is WGR Radio's new *fresh-air* programming concept. It features the sound that's all around... modern album music specially selected for young adults and flexibly presented by personalities with a sense of humor. Carefully mixed with frequent newscasts that travel the news faster, top sports coverage in the area, and think-programs to keep informed people informed, WGR's new concept is winning *bigger audiences* and *greater community acceptance* in Western New York.

But that's not all! For grocery product advertisers, WGR Radio offers at no extra cost the most effective point-of-purchase merchandising plan in Western New York. Qualified thirteen-week advertisers get one week of preferred-position displays in Buffalo food stores, including 120 A&P and Nu-Way super markets.

WGR's mobile "Studio 55" broadcasts from different high-traffic super market locations every week...another sales extra when you advertise on Buffalo's first station.

For more information about merchandising and *fresh-air* availabilities on WGR, at the top of the dial in Buffalo, call Peters, Griffin, Woodward.

NBC • 550 KC • BUFFALO

WGR-TV, WGR, Buffalo, N.Y. • WROC-TV, Rochester, N.Y. • WNEP-TV, Scranton—Wilkes-Barre, Pa. • WSVA-TV, WSVA, Harrisonburg, Va.

Group II, regional—First Award, "The Country Hour," WBBM Chicago; Honorable Mention, "How Does Your Garden Grow?" KFUO St. Louis.

Group III, local—No Entries.

RADIO—CLASS 2 (Religious Programs):

Group I, national—First Award, "The Eternal Light," NBC and Jewish Theological Seminary; Honorable Mentions, "The Seven Last Words," The Upper Room Radio-Tv Parish, "Good News," The Methodist Church (Ohio-Area) and MBS.

Group II, regional—Honorable Mention, "And There Was Light," WBBM Chicago.

Group III, local—No Entries.

RADIO—CLASS 3 (Cultural Programs):

Group I, national—First Award, "CBC Drama Series," CBC International Services; Honorable Mention, "CBC Concert Hall," CBC

Group II, regional—First Award, "The Studs Terkel Wax Museum," WFMT (FM) Chicago; Honorable Mention, "Parallel," WRCA and Columbia U. Center for Mass Communications.

Group III, local—First Award, "Ideas and the Theatre," KUOM, U. of Minnesota, Minneapolis; Honorable Mention, "This is Ray Star," Dixie Productions and WGRO Lake City, Fla.

General Award (No Special Class)—Special Citation for Cultural Excellence in Overall Programming to WFMT Chicago.

RADIO—CLASS 4 (Personal and Social Problems):

Group I, national—No Awards.

Group II, regional—First Award, "As Children See the World," U. of Tennessee.

Group III, local—First Award, "Psychologically Speaking," Mrs. Lee R. Steiner and WEVD, University of the Air, New York.

RADIO—CLASS 5 (Public Affairs):

Group I, national—First Award, "The World Tonight," CBS; Honorable Mention, "Biographies in Sound," NBC.

Group II, regional—First Award, "One Nation Indivisible," WUOM, University of Michigan Broadcasting Service.

Group III, local—First Award, "Listening Post," KUOW Seattle; Honorable Mention, "Political" Dixie Productions and WGRO Lake City, Florida.

RADIO—CLASS 6 (One-time Broadcast):

Group I, national—First Award, "Virginia—Pattern of Resistance," CBS; Honorable Mentions, "Estevan—New Oil, New City," CBC; "Who Killed Michael Farmer?", CBS.

Group II, regional—First Award, "Bolt of Lightning," WMCA New York; Honorable Mention, "Portrait: Albert Schweitzer," WHDH Boston, and Boston U.; "Charles F. Kettering, Monkey Wrench Inventor," WOSU Columbus, Ohio; "A New Life for Larry," KMOX St. Louis; St. Louis Red Cross Regional Blood Program and St. Louis U. School of Medicine.

Group III, local—First Award, "Report on Employment," WIRA Fort Pierce, Fla.; Honorable Mention, "Human Rights 1959," WLIB New York.

RADIO—CLASS 7 (Programs for Children):

Group I, national—No Awards.

Group II, regional—First Award, "Jolly Dr. Dolliwell," American Medical Assn.; Honorable Mention, "Young Book Reviewers," WMCA New York.

Group III, local—First Award, "Wunzaponah Time," U. of Texas, Junior League of Austin and Austin Public Schools.

RADIO—CLASS 8 (Primary School Broadcast):

Group I, national—No Awards.

Group II, regional—First Award, "Narrated Junior Stories," CBC, Toronto (regional network); First Award, "Tell Me a Story," Minneapolis Public Schools and KTIS Minneapolis; Honorable Mention, "Old Tales and New," Minnesota School of the Air and KUOM, University of Minnesota.

Hard cell • Tom Mayhew, news photographer, WATE-TV Knoxville, was sentenced to pay $50 plus 10 days in jail April 16 for taking motion pictures in the local criminal court. The newsman said that he shot the pictures after Judge J. Fred Bibb recessed the court and as the judge returned to the courtroom. The defendant in the criminal trial was absent. Following submission of a written apology to Judge Bibb, Mr. Mayhew was released the same day and the sentence suspended.

Group III, local—First Award, "The Wishing Well," Newark (New Jersey) Board of Education and WBGO-FM Newark.

RADIO—CLASS 9 (Intermediate School Broadcasts):

Group I, national—First Award, "The Return of Nanna-Bijou," CBC.

Group II, regional—First Award, "How Does Your Story Grow?", British Columbia Department of Education and CBC; Honorable Mention, "Fun in Science," Minneapolis Public Schools and KTIS Minneapolis.

Group III, local—First Award, "What's News?", Philadelphia Public Schools, Temple U. and WFIL Philadelphia; Honorable Mention, "The Open Door," Dade County Schools and WTHS-FM Miami, Fla.

RADIO—CLASS 10 (Secondary School Broadcasts):

Group I, national—Honorable Mention, "Music in the Making," CBC.

Group II, regional—First Award, "Science Survey," New York City Board of Education and WNYE New York; First Award, "Footsteps of the Free," Wisconsin School of the Air and WHA, U. of Wisconsin; Honorable Mentions, "Our Canadian Bookshelf," CBC, Toronto (Regional Network); "Meet Mr. Shakespeare," New York City Board of Education and WNYE New York, "Le Quart D'Heure Francais," Manitoba Dept. of Education and CBC.

Group III, local—First Award, "It's Your World," Indiana U.; Honorable Mention, "Tales of the Yet to Come," Newark (New Jersey) Board of Education and WBGO-FM, Newark.

TELEVISION—CLASS 1 (Programs for Special Interest Groups):

Group I, network—First Award, "The Farmer Series," CBC; Honorable Mention, "The Catholic Hour," NBC; Honorable Mention, "No More Strangers," CBC.

Group II, local—First Award, "The Cardinal's Two Hats," WGN-TV Chicago; Honorable Mentions, "Challenge," KMOX-TV St. Louis Board of Education, Catholic Radio and Television Apostolate, St. Louis County Schools and St. Louis Lutheran Schools; "Inspiration," KPIX-TV San Francisco, Council of Churches, Archdiocese of San Francisco and Board of Rabbis of San Francisco.

TELEVISION—CLASS 2 (Cultural):

Group I, network—First Award, "Explorations," CBC; Honorable Mentions, "Hallmark Hall of Fame," NBC; "CBC Folio," CBC; "The Wisdom Series," NBC; "Conquest," CBS; "Guilty or Not Guilty," CBC; Special Award, "Once Upon a Japanese Time," KQED San Francisco, and the Educational Television & Radio Center.

Group II, local—First Award, "Montage," KMOX-TV St. Louis; Honorable Mention, "Open Heart Surgery," KPIX-TV San Francisco; "Art: Sight and Sound," Wayne State U. and WTVS Detroit.

TELEVISION—CLASS 3 (Personal and Social Problems):

Group I, network—First Award, "Close-Up," CBC; Honorable Mentions, "Open House," CBC; "Armstrong Circle Theatre," Talent Associates Ltd., and CBS; "Outlook," NBC; "The Twentieth Century," CBS; "People are taught to be Different," Texas Southern U. KUHT-TV Houston and National Educational Television & Radio Center.

Group II, local—First Award, "Escape from the Cage," WCET Cincinnati; Honorable Mention, "The Human Heart," The Upjohn Co., American Heart Assoc. and KRON-TV San Francisco.

TELEVISION—CLASS 4 (Public Affairs):

Group I, network—First Award, "Explorations," CBC; Honorable Mention, "Meet the Press," NBC; Special award, "Outlook," NBC.

Group II, local—First Award, "The Long Line." United Nations Television and CBC; Honorable Mention, "Thou Shalt Not Kill," KNXT Los Angeles; Special Award, "Fallout and Disarmament," KQED San Francisco.

TELEVISION—CLASS 5 (Programs of Systematic Instruction):

Group I, network—First Award, "Explorations," CBC; Honorable Mention, "Adventuring In The Hand Arts," Girl Scouts, NBC and the Educational Television & Radio Center.

Group II, Local—First Award, "Saludos Amigos," KQED San Francisco and Rosenberg Foundation; Honorable Mention, "General Biology I," U. of Houston and KUHT.

TELEVISION—CLASS 6 (Programs for Children):

Group I, network—First Award, "Art Carney Meets Peter and the Wolf," ABC; Honorable Mention, "Junior Magazine." CBC.

Group II, local—First Award, "Explorers of Tomorrow." California Academy of Sciences and KRON-TV San Francisco; Honorable mention, "Young Audiences," WCBS-TV New York.

TELEVISION—CLASS 7 (School Telecasts):

Group I, network—First Award, "The Elizabethan Theatre," Manitoba Dept. of Education and CBC.

Group II, local—First Award, "Biology I," Philadelphia Public Schools and WHYY-TV Philadelphia; First Award, "When You Write," KETC St. Louis; Honorable Mention, "Dollars and Sense." New York City Board of Education, META and WPIX New York; Special Commendation, "Exploring The News," Wisconsin School of the Air, and WHA-TV Madison; "Window to the Past," Henry Ford Museum and WTVS Detroit; and "Newsworthy," New York City Board of Education, META and WPIX New York.

Q: Which of the following words describes each of these radio stations: Friendly? Unfriendly?

A: The special qualitative survey below, prepared by PULSE, is mighty revealing. A rousing majority of Washington, D. C. area residents found us friendly—scored us far higher than any other radio station in the market. And far fewer respondents had *no* reaction at all to WWDC. Q.E.D.—we're known and liked. Q.E.D.—this friendliness will rub off on your product!

	WWDC	Sta. A	Sta. B	Sta. C	Sta. D	Sta. E	Sta. F	Sta. G
Friendly	77.8	63.1	33.2	50.5	30.0	36.3	49.8	59.9
Unfriendly	2.4	2.4	2.2	1.0	.8	3.4	1.2	1.0
Don't Know	19.8	34.5	64.6	48.5	69.2	60.3	49.0	39.1

THIRD WEEK OF PICKETING

'No progress' in NBC-NABET mediation

The work stoppage at NBC by 1,500 members of the National Assn. of Broadcast Employes & Technicians appeared virtually certain to enter its third week today (May 11) as mediation efforts brought "no progress" last week and disputants hewed to their positions.

Perhaps the most significant development of the week was NBC's pronouncement Tuesday (May 5) that the network had rescinded its contract with NABET because the union had violated a "no strike" clause. NABET termed NBC's action "a unilateral, irresponsible act."

The union took the position that NBC did not have the authority to rescind the contract.

Programming Continues • NBC has maintained its program schedule since the beginning of the walkout except for two hours on tv and 55 minutes on radio during the first day of the dispute. Approximately 300 supervisory and management employes of the network have been performing the duties of NABET personnel.

How it Started • The stoppage began on April 27 when union technicians in New York declined to handle a tape for the *Today* show, which had been produced in Paris. The union claimed that the "basic operating jobs" in producing the tape had been performed by non-union French technicians "in violation of the contract," and said its members had been "locked out" by the network. NBC contended that NABET called a strike, thereby abrogating the no strike clause of the contract. The network has several damage suits pending against NABET in New York and Los Angeles courts.

Neither NBC nor NABET appeared willing to retreat from their positions. When the network announced it had rescinded the contract with the union it invited NABET to negotiate a new pact. NBC notified the union and its 1,500 members involved in the work stoppage of its action and urged the employes to return to work.

Washington Furore • The names of Vice President Richard Nixon and White House News Secretary James Hagerty became involved in the labor dispute last week following the awards ceremonies of the Academy of Television Arts & Sciences (see page 78). Prompting a NABET blast was an appearance of Messrs. Nixon and Hagerty at Washington's Mayflower Hotel, where NABET pickets had been stationed for more than five hours during which NBC-TV did one of its Emmy pickups.

NABET headquarters in Chicago charged the two with "perpetrating a sneak attack on organized labor" by entring the hotel several hours in advance of the Emmy program "in order to avoid NABET picket lines."

Mr. Hagerty later said in behalf of himself and the Vice President that "neither of us crossed a picket line. There were no pickets outside the hotel when we arrived. Nixon didn't cross the picket line leaving either. He returned to his room after the Emmy ceremony and stayed there until after the pickets disbanded shortly before midnight."

In Chicago, the NABET strike prompted an 11th-hour cancellation of a telecast on WNBQ (TV) of the local awards ceremonies. It had been scheduled to follow the network Emmy show but was scrapped by the Chicago ATAS so not to involve its membership in the problem of picket lines.

New WXYZ quarters

WXYZ-AM-FM-TV Detroit will dedicate their $4 million Broadcast House in suburban Southfield June 4-5 with a two-day open house at which 1,500 guests are expected.

WXYZ-TV will telecast a live portion of the proceedings June 4, 6:30-7 p.m. (The stations expect to occupy the new facilities on May 18.)

Radio-tv's stature stressed by Tower

Broadcasting is a business as well as a profession and should be so regarded by teachers and students, Charles H. Tower, NAB personnel-economics manager, said Monday (May 4) in an address to the U. of Kansas Radio-Tv Department.

"There is nothing shabby about being a businessman and there is nothing shabby or base about making a profit," he reminded.

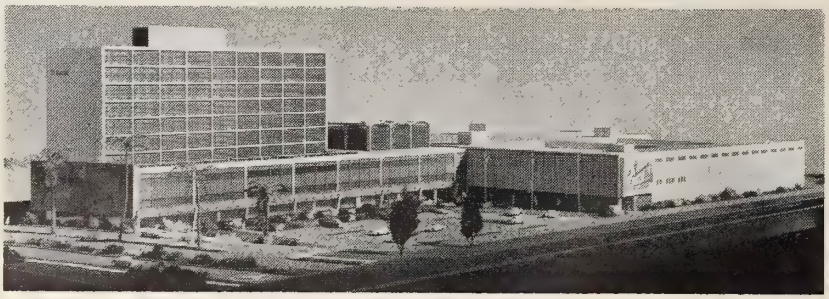
News is the fastest growing phrase of programming, Mr. Tower said, adding that competent newsmen are scarce. He described selling as a rewarding activity, both challenging and socially significant.

In a May 6 address to the U. of Missouri at the 50th anniversary of its journalism school he suggested broadcasters refer to radio and tv as "popular" rather than "mass" media. He said "privately-owned commercial broadcasting is part of our tradition of, wherever possible, encouraging the fulfillment of the needs and desires of the people through private rather than public means. We have deliberately chosen this course, not because we want to enrich the few, but rather because we want to serve responsibly the many and to do so without risking the dangers of inefficiency which attend an overwhelming bureaucracy."

WSTV-TV,'Herald Star' spar over local issue

A community dispute over a proposed division of the Steubenville-Wheeling metropolitan counties has developed into a hassle between WSTV-TV there and the *Steubenville Herald Star*.

The station maintains that the *Herald Star* doesn't give both sides in the community dispute over the division of the metropolitan area. (The Bureau of Census proposes that the six-county area should be cut in two.)



John J. Laux, WSTV-TV vice president-general manager, told viewers in an editorial telecast April 23 that the newspaper, in campaigning for the county split, had not explained to readers that dividing the counties would drop Steubenville from 67th in U.S. metropolitan rank to 139th in metropolitan rating. Even the main reason for dividing the counties—statistics of the smaller area would be easier to secure and local businesses would have more information—may be faulty. Mr. Laux said he had been advised by the Federal Reserve Bank in Cleveland that Steubenville, after the county split, may receive less market information than it does now as there has to be a minimum number of department stores in an area to warrent an individual report. Steubenville may not have the necessary department stores in the lesser three-county area.

In his reply to the newspaper editorial that the town didn't need WSTV-TV as outside stations could be picked up, Mr. Laux asked viewers what it would be like if "Steubenville did not have its own radio and television stations but had to depend upon the *Herald Star* for unbiased coverage of local issues."

WBC's rep firm looks to video-tape as aid

Personnel of advertising agencies and advertisers will be able to view the local programs and personalities of the five tv stations of the Westinghouse Broadcasting Co., starting July 1, by means of Ampex video-tape equipment installed in the New York headquarters of Television Advertising Representatives Inc., national representative of WBC outlets.

Larry H. Israel, vice president and general manager of TvAR, announced

New WKAQ home • This is a model of El Mundo, the $15 million building in which WKAQ-AM-TV San Juan, P.R., will be quartered. The structure will include 500,000 sq. ft. of rental space for tenants. The stations will have a 600-seat studio, plus dubbing and film processing laboratories as part of their facilities in the building. Construction, not yet started, is slated to be completed in 1961.

the development last week and offered this comment:

"Apart from the obvious advantage of offering advertisers and their agencies greater knowledge of local programs and personalities, video-tape will make it possible to preview tv advertisers in the actual programming context in which it will be presented."

TvAR's sales staff, he said, currently is using the tape installation to acquire more intimate knowledge of programs and personalities in WBC markets. TvAR begins formal operations on July 1, representing the following WBC stations—WBZ-TV Boston, WJZ-TV Baltimore, KDKA-TV Pittsburgh, KYW-TV Cleveland and KPIX (TV) San Francisco.

Mutual and Yankee plan August divorce

The 27-station Yankee Network will pull out of its arrangement with Mutual Broadcasting System this August, it was learned last week after MBS and Yankee had announced "preliminary arrangements" for direct affiliation between the network and Yankee's individual stations.

A joint announcement said that until now WNAC Boston, key station of Yankee, was the only station directly affiliated with Mutual, and that it in turn has maintained phone lines and fed Mutual programming to the 26 other Yankee stations. What the announcement didn't say was that WNAC contemplates going independent either on or before expiration of its contract in August and that if Mutual wanted the Yankee stations it would have to make individual deals with them.

A Mutual spokesman said it is too early to say how many of the Yankee stations would go along on the individual arrangements, although he indicated the initial response is favorable.

Yankee is a division of RKO Teleradio Pictures and WNAC is owned and operated by RKO Teleradio. Other o&o's are WOR New York, KHJ Los Angeles, KFRC San Francisco, WHBQ Memphis and WGMS Washington. It is generally conceded that all these stations, with the possible exception of WOR New York, will go to independent operation in the next few months. They now are MBS outlets.

H-S-T reorganizes: now Hamilton-Landis

Reorganization of the station brokerage firm of Hamilton, Stubblefield, Twining & Assoc. was announced last week by Ray Hamilton, president.

A new company has been formed, Hamilton-Landis & Assoc., co-owned by Mr. Hamilton and Dewitt (Judge) Landis, who has represented the Hamilton, Stubblefield, Twining firm in Dallas for the past two years.

Hamilton-Landis will maintain offices in Washington, Chicago, Dallas and San Francisco. Mr. Landis will remain in Dallas. John F. Hardesty, now executive vice president of Radio Advertising Bureau, will take over the San Francisco office May 15 as vice president in charge of West Coast operations (Closed Circuit, March 23). Mr. Hamilton reportedly will take charge in Washington.

Richard A. Shaheen, formerly manager of the Chicago office of Allen Kander & Co., station broker, has joined Hamilton-Landis in the Chicago office. He will cover 11 middlewestern states. Mr. Shaheen joined Kander in 1955 after being associated with Glore, Forgan & Co., New York investment firm. Previously he worked with Francis I. duPont & Co., New York, as a stock broker from 1949 to 1953.

Formation of the new firm follows the departure of two of Mr. Hamilton's former associates, William T. Stubblefield and W. R. (Ike) Twining. Mr. Stubblefield is now a consultant in Washington and Mr. Twining is in property brokerage in Palo Alto, Calif.

Tv Code Board plans West Coast office

The Television Code Review Board of NAB is establishing a West Coast office to effect closer liaison with independent tv film producers, Donald H. McGannon, chairman of the code review board and president of Westinghouse Broadcasting Co., reported Friday (May 8).

Mr. McGannon disclosed NAB's approval of a plan for the setting up of a West Coast branch (Closed Circuit, May 4) during a talk before the Advertising Federation of America, Fifth District, in Huntington, W. Va. Mr. McGannon noted that since about 40% of network and local tv programs originate with independent West Coast film producers, the code board concluded that such an office should be set up "to counsel, guide and assist these film producers in preparing programs that meet code specifications."

The review board, he stressed, does not intend to "function as censors but to further an atmosphere and attitude of belief in the code and its principles, and adherence to its rules."

Try census sample for tv ratings—Treyz

If it is possible that tv ratings are based on too small a sample, why not add a group of selected questions to the 1960 U.S. census asking about the American public's tastes in tv programming? This query is posed by Oliver Treyz, president of ABC-TV, as a possible answer to critics of tv ratings who base their objections on charges of too small a sampling.

Mr. Treyz' comment was made in a speech delivered May 6 (Wednesday) at the U. of Missouri's School of Journalism during "Journalism Week."

Not that Mr. Treyz has these doubts —"We are convinced they [measuring techniques A] are [adequate], for they are similar to sampling methods used by American business and by government."

Critics who are contemptuous of tv ratings "risk being contemptuous of public tastes" and the networks should provide what the public wants—"not impose their own tastes," observed Mr. Treyz.

KABL (called cable)

Call letters of KROW San Francisco-Oakland have been changed to KABL, the McLendon-owned station announced last week. (The new call, pronounced "cable," refers to the city's famed cable cars.) KABL also announced it will be represented nationally by Daren F. McGavren Co.

Through Junior Achievement, thousands of teenagers like those above learn just what is involved in running a business. Here officers of the Jacoco Company, St. Louis, put the finishing touches on Jacoco products—decorative trays made from huge coconut leaves. (L. to R.) Jan Beiersdorf, vice president; Gene Burnett, president; Pat Reynolds, secretary; adviser Art Greene, Standard Oil Company; and Jean Good, treasurer.

Young "businessmen" learn an old lesson

Decorative tray by Jacoco

You might not think a Junior Achievement Company, like the Jacoco Company, and Standard Oil have much in common. Jacoco makes decorative trays—Standard, hundreds of oil products. Jacoco has 14 employees—Standard, 46,000.

But as Jacoco Company Junior Achievers learn, Standard and Jacoco have quite a bit in common when it comes to money matters. So does every other business.

A business takes in just so much money during the year. Out of this amount it must buy raw materials and supplies, pay its employees and pay taxes (some direct—some indirect). Then, if it is well managed, it will have something left over to provide for future growth and to pay owners a return on their investment.

Take Standard Oil and subsidiary companies, for example. Last year we worked from January 1 through December 12 (346 days, to be exact) just to cover our costs of doing business. Of every dollar we took in, 94.8% went to satisfy our obligations to our suppliers, our employees, to local, state and federal governments for taxes and to cover charges for wear and tear.

This left us 5.2%—the result of only 19 days' operations—for profit. About half of this was used to strengthen our company by expanding facilities to improve the products and services you, our customers, receive. We are continually at work to make oil more useful to more people than ever before.

The balance went to our 152,000 owner-shareholders as dividends. This marked the 65th consecutive year that Standard has paid dividends. A total dividend value of $1.687 per share was paid in 1958.

So you see, no matter what its size a company must watch its pennies carefully if it is to continue to give its customers better value for their money. That is our constant aim at Standard.

WHAT MAKES A COMPANY A GOOD CITIZEN?

One measure of good citizenship is a company's frankness with customers, employees, stockholders, the public. We at Standard try always to keep our neighbors informed—to show how we work, where our money goes and how we contribute to the progress of the communities in which we live and work.

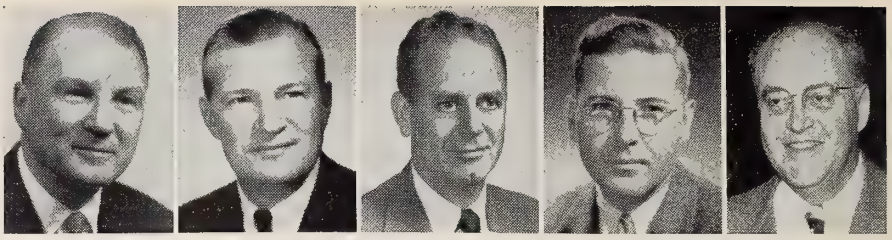
Committee to consider 3-year tv PR approach

A three-year public information program designed to take the heat off television programming will be considered June 2 at a New York meeting of the new five-man study appointed by NAB President Harold E. Fellows. The committee will carry out a public relations project initiated at the NAB Chicago convention in March (BROADCASTING, March 17).



Clair R. McCollough, Steinman Stations, was named chairman of the committee, comprising NAB Tv Board members. On the committee with him are C. Howard Lane, KOIN-TV Portland, Ore.; Dwight W. Martin, WAFB-TV Baton Rouge, La.; G. Richard Shafto, WIS-TV Columbia, S.C., and Willard E. Walbridge, KTRK-TV Houston. The committee was authorized at a meeting of the Tv Board (BROADCASTING, May 4).

Before leaving on a European trip Mr. McCollough announced that committee members were working on specific assignments and would report their recommendations at the June 2 meeting. A full report is to be submitted June 17 to the Tv Board at its summer meeting in Washington.

"While the Tv Board was in broad agreement with the original committee headed by C. Wrede Petersmeyer, Corinthian Stations," Mr. McCollough said, "there are a number of viewpoints to be reconciled. Our approach is to draft a report that can bring board approval so the project can be put in operation quickly. The consensus seems to be that the project should be started for at least three years with a view to making it a permanent NAB activity."

META seeks v channel

The Metropolitan Educational Tv Assn., New York, is mobilizing to campaign for its own full-time vhf outlet. Joseph S. Iseman, chairman of the executive committee, announced last week that by June 30, the organization will have suspended all programming and production, deleting the payroll to a bare minimum. The summer will be spent in preparation for an all-out fund raising effort to get underway Oct. 1. META has presented daytime classes over the facilities of commercial stations for two years, but does not feel an adequate job can be done on this basis. Furthermore, the uhf channel allotted to New York by the FCC is considered impractical since all receivers would require costly adjustments. META hopes for allocation reconsideration by the FCC or the opportunity to purchase a vhf outlet already in existence.

CHAIRMAN MCCOLLOUGH, WALBRIDGE, SHAFTO, MARTIN, LANE

Implementing the tv public relations projects is their chore

• Media reports

• New affiliates signed by Keystone Broadcasting System as of April 23: KONI Phoenix and WMOP Tucson, both Ariz.; KENL Arcata and KCRE Crescent City, both Calif.; WGML Hinesville and WBIE Marietta, both Ga.; KAOL Carrollton, Mo.; WKRK Murphy, N.C.; WBLY Springfield, Ohio; KCUL Fort Worth - Dallas; WBKV West Bend, Wis. KBS total: 1,069 stations.

• WBCB Levittown-Fairless Hills, Pa., names Advertising Assoc. of Philadelphia Inc.

• KOTI-TV Klamath Falls, Ore., affiliates with ABC-TV June 1. William B. Smullin is general manager of the ch. 2 outlet which is owned by California-Oregon Television Inc.

• Hal Holman Co., radio-tv sales representative, moves to 535 Fifth Ave., N.Y.

• WTVR (TV) Richmond, Va., has been given a local American Legion award.

• Consolidated net income of National Theatres and subsidiaries for the six months ended March 31 was $903,838 or 34 cents per share, compared to $743,897 or 28 cents per share for the same period of the preceding year. WDAF-AM-TV Kansas City, acquired May 28, 1958, were included in this year's statement, not last year's. The broadcasting activities, together with rents and other income, amounted to $3,539,995 this year, vs $1,590,591 last year. National Theatres acquired about 88% of NTA stock in April, after the close of the first half of the fiscal year, so NTA operations are not covered in the current financial statement.

• WKIT Mineola, N.Y, changed its call letters on May 1 to WFYI Mineola as the station was formally acquired by VIP Radio Inc., N.Y. The outlet was brought from WKIT Inc. for $165,000 and approved by the FCC in March (BROADCASTING, March 30). VIP Inc. is headed by producer Martin Stone and financier John Hay Whitney. The company also owns WVIP Mount Kisco, WVOY New Rochelle, and WGHQ Kingston-Saugerties, all N.Y. Stanley Lo Presto, formerly chief engineer of WKIT, was named general manager of WFYI, and Wes Giles, previously with WHLI Hempstead, N.Y., was appointed station sales manager.

• WABC-TV New York reports having notched its most profitable first quarter as profits in 1959 achieved what officials termed a "healthy increase." The previous high for the same period had been reached last year, when the station attained a 65% net profit increase over first quarter, 1957. Second quarter figures thus far are said to exceed the same portion of second quarter, 1958, by 8%.

• The three children of the late Charles D. Christian, CBS-TV studio

NAB financiers

NAB Board finance committees for the 1959-60 period were announced May 6 by President Harold E. Fellows. Merrill Lindsay, WSOY Decatur, Ill., heads the General Fund Finance Committee while C. Howard Lane, KOIN-TV Portland, Ore., is chairman of the Tv Finance Committee.

Serving with Mr. Lindsay are John E. Fetzer, WKZO-TV Kalamazoo, Mich.; Frank Gaither, WSB Atlanta; Payson Hall, Meredith stations; Joseph M. Higgins, WTHI Terre Haute, Ind.; Rex Howell, KREX Grand Junction, Colo.; Richard H. Mason, WPTF Raleigh, N. C.; Robert L. Pratt, KGGF Coffeyville, Kan., and Mr. Lane.

Chairman Lane's tv finance group includes C. Wrede Petersmeyer, Corinthian Broadcasting Stations; W. D. Rogers, KDUB-TV Lubbock, Tex., and Messrs. Fetzer and Hall.

Another thriller-diller from WJRT—

"Homing pigeons, Chief?"

"Stool pigeons, Ponsonby —the word's all around that WJRT is the efficient way to buy Flint, Lansing, Bay City and Saginaw."

Got the message? WJRT is the only single-station way to deliver *your* message to all four of the big, rich mid-Michigan metropolitan areas. Just one buy nets you Flint, Lansing, Saginaw and Bay City. And you come in on the beam with a grade "A" or better signal. Plus, WJRT's penetration from within puts you right in the heart of this lucrative market. We've got a half-million TV households waiting to hear from you right now. Join the flock that's gathering nest eggs on WJRT, *the* efficient way to reach mid-Michigan.

engineer-in-charge who was killed in the recent train wreck in Bayonne, N.J., will have their future education assured through a trust fund agreement signed April 24 at the Howard Savings Institution, Newark, N.J. Mr. Christian's co-workers and associates have contributed more than $4,000 to the educational fund. He is survived by his wife Anna, daughter Lynn, 18, and two sons, Charles, 9, and Robert, 7.

• WDAU-TV Scranton—Wilkes-Barre, Pa., has switched to a single rate structure with Rate Card Six. It supersedes cards Five and Three B. Existing contracts are subject to the customary six-month protection. The new rates are substantially the same as the former national rates. It continues rates of $125 for Class AA chainbreaks and $600 for Class AA hours. Class AA minutes are increased from $125 to $135.

• WTOD Toledo, Ohio, on May 24 becomes a CBS Radio affiliate, it was announced last week by John L. Booth, president of Booth Broadcasting Co., the station's licensee. WTOD is on 1560 kc with 1 kw. Sunne Miller is general manager.

• WAPA-TV San Juan, P.R., undertakes its first Community Club Awards campaign next month. (Community Club Services Inc., N.Y., runs competitions for cash awards open to nonprofit charitable organizations.) WAPA-TV has exclusive rights for Community Club Awards Radio Plan in Puerto Rico.

Changing hands

ANNOUNCED • *The following sales of station interests were announced last week, subject to FCC approval:*

• KABQ Albuquerque, N.M.: Sold to Sandia Broadcasting Corp. by Duke City Broadcasting Corp. (Edward M. Sleighel) for $350,000. Sandia Broadcasting is owned by President Oscar I. Dodek, 80%, and Vice President-General Manager Maxwell Marvin, 20%, (vp and general manager of WOL Washington, D.C., WNAV Annapolis, Md., and WDOV Dover, Del.). The sale was handled by Blackburn & Co. KABQ is on 1350 kc with 5 kw, day, and 500 w, night, directional night.

• WEZB, WENN Birmingham, Ala.: WEZB sold to John M. McLendon & Assoc. for 100% of WENN (Bessemer) plus $30,000 by Gene Newman Radio Inc., owner of WHRT Hartselle, Ala. Each station will continue its present program format and retain its call letters, it was announced. John McLendon, major stockholder of McLendon & Assoc., owns KOKY Little Rock, Ark., KOKA Shreveport, La., and 50%

of WOKJ Jackson, Miss. All of these outlets, as well as WENN, are Negro programmed. WEZB is on 1320 kc with 1 kw, day, and is affiliated with MBS. WENN is on 1450 kc with 250 w.

APPROVED • *The following transfers of station interests were approved by the FCC last week (for other Commission activities see* FOR THE RECORD, *page 104):*

• WEAR-TV Pensacola, Fla.: Sold to Rollins Telecasting by Gulfport Broadcasting Co. for $1.075 million plus agreements not to compete within 80 miles of Pensacola for 10 years and a purchase of real estate for $325,000. Rollins Telecasting's parent corporation owns WPTZ-TV North Pole, N.Y., WAMS Wilmington, and WJWL Georgetown, both Delaware, WNJR Newark, N.J., WRAP Norfolk, Va., WGEE Indianapolis, Ind., WBEE Harvey, Ill., and KATZ St. Louis, Mo. WEAR-TV is on ch. 3 and is affiliated with ABC-TV and CBS-TV.

• KLX Oakland, Calif.; Sold to KFWB Broadcasting Corp. (formerly Collier Broadcasting Co.) by Tribune Building Co. (Knowland family's *Oakland Tribune*) for $750,000. Robert M. Purcell, assignee president, is president of KFWB Los Angeles and 50% owner of KEVE Minneapolis, Minn. Milton H. Klein, sales manager of KFWB, was appointed general manager of KLX (BROADCASTING, May 4). Bill Enis was named program director and John Babcock news director of the station. KLX is on 910 kc with 5 kw, directional, night.

• WWTB Tampa, Fla.: Sold to WPIT-AM-FM Pittsburgh, Pa., by W. Walter Tison for $240,000. J. J. Laux, president, and other assignee stockholders have interests in WSTV-AM-FM-TV Steubenville, Ohio, KODE-AM-TV Joplin, Mo., WBOY-AM-TV Clarksburg, and WPAR and WAAM-FM Parkersburg, both West Virginia, KMLB-AM-FM Monroe, La., and WHTO-TV Atlantic City, N.J. WWTB is on 1300 kc with 5 kw, day, directional.

• WALT Tampa, Fla.: Sold to Consolidated Sun Ray Inc. (WPEN-AM-FM Philadelphia, Pa.) by Emil J. Arnold, Robert Wasdon and Jack Siegel for $210,000. WALT is on 1110 kc with 10 kw, day, directional.

• WXIX (TV) Milwaukee, Wis.: Sold to WXIX Inc. (Gene Posner, president, is owner of WMIL Milwaukee) by CBS Inc. for $50,000. CBS discontinued operation of WXIX (TV) on March 31. The outlet has a license for ch. 19 and a modified construction permit for ch. 18. The Commission also renewed the station's license.

Hometown, U.S.A. is our headquarters

In our business, it's highly important to visit a broadcasting property that is for sale. It's equally important to know the buyer and his qualifications.

Bringing the right parties together through such personal contacts pays off in results. We don't have much faith in the mail order approach.

We speed to owners who want to see us. We carefully check or meet with buyers. It's the only way to handle any given situation.

We're as close to you as your telephone—as far away as the fastest travel time.

TV PROGRAM PROBE OPENS QUIETLY

Networks bare data asked by FCC as touchy hearing opens

The first phase of the FCC's touchy inquiry into the program practices of television networks ended last week after three days of record taking. There were no fireworks.

Placed in evidence were reams of documents covering program schedules of ABC, CBS and NBC. The statistical documents covered program origins, sponsors, acceptances and the interests of the networks in each program. Most of the tables were in response to FCC questionnaires going back to the network study of 1956-57.

The exhibits were identified by network lawyers. They were Mortimer Weinbach, ABC; Thomas K. Fisher, CBS, and Thomas Ervin, NBC.

The FCC's legal battery comprised Ashbrook P. Bryant and James F. Tierney. Both are members of the Broadcast Bureau's Office of Network Study, and both served as members of the network study staff under U. of Cincinnati Law School Dean Roscoe Barrow.

Nothing on 'Tie-Ins' • No evidence was taken of charges that some networks forced independent package producers to cut them in before their programs would be considered for network showing.

These allegations were first made in 1956 before the Senate Commerce Committee and the House Judiciary Antitrust Committee. They were investigated by the Department of Justice and turned over to the FCC.

The public hearings—ordered by the FCC last February (BROADCASTING, March 2) — are expected to resume after July 1.

Only one issue of any significance cropped up. Mr. Bryant told the presiding officer, Chief Hearing Examiner James D. Cunningham, that he had promised to maintain as confidential, material relating to financial data. This was similar, he said, to the commitment ordered by a New York federal judge in ruling on the legality of FCC subpoenas calling for program and financial information from independent program producers.

Examiner Cunningham questioned whether this commitment could be honored, in light of the FCC order calling for a public hearing. He asked the attorneys to consult each other to determine to what degree they would insist on this commitment.

Will Rule • He said that he would rule on the point when a closed session was requested. Mr. Cunningham indicated that he would refuse this request —thus permitting an appeal to be taken directly to the Commission.

The hearing was opened by Broadcast Bureau Chief Harold G. Cowgill. After listing some of the topics to be explored (the tie-in charges, concentration of program control by networks, failure of networks to consider

FCC almost loses control on option time

The FCC came within one vote of relinquishing all control over network option time, it became known last week.

The action took place at the April 22 meeting where, by a vote of four to three, the FCC turned down a motion by Comr. Robert T. Bartley to eliminate two of its network rules. These are the rules involving option time and stations' right to reject network programs.

Mr. Bartley's motion actually was one that would have issued a rulemaking notice calling for the deletion of Sec. 3.658(d) and 3.658(e).

The motion was seconded by Comr. Frederick W. Ford.

On the vote, Messrs. Bartley and Ford were joined by Comr. Rosel H. Hyde.

Voting against Mr. Bartley's motion were Chairman John C. Doerfer, and Comrs. Robert E. Lee, T.A.M. Craven and John S. Cross.

The next motion on the agenda at that meeting was for the issuance of rulemaking notice revising the option time rules (BROADCASTING, April 27).

This was passed by a majority of four including Comr. Bartley. Comr. Ford concurred in the issuance of the notice but questioned whether the antitrust issue had been met. Comr. Hyde dissented, expressing the view that option time should be prohibited entirely, and Comr. Craven dissented to two of the proposals—reduction of option time from the present three hours per segment to 2½ hours, and counting "straddle" programs entirely in option time.

Other proposed changes involve the length of advance notice networks must give stations when they desire to pre-empt option time and more flexible arrangements for stations to reject or cancel network programs.

Comments on the option time proposals are due June 22.

Comr. Bartley told BROADCASTING last week that he had made the motion because he felt that the FCC should withdraw from injecting itself into business arrangements between networks and stations.

"This is a free enterprise business," he said, "and I think we should get out of this type of regulation and see what happens."

He said he did not think the station-network relationship would change much if the FCC had no regulation on option time.

"Frankly," he said, "I think the networks need option time to force affiliates to carry network sustaining programs. Otherwise I'm sure that the networks could count on their affiliates to continue to carry good commercial programs."

Mr. Bartley had a short answer to the fear that without federal regulation the stations might option all their time to networks:

"That would be silly. But if that happened, let the Dept. of Justice take care of it. The Justice Dept. has already said option time is a violation of the antitrust laws."

On two occasions the Justice Dept. has told the FCC it believes option time violates the Sherman Act. The last time was in March when then Justice Antitrust Chief Victor R. Hansen told the FCC he thought option time runs "afoul" the Sherman Act.

MARYLAND'S BEST MEDIUMS!

public interest in programming), he emphasized that fears that the government is about to invade program selection are ill founded.

"The danger is not that the government will intervene to inhibit the free choices of broadcasters in the selection of their program schedules," he said. "The danger . . . may . . . be that through the operation of economic and other factors, effective power of choice of television programs has tended to become concentrated and that as a practical matter program selection has, to a considerable degree, shifted away from the individual station licensee."

He continued:

"The information and data under consideration pose the question whether, in the actual conduct of their program selection activities, the networks have followed public interest policies, or whether, in some instances have unfairly discriminated against and sought to exclude programs produced by 'independents' from the network program market, or improperly insisted upon obtaining a financial interest in an independent show as a prior condition to considering it for exhibition on the network."

Evidence Highlights • James B. Sheridan, acting chief, Broadcast Bureau Economics Div.—

• In 1949, advertisers' total program expenditures for network television (exclusive of time costs) were $18.6 million. Of this amount, the networks received $6.4 million (34.4%) and all other sources, $12.2 million (65.6%).

• In 1957, advertisers spent $275.8 million on network programs. Of this amount, networks collected $166.5 million (60.5%) and other sources, $109.3 million (39.5%).

• In 1949 the net revenues of all four television networks were $12.8 million. Of this, $6.4 million was from the sale of time and $6.4 million was from the sale of talent, program material, etc.

• In 1957, the net revenues of all three tv networks were $368.3 million. Of this $201.8 million was from the sale of time, and $166.5 million was from the sale of talent, program material, etc.

Columbia Broadcasting System—

• In the 1958 fall program schedule (September-December), 22% were programs produced by CBS, 24% were produced independently and licensed directly to advertisers, and 54% were produced independently and licensed directly to CBS.

• CBS loses money on programs. In 1951 it took in a total of $14.7 million for programming, but it cost the network $21.3 million to produce the programs—a loss of $6.6 million. In 1958 the network had a total income from programs of $59.7 million, but spent $87.2 million—a net cost of $27.5 million.

• The CBS television program department cost $70,454,000 in 1958. The network's News and Public Affairs Div. spent $16,825,000 in 1958. The tv program department had 310 people employed at a yearly payroll of $5.5 million; the news and public affairs division, 378 people at $4.15 million. CBS' News and Public Affairs Div. is a division of CBS Inc.; the program department is a unit in the CBS Television Network Division.

• In developing new programs, CBS spent $3.7 million from Sept. 1, 1956 to August 31, 1957.

• The excess of total expenses over total income for news and public affairs programming in 1958 was $8.4 million.

National Broadcasting Co.—

• In the 1955-56 season, NBC supplied 13 programs in the prime 6-11 p.m. segment, independent packagers 18 and advertising agencies 19. In the 1958-59 season the score was NBC 9, independents 21 and agencies 14.

• The high cost of program development—and the heavy mortality of good program ideas—was described by NBC as follows: In 1958, the NBC creative staff spent $2.5 million for program development. In that year NBC undertook 20 program projects, from commencement through pilot film or live audition, at a cost of almost $1 million. It also participated in 31 other program development projects. Of these 51 projects, only seven have gone on the air, or are scheduled to be used. These seven programs had a development cost of $138,000.

Some examples were given: In the 1954-55 season, NBC committed $2 million for the *Tonight* program. In the 1955-56 season, NBC committed itself to $3.5 million in getting *Matinee* started and it lost $3 million a year in unrecovered costs until the summer of 1958 when the program was cancelled.

The famed NBC Opera telecasts, mostly unsponsored since they began in 1950, have cost the network $2.5 million.

• In the 1957-58 season, NBC had unrecovered costs of approximately $6 million on news and public affairs programs.

• For 1959, NBC has already committed $3.8 million for talent and creative personnel, some of which has been offset by sponsors. For 1960 and beyond, NBC has committed $5.3 million, none of which is offset yet by sponsors.

• Overall unrecovered program costs were shown through the years: 1953, $19.7 million; 1958, $44.8 million. These figures include overhead, staff, license fees, etc.

• Pre-emptions for public service programs cost NBC almost $500,000 in 1957-58 season. This is how this figure was secured: Gross margin on lost time sales, $220,238; program costs, $95,485; pre-emption costs, $173,662.

American Broadcasting Co.—

• For the 6-11 p.m. time period in selected weeks, the network in 1955 carried three programs created by its own people, three in which it had a partial interest and 36 in which it had no interest. This compares to 1959 when it carried 12 programs in which it had complete interest, 12 in which it had a partial interest and 21 in which it had no interest.

FCC briefly surveys means of vhf drop-ins

How will the drop-in of vhf channels into "critical" cities be done—on an individual basis or on an overall proceeding?

Or, shall it be "selective shoehorning" or a general rulemaking?

That's the question the FCC has to answer before it moves to put into practice the "interim" tv allocations plan made public last month (BROADCASTING, April 27).

The Commission briefly discussed the situation last Wednesday at its regular meeting. It came to no conclusion and the subject is expected to come up again in two weeks.

Staff Report • Before the commissioners was a document drawn up by the staff delineating the pros and cons of both methods of acting on drop-ins. The staff report also discussed the questions of how far to go in breaking through present minimum mileage separations, and how to judge whether or not certain cities have uhf "saturation."

In the Commission's tv allocations announcement, it was stated that the temporary drop-in program would be "carefully circumscribed" to relieve "only the most critical shortages." It also was indicated that the Commission would not upset the balance where uhf has gained a substantial foothold.

Involved also in determining where to add vhf channels, it is understood, are revisions of U.S. agreements with Canada and Mexico.

Cities Listed • The staff document included a list of 36 cities out of the top 103 tv markets in which additional vhf channels might be placed. These areas have less than three vhf assignments at the present time.

Each city is identified with present allocations. The additional vhf channel

The majestic beauty of a harp weaves a mood so vital to good music that only the best is good enough for the symphony conductor.

This same "quality touch" and ceaseless devotion in achieving the best is also what sets apart great radio and television stations from the rest.

or channels are indicated with such information as how many miles below the existing minimum separations will be required.

The break in minimum mileage distances ranges from a few miles in most instances to as high as 20-odd miles in a few cities.

The Commission must decide which are the "critical" areas and also which cities are uhf saturated to the extent that it may not desire to upset the present balance.

The cities are as follows:

Birmingham, Ala.; Fresno, San Diego, Calif.; Hartford, Conn.; Jacksonville, Fla.; Augusta, Columbus, Macon, Ga.; Champaign-Urbana, Quincy-Hannibal (Mo.), Ill.; Evansville, Terre Haute, Ind.

Also Sioux City, Iowa; Topeka, Kan.; Louisville, Ky.; Baton Rouge, Shreveport, La.; Grand Rapids-Kalamazoo, Mich.; Jackson, Miss.; Springfield, Mo.; Binghamton, Rochester, Syracuse, N.Y.

Also Charlotte, Raleigh, N.C.; Dayton, Toledo, Ohio; Erie, Harrisburg, Johnstown, Pa.; Providence, R.I.; Knoxville, Tenn.; Austin, Brownsville-Harlingen-Weslaco, Corpus Christi, Tex., and Madison, Wis.

Norton reiterates shoehorning tv plan

Radio propagation expert Kenneth A. Norton, National Bureau of Standards scientist, is continuing his campaign to sell his philosophy of shorter mileage separation between tv stations (BROADCASTING, April 6).

His views were contained in a May 1 letter to William A. Lodge, CBS engineering vice president. Mr. Lodge had taken issue with Dr. Norton last month (BROADCASTING, April 20).

In his letter to Mr. Lodge, Dr. Norton reemphasized his theory that "maximizing" the service area of each tv channel would be more beneficial than the same approach for each tv station. He suggested again that co-channel separations be dropped to 100 miles (from the present 170 miles for Zone I) in order to get more tv stations into the same areas.

He also maintained that although rural viewers might lose what he called the "barely satisfactory and intermittent service" from existing stations if his plan were adopted, they would gain by the increased number of "superior" services from local stations.

Dr. Norton also replied to Mr. Lodge's remarks concerning the original comments of the Boulder, Colo., scientist on the report of the Television Allocations Study Organization.

283,000,000

Convention visitors see how WSB Radio serves growers who make Georgia leading broiler producer in U. S.

Last year Georgia again led the nation in broiler production, sending 283,000,000 birds to market.

Pictured is the WSB Radio exhibit at the recent Southeastern Poultry & Egg Association convention in Atlanta. Growers (and exhibitors—many of whom are WSB advertisers) showed great interest in the illuminated coverage map, and methods used by WSB Radio in providing them with broiler market quotations. Two comprehensive reports are broadcast daily, the first at 11:35 a.m. This is the earliest quotation Georgia broiler growers can hear. They listen for it daily.

Broiler quotations are only one facet of WSB Radio's complete programming for Georgia agriculture. Over 300,000 farm families depend upon this station for information of vital concern to them.

FCC BACKLOG—TALE OF WOE

Congressional subcommittee hears story

Congressmen are concerned about the FCC's am applications backlog and Commission members were on the receiving end of some blunt questions about the problem, a March 11 hearing by the House Appropriations Committee's Independent Offices Subcommittee, indicates. A transcript of the March session was released last week.

The subcommittee members were told by Broadcast Bureau Chief Harold Cowgill that am applications of all types are behind 7 to 7½ months, with a total of 1,200 applications now pending. Action on tv, on the other hand, comes an average of 40 to 45 days after filing, he said.

Chairman Albert Thomas (D-Tex.) of the subcommittee told FCC members that "keeping a man on the hook from six months to three years is hardly justifiable," and added that Congress may "have to paddle you a little bit . . . to get rid of that backlog." Rep. Thomas reiterated that he believes fees ought to be charged licensees for FCC services.

FCC members told the congressmen that one of the Commission's biggest problems is meeting an expanding demand with a diminishing staff. The FCC is asking for 47.9 more employes in broadcasting activities at a cost of $376,706 to help dispose of the applications backlog, conduct studies to solve tv allocation, pay tv and network problems and handle increased hearing work. Noting a $100,000 item in its 1960 proposed budget for a study of automation techniques, FCC members said they have talked with International Business Machines, Burroughs and Remington Rand about possible automatic processing of some applications paperwork. Another $98,000 is being asked for special contract work involving tv allocations, subcommittee members were told.

Larger Staff Requested • The FCC wants, in broadcasting activities, for fiscal 1960:

• In television: 65.7 Broadcast Bureau employes ($465,608) compared to 54.1 ($375,670) for fiscal 1959; 8 hearing examiners ($72,240) compared to 7 ($64,441) in 1959; 12.5 Office of Opinions & Review employes ($108,520) compared to 10.3 ($87,581) in 1959; 6 in Dockets section ($27,445) compared to 4.8 ($22,008) in 1959.

• In am: 133.1 in Broadcast Bureau ($942,397) compared to 110.4 ($766,605) in 1959; 15.8 hearing examiners ($142,678) compared to 14.6 ($134,410) in 1959; 18.3 in Office of Opinions & Review ($158,844) compared to 13.5 ($114,791) in 1959; 4.9 in Dockets ($22,409) compared to 4.1 ($19,139) in 1959.

• In fm: 13.4 in Broadcast Bureau ($95,010) compared to 12.4 ($86,105) in 1959; 1.2 hearing examiners ($10,836) compared to 0.7 ($6,442) in 1959; 1.0 in Office of Opinions & Review ($8,680) compared to 0.8 ($6,802) in 1959; 0.6 in Dockets ($2,746) compared to 0.4 ($2,133) in 1959.

Total proposed budget in broadcasting activities is $2,361,601, compared to $1,942,055 in 1959. The FCC is asking a total $11 million for fiscal 1960 compared to $9.8 million estimated for 1959. FCC Chairman John C. Doerfer told the subcommittee that by May (this month) the FCC will be "hitting that whole big bundle" of 255 stations which have applied for increase in power from 250 w to 1 kw. There is a potential of

900 such stations, he said, and those which haven't filed will have to do so to protect themselves.

Tv Program Quality Up • Responding to questions by congressmen about the quality of tv programs, Chairman Doerfer said there are more good programs than there used to be, but that a station has a problem in programming 120 hours a week because of tv's "voracious appetite for talent, for writers."

To another question about crime programs on tv, the FCC chairman said the FCC doesn't tell the networks how to program their schedules. He noted that he recently had seen an "atrocious" crime story on tv with six murders in it, adding, "It happened to be one of the best, 'Hamlet.' "

Reopen Nebraska case

The ch. 13 Alliance, Neb., case is to be reopened, pursuant to a U.S. Court of Appeals for D.C. remand (BROADCASTING, March 16), according to last week's FCC announcement directing preparation of a document to this end.

The Court had claimed that the Commission erred in dismissing petitions by KSTF (TV) Scottsbluff, Neb., to intervene in the ch. 13 proceedings, which saw the Alliance channel go to Western Nebraska Television Inc. (KALF [TV]). The Court also ordered the FCC to investigate charges that KALF sold stock without registering with the Securities & Exchange Commission and made false and misleading statements in the sale of stock.

Mack-Whiteside trial drags into sixth week

The criminal trial of former FCC Comr. Richard A. Mack and his friend Thurman A. Whiteside, accused of conspiring to rig the award of Miami ch. 10 to a National Airlines subsidiary, plodded through its fifth week.

Continuing testimony from the previous week was William Y. Stembler, head of the Stembler-Shelden Insurance Agency, and Mrs. Elaine Wood, head bookkeeper of the agency, who was on the stand Wednesday (May 7) through Friday. Both testified about payments to Mr. Mack through Stembler-Shelden and Andar Inc. Mr. Mack was former part owner of Stembler-Shelden and Andar was given to Mr. Mack by Mr. Whiteside, who controlled Stembler-Shelden and owned Andar. Government prosecution holds payments to Mr. Mack were made through the two firms to induce him to vote for Public Service Tv Inc., NA subsidiary.

Defense counsel moved for mistrial (and were denied), charging the prosecution with trying to imply Mr. Stembler was not "an honest witness" in saying his testimony differs from that given a grand jury before indictment of the defendants. Federal District Judge Burnita S. Matthews, trying the case, said she found "substantial" discrepancies between Mr. Stembler's testimony before the grand jury and at the trial.

Meanwhile, because of the trial, the FCC last week postponed oral argument in the court-remanded Miami ch. 10 case. The oral argument had been set for May 21. The FCC said it will announce a new date.

No cutoff delay

The FCC remains adamant on the inauguration of a "cut-off" procedure for an am processing line. On May 1 it turned down two more requests for postponement of the May 16 effective date sought by Community Broadcasters Assn. and Assn. of Federal Communications Consulting Engineers. Comr. T.A.M. Craven dissented. Earlier in

SERVICING AND SELLING are two key words that dominate the objectives of Transcontinent stations. Whether it's...

• **WGR-TV and WGR Radio, Buffalo,** blanketing the mighty and prosperous market of Western New York known as the Niagara Frontier, or... **WROC-TV, Rochester,** with its 26.5% coverage advantage in the thriving 13-county industrial and agricultural area in up-state New York, or... **WNEP-TV, Scranton-Wilkes-Barre,** with the most powerful transmitter serving Northeastern Pennsylvania, the state's third largest market, or... **WSVA-TV and WSVA Radio, Harrisonburg,** covering the rich and diversified Shenandoah Valley area in Virginia...

...you'll find the Transcontinent station is well-known as a symbol of service to audiences and a symbol of sales to advertisers. Experienced management, intelligent program balance, strong merchandising and promotion plans, and a genuine feeling of community responsibility are basic characteristics that advertisers profit by when they select...

the week the Commission refused a similar continuance requested by the Federal Communications Bar Assn. The new procedure is intended to prevent submission of new applications or amendments after the top 50 applicants on the processing line have been announced and after 30 days have elapsed (BROADCASTING, April 13).

LIBEL REVERSED

D.C. judge sets aside $145,000 Lewis fine

A $145,000 libel damages verdict found by a jury last Jan. 31 against commentator Fulton Lewis Jr., Mutual and WWDC Washington was set aside last week by Federal District Judge George L. Hart in Washington, D.C.

Judge Hart said the jury's award to Mrs. Pearl Wanamaker, Seattle educator and former Washington State superintendent of public instruction, was excessive and led to the conclusion that the jury "was influenced by passion or prejudice."

The nine-day trial last January resulted in the largest libel judgment ever awarded by a jury in the District of Columbia. Mrs. Wanamaker charged she was libeled in a nationwide, 500-station broadcast on Mutual by Mr. Lewis, who said among other criticisms that she was the sister of a man who renounced U.S. citizenship and fled behind the Iron Curtain. Mr. Lewis retracted this statement in a similar broadcast three days later, apologizing for his "horrifying mistake."

Judge Hart said in his opinion last week that Mrs. Wanamaker's reputation in the educational field was undamaged by the Lewis broadcast because of her prominence among educators. He said her salary in a job she held after the broadcast was higher than that before and that she afterward had received various nationwide honors, including honorary degrees from two colleges. He also said questioning of a defense witness by Mrs. Wanamaker's lawyer during the trial was "highly improper."

He said the libel, established as *per se* in instructions to the jury, should carry damages only because it was *per se* and because Mrs. Wanamaker suffered "humiliation, embarrassment and wounded feelings." He noted Mrs. Wanamaker's lawyer asked only $25,000 damages for the broadcast in the Washington Metropolitan area. (The jury awarded $45,000 from Mr. Lewis, Mutual and WWDC jointly for the D.C. area broadcast plus $100,000 from Mr. Lewis and Mutual for the broadcast into other parts of the country.)

Mrs. Wanamaker had filed 17 suits in various state and federal courts against Mr. Lewis, MBS and affiliates which carried the broadcast, but the parties agreed that a number of the suits would be dismissed with prejudice and that Mrs. Wanamaker could claim damages against Mr. Lewis and Mutual for the broadcast over the entire U.S.

Before this agreement, four cases had been tried in which a jury in a Spokane, Wash., court found for the defendants; a suit in Baltimore resulted in a hung jury; a jury in Walla Walla, Wash., awarded Mrs. Wanamaker $10,000 and an Oklahoma City court awarded her a total of $7,500. Mr. Lewis said in Washington last week that the last two cases have been appealed.

J.P.Tonkhoff, Mrs. Wanamaker's lawyer, charged in Yakima, Wash., last week that Judge Hart had acted as a "13th juror" and said he would seek a new trial. Mrs. Wanamaker, attending an educational conference in Corvallis, Ore., said she didn't intend to drop the case. She declined to say whether she would consider a compromise settlement.

Oversight committee sets hearing agenda

The 1959 edition of the House Subcommittee on Legislative Oversight plans its first public hearings within the next six weeks. And, just as in 1958, the committee first will call each of the "Big 6" agencies under its jurisdiction to explore agency problems.

Discussion will be limited to three previously determined problems of each agency. In the case of the FCC, leadoff talks will be on a way to prohibit *ex parte* presentations to commissioners in rulemaking proceedings when an opposing party does not have a chance to answer.

The FCC consistently maintains that such contact is necessary. The subcommittee agrees to an extent but feels that when one side makes a presentation,all sides should have equal opportunity to give their views.

Other FCC areas to be explored will be decided after consultation with the Commission but two areas are foremost right now in the committee's thinking. They are (1) use of FCC discretion in making rules and policy without legislative guidelines and (2) Commission dependence for information on the regulated industry.

After individual agency problems have been discussed, situations common to all agencies will be highlighted. Practitioners before the Commission and regulated industries also will be heard. The hearings probably will begin sometime in June.

The subcommittee has four new mem-

"Ten years

of hard labor!" Hard labor to corner the top studios' best feature films. Hard labor to create provocative, headline-making local programming. Hard labor to present more news more dynamically. Yes, ten years of hard labor have made WJAR-TV far-and-away the number one station in the PROVIDENCE MARKET. Now, on its tenth anniversary, WJAR-TV looks forward happily to serving another sentence.

bers. They are Reps. Walter Rogers (D-Tex.), William Springer (R-Ill.), Steven Derounian (R-N.Y.) and Samuel Devine (R-Ohio). Holdover members are Reps. Oren Harris (D-Ark.), chairman, John J. Flynt (D-Ga.), Peter Mack Jr. (D-Ill.), John Moss (D-Calif.) and John Bennett (R-Mich.). Robert Lishman was renamed chief counsel of the subcommittee.

EXTENDED HOURS
DBA plan opposed by radio fulltimers

Nine fulltime am stations opposed and two daytimers favored the Daytime Broadcasters Assn.'s proposal to authorize daytime stations to operate from 5 a.m. or sunrise (whichever is earlier) to 7 p.m. or sunset (whichever is later) in early comments filed last week on the FCC inquiry. Comments on the plan were due last Friday (May 8).

Interest in the daytime broadcaster problems continued last week on Capitol Hill with introduction by Rep. Morgan M. Moulder (D-Mo.) of a bill (HR 6868) to amend the Communications Act to require that daytimers be authorized to operate "at least" from 6 a.m. to 6 p.m. It was identical to a bill submitted the week before by Rep. George E. Shipley (D-Ill.).

WFMO Fairmont, N.C., and WMIL Milwaukee supported the DBA proposal. WMIL said that in December it has to operate from 7:15 a.m. to 4:15 p.m. and that this keeps it from serving its audience when they are accustomed to tune in, beside cutting down "seriously" on WMIL's opportunity to sell time.

WCCO Minneapolis, opposing, said half the country is without primary service at night and that these white areas must be served primarily by clear channel stations. WCCO said if the proposal is adopted it will suffer interference from KBOA Kennett, Mo. It added that 59 broadcast stations rely on WCCO for alerts during a Conelrad operation, since it is the key station in some or all of Minnesota, Wisconsin, North and South Dakota, Wyoming and Montana.

Also opposing was a group of eight stations submitting earlier comments. They were WWNY Watertown and WMSA Massena, both New York; KWBR Oakland, Calif.; WFMJ Youngstown, Ohio; WMAK Nashville, Tenn., and WKMI Kalamazoo, Mich.; WFMD Frederick, Md., and WRVA Richmond, Va.

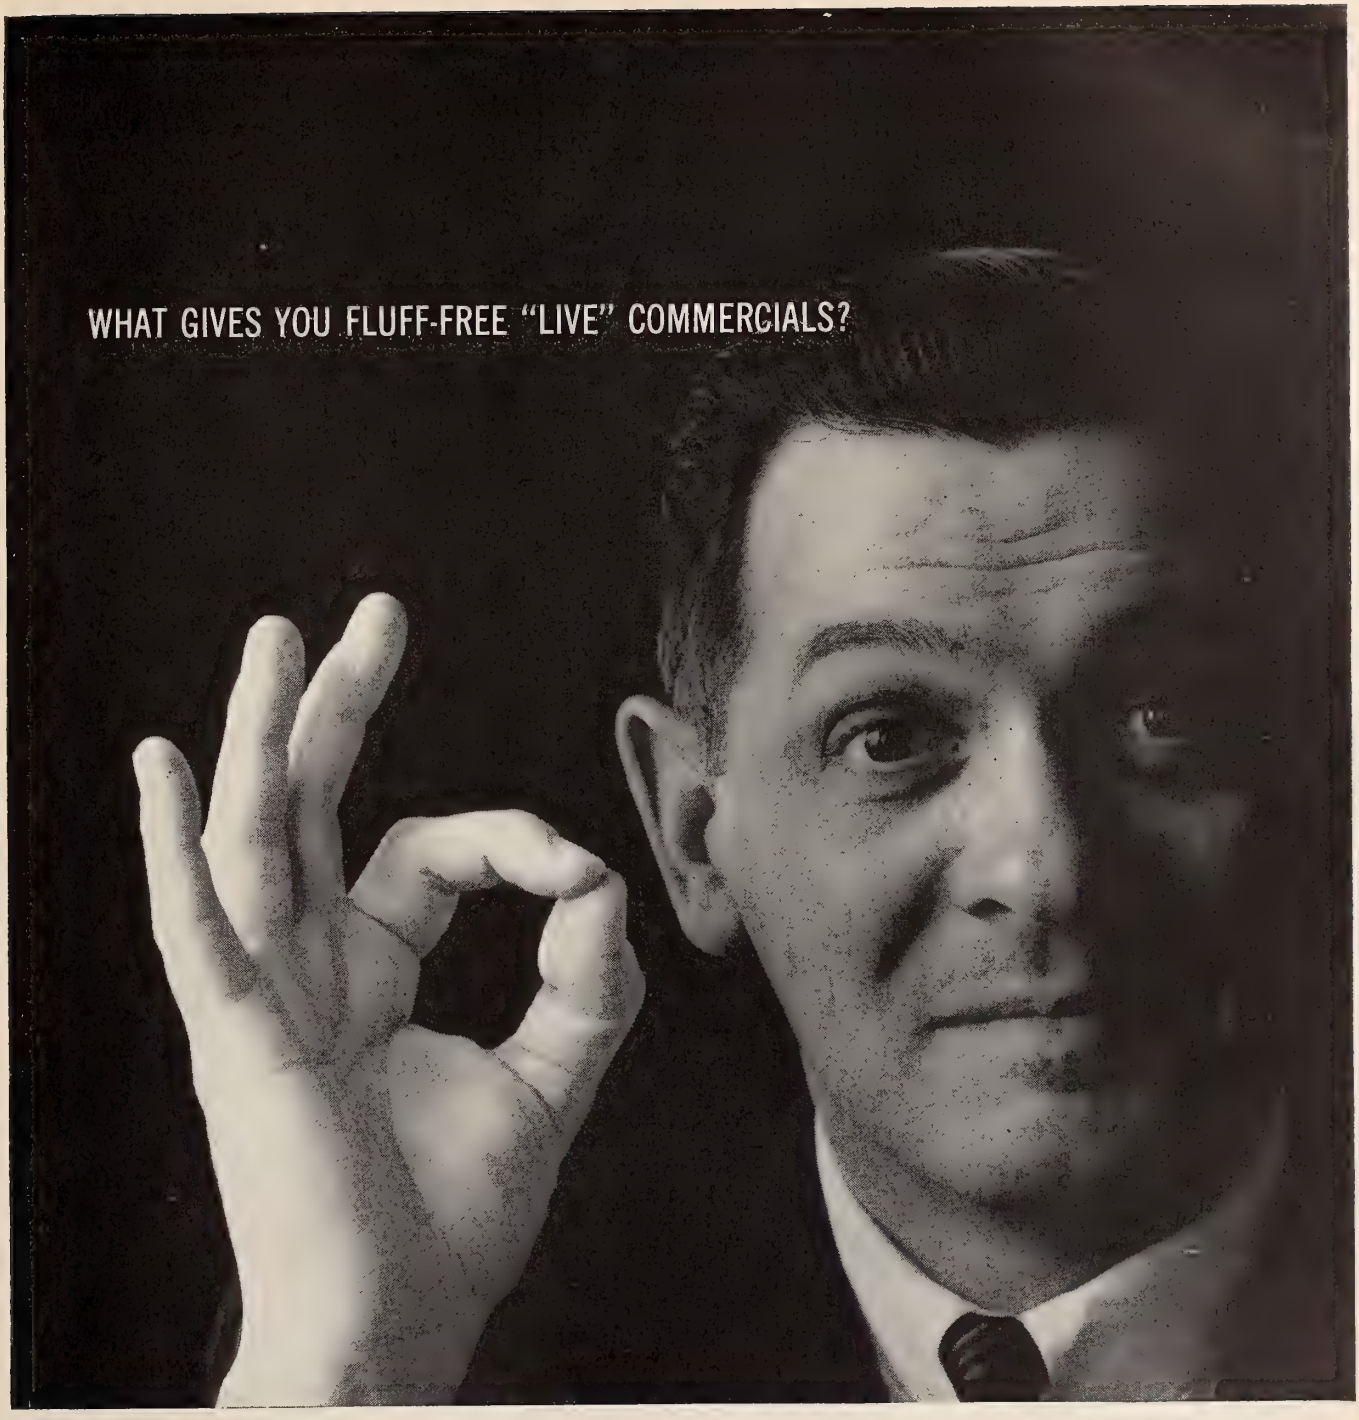
Canada, Mexico Oppose Too • They said extension of daytimer hours as proposed by DBA would amount to "prejudgment" of the issues in the Daytime Skywave proceeding, issued in March 1954, but still pending, and probably would be in "derogation" of any solution reached in the Skywave case.

They said FCC has considered the need for local service in pre-sunrise and post-sunset hours and resolved in favor of greater benefit from existing fulltimers. DBA, they said, would cut into this service and in certain seasons the already-bad skywave interference problem would be worsened.

They cited Canadian opposition and Mexico's refusal to approve the proposal to expand daytimer hours. They said if the plan were approved, existing fulltimers, under the "doctrine of the KOA decision," would be entitled to hearings on grants of new stations which increased skywave interference. Thus, they said, there would be few uncontested grants of new stations.

The stations cited Comr. Robert E. Lee's dissent from the FCC rulemaking in which he said adoption of the plan would make the standard broadcast band "chaotic," and that data submitted by 24 stations show 27 million people would lose primary service in winter from these 24 outlets alone.

WRVA made an additional statement claiming it would receive extensive interference from WSIV Pekin, Ill., KLPR Oklahoma City and a proposed daytime station at Tiverton, R.I.



Monroney jabs at tv as 'Firestone' drops

Oklahoma's Democratic Sen. A.S. (Mike) Monroney is continuing his fight against tv ratings, with special emphasis on the demise of the *Voice of Firestone* (AT DEADLINE, April 27).

Last week he introduced still more newspaper columns into the *Congressional Record* condemning ABC-TV for dropping *Firestone*. Pointing out that next fall networks will carry 27 western and 18 crime and adventure programs, Sen. Monroney asked: "Is this balanced programming?" He continued, speaking on the Senate floor:

"Does anyone here believe that all Americans want is violence and murder of the long-ago frontier or the current gangster-con man variety? Surely the networks can, without help from either Congress or other outside critics, pry themselves loose from their supine slavery to the ratings which would seem to be ruling our airwaves."

Sen. Monroney also stated, but not on the floor, that published reports that he planned to introduce legislation requiring networks and stations to file regular reports on public service programming with the FCC are not accurate. "They jumped to conclusions," he

said. "My plans are not firm at all as yet."

The Senate Commerce Committee's ratings study, which he is pushing as a member, will look into possible legislative solutions to insure a reasonable amount of public service programming, he pointed out, and required filings of such reports might possibly be the outcome.

Hearings on the ratings services were held by the committee last summer and were scheduled to resume early in the present Congress. However, they have been forestalled because of other committee business and Sen. Monroney refused to predict when they might be resumed.

House spectrum panel to meet June 8-9

As its first step in a planned overall study of the radio spectrum, the Communications Subcommittee of the House Commerce Committee will hold a two-day panel June 8-9. Rep. Oren Harris (D-Ark.), chairman, said the panel members would be limited to discussion of (1) problems of the spectrum and its utilization and (2) the most appropriate way to solve these problems.

The House of Representatives authorized $200,000 for the subcommittee to conduct its investigation in the face of a White House proposal for congressional approval of an Administrative commission for the same purpose. So far, Rep. Harris has been unable to attract the necessary experts to staff the investigation and still is searching for a qualified director.

Among those to be invited to participate on the panel are Sen. Warren Magnuson (D-Wash.), chairman of the Senate Commerce Committee; Dr. Irwin Stewart, former member of the old Federal Radio Commission and ex-president of West Virginia U.; Donald A. Quarles, deputy Secretary of Defense; Leo A. Hoegh, director of the Office of Civil & Defense Mobilization; Dr. Ernest Everett of the U. of Illinois, and representatives of the NAB, FCC, EIA and other industry organizations.

Teleprinter hike asked

American Telephone & Telegraph Co. last week asked the FCC for a 4% increase in rates for leased teleprinter service as the first step in its ultimate goal of earning 10% on net investment for these services. The increase was in addition to interim rate boosts granted effective last Dec. 2 by the FCC amounting to about $9.5 million annually.

A decision is expected this year in the lengthy FCC investigation of AT&T and Western Union rates and regulations for leased telephone and teleprinter services.

NAB, the American Newspaper Publishers Assn. and the news services have opposed the raising of rates. AT&T said the interim increases of Dec. 2 brought its earnings from 1.7% to just less than 5% of net investment.

• Government notes

• The ch. 13 Biloxi, Miss., case was officially reopened by the FCC on May 6. The Commission requested a further hearing in accordance with a U.S. Court of Appeals decision. In the original FCC disposition, Radio Associates Inc. (KVMI Biloxi) won the channel over WLOX Biloxi. Issues involved include the control and financial qualifications of Radio Associate. Also, last week, FCC Hearing Examiner Annie Neal Huntting scheduled a prehearing conference for May 15 in the Beaumont, Tex., ch. 6 remand proceeding (BROADCASTING, May 4).

• Jackson Broadcasting and Television Corp., one of the unsuccessful applicants for ch. 10 Parma, Mich., was tentatively turned down by the FCC on May 6 in its effort to bring about a rehearing and reconsideration of the Commission's grant of channel 10 in Onondaga, Mich. The FCC directed preparation of a document to deny the Jackson petition for rehearing and reconsideration. Ch. 10 Onondaga was granted on a share-time basis last fall to Television Corp. of Michigan and the State Board of Agriculture, to operate as WILX-TV (commercial) and WMSB (TV) (educational) (BROADCASTING, Sept. 8, 1958).

• Tucumcari Television Co., thus far unsuccessful applicant for a ch. 70 tv translator station in San Jon, N.M., to translate programs of ch. 10 KFDA-TV Amarillo, Tex., will get another chance to present its case. The Commission granted Tucumcari's request and scheduled an oral argument for May 22 on the firm's exceptions to an initial decision which looked toward denying its application (Broadcasting, March 30) on the issue of "unauthorized operation" among others. Late last month, the Commission denied a motion by Tucumcari to dismiss its application without prejudice and denied the application.

• Agreement on a merger of two of the three applicants for ch. 5 Weston, W. Va., with dismissal of the third (BROADCASTING, April 20) was reached April 23 in a hearing before FCC Examiner Jay A. Kyle. Telecasting Inc. is to have an option to purchase 50% of WJPB-TV Inc. (Fairmont, W.Va., J. Patrick Beacom), which will prosecute its application. West Virginia Radio Corp., which was granted its petition for dismissal by Chief Hearing Examiner James D. Cunningham last week, is to receive approximately $9,237 for reimbursement of out-of-pocket expenses.

• WCKT (TV) Miami committed unfair labor practices in its relations with photographer-reporters and film personnel in connection with membership in International Alliance of Theatrical Stage Employes & Moving Picture Machine Operators (IATSE), according to recommendations of Sidney Linder, trial examiner of National Labor Relations Board. The examiner recommended that WCKT cease alleged anti-union activities; that it offer Cal Marlin, Charles Filer, Joseph Lipari and Jay Weand full reinstatement to former or equivalent positions, and that it refrain from interfering with employes' rights to an uncoerced election. The examiner recommended that the election held Aug. 22, 1958 be set aside and the case be remanded to the NLRB regional director for a new election when he feels circumstances will permit a free choice of bargaining representative.

• The Federal Communications Bar Assn. has formalized proposals to amend the protest provisions of the Communications Act. The FCBA, in a document sent to the Senate and House Commerce Committees and the FCC, recommends that Sec. 309 be amended to require the FCC to withhold action on an application for 30 days and to dispose of any protest prior to a grant. Sec. 405 should be amended, FCBA said, to require the Commission to act on petitions for rehearing with 90 days after grants without hearings.

• NAB has asked the U.S. Treasury Dept. to re-interpret the recently amended Internal Revenue Code to continue the previous exemption from the 10% excise tax on private long distance telephone circuits used by newsgathering agencies, including broadcasters. The Treasury Dept. has ruled that if the private line is handled through a switchboard and connects with the telephone system of another city the exemption does not apply.

• Proposed legislation to exempt reporters from disclosing news sources was killed in the Illinois State legislature last week. Opposition to a bill sponsored by Rep, Michael Zlatnik (R-Chicago), partly from Chicago newspapers, was credited by the legislator with defeating it in committee by a 22-6 vote.

REDS IN CAPITALIST SCHEME

Skiatron proposes pay-see Bolshoi show

A back-door approach to pay-tv was proposed last week by Skiatron of America, New York.

The subscription firm contacted tv stations with a plan to collect $1 donations from viewers to a proposed series of four telecasts of the Bolshoi Ballet. Matthew M. Fox, Skiatron president, conceded to BROADCASTING his firm had explored the idea but had made no commitments.

One version of the Skiatron project proposed to pay a tv station from eight to 10 times its card rate to carry four one-hour film programs of the ballet. There would be no air announcements except a simple introductory message and signoff.

Under the Skiatron plan, the station would promote the programs in advance and Skiatron would buy newspaper space urging the public to tune in and inviting viewers to contribute $1, to be mailed to Reuben H. Donnelly Co. In addition, Skiatron proposed to pay each station 30% or 35% of all cash contributions received from their areas over and above the total payment made in each case. The other 65% would go to Skiatron, which would underwrite costs including newspaper advertising.

Mr. Fox acknowledged he had been exploring various means of showing the ballet, but said "We have reached the point where it is possible that we may not put the ballet on at all." It is known that Skiatron of America had attempted to line up more than 40 theatres to carry the ballet for two days in early June but theatre operators reportedly balked at surrendering the premises at a time when prime motion picture attractions were scheduled to arrive.

Mr. Fox confirmed that he had approached station operators with a view toward having tv outlets carry four one-hour film programs of the ballet. He reported he is also mulling over the possibility of taping the ballet for showing on stations having Ampex equipment. Mr. Fox said he might come to a decision "in a few days."

New film producers

Sindee Productions Inc. (tv series) and Atlas Pictures Corp. (feature films) have been formed by Irving H. Levin and Harry L. Mandell.

Atlas Corp. was formed with the purchase of AB-PT Pictures Corp. from American Broadcasting-Paramount Theatres Inc. Maurice Duke and Henry F. Ehrlich join Messrs. Levin and Mandell in the organization of Sindee Productions. This company's first series is *Pancho Villa,* with actors Harry Carey Jr. and Pedro Armendariz. Series' distributor: MCA.

Regional blackout

The Atlantic Coast Conference (southeast collegiate group) voted May 1 to suspend regional football and basketball telecasts for the next school year. Conference officials called for further study of the situation after the one-year layoff.

EVENING WITH NBC AND ASTAIRE

Emmy scores: 27 for the network, 9 for the dancer's show

It was NBC's and Fred Astaire's night last Wednesday (May 6) when the 11th annual Emmy awards of the Academy of Television Arts & Sciences were passed out at ceremonies televised from New York, Hollywood and Washington. The network came away with 27 of the 45 awards presented, while CBS won 16 and ABC 2. *An Evening With Fred Astaire* won nine awards alone.

(Actually there were only 42 categories, but duplicate awards to CBS and NBC for *Father Knows Best* and to all networks for video-tape achievement swelled the number of statues to 45.)

Runner-up in individual show popularity was the NBC *Hallmark Hall of Fame* "Little Moon of Alban," which won four Emmys.

These were the winners:

Best dramatic series (one hour or longer): "Playhouse 90," CBS.

Best dramatic series (less than one hour): "Alcoa Goodyear Theatre," NBC.

Best public service program: "Omnibus," NBC.

Best news reporting: "Huntley-Brinkley Report," NBC.

Best special news program: "Face of Red China," CBS.

Best single performance by an actress: Julie Harris, "Little Moon of Alban," "Hallmark Hall of Fame," NBC.

Best news commentator, analysis: Ed Murrow, CBS.

Best western series: "Maverick," ABC.

Best panel or quiz: "What's My Line," CBS.

Best special dramatic program, (one hour or longer): "Little Moon of Alban," "Hallmark Hall of Fame," NBC.

Best performance by an actor in musical or variety series: Perry Como, "Como Show," NBC.

Best performance by an actress in musical or variety series: Dinah Shore, "Dinah Shore Chevy Show," NBC.

Best comedy series: "Jack Benny Show," CBS.

Best musical or variety series: "Dinah Shore Chevy Show," NBC.

Best special musical or variety program, (hour or longer): "Evening With Fred Astaire," NBC.

Best actor in a leading role, dramatic series: Raymond Burr, "Perry Mason Show," CBS.

Best actress in a leading role, dramatic series: Loretto Young, "Loretta Young Show," NBC.

Best actor in a continuing comedy series role: Jack Benny, "Jack Benny Show," CBS.

Best actress in continuing comedy series role: Jane Wyatt, "Father Knows Best," CBS and NBC.

Best single performance by actor: Fred Astaire, "Evening With Fred Astaire," NBC.

Most outstanding single program of the year: "Evening With Fred Astaire," NBC.

Best supporting actor (continuing character) in dramatic series: Dennis Weaver, "Gunsmoke," CBS.

Best supporting actress (continuing character) in a dramatic series: Barbara Hale, "Perry Mason Show," CBS.

Best supporting actor (continuing character) in comedy series: Tom Poston, "Steve Allen Show," NBC.

Best supporting actress (continuing character) in comedy series: Ann B. Davis, "Bob Cummings Show," NBC.

Best direction of single program of dramatic series (less than one hour): Jack Smight, "Eddie," "Alcoa-Goodyear Theatre," NBC.

Best direction of a single program of dramatic series (one hour or longer): George Schaefer, "Little Moon of Alban," "Hallmark Hall of Fame," NBC.

Best direction of single program of comedy series: Peter Tewksbury, "Medal for Margaret," "Father Knows Best," NBC.

Best direction of single musical or variety program: Bud Yorkin, "Evening With Fred Astaire," NBC.

Best writing of single program of dramatic series (less than one hour): Alfred Brenner and Ken Hughes, "Eddie," "Alcoa-Goodyear Theatre," NBC.

Best writing of single program of dramatic series (one hour or longer): James Costigan, "Little Moon of Alban," "Hallmark Hall of Fame," NBC.

Best writing of single program of comedy series: Sam Perrin, George Balzer, Hal Goldman and Al Gordon, "Jack Benny Show With Ernie Kovacs," "Jack Benny Show," CBS.

Best writing of single musical or variety program: Fred Astaire, Bud Yorkin, Herbert Baker, "Evening With Fred Astaire," NBC.

Best cinematography for television: Ellis Carter, "Alphabet Conspiracy," Bell Telephone special, NBC.

Best live camera work: "Evening With Fred Astaire," NBC.

Best art direction in television film: Claudio Guzman, "Bernadette," "Westinghouse Desilu Playhouse," CBS.

Best art direction in live television program: Robert Wade, "Count of Monte Cristo," "duPont Show of the Month," CBS.

Best editing of film for television: Silvio D'Alisera, "Meet Mr. Lincoln," "Project 20," NBC.

Best musical contribution to television program: David Rose, musical direction of "Evening With Fred Astaire," NBC.

Best choreography for television: Hermes Pan, "Evening With Fred Astaire," NBC.

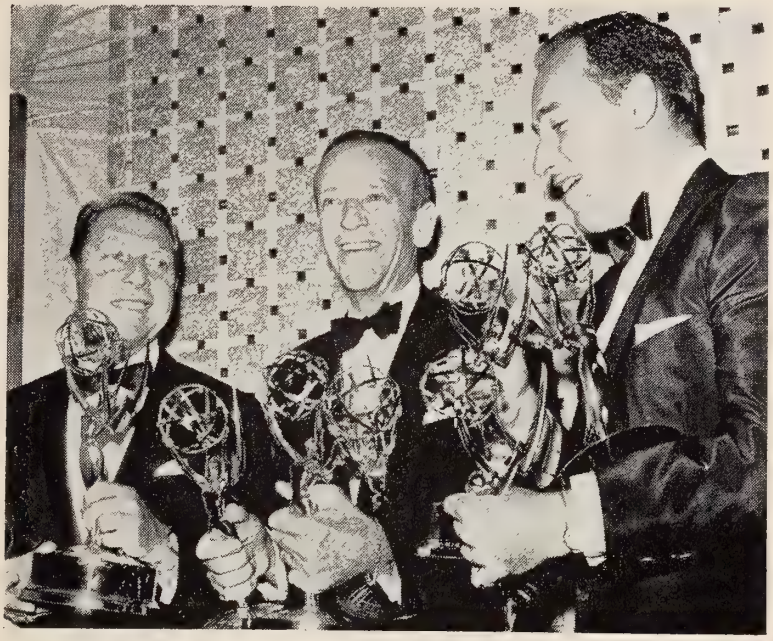
Best engineering or technical achievement: Industrywide improvement of editing of video-tape by ABC, CBS, NBC.

Best on-the-spot coverage of news event: Cuban revolution, CBS.

10 'Grammy' awards go to Capitol Records

Capitol Records ran away with 10 "Grammy" awards, as the National Academy of Recording Arts & Sciences held its first annual ceremony to recognize outstanding achievements in the recording industry. RCA Victor was second with four; Decca and Liberty each had three (Liberty's all from one record, "The Chipmunk Song"); Verve and Roulette, two each, and one each to Challenge, Dot, MGM and London.

The "song of the year" for 1958 was "Nel Blu Dipinto de Blu." The Decca record of that tune was also named the "record of the year."



Three of the NARAS "Grammy" awards for outstanding recording achievement during 1958 went to "The Chipmunk Song," which was voted the "best comedy performance," the "best engineered record (other than classical)" and the "best recording for children."

Count Basie's Roulette record, "Basie," was a double winner, as the "best performance by a dance band" and the "best jazz performance (group)." The Victor recording of the *Peter Gunn* theme music from the tv series of that name also garnered two awards, as the "album of the year" and the "best arrangement." Ella Fitzgerald scored twice, with two Verve records, "Irving Berlin Song Book" and "Ella Sings Duke Ellington," judged respectively the "best vocal performance, female" and the "best jazz performance, individual."

GRAMMY
Discmen recognize their own

And the Rest • Other Grammy winners were: "best vocal performance, male"—"Catch a Falling Star," Perry Como (Victor); "best performance by an orchestra"—"Billy May's Big Fat Brass," Billy May (Capitol); "best performance by a vocal group or chorus"—"That Old Black Magic," Louis Prima and Keely Smith (Capitol); "best country and western performance"—"Tom Dooley," Kingston Trio (Capitol); "best rhythm and blues performance"—"Tequila," The Champs (Challenge); "best engineered record, classical"—Duets with a Spanish Guitar," Almeida (Capitol); "best album cover"—"Only the Lonely" Frank Sinatra (Capitol); "best musical composition first recorded and released in 1958 (over 5 minutes duration)"—"Cross

The winners: inside and outside • Seven of the nine Emmy awards given Fred Astaire and "An Evening With Fred Astaire" prove a full load for (top photo, l to r) the show's musical director David Rose, Mr. Astaire and director Bud Yorkin. But outside the Moulin Rouge in Hollywood (right photo), NABET cameramen on the winning production proclaimed on the picket line that they had been "locked out" by NBC (also see strike story, page 57). And since invitations to the Emmy ceremonies specified black tie, the pickets whimsically complied by donning tuxedoes, homburgs and black ties. One of the strikers, William Wallace, solved his problem by having his wife accept his award for the best live camera work [on the Astaire show].

Country Suite," Nelson Riddle (Dot); "best original cast album (Broadway or tv)"—"The Music Man," original Broadway cast (Decca); "best sound track album (dramatic picture score or original cast),"—"Gigi," (MGM); "best performance, documentary or spoken word"—"Best of the Stan Freberg Shows" (Capitol); "best classical performance—orchestral"—"Gaite Parisienne," Felix Slatkin conducting Hollywood Bowl Symphony Orchestra (Capitol); "best classical performance —instrumental (with concerto scale accompaniment)"—Tchaikovsky: Piano Concerto No. 1," Van Cliburn, Kiril Kondrashin and the Symphony of the Air (Victor); "best classical performance — instrumental (other than concerto scale accompaniment)"— "Segovia Golden Jubilee" (Decca); "best classical performance—chamber music (including chamber orchestra)" —"Beethoven Quartet 13," Hollywood String Quartet (Capitol); "best classical performance—vocal soloist (with or without orchestra)"—Operatic Recital, Tebaldi (London); "best classical performance—operatic or choral"— "Virtuoso," Roger Wagner Chorale (Capitol).

Awards were presented Monday (May 4) at a dinner at the Beverly Hilton Hotel, Beverly Hills, Calif., with some 500 in attendance. Paul Weston, L.A. Chapter president, was toastmaster. NARAS plans to make the Grammy awards, so named because they are miniature replicas of an old fashioned gramaphone, an annual event.

ATAS panel discusses children's programs

Good taste and good judgement on the part of writers and producers of children's programs are the best and, today, almost the only guarantee that tv will have a good rather than a bad influence on young minds, a panel of psychologists and children's program producers agreed last month at a meeting of the Los Angeles chapter of the Academy of Tv Arts and Sciences.

In a reversal of the usual role of such panels, this one talked more about children than about children's programs, urging more understanding of children's interests and emotions by writers and producers. Keystone of the discussion was a report by Dr. Hilde Himmelweit of London U. of an English research project comparing children with tv to those to whom tv is not available. Tv, she stated, does not take a normal child away from other activities and does not adversely affect his standing at school. Bright, socially minded youngsters keep up their outside activities with tv the same as before; dull, retreating children who watch tv more than the others, before tv spent their time with comic books or at the movies. In neither case did tv materially change their normal behavior pattern.

Few children are frightened by western tv shows, Dr. Himmelweit reported, as they accept them as pure escape. Murder and detective programs, in modern settings more familiar to the child viewer and with close-ups depicting strong emotions, are more likely to cause bad dreams and anxiety

feelings, she said. But the main evil of these programs of violent action, she stated, is that when a child watches some 20 of them a week he is apt to come to look on aggression as an acceptable way to solve a problem, particularly when the aggressor is on the side of right and justice.

Dr. Eleanor MacCoby, social psychologist of Harvard, noted that watching tv guides young people's information about adult behavior and the world outside their homes that they will enter as adults. This colors their opinions and outlooks for better or worse. Dr. Robert Sears, professor of psychology at Stanford, stated that children are individuals, who differ as adults do. Furthermore their reactions change from year to year. He commented that this is a fact too many producers of children's programs seem to forget.

Dr. Frederick Rainsberry, supervisor of children's programs for the Canadian Broadcasting Corp., discussed the problems of his post in balancing pressure of program producers and sponsors, educators (who frequently argue that all culture comes from books and tv is bad by definition) and the public. Bruce Attridge, producer of children's programs at CBC, said that children wholeheartedly and without question accept the world in which they live as right. They are omnivorously interested in everything about them.

Ralph J. Garry, associate professor of educational psychology of Boston U., presented the panel. Dr. Abraham Kaplan, philosophy professor at UCLA, was moderator.

Telecasters can now have musical images

The Modern Broadcast Sound Co. of Stratford, Conn., producer of musical "personality images" for radio stations over the past year, has begun selling its product to tv outlets. Modern Sound incorporates tv call letters into ID jingles and news-weather opening and closing jingles.

The company is headed by Kenneth M. Cooper, president and part-owner of WICC Bridgeport, Conn. Its resources consist of lyrics by Austin (Ginger) Croom-Johnson, music by Eric Siday, an 18-voice chorus, 43 pieces of musical instrumentation and the audio engineering of London FFRR.

Pricing for radio and television is on a yearly-lease basis. There are 36 cuts in the first year's package, with 12 new ones forthcoming each ensuing year. The radio rates range from $1,200 to $3,000, with custom attention available from $6,000 to $12,000. An example of custom work is the Spanish identity furnished for KABQ Albuquerque, N. M., with music of varying tempi for different portions of the day. The rate for tv stations is computed at 15 times the highest-priced spot announcement, or a maximum of $5,000 a year.

Tv clients thus far: WWJ-TV Detroit; WBNS (TV) Columbus, Ohio; WBTV (TV) Charlotte, N.C.; WJXT (TV) Jacksonville, Fla.; KOVR-TV Sacramento, Calif.; CHCH (TV) Hamilton, Ont.; WROC (TV) Rochester, N.Y.; WMAL-TV Washington; WCSC-TV Charleston, S.C.; WLOS-TV Asheville, N.C.; WGR-TV Buffalo; WFBM-TV Indianapolis; WIIC (TV) Pittsburgh; WCPO-TV Cincinnati; WTEN (TV) Vail Mills, N.Y.; WBTW (TV) Florence, S.C.; WWS-TV Adelaide, Australia; WTCN-TV Minneapolis; WBIR-TV Knoxville, Tenn.

Hollywood firm starts am air-check service

Radio Recorders will inaugurate its new audio air-check service (CLOSED CIRCUIT, April 13) early in July, according to Felix Adams, director of sales for the Hollywood firm.

Mr. Adams, former vice president and general sales manager of KLAC Los Angeles, joined Radio Recorders last week, to "direct nation-wide marketing of the new service and also to direct contacts with advertising agencies and assume other duties previously handled by J. Joseph Sameth, whose recent resignation was accepted with deepest regret," G. Howard Hutchins, president of Radio Recorders, announced. Mr. Sameth had been vice president in charge of sales. Several other staff appointments were also made. (See FATES & FORTUNES, page 89).

The new service will provide a means of letting advertising agency executives hear how stations are handling their commercials and to show station management how other stations program their morning and afternoon peak business hours. Each month, Radio Recorders will issue three discs, covering a minimum of 20 hours of monitoring time of nine stations, which will be checked for a little over two hours apiece. Eliminating music and news, the air-check recordings will contain enough of the talk of the station personality conducting the program to show his audience appeal and also to illustrate the way he handles commercials. A complete music sheet and a list, with timing, of all commercials broadcast during the full monitoring period will be sent with the records to subscribers.

The service will be sold to advertising agencies for a flat fee of $40 a month for the three recordings, covering nine stations from among the top U.S. markets. Stations can buy the service on an exclusive basis in their markets, with the price determined by the size of the market. For a population under 100,000, the service will be sold at $35 a month. The price rises to $45 a month for a population of 100,000-500,000, to $60 for 500,000-1 million and to $75 for markets over 1 million.

Radio Recorders has prepared a demonstration record covering five stations: WOR and WNEW New York, KFWB and KNX Los Angeles and WHB Kansas City, which may be purchased by any agency, station or other interested individual or organization for $15. The price of this audition record is well below the cost of an air-check of a single station, ordered individually, Mr. Adams noted.

Peace on Mars

KYW Cleveland, Ohio, has been told not to broadcast Orson Welles' *War of the Worlds,* the program that caused a certain amount of confusion when first broadcast on CBS in 1938. The program is issued on an LP phonograph record by Dauntless Enterprises subsidiary, Audio Rarities, New York. KYW was scheduled to play it May 2 at 8:30-9:30 p.m. but was told by the record people that they knew nothing about broadcasting rights.

A call to CBS didn't help either, so KYW has cancelled the program until it can clear up the legal aspects.

Victor plans film unit

Victor Muscat, president of Victor Industries Corp., Greenwich, Conn., announces formation of a company to purchase top feature film libraries for re-sale or rental to regional tv networks and stations. Called Victor Film Enterprises, the new subsidiary of Victor Industries will begin operations with a $2 million-fund.

Mr. Muscat, said to be the world's largest manufacturer of aluminum containers, expects to have some 26 feature films, available individually or in packages of 7, 13 or 26, by the end of 1960. He plans to arrange special 15- and 30-second trailers to help presell the pictures. When the films' stars are available, they are to be included in the promotional trailers. Headquarters of the new film division: 168 Mason St., Greenwich.

DISTAFF EMPHASIS
Women asked to help improve programming

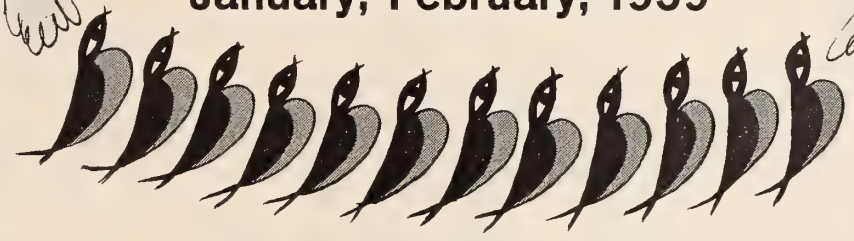
Complacency was not an ingredient of the American Women in Radio & Television convention in New York April 30-May 3. A need for upgrading both the distaff role in broadcasting and the overall level of electronic programming was expressed time and time again.

First to voice the view that the ladies are limited by management in the scope of their radio-tv duties was Sen. John F. Kennedy (D-Mass.) at the opening banquet (April 30) when he came out for more news reporting by women (BROADCASTING, May 4).

Prevalent methods of advertising household products were given a good-naturedly boisterous going-over by radio-tv commentator Virginia Graham. She berated advertisers and agencies for using males and formal copy in household product commercials. Let women speak to women about products that only women really understand, Miss Graham urged.

Fannie Hurst, novelist and WNTA-TV Newark, N.J., commentator, thought that women should be more extensively represented in determination of type of programming. She would also like to see women performing more intellectual functions on the air, that is, taking part in discussion of ideas.

Sunnie Jennings, co-producer of the daily *Home Fare* show on WRGB-(TV) Schenectady, N.Y., let her colleagues in on some of the fresh program sources which have kept her well ahead of the managerial "axe" which she said falls so often on lady broadcasters. Operating on the premise that the female audience is no longer satisfied with recipes and chit-chat, she takes her movie camera all over the world, out to sea, up in the air, under water etc., in order to hold their interest.



Richard Pack, Westinghouse Broadcasting Co. programming vice president, suggested that less emphasis be placed on the male-female aspect of broadcasting. Said Mr. Pack, an audience of human beings will enjoy a program if the broadcaster, male or female, measures up in terms of personality. He advised the ladies to concentrate on doing just a good show, rather than a "woman's program." Follow Sunnie Jennings' example and find program sources outside the studio, Mr. Pack suggested.

Uplift While Entertaining • In discussing the need for more culture and education in tv, Mildred Freed Alberg, former executive producer of

the *Hallmark Hall of Fame*, and Don Jones, producer of the *Bell Science Series* were able to draw from their own experience examples of how the medium could uplift as well as entertain.

John P. Cunningham, chairman of the board, Cunningham & Walsh, agreed that more uplifting programming was needed. He pointed out, however, that manufacturers of package goods could not be expected to foot the bill. To survive the hectic competition they need a mass audience.

Mr. Cunningham sees television divided into three parts; entertainment, the only area in which it is sound business for package goods producers to advertise; culture, a good advertising medium for companies selling a service and seeking an improved corporate image, and education, an area which must be supported by the community.

He called for a network of educational stations which could raise the country's cultural level immensely because so many watch tv so intensely. A college degree would be available for all. He foresaw a time when this spread of enlightenment would make cultural programming more feasible for advertisers. Mr. Cunningham also expressed similar views at the annual IERT convention in Columbus, Ohio, last week (see page 50).

Richard D. Heffner of the Metropolitan Educational Television Assn., New York, agreed with Mr. Cunningham that educational programming is the job of the community. He doesn't think that education and entertainment can be successfully combined.

In addition to many other speakers, a legal session was moderated by NAB President Harold E. Fellows who was awarded an AWRT honorary citation. Also honored by the organization was Robert Swezey, general manager, WDSU-AM-TV New Orleans. These were the first such citations ever given by AWRT. The group named Eleanor Roosevelt an honorary life member.

TvB wants Pulitzer to recognize tv drama

Television Bureau of Advertising last Friday (May 8) called upon the Advisory Board on the Pulitzer Prizes to place tv in the category of awards. TvB's move followed the announcement of the Pulitzer Prizes for 1959 earlier in the week, with "no action" taken on a proposal by Robert Sarnoff, NBC president, to establish a Pulitzer category for television drama.

Norman E. Cash, TvB president wrote Dr. John Hohenberg, secretary of the Advisory Board on Pulitzer Prizes, that a category for tv "would be in keeping with the original purposes of the awards." The announcement from the Advisory Board had said that "It is the sense of the board that television drama is included in prizes currently available for tv," and Mr. Cash answered this point by saying:

"That other groups also award prizes is academic. Awards from many different sources are also given to outstanding dramas, musical compositions, and other categories recognized by the Pulitzer Prizes. The fact remains that a Pulitzer Prize for accomplishment in any medium is singular.

"I am certain that eventually the Pulitzer Prizes will be awarded to television and I earnestly hope that this overdue step will be taken in the near future."

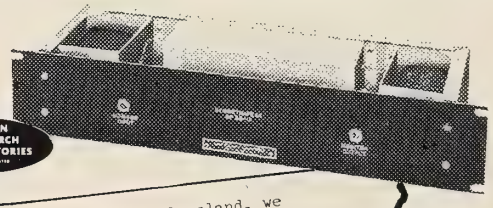
NBC preferred to withhold comment on the Pulitzer Advisory Board's stand.

RTNDA revises awards program

The Radio Television News Directors Assn. last week overhauled its awards structure "to encourage superior reporting of socially significant community news" in broadcast media.

The RTNDA awards competition is sponsored jointly in collaboration with Northwestern U.'s Medill School of Journalism and intended as the counterpart of Pulitzer press journalism encomiums. Three categories for radio-tv were established: (1) editorializing, (2) reporting of community problems, and (3) reporting of spot news stories. The overhaul was announced by Prof. Baskett Mosse, Northwestern U. professor of journalism and chairman of the RTNDA-NU awards committee, in approval with RTNDA's board.

The reorganization of the awards competition followed closely on RTNDA criticism of "gimmerckery" and other devices in local newscast operations (BROADCASTING, May 11). In revised awards criteria, editorializing is redefined as an "expression of opinion by station management" on specific controversial issues in any given year. Reporting of community problems is measured in terms of "enterprise and thoroughness" for significant social impact.



This year's RTNDA awards cover the period Sept. 1, 1958-Aug. 31, 1959 with six plaque winners. Requests for entry blanks should be directed to Prof. Mosse at the Medill School of Journalism, Evanston, Ill.

The new categories are:

Editorializing by radio/tv to the station which in the opinion of the judges

THESE STATIONS INCREASED COVERAGE WITH Symmetra-peak

A.M., F.M. and T.V. stations everywhere are getting greater voice coverage and improved limiter and AGC performance. Here's what some enthusiastic users say . . .

KAHN RESEARCH LABORATORIES

"after seeing and hearing this unit at WERE, Cleveland, we would like one as soon as possible" - WADC, Akron.

"We have recommended its (Symmetra-peak) use at all Westinghouse stations" - WIND, Chicago.

"With the use of Symmetra-peak, we find constant modulation regardless whether it is speech or music. We are very pleased" - WCLS, Columbus, Ga.

"We have completed our series of tests on your Model SP58-1A Symmetra-peak. . . we wish to thank you for making available a device of merit to AM broadcasting stations" - KVOO, Tulsa.

Others using Symmetra-peak include:
WCBS, WOR, WINS, WMGM, Press Wireless, CFPA, KWJJ and RCA Communications (a list of approximately 200 Symmetra-peak equipped stations is available for your inspection).

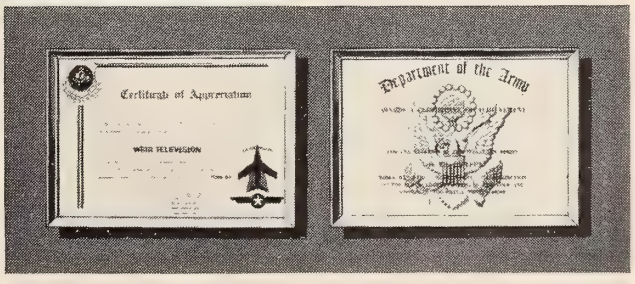
this is

leadership



THE TAFT STATIONS . . . every year win an impressive number of awards for leadership in broadcasting and public service. This is leadership where it counts most. It is another reason why Taft Radio and Television Stations can guarantee larger and more responsive audiences for advertisers. This is why men whose business is selling products, put their advertising dollars in Taft Stations to get the best sales results.

If you are interested in having your advertising dollars earn more . . . now is the time to invest them in growing Taft Stations.

provided outstanding service and significant community leadership by taking an editorial stand on a specific controversial issue during the year. An editorial will be defined as an expression of opinion by the station management.

Reporting of community problems by radio/tv, to the station which in the opinion of the judges displayed enterprise and thoroughness in the reporting of a socially significant community problem during the year.

Reporting of an on-the-spot news story by radio/tv, to the station which in the opinion of the judges provided outstanding coverage, live or recorded, of a single news event during the year.

Mothers approve

Children's television programs have the general approval of 89% of the 1,201 women who voted in a survey by the National Audience Board, Beverly Hills, Calif.

Some of the criticisms noted on ballots were slapstick cartoons with an atmosphere of vulgarity, westerns' violence and the "tell Mommy to buy" approach of some commercials.

Captain Kangaroo proved the most popular show (117 votes) with the women contacted. *Mickey Mouse Club* (66 votes) was next.

• Program notes

• National Telefilm Assoc. International Inc., New York, has announced the sale of its new NTA International Package of 64 feature movies in 14 major markets during its first week of distribution. The stations are: WBBM-TV Chicago, WNAC-TV Boston, WFIL-TV Philadelphia, WNHC-TV New Haven-Hartford, KTNT Tacoma, WPST-TV Miami, WWL-TV New Orleans, WISH-TV Indianapolis, KPHO-TV Phoenix, WHYN-TV Springfield, Mass., KTHV (TV) Little Rock, WLBR-TV Lebanon-Harrisburg, Pa., WKTV (TV) Utica, N.Y., and KGLO-TV Mason City, Iowa.

• Dynamic Films Inc., film production firm, and International Film Distributors Inc., both New York, are offering a new tv sports package consisting of 26 half-hour films ready for immediate distribution, plus 26 additional films scheduled for fall release. The films cover the major auto races of recent years at Indianapolis, Darlington, Daytona Beach, Sebring, Watkins Glen, and Monza, Italy.

• International Transmissions, Inc., N.Y., reports that seven new stations have subscribed to ITI's "voiced" news service, raising total number of clients to 15. New subscribers are: KDAY Los Angeles, WHIL Boston, KWK St. Louis, WCAE Pittsburgh, WAIT Chicago, WLEE Richmond and WTAG Worcester. ITI also has arranged for coverage of the United Nations.

• NTA International, N.Y., reports the sale of its "NTA International Package" of feature films to WBBM-TV Chicago, WNAC-TV Boston, WFIL-TV Philadelphia, WNHC-TV New Haven, KTNT-TV Seattle-Tacoma, WPST-TV Miami, WWL-TV New Orleans, WISH-TV Indianapolis, KPHO-TV Phoenix, KTVH (TV) Little Rock, WKTV (TV) Utica, WHYN-TV Springfield, WLBR (TV) Lebanon-Harrisburg, Pa., and KGLO-TV Mason City, Iowa.

• Trans-Lux Television Corp., N.Y., has signed the Triangle Television Stations for its *Felix the Cat* animated film series, bringing number of markets covered to 12. Triangle outlets: WFIL-TV Philadelphia; WNBF-TV Binghamton, N.Y.; WNHC-TV New Haven; WFBG-TV Altoona, Pa.; KFRE-TV Fresno, Calif., and WLYH (TV) Lebanon, Pa.

• CBS Films Inc., New York, is offering *The Phil Silvers Show* for sale on a syndicated basis. The first package of 52 episodes will be available around mid-October. CBS Films considers the ebullient Sgt. Bilko's adventures its most promising off-network prospect for the coming season. *Silvers* is said to be the most expensive series, in terms of production, ever to be put into syndication. In all, there are 142 episodes.

COLORCASTING

Here are the next 10 days of network color shows (all times are EDT):

NBC-TV

May 11-15, 18-20 (2:30-3 p.m.) **Haggis Baggis**, participating sponsors.

May 11, 18 (10-10:30 p.m.) **Arthur Murray Party**, P. Lorillard through Lennen & Newell and Pharmaceuticals Inc. through Parkson Adv.

May 12, 19 (8:30-9 p.m.) **Jimmie Rodgers Show**, Liggett & Myers through McCann-Erickson.

May 13, 20 (8:30-9 p.m.) **The Price Is Right**, Speidel through Norman, Craig & Kummel and Lever through J. Walter Thompson.

May 13 (9-9:30 p.m.) **Milton Berle**, Kraft through J. Walter Thompson.

May 14 (9:30-10 p.m.) **Ford Show**, Ford through J. Walter Thompson.

May 14 (10:30-11 p.m.) **Masquerade Party**, P. Lorillard through Lennen & Newell.

May 15 (7:30-8 p.m.) **Northwest Passage**, sustaining.

May 15 (8-9 p.m.) **Ellery Queen**, RCA through Kenyon & Eckhardt.

May 16 (8-9 p.m.) **Perry Como Show**, participating.

May 17 (7:30-8:30 p.m.) **Steve Allen Show**, Polariod through Doyle, Dane & Bernbach.

May 17 (9-10 p.m.) **Dinah Shore Chevy Show**, Chevrolet through Campbell-Ewald.

"Our clearer signal is invited into hundreds of thousands of Detroit area homes like these" says John Pival, Vice-President of Television WXYZ, Inc., Detroit.

"The new 1,073′ taller tower by Dresser-Ideco helped improve our signal, broaden our market coverage."

John F. Pival, Vice-President, WXYZ, Inc., is another booster of Dresser-Ideco's new tower elevator. In fact, finding that their own elevator saved maintenance time and cost, and assured uninterrupted service, WXYZ-TV recommended a similar installation to WTOL-TV, Toledo. It was recently put into service.

"Now there are 1,879,500 families in our sales area" reports John F. Pival, WXYZ-TV Vice-President. "Our stronger signal, broadcast from the new tall-tower height of 1,073′, markedly improved signal quality and expanded our coverage area. Our grade B coverage now extends south to Toledo, west to Jackson, northwest to Flint, northeast to Port Huron. WXYZ-TV is a welcome guest in homes throughout our $8.1 billion retail sales market."

A taller tower by Dresser-Ideco can pay off for your station in these two ways. Your clearer signal wins greater audience loyalty . . . greater coverage expands your market area. Each of these gains attracts advertisers.

Dresser-Ideco is far and away the leader in tall towers. We've built more than half the 1000′-plus television towers in service today. That's in addition to hundreds of smaller towers for TV, radio and microwave communication. This experience saves you both time and money. John Pival reports, "Dresser-Ideco delivered our tower on schedule, everything was organized so that the entire job went along at a fast pace. There's no wiser investment than an experienced tower designer-builder." You, too, are assured of this money-saving, time-saving attention to detail when you work with Dresser-Ideco. Talk to your station equipment representative or write us direct. And ask for Tower Catalog T-57.

AND WCKY gives you a larger percentage of women buyers than any other Cincinnati station. Compare the percentage of women in WCKY's audience to the other Cincinnati stations. These figures are from the latest Nielsen Report (Jan.-Feb. 1959):

Station	Women	Men	Teen-agers and Children
WCKY	68%	14%	17%
Sta. A - Ind.	51%	20%	29%
Sta. B - Net	61%	22%	17%
Sta. C - Net	66%	20%	14%
Sta. D - Ind.	43%	8%	45%

MORE AUDIENCE and MORE BUYERS mean MORE SALES

Let us show you how we can sell your product or service on WCKY. Call CHerry 1-6565 in Cincinnati; in New York, call Tom Welstead, EL 5-1127; in Chicago and on the West Coast, call AM Radio Sales.

"ANATOMY OF SOVIET COMMUNISM"

The *First* Comprehensive Documentary Radio Series (thirteen 25-minute segments) analyzing events in the Soviet Union since the Communists' takeover in 1917.

Recently broadcast by the Mutual Network, this authoritative primer on the Communist experiment is now available at cost to stations (exclusive in your area), schools, discussion groups, and other interested organizations. Format permits commercial sponsorship.

Series features actual voices of Lenin, Stalin, Khrushchev, and other Soviet leaders as well as former Soviet students, workers, scientists, concentration camp inmates, and others. Another continuing feature: Radio Moscow broadcasts monitored by this program's special listening post on the U.S.S.R. Produced and narrated by Robert Cody for The Institute of Study of the U.S.S.R., a leading body of former Soviet scholars exiled from the U.S.S.R.

Ben Gross, New York *Daily News: "Anyone who wishes to know what Soviet Russia is like today . . . ought, by all means, tune in . . . I recommend it highly as both interesting and informative listening."*

BROADCASTING: *". . . highly informative . . . outlines twists and turns of Soviet foreign policy . . ."*

RCA'S BEST FIRST QUARTER

Company reports highest sales, profits as result of new diversification policy

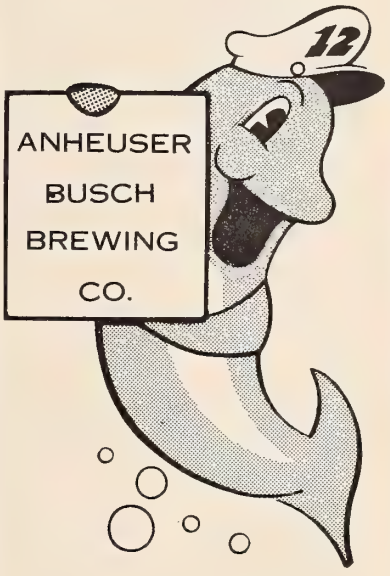
Sales and earnings of RCA for the first quarter of 1959 were the highest in the company's 40-year history, President John L. Burns announced last week.

He told stockholders at the annual meeting that sales totaled $321,816,000 as against $278,339,999 in the first quarter of 1958—a gain of 16%.

He reported net profits after taxes at $12,931,000 as compared to $9,004,000 in 1958's first quarter. This is a gain of 44% over the same period a year before. Earnings were placed at 88 cents a share on the 13.8 million shares outstanding, as compared to 59 cents a year ago.

Brig. Gen. David Sarnoff, RCA board chairman, "took the opportunity" to say, in response to questions, that NBC is not for sale. He had emphatically made the same statement to BROADCASTING last month (CLOSED CIRCUIT, April 6).

Record Set • President Burns said sales and earnings in the first quarter were the highest, for a first quarter, in RCA history. "Barring some wholly unforeseen setback to our national economy, we anticipate total sales for the year [1959] well in excess of the $1,176,094,000 figure for 1958." He also looked to a net profit ahead of last year's $30,942,000.



RCA, Mr. Burns said, "is rapidly taking on a new image"—an image "of a corporation richly diversified in its income-producing operations, as compared to one that only a short time ago

From the labs • Brig. Gen. David Sarnoff, RCA chairman (1), holds to his ear a miniature radio set equipped with a tuner and speaker. John L. Burns, RCA president, holds what RCA said was a television tape recorder designed to store images in a satellite in space. These were among the technical developments displayed in connection with the RCA annual stockholders meeting last week.

derived its earnings primarily from the field of entertainment."

New Image • In delineating the "new picture of RCA," Mr. Burns noted that the company is contributing to 200 defense projects, with its defense sales running possibly $100 million ahead of last year's $300 million, and with orders on hand for 25 of its new RCA 501 electronic data processing systems. In addition, he said, RCA is "intensifying its efforts in the home entertainment field, especially in stereophonic sound, broadcasting and color television."

Mr. Burns also reported that NBC's first-quarter billings were ahead of those for the same period last year and that advertisers have been making "unusually early commitments" for sponsorships next fall. NBC, he said, has "lined up a majority of the automotive industry's television billings" for the fall season.

NBC Radio made a 15% gain in billings in 1958 and NBC-owned radio and television stations boosted their revenues by 8% "to achieve their most properous year." He made no direct reference to billings by the NBC television network.

NBC Chairman Robert Sarnoff, in response to questions, said NBC-TV expects to be sold out for fall, that its fall sales already are ahead of last year's and that NBC Radio's losses now are "manageable."

President Burns said "RCA is rapidly approaching the point where it will begin earning a profit on its color investment," and that "over the next several years we expect this profit to mount up."

Interruptions • Barney Young and Gloria Parker, who have separate suits against the networks, were shouted down in early efforts to get the floor. John Cahill, RCA counsel, charged at one point that Mr. Young was "a publicity seeker." He said that "they want to sell their music to us and we don't want to buy it—that's what it comes down to." In another interlude Miss Parker took a slap at another stockholder who she claimed had called her a "tramp."

A tribute to Gen. Sarnoff capped President Burns' report. "No man," he said, "has contributed more outstandingly or with greater effectiveness. . . . For more than a half-century he has uniquely combined the vision to foresee opportunities with the ability to translate them into practical realities. His contributions to our company—and to our nation in war and in peace—have been broad in scope, eminent in quality and lasting in significance," the tribute stated.

Eastman-Kodak shows improved color film

In a simultaneous three-city preview, Eastman Kodak Co., Rochester, N.Y., last Tuesday (May 5) demonstrated advantages of its new high speed 35mm color negative motion picture film, Type 5250. Delegates to the Society of Motion Picture & Television Engineers' convention in Miami Beach were told the Type 5250 will provide "new artistic freedom and major economic advantages for producers who are shooting color now with an eye towards future color tv re-runs and residual income overseas."

The new color film, which will be available commercially in July, is said to have twice the speed of Eastman's present color negative film, but without increase of graininess over present materials. Lower light conditions are made possible, permitting savings in costs. Smaller lens apertures may be used which gives more control over depth of field. With lower production costs possible, the new film is expected to encourage more tv film package producers to shoot original footage in color. Added profit potential comes from anticipated tv re-runs in color, according to the company.

Radio-tv manufacture rises in 1st quarter

First quarter production of radio receivers rose sharply and tv output exceeded the same period a year ago, according to Electronic Industries Assn.

A total of 3,597, 676 radios, including 1,363,822 auto sets, came off the lines in the quarter compared to 2,604,244 radios, including 853,035 auto sets, in the same 1958 period. Fm radio sets totaled 32,994 in March, 29,145 in February and 30,235 in January, or 92,374 fm sets during the quarter. FM data are not available for the first part of 1958.

Tv output totaled 437,026 in January, 459,492 in February and 494,032 in March, or 1,390,550 in the first quarter compared to 1,221,299 in the same 1958 quarter. Tv sets with uhf tuners totaled 32,112 in March, 34,678 in February and 35,841 in January, or 102,631 uhf sets in the first quarter.

EIA reported radio sales were up in March whereas tv sales showed a decline. Radio sales totaled 1,690,941 during the first quarter of 1959 compared to 1,324,283 in the same 1958 period. Retail sales do not include auto radios.

Tv sales totaled 1,375,626 during the first quarter of 1959 compared to 1,446,969 in the same 1958 period.

New Ampex • Charles P. Ginsburg (l), video engineering manager, Ampex Corp., Redwood City, Calif., and Neal K. McNaughten, Professional Products Div. manager, inspect the company's new Model VR-1000B Videotape recorder (AT DEADLINE, May 4). VR-1000B will be delivered starting in June, sells for $52,950. Innovations include guaranteed signal-to-noise ratio of 36 db, faster tape start (two seconds), automatic brake release to aid threading and splicing, and tape playback speed control to permit two recorders to be lip-synchronized or to synchronize with an external audio recorder. Seven design modifications simplify maintenance and set-up procedures. Tapes are interchangeable with the earlier VR-1000 recorder.

Gates sales helpful to Harris-Intertype

Harris-Intertype Corp. had a very healthy 1958—$58 million in sales, thanks partly to its electronics arm, Gates Radio Co.—and is shooting for the $100 million mark within five years. That was the word Wednesday from George S. Dively, H-I president and board chairman, in a speech before the Cleveland (Ohio) Society of Security Analysts.

He reported parent company third quarter earnings (ended March 31) of $3,235,797 ($2.97 per share) compared with $2,030,164 ($0.75 a share) a year ago. Cleveland-headquartered H-I makes equipment and supplies for the publishing industry and acquired Gates in late 1957. Commercial broadcasting equipment now accounts for about 10% of its sales, Mr. Dively revealed. Gates is having the best year in 37 years in sales and profits, he reported. At the same time Gates acknowledged appointment of Sander Rotkin Adv., Chicago, to handle its advertising account.

Continuing its diversification and acquisition program, Mr. Dively said H-I is directing its "most active discussions [toward] possible acquisitions in communications and related areas of the electronics field."

• Technical topics

• Like Admiral and Zenith Radio Corp. (BROADCASTING, May 4), Motorola's sales and earnings spiraled during the first quarter of 1959. The financial report, delivered to shareholders last Monday, showed sales up 56% over the same period last year—from $40,894,492 to $63,653,184. Earnings four times greater—from $677,782 (35 cents per share) to $2,616,427 ($1.35 a share). Reasons for the sharp upturn: (1) increased acceptance of car radios and other consumer products; (2) cost reduction efforts.

• Rohn Manufacturing Co., Peoria, Ill., has introduced No. 50 Tower for heavy-duty communication use, recommended for extreme windloading and height requirements. The tower is available in heights up to 450 ft. for mounting antennas for microwave, radio communications, tv reception, amateur uses and others. Engineering data and prices available from Rohn, 116 Limestone, Bellevue, Peoria, Ill.

CHET THOMAS

CHET THOMAS

General Manager, KXOK, St. Louis, and a pioneer radio executive, graciously composed this endorsement:

Dear Jock:

We want you to know that we are highly pleased with your news service. Particularly are we pleased with the coverage you and your staff give to news coverage from Washington. In our opinion, our listeners are more interested in news from the nation's capital than they are of events overseas. Washington is your "beat" and you do an exceptionally good job of covering it.

The KXOK Washington News Bureau is a vitally important factor in the overall news coverage of this radio station. Congratulations to you and your associates on a job well done for the past two years.

Your listeners accept Jock as your employee, managing your new Washington newsroom. Thus you beef-up your newscasts—sell more newscasts.

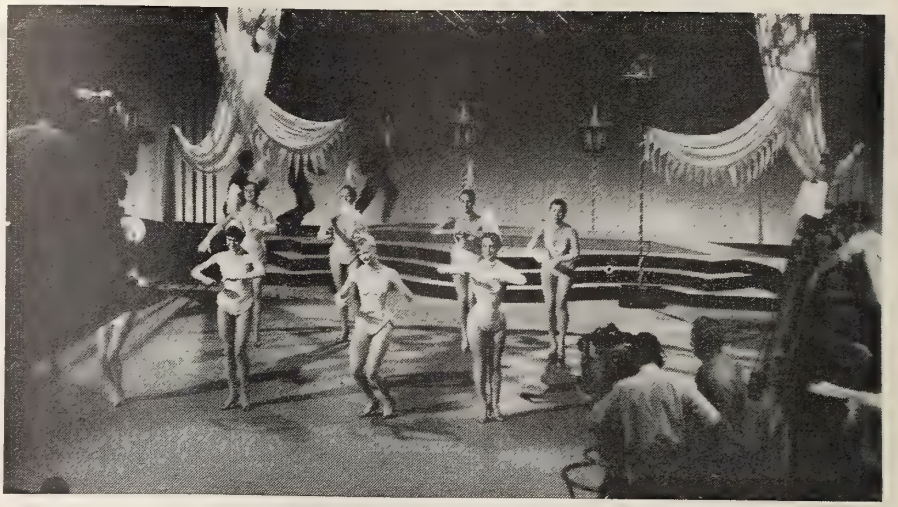
BEEPER OR AIR-MAIL-SPECIAL TAPE —EVERY STORY EXCLUSIVE—NO REHASHES—AND MORE THAN HALF OF THE REPORTS INCLUDE THE VOICES OF THE NEWSMAKERS.

WASHINGTON CORRESPONDENT

JOCK LAURENCE

Gives your call-letters and sponsor identifications; and, because of volume clientele, his fees are lower than those of his new competitors.

For a free, tailored audition, write to Jock at 1701 16th St., N.W., Washington, D. C., Suite 715.



BRITISH TV
Program contractors round profit corner

Commercial television in Great Britain is prospering. The various contractor companies, while serving their own areas and contributing to a general program pool, have converted early losses into huge profits. This is detailed in a series of four articles on the Independent Television Authority and its program contractors written for the British Information Services, New York.

Writer of the first three articles—"General Set-up," "Financial Side" and "Programs"—was L. Marsland Gander, tv and radio correspondent of *The Daily Telegraph,* London. The final part, "Tv for Children," was prepared by Mary Field, consultant on children's programs for Associated Television Ltd. and ABC Television which is owned by the Associated British Picture Corp.

"The most remarkable reversal of fortune," according to Mr. Gander, "is that of Associated-Rediffusion Ltd., contractor company for Monday through Friday programs in London. Two years ago the company . . . had losses of 3.5 million pounds ($9.8 million). For 1957-58 its trading profits amounted to 5.1 million pounds ($14,280,000)."

Following closely behind was Associated Television Ltd., contractor for weekend programs in London, which showed profits last year of more than 5 million pounds ($14 million). Also said to be "happily prosperous" are: ABC Television Ltd. (midland and northern weekend programs); Granada Television Ltd. (Manchester); Southern Television Ltd. (southern counties between London and the south coast); Scottish Television Ltd.; Television Wales and West Ltd., and Tyne-Tees Ltd. (northeast England).

SATURDAY GIRLS IN ATV'S WEEKLY SPECTACULAR
Multiple camera positions, extensive production utilized

In 1958 the gross income of tv advertising was 50 million pounds ($140 million) or one-tenth of Britain's total ad revenue. Deducted from this were agency fees of 15% and another 15% for price reductions to constant advertisers in the medium. At peak viewing hours in London, the top charge is 1,250 pounds ($3,500) per minute.

Program Balance Improves • In Britain there is no direct sponsorship of programs by commercial firms. Editorial control of programs is held by the contractors. Emphasis is still on "light-hearted fare," but the ITA commented in its last annual report that there has been "significant progress towards achieving proper balance."

The majority of programs, Mr. Gander reports, consists of variety shows with British and American artists. Although American film series are popular, "the play's the thing," Mr. Gander says, as the contractors have achieved outstanding successes with drama. Three hour-long plays are presented each week. Plays by Ibsen, Shaw and O'Neill, as well as original plays specially written for tv, have been performed.

Two 15-minute news shows daily are supplied by Independent Television News, a separate company formed by the contractors and supplying news to them all. It also produces an interview program, *Tell the People,* in which political leaders are quizzed, and *Roving Reporter,* which covers foreign events with film illustrations. Currently there are five network public affairs programs. They are: *Free Speech,* political debates; the British version of *Youth Wants to Know; Under Fire,* which submits public figures in London to a barrage from questioners in Manchester; *This Week,* a news roundup, and *What the Papers Say,* an analysis of news and opinion in the newspapers.

Children's Tv Fare • In a typical week approximately four and one-half hours are devoted to school programs, all produced by Associated-Rediffusion and networked to all regions except the North of England. An additional five and one-half hours consist of cartoons, quiz shows, sports, wildlife stories and several serial films from various sources.

Children's program producers, Miss Field says, have been helped by the Society of Film Teachers, a voluntary association of young teachers who encourage film appreciation among their classes and who are turning their attention to training in tv appreciation. The children's advisory committee of the ITA, headed by Sir John Wolfenden, vice-chancellor of the U. of Read-

ing, advises the ITA on quality and scope of its children's programs. The contractors also have their own committee, but there is no official liaison between the two groups.

Schwerin issues call for 'bold creativity'

"Only those advertisers daring enough to be boldly creative, both in new product concepts and in how they employ the television medium, will survive the next decade," Horace S. Schwerin of Schwerin Research Corp., stated at the 44th annual convention of the Assn. of Canadian Advertisers at the Royal York Hotel, Toronto, on May 5.

Schwerin told some 2,000 Canadian advertisers and agency executives that his statement was based on surveys made by his firm in Canada, the United States and Great Britain. In Canada, Schwerin tests for English-language commercials in Toronto and for French-language commercials in Montreal.

He pointed out that his research has shown "that the overall effectiveness of commercials is declining, that the overriding fact to emerge from this survey was an unmistakable drift toward mediocrity" in the past three years. He listed as causes of the decline, viewer resistance, competitors using the same advertising ideas, increased brand competition, and abuse of certain basic advertising techniques.

Schwerin stated that research has shown that in our very competitive economy "creativity is not just one of the alternate paths to the promised land. It is the price of survival itself."

Radio and television were high on the agenda of the three-day ACA meeting, May 4-6, which dealt with the theme "Creativity: Mass Marketing Magic." Patrick J. Robinson, co-ordinator of marketing research of Imperial Oil Ltd., Toronto, dealt with broadcast measurement which had been surveyed thoroughly by the ACA's Canadian Advertising Research Foundation.

Doris Clark, women's editor of CJAD Montreal, urged advertisers to "Know Your Women," pointing out that advertisers may on occasion direct their sales approach to an immature level, forgetting that many young housewives today have careers or professional backgrounds.

Other speakers included Dr. Maurice L. Tainter, Sterling-Winthrop Research Institute, Rensselaer, N.Y., who dealt with sales increases among drug and pharmaceutical manufacturers, and Dr. C.F. Philips, Bates College, Lewiston, Maine, who discussed creative marketing.

Wm. Hamilton, postmaster-general of Canada, was awarded the ACA gold metal for outstanding accomplishments and leadership in the field of advertising during his term of office as executive secretary of the Federation of Canadian Advertising and Sales Clubs and for his contributions to the development of university marketing courses.

(For election of new ACA officers, see, FATES & FORTUNES, page 94.)

Japan-U.S. live tv possibility by 1965

The possibility of live telecasts between the U.S. and Japan by about 1965 was indicated in an announcement from Tokyo, where FCC Chairman John C. Doerfer is discussing with the Japanese Ministry of Communications the proposed laying of a cable from Japan to Hawaii.

The American Telephone & Telegraph Co. and the Japan Overseas Radio & Cable Co. will start laying the cable sometime next year and complete it by 1965 or 1966 at a cost of about $70 million. The two governments still must approve the project.

The U.S. and Hawaii are connected by a cable but it cannot carry live tv in the present state of the art. AT&T Long Lines Department spokesmen in New York said last week they have no information on whether the proposed cable could be used for live tv and that the technical standards of the Hawaii-Japan cable have not been finalized.

• Abroad in brief

• Canadian Broadcasting Corp., Toronto, and Screen Gems (Canada) Ltd., Toronto, will produce and share costs of five pilot television episodes of *Portia Faces Life* with Canadian acting and writing talent. If the pilot episodes meet CBC production standards and are acceptable to Screen Gems, it is planned to start full production on tape early this summer for presentation in the fall as an afternoon program on CBC television network. There is also the possibility that the series will be distributed in the U.S.

• Registered television sets numbered 2,530,000 in West German and West Berlin on April 1. Licensed radios numbered 15,510,000.

• Pakistan is expanding its radio network. Under construction are 10 kw transmitters at Peshawar and Dacca; three transmitters at Karachi.

• Austrian radio set production in 1958 was 278,700 units. A total 53,600 television receivers were produced in the same period.

IN THE SPRINGTIME

PGW thoughts turn to summertime radio

Peters, Griffin, Woodward is hot on summer radio.

The station representative has equipped its radio sales force with a dossier of facts and figures based on seasonable retail sales, listening audiences, automobiles (and auto radios), out-of-home radio, radio sets, and a market-by-market study.

The theme of the campaign is that the summer is a sales season and along with this an observation that the hot months actually feature increased radio listening (for example, auto listenership alone swells the total audience) although the audience peaks occur at different hours than during the other seasons of the year.

PGW, however, emphasized last week that the salesman has time to promote summer radio and sales. It did so by emphasizing that "summertime is a time for growing."

Vice President and Radio Director Robert H. Teter armed PGW salesmen (Radio Colonels in the PGW terminology) with newly-prepared marketing kits embodying this information for agency executives.

Seeds for sales • In keeping with the "growing" or "seed planting" idea, Mr. Teter had packages of seeds distributed with this message: "Seeds for sales—plant 'em now, for big summer spot radio sales gains."

To implant the seed-growing season theme in the minds of the PGW staff, a special "Summertime Island" trip from the firm's Park Ave. office was staged. The location was Randall's Island in midstream in New York's East River.

The kit is crammed with statistics such as : 25.1% of all retail sales in the U. S. are in June, July and August; radio is the only medium that increases its audience during the summer period; more than 55 million radio sets are used for out-of-home listening; out-of-home listening is more than 25% higher than in-home during the three months of the summer; retail sales are even higher than the average 25% for certain fields such as food and grocery stores, hardware and appliance retailers, filling stations and lumber and building materials.

Target for the kits: Advertisers and agencies throughout the U. S. in an aim to bring new advertisers to spot radio and increased budgets from those already using spot radio.

Seed planting • John A. Thompson (l), Peters, Griffin, Woodward vice president and radio sales manager, and Robert H. Teter, PGW vice president and director of radio, demonstrate planting for "summer radio, the only medium that grows during the months of June, July and August." The site is Randall's Island midstream in New York's East River. The station representative ventured to the island last week to kick off the drive.

Wish you were here

Radio stations around the country this week are preparing to launch their fourth annual direct mail campaign under the guidance of Radio Advertising Bureau.

Sixteen "picture postcards" have been prepared for member stations to send their local and regional advertisers. Each card carries a single, self-explanatory fact on the power of radio as an advertising medium. Space is left on the cards for the stations to add their own individual messages to advertisers. RAB, which last year supplied 128,000 of the cards, also offers "merchandising" suggestions for use of the cards as sales stimulators. Some 150,000 of the cards, a new high, are expected to be distributed this summer to agency and advertiser prospects.

Tasteful approach

KODE-TV Joplin, Mo., believes in taking the proverbial way to a man's heart. For a month, KODE-TV's Snack-Pak wagons cruised two nights a week through residential areas of Joplin and nearby Pittsburg, Kan., distributing gift packages to 50 residents in each city, even if they were not watching tv. Heavy air promotional support the preceding day and the day of each wagon trip was utilized but areas to be covered were not designated. Contents of the packs were supplied by KODE-TV advertisers free. The station's only costs were for printing the sacks and distributing them. Each pack contained two bottles of Pepsi-Cola, two pints of Tastemark Ice Cream, a bunch of Bobo bananas, a bag of Brooks potato chips, a *Tv Guide*, a package of cocktail picks, a KODE-TV program schedule, plus one surprise gift.

If the viewer was watching ch. 12 a Newport cigarette lighter also was awarded. A total of 800 packs were distributed.

Burnett apples healthy sign

Leo Burnett Co. added a new fillip to its reception rooms last week, a booklet telling "The Apple Story."

The broadcast-oriented agency, now in the $100 million billing class, put out the two-color pamphlet in answer to several inquiries about the origin of its trademark—offering apples on reception desks for callers. Copy was prepared by Dewitt O'Kieffe, senior vice president, and art by Howard W. Andersen, vice president in charge of Burnett's art department.

The booklet traces the history of the Burnett agency from its start in the 1935 depression with apples in its reception rooms in the London Guarantee Bldg. A crack by a newspaper columnist ("It won't be long till Leo Burnett is selling apples on the street corner instead of giving them away") "sort of got our dander up," according to Mr. O'Kieffe. "We became more determined than ever to make better and better ads and give away more and more apples," he explains.

Meanwhile, back on the ranch

WBAL-TV Baltimore, Md., made a concession to the opposition one Saturday night. The station had pulled out all stops to line up viewers for a movie feature, "Call Northside 777" with Jimmy Stewart, and wanted to make sure it didn't lose any western fans. So they were promised intermission-time resumes of cowboy shows on other channels. The night of the showing, a WBAL-TV announcer dressed in a ten-gallon hat and cowboy boots gave quick summaries of the storylines then appearing on the competitive channels.

Pre-show promotion included a heavy tv announcement schedule, radio plugs, newspaper ads and a telephone answering tape for those who answered the invitation to "talk to Jimmy Stewart." Response forced the answering machines out of order and wrong-number dialings reached major nuisance

proportions, WBAL-TV reports. One doctor said he got more than 250 "Jimmy Stewart" calls in a 25-hour period.

• Drumbeats

• Dominating the ID's, calling cards, stationery and other advertising-promotion of KOLO-TV Reno, Nev., is the station's channel number, shown as VIII to tie in with the VIIIth Winter Olympic Games to be held in nearby Squaw Valley. (The games are always identified with Roman numerals in keeping with their ancient origin.)

• Editorials on legislative matters by WTVJ (TV) Miami, Fla., are sent to each state senator and representative. News vice president Ralph Renick, who delivers the editorials on his 6:30 p.m. newscast, has them printed and sent to Tallahassee where they are delivered to the politicians the morning after the editorial was broadcast.

• WGAR Cleveland featured its "This Is Your Wife" celebration of Mother's Day Friday (May 8). For the sixth consecutive year, wives of WGAR air personalities took over their husbands' duties to broadcast as disc jockeys and newscasters. The station paid baby-sitters so the mothers could be away from home.

• WWDC Washington received 2,350 postcard requests in a month for bumper stickers in connection with a promotion in which it gives away watches, transistor radios and cameras and other gifts. In a heavy on-the-air campaign, WWDC invites listeners to send in their names and automobile license numbers. About five times a day a number is pulled out of the hat and announced. If the owner of the tag number telephones WWDC within the hour he receives a prize. So far there has been a winner each day.

• Educational-noncommercial WGBH-TV Boston has a viewer who has put the service on a pay-tv basis. The station has received $1.80 from a man who drops a dime each day in a glass on his tv set. WGBH-TV is kept going by educational and cultural institutions and private contributions.

• Of 111 enrolled in the KVTV (TV) Sioux City, Iowa, course "Marriage and the Family," 103 came to the classroom for midterm exams. The eight absentees have arranged to take the test later. The classes are telecast in *Saturday Semester* (7:30 a.m.) with the cooperation of the city's Morningside College.

• WIIC (TV) Pittsburgh held a theatre party for more than 600 women at the local Squirrel Hill Theatre in connection with the outlet's *Luncheon At the Ones* (Monday-Friday 1:30 p.m.). The show's cast, Bill Cardille, Mary Eythe, Walt Galla and Chuck Welsh, were in attendance for the premiere of a movie. Guests received souvenirs and gift certificates from WIIC.

• CFRN-AM-FM-TV Edmonton, Alta., drew more than 6,500 dancers and spectators to the second annual Square Dance Garden Party. Saturation radio and tv promotion included such approaches as exchange of radio and tv personalities all over the schedule and a "Ticket-thon" competition between air performers in a downtown store two evenings prior to the big dance party.

• WBKB (TV) Chicago is distributing free quantities of its 48-page *Weather by Radar* booklet to sponsors of the daily weathercasting show. Written by Warren Culbertson, staff meteorologist, the book is offered with sponsors' sales messages printed on front and back covers. The booklet contains an explanation of midwest meteorological conditions and tracking of weather by radar. The station's sales promotion department also produces *Weather by Radar* display units to advertisers for use in store windows, lobbys or reception rooms.

• A weekly ad column in 30 area newspapers is being used by WIIC (TV) Pittsburgh, Pa. to promote its personalities and programs. Titled "WIICy Says," the column is an informal, chatty two-column by 10-inch feature designed to reach viewers in outlying areas.

• WNCT (TV) Greenville, N.C., has inaugurated an industrial progress contest to award communities for their efforts to bring new industry into the state. Winner of the $500 first prize was the community of Farmville, which landed a $6 million formica flakeboard

He ran all the way • Virginians crowd around Hardrock Simpson, distance runner who dramatized the first birthday of WEZL Richmond by running the 50-mile primary coverage area to the birthday party. Starting at 5:15 a.m. from the Southside Virginia community of McKenney, the 55-year-old athlete made the trip in 11 hours and 21 minutes, counting two quarter-hour stops for broadcast pickups. He gathered crowds and publicity all the way and was greeted by thousands of listeners at the end of the line.

Mr. Simpson, holder of two world's records in distance racing, was accompanied by a half-dozen teenage challengers at the start of the race, but they dropped out. He was fed snacks en route by the WEZL staffers who manned a pace car. The runner twice has crossed the country on foot and now is a mail carrier in Burlington, N.C. William Page, general manager of WEZL, says Hardrock Simpson "will gladly do this stunt for any other station."

plant. Each of 12 communities, which entered the first contest, reported the establishment of several smaller industries, employing several hundred persons. Winner and runners-up, which included Clinton and Selma, announced they would use prize money for community advertising.

• When the Evanston (Ill.) Junior Chamber of Commerce celebrated its first annual "Jay-Cee Radio Day" over WNMP there, the station gave maximum supporting promotion. Jaycees sold over 275 half-minute radio spots to suburban merchants and members read the announcements from the store window of Maurice L. Rothschild in which WNMP installed a broadcast booth. The radio station also parked its remote unit in front of the window, complete with loudspeaker. All day, WNMP piped music from the studios, switching to the store for commercials.

WNAX: From kitchen to bowling alleys

A cake contest in which eight WNAX Yankton, S. D., male staffers were the contestants attracted 3,000 recipes. The broadcasters promised $2 to senders of the eight recipes chosen by the would-be cooks. An additional $5 was given to the person who submitted the winning recipe. It was cooked by news director Bob Hill. His prize: one day off. The offer of a booklet containing the chosen recipes drew 2,000 requests from listeners.

The 10th annual WNAX sponsored Six-State Bowling Tournament attracted 12,358 bowlers in teams, doubles and singles and 2,765 in all events from North and South Dakota, Minnesota, Iowa, Nebraska and Wyoming. Billed as America's largest regional bowling tournament, the event offers about $45,000 cash, $5,500 worth of merchandise and 44 trophies in prizes. WNAX Sports Director Les Davis headed the bowling promotion this year.

WBT research: bread & butter study

Teenagers earn only 2% of the nation's income, according to WBT Charlotte, N.C., in a study designed to show that WBT's "adult radio programming" appeals to people who have money to spend.

An analysis of income by age of persons, prepared by Jack Burney, WBT research manager, shows that three of the seven age groups (ages 25 through 54) account for over 70% of the aggregate income. Mr. Burney's study is based on figures supplied by the U.S. Census Bureau covering 1955 incomes.

In another table showing income of families and unrelated individuals by age groups in 1957, the highest median income, $5,573, occurs in the group where the head of the house is between 45 and 54 years old.

The table showing estimated aggregate income by age of persons 14 and over for the U.S. in 1955 follows:

Age (years)	Percent
14-19	2
20-24	6
25-34	23
35-44	25
45-54	23
55-64	14
65 and over	7
Total	100

WGAR greets Seaway's first

WGAR Cleveland chartered a ship and went out on Lake Erie to greet the first Cleveland-bound vessel to sail through the St. Lawrence Seaway. With WGAR Vice President-General Manager Carl George, Sales Manager Bob Forker and newsmen Les Clark and Norm Hall were Cleveland Mayor Anthony J. Celebrezze and local businessmen. WGAR broadcast from the ship as she escorted the Seaway forerunner.

Critical four seconds

Tarlow Assoc. Stations are testing an anti-dial twisting campaign on the group's New Orleans outlet, WJBW.

"A station's biggest problem is not to find the listener but keep him," Allan W. Roberts, executive vice president for the Tarlow stations, is convinced. WJBW plays music from the :58 to :02 and :28 to :32 positions on the

clock. No commercials go in here.

Programs flow past the hour mark and end on the quarter-hour. None of the "music maker" personalities uses a theme song, but at the quarter-hour change point, the one on duty announces who's up next and what music is on tap. This is followed by a "T.N.T." (time, news, temperature) segment of two minutes and then the programming announced previously. The new show is not introduced until the first tune is over. WJBW programs newscasts 15 minutes before each hour, with an eye to beating the competition.

In its effort to stabilize dials at the WJBW frequency, the station has added a monkey mascot. The animal makes promotional appearances in a shirt labeled, "Don't monkey with the dial. Leave it on WJBW."

Other Tarlow stations are WWOK Charlotte, N.C.; WHYE Roanoke, Va.; WARE Ware, Mass., WHIL Boston.

Fast windup

WFBC Greenville, S.C., had to wind up an auto treasure hunt 10 days ahead of schedule as the search reached an early fever pitch. The treasure: buried keys to a Renault automobile. At the climax of the promotion there were 10,000 Greenville people scouring grounds of the city's Cleveland Park. The search ended a half-hour after the final clue was broadcast. Indicators of community interest: office personnel in Greenville businesses were required to type lists of clues for workers to use during lunch and off-duty hours; 25 policemen were needed for traffic at the height of the hunt; the sound of WFBC dominated the hunt search area, and the event got a five-column picture spread in the morning paper after a dairy worker claimed the automobile. It took listeners 18 days to run down the treasure, which originally was scheduled to take 28 days to find.

'Party Line' pasttime

Two announcements on the KDKA Pittsburgh conversational program, *Party Line* (nightly 10 p.m.-midnight), brought more than 3,000 requests for lists of 101 baseball players' nicknames.

The list was compiled by the show's host, Ed King, after two listeners sent in a few baseball players' nicknames for him to quiz the audience. Mr. King added names to the list and many listeners have submitted others.

For quiz purposes the list is divided into categories such as geographical (Germany Schaefer, Dixie Walker), occupations (Butcher Boy Benz, Preacher Roe), food (Pie Traynor, Pepper Martin), menagerie (Hippo Vaughn), chorus line (Minnie Minoso), rhymes (Ping Bodie, Bing Miller; Rube Waddell, Boob McNair) and others.

Baseball is a popular *Party Line* topic following KDKA coverage of the Pittsburgh Pirates' games.

Food for thought on KOA

KOA Denver, Colo., received more than 600 letters after an Army neuropsychiatrist's talk about communist methods of brainwashing. Without exception the letters asked for more of the same type of programming.

In answer to the requests, KOA has scheduled *Challenge to Thought* (Sunday 8:05-9:30 p.m.). The series includes tapes of talks given at universities and other institutions of learning.

Arlett takes NTA prize

Don Arlett, promotion manager, KTVU (TV) Oakland, Calif., has been named first place winner in NTA Television Network's "Shirley Temple Promotion Contest," Martin Roberts, NTA promotion director announced Thursday (May 7). Mr. Arlett receives a vacation trip for two in Mexico for his promotion last fall of NTA's *Shirley Temple Film Festival* series. Other promotion managers receiving prizes include: Steve Shannon, KPHO-TV Phoenix; Vera Schulte, WCPO-TV Cincinnati; Murray Tesser, WHYN-TV Springfield, Mass., and Katie Ferguson, KONO-TV San Antonio.

Political pull

Who listens to radio during the evening hours? Who, to narrow it down a bit farther, listens to "talk" programming in the evening? Who, to be specific, listens to *Opinion Please*, program featuring telephone calls from people who want to speak for or against some topic of current public interest, broadcast 9:05-10 p.m. on KNX Los Angeles?

To get the answer, KNX offered a map of Los Angeles County Assembly and Congressional Districts with a roster of public officials free on request in one announcement on *Opinion Please*.

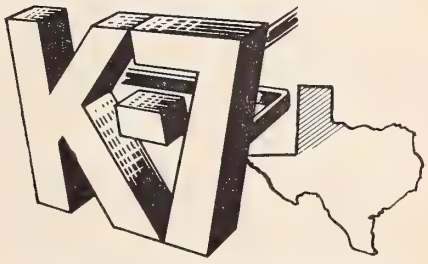
The result: 1,508 requests.

Says KNX: "Only mature radio programming directed to attentive audiences can bring that kind of results."

Lincolnesque listeners

WKCB Berlin, N.H., took the occasion of Lincoln Sesquicentennial Year to find its own candidates for the Lincolns of tomorrow. In a high school contest, conducted with the cooperation of teachers and civic leaders, four students were found with "characteristics and morals exemplified by Abraham Lincoln."

A tour of Washington, D. C., accompanied by WKCB news director Charlie Ross was awarded the winners. New Hampshire listeners heard them in a beeper phone interview broadcast by WKCB. The youngsters also took back



FAMOUS BRANDS OF TEXAS

3 D's

A blacksmith's mistake gave Dan Waggoner a new cattle brand —three backward D's. Dan decided to keep it.

ANOTHER FAMOUS BRAND OF THE TEXAS PANHANDLE

There's no mistake about the mark that the K-7 brand is making on the great High Plains! It's first in Amarillo in total rating points, three nights out of the week—with four of the top ten shows. Let the enterprising K-7 outfit introduce your brand to a vast, rich marketing area.

a half-hour taped interview they had with New Hampshire's congressman and senators. This also is slated for broadcast.

Mental hospital mission

Entertainers of WBT-WBTV (TV) Charlotte, N.C., for the past year have been traveling 75 miles one Sunday each month to perform for mental patients at State Hospital, Morganton, N.C. For many patients these shows provide their "strongest link with 'outside' activities," according to the head of the hospital.

The Charlotte stations produce and pay all expenses for the monthly mission to mental patients. Some 200 entertainers have participated so far, including WBT-WBTV talent and other professional musicians, dancers and athletes (two complete wrestling cards have been staged for patients). Robert L. Rierson, WBTV program operations manager, co-ordinates the shows.

The hospitalized, even those from "closed" wards, react as typical audiences and regularly record their enthusiasm for the WBT-WBTV shows in the monthly hospital publication. Charles H. Crutchfield, executive vice president and general manager of the stations, calls the undertaking "one of our most important public service ventures" and says station people "have been overwhelmed with the tremendous response at Morganton. If other broadcasting companies are interested in setting up a similar project, we will be delighted to send them full details on our program."

Equipping a Radio Station?

New RCA 5 KW FM Transmitter Designed for Multiplexing

A "Direct FM" system plus many other outstanding performance features such as built-in remote control provisions and screen voltage power output control, make the BTF-5B today's best FM transmitter buy. Its 5000-watt power output provides adequate coverage of a multiplex channel and improved coverage for conventional operation. New Exciter, Type BTE-10B, uses "Direct FM" modulator circuits, thus fewer tubes are required. Whatever your equipment needs—SEE RCA FIRST!

Or write for descriptive literature to RCA, Dept. TB-22 Building 15-1, Camden, N. J.

Holiday,** 10%), for $125,000. Mr. Mullen is in livestock and poultry feed manufacturing business and Mr. Holiday is program director WIST Charlotte, N.C. Ann. May 5.

Hearing Cases

FINAL DECISION

By order, commission made effective immediately March 18 initial decision and granted application of Radio Mid-Pom Inc., for new am station to operate on 1390 kc, 1 kw, D, in Middleport-Pomeroy, Ohio. Comrs. Bartley and Ford dissented. Ann. May 6.

INITIAL DECISIONS

Hearing Examiner Charles J. Frederick issued initial decision looking toward granting application of William F. Huffman Radio Inc., to change facilities of WFHR Wisconsin Rapids, Wis., from 1340 kc, 250 w, Unl., to 1320 kc, 500 w-N, 5 kw-D, DA-N. Ann. May 5.

Hearing Examiner Basil P. Cooper issued supplement to initial decision looking toward granting application of Hall Bcstg. Inc., for new class B fm station to operate on 102.7 mc in Los Angeles, Calif. Ann. May 1.

OTHER ACTIONS

By memorandum opinion and order, commission reopened record in proceeding on applications of Radio Associates Inc., and WLOX Bcstg. Co. for new tv stations to operate on ch. 13 in Biloxi, Miss., and remanded same to Examiner for further hearing in accordance with U.S. Court of Appeals decision, and for preparation of supplemental initial decision. Comr. Lee concurred in result and issued statement; Comr. Cross not participating. (Aug. 6, 1957 decision granted application of Radio Associates and denied WLOX Bcstg. Co.). Ann. May 6.

By memorandum opinion and order commission granted motion by Salina Radio Inc., Salina, Kan., to extent of enlarging certain issues in proceeding on its application and that of Kansas Bcstrs. Inc., for new am stations to operate on 910 kc, 500 w, DA-D, in Salina; made KJSK Columbus, Neb. and KGLC Miami, Okla., parties to proceeding. Ann. May 6.

By order, commission dismissed petition by Tri-County Bcstg. Co. for enlargement of issues in consolidated hearing on its application and that of Brinkley Bcstg. Co. for new am stations to operate on 1570 kc, 250 w, D, in Brinkley, Ark. rendered moot because Brinkley application has been dismissed without prejudice at applicant's request. Ann. May 6.

By memorandum opinion and order, commission dismissed protest by WLBZ Television, Inc. (WLBZ-TV ch. 2), Bangor, Me., directed to March 11 grant of application of

*ARB Continuing Readership Study

Bangor Bcstg. Corp. to change facilities of am station WGUY Bangor, from 1230 kc, 250 w, U, to 1250 kc, 5 kw, D; engineering condition. Comr. Lee dissented. Ann. May 6.

Commission further postponed oral argument from May 21 to date to be later announced in Miami, Fla., ch. 10 remand proceeding. Comr. Craven not participating. Ann. May 6.

Commission granted request by Tucumcari Television Inc., and scheduled oral argument on May 22 on its exceptions to initial decision which looked toward denial of Tucumcari application for new tv translator station on ch. 70 in San Jon, N.M. to translate programs of station KFDA-TV (ch. 10), Amarillo, Tex. (On April 22 commission denied motion by Tucumcari to dismiss its application without prejudice, and denied said application.) Ann. May 6.

S.L. Goodman, Bassett, Va.—Designated for hearing application for new am station to operate on 900 kc, 250 w, D, in consolidated proceeding with 900 kc applications of Granite City Bcstg. Co., Mount Airy, N.C., andn Cumberland Publishing Co. (WLSI), Pikeville, Ky. Ann. May 6.

STAFF INSTRUCTIONS

Commission on May 6 directed preparation of documents looking toward:

Reopening record for further proceeding, pursuant to U. S. Court of Appeals remand on application of Western Nebraska Television Inc., for new tv station to operate on ch. 13 in Alliance, Neb.

Denying petition by Deep South Bcstg. Co. for reconsideration of Sept. 3, 1958 decision which denied mod. of cp of WSLA (TV) Selma, Ala., to move trans. site to location 50 miles from Selma and 25 miles from Montgomery, specify main studio site one-half mile from city boundary of Selma, increase ant. height from 387 to 1993 ft., and increase power from 2.51 to 316 kw.

Denying petition by Huntington-Montauk Bcstg. Inc. for reconsideration of Nov. 12, 1958 decision which denied application to change location of trans. site and main studio of station WGSM (740 kc, 1 kw, D) from Huntington, Long Island, N.Y., to Deer Park, Long Island.

Denying petition by Jackson Bcstg. and Television Corp. for rehearing and reconsideration of Sept. 3, 1958 decision which granted applications of Television Corp. of Michigan Inc., and State Board of Agriculture for new tv stations—WILX-TV commercial and WMSB (TV) educational, respectively—to operate on ch. 10 on share-time basis in Onondaga, Mich., and which denied competing applications of Triad Television Corp., Booth Bcstg. Co., and Jackson Bcstg. & Television Corp. seeking same channel in Parma, Mich.

Routine Roundup

By memorandum opinion and order, commission denied petition by Community Broadcasters Association Inc., to postpone from May 16 to Aug. 15 effective date of amendments to Part I of procedure rules adopted by report and order of April 8 which set forth new procedure for processing am applications and established new "cut-off" dates determining time and order in which these applications will receive consideration.

By separate memorandum opinion and order, commission denied similar petition by the Association of Federal Communications Consulting Engineers requesting 30-day postponement. Comr. Craven dissented. Ann. May 1.

BROADCAST ACTIONS

By Broadcast Bureau

Actions of May 1

Make your RADIO and TV future secure
with a
First Class F. C. C. License

Grantham Training Prepares You

Grantham School of Electronics **specializes** in preparing students to pass F.C.C. examinations. We train you quickly and well. All courses begin with basic fundamentals—NO previous training required. A beginner may qualify for his first class F.C.C. license in as little as 12 weeks.

Learn by Mail or in Residence

The Grantham F.C.C. License Course in Communications Electronics is available by correspondence or in resident classes. You may enroll for either type course at any of the three Grantham Schools — at Washington, Hollywood, or Seattle. Watch for the opening of a new Division of Grantham School of Electronics soon in Kansas City.

HERE'S PROOF . . . that Grantham students prepare for F. C. C. examinations in a minimum of time. Here is a list of a few of our recent graduates, the class of license they got, and how long it took them:

	License	Weeks
Roy E. Alexander, Pikeville, Kentucky	1st	12
Robert J. Conley, 129 W. 46th St., New York 36, N. Y.	1st	14
W. R. Smith, 1335 E. 8th St., Long Beach, Calif.	1st	12
Howard E. Martz, 301 S. Penn. St., Fairmount, Ind.	1st	24
James D. Hough, 400 S. Church St., East Troy, Wisc.	1st	12
Odie B. Perry, Jr., Rt. #3, Zebulon, N. C.	1st	12
Milton C. Gee, Rt. #1, Washington, N. J.	1st	11

OUR RESPECTS TO . . .

John Morgan Davis

It's hard to tell to what extent John Morgan Davis found his legal and political careers to be stepping stones to broadcasting or discovered broadcasting augmented his efforts in politics and the law. But there's no trouble arriving at the conclusion that he has been remarkably successful in all.

At this point in his lifetime of multiple activities, Mr. Davis, at 52, is lieutenant governor of Pennsylvania, elected in last November's Democratic sweep for a four-year term. He is controlling owner of WALL Middletown, N.Y., and WSPB Sarasota, Fla., both 250-w fulltimers. He has behind him three decades in broadcasting, from announcer to sales and executive positions and finally to station ownership, and almost the same length of time at the bar, topped off by nearly seven years on the bench.

He was born Aug. 9, 1906, in Shenandoah, Pa., went to high school in Reading, received a B.S. degree in economics from the U. of Pennsylvania's Wharton School of Finance & Commerce in 1929 and was awarded his LL.B. degree from the university law school in 1932.

Behind the Mike • Mr. Davis entered broadcasting while a student in November 1929, serving without pay as an extra announcer for WLIT Philadelphia. He also announced special programs at WRAW Reading and WIP and WHAT in Philadelphia until January 1931, when he hit the money: he began fulltime announcing, for pay, at WCAU Philadelphia.

One of his associates at WCAU was chief announcer Paul Douglas, now of the movies. In late 1931 he took over as night supervisor at WCAU, becoming a freelance announcer shortly before receiving his law degree in June 1932.

Mr. Davis claims credit for scooping the nation while at WCAU in announcing the celebrated Lindbergh baby kidnaping. He also worked with the late Boake Carter in news reporting on the Lindbergh case.

From 1932 to 1937 he combined his law practice with that of salesman for WCAU, WLIT, WDAS, WHAT, WFI, all in Philadelphia, and WRAW. For a short time he was radio director of John Falkner Arndt advertising agency in Philadelphia.

Ownership Interest • When WLIT and WFI were merged to become WFIL Philadelphia in 1935, Mr. Davis became an announcer-salesman there. Later the same year he became a minority owner and vice president and general counsel for WIBG, then a 250-w station operating in Glenside but covering parts of Philadelphia. The station went to 10 kw in 1942. WIBG-AM-FM (fm was added in 1948) was sold, along with WPFH (TV) Wilmington, Del., to Storer Broadcasting Co. for $5.7 million in 1957. WPFH, later WVUE (TV), now is off the air. Last Feb. 23, Mr. Davis represented Gov. David L. Lawrence at a ceremony marking WIBG's increase to 50 kw.

In August 1944 Mr. Davis was named general counsel and labor relations director of NAB under then-President J. Harold Ryan, now vice president of Storer and who, Mr. Davis feels, is the "finest man in broadcasting." Remaining there till April 1946, Mr. Davis set up NAB's first separate labor relations department. He worked with Rosel H. Hyde, then FCC assistant general counsel, in preparing FCC forms which "satisfied both FCC and broadcasters"; helped attack fm and tv allocations problems; helped set up a hearing consultation system for FCC and Washington communications lawyers and otherwise "hashed and rehashed industry problems to get a spirit of cooperation."

In 1945, Mr. Davis acquired controlling ownership of WALL, with Roger W. Clipp holding the rest of the stock. The company purchased WSPB last December from John B. Browning and associates.

Public Service Exponent • In 1949 Mr. Davis helped incorporate the Philadelphia Radio & Tv Broadcasters Assn. and remained as general counsel until January 1952. At that time he took office as judge of Philadelphia Court of Common Pleas No. 4, an elective office which he won in November 1951. Mr. Davis served as judge in this court until he resigned last year to run for lieutenant governor.

PENNSYLVANIA'S LT. GOV. DAVIS
Three decades in broadcasting

Active in public life and Democratic politics during all his career, Mr. Davis was chief counsel for a committee of the Pennsylvania House of Representatives which investigated housing in Philadelphia from March-July 1931; he was secretary of the Pennsylvania Labor Relations Board from July 1937 to February 1939; he ran on the Democratic ticket in 1941 for the same judgeship he held from 1952-58 and he ran in 1945 for judge of the Pennsylvania Superior Court.

On National Scene Too • He was a presidential elector in the Roosevelt-Truman victory in 1944. He has sat on the Philadelphia Council of Defense's trial board and was commander of the control center there during World War II.

Mr. Davis, reflecting on what radio has done and can do, has some ideas of his own about the medium's achievements in the past and its outlook for modern times. It has developed from its early novelty as "one of the entertaining media" into a news and entertainment service on which everyone depends, he says, and "has made all of us conscious of the great value of news." Through creative programming, he feels, it has become the greatest public information and entertainment medium.

But it's his opinion broadcasters shouldn't forget the elements which gave radio its top position. "I believe the popularity of *Lawrence Welk's Champagne Music* on television should serve as a beacon to radio station operators throughout the U.S."

Mr. Davis doesn't mind getting to specifics: "I firmly believe that were the networks to give thought to recreating the network programming of the 1930s and 1940s, they would give newspapers real competition for the advertising dollar. It is my belief that the format of news, music, weather, time and special events which made network radio a household necessity can bring it back to its former strength, usefulness and financial profit to both the outlets and the networks."

This format has been stressed at WALL and WSPB and the stations' "real interest" in public service aspects is added to "make up a well-balanced program for the listeners in the true tradition of the public welfare, interest and convenience of our communities and their residents."

Mr. Davis married Eva B. Pierson of Conshohocken, Pa., in 1932. They have three children—Patricia Anne 22, Carole Joan 16 and John Morgan Jr. 10—and live in Philadelphia.

Ethics can be expensive

FOR the past three years the Television Code Review Board has been advising stations that the commercials for Preparation H, a hemorrhoid remedy, are unacceptable.

For the same three years a growing list of stations has been accepting them.

At latest count 142 stations, 60 of them code subscribers, were carrying the commercials, despite the action of the NAB Television Board a fortnight ago in withdrawing the code seal from eight stations.

Code subscribers or no, 27% of all operating commercial television stations are carrying a campaign which has been repeatedly denounced by the Television Code Review Board. Or, to put it another way, by the code board's measurement television is now only 73% pure.

This would be an alarming degree of impurity indeed—if Preparation H were clearly and unarguably undesirable. But to judge from the division of opinion, it is not. The code board and the majority of code subscribers say the commercials are offensive to the degree of violating the code. But a substantial minority of code subscribers disagrees.

The minority is big enough to damage the code if the conditions of rebellion persist. One side has to give. It would be easier for us to suggest which side it ought to be if we were convinced that the issue was being argued strictly on principle. But it isn't. Economics are involved.

With a number of prominent exceptions the code subscribers that have defied the code board are carrying Preparation H because they need the business, or at least think they do. With an equal percentage of exceptions, the subscribers that have accepted the board's ruling are stations that have less trouble in finding accounts.

To over-simplify, the haves are ranked against the have-nots. This leads to the question: Is the code only for the affluent? If the answer to that is yes, television must try to live with a double standard of morality. Anyone who has seen people try to live that way knows the insecurity of their lot.

The big image

THE five-man committee appointed last week to implement the massive public relations program for television has a bigger job than its announced assignment. Inexorably involved is the future shape of the NAB itself.

The predecessor Television Information Committee, which on a crash basis evolved a broad PR plan, was formed because of obvious, if undisclosed, dissatisfaction with the NAB's handling of public relations affairs. Ostensibly, the five-man NAB Tv Board committee is to "investigate the financial, organizational and functional relationships between the proposed program and the NAB and other industry organizations."

Actually, however, the new committee, headed by veteran broadcaster Clair McCollough, must approach its work with regard to the bearing it will have upon the NAB's existing organization and its future.

In recent months, serious questions have been raised about NAB's stewardship in practically all areas except labor relations. Individual broadcasters as well as networks have expressed misgivings about the association's current effectiveness and whether it has kept pace with the times.

Financially, concern is being evinced over the million dollar budgets for the NAB, TvB and RAB, aside from dues paid to special interest organizations created because of "conflicts of interest" which have caused NAB to straddle in matters before regulatory agencies and Congress.

The critical "image" problem of television provoked the establishment of the Petersmeyer Committee. Because of concern about NAB's ability to undertake this assignment, the enabling resolution specified the campaign "is to be conducted in liaison with the NAB, but is to be undertaken as a major new effort and separately staffed, operated and financed."

The Petersmeyer Committee did what was expected of it and did it well. It developed a fully-integrated plan in little more than a month. This did not meet with the complete approval of the NAB Tv Board. If it had, there would have been no reason to appoint the new committee.

Even should the McCollough Committee confine its report, due June 17, to the television PR issue, the combined NAB Radio-Tv Board inevitably must cope with the whole question of trade association status. About $4 million is being paid by broadcasters annually for trade association activity. The big question to be resolved is whether the time has come for a "federation" to supersede these various disjointed activities, with the critical assignments in government (lobbying) and public relations to be handled by the core of what now is the NAB. To us the answer is an obvious "aye."

Tinkering with time

THE FCC, to paraphrase one of the sages, must love the radio daytimers because it has created so many of them.

Now the daytimers, most of them authorized after World War II, are snapping at the FCC. They don't want to be restricted to sunrise to sunset operation. They want to operate from 6 a.m. to at least 6 p.m. And they're importuning Congress to do something about it.

These stations are not strictly "little fellows." Many of them operate on regional and clear channels with from 1 to 5 kw. To permit them to operate before sunrise and after sunset would cause interference with dominant stations which, in the case of most regionals, have installed expensive directionals to suppress interference and maximize service.

What the advocates are trying to do is to substitute political action for sound engineering. That is the intent of HR 6676 introduced by Rep. Shipley (R-Ill.). Interference is bad enough in the broadcast band as it is. To permit some 900 daytimers on regional channels to transmit before sunrise and after sunset, without providing directional protection, would make a further shambles of the broadcast band.

One Station Reaching The Booming Upper Ohio Valley

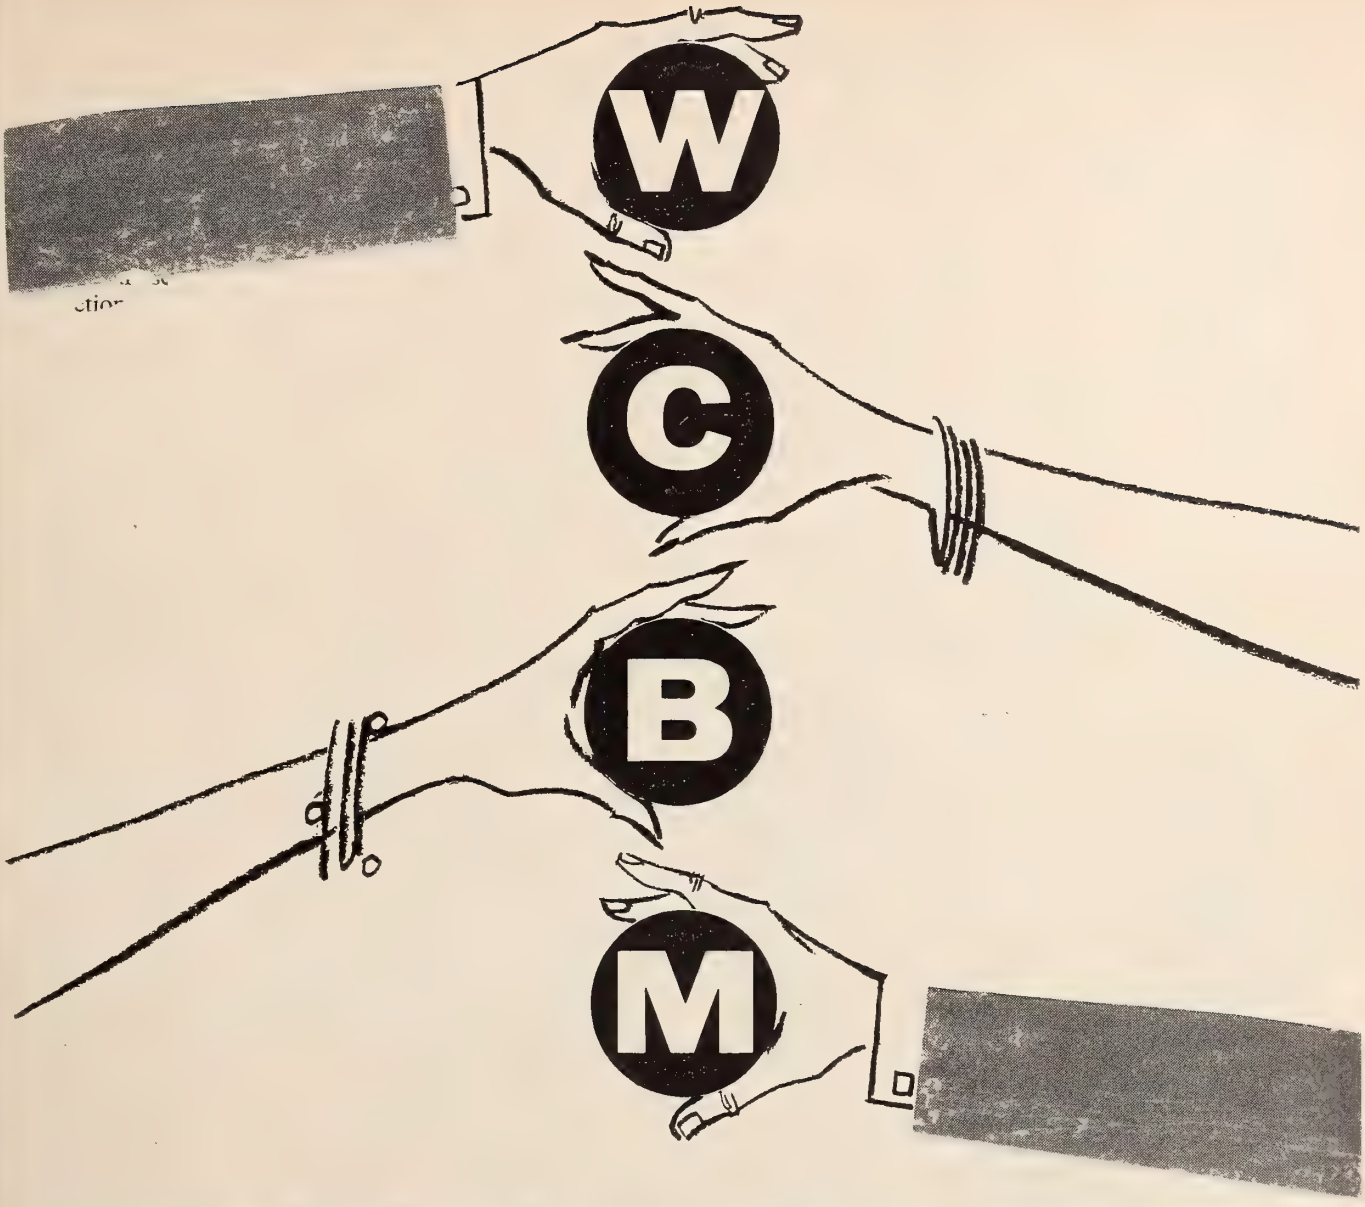
No. 12 IN A SERIES: ALLOYS

Vital companion to the rich Ohio Valley's steel, aluminum and chemical industries is the Powhatan plant of the Ohio Ferro-Alloys Corporation located at Powhatan Point, Ohio, which produces essential silicon metal and high grade silicon alloys used by this trio of industries. This $4 million plant consumes an amazing 240 million kilowatts of locally produced electrical energy annually.

Important also to those who have things for sale is the $1 million annual payroll of this Ohio Ferro-Alloys Powhatan plant. This is just one more reason why the WTRF-TV area is a super market for alert advertisers . . . a 39-county market where 2 million people have a spendable income of $2½ billion annually.

The Ohio Ferro-Alloys Corporation operates other plants at Brilliant, Ohio, and Philo, Ohio (both in the WTRF-TV area) and at Tacoma, Washington.

For availabilities, call Bob Ferguson, VP and Gen. Mgr., or Needham Smith, Sales Manager, at CEdar 2-7777.



National Rep., George P. Hollingbery Company.

CLOSED CIRCUIT®

Special events • Nighttime tv on networks next fall will have split personality, say network programmers. It'll be Hollywood or motion picture product for regular series and Broadway-type production of live specials (either as series or one-shots) with accompanying pattern of fat contracts and name stars. Departing from scene: Shows with radio origin like audience participation, quizzes, weekly comedy.

Coming up is season of tv specials. As many as 150-200 specials will be on networks in 1959-60, and advertiser orders for them now are said to be piling up faster than they can be accommodated.

Skirmish • Attorneys for RCA-NBC have held several secret talks with Justice Dept. representatives to scout possibility of out-of-court settlement of government's antitrust suit which seeks to undo NBC-Westinghouse swap of stations in Cleveland and Philadelphia. Talks are described as exploratory only, and no deal is in immediate offing.

Magnet for moviemen • Hollywood's major movie makers are heading toward full-scale tv film syndication. Aside from those already in field, United Artists Television has targeted next month for its entry as peddler of new product to stations and regional advertisers, and MGM-TV may not be too far behind.

MGM-TV, despite "setbacks" in network tv (Colgate-Palmolive's decision to drop Thin Man *after two seasons and fall-through of* Jeopardy, *hour-long mystery drama which tentatively was considered for NBC-TV's next season schedule), says it will continue to produce properties for tv. It has board of directors support on this and in fact will go ahead with plans to build additional tv facilities at Culver City, Calif., studios.*

Omitted detail • Published reports of departure of *Voice of Firestone* from its Monday night period on ABC-TV, largely critical of network for "ousting" this program of good music from air because of low ratings, have omitted one pertinent fact: Firestone failed to renew its contract before April 30, when its option expired, thus freeing ABC-TV to sell time to another client. For reasons best known to ABC-TV, no publicity has been given to this part of story, which Oliver Treyz, ABC-TV president, revealed to group of network's executives in Hollywood during his western trip early this month.

Court cases • FCC's much-litigated fm multiplexing decision is headed for U. S. Supreme Court. Solicitor General has agreed to go along with FCC in petition for certiorari from U. S. District Court of Appeals decisions twice overturning FCC's ruling that fm stations must multiplex if they provide functional music service. Lower court held last December that simplexing of functional music constitutes broadcasting and that FCC is in error in insisting upon dual service on fm.

No decision yet reached on what FCC will do about Appeals Court latest rebuke—on ch. 2 Springfield-St. Louis case wherein court held private conversations with Commissioners even in rule-making cases constitutes ex parte *representations. Case, involving transfer of ch. 2 to KTVI (TV) St. Louis in deintermixture, was sent back to FCC for further action. Whether FCC will seek lower court reconsideration, ask for Supreme Court review, or follow court's mandate, will be decided within next couple of weeks.*

Lengthening string • In final contract stage is sale of KVI Seattle by Vernice Erwin and family to Gene Autry group for $770,000. KVI, MBS-Don Lee, was established in 1926, acquired by present owners in 1928. It operates on 570 kc with 5 kw full time. Autry stations are KOOL-AM-TV Phoenix; KOLD-AM-TV Tucson; KMPC Los Angeles and KSFO San Francisco.

Tape syndication • Jack Wrather's Independent Television Corp. plans to arrange for taping facility on West Coast which it probably would lease. Reason: ITC wants to tape 65 half-hours of *Ding Dong School* to which it has distribution rights. (For other news of tape syndication, see story page 33.)

Approach to Mobile • Ch. 3 WEAR-TV Pensacola, recently acquired by Rollins Telecasting Inc. for $1,075,000, shortly will become primary ABC-TV outlet for Mobile-Pensacola market. Station, which recently received authorization for 1449 ft. tower 20 miles from Mobile and 40 miles from Pensacola, will switch to ABC as soon as existing secondary affiliation commitments with Mobile stations are adjusted. Alfred Beckman, ABC station relations vice president, negotiated affiliation with Wayne Rollins, president and operating head of Rollins stations. Mel Wheeler, general manager of WEAR-TV under former ownership, continues in that capacity.

Success story • Revere Camera Co., newcomer to tv, has been so gratified with early results of eight-week test spot campaign it is (1) expanding from initial 8 to about 16 stations (10 to 30 spots per week per station) in key markets and (2) reportedly curtailing its print advertising to pour more money into video spot. Test drive started in New York, Chicago, Los Angeles and Philadelphia April 20, promoting new Electric Eye-Matic and Cine-Zoom Electric Eye 8mm movie cameras, so-called luxury items. In some markets, it's learned, company is back-ordered six months. Agency for Revere (radio-tv only): Keyes, Madden & Jones, Chicago.

Long suspension • FCC last week scanned lightly staff report on eight Atlanta, Ga., radio stations whose license renewals have been held up for more than year on questions of programming imbalance. Since only four commissioners were present at last Wednesday's meeting, it was decided to put over case until this week when full complement of seven commissioners is expected to be sitting. Staff memorandum gives FCC various alternatives: group hearing, individual hearings, blanket renewals, individual renewals for some, hearings for others.

Stations involved in Atlanta programming case—all of which were charged with little or no agricultural, educational and religious programming—are: WAKE, WAOK, WEAS, WERD, WGST, WQXI, WTJH (East Point, Ga.), and WIIN (Decatur, Ga.).

Meanwhile at Mutual • Broadcast veteran Adolf (Ade) Hult reportedly will rejoin Mutual network as vice president, but not in sales area where he functioned from 1949-55. Mr. Hult played principal role as intermediary in effecting sale of Mutual to group headed by Malcolm E. Smith Jr. and Richard Davimos. Since leaving network he has served as consultant to Screen Gems, RKO Teleradio Pictures, MBS and several agencies and advertisers. It is believed he will work on "special assignments" in new job.

PEOPLE WHO KNOW ATLANTA TV KNOW WAGA·TV IS THE BUY!

People who know you best can judge you best . . . and for *nine straight years* the Atlanta Gas & Electric Company has put its money on WAGA-TV! Its informative "Blue Flame Kitchen" program is a must with thousands of Georgia women every Thursday morning at 10:30 AM.

Every week new advertisers are joining the ranks of old-timers like this, because folks who know Atlanta TV are learning from the acid test of actual *results* that "live channel 5" is more than ever *the* buy. That's because WAGA's strong local programming, featuring top Warner Brothers, RKO, United Artists, and Screen Gem Movies, is delivering a big and growing family audience at remarkably low cost.

See your KATZ man today.

VIDEOTAPE

WEEK IN BRIEF

MR. ZLOWE

Market selectivity puts punch in spot • The media department and timebuying team must be an integral part of the agency creative team if individual product marketing problems are to be licked most effectively, according to Irwin Zlowe, president, The Zlowe Co., New York. How different product situations call for different broadcast media strategy is explained by Mr. Zlowe in this week's MONDAY MEMO. Page **23.**

Home-grown syndicates • Local stations starting to dispense their creative programming efforts around the nation on film, getting more mileage out of productions. Page **33.**

Radio spot soaring • Several leading representatives point to upward trend but aren't ready to predict it will continue climbing through summer and autumn. Page **44.**

Elgin likes tv time • Watch company mixes tv network shows, radio-tv spot for a media melangé that garners more sales *and* profits. Pleased with the results, Elgin Co. plans to increase broadcasting ad budget next year. Page **48.**

Cost-per thousand and sponsors • Vice President Stern of FC&B takes shot at "apples and oranges" comparisons among media and generalizations in area of commercial retention. Page **52.**

Cost-cutting on tape • CBS-TV experimenting with low-budget techniques in producing recorded tv shows, including more efficient production and equipment. Page **58.**

Disc jockey convention grows bigger • Second annual International Radio Programming Seminar and Pop Music Disc Jockey Convention expected to hit 4,000 mark for Miami Beach May 29-31. Ratings, records, formula programming, network vs independent and news are among panel topics for meeting sponsored by Storz Stations. Page **60.**

Autumn network negotiation • United Artists Television and NBC-TV dickering on proposed new anthology series. Page **64.**

Educational funds opposed • House opposition grows as second round of Congressional hearings are held on proposals to grant each state up to $1 million for etv. Proponents claim money is necessity if medium is to reach its full potential. Page **70.**

Uncle Sam's tax muddle • Tv stations may be victims of unrealistic Internal Revenue Service policy if local amortization ruling on theatrical films becomes general practice. Page **70.**

New Sec. 315 bill • Sen. Holland introduces seventh bill relieving broadcasters from FCC interpretation of Sec. 315 as proponents continue push for hearings. Twelve senators sign as cosponsors of Sen. Hartke's proposal. Page **72.**

U.S. tv homes • Size and location of 1959 audience by states and counties as estimated by A. C. Nielsen Co., first county-by-county listing since spring of 1958. Page **105.**

NBC, NABET agree; tv tape dispute ends

Members of National Assn. of Broadcast Employes & Technicians voted Friday (May 15) ratification of agreement reached by union and NBC officials to end three-week work stoppage at network. Results of voting were unavailable late Friday night.

Agreement was reached by negotiators a few minutes before midnight last Thursday (May 14), paving way for settlement of work stoppage that began April 27. Though neither side would divulge terms of agreement, it was reported that concessions made by NABET went beyond original issue in dispute—jurisdiction of programs taped overseas.

It was understood agreement called for following: NABET relinquishes tape jurisdiction of programs produced outside United States and retains jurisdiction over tape in U.S. in areas defined in contract agreed upon in May 1958; NBC has right to determine method of operation and work assignments; any employe who refuses to follow instructions or does not perform duties satisfactorily is subject to disciplinary action or dismissal without pay; writing of grievances by personnel, when it interferes with company operations, is prohibited; NBC now has right to file grievances and process them through to arbitration; contract formulated in May 1958, which NBC rescinded two weeks ago, is reinstated.

NABET continued its picketing in cities where NBC maintains owned and operated stations while members voted upon agreement. NBC continued programming, as it has since first day of strike, with about 300 supervisory workers replacing about 1,500 NABET members involved in work stoppage.

Union employes walked off their jobs in New York April 27, declining to handle *Today* program, claiming tapes of show had been produced in Paris with non-union French technicians in some "basic operating jobs." NBC had flown nine NABET men to Paris to work on project. Dispute spread across country, with NABET charging "a lockout" and NBC claiming action was "strike." Disputants had been in mediation sessions off and on since beginning of work stoppage.

Siepmann honored

First Frank Stanton Award for meritorious research on media of mass communication was awarded Friday night (May 15) to Charles A. Siepmann, author of *Tv and Our School Crisis* (published by Dodd, Mead & Co.). Award presented at meeting of American Assn. for Public Opinion Research at Lake George, N. Y. Current award, which includes scroll and $500, was for two-year period (1957-59) with subsequent awards to be made every two years. Award was established by Profs. Paul F. Lazarsfeld and Robert K. Merton, associate directors of Bureau of Applied Social Research at Columbia U., to encourage interest in research in mass media of communication and recognizes contributions made in field by Dr. Stanton, CBS Inc. president, during past 20 years. Mr. Siepmann was major contributor to FCC's *Blue Book* on programming, March 7, 1946.

FTC consent decree cites Hammell firms

Federal Trade Commission announced today (May 18) it has affirmed consent order requiring Arthur Hammell and companies with which he is affiliated to stop misrepresenting advertising promotional plans sold to radio and tv stations and local merchants, and to discontinue withholding money due broadcast stations or endorsing checks made payable to stations without authority.

Companies named in addition to Mr. Hammell are Advertisers Assoc. of America Inc., Teleradio Advertisers Inc. and United Publicity Inc. (BROADCASTING, Nov. 24, 1958).

Complaint issued last November explained that firms and Mr. Hammell entered into contracts with stations and local merchants for promotional projects and contests. Stations were supposed to receive from one-half to one-third of merchants' payments, while merchants were promised radio and tv spots for specified number of weeks. Complaint alleged many checks were made payable to respondents instead of stations, that respondents endorsed some checks made out to promotional companies and stations jointly, keeping entire amount.

Also false, FTC charged, were representations that defendant firms provided free trips to Las Vegas or cash substitutes, changed commercial copy monthly, exhibited subscribers' merchandise on tv and had it picked up, advertised promotion in local newspapers or furnished subscribing merchants with display bearing station call letters. Or, that all leading area businessmen were participating, that only one business of kind in area would be permitted to sponsor promotion, that backdrop for tv advertising would conform to samples exhibited and that firms' salesmen were stations' agents.

Some contests by Hammell firms: "A Millionaire's Weekend Trip to Las Vegas," "Juvenile Delinquency Essay Contest," "Safety on the Highways Essay Contest."

Respondents' agreement to discontinue practices complained of is for settlement purposes only and does not constitute admission of violations, FTC explained.

Oversight panel-quiz is to start June 15

House Legislative Oversight Subcommittee will begin its panel-hearings June 15 covering problems of six major regulatory agencies (BROADCASTING, May 11), Chairman Oren Harris (D-Ark.) announced Friday (May 15). Panels will consist of members of agencies, other government officials, attorneys and members of regulated industries.

Four topics, all on tentative basis, will be discussed in two groups. Each of agencies—FCC, FTC, Civil Aeronautics Board-Federal Aviation Agency, Federal Power Commission, Interstate Commerce Commission and Securities & Exchange Commission—will make up first group, with each appearing on separate days. Second group of panelists will be made up of representatives of Federal Trial Examiners' Conference, trade associations, bar associations.

Subcommittee Chief Counsel Robert Lishman has scheduled meeting with general counsel John FitzGerald of

CONTINUES *on page 10*

AT DEADLINE

CONTINUED *from page 9*

FCC, as well as general counsels of other agencies, for today (Monday) to finalize plans for panels. Proposed topics of discussion:

"(1) What legislative or administrative measures should be taken to preclude attempts to influence commission members or employes by means which do not afford a fair opportunity to present their case to interested persons who will be materially affected by commission action, and at the same time preserve the necessary access of the commission to information from the regulated industry? (2) The role of hearing examiners. (3) The role of commissioners and their staffs and the division of responsibilities. . . . (4) The efficiency of the commissions. What changes, if any, in the existing statutory provisions relating to substance or procedure are needed to enable the commissions to cope with the increasingly enormous volume of business coming before them?"

Appearing with FCC panel, on date yet to be determined, will be chairman, general counsel, chief hearing examiner, technical staff chief, two private attorneys, and two officials from regulated industry. This panel will discuss all four problems. Second group of panelists, to follow six agencies, will devote two days to first and fourth problems.

Am-fm set gains aid Conelrad defense

Major breakthrough in am-fm receivers permitting low-cost sets that will respond to Conelrad attention signal automatically disclosed Friday (May 15) as all Florida radio stations started monitoring signals of Florida fm network. New technical developments, which FCC says are classified, make possible use of multiple fm communications channels along with am Conelrad stations during Conelrad alerts and weather emergencies.

Simple modifications of equipment are involved in fm transmission facilities. Florida fm hookup is backed by Florida Assn. of Broadcasters.

FCC, Atomic Energy Commission and Office of Civil & Defense Mobilization are testing many devices to provide audible warnings through radio receivers in case of fallout. RCA, for example, has geiger-counter device that feeds receiver audio circuit. Tracerlab and other firms also have devices. AEC and OCDM announced jointly Friday they have been testing radio-radiation detectors and will strongly recommend them to public if tests show they are satisfactory. They voiced hope successful devices can be developed at early date, since they would give public (1) broadcast information and civil defense instructions and (2) show presence of radioactive contamination.

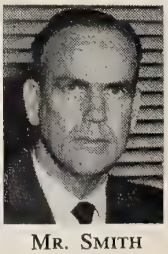
Monroney's kind word

Television programming's chief congressional critic took floor of Senate Friday (May 15) to praise planned network efforts, rather than condemn as has been case often in past (AT DEADLINE, April 27, et seq). "A few rays of light are shining through the gloom of television programming," Sen. Mike Monroney (D-Okla.) said in citing upcoming plans of CBS and NBC for public service programming in prime time. "All of us can take off our hats to NBC and CBS for such creative programming. . . ." Sen. Monroney has spearheaded Senate Commerce Committee investigation of rating services and Committee Chairman Warren Magnuson (D-Wash.) said Friday Oklahoman would conduct resumption of hearings, probably in mid-June.

• Business Briefly

• P. Lorillard Co., N.Y., through Lennen & Newell there, and General Foods Corp., White Plains, N.Y., through Benton & Bowles, N.Y., will co-sponsor new comedy-drama series, *Hennesey* over CBS-TV, starting Oct. 5 (Mon. 10-10:30 p.m.). Jackie Cooper will be star and co-producer.

WEEK'S HEADLINERS



MR. ANDERSON

HOWARD ANDERSON, central division sales manager of ABC Films in Chicago, named vp and supervisor of sales of company's New York headquarters. Mr. Anderson's successor will be RICHARD C. HURLEY, formerly Chicago city sales manager of ABC Films. Promotions are first phase of reorganization of domestic sales staff, said Henry G. Plitt, company president. Mr. Anderson joined ABC Films in 1954 as manager of Dallas office. Two years later he was transferred to Chicago as midwest sales manager. Mr. Hurley started with company in 1957 as account executive in Chicago. He will assume duties of both city sales manager and his new post until his successor is named.

MR. JOSEPH

MR. SMITH

MICHAEL T. JOSEPH and DANIEL H. SMITH appointed vp in charge of radio operations and vp and director of engineering, respectively, of Capital Cities Television Corp., radio-tv station ownership group. Mr. Joseph, previously program consultant, Avery-Knodel, has also served in various radio positions for Fetzer Broadcasting Co. and Founders Corp. He will supervise radio operations for Capital Cities at WROW Albany, N.Y., and WPRO Providence. Mr. Smith, electrical engineer since graduation from Virginia Polytechnic Institute in 1932, has been associated with Western Electric Co., WCHS-TV Portland, Me., WTVT (TV) Tampa, Fla., and WFLA-AM-TV Tampa. Prior to joining Capital Cities, he was manager of WEDU Tampa. Other Capital Cities stations are WTEN (TV) Albany, WTVD (TV) Raleigh-Durham and WPRO-TV Providence.

MR. CLARKE

C. B. (PETE) CLARKE JR., sales manager of WDGY Minneapolis-St. Paul, promoted to general manager, succeeding JACK THAYER, resigned. Mr. Clarke joined WDGY in 1956 when Storz stations bought Twin Cities outlet. He was previously with Scott Paper Co., Chester, Pa., and served at WTCN Minneapolis as account executive. Other Storz stations: WTIX New Orleans, WQAM Miami, WHB Kansas City and KOMA Oklahoma City.

ROBERT KESNER, assistant advertising manager of Coca-Cola Co., N.Y., moves to Lennen & Newell, N.Y., as senior vp and management account supervisor on Newport filter cigarettes. Mr. Kesner, wth Coca-Cola for ten years, was its radio-tv manager before being appointed assistant advertising manager.

***May 24-26—Assn. of Independent Metropolitan Stations,** Houston.

***May 24-26—Life Insurance Advertisers Assn.,** western roundtable, Ambassador Hotel, Los Angeles.

May 25—Testimony commences in FCC's study of use of spectrum in 25-890 mc region. Witnesses permitted to spend 15 minutes on position already stated in comments filed in March. Broadcast representatives bring up tail of witness list. Hearing is before FCC en banc. Docket 11,997.

***May 26—FCC Chairman John C. Doerfer** addresses Federal Communications Bar Assn. on extra-record material in rule-making cases. Willard Hotel, Washington.

May 27—Chicago Federated Adv. Club, 17th annual advertising awards contest dinner, Carson Pirie Scott & Co.

May 27—New Jersey Broadcasters Assn. spring meeting, Rutgers U. campus, Rutgers. Topics include single vs. multiple rate and station appraisals.

***May 29—**National Tv Repeater Assn., Denver.

May 29-31—Second Annual International Radio Programming Seminar and Pop Music Disc Jockey Convention, Americana Hotel, Miami, Fla. Speakers will include Matthew J. Culligan, NBC Radio executive vice president; Gordon McLendon, head of McLendon station group; NAB President Harold E. Fellows (keynoter) three station representative executives—John Blair, Robert Eastman and Adam Young. Storz stations are sponsoring seminar with Bill Stewart as convention coordinator.

JUNE

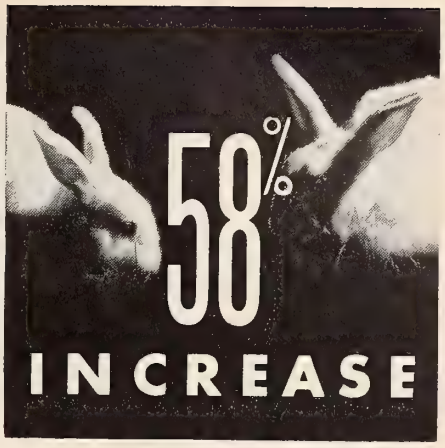
June 1-3—National microwave symposium, **Professional Group on Microwave Theory & Techniques, Boston Section,** Paine Hall, Harvard U., Cambridge, Mass.

June 2—Special NAB Tv Public Information Committee, formed to draw up national program, will hold first meeting in New York.

June 3-5—Armed Forces Communications & Electronics Assn., annual convention, Sheraton-Park Hotel, Washington, D.C.

June 4-6—Fm Multiplexing Seminar under auspices of WGH-FM Newport News, Va., Chamberlin Hotel, Old Point Comfort, Va. Agency panels on fm and its future are planned. Other topics—FCC multiplexing regulation; is multiplex a broadcast or nonbroadcast service; must background and store services be broadcast on a subchannel only; music licensing fees; stereo; fm sales prospects; fm promotion. Dan Hydrick Jr., WGH-FM general manager, is in charge of planning.

June 4-6—First meeting of new **FM Assn. of Broadcasters,** Chamberlin Hotel, Old Point Comfort, Va. Association was formed during NAB convention last March, supplanting FM Development Assn.



June 5—NAB Tv-Music Advisory Committee, NAB hdqrs., Washington.

***June 6—UPI Broadcasters of Wisconsin,** Milwaukee.

June 7-9—North Carolina Assn. of Broadcasters, Morehead Biltmore Hotel, Morehead City.

***June 7-9—American Women in Radio & Television,** board of directors meeting, Statler Hilton Hotel, Washington.

June 7-10—Advertising Federation of America, annual convention, Hotel Leamington, Minneapolis. An advertising "situation report" will feature Jean Wade Rindlaub, BBDO vice president; Fairfax M. Cone, chairman of Foote, Cone & Belding, and Sen. Hubert H. Humphrey (D-Minn.). Public service awards will be presented. Other speakers: David Susskind, executive vice president of Talent Assoc.; Mitch Miller, Columbia Records; James

IN CINCINNATI METROPOLITAN AUDIENCE IN

ONE YEAR

Jan.-Feb. '58 avg. ¼ hr. rating 3.0
Jan.-Feb. '59 avg. ¼ hr. rating 4.7
6 AM - 6 PM, Mon. - Fri.

AND WCKY gives you a larger percentage of women buyers than any other Cincinnati station. Compare the percentage of women in WCKY's audience to the other Cincinnati stations. These figures are from the latest Nielsen Report (Jan.-Feb. 1959):

Station	Women	Men	Teen-agers and Children
WCKY	68%	14%	17%
Sta. A - Ind.	51%	20%	29%
Sta. B - Net	61%	22%	17%
Sta. C - Net	66%	20%	14%
Sta. D - Ind.	43%	8%	45%

MORE AUDIENCE and MORE BUYERS mean MORE SALES

Let us show you how we can sell your product or service on WCKY. Call CHerry 1-6565 in Cincinnati; in New York, call Tom Welstead, EL 5-1127; in Chicago and on the West Coast, call AM Radio Sales.

Cincinnati, Ohio

S. Fish, General Mills, presiding at the awards luncheon; John J. Ryan, AFA counsel.

June 8-9—Panel on spectrum allocations before Communications Subcommittee of House Commerce Committee.

*June 12—NAB Tv Code Review Board, NAB hdqrs., Washington.

*June 12—Pennsylvania AP Broadcasters, Pittsburgh.

June 12-16—National Federation of Advertising Agencies, annual convention, Chatham Bars Inn, Chatham, Mass.

*June 13—UPI Broadcasters Assn. of Connecticut, Sun Valley Acres, Meriden.

June 13—UPI Broadcasters of Pennsylvania, Penn-Harris Hotel, Harrisburg. Gov. David L. Lawrence, principal speaker.

June 13-14—UPI Broadcasters Assn. of Texas, annual meeting, Hilton Hotel, San Antonio.

June 13-14—Louisiana-Mississippi AP Broadcasters Assn. Jacksonian Motel, Jackson, Miss.

June 14-17—National Industrial Advertisers Assn., national convention, Fairmont and Mark Hopkins Hotels, San Francisco.

June 15-16—Tv medical symposium, Naval Medical Center, Bethesda, Md., for armed forces and medical schools. On agenda: Color microscopy, medical and dental tv systems; tv cameras; tv distribution; projectors; lighting; recording; tv costs and planning.

Junt 15-19—NAB Combined Boards of Directors, NAB hdqrs., Washington. Committee meetings and indoctrination of new directors June 15-16; Tv Board June 17; Radio Board June 18; joint boards, June 19.

June 15-26—Summer workshop for communications librarians, Syracuse U. School of Journalism and School of Library Science, Syracuse, N.Y.

June 17-19—American Marketing Assn., national conference, Hotel Statler, Cleveland.

*June 17-19—Virginia Assn. of Broadcasters, Tides Inn, Irvington.

*June 17-19—Catholic Broadcasters Assn., Pick Fort Shelby Hotel, Detroit.

June 17-20—National Assn. of Radio-Television Farm Directors convention, Hotel Statler, New York.

June 18—Maryland-D.C. Broadcasters Assn., Stephen Decatur Hotel, Ocean City, Md.

June 18-20—Florida Assn. of Broadcasters convention, DuPont Plaza Hotel, Miami.

June 18-21—Pet Milk's second annual Grand Ole Opry talent contest finals, Dinkler Andrew Jackson Hotel, Nashville, Tenn. Participating in event, now building up at local station level, are WSM that city, Keystone Broadcasting System and its affiliates and Gardner Adv. Co., Pet Milk agency. Station managers may compete for promotion prizes and for all expense-paid trips to Nashville.

*June 19—Rhode Island Broadcasters Assn., Viking Hotel, Newport.

*June 21-22—Colorado Broadcasters & Telecasters Assn., Colorado Hotel, Glenwood Springs. Howard Bell, NAB assistant to the president, will speak.

*June 22—Comments due on FCC proposal to revise television network rules including cutting down on option time, counting straddle programs as option time entirely, etc. Commission requests that comments also refer to same revisions in radio network rules. Docket 12,859.

*June 22-26—First Advertising Agency Group, annual conference, Belmont Hotel, Cape Cod, Mass.

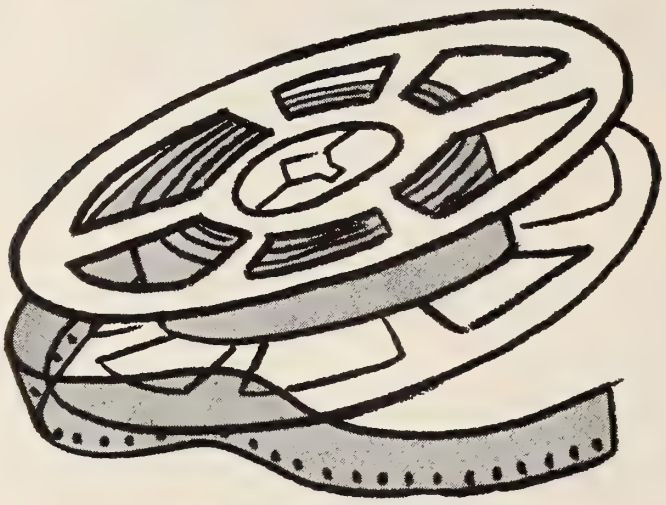
June 22-Aug. 15—Summer Radio-Tv Institute,

WHO'S BURIED IN LENIN'S TOMB?

The quick answer is Lenin. The complete answer is Lenin and Stalin! Just a detail? Possibly—but it points up how misleading news can be in capsule form. Most folks want all the details, all the facts—not mere headline reporting. They get it on WJR.

Nine times daily, WJR newscasters will take the air for detailed 15-minute reports; twice every evening there are quarter-hour news commentaries. Other programs, such as interviews with the people who make news, probe the significance of current events. Listeners appreciate this—as one writes: "The newscasters of WJR fill in the background information that gives news more meaning."

Accurate, honest and complete news coverage is just another reason why advertising on WJR reaches the most people with the most money, most often. Check your advertising manager, agency or Henry I. Christal representative for all the facts on WJR, the dominant station in the fifth richest market in America.



WJR's primary coverage area—over 17,000,000 people.

WCSH-TV 6

NBC Affiliate Portland, Maine

Why a bigger more receptive audience?

(one answer is on that film)

WCSH-TV has pioneered in bringing legislative action from the state capitol to its viewers. It has initiated sound-on-film coverage from both houses in the current session, and has been mainly responsible for easing traditional barriers against photo coverage.

"News on 6" was FIRST with -

Sound-on-film of the senate.
Sound-on-film of house debate.
Film coverage of Governor and Executive Council in session.
Sound-on-film of an important legislative committee hearing.

Legislator reaction has been favorable. Frequently heard comment: "I didn't know it could be done with so little fuss."

Viewer reaction has been more than favorable. Well known fact: "If you want to know what happened in Augusta today, see it on Six."

Your Weed TV man has five straight years of surveys that similarly show you get a bigger, more receptive audience on Six.

A MAINE BROADCASTING SYSTEM STATION

WCSH-TV—(6), Portland
WLBZ-TV—(2), Bangor
WCSH-Radio, Portland
WLBZ-Radio, Bangor
WRDO-Radio, Augusta

A matching schedule on ch. 2 in Bangor saves an *extra 5%*.

Stanford U., Stanford, Calif. George A. Willey, director.

*June 23-25—National Community Television Assn., Sheraton Hotel, Philadelphia.

*June 23-Aug. 1—Broadcasting Symposium, Northwestern U. Radio-Tv-Film Dept., Evanston, Ill. Speakers include FCC Chairman John C. Doerfer, Hugh M. Beville Jr., NBC; Gilbert Seldes, Saturday Review; John O'Brien, Voice of America; Eric Barnouw, Columbia U.

*June 28-29—South Carolina Broadcasters Assn., William Hilton Motel, Hilton Head Island, summer convention.

June 28-July 2—Advertising Assn. of the West, annual convention, Tahoe Tavern, Tahoe City, Calif.

*June 28-July 4—National Advertising Agency Network, management conference, Del Monte Lodge, Pebble Beach, Calif.

*June 29-July 1—Military electronics convention sponsored by Professional Group on Military Electronics of Institute of Radio Engineers, Sheraton Park Hotel, Washington. Space propulsion, space electronics, radar, missile guidance, computers and related topics will be discussed.

JULY-NOVEMBER

*July 5-11—Advertising Federation of America management seminar in advertising and marketing, Harvard Business School, Cambridge, Mass. Speakers to include Dr. Frank Stanton, CBS president.

July 5-17—NAB Management Development Seminar, Harvard Graduate School of Business Adm., Cambridge, Mass. Designed to give station management principles and analytic techniques involved in the executive job.

*July 14-15—Idaho Broadcasters Assn., Shore Lodge, McCall.

*Aug. 18-21—Western Electronic Show & Convention (Wescon), Cow Palace, San Francisco.

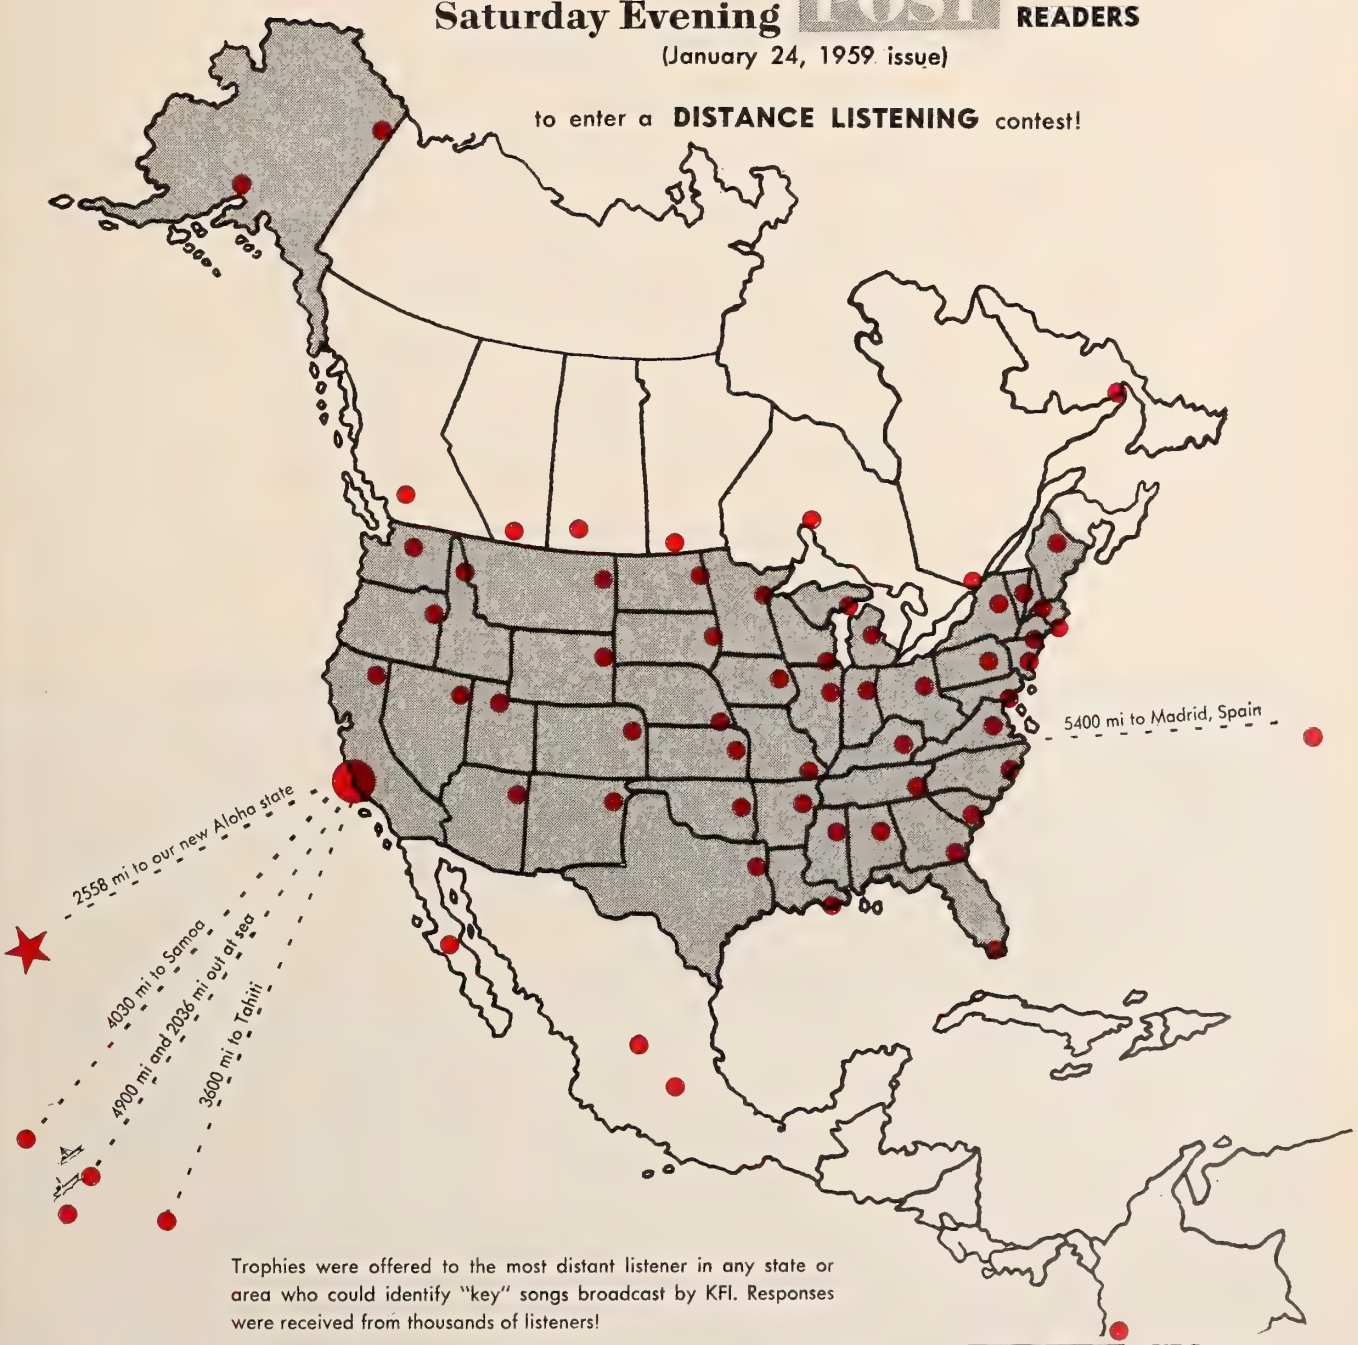
Oct. 6-7—Electronic Industries Assn., value engineering symposium, U. of Pennsylvania. Virgil M. Graham, associate director; R. S. Mandelkorn, Lansdale Tube Co., general chairman.

*Oct. 7-9—Institute of Radio Engineers Canadian Convention, Toronto, Canada.



*Oct. 12-14—National Electronics Conference, 15th annual meeting and exhibit at Hotel Sherman, Chicago, with expectancy of 10,000 attendance and some 266 display booths. Sessions will be held on antennas and propagation, audio, circuit theory, communications systems, computers, microwaves, space electronics, television, transistors, and communication and navigation, among other topics.

KFI ASKED

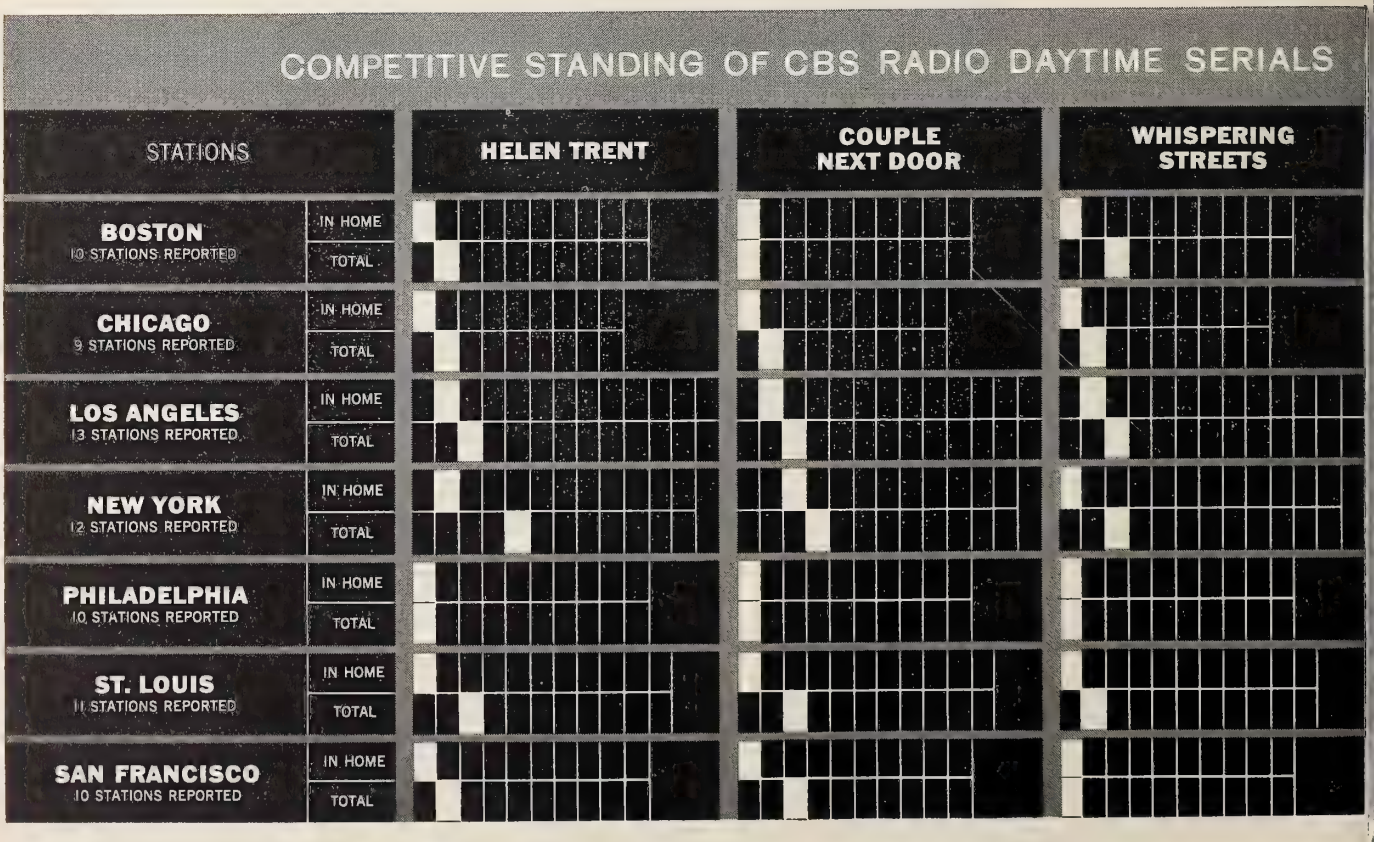
Saturday Evening POST READERS

(January 24, 1959 issue)

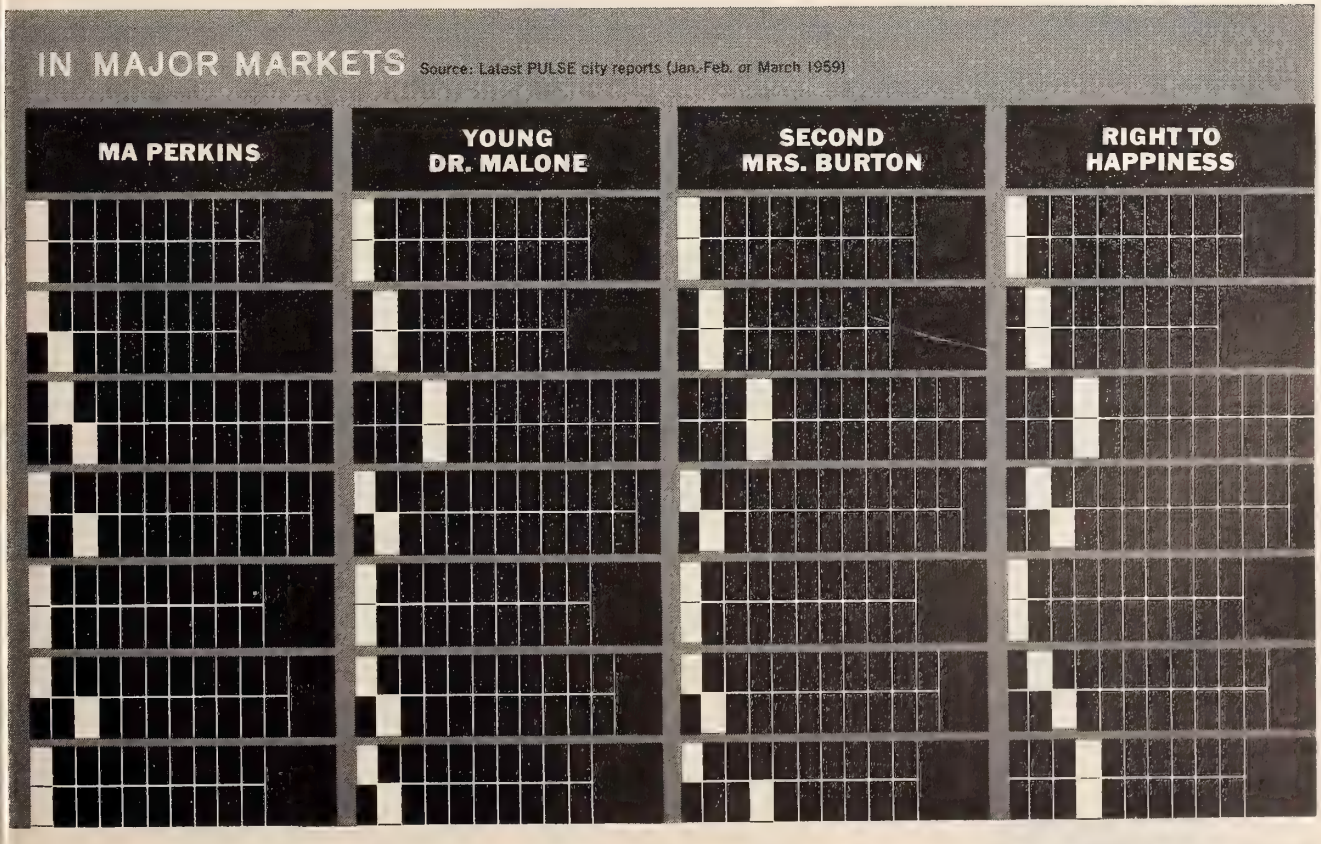
to enter a **DISTANCE LISTENING** contest!

Trophies were offered to the most distant listener in any state or area who could identify "key" songs broadcast by KFI. Responses were received from thousands of listeners!

The winners, represented by red dots, responded from 49 states, 6 provinces of Canada and many foreign countries! Yes, wherever you may be, chances are you can hear California's "covering" station — KFI!



P.S. It's interesting to note that while only the farthermost county in California could be a winner, we heard from every one of the 58 counties! *THIS* IS THE COVERAGE WE WANT YOU TO KNOW ABOUT!



KFI NBC for Los Angeles

50,000 WATT CLEAR CHANNEL

Earle C. Anthony Inc.

This chart is THE MOST telling demonstration we have found of the audience sweep of CBS Radio Network daytime drama. The significance is very clear when programs score so high–in 7 of the toughest (and most sophisticated) markets in the U.S. And it goes on year in and year out. It must be that housewives really want these programs. These are the facts.

THE CBS RADIO NETWORK

36% UP

Nothing succeeds like selling for one's advertisers . . . the big reason why KNX Radio's first quarter local sales have shot up a full 36% over the same quarter last year! (And first quarter '58 was 12% over the same '57 period!) Good broadcasting means good business. More than ever, KNX is Southern California's leading radio station — in quality programming, attentive audiences — and in commercial ***success!***

KNX CBS RADIO LOS ANGELES

REPRESENTED BY CBS RADIO SPOT SALES

MONDAY MEMO

from **IRWIN ZLOWE,** *president, The Zlowe Co., New York*

Market selectivity puts punch in spot

We consider the media department as a key member of our creative team because spot timebuying cannot be reduced to a formula. The challenge is as varied as each product with its own set of marketing problems. Only if the timebuyer is closely involved in the total marketing and advertising strategy can you plan spot schedules intelligently.

The diversity of accounts in our agency does not allow for any rut. The marketing and merchandising concepts for one client bear little resemblance to those for the rest, other than the basic concept of selling more goods. It is imperative that the timebuyer get into the early planning stages to understand fully each client's marketing aims. Only then can the timebuyer do more than a routine job.

For example, we have two noncompetitive clients in one field. Both have national distribution, yet for Client A we buy primarily regional or local media. Are we neglecting the national for budgetary reasons? That's only a fraction of the answer. Other factors include the sales strategy and the competitive situation. Chipping away at one market at a time has produced continuing increase in sales, while larger competitors with more lavish budgets have declined.

Planning a spot radio campaign for a cosmetic firm whose budget was extremely limited necessitated a good deal of soul-searching. We could not hope to compete with the cosmetics giants on television. The media department reasoned that our client could dominate radio in this large market. Since the visual could not be neglected, strong ads, using the copy theme of the radio commercials, were placed in newspaper Sunday supplements.

Quantity or Quality? • Media had to decide whether package deals with a profusion of spots would best serve the client or whether fewer carefully selected time spots at a premium rate would do a better job. Since all women are interested in cosmetics, the media director had to know what segment of the female audience represented the best potential customers for our client's line of products.

A selection of spots on programs conducted by well known radio personalities was carefully chosen. Live commercials delivered by these people added to the authenticity and genuineness of soft sell copy. The message was believable and it sold merchandise. The media buyer's recommendation for fewer but select spots paid off.

Perhaps the most challenging product to launch was in the food field. There was no sizeable capital investment set aside for promotion. The total budget depended entirely upon percentage of sales volume. Here budget growth was contingent upon sales growth. Broadcast media offered the flexibility required with sales progress. The start more than 15 years ago represented a very modest appropriation. With the concept of proceeding "from the known to the unknown," the first audience we tried to reach were the health- and food-conscious people who would be receptive to the distinctive characteristics of the product. The next audience we sought was comprised of sophisticated, well-traveled people who were more venturesome in their eating.

Time to Change • Then the pattern had to change to meet the challenge for growth. A tv spot campaign on independent stations was within budget reach of the client and 60 second spots were plentiful then. The filmed commercials were designed primarily to break down consumer resistance to the product itself. People in all walks of life, in all age groups were shown eating the various forms of the product.

Irwin Zlowe b. Hartford, Conn., and was graduated from school of arts and pure sciences of New York U. 1930. His first job after college was as salesman for Women's Wear Daily. *He started his own agency in 1936 and has been in business continuously since then, except for two years during World War II when he served in the European theatre as a sergeant with the 12th Army Group. As a medium-sized agency, Zlowe Co. is proud that two accounts have continued with the agency for over 23 years and eight have been with the company more than 10 years.*

We broadened our audience by the use of spot packages on network tv stations. Here, however, the budget limited us to daytime and fringe time only.

But however good the sales picture, it was obvious that there still existed a major portion of consumers who had resisted trying the product.

Consumer Education • We learned that an education job was still to be done among adults. For this broader coverage, nighttime tv could have provided the large audience, but budget limitations and lack of good minute availabilities precluded this.

In turning to radio, we set very basic criteria for our spot buys. Since our commercials were designed to appeal to the mature, we sought spots where the radio audience is listening as attentively as possible. The answer seemed to lie in newscasts and adjacencies. We favored the frequency of impressions at a given time rather than using saturation on any one station.

It is obvious that this was not the cheapest method of buying spot radio. If we were merely pursuing the cost-per-thousand gambit, it would have been discarded pronto. Fortunately, the client's awareness of our tailoring the schedule to the entire promotional stategy made the success of this campaign a rewarding one for everybody.

Teen-Age Audience • Reaching a teen-age audience offers problems of its own. It often seems that there are seven commercials in a fifteen minute segment of radio broadcasting by teen-age idols. To select the time period is not as difficult as tailoring the commercial. It must not talk down or over the heads of your audience. It must compete with the chatter of the disc jockey and numerous competing commercials. To do a sound job for a client, the media buyer needs the able assistance of the researcher and the copy department.

The hundreds of jingles heard on the air tend to blend into the hundreds of songs played and sung on most radio stations. We have used jingles successfully but frequently resort to quiet, believable sell. Such commercials should be spotted carefully. Media must watch adjacencies.

The key word in time buying at Zlowe is flexibility. A rigid buying pattern limits the product's potential, weakens a major pillar in the over-all promotional effort.

'Tinkering with time'

EDITOR:

Thank you ever so much for your most excellent appraisal of the daytimers' case in your editorial "Tinkering with time" (page 118, May 11).

F. C. Sowell
WLAC Nashville, Tenn.

EDITOR:

We wish to vigorously protest your editorial "Tinkering with time" . . .

Your thinking is solely concerned with engineering standards laid down in 1934 and completely ignores the most important phase of broadcasting: namely, programming. . . .

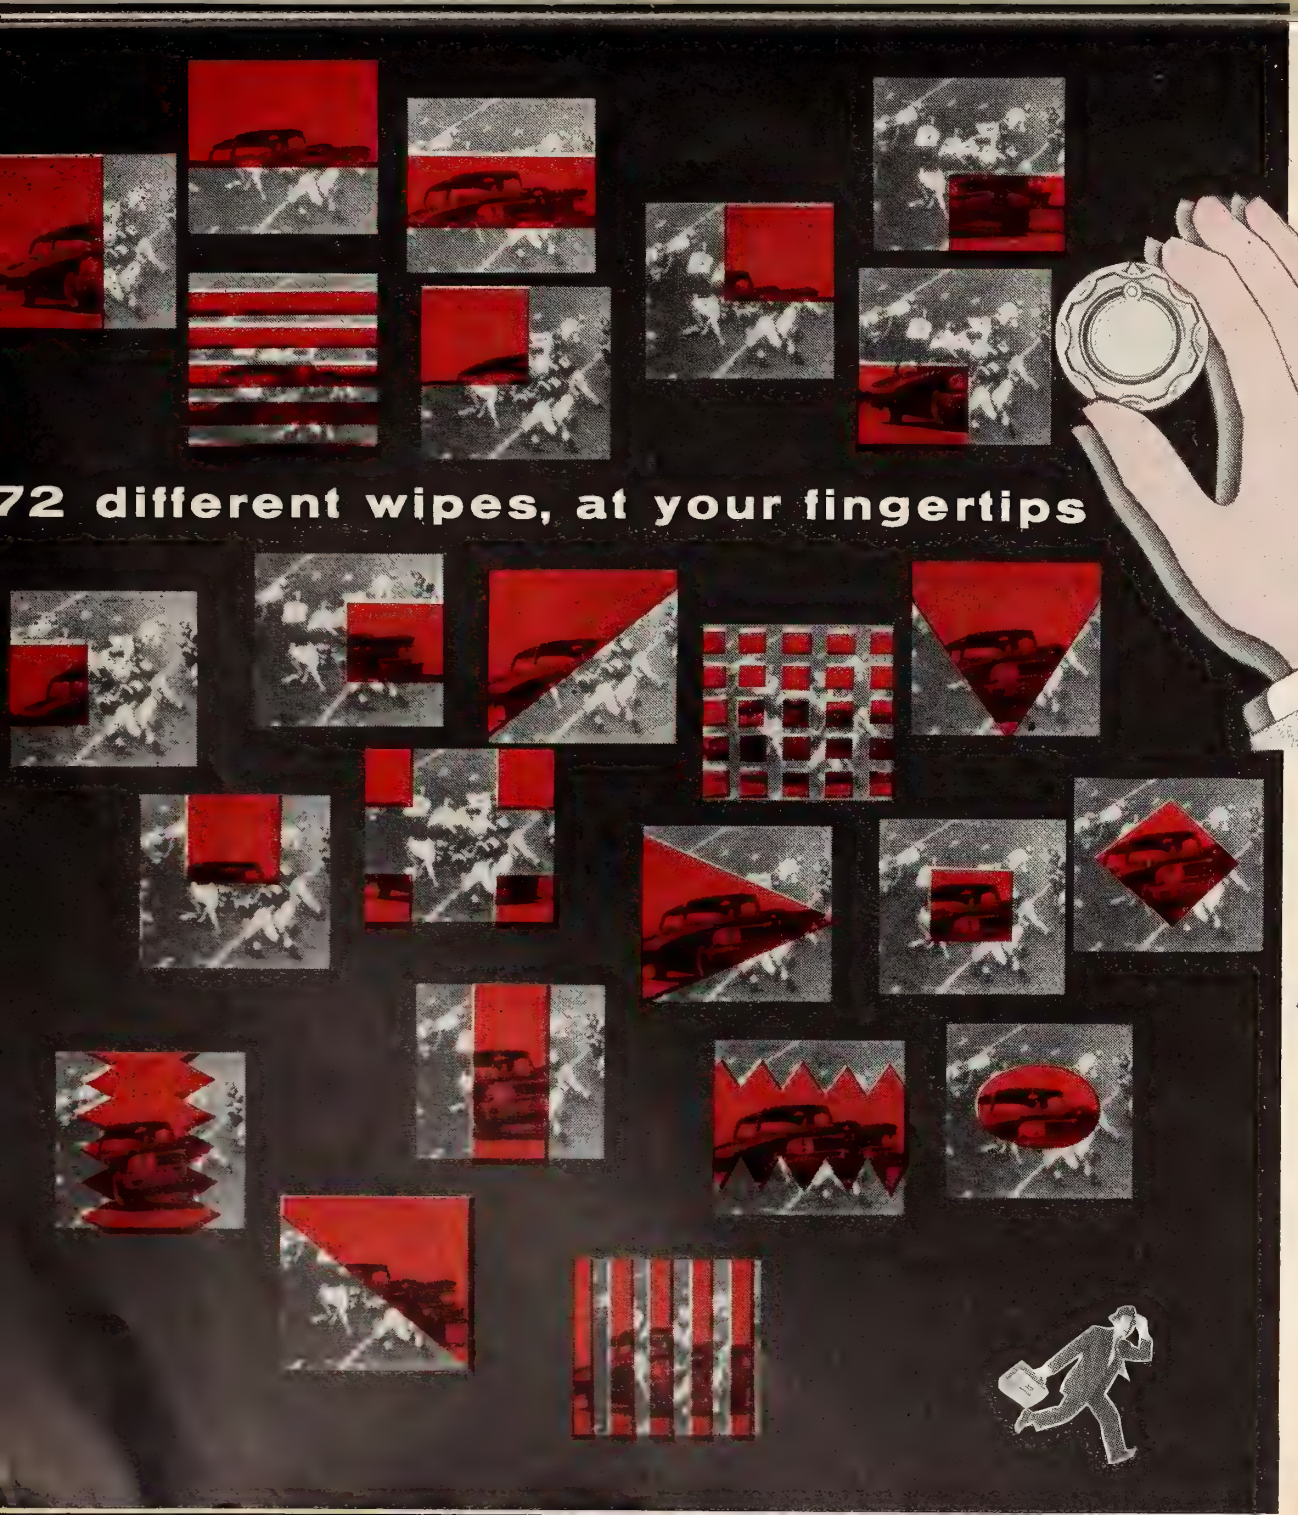
There is nothing sacro-sanct about rules that deprive over 1,200 "second class" communities of service they badly need in favor of entrenched frequencies owned for the most part by big-town newspapers, networks and equipment manufacturers many of whom use their high power to broadcast programs of purely local interest. . . . Perhaps the FCC should look into the matter of the waste of the broadcast spectrum by stations using high power to broadcast programs of local interest.

The ten year delay by the Commission in even considering the matter of the daytimers indicates that the members of that "august" body heed the mandate of the big interests and ignore the pleas of the small fry. . . .

George C. Udry
WSIV Pekin, Ill.

No more 'pay' discs

EDITOR:



. . . We are discontinuing the airing of recordings not furnished to our station free by record manufacturing companies. This has been a problem for quite some time with stations not blessed with being in a 100,000-population city and this is no bluff with us. We would like to call upon other operators in the same position to do the same thing we are doing.

Clarence Jones
WBPD Orangeburg, S.C.

Telechrome brings to TV broadcasters a vastly improved system for producing a wide variety of dramatic wipes, inserts, keying and other special effects. The superb engineering of the Telechrome Special Effects System provides outstanding reliability and technical performance when used for either color or monochrome TV. Simplicity of pattern selection and wipe speed is provided by manual switches on the remote control unit.

- Unusual compactness and portability make possible the creation of special effects even in field locations.
- Simplest to operate. All 72 wipes available at all times.
- Stabilized black balance between pictures. Millimicrosecond transition time eliminates edge effects.
- Additional camera input allows keying from camera signal.
- Its versatility permits use in live, video-tape or film programming.

MAY IS NATIONAL RADIO MONTH

A lawyer without his copy of Blackstone is a little like a trombone player without a trombone. For Sir William Blackstone's famous "Commentaries on the Laws of England" has been **the** standard legal reference and textbook in its field for generations. Radio and TV are much newer than jurisprudence — but in their field, too, a recognized authority has emerged as the standard source of information. **BROADCASTING YEARBOOK** is read each year (and saved **all** year) by thousands of people whose jobs in broadcast advertising demand a ready, accurate source of TV-radio facts. The 1959 **BROADCASTING YEARBOOK** — out in August — will give some 16,000 of them the most comprehensive round-up on the dimensions of today's broadcast media. If **you** have something to tell the decision-makers, **BROADCASTING YEARBOOK** is the place to testify on your own behalf. Witness the deadlines: July 1 for proofs; July 15, final. **Call or wire collect to reserve space!**

Sun. thru Sat.				
6 p.m.-9 p.m.	148,700	95,500	60.8%	39.2%
9 p.m.-Midnight	134,300	68,900	66%	34%

WKZO-TV reaches far more homes than any other station in the Kalamazoo-Grand Rapids area. The recent NSI Survey proves it (see left)—also shows that *WKZO-TV leads Station "B" nearly 6-to-1 in quarter hours surveyed!*

Further—the Kalamazoo-Grand Rapids 9-county ARB Survey (Jan. 12-Feb. 8, 1959) covering 300,000 TV homes, gives WKZO-TV first place in 60.6% of all quarter hours measured!

Remember—if you want all the rest of outstate Michigan worth having, add WWTV, Cadillac to your WKZO-TV schedule.

**World's most valuable stamp is the British Guiana 1c black on magenta dated 1856, which is insured for $100,000.*

Because she has championed their cause so brilliantly, lots more youngsters of today will be college-bound in years to come. This is the sentiment expressed in McCall Magazine's "Golden Mike" award to WRC Radio's Patti Cavin. On her regular WRC Radio program, "Capital Byline," Patti embarked on a crusade, "Deadline, 1970," to create an awareness of the student's plight in 1970—when he stands only a 50-50 chance of college attendance because of teacher and facilities shortages. Mrs. Cavin toured every campus in the Washington area to add first-hand facts to her program. Many educational, business and congressional leaders participated, and when her vigorous compaign was concluded, grateful educators praised her "outstanding contribution to community life." "Deadline, 1970" was one month long, but its after-effects will be felt for years as the Washington area, and the nation, work to prepare for the educational needs of the future. Cheers to Patti Cavin, she's the sweetheart of WRC, too!

DO-IT-YOURSELF SYNDICATION

- **Demand for tv product is creating a new program source**
- **Stations are producing their own shows for sale to others**
- **Aim is to get good shows with chance of recovering cost**

The average U.S. tv station is on the air something over 100 hours every week. Take into account over 500 stations and it comes to over 50,000 hours. As the operators of those stations will tell you, that's a lot of time to fill.

The search for audience-attracting programs to fill it is never-ending.

Station executives have dealt in the past with many sources, the three largest being the tv networks, the independent producers and syndicators of film series and the libraries of Hollywood movies.

Now a fourth element is emerging—the station-produced series, run locally and then offered in syndication to others. As in the case of other program sources, most have sprung up from New York and Hollywood. As would be expected, most of the producing stations are independents.

Spurring this development is videotape, which has enabled tv operators to produce and capture in permanent form, at relatively low cost, a variety of programs made in the medium with which they have most experience—live tv. KTTV (TV), KCOP (TV), KTLA (TV) and KHJ-TV in Los Angeles, WNTA-TV in New York and the New York headquartered Westinghouse Broadcasting Co. have all started videotape ventures. A notable exception to the tape trend is WPIX (TV) New York, one of the most successful in the home-grown programming department, which is syndicating on film.

The Motives • While the programs and the techniques used by these new program enterpreneurs differ, their "reason why" is the same. They need the shows themselves, and the extra syndication mileage enables them to produce more elaborate shows than could be supported on a purely local budget. And if in the process they can make still extra money, so much the better.

By volume alone, WNTA-TV New York and KTLA (TV) Los Angeles appear to be the pacesetters. Through parent National Telefilm Assoc. WNTA already has offered or is preparing five of its local shows for syndication. KTLA has six to sell this fall.

From the standpoint of longevity KTTV (TV) claims honors with its *Divorce Court*, which went into syn-

Longest run • *Divorce Court*, originated by KTTV (TV) Los Angeles, has been in syndication longer than any other station property now on the market. It was put into distribution through Guild Films last August. This series is typical of most of the station offerings now in syndication. It is produced with live technique (see live tv cameras at left) and recorded on tv tape. Widespread distribution of tv tape recorders among television stations has encouraged stations originating shows to syndicate them by tape instead of film.

Biggest seller • "The Russian Revolution," a film documentary produced by WPIX (TV) New York, so far holds the record for syndicated sales. It was bought by 36 stations. Picture above is frame from old film clip in the program and shows Lenin addressing followers. Another WPIX production, "Cold War—Berlin Crisis," also a one-hour documentary assembled from film clips, has just been offered by the station and is already sold in 20 markets.

dication last August. From the standpoint of sales, WPIX has gained the longest station lists with its one-shot "Russian Revolution" (36 stations) and "Cold War—Berlin Crisis" (20 stations).

Getting Them Around • When it comes to selling and distributing these program series, there are several variations. Some, like WPIX, do it themselves. Others, like WNTA-TV and KCOP (TV), rely on an established distributor (NTA and Guild Films, respectively). There are advantages and disadvantages to each of these arrangements, the big advantage in doing-it-themselves being that they don't have to cut an outside distributor in on the profits. It is generally estimated that a distributor will take a 30-40% cut of gross receipts for his part in moving a series.

The stations that have been most active in this new programming area, and the work they've done in it, are detailed below.

NTA Activity • The most ambitious tape production-distribution blueprint in the east has been sketched by National Telefilm Assoc., parent of WNTA-TV New York and KMSP-TV Minneapolis, which is using the resources of various of its units in "Operation Tape."

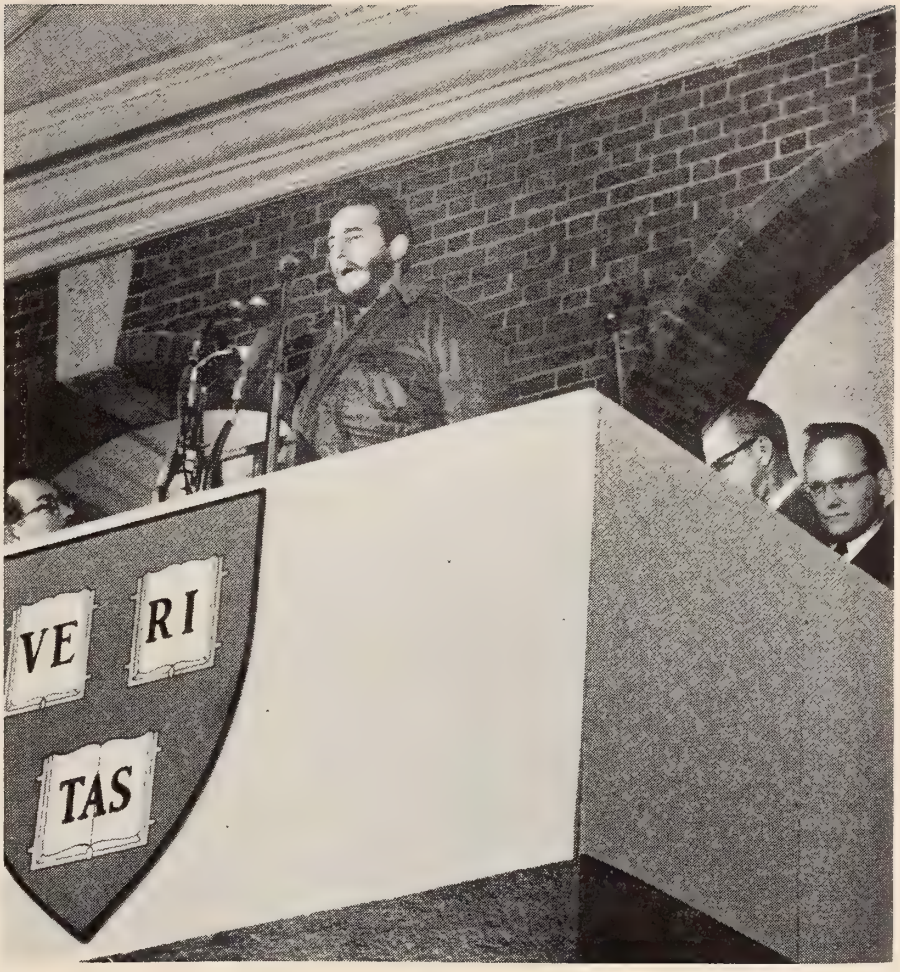
NTA Productions produces programs for distribution by NTA Program Sales, and using the facilities of NTA Telestudios, WNTA-TV serves as the showcase for initial exposures of the video-taped offerings. On occasions the station buys an outside package, or the distribution arm takes on a taped series produced outside its orbit, and, in one instance, an outside producer uses Telestudios' facilities and NTA program sales' services.

NTA's activity is in various stages of development. WNTA-TV has been carrying the following taped programs: *Peter Potter's Juke Box Jury, Bishop Sheen Show, Alex in Wonderland, Open End, Henry Morgan & Company, Mike Wallace Interview, One Night Stand* and *Jai Alai.*

The programs that are "wholly NTA" include all but Mike Wallace, Peter Potter and *Jai Alai.* Newsmaker Productions owns *Mike Wallace Interview,* which is taped at NTA Telestudios and is syndicated by NTA Program Sales. KTTV (TV) Los Angeles produces *Juke Box Jury* in conjunction with Mr. Potter for distribution by NTA Program Sales, and *Jai Alai* comes out of XETV (TV) Tijuana (see below).

The sales chalked up by NTA on tape shows thus far have been restricted to *Juke Box Jury,* sold in 12 markets, and *Bishop Sheen,* in seven markets. Spokesmen say they now will "make a push" for sales on *Open End, One Night Stand, Alex in Wonderland* and *Mike Wallace Interview.* One-, two- and three-hour versions of *Open End* will be offered.

On the production side, two half-hour programs are in preparation, *Xavier Cugat Show* and *Mel Allen Show.* In addition, NTA has plans—not crystallized—for producing specials, including variety shows, that would range one hour or more in length.

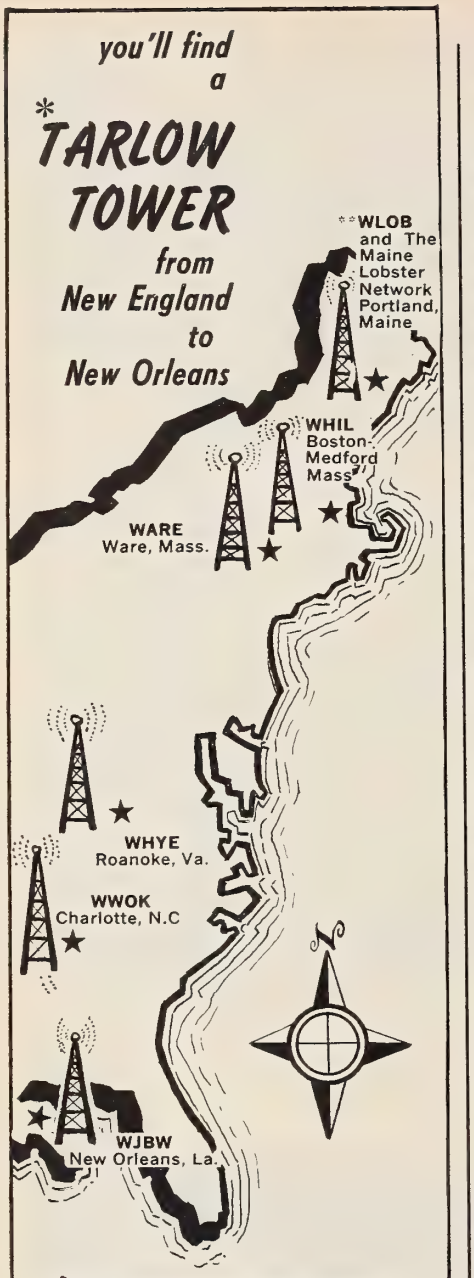


Michael M. Sillerman, president of NTA Program Sales, explained the company's concentration on video-tape activity by saying: "We know there is a market for certain types of programming on tape. We hope to fill the need for quality shows that can compete favorably with other types of programs.

Through syndication, we hope to recoup some of the investment we make in programs we produce for initial showing on our stations. And we feel tape can develop into a profitable business."

Westinghouse Activity • Westinghouse broadcasting's major station group is also in the syndication field, but principally in the areas of "public service" programming. The two main guns in its arsenal are *Youth Wants to Know* and *American Forum of the Air*, both veterans of network programming (and both produced by Theodore Granik).

WBC's first interest in these programs is for its owned stations, WBZ-TV Boston, KYW-TV Cleveland, KPIX (TV) San Francisco, KDKA-TV Pittsburgh and WJZ-TV Baltimore. Ironically, neither *Youth* nor *Forum* is produced at an O&O, but rather, because their participants are most often in either New York or Washington, both are taped at WNEW-TV New York and WTTG (TV) Washington, both owned by Metropolitan Broadcasting. *Youth Wants to Know* also has been sold to four tv stations outside the Westinghouse complex.



Richard M. Pack, WBC's vice president for programming, says that "fundamentally, WBC is not in the syndication business" at all. He points out that WBC has offered several series free to educational stations and institutions, including the previously produced *Adventures in Numbers and Space* and *Benny (Goodman) in Brussels* programs. *Adventures* has also been offered

Information series • Westinghouse Broadcasting is syndicating weekly *Youth Wants to Know*. When Fidel Castro spoke to students at Harvard (above), Westinghouse taped him to replace regular *Youth* format. Usually panel of youngsters questions public figures on program.

Biggest inventory • National Telefilm Assoc. is syndicating five shows that originate on its WNTA-TV New York—the biggest single block of syndicated programs now on the market from any station. One of the shows is *Open End*, a talk program featuring David Susskind, tv producer (at far left in group above). Others in this picture are (l to r) Peter Glenville, a theatrical director, Margaret Leighton, actress, and Kenneth Tynan, theatre critic for the *New Yorker* magazine. In addition, NTA is syndicating shows originating in other stations.

to commercial stations on a "nominal cost" basis.

Activity at WPIX • In New York City, still another solution to the programming problem has been worked out by WPIX (TV), an independent which competes not only with three network affiliates but also with three other independents. Its answer: the one-shot, do-it-yourself documentary, designed to build audience and prestige for WPIX and, in the process, make a buck or two.

Fred Thrower, general manager of WPIX, can show you how well it's worked by pointing to (1) the ratings, (2) the stacks of audience mail in the corner of his office, and (3) the orders from other stations across the country which are in line to buy future WPIX-produced documentaries on a "sight unseen" basis.

It all started something over a year ago when Mr. Thrower and his programing chiefs went into a huddle for a new way to put life into the programming schedule. Walter Engels, news and program manager, and William Cooper, film manager, were eager to tackle an ambitious project. Mr. Engels, a longtime newsman (he covered the Hauptman kidnap trial for the *New York Daily News*), knew there was a wealth of program material in 20th century history, and Mr. Cooper knew there were miles of yet-unpublished film lying around waiting for someone to find them. Out of all their ideas came "The Russian Revolution," a one-hour history of the years "from Czar Nicholas II to Lenin."

Mr. Thrower told them to shoot the works. They did, scouring libraries, tracing both wild and fruitful tips, gathering thousands of feet of film never before seen in this country. They spliced, cut, hired writers to do the accompanying script, composers to supply musical background, Westbrook *(March of Time)* Van Voorhis to do the narration. Their finished product went on the air in New York April 1 last year—and pulled in a 25.8 ARB, 4,000 pieces of mail (nearly all asking for a repeat performance) and, eventually, orders from 36 other stations which wanted to buy the program.

The viewers who wanted to see it again got their chance on Jan. 20 this year—this time sponsored by Savarin coffee (the first telecast was sustaining). Rating for the repeat was 13.1 Arbitron, and again mail was heartening.

By this time the WPIX team was back on overtime with other projects. Their second—"The Secret Life of Adolf Hitler"—was nearly ready to be released, and preparations were well along on "The Evita Peron Story." But Khrushchev's ultimatum on Berlin intervened, and Mr. Thrower called for a quick shift in signals to prepare a timely summary of the events that led up to today's front page story. Result: 11 stations bought "Cold War—Berlin Crisis" within four hours after WPIX announced its availability, and some (WTVJ [TV] Miami, was the first) beat WPIX in putting it on the air. At the last count 20 stations had ordered it, largely unsolicited.

Fred Thrower had a sleeping giant on his hands. What had started out as a purely local effort, largely promotional, was rapidly becoming a commercial success. (He figures 35 other stations have to buy one of the documentaries before it can break even.) Even now, however, there's no elaborate syndication organization involved—he does most of the selling himself, by phone, on an "in addition to" basis.

Activity at KTTV • One of the first stations to install tv tape machines and one of the first to use them to prepare local programs for syndication, KTTV (TV) Los Angeles currently has three shows on the road via video-tape.

First to leave the home nest and strike out into the world was *Divorce Court* which was placed with Guild Films last August. Today, nine months later, this hour-long courtroom series is on the air in 19 cities, for the station and giving KTTV "profits in six figures," Robert Breckner, program vice president, reported at the station's second vtr clinic. (BROADCASTING, May 4).

Months elapsed before the second KTTV program was put into syndication, *Peter Potter's Juke Box Jury*, with NTA as the distributor. This series, like *Divorce Court* a weekly hour-long program, is now being seen in 14 markets. Last month, KTTV put tapes of its half-hour, five-a-week Paul Coates feature-story interview type program on the market, this time handling the syndication itself. Mr. Breckner and Dick Woollen, film director, have made road trips, producing sales in four markets and "avid interest in at least a dozen others where station operators want the program but haven't yet been able to clear time for a half hour series five nights a week," Richard A. Moore, KTTV president and general manager, told BROADCASTING.

Plans for syndicating the Paul Coates programs have been in the works since last fall, Mr. Moore reported. "At that time we began tailoring it for use nationally," he said, adding that the original plan had been to put it into syndication this fall. But the date was moved up to spring following the station's success in placing tapes of Mr. Coates' Jan. 12 program (an interview show with U.S.S.R. Deputy Premier Anastas Mikoyan) on stations in 17 other markets (BROADCASTING, Jan. 19).

Tv tape standards talks begin at NAB

Agencies and program producers will be asked to join NAB's move to set up standards for video tape, Harold P. See, KRON-TV San Francisco, said Thursday (May 14) at the conclusion of the first meeting of NAB's new Tv Advisory Committee on Video Tape Usage. He is committee chairman.

Mr. See and two NAB staff members—Thad H. Brown Jr., tv vice president. and his assistant Dan W. Shields—met in New York the next day with David W. Dole, Leo Burnett Co.; Harry Saz, Ted Bates & Co., and Dorothy Copeland, American Assn. of Advertising Agencies. Mr. Dole is chairman of the AAAA video tape subcommittee and Mr. Saz is a subcommittee member.

Explaining the industry effort, Mr. See said, "We are seeking complete coordination among program producers, advertising agencies and stations to establish 'bed rock' standards for the operational use of tape."

The committee work is confined to tv broadcast use. Other standards for video tape include basic engineering criteria to be met under FCC licenses, engineering standards governing equipment performance and manufacturers' standards centering around design of machines capable of recording and reproducing a standard compatible tv picture by magnetic tape means. NAB will deal with pre-roll time or leader length, titling, client numbers on commercials and similar items.

Sitting at the committee meeting with Mr. See were Kenneth Tredwell, WBTV (TV) Charlotte, N.C.; Bill Michaels, WJBK-TV Detroit; Stokes Gresham Jr., WISH-TV Indianapolis; Benjamin Wolfe, WJZ-TV Baltimore; Virgil Duncan, WRAL-TV Raleigh, N.C., and John Koushouris, CBS, New York.

Representing NAB were President Harold E. Fellows; A. Prose Walker, NAB manager of engineering, and Messrs. Brown and Shields.

pared with placing a program with an outside program distribution group, Mr. Moore said that KTTV was studying the problem but as yet has reached no conclusion. "The one thing we have learned in the short time we've been trying to sell the Coates program is that one series is not enough to support a station's own syndication organization," he said.

By fall, KTTV expects to have at least two more of its programs ready for distribution on tape, Mr. Moore said. By then he hopes a decision will have been reached whether or not KTTV should distribute them on its own.

Mr. Moore pointed out that KTTV is a buyer as well as a seller of programs on tape. The station is already broadcasting two WBC programs, *Youth Wants to Know* and *American Forum of the Air*, and "we're in the market for others," he said.

Activity at KTLA • In preparation for an extensive program of tape production and distribution, KTLA (TV) Los Angeles has spent six months in planning and development, according to James Shulke, vice president in charge of the station.

In the programming sphere, the station has developed a minimum of six programs to be made available this fall —a half-hour daytime serial, *Naked Heart*, and five half-hour programs, *Youth Court, Municipal Court, Emergency Ward, Dixieland Small Fry* and *Secret Jury*.

Along with this creation of programming, the station has upgraded its production and editing techniques, Mr. Shulke said, so that the tape shows to be offered for sale will be of "superior caliber when they are seen on the tv set." He claimed that "the problem of duplicate tapes has been solved."

The station has engaged Albert Goustin, formerly with Ziv Television Programs, to head the tape syndication organization, and he now is installed in New York, calling on advertising agencies with the station's new product.

Mr. Shulke reported that KTLA has been telecasting some of the taped programs it will offer for syndication in the Los Angeles area since last fall, and these presentations have served as a "pilot project" for its nationwide effort. The station's programs are produced at the Paramount Pictures studio (KTLA is owned by a subsidiary of the motion picture company, Paramount Television Productions). Recently, the parent company assigned Paramount Television Productions studio space amounting to 16,000 square feet for tape program production.

A sidelight to KTLA's involvement with tape concerns the *Police Station* program. According to Mr. Shulke, the one-hour tape program proved "so successful" that Official Films, New York, bought the series under these condi-

tions: the tape program be withdrawn and a half-hour version be produced on film by Paramount Television Productions in conjunction with Sandy Howard Productions. Official plans to distribute the series this fall.

Mr. Shulke paints a rosy picture for the tape syndication business, provided the programs are satisfactory and technical quality is "high." At KTLA, he added, "we look on tape programs largely as a source of new business for our operation, though, of course, it helps provide programming for the station".

Activity at KCOP (TV) • KCOP (TV) Los Angeles, with four of its local program series already put into distribution in other markets, looks for this activity to become a major part of the station's operations, according to Henry R. Flynn, head of the KCOP syndication division. The station's four owners —Bing Crosby, George Coleman, Joseph Thomas and Kenyon Brown, KCOP president—are setting up the syndication activity as a separate corporation, which they will own equally as they do KCOP but which will be divorced from the station operation.

The quartet currently has 50-50 distribution arrangements with the producers of four programs now on KCOP and now also being offered for syndication. Jack Douglas Productions, for example, produces *Seven League Boots*, a filmed travel-adventure series. JDP and the Crosby-Coleman-Thomas-Brown combine jointly own Seven League Enterprises, formed to distribute *Seven League Boots*. First 13 episodes, with introductions which Mr. Douglas does live on KCOP now filmed like the rest of the program, were delivered early this month to Screen Gems, which will handle the national syndication of the series.

Similarly, the KCOP owners and Bill Burrud Productions have organized Wanderlust Sales Inc. to distribute the filmed *Wanderlust* series, also of a travel-adventure nature. The program, under the title *Vagabond*, has been sold to KNXT (TV) Los Angeles, and Guild Films is handling national sales. Other Burrud programs, *Treasure, Holiday* and *Animal Kingdom* also may be put into syndication by Wanderlust Sales, probably on tv tape.

KCOP is taping *Peoples' Court of Small Claims* under a cooperative distribution deal with George Mackensie, producer of the series of simualted courtroom actions, and has 23 of these programs on tape. Guild Films is doing the selling and the show is now on the air in eight markets outside Los Angeles — WNTA-TV New York, KMSP-TV Minneapolis, WGR-TV Buffalo, WHDH-TV Boston, KTNT-TV Tacoma, KLOR-TV Provo, Utah, KFMB-TV San Diego and WJAR-TV Providence.

Space Fiction • Guild Films is also syndicator of the *Adventure Tomorrow* science of the space age series of which KCOP now has about a dozen on tape, under the same sort of coopera-

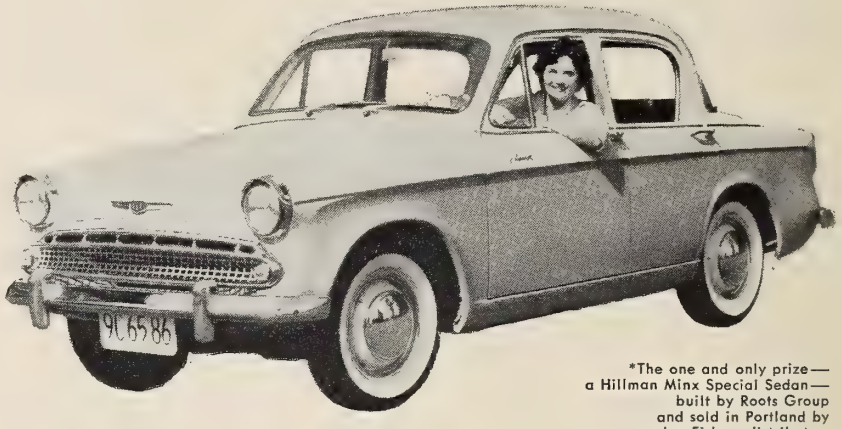
Loretta Young (NBC-145): Procter & Gamble (B&B), Sun. 10-10:30 p.m.

tive distribution arrangement with Dr. Martin Klein, producer of his series, as with the others. *Adventure Tomorrow* has been sold in San Diego, where it is now running on KFMB-TV, and negotiations are in progress for a multiple-market sale to a regional advertiser.

Mr. Flynn pointed out that the existing situation, with most major markets having one or more tv stations equipped with tv tape recorders but virtually no programs being offered them on tape by the film program production companies, has created a vacuum which can be filled by taped programs created and developed by individual tv stations but suitable for use on a broader than local scale. As head of KCOP's new syndication subsidiary, he said, his function will be to work with producers and arrange for the distribution of their programs, on tape or on film, either through existing syndication organizations or possibly with a sales force of his own. The foreign market seems to offer a good field for station programs, as well as other U.S. cities, he noted.



Activity at KHJ-TV • KHJ-TV Los Angeles taped the *Don Sherwood Show* when it was a weekly feature on the station and sold the tapes to KPIX (TV) San Francisco, handling the sale itself. KHJ-TV has tapes of the 90-minute talk and interview-and-music programs of Oscar Levant and his guests and is planning to extract program highlights and revamp them into 30-minute shows for syndication. The program's integrated local commercials, many of them delivered by Mr. Levant, would make complete tapes of the show unusable in other markets, so the editing is necessary, the station explained. KHJ-TV will probably hande its own syndication of the series, although this is not definite as yet.

Of the three network-owned tv stations in Los Angeles, NBC's KRCA (TV) and CBS's KNXT (TV) have no plans for syndicating any of their local shows. KABC-TV, ABC-owned station, has considered the idea, Selig Seligman, vice president and general manager, said last week.

Activity at XETV • Newest station entry into the program syndication arena is XETV (TV) Tijuana, just over the line from San Diego. Appropriately enough, its offering is a sports package of the Latin American game, jai alai (the series carries the same title). It's being distributed in the U.S. by Guild Films, which made its first sale to WNTA-TV New York (see above).

Jai Alai also is a taped show, and runs a full hour. The series is produced by Julian M. Kaufman, general manager of XETV, at the Fronton Palacio, the jai alai court in Tijuana.

DESIGN YOUR OWN EYE PATCH
WIN A FREE HILLMAN MINX!*

*The one and only prize— a Hillman Minx Special Sedan— built by Roots Group and sold in Portland by Joe Fisher, distributor. We'll deliver it to your door.

HERE'S HOW

Fill the adjacent blank page with an ad layout, including copy, that will convince your account executive, time buyer or advertising manager that the new combination of KGW-TV and the NBC-TV Network means greater sales and the most exciting television ever seen in Portland, Oregon. That's all there is to it. We call it TOTAL TELEVISION. You will, too.

Here's what you're selling:

1. KGW-TV the top station in Portland for Entertainment — News — Special Events — Sports — Personalities — Color. (And we are not keeping this leadership a secret. Bob Hope, Dinah Shore and friends are pitching in with promos. Newspaper, outdoor, direct mail and car cards spread the word.)
2. KGW-TV's Clear Picture and Sound—Big power—316,000 watts on Channel 8, with the highest powered transmitter available (100,000 watt) and low gain antenna. This means complete saturation coverage of Western Oregon and Southwest Washington.
3. This new combination of KGW-TV and NBC-TV produces TOTAL TELEVISION for Portland.

RULES (for some reason we've got to have 'em):

1. Neatness counts, but not much. Originality does.
2. Only bona-fide employees of advertising agencies are eligible (and no fair getting your secretary to help you).
3. The contest closes July 4 (a bang-up day). Entries may be submitted on that blank page over there that you've been wondering about (that's what it's there for), but you can use a layout pad if you want. Send it to KGW-TV, Broadcast House, Portland 5, Oregon.
4. Decision of the judges will be final — and that's final.

KGW-TV
Channel 8
Portland, Ore.

NATIONAL RADIO SPOT ON UPGRADE

Top representative firms see climb, but say at worst it might be temporary and not last into fall; another "if" is the national economy

The downward curve in national spot revenue has bottomed out and is pumping its way upward again.

This is the report given by several top representative firms who see a revival of good radio business days from the national advertiser. But theirs is a cautious optimism predicated on these indeterminables:

That the obvious upturn does not turn out to be temporary and is sustained through the critical doldrum days and months of the summer and into the fall.

That the uphill pull of the nation's economy does not falter, permitting advertiser allocations to be flexible enough to consider radio spot along with other media expenditures.

Supplemental • This last factor was expounded upon by a time-buyer for a major advertising agency in New York. His prognostication: despite national spot radio's attributes as a medium, top advertisers with heavy investments in television and other media look to national spot basically as "supplementary" or "tertiary."

But the signs of an upturn are many and station representatives frequently recount them. These include:

• Expectation that Station Representatives Assn's. estimate for the first quarter of this year will lag "only slightly behind" that of the first quarter of 1958. In that quarter, national spot radio ran 2.5% ahead of the same period of 1957.

• Good local business signs being posted by radio stations throughout the country. This is seen as *prima facie* evidence that radio is selling its wares strongly and will succeed in attracting national business with its grass-rooted momentum.

• A consensus among time sales executives that March was a "fair" month but April and now May are progressively better. As for May, the reaction ranges from "a little better" than 1958 to a "record for May among our stations."

Automobile allotments for spot radio are holding up in the important spring months. One of the large representative companies reported that its Detroit office has "more than enough" automotive accounts for May.

The summer period, according to another top representative in the radio field, "will be above last summer." But a too-far-ahead projection trips the man with the crystall ball: "We are fighting on a month-to-month basis," says one executive.

In advertiser product categories, executives single out food products as showing signs of drumming up additional business. Automotives are hot at least until the summer. Tobaccos are strong (see Radio Advertising Bureau report on cigarette advertisers, page 46) and gasoline advertisers appear to be increasing their activity.

What dampens some of the enthusiasm: many of the markets around the country are not showing the same growth in national spot revenue as others. One reason may be late starts in national spot this year by some of the advertisers.

Only a partial list of advertisers active in national spot would include such top names as Tetley Tea, Texaco, Eskimo Pie, Eastern Airlines, Diamond charcoal briquets, Kelvinator, National Biscuit Co., Ford and Chevrolet.

Activity from soap advertisers—an important spending product category—has been weak this year, though Procter & Gamble and Colgate-Palmolive have been spot testing markets, and, one spokesman said, "If it catches hold, the field will explode for spot radio."

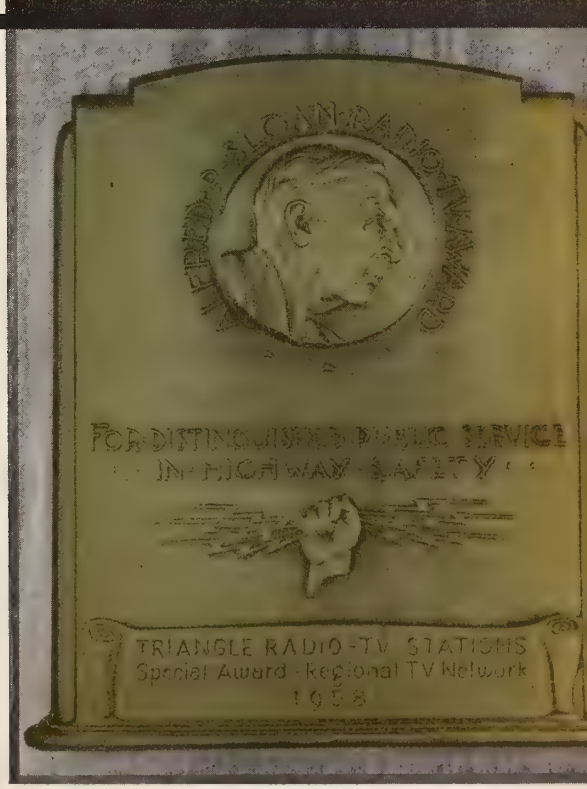
Where's Bottom? • Just where is the bottom in national spot? For the year 1958 itself, comparing each quarter, the bottom was in the summer—a period that traditionally shows a slump in advertising revenue—but the fourth quarter and lapping into January of this year actually was the "bottom" as viewed by those who keep a close watch on national spot business.

According to SRA's estimates, the fourth quarter of 1958 was 8% behind the same period in 1957 even though more than $44.5 million was placed in the medium. The second quarter comparison was not quite that severe—a 7.1% drop. The first two quarters of 1958 actually were up as compared to 1957 (a 6.7% gain was scored in the second quarter).

In general, February was pegged as

RAB's SWEENEY SRA's WEBB

In unison: slight lag won't prevent good year for radio



FIRST TIME IN SLOAN AWARD HISTORY

The Triangle Stations' "Hitch Horse Sense to Horsepower" traffic safety campaign has just been honored with two Sloan Awards in one year—the first time that any broadcaster has been so honored.

Added to previous Awards in 1949 and 1957, Triangle has won more Sloan Awards than any other broadcaster in America.

We are grateful for this recognition of our stations' continuing efforts to be good citizens in the communities we call home.

Tobacco spots up

A special study released last week by the Radio Advertising Bureau indicates that spot radio expenditures of leading cigarette companies in the first quarter of 1959 topped those of the comparable 1958 period by more than 6%.

The study, conducted for RAB by Executives Radio Research Service, is a measurement of radio's activity in the top 100 markets. It reveals that the top spender for the quarter was Liggett & Myers with $1.4 million, followed by R. J. Reynolds Tobacco Co., $900,000; P. Lorillard, $660,000; American Tobacco Co., $600,000 and Philip Morris, $400,000.

the month in which national spot business appeared to "come back." It has been showing signs of a continuing climb ever since.

SRA's estimates for the first quarter of this year are expected to be reported this week or next. According to Lawrence Webb, SRA's managing director, the totals should be "lagging slightly behind the year 1958." But, he told a luncheon meeting of the Nebraska Assn. of Broadcasters Friday (May 15): "There are strong indications that year end figures will show another banner year."

RAB President Kevin B. Sweeney only two weeks ago appeared to sound the enthusiastic note: national business, he said, was sluggish but his national sales department forecasts a substantially better half with a clear gain over the second half of 1958.

Mr. Sweeney also took the occasion to report on local billing which he said would be responsible for swelling the total radio revenue this year (BROADCASTING, May 11).

Tv co-op market

More than two out of three manufacturers that offer tv co-op materials furnish tv film commercials to their dealers, Television Bureau of Advertising summarized in an announcement today (May 11) of its second annual edition of "Manufacturer Cooperative Television Plans and Dealer Aids."

The 1959 co-op catalogue covers 370 listings of which 249 companies offer film commercials. Designed primarily as a sales tool for TvB member stations, the book is available to manufacturers, wholesalers, retailers and advertising agencies at $8.50 per copy.

PETROLEUM'S POWER IN TV

Gas-oil budget last year: $26.5 million

Television is getting a greater share of its "fuel" (gross time purchases) from gasoline and oil companies.

So says Television Bureau of Advertising in reporting gasoline and oil company investments in time (at gross rates) totaling $26,538,400 in 1958, or an increase of 9.3% over 1957.

The gasoline-oil advertisers in 1958 spent 9.2% more in spot tv and increased 9.5% in network as compared with the previous year.

The TvB study of the petroleum product group in tv found the gains (1958 vs. 1957) in the tv medium to be greater than for other media. Magazines was the only other medium to show an increase (4.1% in 1958 over 1957 in gasoline and oil advertising expenditures, newspapers suffering a decline of 4.1% and outdoor a drop of 8.2% from its total for the previous year.

Tv Near Print Level • In total expenditures in various media, the petroleum advertisers' $26.5 million gross billing in tv ($23.4 million in spot and $3.1 million in network) comes close to the advance estimate of the newspaper advertising field of a $29 million investment in newspapers in 1958.

Of the petroleum "majors" ($1 million or more spent in tv last year) Shell Oil topped the list of 10 advertisers, chalking up an investment that was 64% above what it spent season before last (1956). In the percentage gains (1958 vs. 1956), Sunoco was the leader with a fantastic 3,027% increase in the two-year hop. Other standouts in the rate of expenditure increases: Atlantic Oil & Refining, Phillips Petroleum and Standard Oil of Calif.

ELGIN MARCHES BACK UP SALES HILL

Short-term network tv buys, spot radio-tv aid market strategy

Heavy investment in short-term tv network programs, supported by national radio and tv-radio spot, are proving to be a successful media mix for one modest-budget advertiser—Elgin National Watch Co., Elgin, Ill.

Elgin reports an 81% increase in unit orders and 40% increase in dollar volume for all products for January-February this year over the same period of 1958. The gains include Elgin's new jeweled watch line.

The company has diverted about 80% of its estimated $1 million-plus budget to broadcast media (primarily network tv) and will siphon off more —thanks to the gratifying results of the short saturation campaigns placed through J. Walter Thompson Co. late last year.

Low Price Scramble • Elgin has geared itself competitively for Bulova, Benrus and Timex, with much of the activity concentrated in the lower-priced ($20-$30) field.

Once a $2.5 million spender in national advertising, Elgin's budget dropped 1955-57. But with sales up about 12% last year, it has earmarked more advertising money for 1959—perhaps as much as $1.8 million. Radio and tv will derive at least two-thirds, according to an estimate.

Among the ingredients in Elgin's comeback story: close cooperation among client and agency representatives; a reappraisal of the watch industry (with intensive market research); careful broadcast buys; aggressive promotion and merchandising, and creative commercials.

Heading the JWT contingent are Sherril Taylor, radio-tv group head; Richard Hyland, associate media director; George Dibert, Elgin account supervisor; Jack Baity, account executive. Broadcast activities are channeled upwards to John E. Mosman, vice president ad radio-tv director, responsible for programming, and through John DeBevec, vice president and media director. Creative activities are handled by Mark Forgette, manager, radio-tv department, and Hooper White, producer of Elgin's well known baby and "Ed and Joe" commercials. They work closely at Elgin with S. D. Moorman, vice president in charge of marketing, and Gordon Howard, advertising manager.

Marking It Count • Says JWT's Mr. Taylor: "The most significant thing about Elgin's experience is that it shows what can be done by an advertiser with a medium-sized budget." He cited the purchase of CBS-TV's *Playhouse 90* segments this past March ("For Whom the Bell Tolls") and ABC-TV's *American Bandstand* as examples of "the show, prestige, merchandisability and client enthusiasm—all these pluses." CBS-TV network promotion and publicity tie-ins with dealer efforts for the Ernest Hemingway classic also were cited.

After a modest start in magazine advertising in 1903, Elgin turned to radio in the early 1930s with Floyd Gibbons' *Adventurers' Club,* Kay Kyser, Benny Goodman and others, including a radio "spectacular" during the Thanksgiving-Christmas holiday season in World War II. It went into network tv in 1948 with *The Elgin Hour* (alternating with U.S. Steel) and into Edward R. Murrow's *Person to Person* in 1953.

Elgin switched its account to Young & Rubicam in 1951, returning to Thompson in early 1956, but stayed out of broadcast media pending a reappraisal of advertising strategy. (Actually, JWT had handled the Elgin account for nearly 30 years save for 1950-55.)

Hurt by the influx of Swiss imports and low-priced non-jeweled watches after 1950, Elgin watched its share of market hit a low point in 1957 (reportedly below 10%) and set about with JWT to recoup its lost business.

Setting the Stage • The strategy called for market research (dealing with water- and shock-proof watches), controlled and broadened distribution, greater appreciation of dealer problems, a re-establishment of its "corporate personality," a desire to be "more competitive," an expansion of price ranges, improvement in product line and packaging features, a more direct pitch to the nation's youthful consumers and an aggressive advertising approach.

This set the stage for Elgin's excursion into short-term network and spot tv buys during the 1958 Thanksgiving-Christmas holiday season (which normally brings 60% of all watch sales). The network buys were supported by spot tv-radio buys in several major markets.

Elgin's Mr. Moorman said, "we believe, with the agency, we have the kind of product that can be demonstrated on television and can leave an impression on people apt to result in sales. We know that our own business for November-December was substantially ahead of 1957." He con-

tinued, "We think the best guide on the movement of goods is reflected in the return of warranty cards from purchasers. Our business in December in retail was over 10% ahead of that month in 1957. We also believe our sales increase was higher than the industry increase for the month, indicating an extraordinary response on our baby commercials. Moreover, retailers' inventories as of early 1959 were down by 20% from early 1958." (Returned warranty cards, it is understood, approximate about 20%.)

Flexible Tv Networks • Mr. Moorman noted that network tv now is more flexible than, say, two years ago and should strive to "help seasonal opportunities for seasonal advertisers, reflecting our position that we shouldn't be committed to buy 26, 39 or 52 weeks."

Of radio, Elgin's Mr. Howard says: "It has had an important impact on our advertising. It is probably not a major medium for us but we can see

MR. HOWARD

MR. MOORMAN

in several instances where it would be a good supplementary medium." In Milwaukee during NBC radio's *Monitor* and *News on the Hour* schedules last Dec. 8-12, he recalled, local salesmen managed to acquire large orders from local jewelers, giving the high frequency radio effort considerable credit.

Mr. Howard added that dealer demand for radio scripts has been "excellent" and estimated more jewelers are utilizing or considering local radio.

As a result, Elgin may intensify its own advertising promotion efforts along this line, he said.

The desire to appeal to the teenager and the "bargain-minded" adult runs throughout Elgin's broadcast media strategy, as reflected in its current four-week use of CBS-TV's *Rawhide,* participations on Dick Clark's *American Bandstand* on ABC-TV, and just recently a schedule of local air personalities (four to five weeks) on 20-35 key power radio stations.

Getting Its Share • Basis for the new strategy at Elgin (which has sold some 58 million watches since 1864) is simple, according to Mr. Moorman. It wants to capture its share of a market he describes as relatively untouched with "tremendous growth potential."

Statistics provided in a market study conducted by the Jewelry Industry Council (comprising dealers) in 1957 show that about eight million jeweled watches are sold annually in the U.S. —67% purchased as gifts, with men accounting for 60% of all sales. Elgin emphasizes, in pointing the trend to lower-priced watches, that 40% of all watches sold the last two years cost less than $30—and that 60% of those acquired by teenagers and 42% of those by adults fall in the same category.

RADIO PREVIEW:

Fertilizer fun • Bandini Fertilizer Co. revived some of the personalities of radio's golden era of yesterday to sell its product with the light touch. These included Bert Gordon (The Mad Russian), Jimmy Wallington, June Foray and Vick Knight. About 125 spots are being placed on eight radio stations in the Southern California area by Davis, Johnson, Andersen and Colombatto, Los Angeles agency for Bandini. Here's one typical script:

THE MAD RUSSIAN AND ANNOUNCER

(SOUND: Crowd walla-walla b.g.—fade for)
ANNOUNCER: Ah! Here is Comrade Petrovich, the Russian delegate who recently stood up before the Assembly and said:
MAD RUSSIAN: How do you do!
ANNOUNCER: Comrade Petrovich, what do you think of new Bandini FUN . . . the spectacular new fertilizer that keeps lawns greener, but gives you fewer grass clippings by eliminating top growth . . .
MAD RUSSIAN: In Rossia, we are always eliminating top growth!
ANNOUNCER: Yes, I-uh see, but in Russia have you a fertilizer like Bandini FUN, in the pink bag?
MAD RUSSIAN: In Rossia, everything in pink bag.
ANNOUNCER: Well, you certainly haven't anything like Bandini FUN . . . it feeds everything that grows . . . lawns and plants . . .
MAD RUSSIAN: In Rossia, we are in-venting planting.
ANNOUNCER: You invented planting? Amazing! And what do you plant in Russia?
MAD RUSSIAN: Each other.
WALLINGTON: Thank you, Comrade Petrovich. And folks, try new Bandini FUN lawn food. New Bandini FUN keeps lawns greener . . . but gives you fewer grass clippings because Bandini FUN eliminates heavy top growth. Try Bandini FUN this weekend, and remember . . .
GIRL: Bandini is the word for fertilizer.

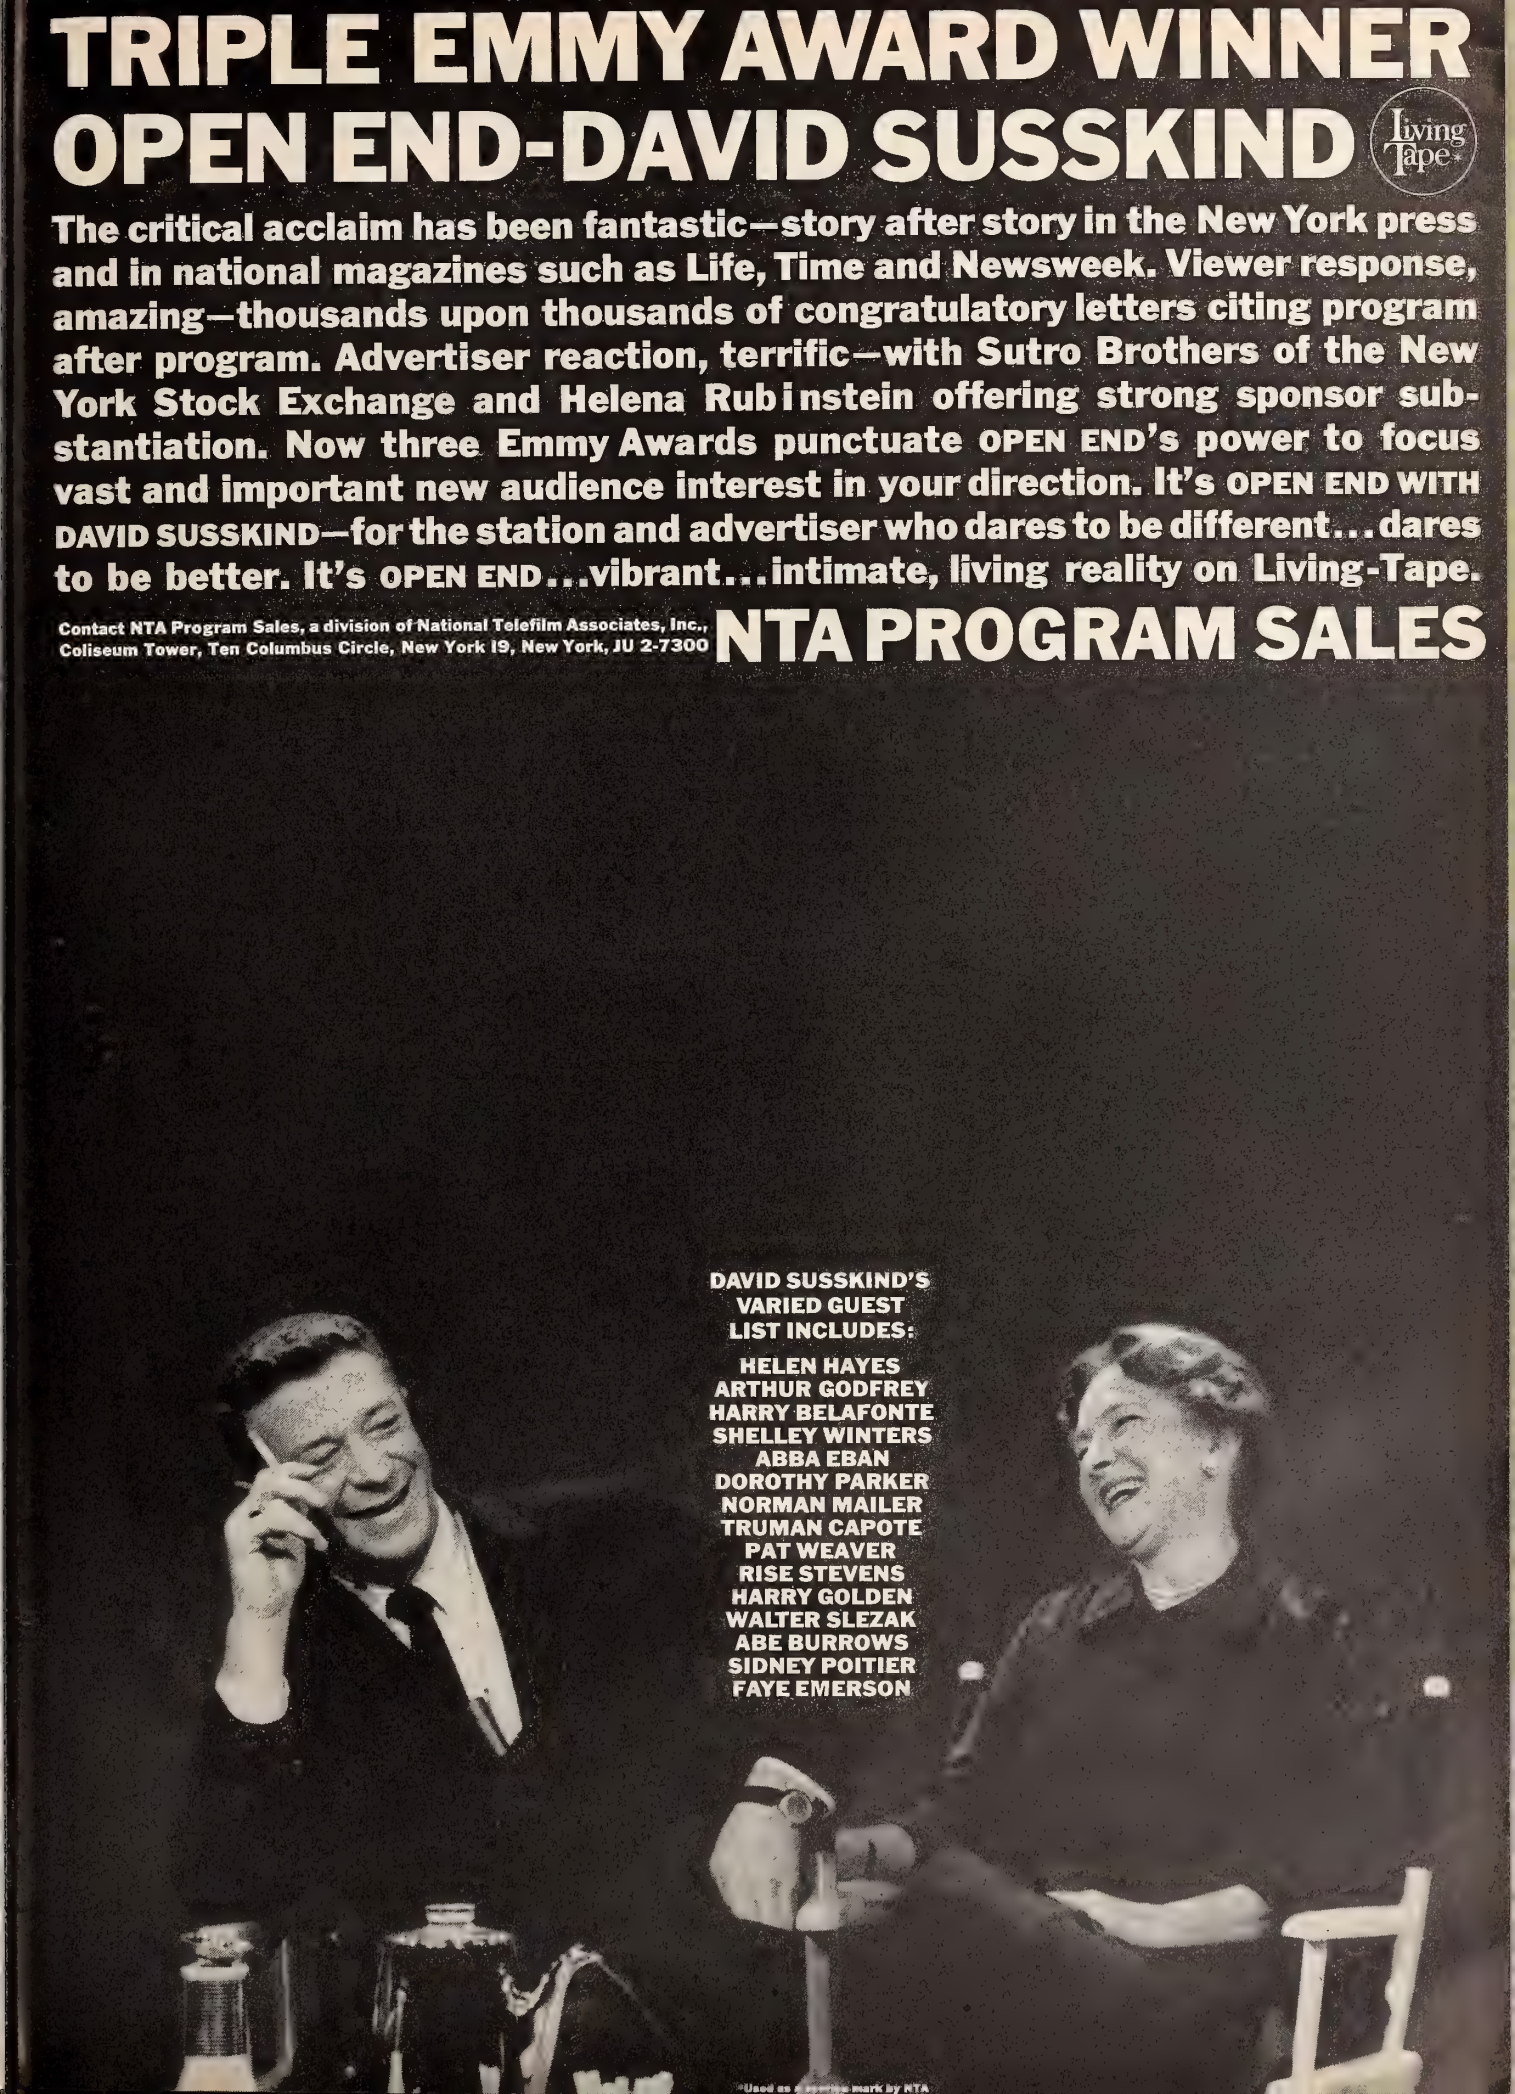
Belittling little cars • To counter the barrage of midget car advertising in Southern California, one of the happy hunting grounds for the sellers of small imported sports cars, Leo Rule Oldsmobile Co., Compton, Calif., has been getting good response from a commercial, created by Maryalyce Rivard of Columbia-Pacific Adv. Agency, Long Beach, Calif., and broadcast on KPOL Los Angeles. It is in a vein similar to certain natural advertising that advocates full-size cars for full-size people. The Leo Rule commercial:

(Open with ringing of phone in background.)
MAN: Hello . . . Double Bubble Car wash . . . who? . . . Oh, Hi Charlie. OK, just a minute I'll check . . . (off mike) Hey, Cuthbert, is that little red sports car through the wash rack yet? Whatta you mean, what little red sports car . . . that little red one Charlie brought in this morning. Whatta you mean you can't find it? Look behind some of the big cars . . . Oh, you did?
(Back to phone) hold on Charlie . . . (off mike again) Cuthbert, I hate to even think of it but did you look in the bottom of the wash rack? . . . it is? (groans) well, get the chain and tow it out of there again . . . (back to phone) we found it Charlie . . . Say, Charlie, Cuthbert says why don't you break down and get a regular car . . . This little one keeps slippin off the rack. . . .
(Merry Oldsmobile tag down and under . . .)
SULTRY WENCH: Cuthbert's right, honey . . . Little cars are cute for little boys . . . But you deserve a man-sized car . . . Why not see Leo Rule Oldsmobile, 505 South Long Beach Blvd. in Compton? . . . That's the home of the golden rule plan . . . You know about the golden rule, honey . . . Do unto others as you'd like to have them do unto you . . . Now you can't beat an arrangement like that, can you? That's Leo Rule Oldsmobile . . . come on down and get that "Olds feeling."

Michigan ad topics: research, marketing

Advertisers have been warned by an agencyman that they are going to have an increasingly hard time probing the minds of the public. Charles F. Rosen, executive vice president of W. B. Doner & Co., Detroit, made this prediction at the U. of Michigan's Advertising Conference Thursday (May 14). He said, "Considerable exposure to the techniques of the psychological researchers has tended to make the consumer relatively immune. No matter how cleverly worded our questions or how innocently our association tests appear, we must soon face the fact that consumers are 'wise' to us. We may soon be getting answers no one will be able to explain."

In another address, G. Maxwell Ule, marketing vice president, Kenyon & Eckhardt, said a "marketing elite" is emerging in American business management. He said the new marketing concept will give sharper definition to the specific role of advertising by measuring the amount of advertising needed to meet marketing objectives. He contrasted the marketing concept, where business adjusts to the market place, to the "production concept" where a business adjusts outside forces to its production capacity.



TRIPLE EMMY AWARD WINNER
OPEN END-DAVID SUSSKIND

Living Tape*

The critical acclaim has been fantastic—story after story in the New York press and in national magazines such as Life, Time and Newsweek. Viewer response, amazing—thousands upon thousands of congratulatory letters citing program after program. Advertiser reaction, terrific—with Sutro Brothers of the New York Stock Exchange and Helena Rubinstein offering strong sponsor substantiation. Now three Emmy Awards punctuate OPEN END's power to focus vast and important new audience interest in your direction. It's OPEN END WITH DAVID SUSSKIND—for the station and advertiser who dares to be different... dares to be better. It's OPEN END...vibrant...intimate, living reality on Living-Tape.

SELLING IN '70
Consumer's profile to differ greatly

By 1970, that important American, John Q. Buyer, will be spending most of his money on what he wants to, not what he has to.

Roy E. Larsen, president of Time Inc., speaking May 7 at the Advertising Club of Minneapolis, made this prediction on the basis of estimates by *Fortune* magazine editors of the U.S. economy a decade hence.

While the great change in income distribution five years ago, he said, was the "emergence of the big, middle-income group" (cash income of $4,000-7,000 a year after taxes), the fastest gain since has been made by the top group ($7,500 or more a year after taxes). This top group, said Time Inc.'s president, now includes better than "one family in five."

By 1970, say *Fortune's* editors, this group will have doubled—in terms of 1959 purchasing power—and this increase will be entirely at the expense of the lowest group.

U.S. Revolution • Because, continued Mr. Larsen, $4,000 a year is "roughly the point at which family discretionary spending begins, these changes in income distribution will revolutionize the U.S. consumer market, and the key to the revolution will be continuing widening choice."

This income shift has begun and will continue to destroy social barriers, argued Mr. Larsen: "the man at the wheel of a sports car or on the beach at Miami may be a millionaire or he may be a carpenter; it is no longer easy to tell."

A second major prediction made by Time's top executive was that "competition *between* industries . . . will be just as intense as competition now is *within* industries." With more money available in the hands of more people, he reasoned, "Buicks and Lincolns will be competing not just with Ramblers and Volkswagens, but with power boats, European vacations, larger homes and stereophonic sound."

Mr. Larsen began his talk by rebutting the book, *The Affluent Society*, by Harvard U. Professor John Galbraith. Prof. Galbraith, said Time's president, talks of our country's making "a materialistic Mammon-God out of production," and concludes that "as a consequence of high production, the advertising industry must go busily about inducing people to want what has been produced."

Wrong Notion • "However," stated Mr. Larsen, "the notion that advertising can create desires for goods, simple because those goods have been produced and need to be moved off the shelves, is one that even the smallest advertiser or advertising agency might wish were true but they know is tommyrot."

Mr. Larsen ended on a highly optimistic note: "Members of the free world look to the American economy as the guide-star for their own higher aspirations. It was we who created the concept of higher expectations for humankind, who exported that concept and who have the means, the skill, the know-how to make it evolve into a worldwide reality."

In addition to *Time, Life* and *Fortune* magazines, Time owns the following stations: KLZ-AM-TV Denver; WTCN-AM-TV Minneapolis; WFBM-AM-TV Indianapolis; WOOD-AM-TV Grand Rapids, Mich., and KDYL-AM-FM and KTVT (TV) Salt Lake City.

FC&B's Stern asks thorough ad research

There is "far too much emphasis" on the cost-per-thousand formula and most comparisons among media "only scratch the surface," an agency executive charged last week.

It is also "very dangerous or misleading" to generalize in the area of sponsor identification, Edward M. Stern, vice president and media manager of Foote, Cone & Belding's Chicago office, told a meeting of the American Legion Advertising Post in Chicago. Actually, he asked, who knows just what sponsor identification really means?

Mr. Stern acknowledged his agency "doesn't have the answers yet, but we are sure we will have to probe deeper than simply combining data from Nielsen and Trendex."

Discussing "Tv Ratings, and How's Your Cost Per Thousand?" he said that much of the media research information available today is not used and that media do not have unlimited funds for research. For that reason, he suggested they check with agency media and research departments "before they embark on studies that may be totally rejected because of poor techniques." In fact, they ought to consult the Advertising Research Foundation's technical committee when considering a major research project.

Mr. Stern observed that advertising problems are not "exercises in mass statistics" but efforts to change consumer attitudes and actions. "It is not enough in media planning to solve the problem of directed coverage," he warned. "We must devise a strategy that will effectively communicate the ideas and feelings we want to register."

WLOF-TV winner of Seven-Up contest

WLOF-TV Orlando, Fla., and nine other tv stations have been named winners of a contest conducted by J. Walter Thompson's Chicago office and Seven-Up Co. for station promotion managers.

The contest was set in motion by the agency's broadcast exploitation specialists. It was designed to promote product sales and the client's ABC-TV *Zorro* series among network affiliates. Promotion managers were asked to push *Zorro* and "Freshup Freddie" as a salesman by preparing presentations based on merchandising aids for the soft drink. It was held March 9-April 10. (Since it got underway, Seven-Up announced it is dropping *Zorro* for the 1959-60 season.)

Other station winners were KUAM-TV Agana, Guam; KID-TV Idaho Falls, Idaho; KHSL-TV Chico, Calif.; WFAA-TV Dallas, Tex.; KMMT-TV Austin, Minn.; WSOC-TV Charlotte, N.C.; KOCO-TV Oklahoma City, Okla.; KONO-TV San Antonio, Tex.; WTVC (TV) Chattanooga, Tenn., and KWTX-TV Waco, Tex.

The agency and client reported receiving about 65 entries—representing slightly less than half the ABC-TV affiliates carrying *Zorro*. Some station promotion managers refused to participate because of station policy against entering merchandising-promotion-exploitation contests, a practice frowned on by the Broadcasters' Promotion Assn.

In a brochure to promotion managers, J.M. Thul, advertising manager of Seven-Up, explained the contest this way: "From our standpoint, we want to sell more Seven-Up and help our developers sell more Seven-Up. We also think that many of you want to help us do that, too, through the medium of our *Zorro* purchase where "Freshup Freddie" receives his greatest—pardon the word—exposure. With a little imagination on your part and the materials we will send you, we think it will be possible to create an important broadcast promotion case history. . . ." He stressed "ideas and imagination" would count most, "not the dollars invested in preparing the entry."

Every station promotion chief received a bronze Seven-Up bottle opener for participating, but the winner WLOF-TV profited the most. Promised was (1) a $500 expense account, authorized through the Diners' Club, and (2) "an individual market station image research study" to be underwritten by the Seven-Up Co. and undertaken by Seymour Smith Assoc., New York market research counsel. Mr. Thul promised the study would be "con-

"It just hit me! -- WCIA is the 46*th tv market!"

A true AREA market located with transmitter approximately 129 miles from Chicago, St. Louis, and Indianapolis.

NCS #3 again proves WCIA's predominant audience in 54 wealthy, industrial, and rich black-soil counties.

Five metropolitan markets (BLOOMINGTON, CHAMPAIGN-URBANA, DECATUR, DANVILLE, and SPRINGFIELD) plus 1,912 cities and villages create a larger market than offered by twenty-one states and territories such as Arizona, Arkansas, Colorado, or Oregon.

THIS MAY BE THE MOST PROFITABLE DISC YOU'LL EVER SPIN!

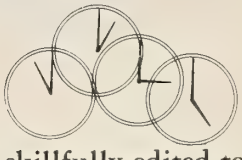
From Top-Rated Stations Coast to Coast . . .

the SUCCESSFUL IDEAS

that INCREASE AUDIENCE AND PROFITS

Send now for your audition package of Radio Recorders new Audio Air-Check Service. Containing an expanded profile of five of the nation's most aggressively programmed stations . . . WNEW, KFWB, WHB, KNX, WOR . . . it lets you hear for yourself how easily you can now keep up with the best in radio throughout the year.

This new low-cost service brings you the programming ideas that work . . . the features major stations are using *today* to build audiences and increase sales. These are *proved* ideas you can duplicate with your own staff.



Each Audio Air-Check is completely indexed to give you an accurate profile of the nine different top-flight stations monitored every month. With Radio Recorders Audio Air-Check Service you can keep abreast of each shift in sales strategy, programming gimmicks, ad formats. It's all yours right while it's happening . . . available to you exclusively in your market . . . at a price you can easily afford.

Hear for yourself. The special Audio Air-Check Audition Package is available now at $15 per copy. If your order for the complete service is received within 20 days, the $15 will be credited to your first quarter's subscription.

The first order received for the Audition Package from each market reserves the exclusive subscription service for a 10-day examination period. So send your check *now.*

Here's the key to ratings and sales . . . the only complete source of proved broadcasting ideas across the nation. If you want to lead in your market, send right now for the special Audition Package of Audio Air-Check Service.

Every month 36 hours of top-rated programming is recorded from 9 different stations . . .

. . . skillfully edited to give you only the outstanding audience-building, sales-producing ideas . . .

. . rushed to you every 10 days on a 12" double-face LP.

fidential," with neither Seven-Up nor ABC-TV being permitted "to see these results."

Thompson's Chicago office has long pioneered in broadcast program and product exploitation for its clients. At one time JWT maintained a station relations representative for field activities. Two years ago, it held a similar contest for promotion managers of CBS radio affiliates involving Weco Products (Dr. West toothbrushes) and Arthur Godfrey's morning show.

Second and third prizes for station promotion managers were Polaroid cameras, plus "Freshup Freddie" plaques, while six others will receive battery-operated transistor clock radios. Secretaries won Bonwit imported soap.

Borden's commercial wins Blair radio poll

Borden's instant coffee, through Doherty, Clifford, Steers & Shenfield, New York, emerged the winner of the latest best radio commercial poll conducted semi-annually by John Blair & Co., radio station representative, New York.

With nine of the top ten winners rated as volume-sellers in the supermarket field, the poll results indicate the extent advertisers are using radio to stimulate sales in supermarkets, according to Arthur H. McCoy, executive vice president of John Blair & Co.

Following closely behind Borden's in the poll were the commercials for Chesterfield (McCann-Erickson), Clark Gas (Tatham-Laird), Tetley Tea (Ogilvy, Benson & Mather) and Oasis Cigarettes (McCann-Erickson), Others in the top ten, listed alphabetically, were: Alka-Seltzer (Wade Adv.), Budweiser (D'Arcy), L&M cigarettes (Dancer-Fitzgerald-Sample), Piel's beer (Young & Rubicam) and Zee Paper products (Cunningham & Walsh).

In announcing the results Mr. McCoy pointed out the value of assigning creative personnel to the development of spot radio commercials. In addition to the continued popularity of catchy music and lyrics in commercials, he noted a rise in commercials built on situation-dialogue or humorous characterization. Also, sounds used to identify and dramatize the character of products, or of users, illustrate the effective use of image builders, he said.

• Business briefly

Time sales

The Many Loves of Dobie Gillis (CBS-TV, Tues., 8:30-9 p.m.), which has its debut next fall, will be presented by the Pillsbury Co., Minneapolis, and Philip Morris (Marlboro cigarettes), N.Y. Agency for both advertisers: Leo Burnett, Chicago.

• The Noxema Chemical Co., Baltimore, will be an alternate-week sponsor of *Love and Marriage* (NBC-TV Mon. 8-8:30 p.m.) when the situation comedy series has its debut Sept. 21. Agency: Sullivan, Stauffer, Colwell & Bayles, N.Y.

• The Aluminum Co. of America, Pittsburgh, through Fuller & Smith & Ross there, and the Goodyear Tire & Rubber Co., Akron, through Young & Rubicam, N.Y., have renewed *Alcoa Theatre* and *Goodyear Theatre* respectively. The shows are scheduled to alternate in their accustomed slot over NBC-TV next season (Mon. 9:30-10 p.m.).

• Kimberly-Clark Corp. (Kleenex, Delsey products), Neenah, Wis., buys co-sponsorship of CBS-TV's *Wanted, Dead or Alive* for the 1959-60 season, Sat., 8:30-9 p.m. EST. It previously bought network's *Twilight Zone,* Fri., 10-10:30 p.m. EST. (Co-sponsors: Brown & Williamson for *Wanted* and General Foods for *Twilight.*). Agency for Kimberly-Clark: Foote, Cone & Belding, Chicago.

• The U.S. Brewers Foundations Inc., N.Y., on June 1 will present an hour-long ice skating special over NBC-TV (Mon., 10 p.m.). Taped in Hollywood and produced and directed by Alan Handley, *Summer on Ice* stars Rosemary Clooney, Tab Hunter, Tony Randall and the entire cast of "Ice Capades of '59." It pre-empts *The Arthur Murray Party* for the one night. Agency: J. Walter Thompson, N.Y.

• Hills Bros. Coffee Inc., San Francisco, will sponsor *Bat Masterson* on western stations of NBC-TV for 52 weeks beginning Oct. 1. Agency: N.W. Ayer, Philadelphia, which previously ordered *Masterson* for Sealtest Foods Div. of National Dairy Products, Philadelphia, covering 116 NBC-TV stations in Sealtest markets.

• The William Wrigley Jr. Co., Chicago, effective June 29 has renewed *Just Entertainment* (CBS Radio Mon.-Fri. 2:15-2:30 p.m.). The 52-week buy is said to involve more than $1 million in net billings. It will be the show's fourth year for Doublemint gum. Agency: Erwin Wasey, Ruthrauff & Ryan, Chicago.

• The Drug Research Corp. (Regimen tablets), N.Y., on May 20 begins a 13-week sponsorship of *Keep Talking* (CBS-TV Wed. 8-8:30 p.m.). Agency: Kastor, Hilton, Chesley, Clifford & Atherton, N.Y.

• P. Lorillard Co., N.Y., has renewed its alternate-week sponsorship of *The Arthur Murray Party* which moves into a new time slot on NBC-TV next fall (Tues. 9-9:30 p.m.). Agency: Lennen & Newell, N.Y.

• Esso Standard Oil Co., N.Y., will sponsor *The David Niven Show* (NBC-TV Tues. 10-10:30 p.m.) on June 9, June 23, July 7 and July 21. Products advertised on the dramatic anthology series will be household oils and waxes and Flit insecticide. Agency: McCann-Erickson, N.Y.

• B.T. Babbitt Inc., N.Y., on Wednesday (May 20) begins a three-week spot campaign on NBC Radio. Over 75 spots are to be used on Wednesday, Thursday, and Friday, adjacent to news broadcasts, promoting new Savoy car shampoo and Cameo copper cleaner. Agency: Brown & Butcher, N.Y.

Agency appointments

• Colgate-Palmolive Co., N.Y., and Cunningham & Walsh there, officially parted company last week, with Super Suds, C&W's lone C-P account transported to Street & Finney Inc., N.Y. The somewhat-under $500,000 Super Suds billings are said to bring to approximately $5 million the amount of C-P business at S&F.

• Fulham Bros. Inc. (seafood processor), Boston, names Charles F. Hutchinson Inc. there to handle its 4 Fisherman products.

• Borg-Warner Corp., Chicago, appoints Clinton E. Frank, same city, to handle estimated $1.5 million corporate account, succeeding J. Walter Thompson Co. B-W has been relatively inactive in broadcast media.

• Alexander's Markets, Southern California chain, appoints Compton Adv. Inc., L.A., for radio-tv advertising.

• Cherry Brand Meat Packing Co. (fresh, frozen meats), Chicago, appoints Powell, Schoenbrod & Hall, same city. A test campaign, being developed for the Chicago area, may include broadcast media.

• State Street Council, Chicago, appoints Doyle Dane Bernbach, that city, to handle its account, first to be assigned to the agency's new Chicago office. Radio may be used. The account formerly was handled by Fletcher Richards, Calkins & Holden.

• Also in advertising

• Northam Warren Corp. (cosmetics), Stamford, Conn. and its agency, Doyle Dane Bernbach, New York, last week announced they would part on June 8. The account bills about $1.7 million

Conversation over June Dairy Month recipes inspires quick trip to nearest dairy case.

Ushering in Dairy Month • "All over America . . . something wonderful is happening. It's June!" The white dots on the tv screen get larger and brighter, revealing a three-dimensional map of the U.S. The music tells you it's June, a special month for dairy products in the U.S.A.

The special effects introduce American Dairy Assn.'s new 60-second commercial which will first be seen May 30 on *The Perry Como Show,* as well as on that program each Saturday in June.

With Skitch Henderson conducting the Gold Swan Singers the scene shifts to a very stylized kitchen. A young girl holding a reprint of the June Dairy Month newspaper ad dances over to her mother. A doorbell chimes and another feature—delivery service—enters the picture. The milkman brings a free copy of the dairy month recipe folder (available also at all dairy counters). Mother and daughter prepare a dairy treat. To replenish their supply, they dance to a store displaying the special June Dairy Month signs. The closing shot goes back to the map, now emblazoned with "June Is Dairy Month" slogan.

This upcoming commercial was produced by Joseph C. Spery, radio-tv manager of the New York office of Campbell-Mithun, Minneapolis, agency for the National Dairy Assn. In charge of creative direction were Ted Le Maire, radio-tv creative supervisor in C-M's Chicago office; Scott Park, tv art film supervisor at Minneapolis headquarters, and Paul Ingvaldson, tv production business manager in the Chicago office. Filming was done at Elliot Unger & Elliot, New York.

The basic plan, Mr. Spery said, was to "combine the wholesomeness of dairy products with an atmosphere of bright dancing, settings and based on the 'all over America' theme."

annually and about $600,000 of the budget has been allocated to radio-tv advertising. No new agency has been appointed as yet, according to Richard E. Marsh, advertising manager of Northam Warren.

• Creative PR Inc., New York, independent public relations firm organized at the beginning of this year by the Anderson & Cairns ad agency there, has moved to larger quarters on the 10th floor at 130 East 59th Street.

• The Broadcast Equipment Div. of RCA, Camden, N.J., last Tuesday (May 12) was named Putman award winner for its 1958 advertising campaign by the Poor Richard Club in Philadelphia. Individuals cited for the division's "Planning a Radio Station" campaign, which is still continuing, were Adron Miller, manager, radio equipment field sales; Paul Greenmeyer, advertising and promotion manager, and Willard G. Wooster, account executive at Al Paul Lefton, RCA's Philadelphia ad agency. Each received a plaque contributed by the Putman Publishing Co., Chicago, which annually makes an advertising award in conjunction with the Poor Richard Club.

• Schwerin Research Corp., N.Y., on May 25 will inaugurate a tv commercial and program testing service in Los Angeles, Horace S. Schwerin, SRC president, announced last week. Expansion of the Schwerin operation to the California area has been dictated, Mr. Schwerin said, "by the insistent demands of a number of advertisers who want some hard, cold facts about the West Coast market." Initial clients include national as well as regional advertisers, its reported.

• Erwin Wasey, Ruthrauff & Ryan, N.Y., reports it has acquired W. S. Walker Adv., Pittsburgh, an agency that specializes in industrial accounts, and a new organization has been formed known as Erwin Wasey, Ruthrauff & Ryan, W. S. Walker Div. Frederick R. (Rudy) Etchen Jr., a staff vice president of EWR&R in New York, has been named senior vice president and general manager of the division in Pittsburgh.

• The Eagle Pencil Co., Danbury, Conn., is looking for a new agency. Its marketing vice president, David E. Price, in making known the severance of relations with BBDO, said "There is no disagreement, dissatisfaction or disharmony involved in this decision." Eagle has been using closed-circuit tv in 12 cities to reach stationary dealers, office management and purchasing agents. BBDO, which has handled the account for nearly three years, has agreed to continue until a new agency is selected.

• Allan Jack Lewis Adv., Washington, changes its name to Lewis & Polinger Inc., following the acquisition of a full partnership in the agency by David H. Polinger. Mr. Polinger was formerly general manager of National Telefilm Assoc. Spot Sales, N.Y. Mr. Lewis will serve as president, Mr. Polinger as executive vice president.

• The Los Angeles office of BBDO today (May 18) moves to the new Hancock Park Bldg. at 5820 Wilshire Blvd., occupying three floors to give the agency 50% larger quarters than its present space at 6363 Wilshire.

• Fuller & Smith & Ross Inc., N.Y., on May 1 acquired the 32-year-old Fort Worth-Dallas ad agency of Evans & Assoc. The new branch of FSR will be headed by Stanley Schlenther, former partner of Evans, who has been elected vice president and manager.

• The Kappa Co., Atlanta, has commenced operations to make and distribute animated tv commercials in the southeast. Louis O. Hertz, formerly sales and audience promotion manager, WAGA-TV Atlanta, is president. Address: 1182 W. Peachtree St. Bldg.

QUALITY PROGRAM ON SHOE STRING

$15,000 budget on 'off-beat' tv-tape series at CBS Films

It takes about $35,000 to make the average, run-of-the-mill half-hour filmed program. For a dramatic anthology series the cost per program more likely will run $50,000 and up.

It's still experimental, but in New York a tv producer—Robert Herridge of *Camera Three* (CBS-TV) fame—is bringing in *Theatre for a Story*, a "quality" anthology half-hour tv series on tape, for "under $15,000" per show.

Just how successful CBS Films is in this grey area of tape, costs and unusual story material will depend on the amount of interest it can spark from a network, an advertiser, or, failing either, from tv stations in standard syndication.

With two half-hours on tape at this point, CBS Films already had these pluses on its side:

In addition to bringing the programs in on a low budget, Producer Herridge has been given his "head" (that is complete freedom in production) which, CBS Films believes, will encourage exciting, off-beat productions.

New Kine Technique • Along with the taping, CBS Films has a leg on the problem of how to get the show around to stations assuming the series goes into syndication. To head off the problem of peddling tapes to stations which don't have tape playback facilities, CBS Films' production unit has developed a technique that appears to hold promise of a kine (taken from the tape) that preserves some feel of live action while giving a quality close to that of standard grade film.

The tv series is "different" because of a dramatic mood that is heightened through liberal camera work, stark contrasts in lighting and a minimum use of background sets; the employment of Broadway talent who feel the roles they fill offer a professional challenge, and the story material in the adaptations and originals which Mr. Herridge plans to put on tape.

Whether all of this can bring in a national sale, from network or advertiser, is difficult to assess. Two of the three tv networks—ABC-TV and CBS-TV—have shown interest, as have several agencies.

The problem there, however, is to find the "specialized type sale" from an advertiser willing to pick up the tab for this rarity among tv series.

Just How Rare? • The first program taped treats jazz. It features Miles Davis on his trumpet and a studio-full of top-flight musicians. This show sells sound and unusual camera shots. The second program is entitled "A Trip to Czardis," a dramatic adaptation of an O. Henry award-winning short story by Edwin Granberry that was published in 1932 and several years later broadcast on the *Columbia Radio Workshop* series.

Mr. Herridge, who is not a low-budget man by design as he was associated with the highly-expensive *Seven Lively Arts* on CBS-TV two seasons ago, has still other productions to come: adaptations by Robert L. Joseph of classic stories, and three original scripts by S. Lee Pogostin.

"The Herridge concept of television is what we are buying. . . . The concept utilizes all the art forms. . . . The Herridge touch in terms of lighting, scenery, script, actors and direction," is the way Sam Cook Digges, administrative vice president of CBS Films, speaks of the project.

Mr. Herridge achieves his economy by combining several cost-saving devices. He gains these savings by pruning the time schedule, calling for minimum rehearsal time, using few props, and by carefully casting talent attracted to the roles by the opportunity to experiment rather than by high talent fees. Still other devices are common to tape:

Rather than permit a number of re-taping sessions, only one precisely-timed taping is conducted. In film, much more footage is shot than actually is used for a half-hour program and there are retakes in addition.

Since there is no outdoor action in taping, cumbersome and costly equipment for that purpose is not needed. By using few props, the cost of scenery is drastically reduced. Mr. Herridge shoots into the action (best visualized as "theatre in the round" contrasted with lavishly-staged theatre on Broadway). This camera ranging at will intensifies the allusion of movement as does the use of black shadowed areas surrounding a contrasting, bright white center stage.

A Frank Appeal • CBS Films has made some headway in enlightening the critics (and of course in promoting the series). Charles Mercer, an Associated Press radio-tv writer, made a frank public appeal to "responsible executives in the television networks . . . with the hope that somebody will try to make a great viewing treat available to you, an individual viewer."

The unit right now is taking a

How it works • Left photo: Miles Davis, trumpeter and star of the jazz program in the *Theatre for a Story* tape series, and tv producer Robert Herridge on the set at a CBS films' taping session. Mr. Herridge keeps costs down and cameras on the move by doing away with the clutter of background scenery (few walls, and roofs are "hung" from the studio ceiling.)

Right photo: Child actors Luke Halpin, 12, and Kevin Coughlin, 13, in the roles of "Dan'l" and "Jim" and Mildred Dunnock as the mother in "A Trip to Czardis" during a CBS film taping session. Program is another one of the *Theatre for a Story* anthology under preparation. It features: low-budget, stark lighting contrasts and minimum of background sets.

Have Gun Will Travel Travels Farther on WMT-TV.

National rating: 33.8. WMT-TV: 38*

Highest tower between here and the North Pole helps us deliver *Number One* audience in three of Iowa's six largest cities, and cover over half of the tv families in Iowa.

**In a 3-Station market (Station B: 25.2; Station C: 9.2); ARB.*

breather. But on June 5 the third show will be taped and there'll be one each Friday afterward until the entire 13 are completed.

The new kine technique makes use of quality controls at camera, in studio and in laboratory processing, and modified equipment (new circuitry). CBS has obtained a kine with a sharper (more resolution) picture with less grain. CBS records on a 35 mm negative which is optically reduced to 16 mm. What the development amounts to: "We applied 1959 techniques to a 'lost art' of kinescope recording. For the past four years tv recording has not been receiving any attention."

The shell of the equipment is RCA and 10 years old. The insides, however, have been modernized (actually more than once) with latest circuitry.

The quality controls, however, are the most important. Only a few: care and attention to lighting and to the exposure control on camera, to focus of the camera lens, and careful adjustment of the signal from camera to place it in correct level. Exposure of the film in the lab process "must be precisely controlled," a spokesman said.

But CBS-TV's engineers are not making claims. They cautiously and variously evaluate their kine as "not new," "modernized" and "not yet competitive with film." But this much they do say: the first two kines of the programs taped are good enough to encourage the belief that film recording from a tape recording can be made without appreciable degradation.

One big reason for the caution is that CBS-TV is not quite sure that future kinescoping of this kind will bring in a consistent "top performance." "It's a qualitative judgment," these engineers say, "Who is to say what is 'good or poor' film?"

Should the kine arrive at the point of competitiveness with top-grade tv film, CBS Films may beat a break-through toward greater use of tape for syndication. And, apparently, it can open up new sales fields internationally (tape conversion is a problem overseas where tv standards differ. But kine—as does regular film—bypasses this problem.)

SAG, AFTRA meet

Merger study committees of Screen Actors Guild and American Federation of Television & Radio Artists met the weekend of May 10. The groups discussed research organizations and individuals who may be employed to help SAG and AFTRA study the matter and develop a merger plan for submission to the groups' members. Subcommittees of both unions were named to narrow the list down to a few of the best qualified and submit recommendations to the full committee.

PATTER OF PLATTER VOICES

D.j. meet to double attendance last year

Advance registration for the second annual International Radio Programming Seminar and Pop Music Disc Jockey Convention in Miami Beach May 29-31 hit the 1,800 mark last week, headed for an estimated 4,000 registration double that of last year's initial gathering at Kansas City.

Sponsored by the Storz Stations, the convention will tackle such industry topics as network vs independent radio, ratings, formula programming, record release practices, news, evaluation of station promotion and music trends. Top speakers and panelists will be drawn from all segments of radio, including the advertising agency.

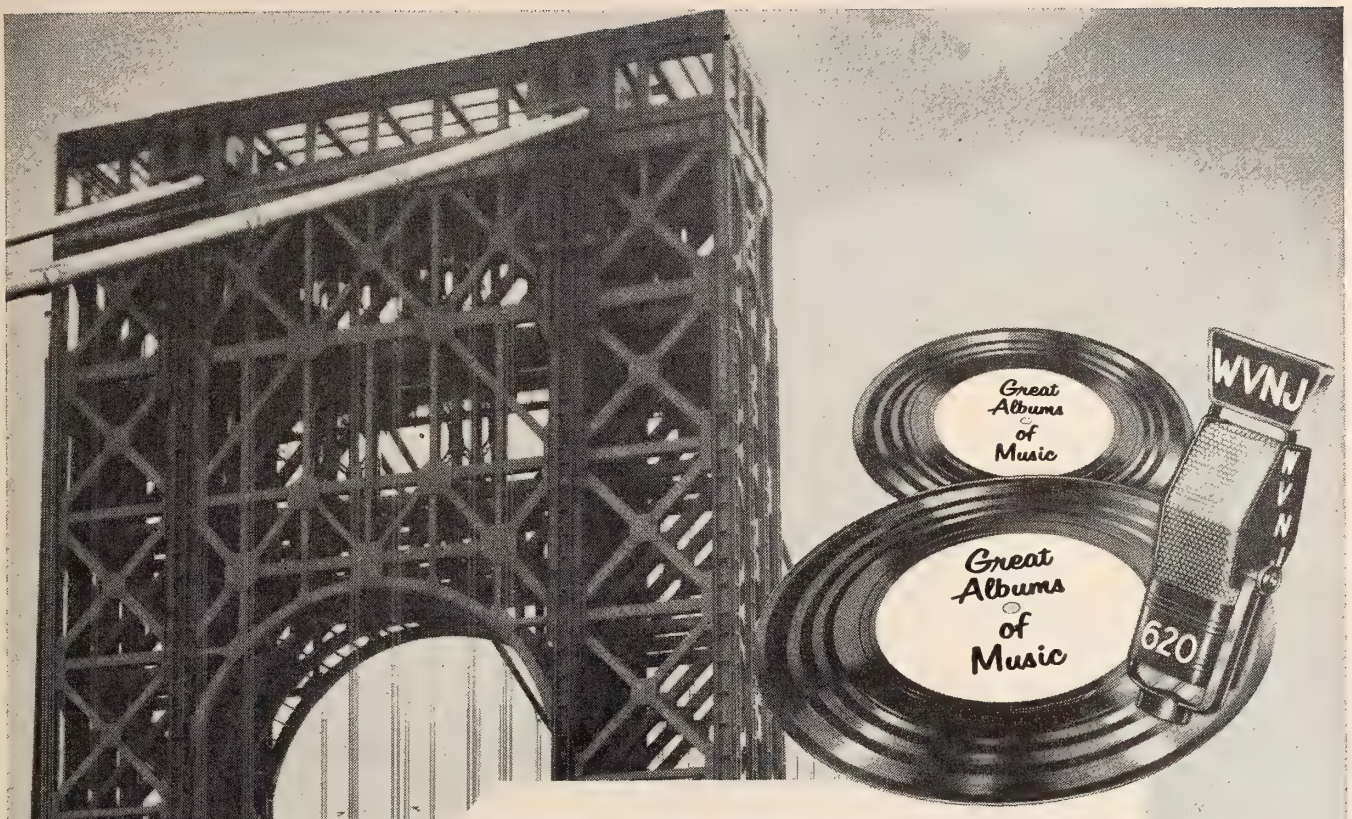
The registration pattern last week at preconvention headquarters of the Storz Stations, 820 Kilpatrick Bldg., Omaha, showed 70% stations (one-half program personalities, one-half management) and 30% record companies and allied service firms.

Major entertainment events are scheduled during the convention with an all-star show of recording artists set for Saturday night.

Evening cocktail party by Mercury Records on Thursday (May 28) will precede the formal sessions which get underway on Friday. Mercury Records' Kenny Meyers is host. United Artists Records President Max Youngstein is tendering the Friday morning breakfast. Todd Storz, president, Storz Stations will open the convention and introduce the keynote speaker Harold Fellows, president, NAB.

Three panel sessions are slated Friday morning. Matthew J. Culligan, executive vice president, NBC Radio, and Gordon McLendon, president, McLendon Stations, will debate network vs independent radio. Morgan Beatty, NBC; Dave Muhlstein, KLIF Dallas, and Dick Schmitz, KAKC Tulsa, will discuss "News Should Be New" while Robert Eastman, Robert Eastman Co.; Art McCoy, John Blair Co., and Adam Young, Adam Young Co., will talk on the subject "Radio Reps Are Salesmen Too."

An Ike-Sponsored Message • Friday lunch sponsored by RCA Victor Records with Bill Bullock as host, will hear Dr. Shayne MacCarthy, executive director, President Eisenhower's Committee on Youth Fitness, discuss youth fitness as "a product to sell." Four panels are set for Friday afternoon:



"What Is a Personality Today"—Joe Finan, KYW Cleveland; Jim Hawthorne, KDAY Santa Monica, Calif.; Mike Joseph, Capitol Cities Broadcasting, and Dick Martin, WWL New Orleans. "From Deejay to Management—It's Happening"—Bill Camperson, WHOL Allentown, Pa.; Art Ford, WNTA Newark, and Marty Hogan, WCFL Chicago. "Evaluation of Station Promotion"—Bob Adams, WAKE Atlanta; Paul Cowley, WKLO Louisville; Harvey Glascock, WHK Cleveland, and Duncan Mounsey, WPTR Albany. "Too Many Record Releases?" —Bobby Beers, KOBY San Francisco; Archie Bleyer, Cadence Records; Bob Clayton, WHDH Boston; Buddy Deane, WJZ-TV Baltimore; Mike Maitland, Capitol Records, and Randy Wood, Dot Records.

Late Friday afternoon further discussion will be held on feasibility of a national disc jockey organization and Friday evening Capitol Records will host a cocktail party-stereo recording session featuring Peggy Lee and the George Shearing Quintet.

Atlantic Records' Ahmet Ertegun will host Saturday morning's breakfast with New York publicist Russell Birdwell starting off the day as initial speaker. "Are Live Commercials Dead?" will follow as the topic of a panel to include Al Collins, WNEW New York; Bill O'Connor, Chicago freelance performer; Harry Renfro radio-tv director, D'Arcy Adv., St. Louis, and Joseph Stone, vice president, J. Walter Thompson Co., New York.

Future Trends • Music will be discussed by Joe Carlton, Carlton Records; Dave Cavanaugh, Capitol Records; Hal Fein, Roosevelt Music Publishing; Alan Freed, WABC New York; Jack Karey, WCFL Chicago, and Joe Kolsky, Roulette Records. "Swingin' in the Smaller Markets" is the topic for Charlie Boone, KXGO Fargo, N.D.; Howie Leonard, WLOB Portland, Me., and Al Rockwell, KRNT Des Moines. What the promotion man can do for the d.j. will be outlined by Buddy Basch, New York; George Jay, Hollywood, and Dick LaPalm, Chicago. Columbia Records will give the Saturday lunch.

Saturday afternoon panels include "Do We Live and Die by Ratings?" with John Box, Balaban Stations; Dr. Sydney Roslow, Pulse Inc., and Frank Stisser, C. E. Hooper Co. Another, "Programming—More Than Just Juggling Numbers," will feature Bob Forward, KMPC Los Angeles; Larry Monroe, KXOK St. Louis, and Tom Smith, WNVY Pensacola, Fla. "The Pros and Cons of Formula Radio" panel will hear Bill Kaland, program manager,

Nothing else like it in Greater New York

IN PROGRAMMING: The voice of WVNJ is unique. It's the only radio station in the entire Metropolitan New York area that plays just Great Albums of Music from sign on to sign off — 365 days a year.

IN AUDIENCE: So different, too. So largely adult — so able to buy — so able to persuade others to buy. And in Essex County alone (pop. 983,000) WVNJ dominates in audience — in quality of audience — and in prestige.

IN VALUE: It delivers the greater New York audience for less than 31c per thousand homes — by far the lowest cost of any radio station in the market.

RADIO STATION OF The Newark News

national rep: Broadcast Time Sales • New York, N. Y. • MU 4-6740

WVNJ

Newark, N. J. — covering New York and New Jersey

'Be my guest'

RCA Victor Records during the disc jockey convention is providing a special suite with full recording facilities and photographers so disc jockeys can tape interviews with recording stars not only of RCA Victor but also any competing label. Photos will be sent to hometown newspapers. Wives of convention delegates will be treated to sightseeing tours of southern Florida, courtesy Cadence Records.

Westinghouse Broadcasting Co.; Harold Krelstein, president, Plough Stations, and Bob Purcell, president, Crowell-Collier Broadcasting Co. (KFWB Los Angeles). Late Saturday afternoon Liberty Records will give a cocktail party with Julie London and David Seville as co-hosts.

Saturday evening's annual banquet will be sponsored by Dot Records with Randy Wood as host and Pat Boone as special guest. Miami Beach is renaming Collins Ave. "Pat Boone Blvd." for the day. The second annual all-star recording artist show follows, featuring Pat Boone, Cathy Carr, Chris Connor, Vic Damone, Alan Dean, The Diamonds, Peggy Lee, Playmates, Jimmy Rodgers, Jack Scott, George Shearing, Dodie Stevens, Gary Stites, Kirby Stone Four, Jesse Lee Turner, Andy Williams and Panama Records Orchestra directed by Lon Norman. Sunday 1 a.m. is kickoff for a breakfast dance and bar-b-que sponsored by Roulette Records and featuring the Count Basie Band. Morris Levy will be host.

Panel session moderators will include Bill Stewart, Storz Stations, convention co-ordinator; Paul Berlin, KNUZ Houston; Tom Edwards, WERE Cleveland; Robin Seymour, WKMH Detroit; Robert Larsen, WRIT Milwaukee; Joe Smith, WILD Boston; Ira Cook, KMPC Los Angeles, and Paul Cowley, WKLO Louisville.

Four Star to Republic

Four Star Films Inc., at present in Fox Western Studios, Hollywood, will lease Republic Studios for five years starting next month. Four Star is owned by actors Dick Powell, David Niven and Charles Boyer.

President Powell says that the company has commitments to produce five tv series for next season. Sales of five more are anticipated within the next few weeks. Republic will furnish all back lot labor while Four Star will bring more than 100 permanent employes (producers, directors, assistant directors, transportation, editorial, story and casting departments, etc.). William Morris Agency represented Four Star in the negotiations.

NBC's 'Star Dust' sprinkled further

NBC Radio's "Star Dust" plan goes into effect Today (May 18). The new network programming scheme features top show business personalities in five-minute vignettes 17 times daily. Starting at 7:25 a.m. and continuing until 11:25 p.m., the vignettes will be heard at 25 minutes past each hour on weekdays and are also set at the same time on NBC's weekend *Monitor* schedule.

The expansion of "Star Dust" to seven days a week mean an addition of five hours per week of new network programming, according to Matthew J. Culligan, executive vice president in charge of the NBC Radio network. Mr. Culligan last week said that the segments will have availabilities for one network commercial and one local commercial, offering opportunities for tie-ins by local or regional dealers of network sponsors. Compensation to the affiliates for network sales will be made at the regular rates. Liggett & Myers Tobacco Co., for its L&M cigarettes has signed for the first 13 weeks. Its order was placed through Dancer-Fitzgerald-Sample, New York.

Some tv news coverage has lost zip—Schary

Television's greatest power and attraction is in its immediacy, its spot coverage of national and world events but of late some of the news programs have lost the "sense of urgency . . . They seem to have the salt edited out of them."

Dore Schary, writer-producer of tv, stage and motion pictures, made this point and a few others last week at the final Radio & Television Executives Society meeting for the 1958-59 season.

At a luncheon held at New York's Hotel Roosevelt, Mr. Schary, in the featured address, thought there was nothing wrong in the medium "that a few good programs cannot cure," said he was aware that tv executives were concerned with the future of the medium and offered a few suggestions.

He said tv news programs seem to go out of the way not to offend anybody; he views "with a little bit of alarm the prospect of generations of children growing up with jingles swarming through their consciousness, not to mention the adults"; considering the pressures on tv it is "surprisingly bold"; fiction on television is at "second best" and cannot compete in this area with motion pictures which do it better (the documentary gets tv its biggest audiences, he said).

In the myriad of observations and comments, Mr. Schary made the point also that the "right to offend" is a "theatrical right" and that this is the reason he thinks creative minds are happiest in the theatre.

Acme Labs, Hollywood, to process video tape

With the installation of two Ampex videotape recorders, Acme Film Labs of Hollywood last week became the first motion picture laboratory in the land to be equipped for tv tape. With its four Prescott 16mm kinescope recorders, Acme is now ready to transfer programs from tape to film or film to tape.

Nel Sawelson, vp and general manager of Acme Labs, stressed that Acme is not a program producer but a duplicating service, said that "So many of our customers are talking tape that we recognized it was time for us to add tape facilities."

Mr. Sawelson listed audition kinescopes of taped pilots and filmed copies of taped programs for stations not yet equipped with vtr facilities among tape-to-film needs his new facilities will serve and future taped reruns of current tv film programs as a film-to-tape service. Noting that a single reel of tape can hold two half-hour shows, plus integrated commercials and a station-break, Mr. Sawelson said this "Means a complete hour's package, one that will run automatically on the air. In fact, it is logical to transfer a station's entire daily assortment of film programming to tape. Station breaks and commercial spots can be included in the same reel. Those portions of the station's daily schedule would become virtually a push-button operation."

He suggested that the tape-film combination in one laboratory makes it a natural for sports shows. "The live picture of a ball game or other sports event could be fed into the lab's tape recorder, immediately transferred to 16mm film, edited into a half-hour program and shipped out to stations for broadcast the same night."

Assisting Mr. Sawelson in the new tape operation are Pete Wood, production supervisor of video-recording at Acme, formerly with CBS-TV where he helped set up the vtr department, and Irving Kahn, video-recording sales representative, who has had four years experience in the kinescope recording field.

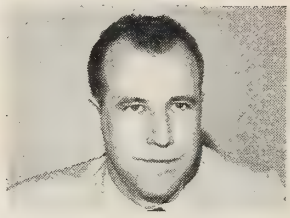
announcing an entirely NEW 3-SPEED TRANSCRIPTION TURNTABLE

The GATES CB-500

To meet the exacting demands in the broadcasting of transcribed music, GATES offers an entirely new commercial transcription turntable. This exclusive new design reduces the rumble to such a degree that production line turntables now exceed earlier laboratory standards.

Rumble or noise reduction has been accomplished in turntables before, but with the sacrifice of other needed features. The GATES CB-500 turntable will come up to speed at 33⅓ RPM in 1/8 turn and at 45 RPM in 1/6 turn. This is equivalent or superior to other recognized quality turntables which in most cases have higher rumble content.

Speed change is exact and functionally correct. All 3 speeds shift across a single indexed plate. The operator may start his turntable in three modes: (1) slip cueing, (2) start switch, and (3) by moving the speed shift lever from neutral to the speed desired. Any starting method is free of jumping or grabbing.



Yes, you will want to know more about this exciting new turntable. Write today for Bulletin 108-B which provides test comparisons of leading friction drive turntables and describes each outstanding feature of the new GATES CB-500.

E 
says Frank Palmer, Gen. Mgr.
WFBG-TV
ALTOONA, PA.
High ratings are top sales argument with sponsors. And because Warner Bros. features dominate the competition, they're a cinch to sell. Frank Palmer writes:
"Warner Bros. features help us capture the late night audience. In November, for example, we ran four Warner Bros. features from 11:15 p.m. to sign off in one week. They netted us an average share of better than 70% of the audience! How's that for dominating?"
Warner Bros. features have produced such stand-out ratings morning, noon and night... weekdays and week ends. They break records for audiences and sponsorship time after time. Latch on to these profit-makers for your station. They're sure-fire!

NEW TV DEMAND
Mobile tape service is latest enterprise

Mounting interest in taped tv shows has created a sudden demand for services provided by mobile tape units. In recent weeks at least four companies have either been formed or have branched out to meet the specialized needs. Those reported to BROADCASTING are: Intercontinental Television, New York, Paris and Geneva; Mobile Video Tapes Inc., Hollywood; Mobile Video Tape Productions Inc., New York, and Giantview Television Network, Detroit and New York.

Last week, partners Bob Craver and Ted Le Van announced the opening of their MVT Productions Inc., at 40 E. 49th St. in New York. They reportedly have three mobile tape units which will travel anywhere in the U.S. at a basic charge of $500 per day, including the use of an Ampex videotape recorder, truck and driver. Mr. Le Van resigned Friday (May 15) from NBC-TV where he was video tape engineer. Mr. Craver, formerly at tv stations in Norfolk, Charlotte and Atlanta, has spent the past year in research and development for a mobile unit.

Giantview, a closed-circuit organization and manufacturer of the Giantview theatre-type tv projector, also last week reported it has under construction a mobile tape recording unit which will be available in June on an unrestricted rental basis to advertisers, agencies, tv stations and independent film producers. Giantview's mobile equipment includes an Ampex videotape recorder, four studio-image-orthicon cameras, 20 lenses including zoomars, self-contained power supply, kinescope recording unit, and television audio recording facilities.

Previously announced were: Mobile Video Tapes Inc. (BROADCASTING, May 4), headed by Lester E. Hutson, which offers to tape tv programs or commercials either in a studio or via its Ampex-equipped mobile unit. Intercontinental's first assignment was to tape NBC-TV's *Today* program in Paris the last week of April (BROADCASTING, March 30). David Lown is president of Intercontinental.

Color values

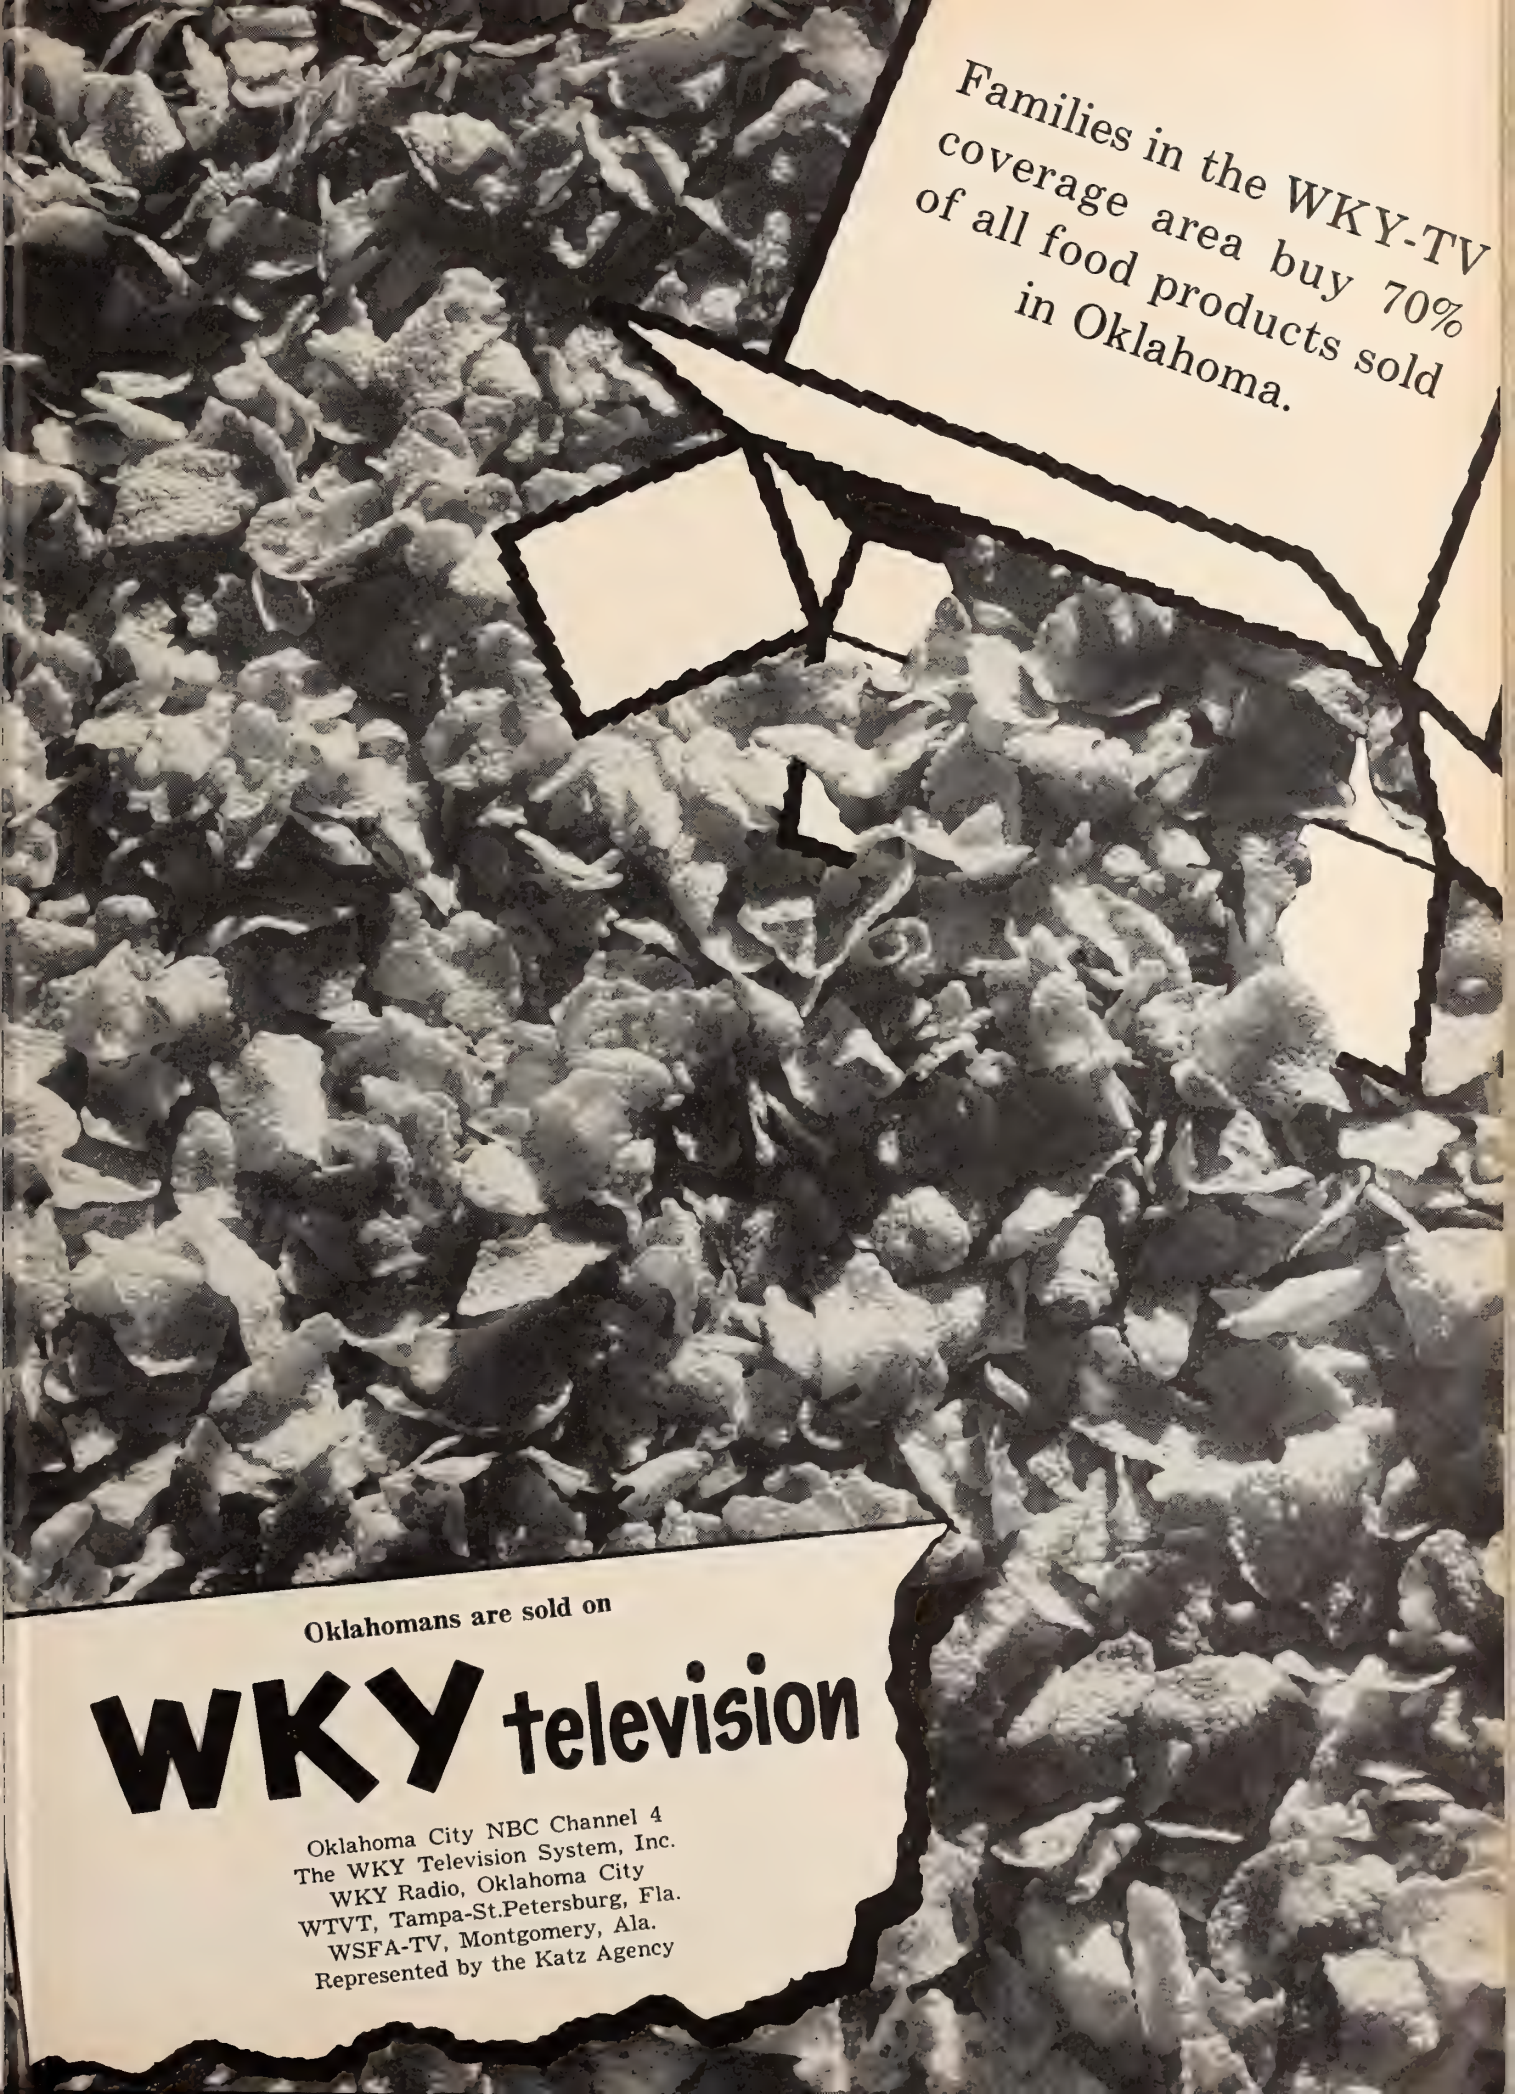
That RCA is dead serious about promoting color tv there is no doubt. The extent to which it will go will be evident in New York May 29 when independent WPIX (TV) transmits (in color) a two-hour documentary on Africa entitled *Freedom*—competing for audience against RCA o&o WRCA-TV. WPIX, excited about the potentialities of the *Freedom* show and knowing much of its effect depended on color, asked RCA for a helping hand. Result: RCA will run the show through its color film chains, piping the signal to the WPIX transmitter atop the Empire State Building for broadcast.

NBC, United Artists talk new tv series

United Artists Television and NBC-TV officials were negotiating Thursday (May 14) on a new anthology series along the parent United Artists Corp. pattern (CLOSED CIRCUIT, May 11).

NBC-TV, it was revealed, has offered UA-TV a plan for placing the series on the network in the next fall season, asking for a commitment of 13 programs with options for 26 more.

UA-TV, however, appeared to prefer a contract that would initially commit a network or advertiser (or advertisers) to a 26-program series which gives the stable of independent producers who make motion pictures for United Artists Corp. a hand at tv production.



Officials of UA's tv arm appeared unconcerned about a sale "next fall," taking the position they could sit tight and develop programs on a long-range basis.

But the sudden departure from New York of UA-TV President Herb Golden (who also is liaison with parent UA) Thursday to Hollywood where he joined Executive Vice President Burce Eells, who has been negotiating with the independent production companies as well as NBC-TV, revealed no dragging of feet over the proposal.

The UA-TV idea is to use the long list of motion picture properties now held by UA (Warner Bros. library, former UA releases and still other features) for story material, with the independent producer contributing at least one filmed program. More than 60 producers work at one time or another for UA in producing motion pictures, and, UA-TV said, the producer with a name star might join hands with another which has the "right story."

The UA-TV series, tentatively called *United Artists Playhouse*, would have several production companies participating in which Hollywood stars are principals. These name stars probably would not appear in the program but would act in the capacity of introducing the show, thus gaining extra mileage in audience interest.

The programs would be budgeted at

$100,000 to $150,000 each and would be an hour in length.

UA has such producers as Hecht-Hill-Lancaster (Burt Lancaster), Edward Small (who has produced for tv), Kirk Douglas and Mirsch Bros. among others who already have shown interest in the tv project.

The UA pattern is to finance motion picture producers and to share ownership with them. If the NBC-TV-UA-TV deal is effected, the network also would share in ownership.

Fight on theatre-tv

TelePrompTer Corp., New York, last week was awarded the closed-circuit television, radio and motion picture rights to the Floyd Patterson-Ingemar Johansson heavyweight championship bout at the Yankee Stadium in New York on June 25, for a sum announced at $300,000.

Irving B. Kahn, president of TelePrompTer, announced that the match will be telecast into at least 200 locations throughout the country. He said he is now negotiating to sell the network radio rights in the U.S. and the foreign radio rights in Europe.

$5 million expansion

Jayark Films Corp., New York, which last week announced elections of Jacques Grinieff to board chairman and company director and Jerry Pressman to treasurer and director, says it plans immediate expansion. The two, along with Jayark President Reub Kaufman, were reported to have put $5 million into the corporation. Mr. Grinieff is identified as a distributor of U.S. theatrical and tv films in foreign countries. Mr. Pressman is a financier.

Jayark, which until now has limited itself to the distribution of a children's show, *Bozo the Clown,* says it will proceed with plans to produce and distribute two new half-hour series for exhibition this fall.

New 'mid-50' package

Show Corp of America, N.Y., has made available to tv stations a new package of post-1950 feature films, which it calls "Mid-'50 Movies." The average theatrical release year for the 22 movies in the package was 1955, according to Robert Manby, SCA president. Mr. Manby last week reported the movies were sold in 20 major markets in the opening days of the sales campaign.

• Program notes

• A new NBC-TV weekly panel quiz show, *Who Pays?* will start Thursday, July 2 (8-8:30 p.m. EDT), replacing *The Lawless Years,* which moves to 8:30-9 p.m. slot. This will force out *Too Young to Go Steady* in the 8:30-9 p.m. Thursday slot. The new entry, a Lester Lewis Production, stars Mike Wallace as m.c. and Sir Cedric Hardwicke, Celeste Holm and Gene Klavan as panelists. The panelists will be asked to determine the position of each of three employes of three mystery guests, who will be viewed by the audience only, and then to identify the celebrities.

• MCA-Tv Ltd., New York, announces the sale of its *SA 7* mystery-adventure series to the Kroger Co. (grocery and meat products) in Atlanta, Ga., and the Falstaff Brewing Co. in Los Angeles. The half-hour series, starring Lloyd Nolan as an Internal Revenue agent, is now in 143 markets.

• Screen Gems, N.Y., with the cooperation of the Professional Golfers' Assn. of America, has slated two hour-long golf tournament series, with a total of $1.2 million in prize money over a three-year period. Briskin Productions and Mitchell J. Hamilburg Productions are to begin work on the project mid-summer, for fall airing. Matches will be filmed on courses throughout the U.S. A pool of 65 top golfers, including 30 of the 35 leading money winners, is said to have been engaged for one or both of the series.

• Robert Lawrence Productions (Canada) Ltd., Toronto, has begun building a new film center. Affiliated with the New York firm of the same name, RLP Canada is considered the largest producer of tv commercials in Canada. The new center, which is to house three motion picture stages in 25,000 feet of space, will enable the organization to expand into other realms of film-making plus video-tape.

• Loew's Inc., N.Y., distributor of *Our Gang* comedies, reports it has withdrawn its suit against KARD-TV Wichita, filed by the company in U.S. District Court there last October. Loew's acted after KARD-TV agreed to cease using the name "Our Gang" either as a tv program title or in any other way, a company spokesman said.

• Sterling Television Co., N.Y., is readying for U.S. syndication its *Adventure Today* half-hour film series. It consists of documentaries photographed the world over, some by Ray Forrest, who acts as host on all of the shows. Sterling announces that the Canadian Broadcasting Co. has renewed the series for the second consecutive year.

• Local 776, International Alliance of Theatrical Stage Employes, violated the labor act by depriving Henry A. Carlson of employment by Cascade Pictures of California, L.A., according to an intermediate report and recommended order issued May 16 by David F. Doyle, trial examiner of National Labor Relations Board. The union should notify the film company it has withdrawn objections to employment of Mr. Carlson, a non-member, as an apprentice film editor, according to the recommended order.

• Van Praag Productions, N.Y., has presented a pilot version of its new, live program, *The Ad Libbers.* As each show begins, six actors from a permanent pool of ten are presented with a situation submitted by a viewer. They have 10 seconds to confer, select props and create an appropriate playlet. To pacify those who doubt the spontaneity, Van Praag is posting a $1 million bond payable to anyone who can prove otherwise. The cast includes Kaye Ballard, Dayton Allen, Helen Gallagher, Milton Kamen, Alice Ghostley, Bibi Osterwald, Larry Storch and Gretchen Wyler.

• *Americans At Work,* a series of 52 15-minute film shows produced for the AFL-CIO is currently being shown on more than 80 tv stations. The documentary films, produced by Norwood Studios Inc., Washington, D.C., have a production budget of $175,000 for the entire series. The public service features avoid any direct labor "mes-

COLORCASTING

Here are the next 10 days of network color shows (all times are EDT):

NBC-TV

May 18-22, 25-27 (2:30-3 p.m.) **Haggis Baggis,** participating sponsors.

May 18-22, 25-27 (4-4:30 p.m.) **Truth Or Consequences,** participating sponsors.

May 18-25 (10-10:30 p.m.) **Arthur Murray Party,** P. Lorillard through Lennen & Newell.

May 19-26 (8:30-9 p.m.) **Jimmie Rodgers Show,** Liggett & Myers through McCann-Erickson.

May 20-27 (8:30-9 p.m.) **The Price Is Right,** Speidel through Norman, Craig & Kummel and Lever through J. Walter Thompson.

May 20-27 (9-9:30 p.m.) **Kraft Music Hall,** starring Dave King, Kraft through J. Walter Thompson.

May 21 (9:30-10 p.m.) **Ford Show,** Ford through J. Walter Thompson.

May 21 (10:30-11 p.m.) **Masquerade Party,** P. Lorillard through Lennen & Newell.

May 22 (7:30-8 p.m.) **Northwest Passage,** sustaining.

May 22 (8-9 p.m.) **Ernie Kovacs Show,** Renault through Needham, Louis & Brorby.

May 23 (8-9 p.m.) **Perry Como Show,** participating sponsors.

May 24 (7:30-8:30 p.m.) **Steve Allen Show,** RCA through Kenyon & Eckhardt.

May 24 (9-10 p.m.) **Dinah Shore Chevy Show,** Chevrolet through Campbell-Ewald.

sage" but stress the role played by the working man in American industries, ranging from automobiles and newspapers to pottery.

• Arizona Broadcasters Assn. will present two radio-tv scholarships for the eighth annual High School Fine Arts Summer Session at the U. of Arizona June 7-20. The association will choose candidates by conducting a state-wide essay contest on "Why I would like to make radio my career." Carl Haverlin of BMI gave a scholarship to the university's music session. Thomas W. Chauncey, president-general manager, KOOL-AM-TV Phoenix and KOLD-TV Tucson, both Arizona, also gave scholarships to the university. Two of his scholarships, chosen by a faculty committee, are given in behalf of KOOL-AM-TV. Another two scholarships Mr. Chauncey gives in behalf of KOLD-TV.

• Allen A. Funt of Croton-on-Hudson, N.Y., creator-producer of *Candid Camera* tv programs, has repurchased the 89 episodes of the program from United Artists Assoc. He is updating and placing them into syndication on a worldwide basis. Mr. Funt has an international series of *Candid Camera* in production. His eavesdropping cameras compare an incident in America with a similar event in another country.

• Jerome Balsam Films Inc., New York, announces its national sales representation of *The Big Red Mile,* new tv series dealing with harness racing. Produced by R.J. Crocher of Coral Gables, Fla., the 39-episode series is being filmed at various tracks throughout the country.

• WOR New York starting today (May 18) will air a Monday through Friday program from Washington co-produced by Martha Rountree and Lucy Jarvis (3:15-4 p.m. EDT). WOR announced it will syndicate the program for national distribution, but will retain exclusive radio service of Miss Rountree in the New York area. The programs will feature personalities in the news and a behind-the-scenes look at political and social activities in the Capital.

• Screen Gems Inc., New York, announces sale of 150 feature films and the *Burns and Allen* 239 half-hour film series to WHDH-TV Boston. *Burns and Allen* is now in 89 markets.

• Famous Films Div., NTA Program Sales, New York, places in distribution this week a group of some 200 comedy shorts, averaging 10 minutes running time. Known as *Custard Pie Playhouse,* the package includes performances by Robert Benchley, Willie and Eugene Howard, W.C. Fields, Smith and Dale, Billy House, Chester Conklin, Ford Sterling and a multitude of others.

• Guild Films Co., N.Y., has a one-hour-long jai-alai sports tape show available. XETV (TV) Tijuana-San Diego, which regularly programs the games, shoots them at the local fronton.

• Seven League Enterprises, Los Angeles, has appointed Screen Gems to syndicate *Seven League Boots,* half-hour documentary series produced by Jack Douglas, producer-narrator of *Bold Journey,* now completing its third year on ABC-TV. *Seven League Boots* has been running on KCOP-TV Los Angeles, whose president, Kenyon Brown, is associated with Mr. Douglas in Seven League Enterprises. Although location footage on the final 13 of the first 39 installments of *Seven League Boots* is still being shot, Screen Gems is now offering the series to sponsors and stations.

• *Reckoning,* an anthology of 10 hour-long dramatic programs, will replace *Perry Mason,* during the summer on CBS-TV, starting July 11 (7:30-8:30 p.m.). The summer replacement is a reprise of individual CBS-TV programs originally presented in 1958 on *Pursuit, Studio One in Hollywood* and *Climax.*

• Destiny Productions, new film company, has opened offices at General Service Studios, Hollywood, and announced a 60-minute tv pilot, *Wild Blue Yonder,* comedy with aeronautical background, as its first production, to be filmed in May. De Von Stanfield, former associate producer at Robert Hinkle Productions, is president and executive producer of the new firm. James Seastrand is vice president and business manager. Verland Whipple has been named associate producer.

• Sindee Productions Inc. has been formed by Irving H. Levin, Harry L. Mandell, Maurice Duke and Henry F. Ehrlich to produce filmed tv series. The company's first series is *Pancho Villa,* with actors Harry Carey Jr. and Pedro Armendariz. The initial episode was shot on location near Mexico City. Series' distributor: MCA.

• KOMA Oklahoma City, Okla., has revamped its programming to include modern and popular music on LP phonograph albums. KOMA is the first Storz station to program extensively from albums.

TV IS HIT BY FEDERAL CONFLICT

Internal Revenue, Justice film rulings create tax muddle

A new ruling by an Internal Revenue Service office on the amortization of movie films leased by tv stations may prove costly to broadcasters.

The ruling, issued through a unit of the IRS San Francisco regional office, is interpreted as in conflict with the entertainment industry practice of attaching prime importance to first-run showings of movies.

Here is the local IRS decision that has raised key problems in connection with tv station taxes:

"Where the contract (movie film lease to a tv station) provides for a limited number of telecasts during a limited period of time, amortization is to be computed by dividing the cost of the package by the number of telecasts permitted under the contract.

"The cost per telecast, multiplied by the number of telecasts during the taxable year, determines the amount of amortization allowable for that year.

"Where the contract provides for an unlimited number of telecasts during a limited period of time, amortization is to be computed ratably over the life of the lease."

An Auditor's View • A station auditor looked at it this way: Justice Dept. demands that movie films be leased to a tv station individually by a distributor. This helps prevent distributors from hitching a lot of dogs to a few desirable films and requiring purchase of the whole package.

However, IRS under the new ruling insists that a tv station leasing individually a group of, say, 500 movies from one distributor be required to amortize on a package basis. If each film can be shown five times under a lease arrangement, then only 1/2,500th of the total lease value can be amortized for each individual showing of a film.

This auditor added, "The ruling would work a hardship on tv stations by ignoring completely the premium values attached to first runs. It would force them to go into completely unrealistic accounting procedure not properly reflecting profit and loss."

Some movie leasing contracts specify, for example, that if the lessor must repossess a film that has been shown once it is worth only 40% of the base price.

This question was asked: How can the Dept. of Justice contend that a motion picture distributor cannot sell a group of films as a package while revenue officials say a tv station must amortize the films leased from this firm as a package?

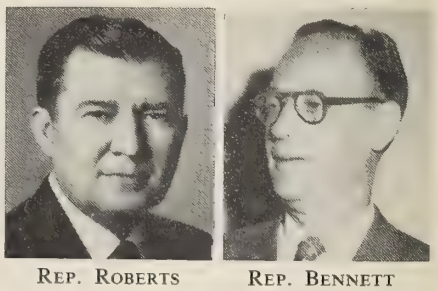
IRS No Help • Inquiry at the IRS Washington headquarters and the San Francisco regional office provided no helpful information. The Washington office said it had no record of any ruling on movie leases by tv stations. The regional office took the position it could not comment on a decision issued by one of its district offices in connection with a single taxpayer's tax return.

The regional office said the taxpayer was not forced to accept the ruling but could ask a conference, appeal to the IRS appellate division or go to the Tax Court.

It conceded, however, that IRS regions and even the national headquarters frequently take individual rulings and circularize them to IRS offices to bring uniformity in cases.

In another tv situation, the IRS headquarters office in Washington is studying the problem of tax procedure in the case of films produced solely for tv as distinguished from movie films.

HOUSE GROUP HEARS ETV PITCH



Formidable opposition looms from GOP, some Democrats, against state grants

Educators last week made their second trip to Congress since January in an all-out campaign to secure federal funds for educational television. The forum last Tuesday and Wednesday (May 12-13) was the Communications Subcommittee of the House Commerce Committee, which held hearings on a Senate-passed bill (S 12) and seven House bills each allocating $1 million to each state for etv.

And it soon became apparent the proposal faces rough sledding in the fight for House approval. Republican members of the committee were openly hostile while some House Democrats privately expressed opposition. The GOP Administration, too, reiterated its opposition to the bill through the commissioner of education.

Some 25 witnesses who favored federal funds to help educational television repeated essentially the same arguments given during Senate hearings in January. They were (1) states do not have the necessary money to boost etv to its full potential; (2) etv will help relax the teacher and classroom shortage; (3) etv will make college degrees possible to thousands who cannot otherwise attend college; (4) unless the fallow educational reservations are put to use, repeated commercial demands for the channels can no longer be repulsed, and (5) etv must be built up to its full potential to meet the challenge of Russia in the scientific and cultural fields.

Rep. Kenneth Roberts (D-Ala.), who chaired House etv hearings last summer, made a strong pitch for his version of federal aid over the Senate-passed bill. Rep. Roberts' measure (HR 2926) calls for states to match federal funds granted for etv. "From the viewpoints of economy and local interest, I strongly urge that any legislation which you report authorize matching grants," he said.

REP. ROBERTS REP. BENNETT

They press their views

Rep. Morgan Moulder (D-Mo.), also author of a matching-funds proposal, said such legislation has the best chance for House passage and is less likely to be vetoed by the President. Another etv advocate in Congress, Rep. Stewart Udall (D-Ariz.), said he would vote for additional taxes if necessary to finance federal aid for etv.

An attack on one provision of the

a 6-billion-dollar company that has never made a profit . . . and never intends to

That's the story of Mutual Of New York . . . providing more than a million people with well over 6 billion dollars' worth of life insurance protection *at cost*. And that has been our aim and our achievement since 1843, when we became the first company in America to offer *mutual* life insurance to the general public.

A *mutual* life insurance company is a nonprofit organization, owned by its policyholders and operated solely for their benefit. The policyholders, in effect, insure one another. They share the expenses of this mutual protection, making regular premium deposits in their mutually owned company.

These deposits are carefully invested by the company. The *returns* help reduce the cost of insurance for each policyholder. Nothing is paid out to stockholders, because a *mutual* insurance company has no stockholders.

But the policyholders in such a company are not the only people to benefit from their company's investments. These investments help finance homes and farms, roads and schools, medical research and manufacturing. This, in turn, creates jobs, goods and services that benefit the individual citizen, the local community, and the national economy.

This concept of mutuality has worked well; so well, in fact, that the vast majority of all life insurance policyholders throughout the United States and Canada are *mutual* policyholders, following the path pioneered by Mutual Of New York more than 116 years ago.

Roberts-Moulder bills, limiting the proposed grants to tv stations owned or operated by a state, was attacked by Rep. Hale Boggs (D-La.). Rep. Boggs maintained that non-profit organizations and private schools should be eligible for federal money, as provided in his bill (HR 32) and most of the others.

As during the Senate hearing, Comr. T. A. M. Craven appeared for the FCC. He again repeated that the Commission takes no position on the proposals and that it is up to Congress to decide.

John Cunningham, board chairman of Cunningham & Walsh, testified in favor of allocating federal funds to states for etv because, he said, "I have found that tv, next to the printing press, is the most powerful instrument yet devised to reach the human mind." He said tv is the one instrument which can re-awaken an active interest in science, chemistry and the arts.

Rep. John Bennett (R-Mich.), ranking minority member of the committee, keynoted the opposition when he said: "Rapid progress has been made in the development of educational tv without the type of federal assistance sought in these bills. . . . The greatest assistance to be rendered by the federal government is in the assignment of channels for educational purposes and in the encouragement of uhf development."

He pointed out that every Congress is besieged with requests for appropriations to colleges for vitally needed facilities and asked whether refusal of these funds be justified if grants are made to etv.

Both Rep. Bennett and L. G. Derthick, U.S. commissioner of education, said that if Congress does pass an etv bill, they would favor the matching-funds system. Mr. Derthick, who would be responsible for administering the funds to various states if one of the bills becomes law, repeated the position of the Dept. of Health, Education & Welfare that federal aid is not needed.

He maintained etv has been progressing satisfactorily to date without federal assistance. He said much more research and experimentation is needed in the field before the government considers any action and that the pending bills would not accomplish this purpose.

Mr. Derthick pointed out that the 1958 National Defense Education Act appropriated $18 million to be used over four years to conduct surveys and studies of this type. About half of the 69 projects approved (34 last week) under this bill, costing $5 million, are for research in etv, he said, and HEW will be in a better position to know what is needed after these studies are completed. He estimated this would be in two to three years.

EQUAL TIME BILLS
Congress gets No. 7, drive on for hearings

Equal time relief for broadcasters continued to be a major topic on Capitol Hill last week as a seventh bill was introduced in Congress reversing the FCC-Lar Daly decision (BROADCASTING, Feb. 23) and proponents of the legislation continued to push for hearings.

Latest bill (S 1929) to enter the hopper was introduced Wednesday (May 13) by Sen. Spessard Holland (D-Fla.). It would exempt news broadcasts only from the equal time requirements of Sec. 315 and does not go as far in relieving broadcasters as S 1858, introduced a fortnight ago by Sen. Vance Hartke (D-Ind.) (BROADCASTING, May 11).

Sen. Warren Magnuson (D-Wash.), chairman of the Senate Commerce Committee, said Wednesday that Sen. Hartke had discussed with him the feasibility of a public airing of S 1858. Sen. Magnuson said hearings are on the future agenda but that the committee would like to get recommended amendments from the FCC before proceeding.

Study Soon • The Justice Dept. has told the FCC to reconsider its Lar Daly decision and it is understood the Commission plans to take the matter up within two weeks. FCC Chairman John Doerfer is scheduled to return from a trip to Japan this week and he has publicly called for Congress to repeal the controversial section.

Sen. Holland indicated that he favored broader changes in Sec. 315 than called for in his bill, which was introduced to correct a "ridiculous situation." By limiting the scope of the bill, he said, he hopes to avoid any major debates and increase its chances for passage.

In addition to exempting newscasts from equal time requirements, Sen. Hartke's measure also exempts broadcasters from libel as a result of political broadcasts and defines "qualified candidates" for President and Vice President. Twelve other senators have signed as cosponsors of S 1858.

Sen. Hartke, a member of the Commerce Committee, said that he planned to amend his bill to further define "qualified candidates" for state and local jobs and to distinguish, for equal time purposes, between public service time donated by a station and time purchased by candidates. The burden of proof for qualification would be placed on the individual, he said.

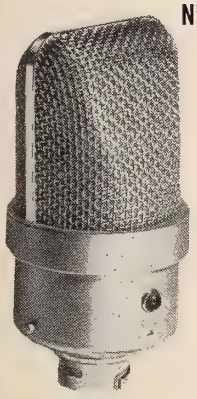
First Author • Rep. Glenn Cunningham (R.-Neb.) authored the first Sec.

Get $75. for Your Old "Mike"!

NEUMANN KM-56 Miniature Condenser Microphone System

The latest to join the precision Neumann line. With quality in every way similar to the U-47 series, but its dimensions are amazingly miniaturized.

Frequency Response: 40-15,000 cps ±3 db
Output Impedance: 50/250 ohms (must be specified in order)
Field Pattern: Switchable on microphone: non-directional, bi-directional, and cardioid
Non-linear distortion: Less than 0.8% entire range to 110 db absolute
Dimensions: Microphone: 7/8" dia.; 6" length
Power supply: 8½" x 4" x 4¾"
Weight: Microphone: 4 oz.
Power supply: 5 lbs.



Operates on 115 volt 40-60 cycles. 5/8-27 standard thread Net $490.00

Complete microphone system consists of microphone, power supply (type NKM) interconnect cable (type KC-1) with Z-38 full elastic suspension, AC power cable. U. S. fuse holder, pilot light, power connector, and XLR output receptacle, with mating cable connector.

KM-54a Miniature Condenser Microphone System Net $460.00
(not shown) Same as above but cardioid directional pattern only. Length: 4¾".

KM-53a Miniature Condenser Microphone System Net $440.00
(not shown) Same as above but non-directional pattern only. Length: 4¾".

NEUMANN M-49b Variable Directional Pattern Microphone System

This microphone permits remote control of the directional characteristic. A smooth, continuous fader-control selects any of the basic directional patterns (non-directional, bi-directional, and cardioid) and any intermediate pattern. Wide frequency response with extremely low distortion, 0.6% 40-15kc up to 110 db absolute, a slight roll-off of frequencies below 40 cycles to prevent shock-noise interference, and extreme ruggedness, make the M-49b the ideal "work-horse" for studio and remote recording, as well as single-mike pick ups from concert halls.

Complete microphone system consists of microphone, power supply (type NN-48), interconnect cable (type C-26), AC power cable, XLR output connector, and MZ-49 swivel mounting harness.

Dimensions: Microphone: 3" dia.; 6¼" length; Power supply: 8½" x 4" x 4¾"
Weight: Microphone: 1¾ lbs.; Power supply: 5½ lbs.

Net $540.00

NEUMANN U-47 (U-48) "Studio Standard" Microphone System

The only condenser microphone in its price range featuring a switchable directional characteristic.

Frequency Response: 40-15,000 cps ±3 db
Output Impedance: 50/250 ohms switchable
Field Pattern: Switchable non-directional or cardioid
Non-linear distortion: Less than 1% entire range to 110 db absolute
Dimensions: Microphone: 2½" dia.; 8" length
Power supply: 8½" x 4" x 4¾"
Weight: Microphone: 1½ lbs.
Power supply: 4 lbs.

Operate on 115 volt 40-60 cycles. Net $390.00

Complete microphone system consists of microphone, power supply (type NG) inter-connect cable (type UC-3) with Z-37 full elastic suspension, AC power cable, U. S. fuse holder, pilot light, power connector and XLR output receptacle with mating cable connector.

U-48 System Same as above but Field Pattern selectable either **bi-directional** or cardioid. Net $390.00

NEUMANN Type SM-2 Miniature Stereo Microphone System

Two separate and complete condenser microphones and their respective pre-amplifiers in the same miniature housing. The two condenser capsules are mounted one above the other, the top one being rotatable to achieve the M-S Stereo Recording Technique (also known as **intensity stereo**). Each of the two microphone systems can be separately switched to any pattern (non-directional, bi-directional, and cardioid) or any one of six intermediate patterns. Specifications identical to KM-56 microphone with addition of extreme balance between systems, and numerous intermediate directional patterns.

Complete microphone system consists of microphone, power supply (type NSM), inter-connect cable (type SC-1) with Z-42 full elastic suspension, AC power cable, XLR Cannon output connectors. U. S. standard pilot light, fuse holder, AC receptacle.

Dimensions: Microphone: 1⅛" dia.; 8" length; Power supply: 8½" x 4" x 4¾"
Weight: Microphone: 9½ oz.; Power supply: 5 lbs.

Net $875.00

...And, have a system used by top recording studios and broadcast stations all over the world. A system to add that "presence", that quality, that superb liveness that good chief engineers won't do without. A Neumann system.

Choose from the best microphones ever made... Neumann microphones... standards of the world.

Choose by number... from numbers that are world-renowned... U-47, U-48, M-49b, KM-56, SM-2. All microphones that have come to be known for their design and manufacture... come to be used for their incomparable reproduction of sound.

Update your sound to compete.

Just wrap your old professional mikes and send them to:

Harvey Radio Co., Inc., Industrial Division
Department BW
103 W. 43 St., New York 36, New York

We'll allow you $75.00 for each towards the purchase of each Neumann system you select. Send those old mikes today.

Service to the Broadcast & Recording Industries for more than 32 years.

Gentlemen:

We're sending you the following old professional "mikes": Please send us:

.....M-49b @ $540.00

.....KM-56 @ $490.00

.....SM-2 @ $875.00

.....U-47 @ $390.00

.....U-48 @ $390.00

Of course, deduct $75.00 from the price of each unit that we've ordered because we've sent the old "mikes".

315 amendment in the 86th Congress soon after the Lar Daly decision. His bill, too, is limited to newscast exemption.

He also favors a much broader revision but feels one step at a time has the best possibilities for congressional action. Rep. Cunningham and other House sponsors of identical legislation are pushing for hearings in that body.

Sen. Kenneth Keating (R-N.Y.) called for a thorough and careful review of Sec. 315 by Congress. He said that he is sympathetic with the objectives of the pending bills but warned that the activities and rights of legitimate third parties must not be curbed.

"I feel that a very careful, overall study of this section of the law should be undertaken by Congress and that special attention must be given to protecting the rights of significant third parties, while at the same time preventing the flooding of mass media by small fringe groups. . ." Sen Keating said.

ABC Position • A week after the other tv networks chimed in quick support of Sen. Hartke's proposal to amend Sec. 315, ABC-Paramount head Leonard Goldenson expressed that network's thinking about the measure.

Reason for his deliberation: (1) Although ABC is unhappy with current interpretations of the equal time provision, it is hesitant to see Congress embark on new proposals which might end in something even worse, and (2) ABC thinks that Congress, by merely clarifying the existing law, could help out in time for the 1960 campaign, whereas a general rewriting might delay things too long.

What ABC would rather Congress did now is to exclude news coverage of a legally qualified candidate on a newscast from the meaning of Sec. 315, and to absolve the broadcaster from liability for statements made by qualified candidates unless the broadcaster had control over the material. (Both are provisions of the Hartke proposal.)

Committee considered

Hope is held out for the establishment of a continuing committee on procedures and practices of federal regulatory agencies at the May 21-22 Washington Judicial Conference.

The problem of the varying practices and procedures of regulatory agencies is scheduled to be taken up by the conference's section on administrative law. William C. Koplovitz, Washington communications attorney, is chairman of that section.

Circuit Judge Warren E. Burger is general chairman of the conference to be held at the Mayflower Hotel.

Lamb tv renewal case in the news again

A bitter wrangle has developed over lawyers' fees in the sensational 1954-57 Lamb case.

In Toledo, Russell Morton Brown has sued Edward Lamb for $500,000. Mr. Brown claimed he was never paid for defending Mr. Lamb in the long and ofttimes bitter hearings.

The FCC charged that Mr. Lamb had not faithfully filled out application forms and other documents to indicate his associations with communist and leftist groups. Involved was the license renewal of WICU-TV Erie, Pa., owned by Mr. Lamb. In 1957 the station's license was renewed after the Commission cleared Mr. Lamb of all charges.

Mr. Lamb said last week that he had retained J. Howard McGrath (former Attorney General of the U.S.) of the firm of McGrath & Brown for the FCC hearings and that he had paid the law firm in full. He said the fees had amounted to over $150,000. "My obligation to the firm of McGrath & Brown has been paid in full," he said.

Mr. Brown and Mr. McGrath are no longer associated in law practice.

Meanwhile, it was learned, Mr. McGrath has been made the target of two suits, also involving the Lamb case. In Washington Mr. McGrath has been sued by Washington attorneys John J. and Jean F. Dwyer for $25,000 as their legal fee in defending Mrs. Marie Natvig against charges of perjury. In Buffalo, N.Y., attorney Vincent Gaughan has sued Mr. McGrath for $100,000 as a forwarding fee in referring Mr. Lamb to Mr. McGrath to handle the FCC matter.

The Dwyer husband and wife firm was appointed by the court to defend Mrs. Natvig, after the 51-year-old divorcee was charged with perjury. She had first testified that she had known Mr. Lamb as a communist in the 1930s. Later she recanted, claiming she was coerced into testifying as she had by FCC and FBI attorneys. She received a two-year suspended sentence.

The Dwyers' claim that Mr. McGrath told them he would take care of their fee in the Natvig case.

Transcontinent tie with Marietta gets ok

The FCC last week approved the merger of Transcontinent Tv Corp. and Marietta Broadcasting Inc., in a stock exchange transaction combining five vhf tv stations, one uhf tv outlet and three am outlets (one with fm) worth around $30 million.

Under the agreement, Transcon-

Coverage
doesn't come this way yet!

Just ask your time-buyer! He'll tell you coverage isn't just had for the asking. But—with your 30-minute show or 30-second station break on film—getting the coverage you want and need is not only possible but economical and practical.

Goes without saying that film also gives you control of your message.

In fact, film does three things for you . . . 3 big important things:

1. Gives you the high-polish commercials you've come to expect . . . fluff-free . . . sure.
2. Gives you coverage with full pre-test opportunities.
3. Retains residual values.

tinent will acquire Marietta's KFMB-AM-FM-TV San Diego and KERO-TV Bakersfield, Calif. Transcontinent owns WGR-AM-TV Buffalo, N.Y.; WROC-TV Rochester, N.Y.; 60% of WNEP-TV Scranton-Wilkes Barre, Pa., and 50% of WSVA-AM-TV Harrisonburg, Va. David C. Moore remains as president of Transcontinent.

Marietta is owned 63.64% by Jack Wrather and 36.36% by Edward Petry Co., station representative. Under the merger Mr. Wrather will own 22.15% of Transcontinent and the Petry Co. 12.66%. The remaining 65.19% of Transcontinent will be held principally by Transcontinent Board Chairman Paul A. Schoellkopf Jr., J. Fred Schoellkopf IV, Seymour H. Knox III, David Forman and George F. Goodyear. Other major Transcontinent stockholders are the General Railway Signal Co., Virginia Deuel and Norma Deuel Lutz.

The merger agreement was reached last February (BROADCASTING, Feb. 16). The uhf outlet involved is WNEP-TV.

Mr. Moore announced the Transcontinent board would be expanded from 9 to 13 members.

Other interests held by Mr. Wrather, but not involved in the merger, are part ownerships of Independent Tv Corp., program production and distribution firm; Muzak Corp.; program series; Disneyland; a construction permit for ch. 44 in Boston, and extensive petroleum holdings.

Peoria ch. 8 tv case is remanded to FCC

The Peoria, Ill., ch. 8 deintermixture case—untainted, but physically related to the Springfield, Ill., ch. 2 case—was remanded by the U.S. Court of Appeals in Washington last week. The court order came four days after it had remanded the Springfield case (BROADCASTING, May 11).

Both the FCC decisions ordering the shift of ch. 2 to St. Louis and the shift of ch. 8 to Moline had been affirmed by the court, but the appeals court decisions were remanded last October by the U.S. Supreme Court, which tied the ch. 8 and ch. 2 cases together because both involved deintermixture in the same general area.

The Supreme Court had said it was remanding the ch. 2 case because of testimony before the House Legislative Oversight Subcommittee, not considered by the lower court, that KTVI (TV) St. Louis, which was awarded ch. 2 there, had made *ex parte* representations to FCC members.

The appeals court last week ordered the FCC to act on the ch. 8 remand after it has acted in the ch. 2 remand.

The shift of ch. 8 from Peoria to Moline had been appealed up to the Supreme Court by WIRL-TV Peoria (ch. 25), which formerly was permittee of ch. 8 before the shift. WIRL-TV had charged pressure for the shift from senators, including Sen. Robert S. Kerr (D-Okla.), who controls WEEK-TV Peoria (ch. 43). The court had heard these charges before its original affirmation of the FCC decision and again after remand from the Supreme Court, but made no mention of them in its decision last week.

The court retained jurisdiction over the ch. 8 case. Judges were E. Barrett Prettyman, chief judge, and Charles Fahy and Warren E. Burger.

Trials of a loser

A lost tv case, three years gone, is still plaguing Howard W. Davis' Walmac Co.

The FCC last week gave Walmac's KMAC-KISS (FM) San Antonio, Tex., 15 days in which to reply to a second Commission letter advising that applications for renewal of the stations' licenses indicate the necessity of a hearing. The Commission had sent KMAC-KISS an initial letter of warning last summer.

The FCC again raised questions concerning Walmac's "misrepresentations, non-disclosures and lack of candor" in the 1956 grant of ch. 12 San Antonio (KONO-TV) to Mission Telecasting Corp. and the denial of Walmac's competing application (AT DEADLINE, May 28, 1956). The Walmac bid for ch. 12 was turned down on financial grounds, another matter which the FCC brought up in last week's letter to the firm.

$10.4 million for FCC in 1960 passes House

The House last week passed HR 7040, the fiscal 1960 independent offices appropriations bill, which allocates $10.4 million to the FCC for the fiscal year beginning July 1. The approved figure represents a $657,000 increase over FCC money allocated for the current year but is $600,000 less than the $11 million asked for by the President (BROADCASTING, May 11).

Of the total appropriation, $2.36 million is for Commission broadcast activities, compared to $1.9 million earmarked for the same purpose in 1959. The additional broadcast money is slated for the hiring of 50 more employes.

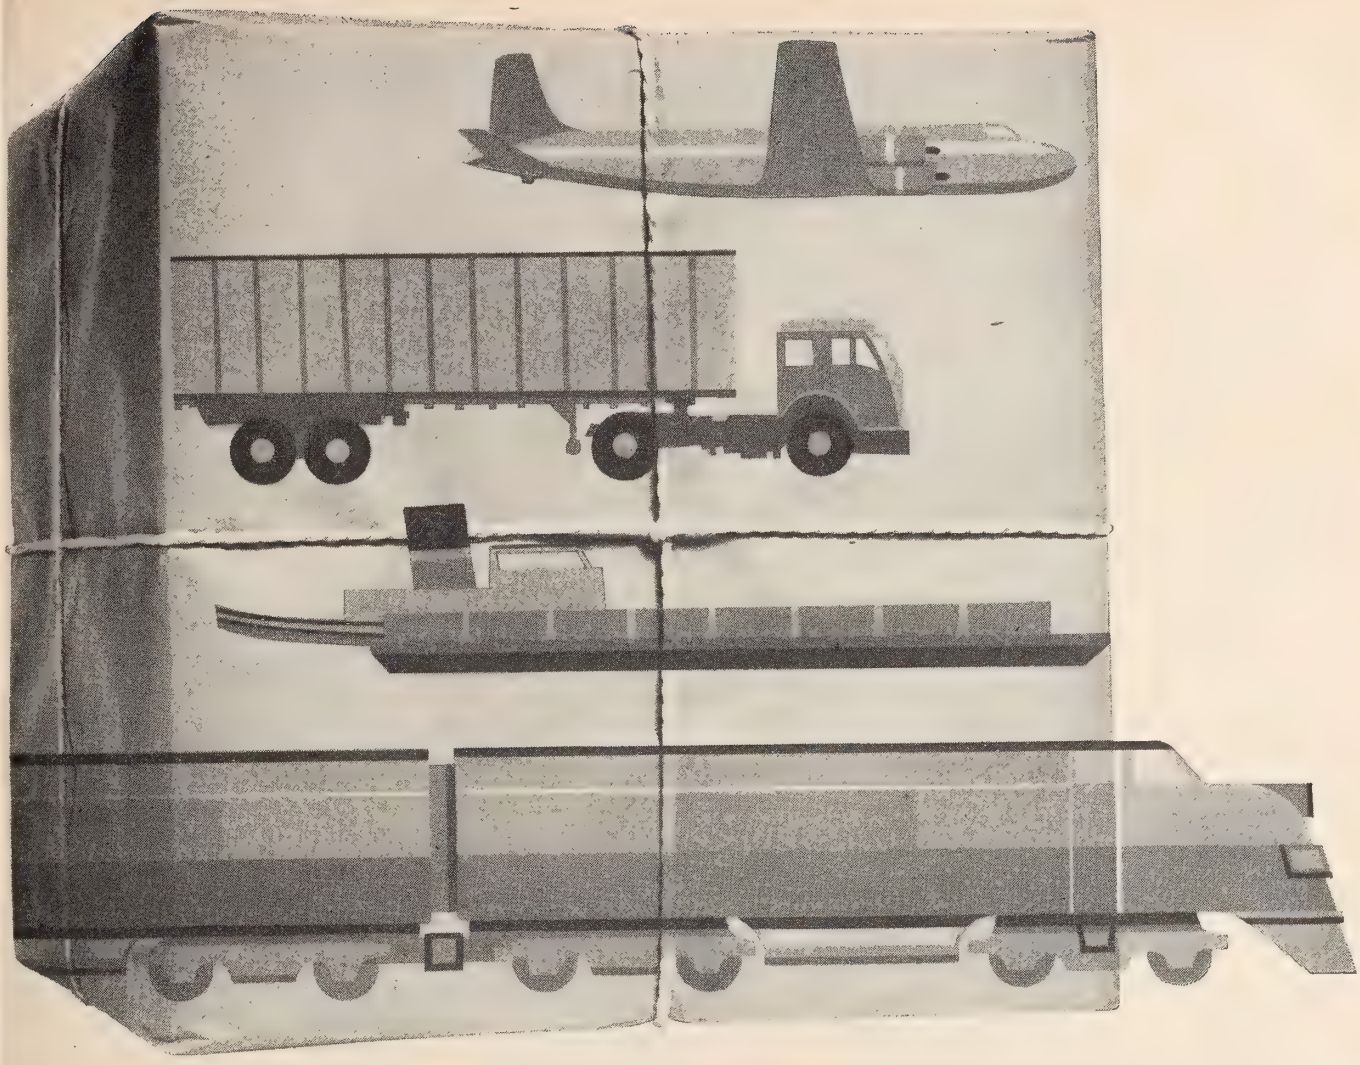
The House told the FCC to do its own research in turning down a request for $90,000 for special contract work in tv allocations and other fields. Approved was a request for $90,000 to study the feasibility of using automatic data processing machines to handle a great portion of the FCC's paperwork.

HR 7040 also provides $6.7 million for the FTC's fiscal 1960 operations, an increase of $284,000 over 1959. The approved funds, however, are $230,000 less than the sum recommended by the Administration.

Uniform time plan meets heavy flack

An overwhelming number of comments were filed before deadline May 8 opposing the Daytime Broadcasters Assn. proposal to expand daytime am stations' schedules from 6 a.m. or sunrise (whichever is earlier) to 6 p.m. or sunset (whichever is later).

Opponents felt groundwave and skywave interference to fulltime stations would far outweigh the gains in local service, would prejudice or pre-judge the Daytime Skywave proceeding, would jeopardize U.S. agreements with Canada and Mexico, would threaten the Conelrad alert plan and would amount to abandonment of the present allocation principles.



Fewer than a dozen outlets favored the DBA proposal.

Senate group gets Hyde, Kintner names

The re-appointment of FCC Comr. Rosel H. Hyde was placed formally before the Senate Commerce Committee in executive meeting Wednesday (May 13) by Chairman Warren Magnuson (D-Wash.). President Eisenhower sent the Idaho Republican's name to the Senate for confirmation last month to serve his third term on the Commission (AT DEADLINE, April 20).

Presented before the committee at the same time was the appointment of Earl W. Kintner, present general counsel of the Federal Trade Commission, as a member of the FTC. The appointments must be placed before the committee at least two weeks before action, which means that hearings possibly will be held May 27, the next regularly scheduled meeting of the committee.

Sen. Magnuson said this is particularly true of Mr. Kintner's appointment since the present FTC chairman, John W. Gwynne, has resigned and hopes to leave the FTC by June 1.

Needed: "One-Package" Transportation

The many and varied needs of shippers require the use of many and varied "tools" of transportation, including trains, planes, trucks and vessels.

Shippers should be able to call upon one transportation service to supply all of these "tools" of transportation, singly or in combination to fit particular shipping needs.

Railroads want to offer their customers this "one-package" service. But they are not now permitted to do so. Their applications to engage in other forms of transportation, instead of being considered on the same basis as the applications of others, are generally denied or, if granted, are specially restricted because the applicant is a railroad.

Shouldn't railroads be permitted to use the highways, airways and airports and waterways which railroad taxes help build for the use of their competitors? This equality of treatment and opportunity would enable the railroads to provide top quality transportation service at minimum cost. It would benefit shippers and the public alike.

ASSOCIATION OF AMERICAN RAILROADS • *Washington 6, D.C.*

FCC refuses plea to reconsider cut-off

The FCC last week denied a request by Washington communications lawyers that it reconsider its new cut-off procedure in the am broadcast processing line (BROADCASTING, April 13) and dismissed as moot the lawyers' request for stay of the May 16 effective date of the new rules.

The Federal Communications Bar Assn. had told the Commission the order—due to go into effect Saturday (May 16)—violates rights of parties, contains inequities and hardships and also violates Administrative Procedure Act. FCBA was turned down earlier this month in a request for postponement of the new procedure.

FCBA asked that the FCC vacate the cut-off procedure and institute rulemaking proceedings to permit study of best way of accomplishing the objectives.

Objective of the new am processing line procedure is to reduce backlog (over 1,000 applications are pending processing) and to reduce circumstances where continued new applications or amendments to applications require reprocessing of all applications which are involved.

The FCC did not act on a similar request by Assn. of Federal Communications Consulting Engineers holding there should have been a rulemaking procedure and that the FCC's new rules should be treated as "temporary" in nature until the present backlog "emergency" abates. AFCCE held the new cut-off dates should apply to amendments which are in effect new applications seeking competitive advantages, but not to those seeking to resolve or minimize conflicts.

USIA seeks 78% tv budget increase

Greater use of tv is planned by the USIA, which has asked for a 78% increase in appropriations for that media, it was disclosed in testimony before the House Appropriations Committee released today (Monday). The agency asked for an appropriation of $1.26 million for tv activities during fiscal 1960, compared to $681,000 allocated for the current year.

USIA, during hearings held the second week of April, sought a total appropriation of $106.8 million for the fiscal year beginning July 1, compared to $101.8 allocated for 1959. Of the total requested, $19 million is earmarked for the Voice of America, radio arm of USIA, compared to the $18.2 million VOA allocation for 1959.

Television activities of USIA were split from VOA in October 1958 with Romney Wheeler, former NBC European executive, appointed head. Mr. Wheeler said the increased appropriation will permit USIA to expand its tv services to keep in step with the steadily-growing overseas tv audience. Four additional tv staff members are planned, he said.

Conflict in testimony as Mack trial goes on

Government prosecutors in the Mack-Whiteside criminal trial last week raised the question of conflict in the testimony of Mrs. Elaine Wood, head bookkeeper of the Stembler-Shelden Insurance Agency of Miami and witness under subpoena for the prosecution.

The question was raised Thursday (May 14) during one of the frequent bench conferences held out of hearing of the jury. Federal District Judge Burnita S. Matthews said she would read testimony given by Mrs. Wood to a federal grand jury, under direct examination by Justice Dept. lawyers and under cross-examination by defense counsel to determine if the three versions conflict.

Mrs. Wood testified about the payments made to former FCC Comr. Richard A. Mack by the Stembler-Shelden agency while he was a member of the FCC. The government has charged the payments were made to induce Mr. Mack to vote for Public Service Tv, a National Airlines subsidiary, in the FCC's award of ch. 10 to PST.

Government lawyers indicated last week they may not call Charles F. Shelden, secretary of Stembler-Shelden, Jean C. Brawner, senior vice president-treasurer of National Airlines, and Henry B. Taylor, National Airlines employe, for testimony on grounds they are hostile to the prosecution case. Defense counsel said if the government doesn't call them, it will.

Defense counsel Nicholas J. Chase said that in cross-questioning Mrs. Wood he was seeking to remove any suspicion that the payments to Mr. Mack were secret. Mr. Mack and his friend Thurman A. Whiteside, Miami lawyer and owner of the insurance firm, are charged with conspiracy to cause ch. 10 to be awarded to PST.

Opposition reiterated to network rep ukase

The FCC's proposed rulemaking to prohibit networks from representing non-owned stations in the national spot sales field encountered more criticism last week as reply comments were filed by CBS Radio, CBS Radio Spot Sales, CBS Tv Stations, eight tv stations represented nationally by CBS Tv Spot Sales and NBC.

Their comments answered arguments by Stations Representatives Assn. and Edward Petry & Co. favoring the proposed FCC rule (BROADCASTING, May 4). CBS Radio said there is no evidence to justify further proceedings as far as network representation of radio stations is concerned. CBS Radio Spot Sales said SRA wants the radio network to chose between networking or representation, but not both, and charged SRA wants the networks to quit so SRA members can add network radio's $51 million annual revenue to the $170 million national radio spot field.

CBS Tv Stations said SRA's comments were "inaccurate" and disregard the record made in the Barrow Report hearing. It was noted that Petry represents a radio station and a tv station in one market, not commonly owned, yet "fails to suggest a rule" aimed against conflict of interest in this case.

NBC described the SRA and Petry comments as being, like the "conclusions" in the Barrow Report, "theoretical assumptions" that are "unreasonable." If the proposed rule is adopted it will be defective and subject to being set aside on appeal, NBC said.

Petry, in its reply comments, said the FCC has ample legal authority to adopt the rule. Titles II (common carriers) and III (broadcasting) of the Act apply to two types of businesses, not to regulated and non-regulated industries, respectively, Petry said, and the absence of regulations in Title III similar to those in Title II does not indicate Congress intended that business affairs of broadcasters should not be regulated where the public interest is involved. Almost all FCC regulations have "some effect" on broadcasters' business policies and practices, Petry added.

• Government notes

• The Rhode Island Supreme Court has set a June 17 hearing date on the disputed multi-million dollar sale of Providence department store-broadcasting properties of the Outlet Co. The state high court became the battleground for the legal hassle following an appeal from a Superior Court ruling which blocked the sale (BROADCASTING, March 9). Controlling interest in the Outlet Co. (which includes WJAR-AM-TV Providence) is to be sold to New York realtor William Zeckendorf and Denver broadcaster John C. Mullin for $12

million. The sale is contested by Joseph (Dody) Sinclair, general manager of WJAR-AM-TV and grandson of the founder of the department store.

• Ch. 11 KKTV (TV) Colorado Springs, Colo., has been granted a waiver of FCC rules to identify itself as a Pueblo outlet as well.

• WSPD-TV Toledo, Ohio, has been granted a modification of its construction permit to move its transmitter site to about 6.5 miles northeast of Toledo, increase its antenna height from 510 ft. to 1,000 ft., with 182 kw visual and 91.2 kw aural, and make antenna and other equipment changes. The FCC made grant to the ch. 13 station subject to engineering conditions.

• Western Broadcasting Corp.'s petition to make effective immediately a March initial decision favoring the firm's application for ch. 12 Aguadilla, P.R., (BROADCASTING, March 30) was granted last week by the FCC. The grant of the facility to Western reflects a merger between applicants Hector Reichard, Winston-Salem Broadcasting Corp. and a partnership composed of Jose A. Bechara Jr., A. Gimenez-Aguayo and Reynaldo Barletta. Comr. Frederick Ford dissented in the Commission grant, desiring further exploration of the ramifications of the merger.

• Five bills calling for freedom of information died May 12 as the Texas Legislature ended its sessions. Gov. Price Daniel is on record in favor of a bill requiring open meetings of state bodies but would not state whether he would submit it to a special session starting during the current week. This session is limited to bills presented by the governor.

• The American Veterans of World War II & Korea meeting in Washington May 3 adopted resolutions taking a "vigorous stand" against pay tv and urging amendment of the equal time provision of the Communications Act. Rep. Oren Harris (D-Ark.), chairman of the House Commerce Committee, was commended "for courageous action in the protection of the public interest in his fight against pay tv.

• False advertising charges against Union Pharmaceutical Co., Bloomfield, N.J., former manufacturer and tv advertiser of Saraka laxative, were ordered dismissed by Federal Trade Commission Hearing Examiner William L. Pack. The FTC complaint charged that Saraka was not effective as claimed in tv commercials. The charges were dropped on the grounds that Saraka is no longer being manufactured, and that Union Pharmaceutical has gone out of business.

RADIO-TV HONORS
Safety promoters get Sloan Awards

The Alfred P. Sloan Radio-Television Awards for 1958 were presented last Tuesday evening (May 12) to stations and advertisers for outstanding performance in promoting traffic safety during the year.

Mr. Sloan, president of the Alfred P. Sloan foundation and former chairman of General Motors Corp., presented bronze plaques to the winners during a dinner at the Waldorf-Astoria Hotel in New York. The Triangle group of stations was singled out for noteworthy attention, since the company's radio and tv outlets each won Sloan awards.

The winning outlets were WGN Chicago (over 1 kw, sustaining category), WAVZ New Haven, Conn., (1 kw or less, sustaining category), Triangle Radio Stations (regional radio network, sustaining category), Triangle Tv Stations (special award), KWTV (TV) Oklahoma City (television sustaining category), Canadian Broadcasting Corp. (national tv network sustaining category).

Advertisers who received Sloan Awards were the Metropolitan Life Insurance Co. (national radio network commercial category), General Motors Corp. (tv network commercial category), H. H. Meyer Packing Co., Cincinnati (tv station commercial category), Mutual Insurance Co., Columbia, Mo., (regional radio network commercial category), First National Bank, Lake City, Fla. (under 1 kw radio station commercial category), Hoseth Auto-Electric Co., Rapid City, S.D. (over 1 kw radio station commercial category).

Harold E. Fellows, president of the NAB, told the dinner meeting that the area of safety education "is one in which broadcasters can do a particularly significant job because of the flexibility and penetration of the media which they employ to reach the masses of the people of the nation. In this respect," he said, "when one thinks of 'safety first,' he also thinks of 'broadcasting first' as a major instrument for teaching."

The awards are sponsored by the Sloan Foundation and administered by the National Safety Council. Awards have been presented for 11 years.

Pressed into service • St. Louis' Mayor Raymond R. Tucker (r) pushed a button on a KPLR-TV Ampex unit there April 28 to put programming of the new ch. 11 on the air. Others in the picture (l to r): Harold Koplar, president of 220 Television Inc. (station owner) and vice president-general manager of Chase-Park Plaza Hotels (which house the station); Sam Koplar, president, Chase-Park Plaza, and James L. Caddigan, KPLR-TV executive vice president-program director.

KPLR-TV's studios occupy 16 rooms in the hotels, plus a 64 x 75 ft. sound stage at the rear. Equipment includes two Ampex videotape units (one mobile). A German-made antenna (BROADCASTING, April 6) is on KPLR-TV's tower in Lemay, Mo.

Agency interest in fm cited at PAB meeting

Advertising agencies are deeply interested in fm's achievements and potential, Elliott M. Sanger, executive vice president of WQXR-AM-FM New York, said Thursday (May 14) in an address to the Pennsylvania Assn. of Broadcasters at Bedford Springs.

FCC should encourage new am applicants to apply for fm, Mr. Sanger said, stimulating the spread of fm throughout the country and at the same time preventing overcrowded am frequencies. He contended this crowding is making am reception less useful year by year.

Discussing stereo, Mr. Sanger suggested the sub-channel should not be allowed to deteriorate the sound quality of the main channel. He added that although sale of sub-channel services can help support the main broadcast channel, it should not encourage the broadcaster to neglect his broadcasting function.

RTNDA-ABA talks

A meeting of minds will be sought by Radio Television News Directors Assn. with the American Bar Assn. when their respective groups get together in Washington, D.C., Friday (May 22) to discuss prohibitions against electronic courtroom coverage.

RTNDA's media committee will meet with the nine-member ABA special committee on proposed revision of judicial Canon 35, headed by Whitney Seymour North, New York, ABA president-elect (1961). RTNDA media group members include Ted Koop, CBS, Washington; Julian Goodman, NBC, Washington, and John F. Lewis Jr., WBAL-TV Baltimore. Like NAB, the news directors' organization seeks a relaxation of restrictions on radio-tv access to court proceedings.

ABA committee representatives will be Joseph A. Ball, Long Beach, Calif.; Richard C. Coburn, St. Louis; David A. Nichols, Camden, Me.; Judge Emory H. Niles, Baltimore; Lewis C. Ryan, Syracuse, N.Y.; James L. Shepherd Jr., Houston, Texas; Richard P. Tinkham, Hammond, Ind., and Edward L. Wright, Little Rock, Ark.

Illinois broadcasters win AP news awards

Metropolitan and non-metropolitan station winners in the Illinois Associated Press Radio-Tv Assn.'s annual news competition were announced this past weekend (May 16) at a business meeting held concurrently with the Illinois News Broadcasters Assn. spring session in Carbondale.

Win, place and show finalists in varied categories:

Metropolitan (Chicago) division winners:

Best local regularly scheduled news show: (1) WBBM-TV; (2) WMAQ; (3) WBBM.

Best local regularly scheduled farm show: (1) WBBM; (2) WGN; (3) WGN-TV.

Best local regularly scheduled sports show: (1) WGN; (2) WBBM; (3) WNBQ.

Best local special events coverage: (1) WBBM-TV; (2) WBBM; (3) WMAQ.

Best documentary program: (1) WBBM-TV; (2) WMAQ; (3) WGN-TV.

Best editorial and/or commentary show: (1) WBBM-TV; (2) WMAQ; (3) WNBQ.

Non-metropolitan division winners:

Best local regularly scheduled news program: (1) WTAX Springfield; (2) WSOY Decatur; (3) WVLN Olney.

Best local regularly scheduled farm show: (1) WVLN Olney. (No other winners.)

Best local regularly scheduled sports show: (1) WQUB Galesburg. (No other winners.)

Best local special events coverage: (1) WVLN Olney; (2) WBYS Canton.

Best documentary program: (1) WTAX Springfield; (2) WLPO LaSalle; (3) WSOY Decatur.

Best editorial and/or commentary show: (1) WLPO LaSalle; (2) WBYS Canton; (3) WTAX Springfield.

Moving in • The Radio Advertising Bureau, New York, made it known Friday (May 15) that over the week-end its sales department would be moving to separate quarters. All RAB sales activities will be centered at this new office at 120 E. 56th St., under Robert Alter, recently named manager of sales administration. The expansion is based on RAB's membership growth: for every $40,000 in new revenue, one account executive is added to the staff. Membership is said to have come up by 100 stations in the past two months, and is expected to hit 1,000 in June. Most of RAB's national sales staff was present for the pictured briefing in their new quarters, some sitting on their presentation kits. The sales executives (l to r): Donald Anderson, drugs and cosmetics; Rowland Varley, groceries; Robert Coppinger, automotive; Jack Brennan, groceries; Mr. Alter; Irving Trachtenberg and Jack Lazarus, both hard lines, and Ron L. Manders, administrative assistant. Donald McDonald, drugs and cosmetics, was on the road at the time.

CBS Inc. 7.5% ahead on 1st quarter books

CBS Inc. last week reported increases in net income and net sales during the first quarter of 1959 as compared to the same period last year. Consolidated net income for the first quarter of this year was $7,932,686 and net sales $111,052,290, as compared with $6,518,039 and $103,296,857 respectively for the 1958 quarter. This represents a 7.5% increase. Current earnings are equivalent to 87 cents per share, as against 83 cents per share for the first quarter of 1958.

CBS Inc.'s board declared a dividend of 30 cents per share on its common stock, payable June 12 to stockholders of record at the close of business on May 29.

Editorial prestige

Judicious use of the broadcast editorial will increase the prestige and integrity of broadcasting, Howard H. Bell, NAB assistant to the president, said Thursday (May 14) in an address to the Nebraska Broadcasters Assn. in Lincoln. But he warned, "If you do not have the competent personnel and the time to do the job properly, don't editorialize."

In a May 13 talk to the Iowa Broadcasters Assn. at Des Moines, Mr. Bell called on broadcasters to help curb "the dangerous trend in government to conduct the people's business behind closed doors." He said the courts, by following Canon 35 of the American Bar Assn., "have been primary obstacles to a free press by refusing radio and tv the right to cover their proceedings."

Editorial challenge: Radio Month ad topic

Radio and tv are targets of extensive criticism "because they lack a full appreciation of editorial responsibility," according to Sol Taishoff, editor and publisher of BROADCASTING. Addressing the May 12 Radio Month luncheon of the Washington Ad Club, he said the broadcast media must extricate themselves from this "concentrated and incessant criticism."

Editorializing is "the new and last frontier for electronic journalism," Mr. Taishoff said in urging broadcasters to fulfill their editorial responsibilities. "The reason newspapers are not abused in similar fashion is that they long ago earned a status of respect which discouraged irresponsible abusers," he explained. "They earned it by thinking of themselves as deserving it. They were so persuaded of their own mission and its importance to the public good that in time they persuaded the

public of it."

Broadcasters must develop an editorial point of view about themselves and their profession before they can develop one about the world at large, Mr. Taishoff said. The second step, he continued, is willingness to assume that responsibilitiy. Finally the profession must recapture from government the authority to exercise responsibility, he said, citing the 10-year history of the FCC's editorializing ground rules and their encouragement to critics of the electronic media.

New house in KELO-land • Dedication ceremonies heralding the opening of new headquarters of KELO-AM-TV Sioux Falls, S.D., took place Saturday (May 8). With equipment, the cost of building is estimated at more than $750,000. It houses three radio and tv studios, is completely air-conditioned and contains a Community Room for use by sponsors for dealer and sales meetings and by civic and community organizations.

Changing hands

ANNOUNCED • *The following sales of station interests were announced last week, subject to FCC approval:*

• WHRV Ann Arbor, Mich.: Sold to the Zanesville (Ohio) Publishing Co. by Charles H. Mayne and John C. Emery Jr. for $300,000. The Zanesville Publishing Co. controls WHIZ-AM-TV Zanesville and owns WTAP (TV) Parkersburg, W. Va. The firm publishes three Zanesville papers: *The Times Recorder, The Zanesville Signal* and the *Sunday Times Signal*. The sale was handled by Howard S. Frazier Inc. WHRV is on 1600 kc with 1 kw, directional.

• WPOW New York, N.Y.: Sold by Tele-Broadcasters of New York Inc. (H. Scott Killgore) to John M. Camp (president of Wheaton, Ill., advertising agency of same name, specializing in religious advertising) for $250,000. Tele-Broadcasters stations are KALI Pasadena, Calif., WPOP Hartford, Conn., and KUDL Kansas City, Mo. The sale was handled by Blackburn & Co. WPOW is on 1330 kc with 5 kw, sharing time with WEVD New York.

• WBUT-AM-FM Butler, Pa.: Sold by J. Patrick Beacom to James S. Beattie, Washington advertising agencyman, and Klon O. Row, Washington manufacturers' representative for $135,000. Mr. Beacom will retain 10%. The sale was handled by Hamilton-Landis. WBUT is 250 w daytimer on 1050 kc. WBUT-FM is 720 w on 97.7 mc.

• WFAM-TV Lafayette, Ind.: Sold by E.J. Bannon and associates to Sarkes Tarzian Inc. (WTTV [TV] Bloomington-Indianapolis, WPTA [TV] Fort Wayne and is applicant for ch. 13 Bowling Green, Ky.), for $65,000 for equipment. WFAM-TV operates on ch. 59 but holds cp to move to ch. 18. Station asked FCC May 8 for permission to go dark. WASK Lafayette, companion to WFAM-TV, is not involved in sale.

APPROVED • *The following transfers of station interests were approved by the FCC last week (for other Commission activities see* FOR THE RECORD, *page 97).*

• KERO-TV Bakersfield, KFMB-AM-TV San Diego, both California: Transcontinent Television Corp. and Marietta Broadcasting Inc. (former owner) combined into new $30 million Transcontinent set-up (see story, page 74). KERO-TV is on ch. 10 and is affiliated primarily with NBC-TV. KFMB-TV is on ch. 8 and is affiliated primarily with CBS-TV. KFMB is on 540 kc with 5 kw, directional night.

• WKTC Charlotte, N.C.: Sold to J. Olin Tice, Sr. and Jr. by T.C. Wood, Jr. and R.D. Kennerly for $120,000. J.

WWL TV
NEW ORLEANS

J. D. BLOOM, Director of Engineering, Station WWL-TV, New Orleans

Says:

"This G-E tube has logged over 3,000 hours . . . and resolution still is good!"

"Maybe 3,016 hours in regular studio service isn't the record for a camera tube, but it's mighty close to one! And this long-lived GL-5820 still gives clear, sharp pictures.

"Divide the cost of a camera tube by that many hours of service, and replacement expense nose-dives. WWL-TV doesn't expect, or get, such exceptional tube life across the board, but our General Electric camera tubes over-all have plenty of extra hours to their credit.

"We like the quality built into them, their reliability, the savings they put on our operating ledger. Count us as sold on the value of G-E tubes—count WWL-TV's large audience as sold on their fine performance!"

* * *

Bring *your* costs down, your picture quality up! Ask your nearby General Electric tube distributor . . . today . . . for the facts on G-E Broadcast-Designed camera tubes! *Distributor Sales, Electronic Components Division, General Electric Company, Owensboro, Kentucky.*

Progress Is Our Most Important Product

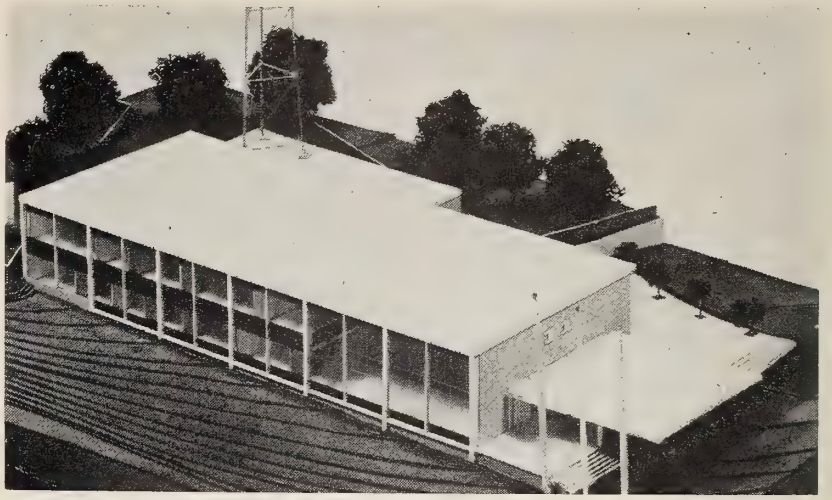
GENERAL ELECTRIC

2-312-201

Olin Tice, Jr. had an interest in WBLR Batesburg, S.C. (see below) and has interests in WMYR Myrtle Beach, S.C., WKEN Dover, Del., and (with his father) WCAY Cayce, S.C. WKTC is on 1310 kc with 1 kw, day.

• WBLR Batesburg, S.C.: Sold to H. Edward and Harriett M. Crapps by J. Olin Tice Jr. (see sale of WKTC, above) and others for $70,000. WBLR is on 1430 kc with 5 kw, day.

• Media reports



• KEZY Anaheim, Calif., was to commence operation yesterday (May 17). Cliff Gill, formerly of KBIG Santa Catalina, Calif., is general manager. Ira Laufer, formerly of KFOX Long Beach, Calif., is sales manager. Offices and studios are in the local Disneyland Hotel. KEZY is on 1190 kc with 1 kw.

• WQXR-AM-FM New York is cutting the number of spot advertising availabilities and raising rates. When rate card No. 17 takes effect June 1 there will be 300 fewer spots to be had per week, and they will cost approximately 20% more.

• ABC Radio gained a new Oregon affiliate last week with the signing of KRXL Roseburg. Mrs. Iris Rose Helliwell is general manager and program director of the 250 w, 1240 kc station.

• Television Bureau of Advertising drew a record crowd at the first six sales clinics staged this year with over 300 station representative executives in attendance, and more than 70 stations represented. Largest attendance for the 1959 sales clinics, which began May 5 at Winston-Salem and will conclude June 11 in Salt Lake City, was in Chicago, with more than 100 executives attending.

• KYW Cleveland, Ohio, has dropped *Traffic Court* following a ruling by the ethics committee of the Cleveland Bar Assn. that broadcasting proceedings in a local court violates the American Bar Assn.'s Canon 35 (prohibiting microphones and cameras tv in court rooms). *Traffic Court* was heard twice weekly. It won KYW an Alfred P. Sloan Award for traffic safety achievement.

KGUL-TV's future home • Ground-breaking ceremonies were held last Thursday (May 14) for the new studios (model above) to be built for KGUL-TV Houston, Corinthian Broadcasting Corp. outlet. Cost was said to be close to $1 million.

• The two-month old *New York Herald Tribune* Radio Network has added its fourth station, WFYI (formerly WKIT) Mineola, N.Y. The network receives news and features over leased-wire teletype facilities from the *Herald Tribune* editorial rooms. Other stations include WVIP Mt. Kisco, WVOX New Rochelle and WGHQ Saugerties, all New York.

• KHON Honolulu has changed call letters to KPOI.

• XETV (TV) Tijuana-San Diego has increased power to the maximum 100 kw.

• Noncommercial-educational WGBH-TV Cambridge, Mass., has become an Assn. of Maximum Service Telecasters member.

• KUBO San Antonio is the new call of KIWW. The station also increased power (250 w to 5 kw) and changed frequency (1540 kc to 1310 kc).

• WTMJ-FM Milwaukee commences operation June 1. It will broadcast 2:30-11 p.m. on 94.1 mc. WTMJ-FM is owned by The Journal Co. (WTMJ-AM-TV Milwaukee). Maurice Kipen, WTMJ salesman, is named the new station's sales executive. WTMJ-FM's area contains about 98,000 fm homes.

• KGB San Diego, Calif., has affiliated with ABC Radio. Marion R. Harris is president-general manager of the 1 kw facility which operates on 1360 kc.

• The Bolling Co. national radio-tv station representative has opened new offices in Denver, Memphis and Atlanta. In charge of the Denver office is Mary A. Briley. Address: 260 Denver Club Building. Telephone: Cherry 4-7463. The Bolling location in Memphis is 2158 Union Avenue Building; Telephone: Broadway 2-7503. The Atlanta office is in the William-Oliver Building, 32 Peachtree St., N.W.; Telephone: Jackson 5-7930. Cecil K. Beaver is in charge of southeastern operations.

• A Silver Anvil public relations award was given NBC by the American Public Relations Assn. at its 15th annual national conference in Hollywood Beach, Fla., last week. Among a total of 43 awards was one to Lever Bros., in the field of distribution and marketing, and another to Ralston Purina Co. for p.r. work with educational institutions and organizations.

• WHAS-TV Louisville received the sole Kentucky AP award this year for "outstanding leadership in all phases of reporting . . ."

"ANATOMY OF SOVIET COMMUNISM"

The *First* Comprehensive Documentary Radio Series (thirteen 25-minute segments) analyzing events in the Soviet Union since the Communists' takeover in 1917.

Recently broadcast by the Mutual Network, this authoritative primer on the Communist experiment is now available at cost to stations (exclusive in your area), schools, discussion groups, and other interested organizations. Format permits commercial sponsorship.

Series features actual voices of Lenin, Stalin, Khrushchev, and other Soviet leaders as well as former Soviet students, workers, scientists, concentration camp inmates, and others. Another continuing feature: Radio Moscow broadcasts monitored by this program's special listening post on the U.S.S.R. Produced and narrated by Robert Cody for The Institute for Study of the U.S.S.R., a leading body of former Soviet scholars exiled from the U.S.S.R.

Ben Gross, New York *Daily News*: *"Anyone who wishes to know what Soviet Russia is like today . . . ought, by all means, tune in . . . I recommend it highly as both interesting and informative listening."*

BROADCASTING: *". . . highly informative . . . outlines twists and turns of Soviet foreign policy . . ."*

For further details, write or wire

Robert Cody, Institute for Study of the U.S.S.R.

1657 Broadway, New York 19, New York

MOVEMENT

Up and down and across the U.S., trucks keep up a steady, night and day movement of goods of all kinds . . . Serving farm and city, housewife and industrialist, trucks provide many advantages, the greatest of which is *mobility:* the ability to deliver the goods *where* and *when* they're needed— and *quickly!*

Stations

• JAMES H. FOSTER, formerly president of Foster & Homes, Dallas beverage distributors, named financial vp of McLendon Corp., that city. McLendon stations are KLIF Dallas, KILT Houston, KTSA San Antonio, all Texas; KEEL

Automation cut its teeth on the telephone

...how ITT's early work in telephony aided the advancement of automation

The dial telephone exchange was one of the first examples! Today, automatic switching and new electronic techniques for automation are altering the operations of virtually every business and industry.

It was natural that ITT System companies, pioneers in the first, should be leaders in the second.

Customers have ranged from mail-order houses, railroads, libraries and oil companies to the air forces of several NATO governments.

There have been dramatic results.

One example is the automatic check-processing system developed by ITT System companies for one of the nation's largest banks. It codes, sorts and verifies checks. It performs all normal bookkeeping and accounting operations for demand deposits.

Another is the automation system for a large steel mill which records the program of requirements for every job, then feeds back information to production control centers as each phase is completed.

Still another: the first automatic U.S. post office, now under construction in Providence, Rhode Island.

Hundreds of others could be cited. Each required a complete understanding of automation from the design of a simple switch to the functioning of a fully-integrated electronic complex.

The ITT System has many specialists in this field. Among them: Intelex Systems Incorporated in retained-document automation; Kellogg Switchboard and Supply Company in automatic switching; Airmatic Systems Corporation in automatic-switch pneumatic tube and document conveyor systems; and ITT Federal Division in automatic test equipment, both military and industrial. ITT's European subsidiaries add to this experience.

To learn more about ITT's abilities in the area of automation, write for further information.

• DAN DOCTOR, newscaster of CKGB Timmins, Ont., to news director of CJRH Richmond Hill, Ont.

Transoceanic relays expected in 4 years

A worldwide, transoceanic satellite communications system — capable of carrying tv programs across the Atlantic and Pacific oceans—is foreseen in four years.

The prophecy was made by the House of Representatives Committee on Science and Astronautics in a report issued May 7. The report is entitled "Satellites for World Communication."

The report stated that a military worldwide communications system via satellites "appears probable" within four years.

In a discussion of various techniques, the report refers to the passive reflector type satellite balloon which would be used to "bounce" radio signals from one point on the earth's surface to another point several thousand miles away. One proposal, referred to, is to place 24 such balloons in orbit around the earth so that one is "radiovisible" almost always. The cost, the report stated, would run about $15-$20 million with each ground station costing "several million dollars."

"This cost," the report said, "however, has less significance when one considers that the system could provide channels of as much as television bandwidth."

In another section, the 24-hour satellite is discussed. This would provide, it was stated, the equivalent of 1,000 telephone channels or 500 telephone channels plus one television link. Each such satellite would cost about $4 million, it was estimated, with the total cost of 12 ground stations $24 million.

RCA seminar explores tv microwave systems

Tv microwave relay equipment and systems were emphasized at the RCA broadcast equipment seminar in Washington last week. The meetings were attended by consulting engineers, government technical personnel and military communications experts.

Technical details of the TVM-1A and its use in both single and multihop service were discussed. The TVM-1A is a 1 w relay on 7,000 mc, and can be used for both remote pickup and intercity relay.

The two-day meeting (May 12 and 13) also heard RCA engineers discuss the following:

Television — TRT-1AC television tape recorder, a new method of measuring the quality of tv picture resolution, slow-scan television gear, the new 11 kw tv transmitter, a traveling wave antenna for chs. 7-13 and a new portable envelope delay measuring equipment.

Fm—New fm muliplexing and transmitting equipment, fm antennas.

Am—New 5 kw transmitter, using silicon rectifiers and with a Conelrad kit available; new phasing equipment and new remote pickup equipment for field use.

CBS Labs expands into space recovery

Coincident with a first quarter report showing increases in net income and net sales over the comparable 1958 period (page 81), CBS Inc., last week announced the formation of Space Recovery Systems Inc., which will develop advance systems and produce equipment for space recovery, tracking and location of missile and space vehicle components and payloads.

Space recovery systems will be a joint operation of the CBS Laboratory Div. and M. Steinthal & Co., said to be the world's largest parachute manufacturing company. Dr. Peter C. Goldmark, president of CBS Labs., will be board chairman of Space Recovery Systems and Augustus J. Steinthal, vice president of M. Steinthal & Co., will be president.

• Technical topics

• Century Lighting Inc., N.Y., has introduced what it calls the first automatic infinite preset lighting system. Known as "Punch," the system utilizes cue cards which are punched during a scene's rehearsal when the lighting values for a given cue are set manually. With the cards for an entire show punched in the proper time sequence, and placed in a hopper, lighting changes will take place automatically as the cards are fed into a read-out machine during the show. Century's previous automatic lighting system would accommodate only 10 changes, whereas "Punch" is said to handle an infinite number.

• Adler Electronics Inc., New Rochelle, N.Y., has turned over to the U.S. Army Signal Corps the first long-range, transportable communications center for use with strategic striking forces. The equipment, divided into transmitting and receiving apparatus, is contained in two vans plus tractors and power generators, weighing 70,000 lbs. all together. It has a range of 1,000-2,000 miles, includes a 10 kw single sideband transmitter using short wave frequencies, rhombic dual diversity antennas. It furnishes two voice channels, 16 teletypewriter channels. A facsimile channel may be substituted for one of the voice channels. Intercommunication between the communications center and transmitter site is furnished over a uhf voice channel. Cost of each unit is about $500,000.

• The Radio Corp. of America will contribute $100,000 to the Lincoln Center for the Performing Arts in New York, it was announced Tuesday (May 12) by Brig. Gen. David Sarnoff, RCA board chairman, speaking at the 62nd annual Citizens Union held at the Hotel Biltmore. Gen. Sarnoff was presented the William Jay Schieffelin award by the Citizens Union for distinguished public service.

• Camera Equipment Co., N.Y., announces a large size vidicon pan and tilt head for motion picture cameras. Although the tripod head was designed for use with vidicon cameras of 60 lbs., it has been tested and "proven effective" for motion picture work. A balance feature built into the head counterbalances the weight of the camera and allows the cameraman to pan and tilt at will. Price of vidicon pan and tilt only: $325; wooden tripod, $150; all metal tripod, $260.

• Animation Equipment Corp., New Rochelle, N.Y., has introduced an aerial image unit, designed by John Oxberry, for use with animation stands. New installation is self-contained and is electrically interlocked with the animation camera. It consists of a projector head, lens mount, stop-motion motor, precision-ground flat-surface mirror, a large condenser lens system, plus all necessary controls. For further information write Animation Equipment Corp., 38 Hudson St., New Rochelle, N.Y.

• Roberts Electronics Inc., Hollywood, Calif., announces the availability of its new full track monaural tape recorder, model 191. Model has full-track erase, record-playback heads, preamp and amplifier outputs plus the Roberts hysteresis synchronous motor and VU meter. Price: $325. For information write Roberts Electronics Inc., 1028 N. La Brea Ave., Los Angeles 38, Calif.

• Lipps Inc., (division of Lipps Engineering [tape recorder heads]), Santa Monica, Calif., announces availability of a brochure (AM-22) of its replacement and repair services that are available to users of Ampex equipment. Address: 1513 Colorado Ave.

TV OCEAN HOP
'3rd Man' production switches to England

Last week was moving week for Felix Jackson, producer of *The Third Man*. On Tuesday (May 12) he completed shooting the 20th episode of the 39-installment series at 20th Century-Fox studios in Westwood, Calif. Now he is on his way to England to film the remaining 19 half-hour mystery dramas. Michael Rennie, who stars as Harry Lime, also will report to the Shepperton Studios of British Lion, where the series will resume shooting next month.

The series, which will be offered for network sale in this country by National Telefilm Assoc., will be shown on the BBC television network in the United Kingdom, under a unique arrangement. BBC pre-purchased UK rights to the tv series as part of an agreement with NTA whereby the production is divided between Hollywood (under NTA supervision) and London, where BBC will be in charge.

British writers, directors, actors and technicians are replacing the U.S. personnel for the second half of *The Third Man*. BBC, Mr. Jackson explained, gets the advantage of a series made with American commercial tv know-how; NTA gets fresh British talent. Mr. Rennie and Jonathan Harris, who plays Bradford Webster, Harry Lime's associate, are the only members of the cast who are going to England to appear in the British-produced episodes. All other actors will be engaged there.

"But," the producer stated, "we expect to integrate Hollywood and London production to the extent that the viewer will not be able to say where any episode was made." Programs filmed in England will be mixed with those shot in the U.S., he said, noting that bit players will use foreign accents throughout the entire series. As insurance of consistency between the U.S. and English programs, Warner Law, story editor of the programs made in Hollywood, and Arthur Hiller, one of the two directors of the U.S. programs, are going to England to serve as consultants to their British replacements.

Mr. Jackson was enthusiastic about the two-director system employed on *The Third Man*, for which both directors, Mr. Hiller and Paul Stanley, were engaged for the full series, not on a per-program basis. Although they alternated as directors of the individual episodes, each was on hand during the filming of all 20 shows. The same procedure will be followed in Britain.

"The exchange of stars on an international scale is traditional," he said. "It started with the stage and has been continued in the movies and tv. I think we're now being challenged to carry this exchange beyond the star level to include writers, directors, supporting actors and even bit players, technicians and cameramen. It's an educational process, not altruism at all but good business. If we can train Italian cameramen to handle tv work well, they'll be there when we need them again. This means employment for them and for us a chance to get for our product the unique abilities which have helped to make some Italian motion pictures so great. It's part of the shrinking globe."

• Abroad in brief

• Canadian Broadcasting Corp., Toronto, has announced sale of 39 episodes of a filmed series on the Royal Canadian Mounted Police to the Australian Broadcasting Commission, for exclusive use in Australia for seven years. Fifteen episodes of the series have now been filmed in the Gatineau region near Ottawa, Ont., for the CBC, the British Broadcasting Corp. and Crawley, McConnell Ltd., Ottawa. CBC reports world-wide interest in the series, with negotiations for its sale now underway in the U.S., France, Sweden, West Germany, Belgium, Luxembourg, Netherlands, and a number of South American countries. The series will be authentic with C.M. Rivett-Carnac, who was recently made commissioner of the Mounties, as consultant.

• KVOO-TV Tulsa, Okla., and WTMJ-TV Milwaukee, Wis., will each play host for two months to a foreign specialist learning about American tv practices, it has been announced by the International Exchange Service of the State Dept., which provided transportation for the project. Luis B. Quintos, chief studio engineer of the Philippine Broadcasting Service will work at KVOO-TV. Erik Diesen, a Norwegian tv network producer, will go to WTMJ-TV. Each station will provide its guest with a small maintenance allowance.

• West German tv sets are being built with provision for uhf. Uhf stations are being constructed by broadcasters in fringe areas. The country's second tv network also is expected to be on uhf when it commences operation. (Uhf in Europe covers 40 channels of 8 mc each between 470 mc and 790 mc. Five channels in Germany are reserved for fringe area small-power uhf's. The rest are reserved for one complete uhf network and 75% for a third German network.)

On the treasure trail

KGW-TV Portland, Ore., hired a fleet of nearly 40 taxicabs to carry local advertising people around town on a treasure hunt last month. The party was similar to earlier ones staged for the agency crowd in New York, Chicago and San Francisco last year by KING-TV Seattle, associated in ownership with KGW-TV.

More than 200 treasure seekers scoured the town for successive clues leading to 10 tv sets, five console stereo record players and five electric blenders. Members of the winning team: Lois Tugman, Marlowe Branagan & Assoc.; Marion Lawton, Lawton Adv.; Beverly Hallman, Botsford, Constantine & Gardner; W.S. Pederson, Compton, and Charles Devlin, Gerber. Judges were Sheldon Hickox, NBC-TV station relations executive; Ralph Allrud of Blair Tv, KGW-TV's national representative, and John Nelson, NBC-TV daytime programming department. Bob Barker, m.c. of the network's daily *Truth or Consequences,* made the presentations assisted by Ann B. Davis, "Schultzy" of the network's Bob Cummings Show.

The treasure hunt was part of a many-pronged effort to focus attention on KGW-TV's affiliation with NBC-TV last month. During the station's initial week on the network, *Truth or Consequences* originated daily colorcasts from the Portland studios, and the mayor of Portland declared it *Truth or Consequences* week.

The station also introduced a new identification symbol, Pioneer Mike (Pioneer Broadcasting Co. is the KGW-TV licensee). The coonskin-hatted character was designed by Walt Disney and appears in cartoon and puppet form in station promotion. Pioneer Mike co-starred with Bob Hope and other network luminaries in filmed promotion spots heralding the KGW-TV affiliation.

WTRY sponsor rain checks

Retail advertisers on WTRY Albany-Schenectady-Troy may have fewer worries now when rain dampens their sales promotions. They are getting rain insurance. The radio station announces that if a specified amount of precipitation (usually 1/10 inch) occurs during the key six-hour period of the promotion WTRY will repeat the radio schedule at a later date at no cost to the sponsor. To introduce the plan, area retailers were sent plastic rain bonnets inscribed, "Rain or shine you're covered by WTRY." A percentage of the total time cost is charged for the insurance, which is handled through the Aetna Insurance Co., Hartford, Conn.

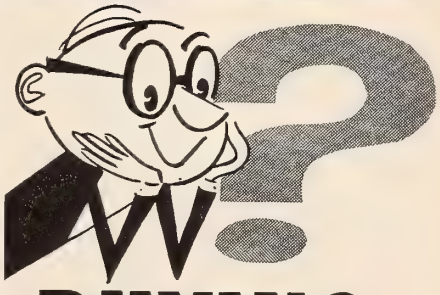
The contest crowd

Well over half of those who enter consumer contests have more than $5,000 a year regular income. Only 40.6% are below that level. Most contestants are family people and own their own homes. These are sample findings of a survey of opinions and attitudes on contests by Bruce, Richards Corp., a New York firm specializing in contest management and judging.

Bruce, Richards is releasing tables profiling contestants in monthly installments in the firm's "Advertisers Confidential Contest News Bulletin." The complete survey will be reported and analyzed in a booklet to be published soon. Both booklet and monthly contest bulletin are being offered those who write Contest Editor, Bruce, Richards Corp., 250 Fourth Ave., New York 3, N.Y.

From monster to music

The McLendon Corp. used a musical technique in San Francisco when the company took over station KROW, now renamed KABL. For 36 hours preceding the station's switch to new calls and format May 11, the station played a rock-and-roll selection, "The Gila Monster" (title song from the latest McLendon-produced movie release). After the marathon "Monster" play, the new KABL debuted with a "good music" format.



Springtime hat switch

Half the staff of WRVA Richmond, Va., participated in a weeklong sales derby last month to move Dobbs straw hats at Greentree's department store. Listeners were told to "look for the WRVA man in the derby" at the store to qualify for discount prices on the merchandise. Twenty-three WRVA men, including the station manager, five department store heads and air personalities, spent a half-hour a day apiece in the vicinity of the Greentree's hat counter.

Wrestling for fund

CHUM Toronto, staged a comic wrestling match to aid the Easter Seal campaign for crippled children. Morning man Al Boliska tackled wrestling champion Whipper Billy Watson at the local Maple Leaf Gardens. Mr. Boliska presented $100 to the fund after he was bested by Whipper Watson.

Deliberate slip • WDAY-TV Fargo, N.D., misspelled a word in a brochure on its "New Tower, New Power" and asked time-buyers to find it for a grab-bag of prizes. A thousand of them spotted the false word, "daminates," in a statement about WDAY-TV's relationship to its coverage area. Here Thomas K. Barnes (second from l), general manager of the station, officiates as members of an agency panel draw from the 1,000 names to award 30 prizes. L to r: Richard Vorce, head timebuyer, Ford dealer account, J. Walter Thompson; Mr. Barnes; Gertrude Scanlon, radio-tv account executive, BBDO, and Leonard Tarcher, associate media director, Lennen & Newell. Prizes ranged from a week for a family at a resort to a stadium blanket. The contest count was certified by Peters, Griffin & Woodward, WDAY-TV's representative.

• Drumbeats

• WBRM Marion, N.C., took over the town square for the station's 10th birthday party, with 15,000 radio-invited guests attending. Merchants participating in the promotion reported business as good as any day, even in the Christmas season. Overtime parkers found tickets on their cars stating that WBRM had paid the fine. Guests on the square were showered with balloons carrying gift certificates dropped from an airplane. Certificates were redeemed at stores participating in the WBRM birthday celebration.

• To exploit the return of regular horse race broadcasts, WIP Philadelphia is having listeners compete to name a yearling colt. The "Name the Horse" contest attracted more than 4,000 entries the first week. Stakes: a day at the races in box seats, lunch and $90 to spend on the horses. WIP is broadcasting the seventh and eighth races from Garden State Race Track, Camden, N.J., representing the first time races have been heard regularly in Philadelphia for more than a decade, WIP says.

• The general manager, sales manager, a salesman and seven d.j.'s of KIOA Des Moines rewarded a contest winner by doing her spring cleaning. The 10 men visited the winner's home on a Saturday and spent 40 man hours on the job, also leaving her a store of cleaning materials, electric sweeper, flowers (with more to come weekly for a month) and a luncheon. This was the reward for identifying cleaning items in a five-day contest.

• A swimming pool a week for 10 weeks is being awarded listeners by WNTA-AM-FM Newark, N.J., in a "Fun in the Sun" contest. But listeners must work for the prize. Each day, Monday through Friday, a record is played at the wrong turntable speed. Entrants must name singers and titles of the five songs and then write 25-word essays on why it's fun to listen to WNTA.

• A broadcast suggestion by KZIX Collins, Colo., that it change its music format resulted in more than 1,000 listener letters. Most of them asked KZIX to stick with its pop concert albums and light music.

• WMBD Peoria, Ill., promoted its broadcasts of the St. Louis Cardinals' schedule by running a "Have-A-Ball" contest. For 10 days before the start of the season listeners were invited to predict the Cardinals' starting lineup. Five winners were chosen from 407 entries submitted. They received baseballs autographed by the Cardinals.

• KOIL Omaha, Neb., gave away $2,000, a 1959 Chevrolet automobile, two color television sets and radios in its "Secret Telephone Number" contests. The station established secret telephone numbers and broadcast clues. The first listener to call one of the secret numbers won a prize.

• A commercial helicopter service flying over Miami about six times a day displays "WMET [Miami] Radio 1490 on the dial" on its pontoons. Plans are underway for WMET and the helicopter to work together on local news coverage.

• KXTV (TV) Sacramento, Calif., showed a clip from a movie in the station's library. The viewer who guessed from which movie the film clip was taken received a $4,000 Chevrolet. Prizes in future KXTV "Name the Movie" contests include a swimming pool, a mink stole, a color tv set, an electronic organ and a homesite.

My experience of 25 years in management, ownership, and operation of radio and television stations is now available to you, if you are interested in the purchase or sale of broadcasting properties in the western states. Your inquiry, of course, will be treated in confidence.

New RCA 5 KW FM Transmitter Designed for Multiplexing

A "Direct FM" system plus many other outstanding performance features such as built-in remote control provisions and screen voltage power output control, make the BTF-5B today's best FM transmitter buy. Its 5000-watt power output provides adequate coverage of a multiplex channel and improved coverage for conventional operation. New Exciter, Type BTE-10B, uses "Direct FM" modulator circuits, thus fewer tubes are required. Whatever your equipment needs—SEE RCA FIRST!

Or write for descriptive literature to RCA, Dept. TC-22 Building 15-1, Camden, N. J.

RADIO CORPORATION of AMERICA

Tmk(s) ®

*ARB Continuing Readership Study

NOW...over ONE MILLION*

people in the **DALLAS** metro area!

To be specific: 1,002,200 free-spending Texans in the new Dallas metro area where three additional counties are added for the first time! And, that doesn't even include adjacent Fort Worth metro area . . . all under the powerful signal and influence of WFAA-TV, providing the greatest "city-grade" picture of any television station in the market!

*subject to formal approval by the Bureau of the Budget. Source: SRDS

A TELEVISION SERVICE OF THE DALLAS MORNING NEWS ■ EDWARD PETRY & COMPANY, NATIONAL REPRESENTATIVES

U.S. TV HOMES: COUNTY-BY-COUNTY

Up-to-date tally by Nielsen gives boxscore as of spring 1959

The figures in the following tables are the latest "practical estimates" of the size and the location of the total U.S. television audience of 1959, by states and counties.

They are A. C. Nielsen Co. estimates as of spring 1959. They are the first county-by-county details to be released since Nielsen Coverage Study No. 3 in spring 1958.

The tv homes figures were derived by application of "growth rates" since the spring of 1958 in terms of changes in total homes and of television ownership penetration patterns during the past year.

Figures on total homes for spring 1959 are from *Sales Management*. These are the base against which new television ownership percentages have been applied. Television ownership percentages are A. C. Nielsen Co. estimates based on studies of trends of set ownership growth by both area and county size.

BAR

broadcast advertisers reports, inc.

750 third avenue, new york 17, n y . yukon 6-8410

April 20, 1959

Mr. Ward D. Ingrim
President & General Sales Manager
Television Station KTVU
One Jack London Square
Oakland 7, California

Dear Ward:

Of the 235 television stations we now monitor, KTVU is one of those which always gives advertisers a well-scheduled, clean run for their money. I suppose no one in the business knows this better than BAR since we've been monitoring KTVU ever since you went on the air.

KTVU does not engage in triple spotting, undue crowding of commercials and other practices that advertisers and agencies have complained about recently.

Almost every station on the air can come up with some kind of rating story but few can spotlight an operation as clean as KTVU's, and this is what the agencies are looking for right now.

Cordially,

BROADCAST ADVERTISERS REPORTS, INC.

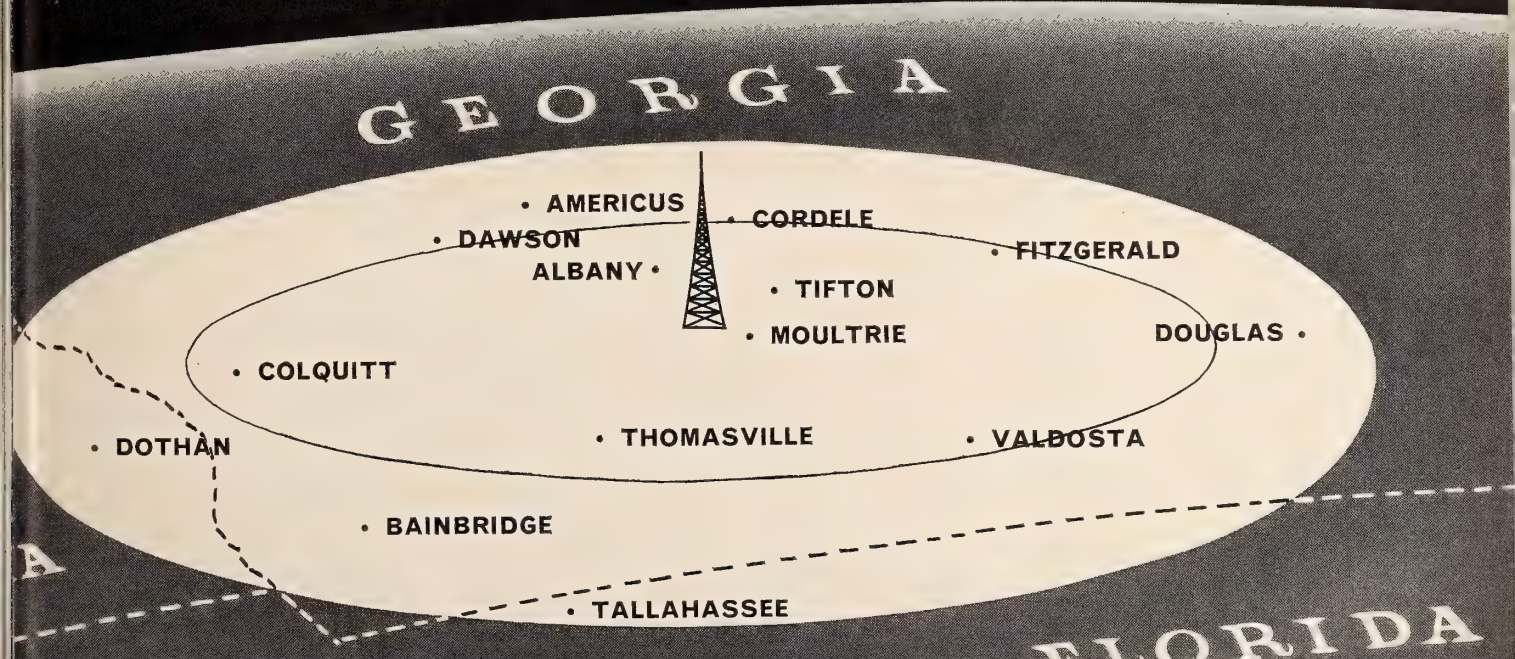
GEORGIA CONTINUED



*Now rated among the top 10 trade cities in the U. S.:

Albany, Georgia

Albany's gain has been nearly double the average of the growing South . . . and Albany is still growing. It is consistently listed as a "preferred" market by Sales Management Magazine, and is so considered by hundreds of national and regional advertisers who regularly use WALB-TV.

walb-tv dominates South Georgia's only metropolitan market

with full-power coverage of a rich $739 million trading area that includes 750,000 people in Southwest Georgia. WALB-TV's tower—located 24 miles south of Albany—reaches 1,000 feet above the earth to deliver top NBC, CBS, and ABC programs to every TV home in the area.

TOWER OF STARS

beams over Georgia with sweeping coverage!

Reaching —

68% of Georgia population (plus some of Alabama, Tennessee, N. Carolina)

3 million people (⅔ of a millon increase)

117 counties (43-county increase)

delivering the greatest possible advertising returns—anywhere any time!

The revolutionary WLW-A Tower of Stars changes the entire television picture in Atlanta, in Georgia, in the whole South. It was the first "traveling wave" transmitting Tower east of the Mississippi and the second in the whole Country!

With this tremendous power Tower, WLW-A reaches over Georgia and part of surrounding states—with all the star ABC programs for the greatest entertainment lineup, widest coverage, sharpest TV picture, and biggest commercial returns—ever!

So call your WLW-A Representative. You'll be glad you did!

wlw-a

channel 11 Atlanta

one of the 6 dynamic WLW Stations

Crosley Broadcasting Corporation,

a division of Avco

Your best buy in Georgia for:

Interview: Al Strietmann

Strietmann Biscuit Company Advertising Manager tells why he selects WLW-TV and WLW Radio for Zesta Crackers

"In the Strietmann area, the combined wide coverage of the WLW-TV Stations and WLW Radio is that powerful advertising plus."

"This wide coverage matches a product's wide distribution—in our case, Zesta Crackers in the new 8 Pak."

"So this perfect coverage-distribution combination assures 8 times the lasting freshness for advertisers' commercial messages!"

The dynamic WLW group

Call your WLW Stations' Representative . . . you'll be glad you did!

LOUISIANA CONTINUED

FOR INCOME BUY 2 BATON ROUGE in LOUISIANA

Louisiana's *second* market in size is *first* in buying power. The $6,455 EBI per household in Baton Rouge is several lengths ahead of New Orleans and Shreveport. To sell Louisiana, buy advertising in at least two markets—the *right* two. Buy 2 in Baton Rouge.

BUYING INCOME* (Metropolitan Area)

$6455*	$5796*	$5676*
RICH BATON ROUGE	Shreveport	New Orleans

* Source: SM Survey, 1959. Effective buying income per household

IT PAYS TO *KNOW* THE ANSWERS

Today, people whose success in the broadcast advertising business depends on being well informed find BROADCASTING the most complete, authentic source of TV- radio news. For over a quarter-century they've found up-to-date answers on virtually everything about TV-&-radio in BROADCASTING Magazine, THE authoritative businessweekly in this multi-million dollar field. Edited by professionals for professionals, BROADCASTING stands alone as the best way to know about TV-&-radio and to advertise to those who make its major decisions.

More people pay to get BROADCASTING than for the next three publications combined. Be sure BROADCASTING is your G-2 source for the right answers.

BROADCASTING
THE BUSINESSWEEKLY OF TELEVISION AND RADIO

The only publication in the radio-tv field with membership in Audit Bureau of Circulations and Associated Business Publications.

Interview: Murray Roffis

McCann Erickson, Broadcast, Media Supervisor tells why he selects WLW-TV Stations and WLW Radio for Ajax Cleanser

"The Crosley Group can help clean up many an advertising problem."

"For all-around know-how from in-store merchandising to on-the-air production the WLW Stations certainly know their business."

"No scouring around for service, the WLW-TV-Radio Stations are always willing to help."

Call your WLW Stations Representative . . . you'll be glad you did!"

WLW-T Television Cincinnati

WLW-C Television Columbus

WLW-D Television Dayton

WLW-A Television Atlanta

WLW-I Television Indianapolis

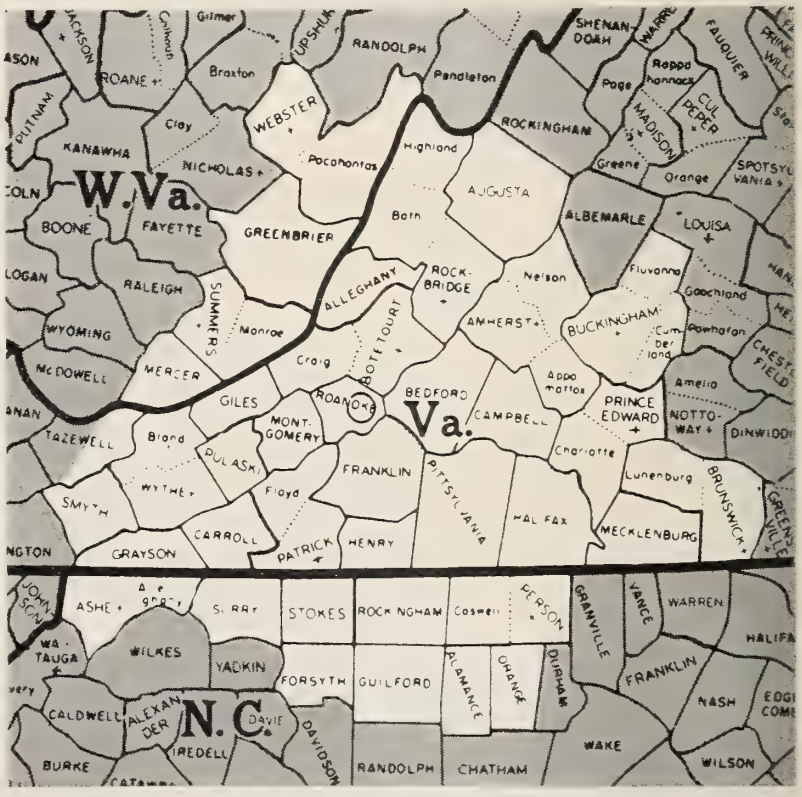
VIRGINIA CONTINUED



WDBJ-TV is one of the best buys in television anywhere

+ 20,550 television homes in the WDBJ-TV NCS No. 3 area*

This substantial increase brings the number of television homes in the WDBJ-TV coverage area to a total of 401,240.

There are many other reasons why it will pay you to take a close look at this rich and *growing* Roanoke market and at WDBJ-TV, which consistently delivers a big, *buying* audience at remarkably low cost.

* A. C. Nielsen Company's "U. S. Television Ownership Estimates By State And County As Of Spring 1959" adds 20,550 new television homes to the WDBJ-TV NCS No. 3 coverage area.

Ask your PGW Colonel for current availabilities

BOOK REVIEWS

- *The Image Industries: A Constructive Analysis of Films and Television, by William Lynch, S.J., Sheed & Ward, 840 Broadway, New York 3; 159 pp.; $3.50.*

Clearly and concisely, the author (a Catholic theologian) delineates the "mediocre material" that flows daily from television and the moving pictures, arguing that images, as well as ideas, have consequences. "Far from being harmless," he argues, "the image industries are turning out a product which dangerously confuses fantasy with reality and washes out the authentic lines of life in a flood of false magnificence."

This critical situation, the author insists, does not call for the "censor," but rather the earnest collaboration of the artist, theologian, critic and "common man," who is capable of far better than either the critic or the captains of the image industries think him.

"This is not meant to be a Catholic book," states the author, "but a brief appraisal of a national problem." It is a brief and generally fair appraisal that errs most seriously in implying that many critics and image makers are unaware of the problem. Such men as David Susskind, Ed Murrow, Jack Gould and others have expressed their concern publicly and often.

- *The Broadcasting & Television Yearbook [of Australia] 1959, by Greater Publications Pty. Ltd., Box 2608, G.P.O., Sydney, Australia; 306 pp; 2.2 and 6d.*

Published by the editors of *Broadcasting & Television*, Australian trade publication, this reference book contains full listings of all the radio and television outlets in that country, plus statistical information, directories of organizations connected with radio-tv and a 45-page who's who of over 875 names in broadcasting and advertising.

Where other materials fail our work begins . . .

The world's most NEARLY PERFECT electronic insulation materials . . . . . .

Whatever your high temperature needs—to 1550°F—there is a Mycalex insulation to meet them . . . each offering a *unique combination* of special advantages for electronic design: the *plus* factors of the inorganics *and* the design latitudes of the organics!

MYCALEX® glass-bonded mica—formulations of high quality natural mica and electrical grade glasses, with high dielectric strength, total dimensional stability, high arc resistance, high temperature resistance. Depending on their formulation, they can be machined or molded to exacting tolerances, inserts can be permanently molded in or cemented in—the thermal expansion of MYCALEX being close to that of stainless steel.

SUPRAMICA® ceramoplastics—advanced formulations of synthetic mica and high temperature glasses, created for insulation applications at operating temperatures up to 1550°F. They have a thermal expansion coefficient close to that of stainless steel. They are available in moldable or machinable types . . . both offering *total* dimensional stability.

SUPRAMICA 555—Precision-molded insulation, for operating temperatures to 700°F.

SUPRAMICA 560—Precision-molded insulation, for operating temperatures to 932°F. (500°C.)

MYCALEX 410—Precision-molded insulation, for operating temperatures to 600°F.

MYCALEX 410X—Lightweight precision-molded insulation material.

SUPRAMICA 500—Machinable insulation, for operating temperatures to 850°F.

SUPRAMICA 620—Machinable insulation, for operating temperatures to 1550°F.

MYCALEX 385—Machinable insulation, for operating temperatures to 700°F.

MYCALEX 400—Machinable insulation, for operating temperatures to 800°F.

CORPORATION OF AMERICA

WORLD'S LARGEST MANUFACTURER OF GLASS-BONDED MICA AND CERAMOPLASTIC PRODUCTS

OUR RESPECTS TO . . .

David Ryerson Hull

Capt. David R. Hull, electronic gadgeteer, made his first piece of communications gear for the Navy when he was a freshman in high school and has been at it ever since. Currently he is performing this role as defense vice president of Raytheon Mfg. Co., which makes the air-to-air Sparrow III missile and related miracles of military might.

The first homemade ham rig came out of the Hull cellar in Reading, Pa., when he was nine years old (born Oct. 29, 1903). By the time he enrolled at Portsmouth, N.H., High, he had produced a sweet-sounding rotary spark gap outfit. After school he worked part-time at the Navy Yard there as a riveter's helper and frequently hung around the radio shack. Often they let him do some key-pounding.

When yard officers heard about his home-produced rotary outfit they confiscated it for Navy use, a function it performed through World War I.

Capt. Hull this week winds up a year in one of the key professional spots in electronics—president of Electronic Industries Assn. The EIA convention starts in Chicago today (May 18) with one subcommittee session, will speed up tomorrow and be in full stride Wednesday. His rise to this top honor was based on a long series of outstanding achievements in the Navy, industry and the manufacturers' trade association.

Peripatetic Career • Young David Hull's early years—and his military years, too—were highly mobile. The elder Hull had died when David was less than a year old. His mother entered social work. This took her around many cities and gave her son frequent chances to adjust to new schools, new companions and new environments.

After World War I he entered a competitive examination for the Naval Academy and came out top in a field of 22 entries. His sponsor was the elder Henry Cabot Lodge. At Annapolis his interest in electronics, general science and mathematics was helpful. He was in the top fourth of his class.

The first assignment as an ensign was the New York Navy Yard and cruiser *Detroit*, followed by six months at the Newport, R.I., torpedo school. He met Flora Keeher in 1926 at a Vanderbilt party for servicemen and they were married a year later.

Communications always held the interest of the young officer, even while he was serving as torpedo officer on small ships just after his promotion to lieutenant (j.g.). In 1928 he received a letter of commendation from the Secretary of the Navy for his work as torpedo officer.

In 1931 he was sent to Annapolis graduate school and then to Harvard for a year at Cruft Lab. He obtained his M.A. at Harvard in 1933, having worked under Dr. G. W. Pierce of Pierce oscillator fame. Since the term "electronics" hadn't gained wide usage, the degree was "Master of Science in Electrical Communications Engineering."

Washington Experience • An assignment in Washington included development of underwater sound equipment, with electronics being adapted to underwater communication (Sonar). He worked with the Naval Research Lab. and private industry in building echo-ranging equipment which he took to sea for testing and perfection from 1933-36, headquartering in Washington and San Diego. He also developed vhf radiotelephone equipment in the mid-30s for fleet use.

ELECTRONICS EXECUTIVE HULL
". . . a forceful leader"

Next came radar development work in the Naval Research Lab., Washington, where he was assistant to the director, Adm. Harold G. Bowen. There the job was to expedite radar from the laboratory to fleet use, a number of ships having operational equipment before World War II. The equipment worked well and could detect planes 100 miles away.

When the U. S. entered World War II he was a lieutenant commander assigned to the Bureau of Ships as head of the Electronics Design Branch and quickly advanced to assistant chief of the Bureau for Electronics, senior Navy position in electronic material. In this post he was responsible for the design, procurement, installation and maintenance of all naval electronics gear.

Rising steadily in rank, he became a captain in 1942. After the war he continued in the electronics post until his retirement in 1948.

Capt. Hull continues his love for electronics and naval lore. Some day when the story of the Navy's latest Sonar equipment can be told, the chances are Capt. Hull's name will be prominent. In any case, he's parrying queries on the subject at the moment. He has a ship's clock in his Washington office, speaks with the clipped diction of the professional military man and his voice is deeper than his slight build might indicate. On the blondish side in his youth, his wavy hair for some reason turned brown in his 30s.

Into Private Industry • As Raytheon defense vice president he is mainly concerned with military procurement and development, the biggest part of electronics production.

His first job after retirement was assistant technical director of International Telephone & Telegraph Co. and vice president of the subsidiary Federal Telecommunication Labs., then making broadcast transmitters. He naturally was active in research and development. When IT&T bought Farnsworth Radio Corp. he became executive vice president and director of the Capehart-Farnsworth Corp.

Charles Francis Adams, president of Raytheon, hired him in 1950. He went to Waltham, Mass., headquarters as vice president and general manager of the equipment division. Raytheon had 5,000 employes at the time; currently the number is close to 40,000.

Capt. Hull has been an EIA director many years plus service on EIA divisions, helping break off military products into a separate unit. He was elected EIA president in 1958.

His interests center around Institute of Radio Engineers, Armed Forces Communications & Electronics Assn., Army-Navy Club, National Aviation Club and other professional organizations. He is a Congregationalist; has five grandchildren, and lives at 1500 Massachusetts Ave., Washington.

Industry connections include directorship in Mycalex Corp. of America, Technical Operations Inc., Applied Electronics Co. and Raytheon Canada Ltd.

Capt. Hull's service record includes numerous citations, including the Legion of Merit awarded by former Secretary of the Navy James Forrestal, as "a forceful leader, inspiring his associates with zeal and devotion to duty throughout a critical period . . ."

Cue for a walk-off

NO man has put the principle of free speech to sterner test than David Susskind, who is one of television's most affluent beneficiaries and unquestionably its bitterest critic. Mr. Susskind likes practically nothing of what he sees on tv, except his own productions which are numerous.

Give Mr. Susskind a forum, any forum, and he takes off on television's sterility, its lack of daring, its obsession with money. The fact that a good many critics have attached the same labels to some of his work has failed to interrupt his steady flow of abuse.

We are indebted to Sydney H. Eiges, NBC vice president in charge of publicity, for succinctly putting Mr. Susskind in his place. After Mr. Susskind last week attacked NBC as "mired in nonsense . . . the network of antiquity," Mr. Eiges replied, in part:

"Dave's success in developing adaptations of well-known classics for tv specials—including next season's 'Moon and Sixpence' for NBC—and his even greater development of the art of self-promotion have obscured the number of mediocre programs he has produced over the years."

It is too much to hope that Mr. Eiges' remark will shut Mr. Susskind up. But perhaps it will cause fewer people to listen to him.

Option time answer

THE FCC could be much closer to agreement on the vexing problem of option time than it realizes.

An analysis of recent expressions of individual commissioners persuades us that the FCC could agree to eliminate option time rules altogether and leave to stations and networks negotiation of their own arrangements in the sunlight of free, competitive enterprise.

There is no law requiring option time. There is a widely misunderstood 1941 Supreme Court opinion which holds the FCC has the power to regulate network-affiliate affairs. There is nothing to prevent the FCC from ruling that it no longer needs the chain-monopoly regulations.

Before the FCC issued its rulemaking of April 22 (BROADCASTING, April 27) proposing to reduce option time from 3 to 2½ hours in each segment, a motion by Comr. Bartley to delete the option time rule lost by one vote. Then the half-hour reduction proposal carried but with the full backing of only four commissioners.

Voting with Mr. Bartley to delete the rule were Comrs. Hyde and Ford. Mr. Hyde didn't go along with the majority on the half-hour reduction and reaffirmed his preference "to rely on the self-regulating force of competition."

Chairman Doerfer and Comr. Craven have been the most outspoken "free enterprise" advocates on the FCC. Comr. Cross, in his short tenure, likewise has demonstrated he does not want to unduly molest licensees. Where Comr. Lee stands we are not certain but we believe he, too, is a free enterprise advocate.

By proposing to cut option time by one-half hour, the FCC settles nothing. Nor would it settle anything by increasing option time.

There may be a problem of semantics involved in the FCC's dilemma. It is one thing to *repeal* the option time rules, as Mr. Bartley proposed. It is quite another to *outlaw* option time as proposed by the Barrow Network Report. The latter would prevent any station from optioning time to any network. To repeal the provision would leave stations and networks free to negotiate their own arrangements on a business basis. It would also allow syndicators and new networks, if they evolve, to contract with stations. Networks certainly would not court antitrust prosecution.

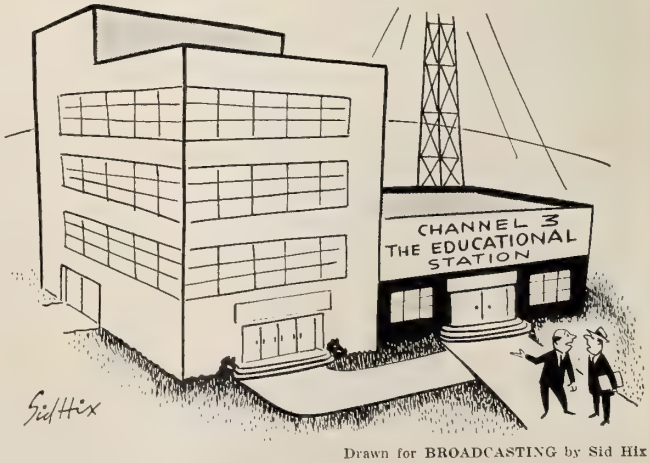
If the FCC members mean what they have said, the option time rules and all those collateral rules dealing with contractural and business affairs of stations and their networks should be repealed. This would take government at least part of the way out of the program business.

Strike that backfired

WE can't recall a more pointless strike than the one the National Assn. of Broadcast Employes and Technicians called against NBC last April 27.

To pull 1,500 workers off their jobs because some non-NABET French technicians were used in a video-taping in France was irresponsible. It is difficult to imagine how the NABET leadership can justify to members the $280,000 a week in wages they have lost.

The issue here was simple. NBC sent a *Today* crew to Paris to tape some sequences with Dave Garroway. Included in the crew were nine NABET members, on full pay, all expenses paid. During the taping of a Garroway interview with Brigitte Bardot, several French technicians were employed. NABET claimed a violation of jurisdictional agreements and pulled its members off the network when NBC insisted on playing the tape.



The dispute is not unlike some of those that beset the motion picture industry in the late '30s. The movie producers, bit by bit, let unions carve the business into dozens of jealously guarded precincts of authority. The inevitable result was a rigidity of union control that made efficient and economical production impossible.

There are now more technicians working in broadcasting than are needed to do the job. NBC has proved that by maintaining full network schedules with 300 supervisory employees doing the work normally done by 1,500 NABET members.

This is not to argue that in normal operations NBC is five times overstaffed. But certainly the figures do suggest that NABET job classifications and work schedules have led to a degree of featherbedding.

The problem goes beyond NBC and NABET. It extends to other networks, to stations, to other television production sources and other television unions. It is a problem that will worsen unless all networks, stations and producers resist it at every chance.

Whatever the immediate outcome of the NBC-NABET dispute, the mere fact that NBC chose to resist a clearly extreme demand has benefited the long-range development of television.

Drawn for BROADCASTING by Sid Hix

"ALL THE WORLD'S A STAGE"...

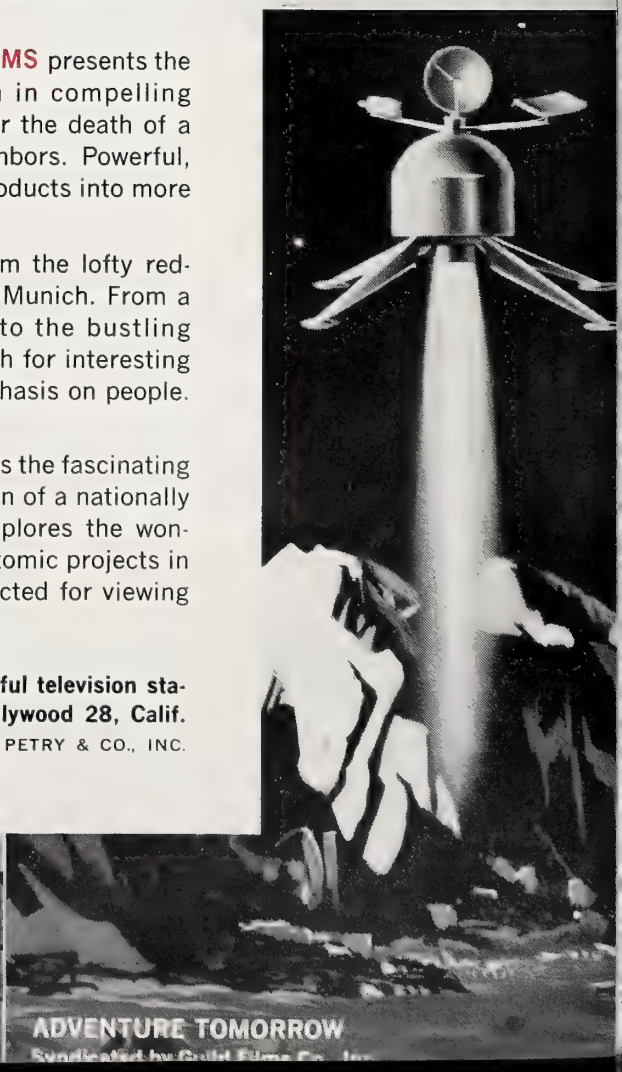
AND KCOP USES EVERY INCH OF IT!

The leading syndicators of TV programs on film and tape agree. That is why four great shows, originally presented on KCOP, are now available for other markets. Why not put these true-to-life syndicated shows to work for you... to sell more of your products to more viewers?

Look 'em over. They're real-life. Fact not fiction. They run the entertainment gamut from 30 minutes of travel in Mexico to a day in a Los Angeles court. From catching the elusive trout in the High Sierras ... riding the newest prop-jet... to interesting facts of science.

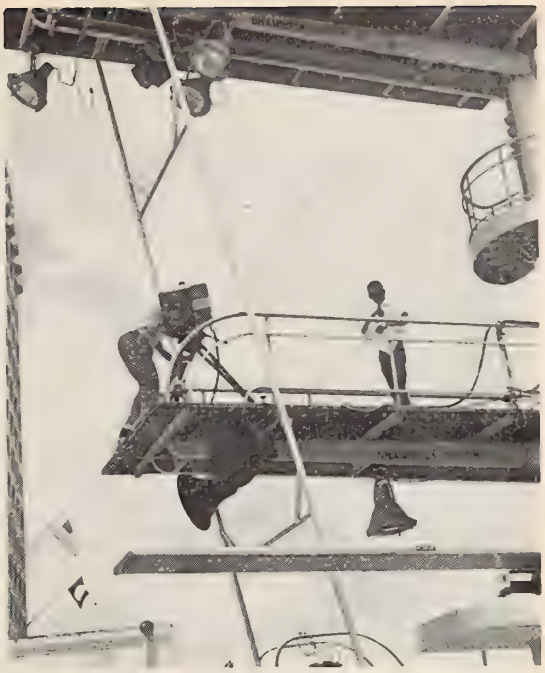
SEVEN LEAGUE BOOTS is an entirely new concept in travel and adventure! Filmed entirely by motion picture camera-artists, it captures the seven continents and the seven seas. From a floorshow in Europe to a Sultan's birthday party. The never-before photographed.

PEOPLES' COURT OF SMALL CLAIMS presents the gamut of every human emotion in compelling courtroom drama. From claims for the death of a parakeet to a case of noisy neighbors. Powerful, absorbing showcase to get your products into more buying homes.



VAGABOND roams the world. From the lofty redwoods of Sequoia to a carnival in Munich. From a sleepy Mexican fishing village to the bustling "Ginza" of Tokyo. Combs the earth for interesting sights and sounds... with the emphasis on people. And people like people.

ADVENTURE TOMORROW searches the fascinating world of science under the direction of a nationally famous instructor and author. Explores the wondrous world of missiles, jets and atomic projects in a lucid, entertaining manner. Selected for viewing by our Armed Forces.



KCOP **Los Angeles' most powerful television station • 1000 No. Cahuenga Blvd., Hollywood 28, Calif.**

CLOSED CIRCUIT®

Matter of time • Now that distillers have loosened up on woman taboo in display advertising, permitting milady to be shown in brand-name liquor displays, media observers feel it's only matter of time before code is revised to allow distillers to venture into broadcast media with carefully written and timed copy. Liquor advertising already is on air locally, via night club, hotel and other service spots advertising mixed drinks at reasonable prices. It's but short step to brand-name promotion on radio and tv.

Reward • NBC supervisory personnel who operated network during 19-day work stoppage by National Assn. of Broadcast Employes & Technicians reportedly came in for pleasant surprise when they returned to their regular jobs. Each of some 300 employes who substituted for absent union workers will receive at least one additional week of paid vacation and bonus of $400, and some who worked exceptionally long hours will receive larger bonus.

Promotion • Not quite ready for announcement but in work: Elevation of Edward DeGray from vice president in charge of ABC radio to president of radio division. Reports say it's set for next meeting of board of parent AB-PT.

Tv allocations • Because of tight schedule (it resumes 25 to 890 mc hearings today), FCC won't take up vhf tv drop-ins for number of critical 2-station markets until special meeting June 1. All told, some 35 cities are in line-up, but presumably only those where drop-ins could be achieved without deviating from existing mileage separations, and which have been cleared otherwise, would be promptly considered.

New allocations threat, resurrecting vhf-uhf controversy, to be considered June 1, is technical report of FCC's chief engineer, Edward W. Allen Jr., on virtues of uhf. Without evaluating economic upheaval that would result from transition to uhf, report finds major metropolitan areas (New York, Los Angeles, Chicago, etc.) could be covered by cluster of some 6 uhf stations operating on different frequencies, but repeating same program. But even existing 70 uhf channels couldn't accommodate replacement of each vhf with no adjacent channel assignments, this totally aside from economic dislocations and perhaps doubled cost of receivers.

Spectrum study • Outstanding figures in allocations planning and policy will participate in exploratory panel deliberations called for June 8-9 by Chairman Oren Harris (D., Ark.) of House Commerce Committee who is armed with $200,000 budget for study of spectrum problems involving use of space by government as well as industry, and with vhf for tv as primary consideration. Working against administration roadblocks, Mr. Harris has already received word from Defense Department that it has recalled Paul W. Goldsborough, who retired March 30 as director of telecommunications policy, to participate in panel, with full departmental authority.

While list of participants isn't complete, it's learned that FCC Chairman Doerfer, OCDM Director Hoegh, Dr. Irwin Stewart, former Federal Radio Commissioner who participated in both 1951 study and last year's "quickie," and Dr. Ernest Everett, U. of Illinois engineering dean, have sent acceptances. There was feeling, however, that NAB had not awakened to importance of sessions and that, instead of designating outstanding engineering figure, it had assigned staff member.

Key test • Strong plus in radio-tv's fight for equal access in courts seen during upcoming contempt of Congress trial of Chicago banker Edward A. Hintz. Mr. Hintz, associate of Orville E. Hodge imprisoned for embezzlement of Illinois state funds, refused to testify before Senate Banking Committee hearing in Chicago in 1956 claiming invasion of privacy because of microphones, tv cameras, tape recorders, etc. Senate cited him and trial is due soon. U. S. attorney in Chicago has asked for and received kinescope of tv coverage from WBKB (TV) Chicago and has indicated he hopes to use it to show jurors that cameras did not disturb hearing.

It doesn't always talk • That $1.5 million sale of WOV New York to Bartell Family (page 76) could just as well have been $2 million sale to another active bidder, but it would have meant change in station personality from primary Italian language format of 30 years to modern news-music. In midst of negotiations last week, M. S. Novik, president and 50% owner, was told of new $2 million proposal, but with no assurances, as were given by Bartells, that Italian programming would be "continued and expanded." He and his quarter-interest associates, Ralph Weil and Arnold Hartley, then decided to stick with Bartell offer.

Big meeting • Full membership of FCC will meet with full membership of Senate Commerce Committee within next fortnight to explore all legislative and regulatory matters of mutual interest and determine when new hearings will begin. Senate Committee, for past several years, has been keeping weather-eye on tv allocations policy, and FCC last month (BROADCASTING, April 27) submitted to committee status report to be basis for forthcoming hearings.

Change of pace • Assn. of National Advertisers' spring convention in Chicago past week was noteworthy in this respect: no speaker decried high cost of television though many have at former conventions. In fact, one (Douglas Smith, advertising and merchandising manager, S.C. Johnson & Son) came out with ringing defense of tv as advertising medium for selling goods (story page 38).

Decision • Equitable Life Assurance Co., which initially had intended to share honors next fall with *Playhouse 90* Thursday nights on CBS-TV with *Biography* series, will have six specials on NBC-TV next season. Original talks with CBS-TV on *Biography* fell through in April, and Equitable since then has looked elsewhere through agency Foote, Cone & Belding, New York.

Head start • How far in advance are film producers pitching their wares for 1960-61 season? Example: Warner Bros. is already gauging advertiser and/or network interest in planned half-hour tv series called *Room for One More* based on motion picture that featured Cary Grant.

Cumulation • WRCA-TV New York is keeping under wraps new "orbit plan," in which spot announcements in triple A time would be sold on rotating day and time basis. Research by station indicates that plan will increase cumulative rating of sponsor's message by 25%.

Appraisers • How does one determine worth of tv station? Try arbitration. That is how KRNT-TV Des Moines is being assessed, via three-man board. Arbitration route was picked by Cowles Broadcasting Co. and Kingsley Murphy Jr. to determine price Cowles will pay for Murphy 40% ownership in KRNT-TV.

REACH HER FIRST IN DETROIT

with WJBK-TV's MORNING SHOW MOVIE!

Children off to school . . . husband off to work . . . a cup of coffee and now a **Good Movie!** The "Morning Show" is the first feature film of the day in Detroit, Monday through Friday at 9:00 AM. Every show is a top-flight feature from UNITED ARTISTS, SCREEN GEMS, NTA, RKO, and coming soon, PARAMOUNT.

WJBK-TV puts you right in the picture in 1,900,000 television homes in Detroit and southeastern Michigan. Help yourself to a 9-billion-dollar sales potential in the nation's fifth market.

WEEK IN BRIEF

How to make tv less complicated • More equitable standardization of business practices between agencies and networks regarding color costs and program license fees, for instance, would make life much simpler for everyone. This is the subject about which David W. Dole, vice president, broadcast business division, Leo Burnett Co., Chicago, has some specific suggestions. He talks them over in this week's MONDAY MEMO. Page **25.**

Revolution on Madison Avenue • Progress, important progress, in tv timebuying due soon, according to American Research Bureau, preparing to tie together the magic of an electronic brain and the first county-by-county station coverage and audience service. Page **31.**

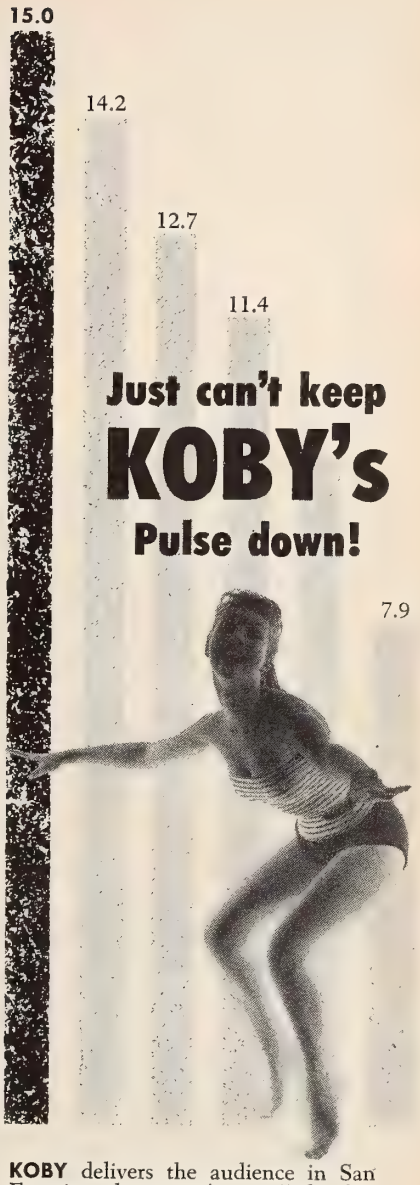
Tv coin from many • Television Bureau of Advertising lists more than 125 different advertiser types and their estimated gross expenditures in 1958 for both network and spot. Page **34.**

Advertising insight • Delegates at Assn. of National Advertisers Golden Anniversary spring meeting in Chicago takes a close look at themselves. They mostly liked what they saw, and television's detractors were worked over. A high spot—how S.C. Johnson & Son invaded the Lexington, Ky., market. Page **38.**

Effectiveness of tv films • Agency executive argues producers and distributors should inform timebuyers of their sales impact, with research-promotion organization supplying pertinent information. Page **52.**

Relief on the way? • Senate committee schedules June 12 hearings on "Fair Political Broadcasting Act of 1959" as bipartisan supporters push for action during present Congress. Page **57.**

A chance to kill Sec. 315 • A special BROADCASTING editorial advocates an all-broadcaster campaign for repeal of the political broadcasting law. and it explains the reasons why this is necessary—and possible. Page **58.**



FCC embroiled in sticky one • Case of Atlanta radio station programming still being deliberated, but Commission puts two more down on license renewals, and approves two others. Page **64.**

Electronics onward • Military output of manufacturing industry, estimated at $5 billion this year, expected to pass $21 billion by 1970, Electronic Industries Assn. convention at Chicago is told. Annual medal of honor presented to Frederick R. Lack, retired Western Electric vice president. Page **94.**

More electronics • Annual Electronic Parts Distributors Show at Chicago told parts volume should near $10 billion by 1960. Sales by parts distributors up 226% in decade. Page **95.**

Canon 35 study voted by ABA-media group

Proposal for objective survey of radio-tv-photo coverage of court trials given preliminary endorsement Friday in Washington at joint meeting of American Bar Assn. Canon 35 Committee and media representatives. Special group to probe survey project will be named if participating organizations approve. This group will study procedure and seek financing for inquiry into idea.

When and if financing is obtained, then joint bar-media interests would consult with survey organization on chance of conducting objective study. If final decision is reached to do depth survey, findings would be reviewed by ABA and media in search of change in Canon 35 ban against radio-tv-photo coverage. ABA committee will hear all sides of problem before making recommendations to association.

Chairman of ABA committee is Whitney North Seymour, New York. Media representatives at Friday session included Robert D. Swezey, WDSU-AM-TV New Orleans, and Howard H. Bell, assistant to president, for NAB; John Fulton Lewis, WBAL Baltimore; Ted Koop, CBS News, Radio-Television News Directors Assn.; Julian Goodman, NBC, Radio-Tv Correspondents Assn. Newspaper and photo associations also were represented.

April 17 Conelrad covered U.S. 85-90%

Conelrad test April 17 covered 85-90% of U. S., National Industry Advisory Committee was told at meeting in Washington. Committee reported Friday that analysis of last month's Conelrad drill showed "extremely satisfactory" results, except for few problem areas.

NIAC also took up other plans and projects, including work by EIA committee on standardization of Conelrad signal. This is expected to be completed in July, will permit production of low cost Conelrad receivers or adapters for existing am, fm or tv receivers. Part of standardization plan is installation of automatic push-button device at transmitter which will put station into Conelrad operation in seconds. Cost of this device—estimated to be about $150 per installation—will be borne by Office of Civilian & Defense Mobilization, it was learned.

NIAC committee, chairmaned by Les Learned, MBS, met at FCC. It comprises about 60 members, all technical and production personnel of broadcast industry.

Space reflectors

National Aeronautics & Space Administration announced Friday it had issued $60,000 contract to General Mills Inc. for nine plastic balloons each 100-ft. in diameter for use in passive satellite communication tests. First is scheduled sometime near end of this year. Balloons would be ejected into orbit from space rocket and would be used to "bounce" radio signals across oceans or continents.

Hill support grows for Sec. 315 change

Additional support for S 1858 amending Sec. 315 of Communications Act (equal time provision) was voiced in Senate Friday. Sen. Prescott Bush (R-Conn.) said radio-tv stations "face an impossible situation" in covering political news as result of FCC's Chicago-Lar Daly decision. Sen. Bush, one of 12 co-sponsors of S 1858, said that if ruling goes unchallenged "it can seriously diminish the public service role of the radio and television industries. . . ."

Sen. Francis Case (R-S.D.), another co-sponsor of Hartke bill (see editorial, page 58, earlier story, page 57), said that "to require equal time for all candidates in the coverage of news is as absurd as requiring of a newspaper equal space to all candidates, including minor factions. It would make candidates the judges of news values, abuse would be inevitable." Reporting of news, he said, should be left to discretion of media. "News by stopwatch would be news by state control," South Dakota Republican stated.

EIA promotes tv

Plans for new public relations program designed to promote interest among manufacturers and distributors in fall network tv spectaculars was approved Friday by board of Electronic Industries Assn.

Campaign devised by Consumer Products Div. task force to include promotion plugs by manufacturers in distributor presentations and probably newspaper advertising. EIA to distribute materials to tv receiver firms after compiling data from networks. Committee to develop public relations program includes L.C. Truesdell, vice president and sales director, Zenith Radio Corp.; Edward R. Taylor, vice president, consumer products, Motorola Inc., and Charles N. Hoffman, sales director, Warwick Mfg. Corp.

In other action EIA divided Consumer Products Div. for first time into separate radio, tv and phonograph sections (elections page 10).

KTVW (TV) names rep

KTVW (TV) Tacoma-Seattle, Wash. (ch. 13) reported Friday (May 22) appointment of Richard O'Connell Inc., N.Y., as national representative effective immediately. James Hawking, general manager, announced station went to full power of 316 kw last week. Station is owned by J. Elroy McCaw.

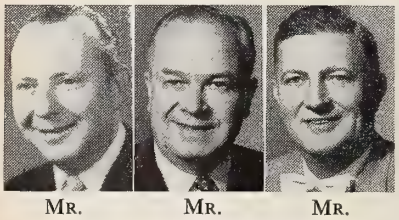
St. Louis ch. 2 case

FCC has asked two weeks extension on deadline in St. Louis ch. 2 case from U.S. Court of Appeals, Washington. Commission lawyers said they had not had opportunity to take up question of whether to seek rehearing or clarification with Commission since all seven commissioners have not been present until recently. Deadline for further action in St. Louis case was Saturday (May 23). Court remanded St. Louis ch. 2 case on ground *ex parte* conversations took place while rule-making proceeding to move ch. 2 from Springfield, Ill., to St. Louis was under consideration (BROADCASTING, May 11).

Mutual signs KTOK

Mutual network affiliation in Oklahoma City will shift from KTOW to KTOK June 29, replacing CBS at latter station. KTOW has not announced future plans; neither has CBS. KTOK is 5 kw on 1000 kc; KTOW 250 w day on 800 kc. In another affiliation move, KOSY Texarkana, Tex., joins CBS effective July 2. It is on 790 kc with 1 kw day, 500 w night.

CONTINUES *on page 10*



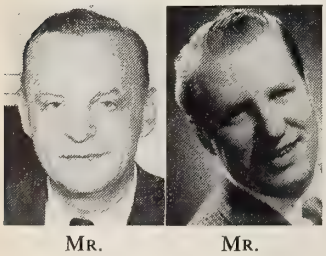
AT DEADLINE

• Business briefly

• Shulton Inc., N.Y., has mapped out June-July radio-tv spot promotion for its insecticides in 16 markets (10 radio and seven tv, with one overlap). Frequency of radio exposures per market varies from 20 to 60 depending on number of stations used. Tv spots, ranging from 12 to 18 per week, will appear on one station per market. Agency: Wesley & Assoc., N.Y.

• Spector Freight System, Chicago, through Garfield-Linn & Co., considering use of local nighttime radio in $400,000 advertising campaign during next 12 months. Company will buy programs or spots in number of key cities to promote truck service, terminal facilities and network of routes, according to Val Williams, vice president-marketing.

WEEK'S HEADLINERS



MR. HALL MR. HARTENBOWER MR. RAWLS

PAYSON HALL, treasurer and director of radio-tv for Meredith Publishing Co., elected to board of directors. Other Meredith appointments: E.K. HARTENBOWER, general manager of KCMO-AM-FM Kansas City, elected vp of KCMO Div. of Meredith Engineering Co., wholly-owned subsidiary of Meredith Publishing Co.; and RICHARD B. RAWLS, general manager of KPHO-AM-TV Phoenix, Ariz., elected vp of KPHO Div. of Meredith Engineering Co. Other Meredith stations are KRMG Tulsa, Okla., WOW-AM-TV Omaha, Neb., and WHEN-AM-TV Syracuse, N.Y.

MR. AUBREY

JAMES T. AUBREY JR., vp-creative services of CBS Inc. since April 1958, appointed to new management position of executive vp of CBS-TV effective June 1, LOUIS G. COWAN, CBS-TV president, announced Friday (May 22). Mr. Cowan said Mr. Aubrey will have general supervision of all CBS-TV departments in a post created because of "the rapid growth and increased complexity of network television." Before he joined CBS, Mr. Aubrey was vp in charge of programming and talent at ABC-TV starting in December 1956. In that same year (June 1956) he had been manager of network programs in Hollywood for CBS-TV. His broadcast background included general manager of KNXT (TV), CBS-owned station in Los Angeles, and of Columbia Pacific Network from October 1952, and before that KNX and KNXT account executive and later KNXT's sales manager.

MR. CAMPBELL MR. THAYER

WENDELL B. CAMPBELL, general manager of KFRC-AM-FM San Francisco, appointed vp in charge of Pacific coast sales for radio-tv properties of RKO Teleradio Pictures. JACK THAYER, who resigned last week as general manager of WDGY Minneapolis-St. Paul (WEEK'S HEADLINERS, May 18), succeeds Mr. Campbell as vp and general manager of KFRC. Before joining KFRC, Mr. Campbell was vp and sales manager of Mutual Broadcasting System when it was owned by RKO Teleradio. RKO Teleradio stations are WOR-AM-TV New York; WNAC-AM-TV and Yankee Network, Boston; WGMS-AM-FM Washington; CKLW-AM-TV Windsor, Ont.-Detroit; WHBQ-AM-TV Memphis; KFRC, and KHJ-AM-TV Los Angeles.

DAVID R. HULL, Raytheon Mfg. Co. defense vice president, re-elected president of Electronic Industries Assn. May 21 by EIA board, winding up weeklong sessions (early story page 94). JAMES D. SECREST re-elected EIA executive vice president-secretary.

Others elected: LESLIE F. MUTER, Muter Co., treasurer; Dr. W. R. G. BAKER, Syracuse U., director emeritus. Elected vice presidents were ROBERT S. BELL, Packard Bell Electronics Corp.; S. R. CURTIS, Stromberg Carlson Co.; RUSSELL E. CRAMER Jr., Radio Condenser Co.; A. L. CHAPMAN, CBS-Hytron; C. RUSSELL COX, Andrew Corp. New EIA board will meet Sept. 24 at Traymore Hotel, Atlantic City.

MR. BOOROM MR. DAVID

WARREN BOOROM and MILES DAVID elected vps of RAB by board of directors last Wednesday (May 20). Mr. Boorom, director of member service, joined RAB in August 1954 as assistant director of local promotion, was promoted to director in December 1955, promotion manager in April 1956 and to present post in January 1958. Previously he was director of advertising and promotion for WTOP-AM-TV Washington, and before that was with WWDC Washington and KRS Los Alamos, N.M. Mr. David, director of promotion, came to RAB in present post in March 1958 after eight years with *Sponsor* magazine both as managing editor and executive editor. Before that he had been free-lance writer, associate editor of *Science Illustrated* magazine and writer and editor on *Stars & Stripes*, army newspaper.

MR. HULT

ADOLF N. HULT, former Mutual vp and more recently tv consultant for Screen Gems and RKO Teleradio Pictures, both New York, rejoins Mutual as vp in charge of newly-created special projects department (CLOSED CIRCUIT, May 18). New department will be responsible for developing projects for network's sales department. Mr. Hult began his radio career as salesman for WGN Chicago, and in 1934 he joined Mutual's sales staff, that city. He was promoted to sales manager for network in Chicago in 1941 and in 1945 was named vp in charge of midwest operations. In 1949, he was appointed vp in charge of sales for MBS in New York and in 1953 was elected to company's board of directors.

A CALENDAR OF MEETINGS AND EVENTS IN BROADCASTING AND RELATED FIELDS

(*Indicates first or revised listing)

May 24-26—Assn. of Independent Metropolitan Stations, Houston.

May 24-26—Life Insurance Advertisers Assn., western roundtable, Ambassador Hotel, Los Angeles.

May 25—Testimony commences in FCC's study of use of spectrum in 25-890 mc region. Witnesses permitted to spend 15 minutes on position already stated in comments filed in March. Broadcast representatives bring up tail of witness list. Hearing is before FCC en banc. Docket 11,997.

May 26—FCC Chairman John C. Doerfer addresses Federal Communications Bar Assn. on extra-record material in rule-making cases. Willard Hotel, Washington.

*May 26—Annual meeting New York City chapter, Broadcast Pioneers, Toots Shor's restaurant, 6:30 p.m. Nominating committee has named this slate of officers: Blair Walliser, MBS, president; Edward P. Shurick, John Blair & Co., Arthur Simon, Radio-Tv Daily, and Peggy Stone, Radio-Tv Representatives, vice presidents; Elizabeth Black, Harry B. Cohen Adv., sec.; Robert Higgins, Broadcast Music Inc., treasurer.

*May 27—Agency Broadcast Producers Workshop, Chicago Film Lab., Chicago. Speakers: Raymond Jones, AFTRA Chicago executive secretary, and Herbert Neuer, legal assistant.

May 27—Chicago Federated Adv. Club, 17th annual advertising awards contest dinner, Carson Pirie Scott & Co.

May 27—New Jersey Broadcasters Assn. spring meeting, Rutgers U. campus, Rutgers. Topics include single vs. multiple rate and station appraisals.

May 29—National Tv Repeater Assn., Denver.

May 29-31—Second Annual International Radio Programming Seminar and Pop Music Disc Jockey Convention, Americana Hotel, Miami, Fla. Speakers will include Matthew J. Culligan, NBC Radio executive vice president; Gordon McLendon, head of McLendon station group; NAB President Harold E. Fellows (keynoter) three station representative executives—John Blair, Robert Eastman and Adam Young. Storz stations are sponsoring seminar with Bill Stewart as convention coordinator.

JUNE

June 1-3—National microwave symposium, Professional Group on Microwave Theory & Techniques, Boston Section, Paine Hall, Harvard U., Cambridge, Mass.

June 2—Special NAB Tv Public Information Committee, formed to draw up national program, will hold first meeting in New York.

June 3-5—Armed Forces Communications & Electronics Assn., annual convention, Sheraton-Park Hotel, Washington, D.C.

June 4-6—Fm Multiplexing Seminar under auspices of WGH-FM Newport News, Va., Chamberlin Hotel, Old Point Comfort, Va. Agency panels on fm and its future are planned. Other topics—FCC multiplexing regulation; is multiplex a broadcast or nonbroadcast service; must background and store services be broadcast on a subchannel only; music licensing fees; stereo; fm sales prospects; fm promotion. Dan Hydrick Jr., WGH-FM general manager, is in charge of planning.

June 4-6—First meeting of new FM Assn. of Broadcasters, Chamberlin Hotel, Old Point Comfort, Va. Association was formed during NAB convention last March, supplanting FM Development Assn.

June 5—NAB Tv-Music Advisory Committee, NAB hdqrs., Washington.

June 6—UPI Broadcasters of Wisconsin, Milwaukee.

June 7-9—North Carolina Assn. of Broadcasters, Morehead Biltmore Hotel, Morehead City.

June 7-9—American Women in Radio & Television, board of directors meeting, Statler Hilton Hotel, Washington.

June 7-10—Advertising Federation of America, annual convention, Hotel Leamington, Minneapolis. An advertising "situation report" will feature Jean Wade Rindlaub, BBDO vice president; Fairfax M. Cone, chairman of Foote, Cone & Belding, and Sen. Hubert H. Humphrey (D-Minn.). Public service awards will be presented. Other speakers: David Susskind, executive vice president of Talent Assoc.; Mitch Miller, Columbia Records; James S. Fish, General Mills, presiding at the awards luncheon; John J. Ryan, AFA counsel.

June 8-9—Panel on spectrum allocations before Communications Subcommittee of House Commerce Committee.

*June 9-July 1—Communications Subcommittee of Senate Commerce Committee hearings on 13 pending bills amending Communications Act.

June 12—NAB Tv Code Review Board, NAB hdqrs., Washington.

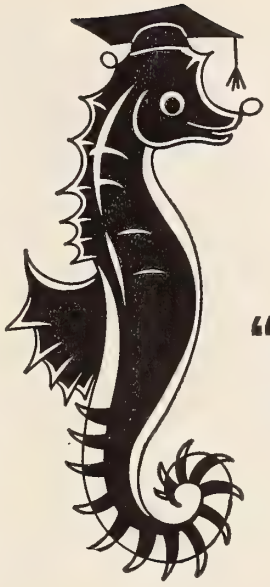
June 12—Pennsylvania AP Broadcasters, Pittsburgh.

June 12-16—National Federation of Advertising Agencies, annual convention, Chatham Bars Inn, Chatham, Mass.

*June 13—U. of Chicago Communications Dinner, Quadrangles Club, on campus. Louis G. Cowan, CBS-TV president, will speak on "Television and the Arts." Other speakers are Leonard Kent, Needham, Louis & Brorby, and Alec Sutherland, U. of Chicago educational broadcast chief.

June 13—UPI Broadcasters Assn. of Connecticut, Sun Valley Acres, Meriden.

June 13—UPI Broadcasters of Pennsylvania, Penn-Harris Hotel, Harrisburg. Gov. David L. Lawrence, principal speaker.



June 13-14—UPI Broadcasters Assn. of Texas, annual meeting, Hilton Hotel, San Antonio.

June 13-14—Louisiana-Mississippi AP Broadcasters Assn. Jacksonian Motel, Jackson, Miss.

June 14-17—National Industrial Advertisers Assn., national convention, Fairmont and Mark Hopkins Hotels, San Francisco.

June 15-16—Tv medical symposium, Naval Medical Center, Bethesda, Md., for armed forces and medical schools. On agenda: Color microscopy, medical and dental tv systems; tv cameras; tv distribution; projectors; lighting; recording; tv costs and planning.

June 15-19—NAB Combined Boards of Directors, NAB hdqrs., Washington. Committee meetings and indoctrination of new directors June

*June 17-20—**National Assn. of Television-Radio Farm Directors**, Hotel Statler, New York. Farm broadcasters will carry their "sell farm broadcasting" to Madison Avenue.

*June 17-19—Eleventh annual meeting **Catholic Broadcasters Assn.**, Pick Fort Shelby Hotel, Detroit. Significance of the encyclical "Miranda Prorsus" will be reviewed. Speakers include Most Rev. John King Mussio, bishop of Steubenville and Episcopal moderator of association; His Excellency the Most Rev. Bishop Fulton J. Sheen; Donald H. McGannon, president of Westinghouse Broadcasting Corp., discussing "Tv in the United States, Responsibilities and Opportunities"; Arthur Hull Hayes, CBS Radio president, speaking on "The Future of Radio in a World of Television"; Ed Sullivan, CBS-TV m.c.; Franklin Dunham, radio-tv chief, U. S. Office of Education, speaking on "The Social Impact of Television."

June 18—**Maryland-D.C. Broadcasters Assn.**, Stephen Decatur Hotel, Ocean City, Md.

June 18-20—**Florida Assn. of Broadcasters** convention, DuPont Plaza Hotel, Miami.

June 18-21—Pet Milk's second annual **Grand Ole Opry** talent contest finals, Dinkler Andrew Jackson Hotel, Nashville, Tenn. Participating in event, now building up at local station level, are WSM that city, Keystone Broadcasting System and its affiliates and Gardner Adv. Co., Pet Milk agency. Station managers may compete for promotion prizes and for all expense-paid trips to Nashville.

June 19—**Rhode Island Broadcasters Assn.**, Viking Hotel, Newport.

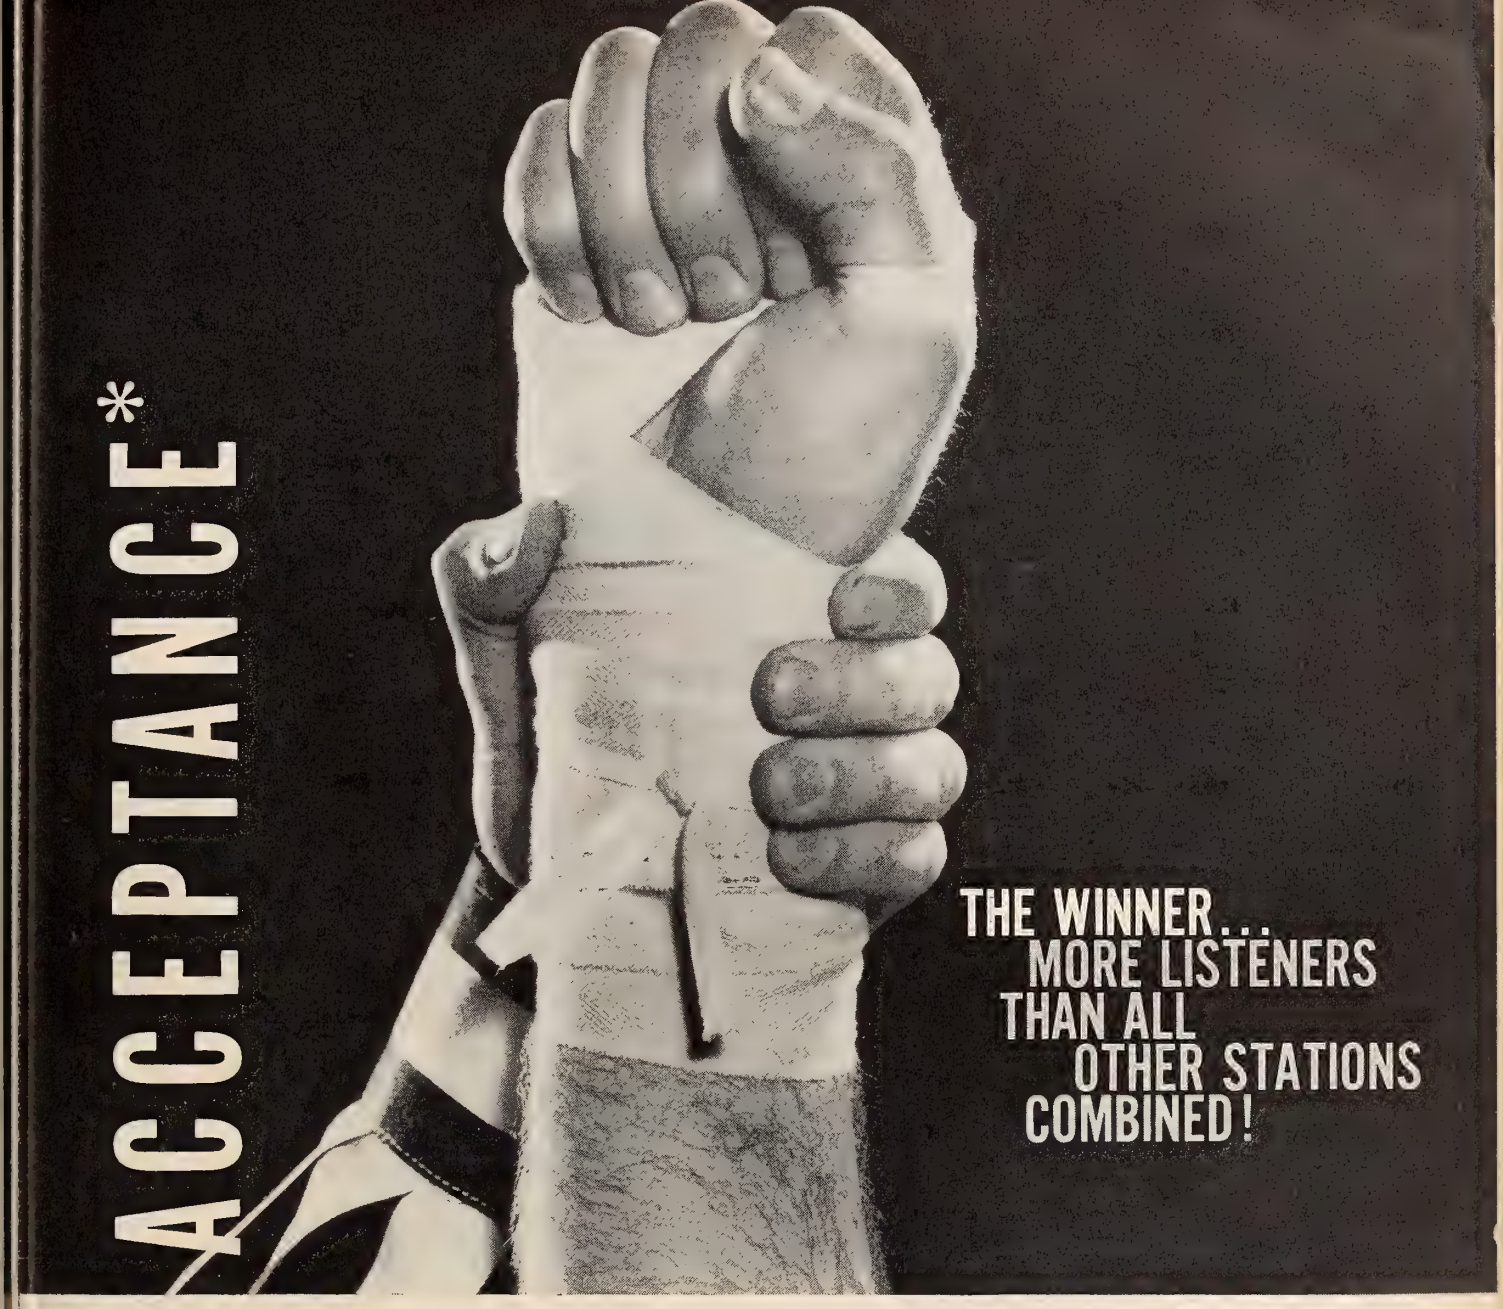
June 21-22—**Colorado Broadcasters & Telecasters Assn.**, Colorado Hotel, Glenwood Springs. Howard Bell, NAB assistant to the president, will speak.

June 22—Comments due on FCC proposal to revise television network rules including cutting down on option time, counting straddle programs as option time entirely, etc. Commission requests that comments also refer to same revisions in radio network rules. Docket 12,859.

June 22-26—**First Advertising Agency Group**, annual conference, Belmont Hotel, Cape Cod, Mass.

June 22-Aug. 15—**Summer Radio-Tv Institute**, Stanford U., Calif. George A. Willey, director.

June 23-25—**National Community Television Assn.**, Sheraton Hotel, Philadelphia.



June 23-Aug. 1—Broadcasting Symposium, **Northwestern U. Radio-Tv-Film Dept.**, Evanston, Ill. Speakers include FCC Chairman John C. Doerfer, Hugh M. Beville Jr., NBC; Gilbert Seldes, **Saturday Review**; John O'Brien, Voice of America; Eric Barnouw, Columbia U.

June 28-29—**South Carolina Broadcasters Assn.**, William Hilton Motel, Hilton Head Island, summer convention.

June 28-July 2—**Advertising Assn. of the West**, annual convention, Tahoe Tavern, Tahoe City, Calif.

June 28-July 4—**National Advertising Agency Network**, management conference, Del Monte Lodge, Pebble Beach, Calif.

June 29-July 1—Military electronics convention sponsored by **Professional Group on Military Electronics of Institute of Radio Engineers**, Sheraton Park Hotel, Washington. Space propulsion, space electronics, radar, missile guidance, computers and related topics will be discussed.

OUR HISTORY AND GUARANTEE

- ✓ Over fifteen years experience in the prize business.
- ✓ We guarantee the prizes will be as represented.
- ✓ We have never failed to deliver as promised.
- ✓ We have never been sued by a station, client, or contestant.

Here's the kind of prizes we're now furnishing to TV and Radio Stations:

Vacation Trips
Gas Ranges
Luggage
Dinette Sets
Sewing Machines
Diamond Rings
Roaster Ovens
Ironing Board & Iron Sets
Perfume Sets
Electric Mixalls
Aluminum Sets
Toasters
Jewelry Sets
Golf Bags
Dishes
Electric Clothes Dryers
Freezers
Encyclopedia Sets
Washing Machines
Knitting Machines
Wristwatches
Vacuum Cleaners
Cooking Utensils
Electric Shavers
Cameras
Bicycles
Coffeemakers
Bathroom Scales
Pen & Pencil Sets
Bedspreads & Draperies

FROM THE PRODUCERS OF TELLO-TEST—AMERICA'S MOST

For years, we have been servicing hundreds of stations with hard-to-get prizes—in connection with our TV and radio quiz shows. Now, for the first time in our history, we have decided to make our prize service available to take care of the personal needs and requirements of any local show in any market.

FOR THE FIRST TIME!

FOR LOCAL TELEVISION AND RADIO STATIONS

. . . Offered by America's oldest and most dependable Prize Service

WHY ARE WE SO SUCCESSFUL WITH PRIZES?

1. We charge the station a nominal fee.
2. We never charge the manufacturer. (Some companies try to make money at both ends—from manufacturer and station. Result—an inferior list of awards.)
3. We protect the manufacturer. He gets the gratuitous plugs we promise him. Result—over the years we have built up an enviable position with the award donors.
4. We protect the station. We only require a realistic and practical number of gratuitous plugs for the prize donor.
5. We won't accept shoddy merchandise. We only use quality awards, of the type a contestant would love to win.
6. We ship the prizes direct to winner, at our expense. No handling or warehousing by station.

Remember, the bigger the market and the station, the better prize list we can deliver. But even for the smallest stations, we can perform successfully. Let us know what your situation is. Every deal requires special handling and attention—but we can deliver—and at a realistic price.

Daytimers' hours

EDITOR:

OUR SINCEREST THANKS GO TO YOU AGAIN FOR YOUR CONSTRUCTIVE THINKING IN BEHALF OF OUR INDUSTRY. YOUR EDITORIAL "TINKERING WITH TIME" (page 118, May 11) IS ANOTHER CONTRIBUTION THAT IS GREATLY APPRECIATED.

CARTER M. PARHAM
WDEF CHATTANOOGA, TENN.

EDITOR:

. . . I take exception to your May 11 editorial . . . your "Tinkering" blast coyly dismisses a serious problem afflicting almost one-third of the radio industry. . . .

In the legal and technical goulash that has been submitted by opponents of extended daytime hours, I have yet to see one solid chunk of evidence proving that regionals and clears have any substantial listening audiences outside of the immediate metropolitan areas in which they are located. Neither have I seen any "proof" that daytimers operating until 6 p.m. will interfere with regionals and clears *within* the latter's metropolitan areas. . . .

Undoubtedly, some of our high power westerners covering vast populations of prize beef cattle do offer the only service available in a few scattered "white areas." But until the daytimers have a chance to test their arguments in actual operation, who will ever know how many "white area" *people* will lose a radio service they listen to. . . .

The FCC can very easily authorize a six-month test period this winter, giving fulltimers the privilege of squelching offending daytimers if they can prove any important loss to audience due to actual interference during post-sunset hours. . . .

Tim Elliot
WICE Providence, R.I.

EDITOR:

The tenor of the [editorial] gives the impression the FCC has bestowed a favor on the operators of daytime stations by granting them licenses. I should like to inform the author . . . that the FCC grants commercial licenses on the basis of what may best serve the public interest. If anyone has been the recipient of a favor . . . it has been the American people.

. . . If the average listener had a choice in being able to hear his local station or a distant station during the critical hours in question, I'm sure the local station would win. . . .

There is one point of agreement, however. I think a maximum of 1 kw should be placed on daytimers operating during extended hours. . . .

John Pave
650 Landfair Ave.
W. Los Angeles 24, Calif.

EDITOR:

Either the editors aren't very well informed or there must be some other reason for this editorial. Apparently they forget that the primary duty of a radio station is service to the public.

. . . I . . . challenge the fulltimers to show one good reason why they should be entitled to protection in areas they don't give a hoot about except when they flash their coverage map in front of an agency's nose. . . .

Frank Luepke
WBBA Pittsfield, Ill.

Thoughtfulness appreciated

EDITOR:

Please convey to the industry my sincere gratitude for the many expressions of sympathy received by my wife and myself on the occasion of the tragic loss of our daughter, Doris. We will always remember the heartfelt concern of our many friends during our most trying time.

J. Robert Gulick
Assistant General Mgr.
WGAL-TV Lancaster, Pa.

MONDAY MEMO

from **DAVID W. DOLE,** *vice president, broadcast business division, Leo Burnett Co., Chicago*

How to make tv less complicated

My penchant for equitable standardization of business practices within the television profession stems in part from some of the complexities of color costs and program license fees. Here is a "for instance."

Life would be much simpler if the networks would agree that where the network retains the right to change from black-and-white to color on programs purchased from them: (1) the agency would be given 60 days' notice; (2) there would no increase in program license fee to the agency; (3) the network would continue to supply, at the agency's election, either black-and-white *or* color services, materials and facilities for the commercials.

(4) The agency's additional cost of producing commercials *in color* would be limited to the average cost of black-and-white plus 50% of the difference of the extra cost for color; (5) the agency's cost of continuing to produce commercials in *black and white* would be limited to that of the average cost experienced in black and white previously; (6) any cost in excess of the agency's obligations under (4) and (5) would be paid (not billed) by the network.

An additional factor: if the network exercises the right to go to color on the program, the agency should be given the right to terminate the purchase of the program, effective immediately after the last broadcast in black and white, by giving the network notice within 10 days after receipt of the color notice.

Some Good Reasons • There are many good reasons for the above qualifications.

If the agency is using film commercials, or would have to go to film if the program went to color, the amount of advance notice is important. It takes time to create and produce a color film commercial. Unless the agency has had considerable experience working in color, the results of a quick change to color even with live commercials can be disastrous in the value of the commercials to the advertiser.

It seems inequitable for the network to raise the price of the program to the agency unless the latter agrees to the desirability of the change to color and agrees to pay the additional cost. For all the investment in color by RCA and others—and the very worthwhile results in programs such as *An Evening With Fred Astaire*—color still has a rather unimpressive cost-per-thousand record to recommend it.

On the face of it and without regard to cost, one might assume that any advertiser would prefer having a program and commercials in color. But there are some products (food products mainly, we believe) which in their usual form and color do not reproduce well in color tv. Sometimes lengthy and costly experimentation is necessary to obtain the desired results.

Impact Is Lost • If the program goes to color and the commercials stay in black and white, doesn't the advertiser lose value in all color tv homes because the relative impact of the commercials, compared with the program, is reduced?

Film or live, the color version of the same commercials are likely to cost 10% to 50% more to get them on the air. The value, either as promotion or in impact on color homes, is worth something to the advertiser. But we suggest that the most it may be worth is half of the additional cost.

If the agency feels there is not sufficient reason to go to color commercials, it is imporant budgetwise to be sure the network's decision to go to color on the program doesn't preclude or increase the cost of black and white commercials. Both can happen.

Here's another "for instance." Life in tv would be simpler if the networks would agree that program licensee fee increases resulting from boosts to the unions (AFTRA, SAG, RTDG, WGA) would be passed on to agencies effective with the date of applicability—but that all other increases would be given "facilities and services manual" status, plus the usual six months' rate protection after issuance of a new rate card.

When selling programs, the networks like any packager naturally want to protect themselves against price increases resulting from almost any source.

Language Not Specific • The network agreements usually describe the increases which the network can pass on to the buyer, in part, as those resulting from increases payable under union agreements. But often the language is so broad that while it may never have happened, the network technically could pass along increases paid to elevator operators or janitors in the network's building—as well as those directly connected with the programs.

Somewhere between a firm price (no increase at all) and this broad language is a justifiable and logical limitation of the risk. We suspect (and have had network people agree with us) that in many instances, the increases collected amount to less than it costs the network to ascertain the applicability, figure the pro rata applicable amounts and collect these from the buyer.

I would urge the networks to limit the immediate pass-on increases to those union-controlled areas where any agency should usually know of the possibility of increases—namely AFTRA, RTDG, WGA, SAG and perhaps, in connection with film programs, IATSE. Nearly all other union areas represent costs which are included elsewhere—(1) in the networks' basic rate structure, or (2) in their production facilities and services manual.

The advertiser can have better service and both agency and network can provide it at less expense. Equitable standardization in some areas will help.

David Webster Dole, b. Minneapolis, Oct. 18, 1914. Attended U. of Minnesota. Started in broadcasting 25 years ago at WTCN Minneapolis-St. Paul; also with WCCO and Mid-West Recordings there. Associate radio director and timebuyer at Henri, Hurst & McDonald 1938-47, then to C. E. Hooper Inc., N.Y. Joined Leo Burnett Co., N.Y., 1950, as producer; moved up to operations manager and finally vp heading broadcast business division of 41 people, Chicago. He has handled orders and contract negotiations for agency since mid-'50s. He's a "vocational hobbyist." Member of radio-tv administration committee of American Assn. of Advertising Agencies and chairman of subcommittee on video tape.

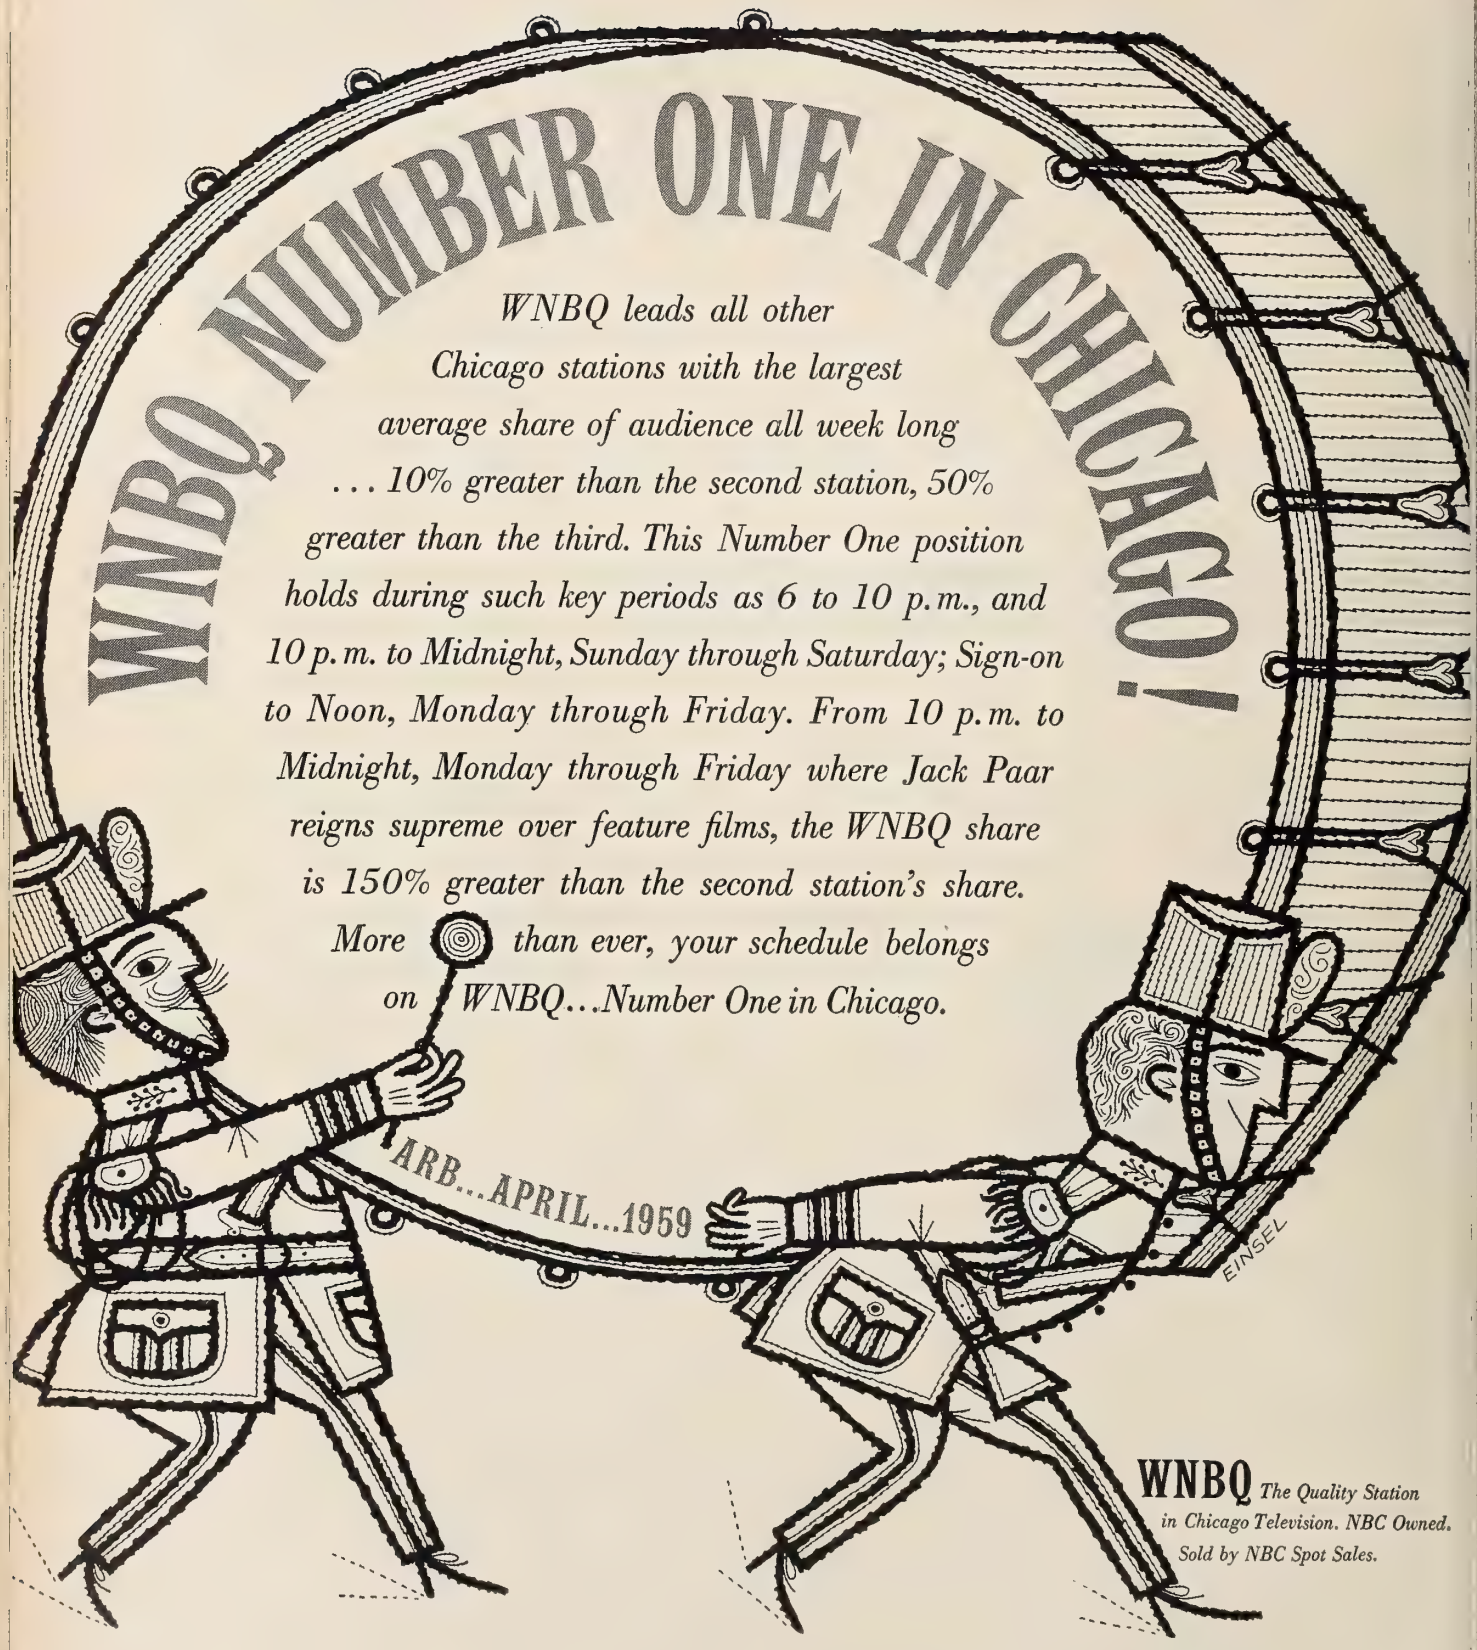
Before
you finish reading—
another will

die needlessly!

What WGN Radio is doing about it!

Over one hundred people every day are killed on our nation's highways. A death rate so alarming—that it has become one of the most pressing problems confronting our country. Top priority has been given to the President's highway program. Numerous road improvements have been enacted by the states. Police patrol has been extended to the maximum. But *still* the needless slaughter goes on!

In line with *doing something* to stem this terrible tide—WGN Radio conceived and instituted "Signal Ten"—a documentary radio program taken from on-the-spot tape recordings of State Police work. *Intense—instructive—penetrating*—"Signal Ten" dramatically portrays traffic violations and their impending dangers *as they actually occur.* And WGN Radio pinpointed the problem further by taking its own survey of traffic conditions before selecting the target areas for its programming. Then to broaden the scope of this much needed safety service, WGN Radio made "Signal Ten" available to 17 other midwestern radio stations.



It is for this kind of sustained public service that WGN Radio was chosen as the *only* radio station over 1000 watts, to receive the coveted Alfred P. Sloan Award for promoting highway safety.

This, we believe, is an outstanding example of how WGN Radio is fulfilling its dedicated purpose of "Serving all Chicagoland" better.

ELECTRONIC BRAIN FOR TIMEBUYING

- **ARB is installing Univac system which can plot campaigns**
- **First step is fully national measurement of tv viewing**
- **Machine will make up whole schedules in minutes, ARB says**

Automated timebuying is on the way.

A new electronic information service that will automatically lay out a complete tv campaign is promised by American Research Bureau.

The speed of the newest Univac and an entirely new ARB diary service will be combined to "revolutionize timebuying," according to James W. Seiler, president of ARB.

"A new dimension—simultaneous, nationwide tv information—is being readied for Madison Avenue," he said.

By mid-August ARB will be shaking down its electronic brain. Starting in mid-October and running into November, ARB will measure viewing in all 3,074 U. S. counties plus Alaska and Hawaii. The result, according to ARB, will be the first complete measurement of U. S. television audience viewing ever made. It will be ready by yearend.

"This has never been done before, and it will fulfill the timebuyer's dream of a complete information service," Mr. Seiler said. "It will give timebuyers precise sets of facts to use in placing television advertising."

What will Univac do for the timebuyer?

"Ask it a timebuying question and Univac will have the answer in a few minutes," Mr. Seiler said.

"Take a specific case. An agency has $500,000 to spend on a national tv campaign for a soap account. It wants to cover 90% of the U. S. effectively. What stations will do the job?

"Tell Univac the amount of money, areas, type of people to be reached. Add availabilities that have been supplied plus costs.

"Then ask Univac for the best possible schedule.

"The answer will come in a few minutes."

All this is based on the new county-by-county service that ARB plans to conduct this fall, plus regular reports.

Along about Christmas, after Univac has been fed a million punch cards containing data from 100,000 separate diaries from every county, ARB will publish a book—a big book.

"Univac will print the first copy," Mr. Seiler said. "It will show the total homes delivered by each U. S. television station for every quarter-hour of the week. Open the book and it will show you what you can get for $100 at Casper, Wyo., or Burlington, Vt., or WCBS-TV New York.

"It puts every station in the country on exactly the same base measurement at the same time."

"Agencies will be able to buy spot tv on a completely logical basis."

But ARB has another and bigger idea, due in 1960. The report based on the initial nationwide sweep next fall will supply the first nationwide information for Univac. In the spring of 1960 a second nationwide sweep is planned. Then ARB can put together its two sweeps, add its other types of information obtained in metropolitan surveys, and show, among other things, the percentage of homes able to receive each tv station in each county plus homes that actually view each station, average daytime and evening audience, plus station metropolitan audiences.

"Will ARB's Univac service eliminate timebuyers?" Betty Coumbes, of the Grey Adv. Agency tv research department in New York, was asked.

"Not until they can make one that thinks," Miss Coumbes said. "It's still a machine. It will probably be a terrific step forward but it can't know all the intricate problems or the details of coverage or all the other things a timebuyer must know."

And Ernie Fanning, ARB business manager for diary surveys, added, "It

What agencies think about automation

The most-asked question as American Research Bureau prepares the first nationwide county-by-county tv coverage service: What do agencies think?

Plenty, judging by a spot check. Some reaction is favorable, some isn't, some is wait-and-see.

A quick summary of the check:

An excellent idea. It's impossible now to project ratings to a total area.

There's a bug—it can't break down the mixed-up viewing in fringe areas.

Fine, if it doesn't cost too much.

It won't work without station program logs and that would make the book so big it would be impractical to use and too expensive to produce.

Even if it does nothing more than show ratings in many unsurveyed markets it will be helpful.

Great idea, if the sample is big enough.

Let's see how they draw the sample and control the diaries.

This simply projects methods used in the past.

It will be a miracle, as ARB says, if it screens availabilities carefully and keeps step with program changes.

How about the total reach of a signal and the impact of programs?

How about daylight time, seasons, delayed broadcasts?

A boon to timebuyers.

It can't come too soon.

will make timebuyers more effective, showing the tv audience potential and audience delivered for every tv station with the county as the basic marketing unit."

Each county will be sampled separately by the ARB diary method. An expanded field staff of more than 3,000 will handle the local operations. The diaries will be mailed to ARB's Beltsville, Md., nerve center, out in a wooded area between Washington and Baltimore. A room is being prepared on the first floor for the device, an extremely compact version of the electronic brain due to use of transistors, magnetic coils and printed circuits.

The fast-growing executive crew has been indulging in statistical fantasies in anticipation of Univac's arrival and the first nationwide sweep. Stardust is shimmering on the long rows of files and shelves but the practical men of research have narrowed down their planning to a few pet projects that are about ready, many in the next year or two.

Here are some of the data delights ARB is contemplating for agencies:

- Fast, maybe overnight, answers to agencies wanting detailed data on market, station, audience, program, adjacency, time-period and audience composition.
- Total homes reached, county-by-county, by every program and spot broadcast by every station and network.
- Circulation of every newspaper and magazine on a county basis (maybe this year).
- Best-liked commercials and programs.
- What people think of programs.
- Spot monitoring.
- Tv viewing record for each individual in the family.
- Station image and loyalty studies.

All this is heady stuff, but ARB has been doing trial runs that show the information can be obtained.

Then it faces another problem each time a prototype is produced: Do enough people want to buy it?

At the moment ARB is concentrating on its new Univac, a magnetic amplifier solid-state computer. Remington Rand has automated its automator by inserting a flow-matic coding method, a sort of electronic shorthand that permits use of English language words and phrases to tell the machine what to do next. This eliminates a lot of training along with pre-sorting and pre-collating.

ARB is now surveying 185 markets with its standard monthly-periodical metropolitan reports (tv ratings). Last year it added the one-week, four-week service, a technique designed to prevent stations from "loading" their programming and promoting the audience to abnormal size during the known rating week. Composition of audience is shown but ARB is now including total homes reached by each program in every one of its 185 reports.

A new way of presenting this information is being considered, a formula that will show total audiences reached by every tv station by quarter-hours and days of week plus total circulation during the four-week period.

Then by yearend ARB will have the first nationwide county-by-county sweep showing what stations can be viewed and what stations are viewed.

"ARB is changing from a rating service based on reporting in individual metropolitan markets to a true nationwide service measuring the entire tv audience," Mr. Seiler said.

The new county-by-county figures will include viewing on community antenna systems, taking into account the switching of channels by these relay operators. A county will be credited to a station wherever viewing is found, this being construed as a demonstration that the signal is being delivered.

The problem looks simple—how to find out the number of viewers each station has in every county.

Simple, maybe, but it's never been done, ARB reminds.

ELECTRONIC BRAIN TO AID TV TIMEBUYING
American Research Bureau installing this new model Univac

...ON THE BILLION DOLLAR "KEY TO THE SEA" MARKET!

With the completion of the St. Lawrence Seaway, Toledo is on the threshold of becoming a seaport of international proportions—right now it is the **world's largest coal port!** Already a billion-dollar market with a per household income **national ranking of 14,** Toledo is on the move—up. Your sales can move with it.

Doesn't it make advertising sense to zero in on this growing industrial market, with the radio station that has a larger audience than all other Toledo stations combined?

WSPD Radio says it does — **and can prove it!** Ask your Katz man.

WHO BUYS NATIONAL TELEVISION?

Groceries account for 22.5% of all network-spot money in 1958

Is it the same type of advertiser year in and year out that uses tv nationally?

Television Bureau of Advertising today (May 25) is releasing a set of figures which point up a preponderance of advertiser types, more than 125 different classifications in 32 categories using the medium last year.

Among the stabilizers in national tv gross billing, foods and cosmetics-toiletries were strongest. Of the more than $1 billion invested at gross rates by national tv advertisers in 1958, food and grocery products ($243.5 million) supplied about 22.5% and cosmetics-toiletries ($126.1 million) some 11.6% of the whole pie.

The statistics were released by TvB as the bureau completed a compilation of combined network and spot tv expenditures in 1958 by product classification and by advertiser. This was a first-time annual tabulation of this kind.

Similar Definitions • The sum totaling is now possible because N.C. Rorabaugh which tabulates spot tv expenditures and Leading National Advertisers Broadcast Advertiser Reports which compile network tv expenditures use similar product category definitions. (Before 1958, network tabulations were prepared by Publishers Information Bureau.)

Procter & Gamble Co., last year's leader in spot and network, obviously led the top 100 national tv advertisers with $84,471,710 more than $33.8 million of this amount in spot and over $50.6 million in network. P&G alone invested more than the total billing chalked up by the entire automotive product category ($58.8 million-plus) or household laundry product advertisers (over $76.2 million) and nearly to the level of tobacco advertisers ($93.4 million range) and drug products ($98.2 million range).

Network or Spot • The combined tabulation also permits zeroing-in on which way a national advertiser is oriented, that is mostly network or spot.

P&G, Lever and Colgate among many are heavy in both. Others such as American Home Products, the big auto manufacturers (General Motors, Ford and Chrysler), Pharmaceuticals, Revlon and RCA show up as heavyweights in network but featherweights in spot.

In reverse, the spot bulges with little or no network expenditure are provided by such advertisers as Adell Chemical Co. (Lestoil detergent), Continental Baking Co., International Latex Corp. (both purchases and barter), Coca-Cola Co. and its bottlers (no network through Coca-Cola is in network this year) and Pepsi Cola Co. and its bottlers.

The full compilation:

PREVIEW

Television time signal • Southern California viewers are being provided the exact time by the Squirt Bottling Company of Los Angeles as a result of a newly perfected watch movement that fits into a late model Baloptican machine. A minimum of 25 such time signals, each five seconds in length, are weekly being delivered during prime time on KTTV (TV) by Squirt. Viewers can see the exact second (up to a fifth of a second) on the clock face that has been engraved on a steel Baloptican plate. Arrangements for the Squirt sponsored time signals on ch. 11 were set by Hugh McKellar (r), advertising director of the Squirt Company, through Honig, Cooper, Harrington & Miner. With Mr. McKellar around the Baloptican: Al Bowen (l), KTTV production manager, and Jerry Simmonds (c), station account executive.

BEST SALESMAN
FC&B exec tells SCBA radio story with moral

"Your medium—radio—must be its own best salesman," William Monroe, vice president and west coast director of marketing services for Foote, Cone & Belding, told the Southern California Broadcasters Assn. Thursday (May 21).

Speaking on "Case Histories in Radio," Mr. Monroe reviewed two experiences with radio he had during his years as an agency marketing director in New York before moving to the Pacific Coast early this year. In both instances, the decision to use radio came from within; no one involved in the decision had been sold radio, he stated, adding that in seven years in New York he never received a call from a radio representative.

The Coca-Cola bottler in New York for some years had put most of his advertising budget of about $2.5 million into tv and at a meeting some two years ago the agency recommended a continuation of that formula, which had kept Coca-Cola sales at about the same volume right along. The client listened, said, "You're the experts and you're probably right, but I baby sit with my grandchildren a lot and they listen to the radio, so I do too. How about using some radio for Coca-Cola?"

About a week later, the head of the agency's creative department auditioned a jingle whose message was that Coca-Cola is for live people and if you're live you ought to drink it. The jingle was produced in various tempos from rock-and-roll to schmaltz, Mr. Monroe reported, and the agency bought $1 million worth of radio time on all types of stations. Ten days after the radio campaign started they made a survey, found they had driven the Coca-Cola message home to 85% of their prospects in the market.

Statistical impossibility • "Statistics can prove that this is impossible," Mr. Monroe stated, "not that many people listen to the radio. Ten days is not enough time. New York has too many diverse national groups. And so on and so on. But at the end of the year the sales curve was up and last year the whole appropriation for Coca-Cola in New York went into radio."

Another client, Mr. Monroe went on, had a different problem. He wanted to convince the designers of automobiles that the chrome they add to the cars to accentuate their appearance should be made of his product, nickel. But to tell the artists who design the new cars about nickel, he had to reach them and this couldn't be done. They work alone and their employers take great pains to see that their privacy is not invaded.

"Then some creative person had an idea," Mr. Monroe related. "These designers work in Detroit. They drive to and from work in their cars. Being intellectually curious, they probably listen to the news as they drive. So we bought time adjacent to the news and subsequently found the designers had in fact learned about the advantages of nickel chrome," Mr. Monroe reported.

Anyone who has children, anyone who drives an automobile, is a radio listener, Mr. Monroe pointed out. So he knows about radio, even if the medium's salesmen don't tell him.

Convention grind

Advertising Federation of America conventioneers will be able to clear their heads for the organization's Minneapolis gathering (June 7-10) on a four-day luxury fishing excursion at the Minnesota-Canada border. The pre-convention stag party (June 3-6) will take place aboard floating lodges complete with cook, tackle, small boats, etc. Total cost, including flight from Minneapolis to fishing site: $110 per man. (For the more conservative family man, post-convention vacations in the area have been worked out by the AFA host committee.)

Petry cites spot tv fast growth in 1958

A step-up in spot television spending in 1958 is pointed up in a presentation released last week by the television division of Edward Petry & Co., station representative. Titled "The $511,740,000 Vote of Confidence," it cites figures compiled by N.C. Rorabaugh Co. for TvB to show that while total advertising expenditures dropped last year, and all other major advertising media except network tv lost ground, spot tv gained at a faster clip in 1957.

The presentation points out that despite the recessive economy of 1958, "Advertisers, led by many of the nation's giants, swung sharply to spot television, expanding their investment past the half-billion mark to a new high of $511,749,000." Where network tv expenditures gained 9% (to $566.5 million), the presentation continues, spot tv spending gained 14% (to $511.7 million)—this when total advertising expenditures were down $110 million from 1957's all-time high of $10.3 billion.

Among those cited as leading spot growth are Procter & Gamble, Lever Bros., Colgate-Palmolive, American Home Products, P. Lorillard, Standard Brands and General Mills.

ANA CONCENTRATES ON TELEVISION

Advertising contributions to management highlights panels

Television got the lion's share of attention at last week's Assn. of National Advertisers' golden anniversary spring meeting in Chicago—and most of it was highly favorable.

Some 600 delegates took an introspective look at advertising's image in the national economy, in management and among its critics and also its success stories, some of them through utilization of the televison medium.

Supplementing tv case histories was a stout defense of the medium itself from Douglas L. Smith, advertising and merchandising manager of S. C. Johnson & Son. He scored tv's detractors among newspaper columnists and media salesmen (story page 44) while supplying a case history of how tv helped move Johnson wax products in Lexington, Ky.

Among other topics explored during the three-day (May 20-22) spring convention at the Edgewater Beach Hotel were new advertising and merchandising techniques; effective advertising management practices, including a reappraisal of the ad manager's responsibilities and agency-client relations; small agency and advertiser successes; advertising's influence in the national economy; marketing aspects, and advertising's critics.

Appearing at the same Wednesday session with Mr. Smith were Philip Kelly, vice president of Lynn Baker Inc., who recited case histories involving small clients and agencies (see page 42) and Edward Fredericks, vice president of marketing-sales, Rubbermaid Inc. Their talks followed a panel session on substituting advertising for "declining salesmanship."

Ford Measurement • Robert J. Eggert, marketing research manager of Ford Motor Co., noted his management is "constantly insisting on our measuring the effectiveness of advertising in terms of the additional sales produced." Among the usual questions: "(1) What messages are most effective in selling a car? (2) What medium or combination of media does the best sales job at the lowest cost? (3) Should we spend more or less total dollars? In a normal year Ford spends in excess of $100 million for its advertising and promotional programs. Should it be $120 million—or should it be $80 million?"

Mr. Eggert cited seven important problem areas in which answers are needed about any medium—the ability to reach households in the market for a new car the next six months; whether the key individual is exposed to the commercial or advertisement; ability of the medium and message to make an "initial conscious impression;" impact of the message; ability to change the potential buyer's intention to buy a specific make; ability to get action, and lastly: "How many additional sales are actually made as a result of the medium and the message performing each of the previous six tasks?" Management wants "comprehensive and accurate answers" to these problems, he pointed out.

Mr. Eggert predicted that in the 1960's there will be "some substantial breakthroughs in our ability to apply an effective yardstick to the complicated problem of appraising advertising results."

Taking part in a Wednesday afternoon closed management meeting were Donald S. Frost, vice president in charge of advertising of Bristol-Myers Co. and chairman of ANA's advertising management committee; George Frost, vice president and marketing manager, Cannon Mills; Tad Jeffery, vice president and advertising director, Bulova Watch Co.; Robert G. Stolz, advertising and sales promotion director, Brown Shoe Co., and Robert M. Gray, manager of advertising-sales promotion department, Esso Standard Oil Co. They discussed ad manager responsibilities, management of advertising for maximum contribution to profits; better client-agency communications, and other topics.

Key Contribution • Mr. Jeffrey told the delegates that more "creative efficiency" is the key to a maximum media contribution to corporate profits. "If there is any laxity in top management's attitude toward the advertising function or of the importance of its role in marketing, the fault may well be ours and ours alone," he said. "There is no place for mediocrity in advertising today."

Advertising in the American economy was explored Thursday morning by Henry Schachte, executive vice president of Lever Bros. Co. and ANA board chairman. He suggested advertising is impaled on a four-horn dilemma: (1) its practitioners may "default the new and vital opportunity" to properly conduct their business to satisfy management; (2) it may not "correct its degenerating stature with the public, thus diminishing its own power, and opening the floodgates of regulation and control"; (3) government may provide that regulation and its counterpart, taxation, and (4) a combination of such developments "may further sap the limp remains of the adman's personal reputation."

What are the components of poor public relations, a "poor public image of advertising?," Mr. Schachte asked. He described them as failure to understand advertising's economic contributions, the "innate dislike of being sold," the "distrust or dislike" by some public segments for certain type products, the "huckster" or gray flannel image, and advertising abuses.

The same tools used to sell public service projects when utilized to stimulate production and expand the economy incur the label "hucksters." Mr. Schachte observed. "And when we are to offer these same tools to help a would-be political candidate get elected, Madison Avenue, we read, is trying to sell politicians like bars of soap," he chided. "Anybody who has ever tried to sell a really bum bar of soap knows that no advertising is that powerful."

Management Orientation • ANA will continue to emphasize management orientation to the advertising job, Mr. Schachte reported. To that end, Donald Frost, in his capacity as head of the ANA advertising management group, reported on the association's new "Project X" campaign, designed to bridge the gap between management and advertising. He explained ANA wants to find a way to help manage-

ARBITRON'S DAILY CHOICES

Listed below are the highest-ranking television network shows for each day of the week as rated by the multi-city Arbitron instant ratings of American Research Bureau.

Date	Program and Time	Network	Rating
Thur., May 14	Playhouse 90 (9:30 p.m.)	CBS-TV	21.6
Fri., May 15	77 Sunset Strip (9:30 p.m.)	ABC-TV	20.7
Sat., May 16	Gunsmoke (10 p.m.)	CBS-TV	29.1
Sun., May 17	Dinah Shore (9 p.m.)	NBC-TV	22.3
Mon., May 18	Ann Sothern (9:30 p.m.)	CBS-TV	22.1
Tue., May 19	Red Skelton (9:30 p.m.)	CBS-TV	22.5
Wed., May 20	Wagon Train (7:30 p.m.)	NBC-TV	23.1

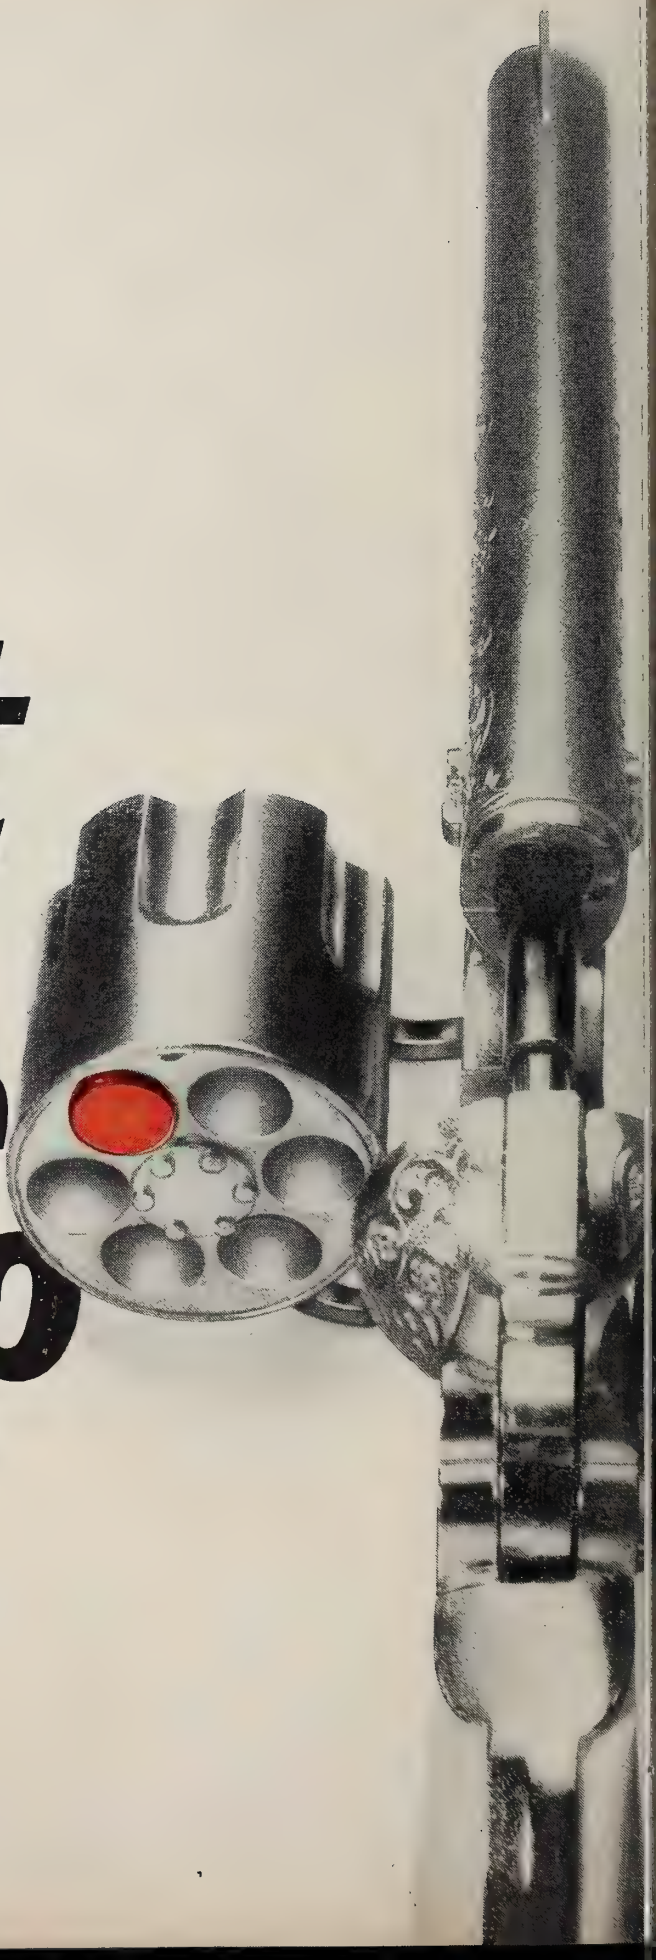
The "Companion Medium" is Greater than ever ...but there's a Growing Difference between Stations!



Radio reaches customers where no other medium can make contact. It talks to people persuasively and repeatedly . . . reaching huge masses most economically. These are the basic benefits of all radio. But there are important differences between stations. Particularly, there is a growing difference between *ordinary* and *great* radio stations. The great station stands out clearly in most major markets. It is distinguished by substantial investment in top facilities and personnel . . . by expert programming to cover the full range of listener interest . . . by features thoughtfully produced, professionally presented. Its responsible management permits no carnival gimmicks, shoddy giveaways or questionable advertising. Great stations amass huge audiences, earning the confidence of the community for themselves and for their advertisers. The stations listed here are the *great* stations in 18 important markets. Their coverage is so efficient that you need add only 30 selected stations out of the more than 3,000 now broadcasting, to achieve effective nationwide reach. This total of 48 constitutes "The Nation's Voice." The strategy of concentrating on these leadership stations is the way to realize the full power of "the companion medium . . ." the way to put all of radio's vitality to work on your sales problems. For complete information, including data developed by Alfred Politz Research, call any Christal office.

Big—good, not synonymous

If you're creative and can supply good advertising thinking, you don't have to be big to be good, whether you're an advertiser or an agency.

Delegates at the Assn. of National Advertisers' 50th annual spring convention in Chicago were forcefully reminded of this fact in case histories recounted by Philip J. Kelly, vice president of Lynn Baker Inc., relatively small New York agency.

Said he: "The big agencies or big advertisers have no monopoly on what are obviously the two most important things in advertising"—high creativity and sound advertising approach.

Among the examples: (1) Maypo cereal at Bryan Houston, N.Y., which proved a daytime tv success story. New England sales rose from 257 to 409 packages per 1000 families—a gain of 59%, in one year. In the second year, with increased tv expenditures, sales jumped another 25%. Sales doubled in two years. Tv outlay: $500,000 for 1958: $1 million for 1959.

(2) Wilkins coffee, handled by Belmont ver Standig, Washington, D.C. Eight-second tv commercials featuring two muppets are credited with helping raise sales by 40% during a relatively brief campaign, and they achieved the status of being among the American Research Bureau's "best liked" spots.

(3) Cocoa Marsh. Agency: Hicks & Greist, N.Y. Starting in business in 1939 with capital of $7,200, Cocoa Marsh achieved national distribution in 1946. Now it's considered the leader in its field. After a cutback to two markets by 1948, Taylor-Reed Corp. aligned with H & G and started a market-by-market expansion. Today it claims 80% national distribution and is listed among the top 100 tv spot advertisers nationally with an estimated total advertising budget of $1.6 million. "The secret of their success lies in the fact that they discovered early in the game that the best way to sell their product was on local tv with smart kid promotions" which have been spectacularly successful, Mr. Kelly said.

(4) Sandura Co., also Hicks & Greist. Sales rose from nearly $3 million to $19.6 million in five years for the floor-covering firm. It started using tv in 1953 with Steve Allen.

Mr. Kelly scored the "self appointed oracles who have been saying that if an agency doesn't have $30 million worth of business, it ought to lie down and die," and others who claim that "if you don't invest at least $2 million as an advertiser, you are not worthy of the name." Without underestimating big agency ability and services, (such as basic product research) he asserted, "a small company can often outthink and out-maneuver a big competitor" on advertising and selling.

ment "think more like advertising men" and may also help bridge the gap between advertising and government, the professions and "even the public at large." Previously, it was noted, ANA's desire was to persuade advertising men to think more in terms of management. The task will not be simple but it's clearly defined, he observed.

Other Thursday speakers included J. H. Jewell, marketing vice president, Westinghouse Electric Corp.; W. H. Burkhart, board chairman, Lever Bros., and Dr. M. Rowland Collins, dean, Graduate School of Business Administration, New York U. Luncheon speaker was Gen. Thomas D. White, chief of staff, U. S. Air Force, substituting for Secretary of Defense Neil McElroy.

Mr. Burkhart said management expects "its advertising men to understand that they must constantly strive to lower the unit cost of advertising." He cited a "basic misunderstanding" between advertising and management people. "Management is not against bigger budgets, providing they sell more—in fact, disproportionately more," he claimed. "The ratio of advertising expense to sales income must go down as total volume goes up."

In the new thinking on advertising, Mr. Burkhart held that management "now finds itself interested in what might formerly have been considered mere detail. When they see the range in costs of delivered audiences between a good and bad television show, they want to be sure that their company is doing all it can to buy with maximum skill."

Answers to Critics • Leo Burnett, board chairman of the agency bearing his name, served as moderator for a Friday morning discussion of "a way to flatten that critic of advertising." Mr. Burnett gave a presentation in his role as vice chairman of the advertising council, supplemented with a special film report on "psychological warfare against recession."

Other speakers were Charles Brower, president of BBDO, on agencies creative power; Dr. Alan T. Waterman, director of the National Science Foundation, on technological advances, and Robert R. Burton, senior vice president of Kenyon & Eckhardt, on the agency's role in marketing.

Topic for the last session was "Your $3 Billion Media decisions—Can They Be Improved?" with Emerson Foote, senior vice president, and Daniel D. Kinley, vice president and manager of planning research and media, both McCann-Erickson, plus Robert Lund, publisher of *Printers Ink*.

Comparison a Must • Mr. Kinley disagreed with critics who complain that cost-per-thousand, as between broadcast and outdoor media, is like comparing "apples and oranges." Said he: "We do have to compare because we're buying them and cost has to be a factor in our choice." In inter-media decisions, he added, "we are choosing not just between apples and oranges but among pears, pomegranates and kumquats as well."

As a solution for this type comparison, Mr. Kinley suggested (1) determine the best way to use each media type consistent with product character; (2) determine basic figures for each media type that adheres closest to "cost per thousand of effective selling messages delivered to prime prospects;" (3) compare all media types on cost-per-thousand, and (4) evaluate other factors which may perhaps offset differences in cost.

Media decisions can be improved, Mr. Kinley recommended, by establishing a "clearly defined marketing strategy based solidly on market information and communicate it to your marketing team, including media, by maintaining accurate data and by a willingness to experiment with media by careful market testing."

In making the "$3 billion media decision," the very size of the media budget itself is "often selective of the choice of media," he pointed out. For instance: Is it big enough for network tv? Can it support a national newspaper campaign? He cited 11 factors in making such decisions at McCann-Erickson: budget, competitive activity, frequency vs coverage, continuity, impact on distribution, flexibility, franchise position, standards of acceptance, cost-per-thousand, effectiveness of the selling message and prospective customers.

National Media Investments • Mr. Foote felt national advertising budgets rank among the very largest of discretionary investments of American management. Business spends at the rate of $9 billion in research and development and invests about $10 billion in new plant and equipment—compared with $3 billion in major national media.

"The investments of national adver-

How are Food Sales going, Tom?

"WDAY-TV is certainly 'pushing food' like mad, these days! Thanks to our new 1206′ tower we are reaching 96% more people—covering 60% more area and upping our area retail sales volume by 100%!

"Retail sales in our area total $670,475,000—of which $117,384,000 is in food alone!

"What's more, Standard Rate & Data Service now points out that the Fargo area is the No. 1 Retail-Sales-Per-Household Area in the entire U.S.A. The national average is $3,944 . . . as compared to Fargo's whopping $5,970!

"All in all—if you aren't advertising your food products on WDAY-TV, you're missing one of the surest bets in the nation. Why don't you ask P.G.W. for availabilities?"

Yours,

Tom Barnes

tisers in major consumer media are not only big," he suggested, "they're growing bigger and more important all the time. And national media expenditures still represents half of the $6 billion in undistributed profits which manufacturing firms retained to invest in growth."

Mr. Burton suggested one of the great challenges to advertising is to "restore the flow of communication which has been temporarily dammed—both within and between our organizations—and to set us free of false conflict through better understanding reached through better communication." The duel in advertising between marketing and scientific and creative forces, he asserted, is a "shambattle," fought in the advertising trade press these days. Agencies noted for creative work, he said, also stand out for their research.

"Aren't they the ones where you would most likely receive a complete modern marketing plan?" he asked. The real problem, he stressed again, is "not in a basic confiict but in a lack of communication."

Star adjacency

Hal Thompson, producer of "Family Portrait," an off-Broadway play, bought a one-time-only, station ID on WCBS-TV New York on May 8 for $337.50. The spot followed *The Guiding Light* program and made the point that four regular cast members of the tv serial could be seen in "Family Portrait." The result: Mr. Thompson reported last week that ticket purchases have perked up considerably, so that the play, on the verge of closing, is now able to continue. Mr. Thompson is naturally tv-minded: during the working day, he is a tv program supervisor for Fuller & Smith & Ross, New York.

TV SELLS WAX

S. C. Johnson story cites market impact

Television, a seemingly irresistible target for critics and competitors, last week was called an "economic phenomenon" and a "great gift" to viewers by someone who knows what he's talking about.

Douglas L. Smith, advertising and merchandising director of S.C. Johnson & Son, Racine, Wis., which bought more than $7 million worth of tv time in 1958, made these positive remarks last Wednesday (May 20) at the spring meeting of the Assn. of National Advertisers held in the Edgewater Beach Hotel, Chicago.

The title of Mr. Smith's talk was, "Does Tv Advertising Really Sell Goods?" His resounding answer: "Yes, emphatically yes. Tv advertising really sells goods and it does it immediately, now."

He described in detail how increased tv advertising in Lexington, Ky., resulted in store sales 200% higher in April 1959 than April 1958. "When projected to the whole Lexington market," Mr. Smith added, "figures indicate that the net sales increase for April alone will pay for the Lexington advertising for the first year."

Making the Most of Tv • "This kind of success is fine," he acknowledged, "but we know as you do that it can't be called a direct result of our network tv advertising in the market. It was, however, a result of capitalizing on that advertising."

The Johnson advertising expert also recounted the near fall and decline of his company's Pride in one city. Introduced in 1951, this furniture polish was doing well everywhere nationally but in St. Louis where it was "dormant, dust-collecting, dilatory and nearly dead."

And then Johnson closed a deal to buy the *Robert Montgomery Presents* program on NBC-TV. Pride's first advertising on this show hit St. Louis on Jan. 7, 1952. By the week's end many stores had sold out their entire inventory and were ordering more.

Concluded Mr. Smith: "Thus it is when television hits a market. And in that year of 1952 there weren't nearly the number of tv homes that there are today."

He went on to make some general observations about tv and its economic contribution.

"I honestly believe," stated Mr. Smith, "that much of our prosperity during these wonderful 50's must be truly attributed to the force of television in moving merchandise and thereby keeping our great productive processes flourishing."

The Value Scale • He asked that due credit be given the medium and pleaded for "a better perspective on the part of tv's critics and a recognition of what this . . . economic phenomenon represents to marketing."

"My faith is such," added Mr. Smith, "that I believe that when color tv is as commonplace as black-and-white is today, it shall provide a further and vital impetus to business and the selling of our products to consumers."

Tv's cultural values were also put into perspective by the speaker.

The range of tv is infinite, declared Mr. Smith. "You will find more fine things," he said, "covering the arts, sciences, religion, humanities and thoughtful news-information presentations than any of us in this room, or most anywhere else, will find time to watch."

Bard's Rating • For example, pointed out the Johnson ad director, "more people have seen and heard and learned about Shakespeare on tv than have done so in our colleges and universities since his first play was produced more than 300 years ago."

Mr. Smith also mentioned a special report by Secretary of State Christian Herter that pre-empted one of Johnson's own shows. "We had," he said, "the great gift (I say 'gift' because tv is still free to the viewer, you know), the great gift and privilege of having Christian Herter come into our homes and feelingly, knowledgeably explain his mission to Geneva. This was in prime time, by the way."

He felt bound to speak out, explained Mr. Smith, because of "constant criticisms of tv's detractors, painting a picture that is all black, when there is so much that is good and substantial and uplifting."

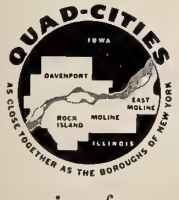
He reproached tv columnists who "pan" shows rather than try to understand them. "On the matter of critical tastefulness," he added, "we, the advertiser, must assume some leadership and influence. . . . We should feel an ultimate obligation that the shows we sponsor be as tastefully done as possible."

Communications War • Of more serious concern, warned Mr. Smith, is the criticism that "comes from the other media, that use their space and print to attack television. The *Fortune* magazine article of last November is a case in point. . . ."

"This kind of criticism," the speaker insisted, "being without objective and of questionable use of data and fact, obfuscates and beclouds the real issues and ultimately tends to confuse some of the advertisers and business management."

He added pointedly, "And by the way, I have yet to see a tv network or a station use its air time to attack another medium."

He ended with a plea to all media for fairness and objectivity. "Tell us the facts," he urged, "and what the advantages are about your own wares. Show us where the sales vitality for our commanies lies in using your properties. We and our agencies can make the comparison and the analyses."



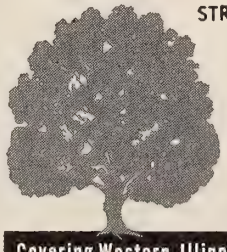
He fired one final gibe at the "tv rakers":

"If television is wrong for any of us, we will be the first to know it because we will feel it in our cash registers."

Leslie C. Johnson, vice-president and general manager of WHBF Radio and TV, looks over . . .

Letters of GOOD WILL—34 years in building— constitute a productive PLUS for WHBF advertisers!

They are a gold mine of our most treasured possessions — voluntary tributes from laymen, and from leaders in industry, education, religion and civic activities — attesting outstanding WHBF community service for more than a third of a century!



They are, indeed, a continuing area-wide, factual evaluation of WHBF community prestige. They portray a picture painted by the HOME FOLKS of a radio-television service — strong, deep rooted, and PRODUCTIVE.

Another indication of listener confidence is evidenced by the substantial leadership of WHBF in the latest Nielsen NCS No. 2. WHBF still leads all of the 68 downstate Illinois radio stations.

With the many advertisers, local and national, who have helped build WHBF over the years, their association brings PRIDE, never apology! That is a definite PLUS in productivity of any sales relationship.

* * *

YOU can be sure that WHBF radio and television quality productivity is available on a fair, honest and efficient basis to all advertisers who desire for their sales messages a friendly receptive audience in a climate of true family hospitality.

STRONG & PRODUCTIVE FROM DEEP ROOTS

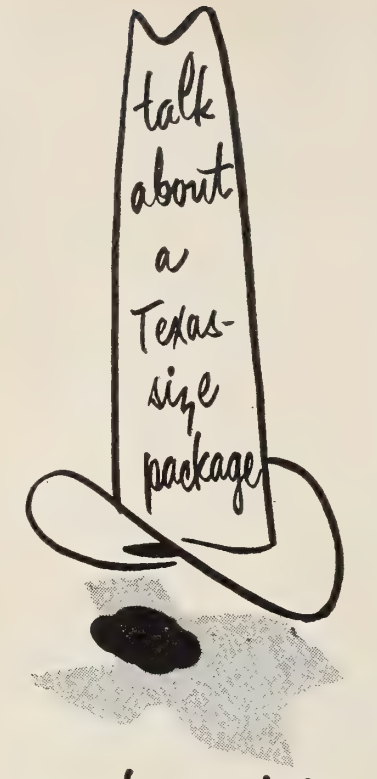
LATER THAN YOU THINK

. . . and greater than you think, too! On Chicago's WBBM-TV, prime time is practically an all-night affair... particularly in the summertime when late-hour viewing zooms with the mercury.

Last summer, Chicago's post-midnight audiences were 16% greater than during the winter months. An impressive increase... especially for WBBM-TV which currently attracts two-thirds of all Chicago's post-midnight television viewing.



Clearly, wide-awake programming is the answer. WBBM-TV brings Chicago viewers the very finest features from such studios as M-G-M, Paramount, Columbia, Warner Brothers and 20th Century-Fox.

Don't you be caught napping this summer. Those so-called wee small hours mean large audiences on Chicago's top station...

Nielsen lists top 20 buying network radio

A new kind of radio "Top Ten"—the first issued by A.C. Nielsen Co. since 1957—was made public last week.

It's "Network Radio's Leading Advertisers," which ranks the top 20 network radio clients according to "total home broadcast" and "total commercial minutes" delivered by all radio networks used by the sponsor (CLOSED CIRCUIT, March 30). Unlike the old "Top Tens" in radio, the new listing makes no attempt to show the popularity of specific programs but shows rather what each leading network radio advertiser is getting in "homes" and "minutes" from his total radio network purchases.

Computations of "broadcasts delivered" do not consider duration of broadcast, although longer broadcasts will deliver more impressions because of audience turnover, the announcement said. In figuring "total commercial minutes delivered," the researchers count six 10-second spots as the equivalent of one commercial minute, with one quarter-hour segment credited as carrying three commercial minutes.

Following is the first of the new reports (officials said if this type of information is "well received," they will consider releasing yearly and quarterly compilations of the 100 leading network radio advertisers, ranked on the same basis):

Skeptical reception for KTTV (TV) ad show

An idea of a time period solid with commercials has been run up the flagpole but New York's ad fraternity has been slow to salute.

Skepticism initially greeted John R. Vrba, vice president of sales for KTTV (TV) Los Angeles, who let it be known privately in New York that the station was asking agencies to submit commercials which were deemed unusual entertainment.

He was in New York on a business trip and while there dropped a few suggestions at several agency offices. Agency people came back with: "Are you kidding?" But Mr. Vrba is undaunted. The programming will start in June on a basis of a half hour each week for 13 weeks in Class A time (between 6:30-10:30 p.m.). If the show attracts sufficient audience, the station will sell participations to advertisers in the second 13-week cycle.

Richard Moore, president of KTTV, suggested the plan at the Assn. of National Advertisers, western convention in Santa Barbara, Calif., a few weeks back (BROADCASTING, April 20). He said such a program would prove that the public does not object to tv advertising.

Mr. Vrba noted that he was in New York for other business and did not try to "hard sell" the idea. In any event, the station has some commitments from agencies and advertisers including the Carnation Co. and Guild, Bascom & Bonfigli.

New Buick tv vehicle supplants stagecoach

In spite of a tv western's big audience pull, does the story setting and format provide the most effective vehicle for commercials selling the modern automobile?

To the Buick Div. of General Motors Corp., Detroit, which sponsored the half-hour weekly *Tales of Wells Fargo* on NBC-TV on an alternate basis this season, the question has been important. Buick took a hard look and apparently has found the image it sought to create in its commercials for the 1959 model ("smart car of the future") was out of focus with a series itself

dealing with the stagecoach.

Result: Buick next fall will place its commercials in a Bob Hope series of specials on NBC-TV (as it also did this past season) but instead of *Wells Fargo* its other network vehicle will be a prestige live dramatic show (four specials) to be placed in the time slot of *Playhouse 90* (CBS-TV, Thursday, 9:30-11 p.m.) (CLOSED CIRCUIT, May 11).

Budget Increase • Net effect of this change in strategy will be a sizable increase in Buick's network tv budget for the fall along the pattern of other auto makers. Last week Buick formally announced its plans. In the 1958-59 season, the auto manufacturer will sponsor six instead of eight Bob Hope shows to cut the comedian's workload (he's under physician's orders to let up a bit). One of the specials, however, may run two hours long. But the bigger budgeting is on the four 90-minute specials on CBS-TV, the first show slated for Nov. 19. This "series" will be based on the writings of Ernest Hemingway with specific properties to be selected.

Buick, through its agency, McCann-Erickson, New York, hinted that it would tape the shows in order to "broaden the scope and locales" of the Hemingway stories. Whether the show will originate in Hollywood or New York was undecided.

Dunier asks tv film sales documentation

In an unusual move, Leslie L. Dunier, vice president and director of radio and television for Mogul Lewin Williams Saylor, New York, is urging tv film distributors to form a research and promotional organization that would document to agencies and advertisers the effectiveness of commercials within film programs.

Mr. Dunier disclosed this development last week, coincident to mailing letters to 20 film syndicators. He noted that spot television interests make "concrete facts" available to agencies, and evaluation of them makes "a sturdy case for spots exclusively." Mr. Dunier, however, ventured this observation:

"I have reason to believe that in many instances, program sponsorship offers as much or more to a client than a barrage of spots. But my arguments are based on intangibles . . . The facts tell us the cost for time and program of a prime half-hour film show. We also know that for the same expenditure in a spot schedule, we would probably double the cumulative weekly rating netted by the program. What's more the spot schedule will give the client greater diversification of audience, and most important, greater flexibility. In effect, the weight of available evidence would favor a spot campaign over a syndicated film program."

Mr. Dunier remarked that as an agencyman, who "wears the two hats of programming and media," he often must decide which form of tv to use—spots or a syndicated program. He added that his media specialists, using the material furnished by tv spot interests, assemble a formidable defense for spot tv.

His programming associates, he said, often recommend a program buy but he pointed out that they cannot muster enough research material to counter "the abundant audience data" accumulated in behalf of spot tv.

Mr. Dunier urged the leading tv film syndicators to band together and form a promotional and research organization for their mutual benefit. He declared:

"As your industry's research arm, your organization would conduct the kind of comprehensive studies that would provide agencies with sufficient ammunition — qualitative, measurable research data—to justify a recommendation for a film program buy when the conditions warrant it."

Newspapers on tv

Increased use of television advertising on the local level by newspapers is indicated by a Broadcast Advertisers Reports survey conducted for Television Bureau of Advertising. The 11-major-market survey showed 35 newspapers purchased a total of 705 spots during a sample week in the fourth quarter of 1958. In the same sample week of 1957, 32 newspapers bought 626 spots, and in 1956, 24 newspapers used 412.

Closed-circuit tv in supermarket test

Closed-circuit television at point-of-purchase is to undergo a supermarket test. Proprietor of the new advertising medium is Store-Video Inc., New York, which has engaged RCA for electronic equipment and Grand Union Supermarkets for a Manhattan testing ground.

Beginning July 15, shoppers at the selected market will encounter a proliferation of some 50 21-inch monitors suspended just above eye level throughout the store. On the screens they will see a series of 60 moving cards (tel-ops) each with an advertising message.

There Is No Audio • The tel-ops are on a motorized wheeldex which places each one before the tv camera for seven seconds, all screens receiving the image simultaneously. Lee Wagner, president of Store-Video, looks upon the device as a substitute for "rapidly disappearing" conventional point-of-sale material such as posters and banners. He says it is designed to give shoppers "total recall" of all other advertising used for a product.

Advertisers in the test run will not be charged. Eventual rates are to be per thousand cash register transactions in food stores covered. Though not yet determined, cost-per-thousand is not anticipated to exceed one dollar and may be as low as fifty cents, depending on test results. Store-Video, which will sell tel-op availabilities to advertisers, employs RCA to install and service the leased equipment, and rents space from the supermarkets.

Mr. Wagner is not new to the television medium, having founded *Tv Guide* in 1947 (subsequently sold) and extensively advertised Flav-R on tv when that product was introduced. Store-Video's vice president is motivational research pioneer William A. Yoell, who came to Mr. Wagner with the basic idea.

Carling buys 'Bilko' for spot tv drive

A $4.25 million investment by the Carling Brewing Co., Cleveland, means that 63 markets will continue to view *The Phil Silvers Show* after its CBS-TV demise Sept. 11. CBS Films Inc. sold "Bilko" to the brewer of Black Label, Stag and Heidelberg beers and Red Cap ale just two weeks after syndication was announced (BROADCASTING, May 11).

The three-year deal, through Benton & Bowles, New York, calls for weekly showings in approximately one-third of the areas, and alternate weeks in the remainder. Re-runs get underway the first week in October.

Bill aids co-op ads

Rep. Samuel Devine (R-Ohio) introduced a bill (HR 7013) in the House which would reverse the Internal Revenue ruling that co-op advertising funds are subject to manufacturers' excise tax, which became effective Feb. 1. Rep. LeRoy Anderson (D-Mont.) introduced an earlier measure (HR 5594) to repeal the tax (BROADCASTING, March 30).

Maine ad tax fails

The Maine Legislature overwhelmingly defeated last week, in both House and Senate, a proposed sales tax on advertising. A legislative taxation committee earlier had recommended against passage.

• Business briefly

Time sales

• Bell & Howell (camera supplies), Chicago, announced Monday (May 18) it has agreed to co-sponsor six additional one-hour documentary programs on CBS-TV during 1959-60 season. The programs, similar to B & H's *Why Berlin?* documentary of May 8, which drew highly favorable public response, will "pre-empt prime, week-night television time slots," according to Peter G. Peterson, executive vice president of firm. He expressed conviction that "significant demand for this type of programming" has been proved and will continue.

• Liggett & Myers Tobacco Co. has carved out a 90-hour slice of ABC-TV programming for next season on behalf of L&M, Chesterfield and Oasis cigarettes. Involved is co-sponsorship of three one-hour and two half-hour programs, said to be among the largest of tv purchases. The lineup: *The Alaskans* (Sun . 9:30-10:30 p.m.) beginning Oct. 4 for Chesterfield; *Adventures in Paradise* (Mon. 9:30-10:30 p.m.) starting Oct. 5 for Oasis; *The Untouchables* (Thurs. 9:30-10:30 p.m.) for L&M and co-sponsor Procter & Gamble, and *Black Saddle* (Fri. 10:30-11 p.m.) which resumes Oct. 2 with Oasis co-sponsorship.

• First quarter reports show NBC-TV's *Today* and *Jack Parr* gross billings up 128% and 93% respectively over the same period last year, with the combined increase computed at 105%. Latest new business and renewals for the two shows totals $1,012,000 with major new purchases made by American Petroleum Institute, N.Y., through Sullivan, Stauffer, Colwell & Bayles there; The Palm Beach Co., (men's clothing) Cincinnati, through Grey Adv., N.Y., and the Polk-Miller Products Corp. (for Sergeant dog remedies), Richmond, Va., through N.W. Ayer & Son, Phila.

• Shulton Inc. (for Old Spice toiletries), N.Y., for the week of June 14 has purchased what is said to be a record volume of CBS Radio segments. The pre-Father's Day buy: 68 units of daytime and evening programs, mostly five minutes in length. Shulton's agency is Wesley Assoc., N.Y.

• Singer Andy Williams takes over the Garry Moore slot on CBS-TV (Tues. 10-11 p.m.) for the summer, beginning July 7. Sponsorship: Revlon Inc., N.Y., through C.J. LaRoche there; Pittsburgh Plate Glass Co., Pittsburgh, through BBDO there, and Kellogg Co., Battle Creek, Mich., through Leo Burnett, Chicago. Production staff is drawn primarily from now-defunct *Your Hit Parade*.

• Ford Div. of the Ford Motor Co., Dearborn, Mich., has renewed *The Ford Show* (NBC-TV Thurs. 9:30-10 p.m.). The automotive advertiser's fourth consecutive season with Tennessee Ernie begins Oct. 1. Agency: J. Walter Thompson, Detroit.

• Speidel Corp., Providence, R.I., through Norman, Craig & Kummel, N.Y., and Lever Bros., N.Y., through Ogilvy, Benson, & Mather, N.Y., have renewed *The Price Is Right* on NBC-TV (Wed., 8:30-9 p.m.), starting Sept. 23.

• NBC-TV's *Fibber McGee and Molly* (Tues. 8:30-9 p.m.), which has its television debut next fall, will be sponsored by Standard Brands Inc. and Singer Sewing Machine Co., both N.Y. Bob Sweeney and Cathy Lewis play the title roles with Hal Peary carrying over his portrayal from the original radio version to tv. The show's starting date is Sept. 15. Agencies: J. Walter Thompson for Standard Brands; Young & Rubicam for Singer.

• Paper-Mate Co. (subsidiary of Gillette Co.) plans major broadcast push this spring and summer to advertise new Holiday pen with jumbo refill. Total of 33 tv and radio network programs scheduled plus heavy spot support. Foote, Cone & Belding, Chicago, is agency.

Agency appointments

• Eversharp Pen Co., Arlington Heights, Ill., appoints Compton Adv., Chicago, as its new agency, replacing Benton & Bowles, N.Y. Eversharp invests about $500,000 in advertising.

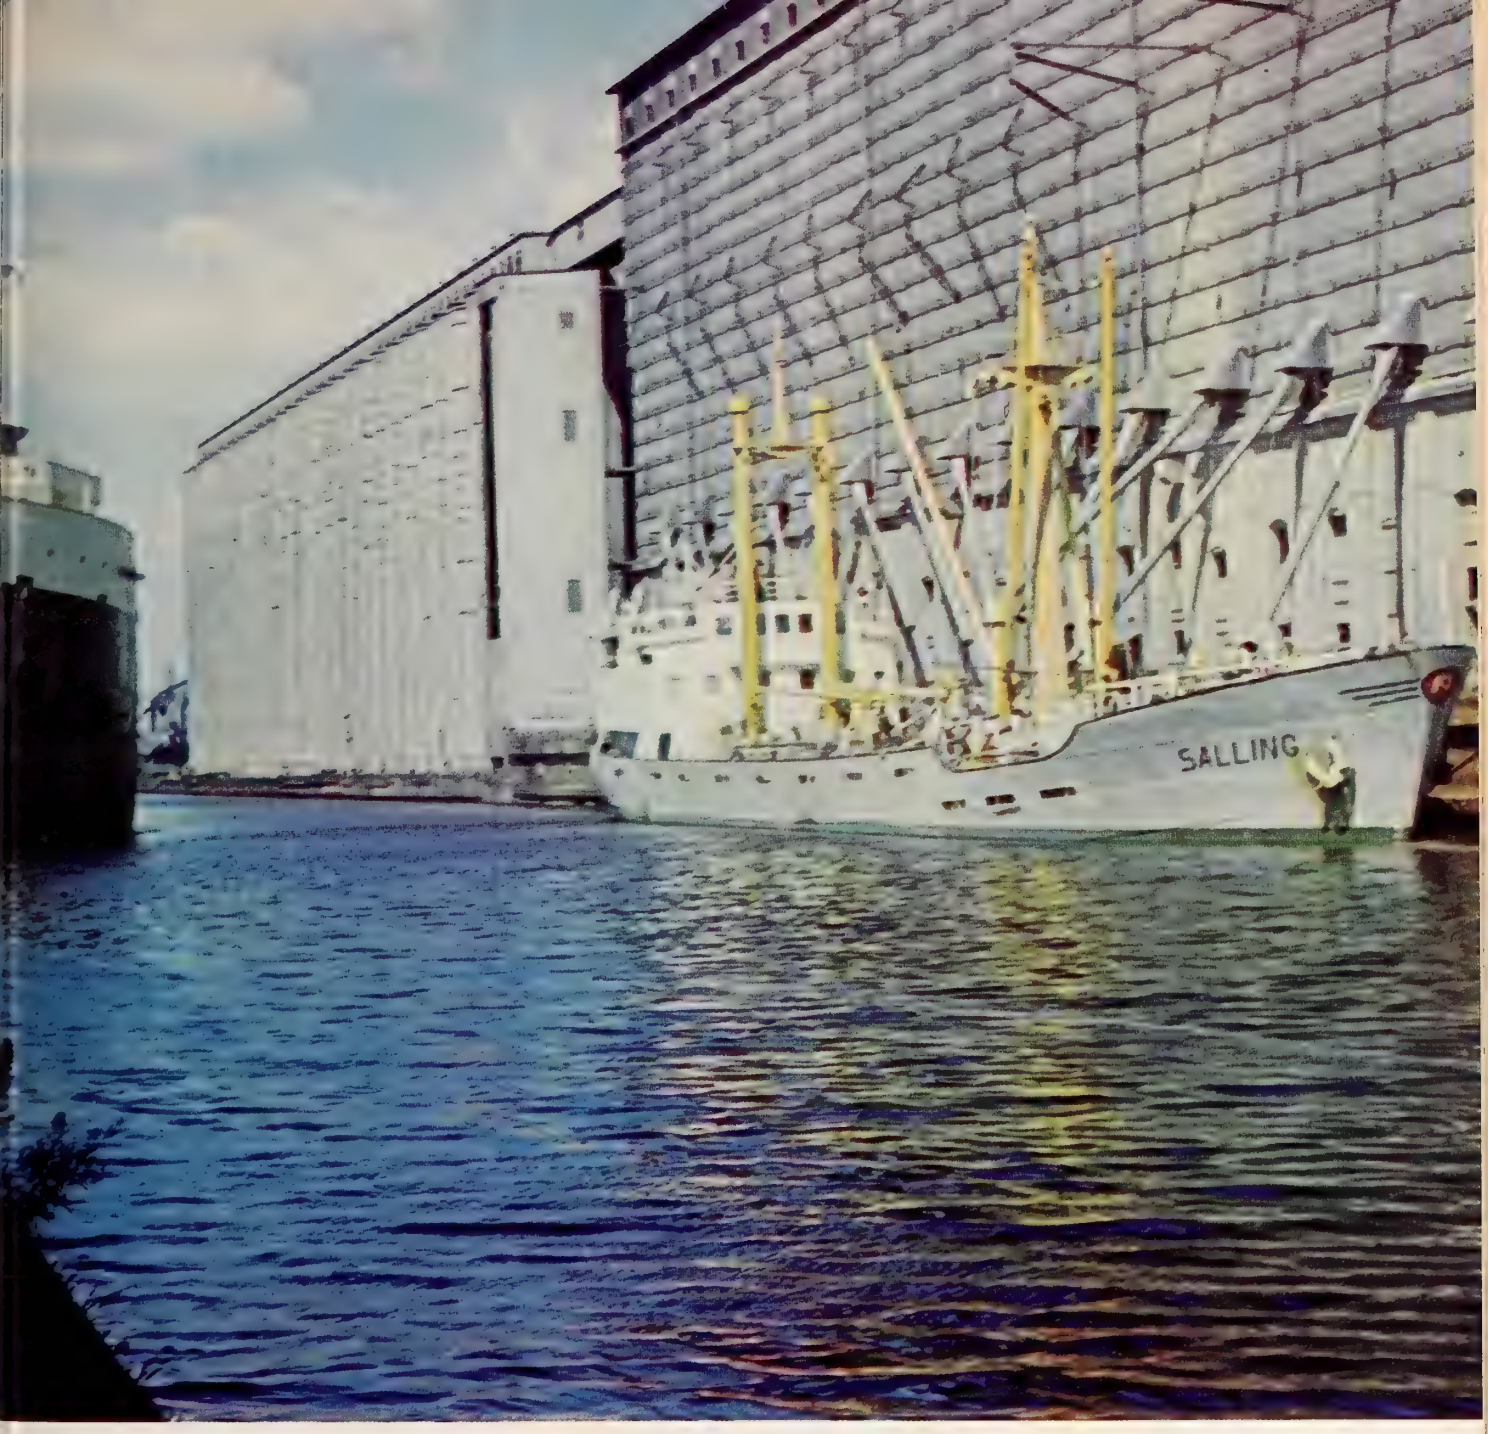
• Anderson & Cairns, N.Y., agency for food products of Seeman Brothers Inc., N.Y., has been assigned to handle the Premier brand of Francis H. Leggett & Co., New York food producer recently acquired by Seeman.

• Sussex Foods Inc., N.Y., appoints Hicks & Greist there for its Popeye peanut butter. Total budget for the new product is devoted to spot tv in test markets.

• The Borden Foods Co., N.Y., will move its instant whipped potato account from Lennen & Newell to Young & Rubicam, effective Sept. 1. Product has been in test markets for some two years, with approximately one-half the budget going to spot tv. Lennen & Newell was named to service the estimated $1 million Regal Pale Brewing Co. account in San Francisco.

• The Dept. of the Army reappoints Dancer-Fitzgerald-Sample Inc., N.Y. D-F-S has been the departments agency since 1952.

• Also in advertising



• Cunningham & Walsh Inc. has moved to larger Los Angeles quarters. It is now on the top floor of the new IBM Building, 3424 Wilshire Blvd. Telephone: Dunkirk 8-0591.

• Penn & Hamaker, Cleveland advertising agency, moves into new offices in the Shaker Commerce Bldg., 20521 Kinsman Rd., Cleveland 22. The new quarters give the agency more than 50% additional floor space.

• Wunderman, Ricotta & Kline Inc., New York, last week moved from 345 Madison Ave., to new offices at 444 Madison Ave., zone 22. New telephone number: Plaza 2-9800.

• Walker Research Service (market research), Indianapolis, celebrates its 20th anniversary by opening a Consumer Center. The center offers facilities for testing and demonstrating consumer products. They include an on-stage kitchen, an auditorium seating 60 and a lounge.

• Continuing American Phone Surveys Inc., N.Y., has begun operation as a syndicated research company servicing advertising agencies, media and industrial companies. CAPS Inc. uses a national probability sample located at 75 sampling points throughout the country. Mark Lowenthal, formerly assistant director of research of Pharmaceuticals Inc., is vice president of CAPS and client contact for sales and research. Office is at 55 W. 42d St., New York.

FITTINGS: **3** turnbuckles, **4** cleats, **5** chocks, **6** winches, **7** all spar fittings—Everdur.
STRUCTURAL: **8** Hull strapping, **9** chain plates, **10** mast step, **11** centerboard and **12** trunk, **13** rudder strapping and fittings—Everdur. Power boat metal parts in slipstream or turbulence—naval brass, manganese bronze or phosphor bronze. **14** Rudder post—Tobin Bronze
HARDWARE: Hinges, handles, **15** lights, trim, **16** binnacle housing—brass or Everdur.
POWER: **17** Propeller shafting—Tobin Bronze. For high speed, heavy duty—Tempaloy. Fuel line, **18** muffler, **19** exhaust tubing—copper. **20** Fuel tank—tinned copper or tinned Everdur.
MISCELLANEOUS **21** Plumbing for head and galley—copper tube with brass or bronze fittings. **22** Water tanks—tinned copper or tinned Everdur.

Rough water, salt spray, brisk winds—the very elements that make boating the popular and thrilling sport it is—are also a boat's relentless enemies. To withstand the twists and strains of even normal running and to stave off corrosion's attack, metals of many special kinds are required: For instance, Everdur® for fittings and fastenings; Tobin Bronze® and Tempaloy® for propeller shafting.

Because the yawl above contains virtually every important metal part found on any type of pleasure boat, it illustrates the numerous ways these Anaconda Metals make for sound construction and safer boating. The development of marine metals for pleasure, naval, and commercial craft demonstrates just one facet of Anaconda's broad research program in the nonferrous metal field.

If you would like to receive a free copy of our illustrated twenty-page booklet, "Know the Metals in Your Boat," write to Department A, The Anaconda Company, 25 Broadway, New York 4, N. Y. 59174A

SEC. 315 TO GET SENATE AIRING

Bipartisan support strong for Hartke bill; hearing June 12

Principally through the efforts of a freshman senator—Vance Hartke, Democrat of Indiana—the broadcasters' plight in trying to conform with Sec. 315 of the Communications Act will be aired by the 86th Congress.

The Communications Subcommittee of the Senate Commerce Committee has scheduled hearings Friday, June 12, June 15 and/or 17 on Sen. Hartke's bill, S 1858, the "Fair Political Broadcasting Act of 1959." S 1858, which has received wide bipartisan backing, exempts newscasts from equal time requirements, relieves broadcasters of responsibility for libel as a result of political statements aired and defines "qualified" candidates for the offices of President and Vice President.

Sen. John Pastore (D-R.I.) is chairman of the subcommittee and Sen. Hartke is a member. Sen. Warren Magnuson (D-Wash.), chairman of the parent committee, has given his approval for the speeded-up sessions, in spite of an extremely heavy committee schedule, and has indicated plans to attend.

The equal time hearings will be held concurrently with subcommittee hearings on 12 other communications bills (see story below).

Twelve other senators have signed as cosponsors of the Hartke bill, while three identical measures are pending in the House, two of them introduced last week. The House bills were authored by Reps. Joseph Barr (D-Ind.), HR 7122, Wayne Aspinall (D-Colo.), HR 7180, and Byron Rogers (D-Colo.), HR 7206.

Bipartisan supporters of the Hartke bill are Sens. Strom Thurmond (D-S.C.), Theodore Green (D-R.I.), Hubert Humphrey (D-Minn.), Stephen Young (D-Ohio), Gale McGee (D-Wyo.), E. L. Bartlett (D-Alaska), Francis Case (R-S.D.), Alan Bible (D-Nev.), Prescott Bush (R-Me.), Eugene McCarthy (D-Minn.), Jennings Randolph (D-W. Va.) and Claire Engle (D-Calif.).

The hearings were slated to begin June 12 to give the FCC ample time to take action on a Justice Dept. official statement telling the Commission to take a second look at its February Lar Daly equal time ruling (BROADCASTING, May 11).

Sen. Hartke said last Thursday that Congress should act on S 1858 during the present session because it is far enough away from the 1960 campaigns so that no reference will be made to specific candidates. During the 1958 campaigns, he pointed out, stations were reluctant to give complete political news coverage because of Sec. 315. "They will be even more hesitant since the Lar Daly decision," he said.

It would be impossible to write legislation covering every possible political situation, Sen. Hartke stated, and S 1858 is an attempt to place the responsibility on the broadcasting industry. He continued:

"Those who object seem to refuse to recognize that the American broadcasting industry is composed of responsible citizens who are interested in providing the people with the facts of political campaigns."

In addition to the above bills, there also are pending in Congress six other measures, three in each house, which would exempt newscasts only from the equal time provisions of the Communications Act. A majority of the sponsors of these bills have indicated that they favor broader revisions of Sec. 315 but that a step-by-step approach holds out the best promise for action.

FCC AMENDMENTS

Big radio-tv agenda for Senate Commerce

The Communications Subcommittee of the Senate Commerce Committee, chaired by Sen. John Pastore (D-R.I.), last week announced that a series of hearings, beginning June 9 will be held on 12 bills amending the Communications Act.

All of the bills except two were introduced by Sen. Warren Magnuson (D-Wash.), chairman of the parent committee, at the request of the FCC. Sen. Magnuson also introduced one of the remaining bills to carry out recommendations made by the Federal Communications Bar Assn.

On the first day of the hearings, the following will be considered:

S 1734—Prohibits any person from making *ex parte* contacts or presentations to commissioners or staff on any pending case.

S. 1735—Repeals provision of act which permits commissioners to accept honorariums.

S 1736—Eliminates the requirement that certain applications and other filings before the Commission be presented under oath.

S 1738—Redefines the duties and functions of review staff, giving Commission more discretion in its use.

S 1740—Gives the FCC authority to regulate rates of common carriers for the use of microwave and other point-to-point circuits, along with the use of wires in chain broadcasting or radio communication of any kind.

Next Take • The second phase of the hearings, beginning June 11, will hear testimony on the following bills:

S 1723—Eliminates stipulation that Commission must send prehearing notices to applicants and parties-of-interest before scheduling case for hearing.

S 1737—Gives FCC authority to levy fines for certain violations of rules in the common carrier and special service fields.

S 1898 (introduced at the request of the FCBA)—Amends protest provision (309 c) of Communications Act to provide a pre-grant hearing procedure and require FCC to act on petitions within specified time.

Catv-Booster Group • The final round of hearings, beginning June 23, will cover the following bills, all relating to community antennas and booster stations:

S 1739—Permits FCC to license already existing booster stations, constructed without legal authority to build them.

S 1741—Permits operation of boosters without direct supervision of licensed operator.

S 1801—Requires catv systems to obtain consent of tv station before repeating its signal and to carry the signal of local tv stations.

S 1886, introduced by Sen. Frank Moss (D-Utah)—Combines S 1739, 1741 and 1801 into one bill which carries out recommendations of all three.

AN EDITORIAL

REPEAL SEC. 315 NOW OR REPENT LATER

This is best, and last, chance to get relief from unworkable law

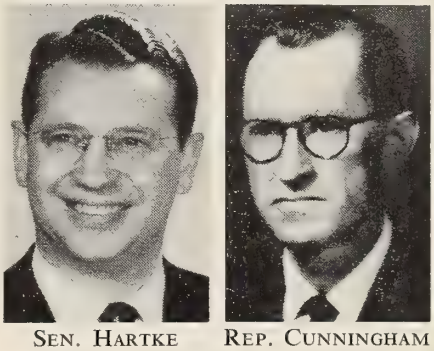
WITHIN a few weeks the Senate Commerce Committee will hold hearings on proposals to amend the political broadcasting law.

These hearings could lead to the emancipation of broadcasters from one of the main restraints that historically have prevented broadcasting from attaining equal status with the press.

Or they could lead to the same dead-end that all earlier hearings on the same subject have led to.

It will be mostly up to broadcasters themselves to determine which of the two courses develops. Never before have events been so on the side of the broadcasters' arguments against Sec. 315, the part of the Communications Act which regulates political broadcasts. Never before have so many high officials in the federal government been interested in political broadcasting problems. We do not think it extreme to say that this is the best chance broadcasters have had to obtain relief from the idiocies of Sec. 315—or to add that if they muff it, they will deserve a permanent consignment to subservience.

The history of broadcaster attempts to obtain repeal or revision of Sec. 315 is not exhilarating. To read the record of broadcasting's struggles with Sec. 315 is to read a record of defeatism. There has been a marked absence of the kind of universal revolt that is essential to the removal of government restrictions. On the record it would appear that radio and television are willing, if not eager, to delegate their basic editorial functions to government.



It is that record which must be erased before the Senate Commerce Committee at the forthcoming hearings. Nor will it be enough for broadcasters to stand on their testimony there, no matter how persuasive it may be. After the hearings, they must persist in unremitting missionary work in both Senate and House if they are to achieve the status to which, in luncheon speeches, so many say they aspire.

THERE are two main bills now pending in both the Senate and House to amend Sec. 315.

One, originally introduced by Sen. Vance Hartke (D-Ind.), would make several modifications in the law. It would eliminate the application of the equal opportunity rule to splinter candidates for the Presidency and Vice Presidency. It would exempt from the equal opportunity rule the appearances of all kinds of candidates on any news or panel program which is a "newsworthy event and in no way designed to advance the cause of or discriminate against any candidate." In exchange for retaining the present ban against a station's censoring a candidate's speech it would immunize the station from prosecution for libel.

The other, originally introduced by Rep. Glenn Cunningham (R-Neb.), would make only one change in the law. It would exempt from equal time requirements the appearances of candidates on news programs where "the candidate in no way initiated the recording or broadcast."

Both bills have been endorsed by some broadcasters. Frank Stanton, president of CBS, and Robert Sarnoff, chairman of NBC, have publicly announced their support of Sen. Hartke's. Leonard Goldenson, president of AB-PT, the parent of ABC, has announced

SEN. HARTKE REP. CUNNINGHAM

Two partial corrections

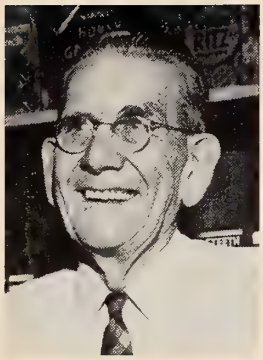
he favors a compromise which would do a little more than Rep. Cunningham's and a little less than Sen. Hartke's.

It was Mr. Goldenson's reasoning that a compromise was the best that broadcasters could hope to get. Mr. Goldenson is an eminently practical man, and he may be right in thinking that complete relief is unattainable at the moment. We suggest, however, that compromises are what one settles for after he has argued valiantly for something better.

The attitude of compromise is what has kept broadcasters under the yoke of Sec. 315 since the law was passed 25 years ago.

To some degree it is an attitude reflected by Messrs. Stanton and Sarnoff. For Sen. Hartke's bill is itself a compromise with the maximum relief to be desired—the repeal of all provisions of Sec. 315.

AFTER the nationwide elections of 1952, the NAB announced it would beseech the Congress to repeal the political broadcasting law. We must confess that at the time we editorialized in favor of a more moderate approach. In retrospect we do not admire that position, for those who agreed with it were not only lost to the main effort for correction of the law but also were of no effect in obtaining minor modifications.



The facts are that for several years after the NAB's announcement no broadcaster made a serious attempt to advise Congress of Sec. 315's imperfections.

In early 1956 the House Commerce Committee held hearings on several bills which, in sum, would have done approximately what Sen. Hartke's present bill would do. These were endorsed by CBS, in testimony by Richard S. Salant, CBS vice president, endorsed with some reservations by NBC, through a statement filed by Thomas E. Ervin, and endorsed in part by the NAB, through the testimony of several witnesses. None of the bills passed.

During the national election campaign in the fall of 1956 the Senate Subcommittee on Elections held intermittent hearings to study the conduct of the campaigns. During those hearings, Harold E. Fellows, president of the NAB, testified that the only solution to political broadcasting problems was the repeal of Sec. 315. At the time no bill of that kind was before the committee, and none was introduced.

The campaign of 1956 proceeded under the same old law. An example of its application occurred. The FCC ruled, correctly, that if President Eisenhower appeared on a scheduled opening of the United Community Fund drive with a statement addressed solely to charitable purposes, Adlai Stevenson and other candidates for the Presidency would be entitled to equal time. A few weeks later the FCC announced it could not decide whether a speech by the President on foreign policy constituted a use of broadcasting entitling others to the same oppor-

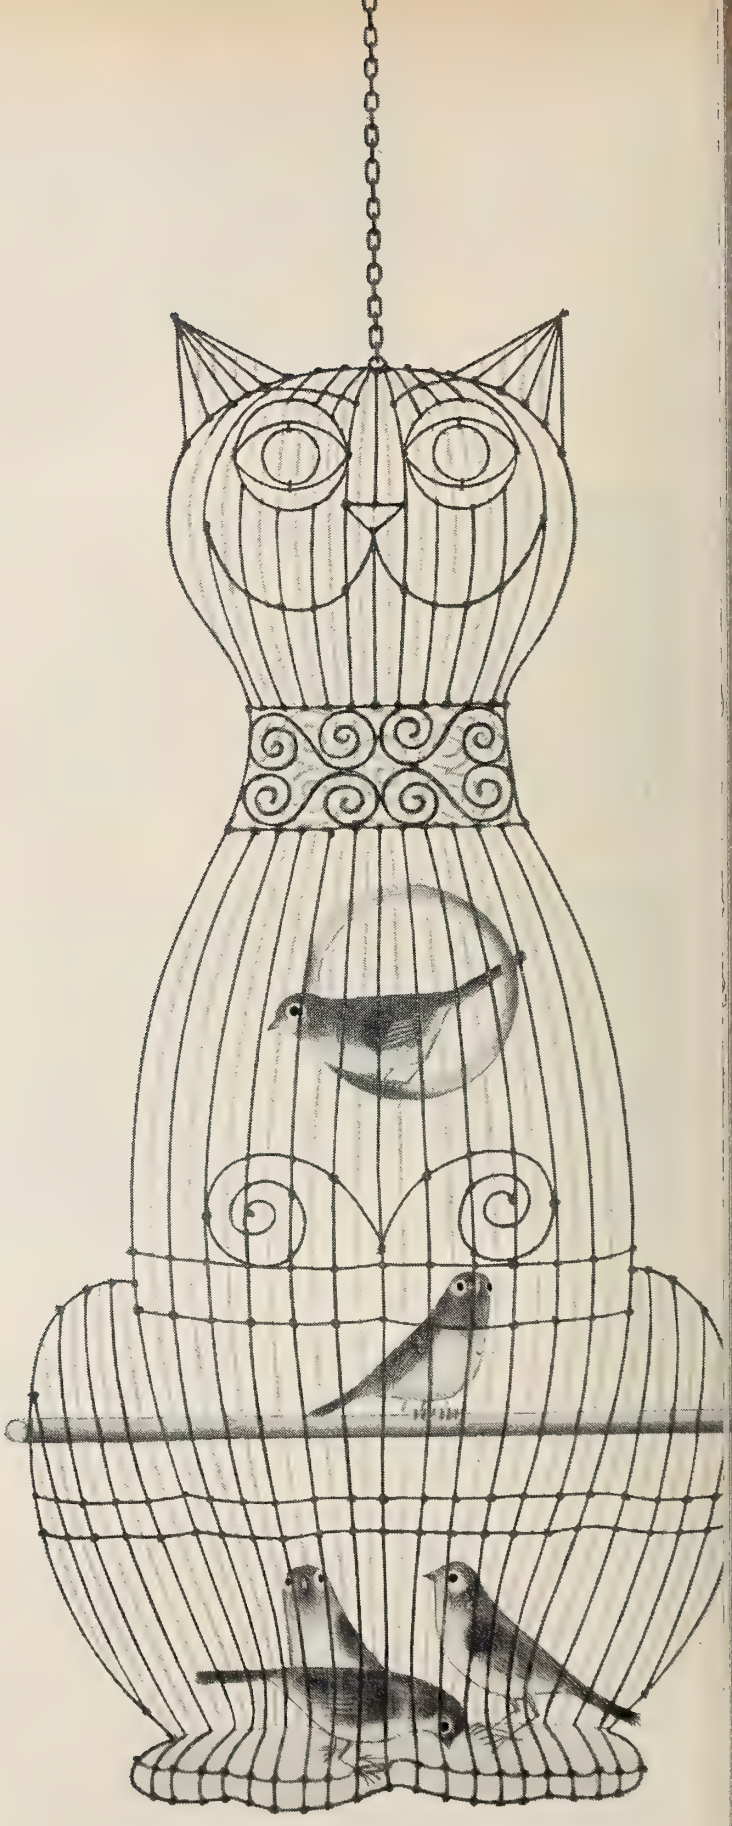
Gallery of problems • Some of the men pictured above are obscure, some are famous, but all have one thing in common: They were candidates for the Presidency of the United States in 1956. Under the law all were entitled to the same access to radio and television. In practice not all got what they were entitled to.

Some did not demand their rights, for lack of knowledge about Sec. 315, the political broadcasting law. Others made demands which were ignored or hung up in government red tape until the elections were over and the issue moot. But if all had been alert to the opportunities guaranteed by Sec. 315, you would have been able to recognize all 14 of their faces. These were the candidates in 1956:

1 Fred C. Proehl (Greenback Party), **2** Eric Hass (Socialist Labor Party), **3** Farrell Dobbs (Socialist Workers Party), **4** Henry Krajewski (American Third Party, subtitled the Poor Man's Party), **5** Enoch Arden Holtwick (Prohibitionists Party), **6** Herbert M. Shelton (Vegetarian Party), **7** Darlington Hoopes (Socialist Party), **8** T. Coleman Andrews (Independent States Rights Party, also endorsed by the Constitution Party and the For America Party), **9** Sen. William Langer (Pioneer Party), **10** Sen. Harry Byrd (States Rights Party of Kentucky and South Carolinians for Independent Electors), **11** Ex-Sen. William Jenner (Texas Constitution Party), **12** Lar Daly (America First Party), **13** Adlai Stevenson (Democratic Party), **14** Dwight Eisenhower (Republican Party).



Since 1956 there has been much publicity about Sec. 315. In 1960 there will undoubtedly be at least as many candidates, of one sort or another, and all of them can be expected to know how to take full advantage of Sec. 315—if Sec. 315 is still on the books.

tunity. A week after that, the FCC came to a decision that others were not entitled to time. Meanwhile, however, Mr. Stevenson and other candidates had been put on the air by the bewildered networks.

It was during the 1956 campaign for the office of U.S. Senator in North Dakota that a classic court test of the equal time and anti-censorship provisions of Sec. 315 was precipitated. WDAY-TV Fargo, in accord with the law, put a splinter candidate on the air who made statements which the station was powerless to prevent and which caused a libel suit against the station.

That case was argued two months ago before the U.S. Supreme Court. The fact that a Supreme Court decision may be imminent is noted with comfort by some broadcasters who wish to believe that the court may declare the law unconstitutional and hence preclude the need for Congressional remedies. This is cold comfort indeed. Whatever the

CONTINUED

of course we're pleased to have so many of the Top 10...

Pleased as the proverbial cat that swallowed the canary. And so are the CBS Television Network advertisers who sponsor 16 of the 28 nighttime programs that have won a place in Nielsen's Top 10 reports during the past season.*

But perhaps the Top 10 is not as dramatic an index of network popularity as it used to be—*for today even the 40th most popular program reaches more than 24 million viewers.***

So we are equally pleased to report that in Nielsen's latest nationwide survey we not only have 5 of the Top 10 programs but also 10 of the Top 20, 15 of the Top 30, and 19 of the Top 40.

Indeed, the truest gauge of a network's value, for audience and advertisers alike, lies in the over-all popularity of its entire program schedule.

Significantly, the *average* nighttime program on the CBS Television Network throughout the season has reached an average-minute audience of 23,000,000 viewers—some 2,630,000 more than the average show on the second network and 2,980,000 more than on the third. Our leadership in average nighttime ratings has continued without interruption in the 92 Nielsen reports issued since July 1955.

(In the current season the Network leads in average *daytime* ratings as well.)

These are some of the facts that have impelled the nation's leading advertisers, for the seventh straight year, to commit more of their investment to the CBS Television Network than to any other single advertising medium.

court does, the Congress will not lose interest in political broadcasting.

THERE is only one fundamental argument that can be made for retention of Sec. 315 or for those traces of it which would remain if all the revisions suggested by the most extreme existing bill — Sen. Hartke's — were adopted. That is that broadcasters cannot be counted on to deal fairly with candidates if there is no Sec. 315.

We suggest that a telling attack can be made against that argument.

The long record of broadcasters in presenting broadcasts about political issues and political figures (when they are not active candidates) conclusively proves their desire to be fair. Controversy is treated every day, every year without slanting or bias. It is also treated without the application of any law save the general standards of fairness implied by the law's requirement that the broadcaster serve the public interest.

Indeed, during the most controversial political campaign there is no special law which governs the presentation of news or information about any issue or any person except a candidate.

What is so special about a political candidate that a special law is required to regulate his appearances on radio and television? Does a U.S. Senator who may have appeared in dozens of news spots and interview programs while not an active candidate suddenly become a commodity that broadcasting cannot manage when he announces his intention to run for re-election?

Questions like these, if asked frequently enough and by enough broadcasters are bound to provoke eventually the admission that Sec. 315 makes no sense—for the broadcaster, for the public and, most of all, for the candidate himself.

Questions leading to equally nonsensical answers can be raised about the pending amendments to Sec. 315. We say this with nothing but gratitude toward the sponsors of the amendments. Sen. Hartke, Rep. Cunningham and the many members of Senate and House who have endorsed their proposals or entered similar bills of their own are to be thanked for trying, despite lukewarm broadcaster suuport, to achieve relief for broadcasters.

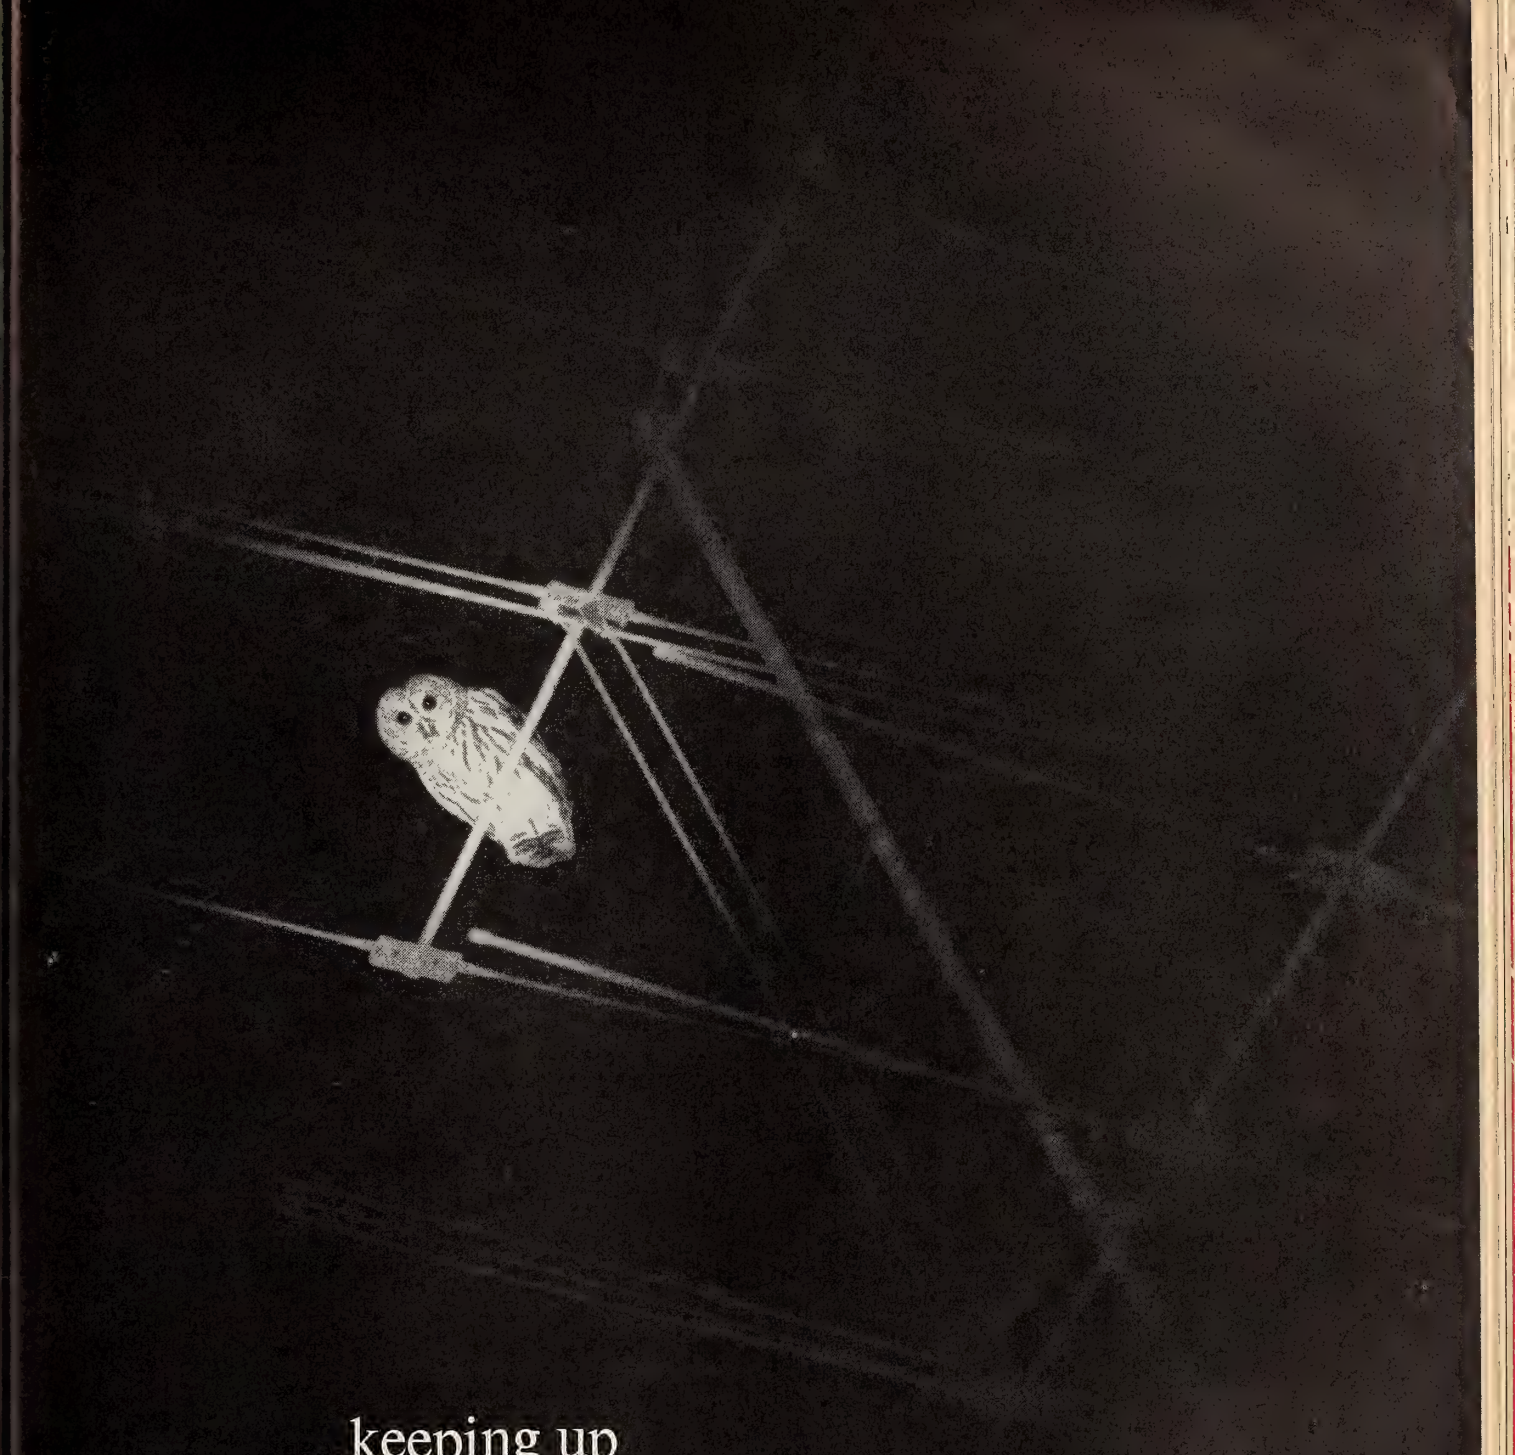
But however well intended, both the Hartke and Cunningham amendments contain imperfections.

THE imperfections in the Cunningham approach lie chiefly in its inadequacy. It would provide only the limited relief of excluding from the equal time provisions of Sec. 315 the appearances of candidates on news programs. All other provisions of the section would remain intact, and these are no less silly than the equal time provisions.

Mr. Cunningham would leave undisturbed the prohibition against the editing of candidates' remarks and the application of what equal time provisions remained to splinter candidates who have not the remotest chance of election. Even if Mr. Cunningham's amendment had been in effect in 1956, WDAY-TV Fargo would still be fighting a costly libel action in the U.S. Supreme Court.

On the surface, Mr. Hartke's measure is more appealing, but it too offers only limited relief, and in one respect it actually sets a trap for broadcasters.

It would eliminate from equal time provisions splinter candidates in Presidential and Vice Presidential races. It would do nothing, however, to protect broadcasters against equal time demands by candidates for any other office. The extent of the problems which Mr. Hartke would leave unsolved may be measured by the recollection that 72 candidates ran for sheriff in Milwaukee in 1956.



Mr. Hartke's bill would retain the anti-censorship provisions of Sec. 315, but it would relieve broadcasters of liability for libel. This, we suggest, is the trap which Mr. Hartke has unintentionally set and baited. We are not lawyers, but our common sense tells us there is a serious legal question raised by the prospect of the federal government's immunizing anyone in mass communications from libel prosecution. Turn the proposal around and it means that the government has deprived a libeled person of the right to recover damages for his injury. Turn it another way and it means that broadcasting has escaped a minor risk while giving up a major right. As long as radio and television are free from libel suits the government will never give them the authority to edit.

THE more you tinker with attempts to rewrite Sec. 315 the more evident it becomes that the tinkering will create at least as many difficulties as it corrects. Complete repeal is the only solution.

Already, highly placed officials have recognized the imbecilic features of the law. President Eisenhower has used the word "ridiculous" to describe the rigid application of its equal time features. FCC Chairman John C. Doerfer has publicly stated his conviction that the whole section ought to be repealed.

These are powerful supports for the broadcasters' argument. It remains only for the broadcasters themselves to exploit the advantages they lately have been given.

If they fail to exploit them now, it may be years—and certainly not until after another Presidential campaign—before they get another chance.

...keeping up with the Joneses

And the Browns and the Kellys too. Seems more New Yorkers all the time are keeping night-owl hours, judging by the record ratings *The Late Show's* been getting recently. Its average audience this season —722,000 well-to-do *families* nightly—is greater than in any comparable period during its eight-year history. *The Late Show* keeps 'em up . . . as it keeps on presenting more of the finest motion picture entertainment in all television, from Hollywood's top studios.

With whopping audiences every night, no wonder *The Late Show* is completely sold out across the board. But a long list of sales-wise advertisers will tell you it's worth waiting for. Meantime, let your WCBS-TV or CBS Television Spot Sales representative find another profitable perch for you on the top television station in the top television market. MUSIC-NEWS ON THE SPOT

Commission divided on Atlanta renewals

A troubled FCC is wrestling with music-news radio operations—and how radio's 1959 voice fits in with the Communications Act's mandate that broadcasters shall operate in the "public interest, convenience and necessity."

At issue are seven Atlanta, Ga., radio stations, which have been operating without license renewals for more than a year. Renewal has been held up since last March when the Commission raised its collective eyebrows at what it alleged was little or no agricultural, educational and religious programming on these stations.

The Commission last week discussed a staff report on the Atlanta renewal case—for the second time. It took no action. The subject taken up for the first time two weeks ago (CLOSED CIRCUIT, May 18), is due to be taken up again at this week's Wednesday meeting.

A sharp split has developed on how to handle this matter, it was understood.

One group would approve renewals on the ground that the Commission ought to make a policy determination on what it desires in programming before penalizing any broadcaster.

The other group believes that the Atlanta stations should be utilized as the case to make policy.

Meanwhile, the temper of the FCC on the subject of programming was shown in three other actions:

• The Commission ordered held in abeyance license renewals for two Bartell Group stations, WOKY Milwaukee and WYDE Birmingham. This was because the Bartell Atlanta station, WAKE, is one of the group involved in the Atlanta situation. The Milwaukee and Birmingham stations operate in the Bartell manner, according to the Commission, and it was felt that until the Atlanta case was decided, it would be better to mark time on similarly-operated Bartell outlets up for license renewal.

• One of the Atlanta stations involved in the programming debate had its license renewed—and its ownership transferred in one single action last week. But three commissioners dissented. The FCC approved the sale of WIIN Atlanta by Emil Arnold to Atlanta advertising executive Philip D. Denton and associates for $150,000, after first renewing WIIN's license. The renewal was necessary in order to approve the sale. No judgment was made on the programming issue in this case, it was understood.

Comrs. Robert T. Bartley, Robert E. Lee and Frederick W. Ford dissented in this action.

The other six Atlanta stations involved in the programming issue are WAOK, WEAS, WERD, WGST, WQXI and WJTH (East Point, Ga.).

• Some commissioners' concern with over commercialization became known last week when the FCC approved the license renewal of WDXB Chattanooga, Tenn. Comrs. Robert E. Lee and John S. Cross dissented on the ground that the station showed an excessive number of spots in the station's log. This ran about 2,000 commercial spots per week, it is understood. Also brought into question, it is known, were the amount of WDXB's agricultural, educational and religious programming.

Tv booster operators plan Capitol strategy

The National Tv Repeater Assn. meets in Denver May 29 to make plans for testimony by vhf tv booster operators if and when hearings are held on Capitol Hill on a number of bills affecting boosters and community antenna tv systems. No dates have been announced by the Senate and House commerce committees for hearing the bills.

FCC-recommended legislation has been introduced which would facilitate the Commission's action of last month (BROADCASTING, April 20) legitimatizing vhf boosters by giving the FCC authority to waive requirements that (1) a licensed operator be present at a broadcast station (boosters are unattended) and (2) that licenses not be granted if a station was constructed prior to the grant of its permit (boosters [there are an estimated 1,000 of them] began operating as early as 1954). Also recommended by the FCC—and incorporated in some of the legislation submitted—are bills which would (1) require a CATV operation to get permission to use the programs of an originating station and (2) require a CATV system to carry the programs of the local tv broadcast station upon the latter's request.

In a newsletter to booster operators, Jim Beamer, secretary of the Tri State Repeater Assn. (Montana, Wyoming, Idaho), criticized the FCC for failing to make provision in the proposed bill for boosters built after Jan. 1, 1959, and for not asking authority to regulate CATV systems.

Mr. Beamer said FCC Chairman John C. Doerfer had indicated he would visit Montana to discuss booster problems, but so far hasn't. The FCC was charged with allowing local Montana tv broadcast stations to be killed off by CATV systems by refusing to assume or ask for authority over CATV. He urged booster operators to push to get both vhf boosters and CATV systems considered together in congressional hearings.

A series of editorials earlier in the *Miles City* (Mont.) *Star* criticized the FCC for allowing CATV operators free rein while local tv stations in Montana, faced with competition from CATV, were drying up and tv boosters with them.

Option time filing

The FCC last week extended the deadline for comments on the proposed rulemaking on option time and the "right" to reject network programs (BROADCASTING, April 27) from June 22 to August 3. Both CBS and NBC had requested longer extensions of time to file. CBS had suggested a Sept. 11 deadline and NBC Sept. 22.

Helena catv case returned to FCC

The U.S. Court of Appeals for the District of Columbia last week remanded the Helena, Mont., community antenna case to the FCC. Last year, the Commission granted Montana Microwave permission to feed Spokane, Wash., tv programs to its Helena cable system. Capital City Television Inc., licensee of KXLJ-TV Helena, filed a protest which the Commission ruled did not meet requirements of Sec. 309 (c) of the Communications Act.

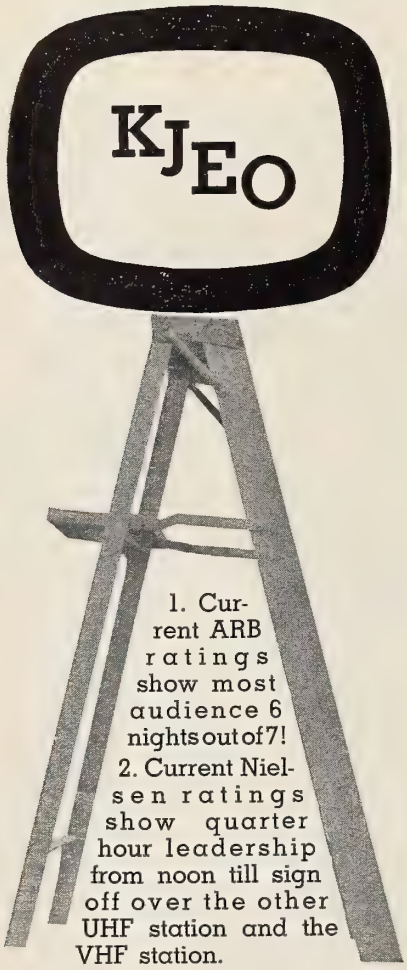
In remanding the case to the FCC, the court said the Commission "erred" in dismissing KXLJ-TV's protest, and instructed the Commission to proceed in accordance with Sec. 309 (c), which states that applications granted without a hearing may be protested by interested parties.

In January the Court denied a request by KXLJ-TV for a stay against the FCC grant (BROADCASTING, Feb. 2). At that time, KXLJ-TV, which relays programs of sister station KXLF-TV Butte, asked the FCC for permission to suspend operations for 90 days. Its appeal claimed the station would suffer adverse economic effects from the catv operation.

*ARB, Oct.,'58 and Jan., Feb.,'59

Hits home!

Available now, for the first time off-network, "This is Alice" brings you 13 fresh new first run episodes teamed with 26 first-run, off-network half-hours. They're all designed to hit homes with all-family appeal . . . and all come to you complete with built-in local sales ability. Angel and pixie, this engaging little minor has major appeal and absolutely no rating inhibitions.



FOR EXAMPLE, IN THE HIGHLY COMPETITIVE SEVEN STATION LOS ANGELES MARKET, "ALICE" RATED* FIRST IN HER 7:00 P.M. TIME PERIOD WITH A 22.6 AUDIENCE SHARE. IN PROVIDENCE, "THIS IS ALICE" SCORED A 26.5 RATING, 55.3 SHARE; CINCINNATI, 21.7 AND 41.8 SHARE. IT HAPPENED AGAIN AND AGAIN, MARKET AFTER MARKET!

And now the dynamic selling force behind this vivacious little star is available for every local sponsor seeking network quality programming that hits home with everybody in the family, everywhere! For details contact:

OVERSIGHT PROBE
New quiz June 15 will include FCC

The House Legislative Oversight Subcommittee last week issued a list of government agencies it will investigate, general subjects to be covered regarding each agency and its contemplated rules of procedure.

The subcommittee named 16 agencies, including the FCC, which it will investigate. Hearings are to begin June 15 with panel discussions among officials of the FCC and other agencies, other government officials, lawyers practicing before the respective agencies and representatives of those who are regulated by regulatory agencies (BROADCASTING, May 18)). Of these agencies there are nine, including the FCC.

The subcommittee said it will review and analyze the laws and amendments and the intent of Congress when they were enacted; look into the area regulated by each law and changing circumstances and growth in the field since enactment; consider whether legislative standards in each law can be put in more precise terms to reduce administrative discretion; consider whether rules and regulations drafted by each agency are reconciliable with "statutory standards and legislative intent" and how they have been applied in practice.

Also, review administrative interpretations and practices not covered by rules and regulations, whether the public has been notified of such interpretations and the extent to which administration is by interpretations as distinguished from published rules; look over judicial decisions on agency administration of the law and whether the decisions have enlarged the area of regulation through support of laws, rules, and interpretations; consider whether the agency has enforced laws, rules and regulations; and try to determine whether the agency is independent and bipartisan as Congress intended, how each agency handles its personnel and whether the workload and distribution of personnel is made according to law or through administrative interpretations, coordination with other government agencies or with trade or industry enforcement groups.

Rules empower Chairman Oren Harris (D-Ark.) or any member he designates to issue subpoenas, allows questioning of witnesses in closed session under certain conditions and gives witnesses the right to be accompanied by counsel, but limits counsel's function to advising the witness of his constitutional rights. (Apparently some rules restricting the activities of counsel were designed to forestall prolonged and sometimes heated exchanges between committee members and counsel, such as took place in the group's 1958 hearings.)

Hyde hearing

The Senate Commerce Committee will question Comr. Rosel H. Hyde Wednesday (May 27) before acting on the confirmation of the commissioner's appointment to serve a third term on the FCC. The Idaho Republican's second seven-year stint on the Commission expires June 30. The Committee also will question Earl W. Kintner, Federal Trade Commission general counsel who has been named to be a member of the trade commission, and several other White House appointees, the same day.

Protest change offered

Following recommendations of the Federal Communications Bar Assn., Sen. Warren Magnuson (D-Wash.) and Rep. Oren Harris (D-Ark.) have introduced bills amending the protest provision of the Communications Act. Messrs. Magnuson and Harris are heads of the respective Senate and House Interstate & Foreign Commerce Committees, to which the bills (S 1898 and HR 7017) were referred.

The bills would amend Sec. 309 so as to limit protest hearings to instances where material and substantial questions of fact are presented and would require explicit and reasoned resolution by the FCC, prior to a grant, of questions of law or policy which do not warrant a hearing. They also would require the Commission to act within 90 days on petitions for rehearing.

Southland denied

The nine-man U.S. Court of Appeals in Washington last week denied a petition by Southland Tv Co. that it review *en banc* the decision of a three-member panel of the court upholding the FCC's July 1957 grant of ch. 12 in Shreveport, La., to KSLA-TV there. Southland, the losing applicant for ch. 12, had appealed the FCC grant and the appeal was denied by Judges Henry Edgerton, David Bazelon and Walter Bastian in a decision last month (BROADCASTING, April 20).

The FCC first made the grant to KSLA-TV in May 1955 and Southland appealed to the court. The court remanded the case because of the death of one of KSLA-TV's principals. The FCC reaffirmed the grant in July 1957.

Michigan Week
May 17-23

We're proud of Michigan . . .

Going great guns! That's Michigan whose industrial expansion was fourth highest in the nation in 1958. In Detroit, home of the WWJ stations, automobile production is way up. So are factory and non-factory employment, residential building, department store sales and other barometers of a healthy economy.

For sales results you can sing about, buy Michigan—Detroit—the WWJ stations, basic media in this big-earning, big-spending market.

ORLANDO GO-AHEAD
Court tells FCC to reopen ch. 9 case

An investigative hearing into the Orlando, Fla., ch. 9 case was officially ordered by the U.S. Court of Appeals in Washington last week.

The court told the FCC to look into allegations that off-record conversations were held with FCC commissioners during the 1957 hearing.

The court's action came six weeks after the FCC itself told the court it was reopening the Orlando ch. 9 case but was withholding the setting of a hearing date until the court expressed its wishes.

The FCC awarded ch. 9 to WLOF Orlando in 1957. In May 1958 the appeals court upheld the grant. Losing applicant WKIS then asked the Supreme Court to review this decision. The Supreme Court accepted *certiorari* last November, but remanded the case to the appeals court to look into allegations of *ex parte* representations while the case was in adjudication before the FCC.

These charges were made before the House Legislative Oversight Committee last year. It was stated by a committee investigator that William H. Dial, an Orlando attorney, had spoken to then FCC Comr. Richard A. Mack about the Orlando proceeding. In a statement to the House committee, Mr. Dial said he had spoken against the WKIS application. He said he did so as an interested citizen.

Mr. Mack, who resigned during the House investigation, is on trial on a charge of conspiring to influence the Miami ch. 10 award to National Airlines (see adjacent story).

WKIS had asked the court to appoint a "special master" to take evidence on the influence charges. The court, however, remanded the case to be handled similarly to proceedings in the Miami ch. 10 and Boston ch. 5 cases: appointment of a special examiner to hold an evidential hearing to determine the nature and source of all *ex parte* pleas and other approaches to the Commission and any other factors which might require disqualification of some commissioners or applicants. The court, retaining jurisdiction, asked that the Commission report progress on the case within 60 days.

The court said the Commission could "within its discretion" maintain existing services.

The court's decision was written by Circuit Judge Charles Fahy, for himself and Judges George T. Washington and John A. Danaher. Judge Danaher in a separate view said that since the Supreme Court had held that the appeals court's 1958 decision affirming the grant was vacated, the lower court could not retain jurisdiction.

Dead giveaway

Lift the sponsor identification requirement on radio-tv "teaser" advertising.

This was the plea of NAB last week as the organization petitioned the FCC to relax its rules for sponsor or product identification for all on-air advertising. Claiming that "effectiveness" of the so-called teaser ad is destroyed by identification, NAB pointed out that the teaser is "designed merely to stimulate interest in future substantive commercial announcements" which do identify the product or sponsor. NAB declared that FCC rules should be amended to recognize this difference.

Sen. Kefauver gets Mack trial subpoena

Defense counsel in the criminal conspiracy trial of former Comr. Richard A. Mack and his friend Thurman A. Whiteside last week subpoenaed Sen. Estes Kefauver (D-Tenn.) to testify on June 1. Sen. Kefauver is a friend of A. Frank Katzentine, president of WKAT Miami, one of four applicants for Miami ch. 10. Counsel for Mr. Whiteside also have issued a subpoena for Mr. Katzentine to appear today (May 25) in the trial.

Sen. Kefauver has said he spoke to some FCC members while the Miami ch. 10 case was pending before the Commission.

Testifying last week was Mrs. J.S. Grisillo, a bookkeeper in Mr. Whiteside's Florida law office. Government prosecutors questioned her on payments made by Stembler-Shelden Insurance Agency, which Mr. Whiteside controls, to Mr. Mack during the latter's tenure at the FCC. Mrs. Grisillo also is president of Andar Inc., a company Mr. Whiteside owned and turned over to Mr. Mack. Mr. Mack since has given up Andar ownership.

Defense counsel attempted to question Mrs. Grisillo on payments made by the insurance firm to Mr. Mack before he joined the FCC, but Federal District Judge Burnita S. Matthews refused to allow any evidence of these payments but a listing of dates. The defense sought to indicate the Mack-Whiteside financial relationship was in operation prior to Mr. Mack's tenure at the FCC.

The trial was recessed Thursday and Friday (May 21-22) while Judge Matthews attended a judicial conference. The defendants are charged with conspiring to cause ch. 10 to be awarded by the FCC to a subsidiary of National Airlines.

THE FEDERAL BAR
Lawyers, U.S. bureaus to meet on procedure

Washington lawyers who specialize in practicing before federal agencies decided last week they ought to get together with the agencies and try to standardize some of the practices and procedures. The result may even be a uniform code of ethics for all federal agencies and the lawyers who practice before them.

A proposal calling on Congress for legislation to establish a continuous, permanent Conference on Administratative Procedure was adopted last week by the Judicial Conference of the District of Columbia Circuit. It asked the President to call an interim conference and after that to recommend legislation to the Congress.

The proposal was passed following a report on problems of administrative law and procedure by a special working group, chaired by William C. Koplovitz. Other communications lawyers on this group were:

Donald C. Beelar, Jay D. Bond (FCC examiner), Ben C. Fisher, John L. FitzGerald (FCC general counsel), Robert L. Heald, Bryce Rea, Jr. Richard A. Solomon (former FCC assistant general counsel now with the Dept. of Justice) and Thomas H. Wall.

The group recommended that a permanent conference on administrative procedure be established as soon as possible. This was passed unanimously by the conference. There were three proposals on how best to accomplish this. The first was to work through the attorney general, the second, by legislation, and the third, through the agencies concerned. It was the second proposition that won a majority of conference votes.

The purpose of the permanent conference, it was pointed out, would be to eliminate undue delay, expense and volume of records, to develop uniform rules and to achieve greater efficiency and economy.

The yearly Judicial Conference comprises the judges of the U.S. Court of Appeals and the U.S. District Court in the District of Columbia and lawyers whose practice brings them into these courts most frequently. Chief Circuit Judge E. Barrett Prettyman presided.

KCCC-TV drop-in bid asks less separation

KCCC-TV Sacramento, Calif., uhf outlet on ch. 40, last week asked the FCC to institute rulemaking to reduce the minimum required mileage for tv co-channel separations in Zone II from 190 miles to 100-125 miles to provide more vhf drop-in stations pending the FCC's negotiations with the Office of Civil Defense Mobilization for more of the vhf spectrum for tv broadcasting.

KCCC-TV also submitted a proposed system of vhf drop-ins for 11 northern California markets. The Sacramento outlet said existing uhf outlets should get first chance at dropped-in vhfs and suggested ch. 8 for itself. The KCCC-TV plan follows:

Bakersfield, chs. 10, 13, 8, 2; Chico, 12; Eureka, 3, 6, 13; Fresno, 12, 4, 5, 7, 9; Sacramento, 3, 6, 10, 8; Stockton, 13; Salinas-Monterey, 8; San Francisco-Oakland, 2, 4, 5, 7, 9; San Jose, 11; San Luis Obispo, 6; Santa Barbara, 3. KCCC-TV said directional antennas and precision offset might be required where necessary.

Beaumont ch. 6

A request that U. S. Court of Appeals order the FCC to make a decision on the present record of Beaumont, Tex., ch. 6 case and not be permitted to reopen the record for further testimony under consideration by the court May 15 followed opposition filed by the FCC and KFDM-TV Beaumont to Enterprise Co. (KRIC Beaumont) petition earlier in week. Enterprise claimed FCC misunderstood court's remand earlier in year which ordered the Commission to make finding on payment of $55,000 to the applicant who withdrew (BROADCASTING, Feb. 2). It said the court meant the FCC to make ruling on record, not reopen the case. Both the FCC and KFDM-TV denied Enterprise construction of court remand. Payment of $55,000 was for out-of-pocket expenses made to third applicant, KTRM Beaumont, by KFDM when the former withdrew. Money was loaned to KFDM by W. P. Hobby (*Houston Post*-KPRC-AM-FM-TV) who holds option to buy 32.5% of KFDM-TV if the grant is made final. FCC granted ch. 6 to KFDM in 1954. Hearing on remand was scheduled by FCC to begin June 4.

Multiplex stereo

Electronics Industries Assn. last week asked for a six-month extension of the date for comments in the FCC's inquiry into standards for use of fm multiplexing in stereophonic broadcasting. The FCC on March 12 split stereo from its overall inquiry into fm multiplexing uses. Comments on this separate inquiry on stereo are due June 10. EIA said it established the National Stereophonic Radio Committee last December to make detailed technical studies for compatible stereo broadcasting and that the studies won't be completed in time.

• Government notes

• The FCC hearing on Miami, Fla., ch. 6 has lost one of its four applicants with the all but official withdrawal of Gerico Investment Co., whose ch. 17 WITV (TV) Ft. Lauderdale suspended operations over a year ago and has not participated in the hearings. The remaining contenders for the facility are Publix Television Corp., South Florida Amusement Co. and Coral Television Corp.

• A Memphis, Tenn., chancery court jury has ruled that no contract existed between station broker Allen Kander & Co. and the sellers of WDIA Memphis. The verdict was brought in two weeks ago in the Kander company's $50,000 suit against Bert Ferguson and John R. Pepper, the sellers of the station and also against Egmont Sonderling and associates, the buyers. The suit against Mr. Sonderling and his associates was dismissed by the judge. WDIA was sold by Messrs. Ferguson and Pepper to Mr. Sonderling's group in 1957. The price was $1 million.

• RCA Communications Inc.'s Thomas H. Mitchell was scheduled last week as the lead-off witness in the FCC's in-depth study of the non-government services in the radio spectrum between 25 and 890 mc, to begin today (Monday). Other witnesses scheduled to appear later this week include representatives of AT&T, Motorola Inc. and National Mobile Radio System. Broadcasting witnesses will not appear until at least the third week of the hearings (BROADCATING, April 27).

• Metropolitan Philadelphia Educational Radio and Television Corp. last week applied for ch. 12 Wilmington, Del. The facility, last operated as WVUE (TV) by Storer Broadcasting Co., has been the object of both commercial and educational interests (BROADCASTING, Feb. 23). Rollins Bradcasting Co. and a partnership composed of Egmont Sonderling, Richard Goodman, Mason A. Loundy and George T. Hernreich have also applied for the channel.

• The petition of WTHI-TV Terre Haute, Ind., to consolidate in one proceeding its applications for chs. 2 and 10 in Terre Haute, now designated for two separate proceedings, was turned down by the FCC last week. At the same time the Commission denied the request by Illiana Telecasting Corp. that WTHI-TV be required to elect which of its applications to prosecute. WTHI-TV has applied for renewal of its license on ch. 10 in Terre Haute in comparative hearing with Livesay Broadcasting Co. for a new outlet on that channel. Illiana Telecasting and WTHI-TV are in comparative hearing for a new tv station on ch. 2 in Terre Haute.

• KOBY San Francisco last week dropped its petition asking the FCC to reconsider its assignment of call letters to KOFY San Mateo, Calif., similar to those of KOBY. The San Francisco station had held that some listeners and advertisers had become confused over which station is which. KOBY, in withdrawing its petition, explained that the damage it suffered as a result is "already done" and that it would be useless to pursue the matter.

• John W. Powell last week dropped his application for ch. 23 in Yakima, Wash., leaving three contestants in hearing for the uhf facility: Charles R. White; Yakima Tv Corp. (principals in KELP-AM-TV El Paso and KXLY-AM-TV Spokane), and Yakima Valley Tv Co. (Ralph Tronsrud, realtor).

• The U.S. Court of Appeals in Washington on May 14 affirmed the FCC's decision adding two uhf channels at Bakersfield, Calif., making a total of three uhf channels (17, 29, 39) and one vhf (10) in that city. KBAK-TV Bakersfield (ch. 29) had asked review of the order, issued by the FCC without deciding on that station's petitions to make the city either all uhf or all vhf.

Bids flood FCC

A flood of filings hit the FCC May 15 before the effective date of the FCC's new rule on "cut-off dates" for am applications (BROADCASTING, April 13). A total 120 applications were filed on May 15 deadline of which 30 were for new am stations and 90 for changes in station facilities or amendments to applications. Still others had piled up during the week. The FCC, to expedite the backlog of 1,400 am applications, set a cutoff date for all applications for new stations or amendments or changes which would affect the first 50 applicants on the backlog. Other cutoff dates will be set for subsequent groups of 50 applications as FCC works off backlog. The original group of applications affected under the new cutoff policy included 269 radio applications.

RAB SEES HIGHER BUDGET

Record membership growth also cited

A more than $1.1 million budget and a station membership of about 1,100 by the end of this year.

That was the good news prediction from Radio Advertising Bureau officials to their board of directors at a semi-annual meeting in New York Wednesday (May 20).

Kevin B. Sweeney, RAB's president, also ticked off several "good news" items for the board. These included predictions for increases in both local and national radio business in the fall (BROADCASTING, May 18) and additional plans for "on target" research (listening habits of actual purchasers of products).

Mr. Sweeney based his membership-budget report on a current record total of 970 stations.

Board actions took in the following: Warren Boorom, director of member service, and Miles David, promotion director, elected vice presidents (see FATES & FORTUNES, page 88); approval of 58% of the budget to develop national business (42% alone going to promotion of an expansion in radio by retailers), and approval of plans to expand the fall regional management conferences from seven to eight (they begin Sept. 2).

Department Store Business • Still other results: Authorization for RAB to negotiate a contract with the "victorious" department store in the Bureau's "$64,000 challenge" competition, election of Gustav Brandborg, KVOO Tulsa, to the board and Herbert Evans, Peoples Broadcasting Corp., as member of finance committee, and "accelerated" the program for RAB to have its own building in midtown Manhattan after the board heard a preliminary report on available locations.

In the department store competition, RAB plans to co-finance a study of "radio item selling" in the winning store as well as direct the store's radio activities for a full year. The store will be selected in about a week from a list of 41 which are interested and qualified. The meeting was presided over by Allen Woodall, WDAK Columbus, Ga., board chairman.

Kansas convention

The Kansas Assn. of Radio Broadcasters held its ninth annual convention over the past weekend at the Lassen Hotel in Wichita, beginning Friday (May 22). Sen. Andrew F. Schoeppel (R-Kan.) was to address the Saturday luncheon and his talk to be carried on KFH Wichita. Other speakers: George Armstrong, vice president, Storz Stations; FCC Comr. Robert E. Lee; Clifford Barborka, vice president, Robert Walton, farm director, and Stuart Cochran, all of John Blair & Co., and Douglas Anello, NAB chief attorney.

Delegates heard discussed a proposed radio-tv-newspaper weather relay system for the state. Thomas P. Bashaw, KFH, and James Platt, KBTO El Dorado, planned the KARB convention.

From the ground up • groundbreaking ceremonies were held last Monday (May 18) for what is reported to be one of the tallest man-made structures in the world. On this site (see picture) on Brown Hill in Raymond, Me., WGAN-TV Portland is erecting its 1,619-foot tv tower. Clinton A. Clauson, governor of Maine, is shown marking the official start of construction. With him were: (l to r) Creighton E. Gatchell, vice president and general manager of Guy Gannett Broadcasting Services, licensee of the outlet; Mrs. Jean Gannett Williams, president of GGBS; Gov. Clauson, and Samuel G. Henderson, vice president in charge of tv, GGBS. The Kimco tower, designed, fabricated and to be erected by the Kline Iron & Steel Co., Columbia, S.C., will require 100 acres of land for the long guy wires. A new transmitter building will also be constructed.

RADIO PRESS

ANNOUNCES SECOND GROUP OF NEWS EXCHANGE AWARD WINNERS

Radio Press, Inc., takes pleasure in announcing the second group of winners in its mutual news exchange plan. Under this system, more than 3000 newsmen of U. S. Radio Stations have the opportunity to win cash awards for the best local stories of national significance submitted to Radio Press for re-distribution to its subscribers.

TOP COVERAGE AWARD, A Steelman "Transitape" Portable Tape Recorder, to Station WERE, Cleveland, Ohio. "For outstanding coverage of its midwest area, including St. Lawrence Seaway opening and local unemployment problems; and for the cooperation by reporter Bill Jorgenson with the Radio Press "Task Force" covering the East-West Foreign Ministers conferring in Geneva, Switzerland.

$100 CASH AWARD

To Art MacDonald of KREM, Spokane, Wash. "One of 3 newsmen permitted to talk with the desperate convicts in control of Montana State Prison, he reported the tense, danger-packed scene from within the prison walls as negotiations continued for release of 18 hostages."

$75 CASH AWARD

To Bill Harrington, WHDH, Boston, Mass. "For within-the-walls coverage of 59 mutinous convicts at Concord Reformatory in Massachusetts."

$50 CASH AWARD

To Bob Runyon, WKMH, Dearborn, Mich. "For his vivid reporting on the arrest of an escaped mental patient for the murder of a 5-year old son of deaf mute parents in Detroit."

SPECIAL $10 CASH AWARDS

Bill Crandall, WIBC, Indianapolis, Ind. "For his timely reporting of the conviction of Connie Nicholas."

Jim Fritts, KAGI, Anacortes, Wash. "For his gripping description of a U. S. Navy Plane Crash, nine killed."

Bob Jenkins, WEZL, Richmond, Va. "For his deadline reporting of a mystery shot fired at Virginia's Governor, J. Lindsey Almond."

Dale Moore, General Manager, KBMN, Bozeman, Mont. "For his actuality interview with the Montana National Guard Commander who led the final assault on Prisoners rioting in Montana State Prison at Deer Lodge, Mont."

Mike Stein, WAKR, Akron, Ohio. "For his consistently clear and timely reporting of a strike which disrupted the rubber industry."

RADIO PRESS, INC. also takes pleasure in announcing its move to enlarged and permanent quarters effective May 18th. The new Radio Press facilities include the most modern, up-to-date electronic equipment — making Radio Press a complete, self-contained communications center to better serve its clients. Address remains the same.

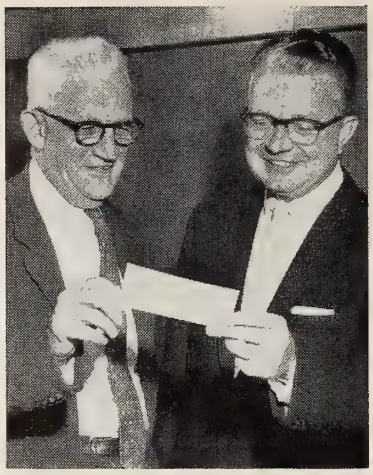
$5.6 million sale closed in Charlotte

Checks totaling $5.6 million were distributed to stockholders of WSOC Broadcasting Co. (including E. E. Jones, Hunter Marshall, R. S. Morris and others) week before last as the purchase of WSOC-AM-FM-TV Charlotte, N.C., by the James M. Cox Enterprises was officially closed (BROADCASTING, April 13).

Carolina Broadcasting Co., new owner of the Charlotte stations, will be headed by Cox radio-tv executive director J. Leonard Reinsch, it was announced. Mr. Reinsch disclosed, however, that Larry Walker, formerly president of WSOC Broadcasting, would remain in charge of WSOC-AM-FM-TV as executive vice president of the new firm. Other officers of the new company are Raymond Sadler, vice president, Robert Morris, treasurer and assistant secretary and Robert Snyder, secretary and assistant treasurer.



Other Cox stations include WHIO-AM-FM-TV Dayton, Ohio, WSB-AM-FM-TV Atlanta, Ga., and 42.5% of WCKT (TV) Miami, Fla. Newspapers in the Cox group are: *Atlanta Journal* and *Constitution, Miami Daily News, Dayton News and Journal Herald* and *Springfield* (Ohio) *News and Sun.*

Small stations oppose minimum wage hike

Increase of the minimum hourly wage to $1.25, as proposed in pending legislation (S 1046), was opposed at the May 13-15 meeting of Pennsylvania Assn. of Broadcasters, held at Bedford Springs.

A resolution approved by PAB explained that many small market broadcasters must conduct training programs for announcers, engineers, writers and others, many of whom never attain the skill or efficiency needed for permanent employment. PAB held training programs not to exceed six months be excluded from any increase in the minimum hourly wage.

Victor C. Diehm, WAZL Hazleton, Pa., chairman of the Mutual Affiliates Advisory Committee, explained in comment submitted to the Senate Labor Committee that many small stations must train local people for semi-skilled positions. Often, he said, from 10 to 25 people are tried out for one to three months, with only a small percentage being hired. In addition, many of those who work on small stations move to larger markets and larger stations.

Closing the deal • WSOC-AM-FM-TV Charlotte, N.C., officially becomes part of the James M. Cox interests as new president Reinsch (r) presents a $5.6 million dollar check to Mr. Jones, principal owner of the WSOC-AM-FM-TV selling group.

Editorializing favored in Wisconsin

Editorializing by broadcasters on local issues won support at the Wisconsin Broadcasters Assn.'s 30th annual spring meeting in Milwaukee last week.

Both H. V. Kaltenborn, pioneer commentator, and Gov. Gaylord Nelson of Wisconsin came out strongly for editorializing by radio and tv stations during the one-day meeting at the Plankinton Hotel May 19.

Mr. Kaltenborn asserted broadcasters should take stands similar to their newspaper counterparts on important community issues. He also scored the FCC's Lar Daly decision on newscasts and equal time provisions of political broadcasting, charging that Sec. 315 has become outdated. WBA adopted a resolution favoring editorializing.

Other speakers included Charles Tower, NAB manager of broadcast personnel and economics, and Mayor Frank P. Zeidler of Milwaukee. Mr. Kaltenborn spoke at the annual banquet, which this year honored the commentator and his wife.

WNHC-FM to QXR-FM

WNHC-FM New Haven-Hartford, Conn., is the key station in New England for the QXR-FM Network. The fm network is operated by Interstate Broadcasting Co. (WQXR), New York. WNHC-FM, a Triangle station, will originate programs for QXR-FM affiliates to be added in Massachusetts and Rhode Island.

Networks must control own content—Cowan

Networks must be the final judge in determining what programming they send out over the airways, CBS-TV Network President Louis G. Cowan told the Washington (D. C.) Advertising Club last week.

"I think broadcasters must take and keep the responsibility for the final determination of the best possible programs in the best possible sequence and with the best possible range, variety and choice—and then say to the advertiser this, we submit, is what we honestly think is best," Mr. Cowan said.

"If we think that our determination of the program schedule includes enough westerns, enough symphonies, we should stick to that and not permit an advertiser to insist on one more western or one more half hour of chamber music because that suits his particular purpose or whim." Mr. Cowan stressed that he was not talking about network financial interest or production of programs.

However, he said, "a network should be the judge of its own program schedule, subject of course to the great popular jury [the public], but solely on the basis of program content, not on the basis of who owns or produces the program."

The CBS head did not refer to any specific program or network critic. He did hit back at those who criticize the networks' alleged lack of creativity. All the arts, he pointed out, are struggling for creativity in this age.

Networks, stations, advertisers and agencies all must help advance creative programming ideas, Mr. Cowan told his audience. He said CBS has a large creative staff from which to draw and is offering five $5,000 grants-in-aid to promising young writers. "The failures are far more frequent than the successes," Mr. Cowan stated in citing the $500,000 CBS spent on *The Magnificent Montague*, which never reached network exposure. "The important thing is that we are reaching out for new writers."

Mr. Cowan spoke to the Ad Club in commemoration of "Television Day." Included in the audience were four members of the FCC.

Small market am rep

A new national station representative was formed last week specifically to handle sales and service problems in smaller market radio. The Gene Bolles Co., 510 Madison Ave., New York, announced that KPBA Pine Bluff, Ark., and WKKO Cape Canaveral, Fla., are its first clients.

Black holes inside the white show areas of heaviest precipitation. Hooked finger formation indicates tornado funnel.

LIVE WEATHERCASTING

with COLLINS Weather Radar

A Collins Weather Radar Station keeps you and your viewers "on top" of the weather. Severe weather areas can be spotted immediately and reported in the time it takes to flash a live picture on the screen.

- Collins Weather Radar — ready for immediate delivery.
- Easily installed by your personnel.
- Simplified operation — requires no technical experience.
- Proven maintenance-free operation.

Capture audiences in your market with live weather programming. Call or write your nearest Collins Broadcast representative, or Collins Radio Company, Broadcast Sales Division, Cedar Rapids, Iowa.

AB-PT NET UP 25%
Stockholders okay 'Firestone' jettison

Loss of the *Voice of Firestone* program for next season was responsible for vocal resentment among a segment of stockholders attending the 7th annual meeting of American Broadcasting-Paramount Theatres Inc., last Tuesday (May 19) in New York. However, less than 50% of the estimated 200 persons attending signaled their affirmation when a show of hands was called to see how many were against the program's departure.

Leonard H. Goldenson, AB-PT president, said it was with "deep regret" that an agreement could not be worked out for a time slot satisfactory to Firestone. The proposed offer of a later time was forced upon the network because of the "lack of sufficient audience appeal" during its 9 to 9:30 p.m. segment, he explained. Since other advertisers did not want to sponsor shows next to the Firestone program in its present time, it means that instead of ABC-TV reaching 3.5 million tv homes, it will reach an estimated 14 million tv homes, Mr. Goldenson commented.

In reporting on the company's business, Mr. Goldenson said first quarter net operating earnings rose 25% over the like period in 1958 (BROADCASTING, May 4). Re-elected at the meeting for another year were 12 directors of AB-PT. Joseph A. Martino and Alger B. Chapman were new directors elected to the board (see FATES & FORTUNES).

Tv Role Climbs • The broadcasting operation now represents the major source of AB-PT's income and future earnings, President Goldenson stated. To emphasize this fact, he called on Oliver Treyz, president of ABC-TV, to describe the growth of both the tv medium and that of ABC. New programs scheduled for the fall were also introduced to the group through colored slides, with comments by Mr. Treyz.

Briefly, Mr. Goldenson told of the company's expansion and remodeling plans in New York and Hollywood (BROADCASTING, May 4), that the company's five owned tv and radio stations have also continued to show improved results, and that the ABC Radio Network is continuing to improve its operation. It has been operating at a loss, he declared, as are the other radio networks, but "this loss has been reduced."

As for theatre business, Mr. Goldenson said it is currently running ahead of last year. The company will continue to dispose of losing theatre operations, he said. At least 100 more theatres will be divested from the company within the next few years, the group was told.

Miami Shines in Moscow • Ralph Renick, vice president in charge of news, WTVJ (TV) Miami, and a group of prominent Miami business and professional leaders met with Russia's Nikita Khrushchev on Wednesday (May 20) for a two-hour exclusive interview in the Kremlin. In this Associated Press Radiophoto from Moscow, Mr. Renick (at left, foreground) is seated next to the Soviet premier who clasps the hands of Frank Smathers Sr., father of Sen. George A. Smathers (D-Fla.). At the extreme right is Jose Ferre, a Miami industrialist. Others in the picture were not identified.

Mr. Renick, who also is president of the Radio-Television News Directors Assn., took notes during the interview with the Florida group he led. The Miamians accompanied Mr. Renick on a three-week European trip what started May 7 with stops at Paris, Copenhagen, Leningrad, Moscow, Budapest and East Berlin. The interview was claimed to be the first granted a group of American business and professional men and produced news carried in broadcasts and on front pages of newspapers throughout the world. Com-

Discs, Electronics, Tourists • AB-PT's phonograph record company, Am-Par Records, showed "excellent improvement" this past year over 1957, Mr. Goldenson said. In addition to a major interest acquired recently in a New York pressing plant, other acquisitions may be made to broaden Am-Par's operation, he disclosed.

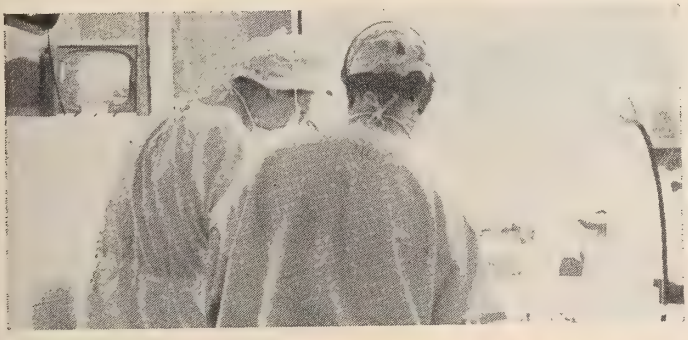
The three electronic companies in which AB-PT has a stock interest have continued to increase their sales, Mr. Goldenson reported. Products of these companies—Microwave Assoc., Technical Operations, and Dynametrics Corp.—were on display in the lobby of Studio TV-2, site of this year's annual meeting.

Greater diversification within the entertainment field was evidenced by Mr. Goldenson with the announcement of the purchase of Weeki-Wachee Spring, a 600-acre tourist center in Florida. Under the supervision of AB-PT's Florida State Theatres chain, Weeki-Wachee will be developed to create greater tourist interest, he added.

When asked why ABC-TV does not try to keep more of its business "within the family," Mr. Goldenson said "you should find creative work wherever it can be found. . . ."

Rumblings in strike aftermath at NABET

As an aftermath of the settlement of work stoppage at NBC by the National Assn. of Broadcast Employes & Technicians, certain factions within NABET last week were reported to be displeased with the conduct of the 19-day walkout and urging an investigation by the union's headquarters.



The agreement, ratified by members on May 15, (AT DEADLINE, May 18), granted NBC several concessions beyond those that touched off the dispute —jurisdiction of taped programs produced abroad. There were reports that the NABET local in Hollywood had passed a resolution criticizing G. Tyler Byrne, union executive vice president in charge of network relations, for his strategy during the work stoppage and recommending disciplinary action.

A spokesman for Mr. Byrne said he would have "no comment" on any development connected with the work stoppage.

The Ones That SERVE Are The Ones That SELL

In DES MOINES... KRNT RADIO and TV

In this area, most people have learned through years of experience that KRNT and KRNT-TV stand above all others in service to the public, day in and day out. Most people turn to these stations for help and information. During Iowa's blizzard of March 5 and 6, worst in the past decade, more Des Moines people chosen at random in an impartial survey of 500 telephone calls made March 6 said they listened for the greatest part of the time to KRNT TOTAL RADIO for storm news and information than all other stations combined!

Another outstanding example of public service occurred when KRNT-TV, in cooperation with the local Medical Society, planned and televised coverage of a "miracle" heart operation. Television made it possible for all Central Iowa doctors to benefit from viewing a new "mechanical heart" in actual operation.

Still another public service "tie-in" was with Goodwill Industries of Des Moines. A completely isolated appeal for neckties for re-sale by Goodwill Industries resulted in a landslide of ties to KRNT-TV's dominant emcee personality.

No wonder most people listen to, believe in and depend upon KRNT and KRNT-TV . . . selling Iowa because they're serving Iowa. In 1958, KRNT-TV presented 5,620 public service announcements; KRNT RADIO presented 5,628.

BLAIR EXPANSION

Rep merges radio arms to help sales, buyers

Formation of a creative and marketing services division to boost the sale of radio time and help buyers to get more out of it was announced last week by John Blair, president of John Blair & Co., station representative.

Clifford J. Barborka Jr., vice president and manager of the Blair midwest office, will move from Chicago to New York to head the new unit, effective July 1. The division will be formed through a consolidation of the company's creative, sales development, and marketing research activities, with "substantial enlargement" of personnel. Its first year's budget is expected to run to $200,000.

MR. HARRISON

MR. BARBORKA

The new creative and marketing services division vice president has been with the Blair organization since 1952, following service with NBC Spot Sales and, before that, the Pepsodent Div. of Lever Bros., where he had charge of field tests of merchandising plans.

Harrison Named • Mr. Barborka will be succeeded as head of the midwest office by Thomas C. Harrison, who has been elected a vice president. He has been a sales executive in the Blair New York office since early this year, and formerly was with the company from 1954 to 1957, when he resigned as head of the St. Louis office to become a vice president of ABC.

Mr. Harrison will be replaced in New York by Albert C. Long, who joined Blair in 1955 and has been head of the sales development department for the past two years.

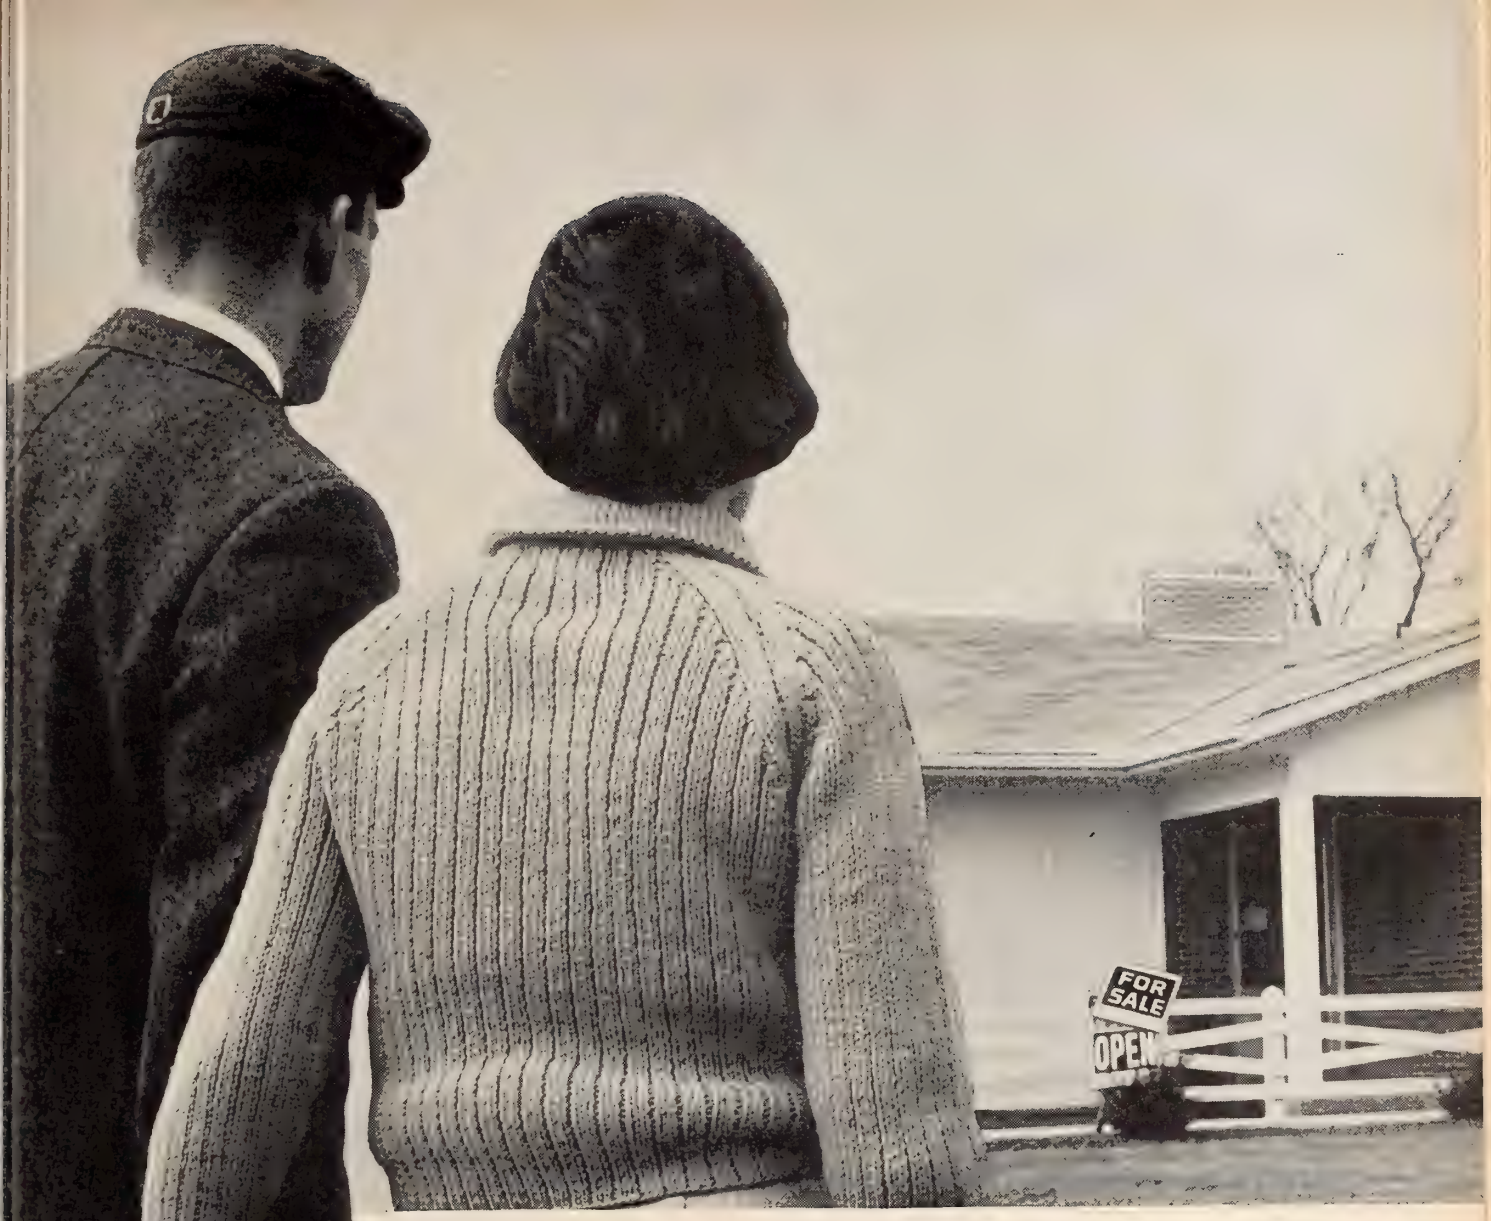
Esther Rauch of the Chicago staff will move to New York as assistant to Mr. Barborka. She joined the company in 1957 as midwest sales development manager. Before that she was with the Leo Burnett Co., Chicago, and with KSTP St. Paul, WMT Cedar Rapids, and CBS in Chicago.

In announcing formation of the new division, Mr. Blair said that "in the media field today, creative selling is of paramount importance." And Mr. Barborka, he continued, has switched large appropriations from other media to spot radio, through creative selling.

In his new post Mr. Barborka will have available the assistance of an expanded radio research staff, Mr. Blair reported. He said Robert Galen, formerly research director of ABC films, had joined as radio research specialist, and that Mr. Galen would be aided by Frances Sweat, formerly of Rorabough Reports Inc. The research department is headed by Vice President Ward Dorrell.

ABC affiliates meet

ABC's special affiliates committee which defended network practices before the FCC in Barrow Report hearings last year met Thursday and Friday (May 21, 22) in Washington to work up a statement on the FCC proposals to revise option time rules (BROADCASTING, April 27). The group agreed to circularize all ABC affiliates to get a consensus on various elements of the Commission proposal, but agreed that attack will be centered on a suggested cut in option time from three hours per segment to 2½ hours.



The committee is headed by Alex Keese, WFAA-TV Dallas, and comprises J.J. Bernard, KTVI (TV) St. Louis, Thomas P. Shelburne, WNEP-TV Scranton-Wilkes-Barre, Philip P. Allen, WLVA-TV Lynchburg (Va), Fred Houwink, WMAL-TV Washington. Roger Clipp, WFIL-TV Philadelphia, Willard E. Walbridge, KTRK-TV Houston, and Donald D. Davis, KMBC-TV Kansas City. Attorney is Morton H. Wilner, Washington.

Changing hands

ANNOUNCED • *The following sales of station interests were announced last week, subject to FCC approval:*

• WOV New York, N.Y.: Sold by Morris S. Novik and associates to Bartell Broadcasters Inc. for $1.5 million with $450,000 down payment and remainder to be paid over 4½ years. Bartell stations include WOKY Milwaukee, WAKE Atlanta, KCBQ San Diego, KYA San Francisco, WYDE Birmingham.

Present programming policies of 33-year-old New York outlet (specializing in Italian language and Negro programming) will be maintained, announcement said. Station maintains studio in Rome. Melvin Bartell, who studied opera in Italy before joining his brothers in radio, will become WOV president-general manager. Ralph N. Weil, present executive vice president and general manager of station, will become Bartell vice president in charge of national sales for whole Bar-

This is the kind of hold our station has on people...

That's the miracle of our country's heartland out this way. Roots go deeper. More people own homes (68% against a national 55%). They live in them, proudly and permanently, as their children buy, and furnish, more! Men here are highly skilled in many fields—richly rewarded. In our area, alone, 3⅓ billion dollars are expended annually on living. Pleasantly.

Our station—locally owned, staffed and programmed—is almost compulsively attuned to our viewers' TV desires. Lots of public service—news—and sports. Low-key voicing. No double talk or triple spots.

We "hold," because we believe in it, to our audiences' desires. And in return, they "hold" to us. And on us, every worthy product looks better, acts better.

Some of these statements sound like rankest advertisingese.

George P. Hollingbery can back up every one with figures—with market figures, of every kind, and with amazing Pulse ratings. Or would you rather believe in human nature?

tell group. Arnold Hartley remains as WOV vice president in charge of programming and operations.

WOV operates on 1280 kc with 5 kw, directional, shares time with WHBI Newark, N.J. The Newark station operates for the full day on Sundays only. Mr. Novik owns 50% of WOV, with Mrs. Weil, 26% and Mrs. Hartley, 24%.

• KVI Seattle, Wash.: Sold to Gene Autry group by Vernice Irwin and family for $770,000 (CLOSED CIRCUIT, May 18). Other Autry stations are KOOL-AM-TV Phoenix, KOLD-AM-TV Tucson, KMPC Los Angeles and KSFO San Francisco. The sale was handled by Howard Stark. KVI is on 570 kc with 5 kw and is affiliated with MBS.

• KBLR-AM-TV Goodland, Kan.: Sold to group headed by Leslie E. Whittemore by James E. Blair for total of $145,000 plus assumption of approximately $400,000 in liabilites. KBLR-TV is on ch. 10. KBLR is on 730 kc with 1 kw, day, and is affiliated with MBS.

• KBVM Lancaster, Calif.: Sold to Tri-County Broadcasters Inc. for $100,000 by Brocaw Broadcasting Co. (Harold J. Brown, president and general manager). Tri-County principals: George Patton, advertising, Roy N. Hinkel, NBC-TV producer, Don Lewis, advertising, Don Parks, time salesman. The sale was handled by Wilt Gunzendorfer & Assoc. KBVM is on 1380 kc with 1 kw directional.

• KACY Port Hueneme, Calif.: Sold to Lincoln Dellar, station broker, for $100,000 by Coast Broadcasters (Don C. Reeves, Judd Sturtevant and J. Claude Warren). KACY is on 1520 kc with 250 w. directional.

• WCNH Quincy, Fla.: Sold to William S. Dodson, former program manager for WTTG (TV) Washington, D.C., and presently account executive for a D.C. ad agency, by A. B. Letson for $90,000. The sale was handled by Blackburn & Co. WCNH is on 1230 kc with 250 w. and is affiliated wth MBS.

• WYSR Franklin, Va.: Sold to newspaper and radio representative Thomas F. Clark by S. L. Goodman for $80,000. The sale was handled by Blackburn & Co. WYSR is on 1250 kc with 1 kw, day.

• WCAT Orange, Mass.: Sold to William R. Sweeney by James W. Miller and associates for $65,000. Mr. Sweeney owns WBNC Conway, N.H., and WERI Westerly, R.I. The sale was handled by Haskell Bloomberg. WCAT is on 1390 kc with 1 kw, day.

APPROVED • *The following transfers of station interests were approved by the FCC last week (for other Commission activities see* FOR THE RECORD, *page 102).*

• WSAI-AM-FM Cincinnati, Ohio: Sold to Consolidated Sun Ray Inc. (WPEN-AM-FM Philadelphia, Pa., and WALT Tampa, Fla.) by Sherwood R. Gordon for $1.9 million. Comr. Robert Bartley dissented on the multiple ownership issue. WSAI is on 1360 kc with 5 kw directional. WSAI-FM is on 102.7 mc with 14.7 kw.

• WPIC-AM-FM Sharon, Pa.: Sold to Sharon Broadcasting Co. (William H. Rich, president, and two other stockholders have interests in WMGW Meadville, Pa.) by A.W. McDowell and others for $510,000, including agreement not to compete for a period of 10 years within a radius of 150 miles of Sharon. WPIC is on 790 kc with 1 kw, day. WPIC-FM is on 102.9 mc with 26 kw.

• WERC-AM-FM Erie, Pa.: Sold to Cleveland Broadcasting Inc. (Ray T. Miller Jr., president) by WERC Broadcasting Corp. (Joseph L. Brechner, president) for $270,000. Cleveland Broadcasting owns WERE-AM-FM-TV Cleveland, Ohio. WERC is on 1260 kc with 5 kw, directional, and is affiliated with ABC. WERC-FM is on 99.9 mc with 9.7 kw.

• WWSC Glens Falls, N.Y.: Sold to Normandy Broadcasting Corp. (John B. Lynch) by Great Northern Radio Inc. (Martin Karig, president) for $212,000, including $14,000 for 7 years consultant agreement and $56,000 for agreement not to compete in Glens Falls area for 7 years. WWSC is on 1450 kc with 250 w and is affiliated with ABC.

• WRVM Rochester, N.Y.: Sold to State Broadcasting Co. (Frank W. Miller Jr., president) by Harry Trenner for $210,000. WRVM is on 680 kc with 250 w, day.

• KPAM, KPFM (FM) Portland, Ore.: Sold to Gospel Broadcasting Co. (F. Demcy Mylar, president, is 50% owner of KRWC Forest Grove, Ore.) by Stanley M. Goard and others for $200,000. Comr. Robert Bartley dissented on the overlap issue. KPAM is on 1410 kc with 1 kw, day. KPFM (FM) is on 97.1 mc with 33 kw.

• Media reports

• Television Bureau of Advertising, N.Y., reports the signing of the following new members: NBC Spot Sales; WVUE (TV) New Orleans; WTVD

BASEBALL EYES TV 'Fruitful' session bears little fruit

Baseball Commissioner Ford C. Frick announced last Thursday (May 21) that the major-minor league Committee on Radio & Television had held a "fruitful session" but a report on its findings and recommendations would not be released until July 7 when the All-Star Game will be played.

Among the possible courses of action reported to have been explored by the committee during meetings in Columbus last Tuesday and Wednesday were: the abandonment of the Saturday and Sunday *Game of the Day* network telecasts and a substitution of a Monday night network telecast (minor league clubs would make all Mondays open dates), plus an arrangement whereby 50% of all tv revenue derived by the majors from games telecast into minor league territories would be allocated to minor leagues.

Mr. Frick indicated during the meetings that the question of broadcasts into minor league territories would not be solved at that time. He added:

Game Delayed • "I can only say that we had a very satisfactory meeting. Progress has been made toward solution of our common problem, but no decision will be made at this time.

Commissioner Frick made no mention of the unrestricted tv plan advocated last Monday (May 18) by C. Leo De Orsey, former director of the Washington Senators.

A frequent critic of baseball's operations in the past, Mr. De Orsey proposed complete freedom of tv coverage across the U.S. with the proceeds being divided three ways. One third would go to the minor leagues clubs, one third to the minor league pension fund and the final third to be divided equally among the major league teams.

Mr. De Orsey said that failure to solve the tv problem has brought organized base ball to the brink of its "greatest disaster."

"Common sense," he proclaimed "must now replace greed and insincerity."

D.j.'s honored

Miami Mayor Robert King High has proclaimed this week, May 24-31, as "Disc Jockey Week in Miami" to coincide with the second annual International Radio Programming Seminar and Pop Music Disc Jockey Convention May 29-31 at the Hotel Americana, Miami Beach. The proclamation noted "the disc jockeys of our nation have played an important part in enriching the American way of life by making it possible for us to enjoy the best in popular music through the medium of radio." The mayor also cited how "the disc jockeys of America have given unselfishly of their time and talent in the advancement of the welfare of our nation through their work for many projects of a charitable and patriotic nature." Added to the list of guest speakers for the convention (BROADCASTING, May 18, page 60) is Tennessee Gov. Frank Clement, who will address the Saturday night banquet.

LEGAL ACTION? Film men dislike tv-taped commercials

The Film Producers Assn. of New York is exploring with various government agencies the possibility of legal action against the television networks over their activities in the video-tape commercial field.

FPA's plan was revealed last Tuesday (May 19) at the Association's first Industry Achievement Awards Dinner in New York. FPA awarded plaques to nine individuals for contributions to the film industry in New York.

Nathan Zucker, president of FPA, disclosed that a group from the association and from the International Alliance of Theatrical Stage Employes had conferred recently in Washington with the Senate Small Business Committee with a view towards ascertaining "the avenues which are open to FPA for legal action." Though Mr. Zucker did not deal with specific complaints FPA has, it is known that association members who produce tape commercials feel the networks have "an undue advantage" over them in that networks may offer a "package deal" to an advertiser, including program and tape commercials, at a price independent producers cannot match. Mr. Zucker made this reference to network practices:

Cities 'Network Control' • "The networks, through affiliates and associations, today control more than 80 percent of the nation's tv markets. They have moved from control of time to control of talent, to control of programming and now to control of production . . . We are not going to stop networks from going into production, either on video-tape or film, but we are going to keep them honest."

Mr. Zucker said that after conferences with the Senate committee, it was agreed that the association would file briefs and review the situation again with the committee. He told the dinner meeting that FPA's counsel believes that "a full body of laws and regulations already exists to meet the situation and the matter will be pursued in conjunction with the ICC, the FCC and the anti-trust division of the Justice Dept."

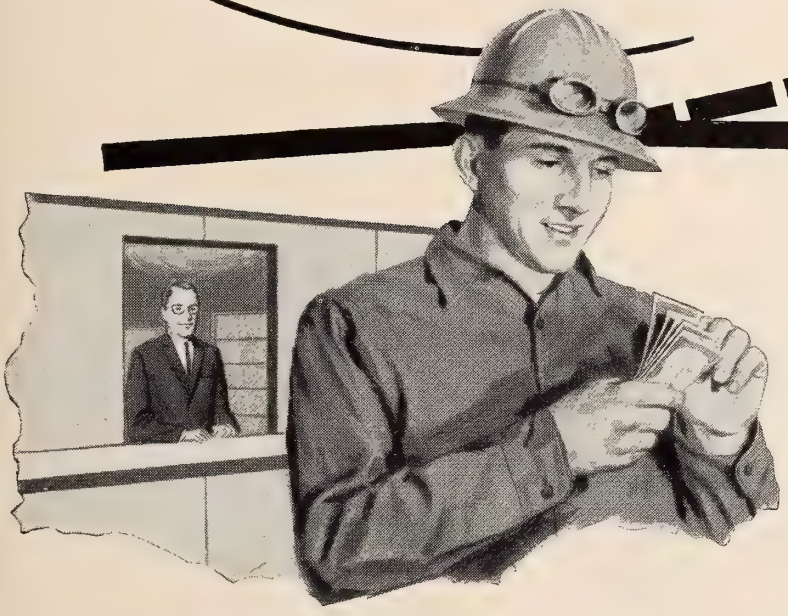
IATSE has agreed to share a portion of the legal expense. The union has an interest since its members hold jurisdiction as technicians over tape work at film studios but not at networks.

Plaques were presented to Mayor Robert E. Wagner of New York; Paddy Chayefsky and Nat Hiken, writers; Elia Kazan and George Justin, producers; Walter Lowendahl, consultant to Transfilms Inc., New York; Martin Poll, president of Gold Medal Studios, New York; Hazard Reeves, president of Reeves Sound Studios Inc., New York, and Mr. Zucker, who also is president of Dynamic Films, New York.

Skiatron 'definitely' will tape Bolshoi

Telecasting plans for four one-hour tapes of the Bolshoi Ballet by Skiatron of America, New York, were still a deep secret last week. But Matthew Fox, president of Skiatron, said, "we definitely will tape the programs."

Mr. Fox declined to offer any information on the method he would employ to exhibit the programs. Asked if negotiations now are in progress with networks and stations, Mr. Fox replied: "No, I'm just thinking."



Mr. Fox confirmed he would tape the four programs at Paramount Television Production's studio used by KTLA-TV Los Angeles on June 1-2, but would not reveal production costs. There are reports the four tapes would run to about $750,000. Mr. Fox obtained tv rights to the ballet from impresario Sol Hurok.

Several station operators in New York revealed they had been approached by Mr. Fox on his plan to offer the programs on this basis: the stations would make a guarantee, carry the programs and ask viewers to send in $1, "a back-door approach" to pay tv (BROADCASTING, May 11). These station officials said they had rejected the proposal and had not even discussed the guarantee with Mr. Fox. One operator said that even for New York, he did not

288%

INCREASE

in steelworkers' wages and benefits in 18 years

30% increase in shipments per man-hour worked

Steelworkers' wages and employment benefits paid for by their employers have increased 288 percent in the last 18 years.

Earnings of the men who make steel are at the top level for all industry.

Also those steelworkers' earnings have increased *faster* than the average workers'.

But shipments of finished steel products per man-hour worked have not increased at any such pace—even with the help of billions of dollars worth of improved equipment and processes installed by the steel companies. In the last 18 years steel shipments per man-hour worked have gone up only 30 percent.

Unfortunately this tremendous and growing gap between shipments and wages is *inflation.*

The big job for everybody is to help close the gap, not widen it. Until that is done nobody can win the fight against inflation.

This message is being brought to you by

REPUBLIC STEEL

because

INFLATION ROBS US ALL

REPUBLIC STEEL makes the world's widest range of standard steels and steel products. This diversity of products is so great it touches every industry and every person. Republic is a major supplier of pig iron for foundries; of alloy bars for the forging industry, of sheet and strip steels for the appliance, automobile, air conditioning, and heating industries. Republic also manufactures a wide range of products bought directly by the public: bolts, nuts, and nails; woven wire fence and barbed wire; windows, doors, and other building materials for houses and non-residential construction. Republic's management operates a continuous program to produce better steels and develop better products from steel.

ATAS election • New officers elected by board of governors of Academy of Television Arts & Sciences' New York chapter Wednesday (May 20) night gather about new ATAS President Walter Cronkite, CBS newsman and program host. From left, they are Royal E. Blakeman, secretary (with Marshall, Bratter, Greene, Allison and Tucker law firm in New York that represents tv producers and performers); Hubbell Robinson Jr., first vice president (CBS-TV vice president in charge of programming); Mr. Cronkite, who succeeds NBC-TV Vice President Robert Lewine as ATAS president; Henry S. White, second vice president (Screen Gems' director of programs), and Thomas W. Moore, treasurer (ABC-TV vice president in charge of programming).

consider the Bolshoi Ballet of "sufficient mass appeal" to justify a sizable investment by a station. He added that in his opinion, the logical exhibition method for a ballet program is via closed-circuit to theatres where an audience of devotees in principal cities might be willing to pay premium prices for the performances. Earlier this month Mr. Fox was unsuccessful in lining up a theater chain for a closed-circuit telecast of the ballet, it was reported.

KTLA (TV) Los Angeles is putting more than $50,000 into fixing up stage 6, making it the "largest tv sound stage in the country," KTLA says, in preparation for taping the ballet June 2-3, and has hired 35 men to augment others for a crew of 60 for the job. A network-size control room is being built and equipped on stage and KTLA has added five image orthicon and two vidicon cameras.

To carry the more than 450 lights, 4,000 feet of pipe has been rigged and 15 light control men hired. A separate communication link is being installed for lighting men. Two cycloramas, 30 by 178 feet, have been purchased to serve as backdrops for the dancers who will alternate between two areas totaling more than 11,000 sq. ft. of dance floor. Stage 5 has been converted for a 90-piece orchestra whose conductor will watch the dancers on two stationary vidicon cameras and closed circuit monitors. Audio recording, in stereophonic sound, will be handled by an outside contractor.

AFM, MGA to hold election next month

Hollywood musicians employed at the major motion picture studios early next month will again have an opportunity to make a choice between the American Federation of Musicians and the Musicians Guild of America.

About a year ago, MGA defeated AFM in an NLRB election and won the right to act as bargaining agent for musicians employed by the major motion picture companies (BROADCASTING, July 14, 1958). In a contract negotiated by MGA with these producers is a clause which requires musicians to join MGA and pay dues to this union within 30 days of being hired by one of these studios. On petition by AFM, the NLRB regional office in Los Angeles has called an election for June 3-4 to withdraw from MGA the right to maintain the union shop security provisions in its agreements. Eligible to vote are all musicians who worked at least two calls at the major studios between July 21, 1957, and May 2, 1959 (about 600, according to an AFM spokesman).

MGA protests that the action is one which could be used as a precedent to attack and destroy union shop security provisison of all unions whose members are engaged in part-time casual employment like that of the musicians employed for motion picture work. The union declares that "the de-authorization election is not a choice between AFM and MGA. The musicians are being asked to choose between the guild or no union at all to represent them and enforce their contract in the studios . . . elimination of the guild's union-shop will weaken and destroy its financial support and make it almost impossible for the guild to properly represent musicians and enforce the provisions of their contract . . . thus, if the federation is successful, it will destroy, not replace the guild. . . ."

MGA is urging musicians to defeat "this anti-labor device of the AFM simply by boycotting the election and staying away."

Taped Irish games to be seen nationally

Fans of the "Fightin' Irish" will see all 10 of the 1959 Notre Dame U. football games this fall on a "national network." The games will be tv-taped for delayed broadcast to meet NCAA restrictions and probably will be carried prior to the Sunday afternoon telecasts of the National Football League, according to M.S. Greenman, president of Newspix Inc., New York, producer.

The telecasts, which will originate from the university owned station, WNDU-TV South Bend, Ind., will be distributed by Sports Network Inc. A minimum 115 stations are expected to carry the games which will feature play-by-play announcer Harry Wismer and Edward (Moose) Krause, Notre Dame athletic director.

NCAA rules governing college football telecasts require that games other than those NCAA sanctioned on the "Game of the Week" schedule not be telecast until 11 p.m. the night of the contest. It is because of this rule that the games will be on tv-tape.

Four-opera season announced by NBC-TV

The NBC Opera Co. during the 1959-60 season will present four productions in English and in color on NBC-TV, it was announced Tuesday (May 19) by Samuel Chotzinoff, producer. Starting with a two-hour presentation of Beethoven's "Fidelio" in November, the series will continue with the annual production of "Amahl and the Night Visitors" in December. Scheduled for February is Mascagni's "Cavalleria Rusticana."

NBC has commissioned poets W. H. Auden and Chester Kallman to prepare an English translation of Mozart's "Don Giovanni" for a two-and-one-half hour colorcast in April. Mr. Chotzinoff said that these upcoming performances bring to 54 the number of operas the company will have produced since it was formed in 1949.

The cost of presenting an NBC-TV

opera, Mr. Chotzinoff estimated, is $150,000 for one performance. It costs almost that much for a repeat presentation, he said. Mr. Chotzinoff registered his approval for westerns on television because, he said, "westerns help pay for tv opera."

Small details stymie NBC-TV, UA-TV plans

For United Artists Television and NBC-TV last week it was a climate "as at Geneva," as negotiations continued on a new anthology series to be produced under UA-TV auspices using the same producers as its parent, United Artists Corp. (BROADCASTING, May 18).

As of May 21 no agreement was reported. One official compared the dickering over details to the give-and-take at talks in progress among the major powers at Geneva.

NBC-TV has offered UA-TV a plan for placing the film company's prospective anthology on the network in the next fall season asking for a commitment of 13 programs with options for 26 more. UA-TV prefers a contract that would call for a 26 program series at one crack.

Another point that is delicate to work out: financial details with NBC-TV sharing in ownership of the series along with UA-TV and the producers themselves.

Live tv for Olympics on ABC-TV in February

ABC-TV next February will provide network television coverage of the first Olympic games held in the U.S. since 1932. The network last week acquired exclusive rights to broadcast the 1960 Olympic winter games from Squaw Valley, Calif., Feb. 18 through 28, according to Thomas W. Moore, ABC-TV vice president in charge of programming.

Though plans are incomplete, ABC-TV reports it will give live and tape coverage of each of the 11 days of the games. More than 1,000 athletes from 34 nations will compete in various skating and skiing events. Special Olympic pageantry, which will be staged by Walt Disney, also will be televised, Mr. Moore said.

PTA to rate tv shows

The National Congress of Parents & Teachers will publish ratings of tv shows for family viewing in its monthly organ starting next fall. Eva Grant, editor of the PTA magazine, told a news conference at the congress' 63rd annual meeting that the ratings are prompted by the tv industry's "failure to reduce the num-

ber of shows depicting brutality and violence." She said that "this doesn't mean . . . that the National Congress is going to set itself up as a . . . censor. The judgments will be reached by a group of experienced parent-teacher people who know something about tv and children."

• Program notes

• In reportedly the first instance in which a network has bought a western film series for a daytime strip, ABC-TV last week said it has acquired *Restless Gun,* starring John Payne, for its daytime schedule next fall. The series, produced by Revue Productions, Hollywood, is in its second season of evening telecasts on NBC-TV (Mon. 8-8:30 p.m.).

• Jayark Films Corp., New York, has slated for fall release two new tv series, *Trapped* and *Birthright,* currently being filmed at Republic Pictures, Hollywood, according to Reub Kaufman, Jayark president. *Trapped* will consist of mystery-suspense situations, with a different set of stars in each half-hour story, it was reported. *Birthright* dramatizes case histories from the files of the Los Angeles Bureau of Adoptions and other child welfare groups. Duke Goldstone is executive producer of both production units, Mr. Kaufman said. Jayark's initial syndication entry, *Bozo the Clown,* reportedly has been sold in 85 markets, including recent sales to WSLS-TV Roanoke, WTVR (TV) Richmond, KFRE-TV Fresno, Calif., WHYN-TV Springfield, Mass., WCKT (TV) Miami, WSB-TV Atlanta and KARD-TV Wichita.

• Replacing *The Steve Allen Show* this summer on NBC-TV (Sun. 7:30-8:30 p.m.) will be *Suspicion,* a filmed series of 13 one-hour dramas originally seen during the 1957-58 season on the network, it was reported last week. Actor Walter Abel has been named to serve as live host of *Suspicion,* which starts June 14. No sponsor has as yet been signed, according to NBC-TV.

• Screen Gems, N.Y., reports the sale of 130 feature films to the Triangle Stations (WFIL - TV Philadelphia, WFBG-TV Altoona and WLBR-TV Lebanon, all Pennsylvania; WNBF-TV Binghamton, N.Y.; WNHC-TV New Haven, Conn., and KFRE-TV Fresno, Calif.).

• Independent Television Corp., has moved its temporary production offices from California Studios to an entire floor of the Jack Wrather Organization building at 270 N. Canon Drive, Beverly Hills, where Ted Rogers, ITC's director of programs and production—who will head up the operation, will headquarter. Production is staffed to handle film, video-tape and live programming, ITC reports.

• ABC-TV's *Polka-Go-Round,* originally scheduled for a half-hour this summer, has been shifted to the one-hour class (Mon. 7:30-8:30 p.m.). The series, which will emanate from ABC's WBKB (TV) Chicago, begins June 1.

• International Transmissions Inc., N.Y,. voiced news service, on June 1 will be in operation from new quarters at 2 W. 46th St., it was announced last week by Sumner J. Glimcher, president. The company has been located at 480 Lexington Ave. ITI's new telephone number will be Columbus 5-2400. New subscribers signed last week were KTHS Little Rock and KWKH Shreveport.

• General Film Labs Corp., (film processing), Hollywood, Calif., has opened a Kansas City office at 106 W. 14th St. Neal Keehn, formerly of Calvin Co. (film production), Kansas City is in charge of the new operation.

• WLWI (TV) Cincinnati inaugurates its color facilities next week for the Memorial Day Indianapolis '500' racing car event. Nine WLWI cameramen at the Indianapolis track will give their color footage to motorcyclists for delivery at WLWI. About 5,000 ft. of color film of the race will be processed, edited to about 1,000 ft. and telecast in less than six hours. (Live telecasts are not permitted.)

COLORCASTING

Here are the next 10 days of network color shows (all times are EST).

NBC-TV

May 25-29, June 1-3 (2:30-3 p.m.) **Haggis Baggis,** participating sponsors.

May 25-29, June 1-3 (4-4:30 p.m.) **Truth Or Consequences,** participating sponsors.

May 25, June 1 (10-10:30 p.m.) **Arthur Murray Party,** P. Lorillard through Lennen & Newell.

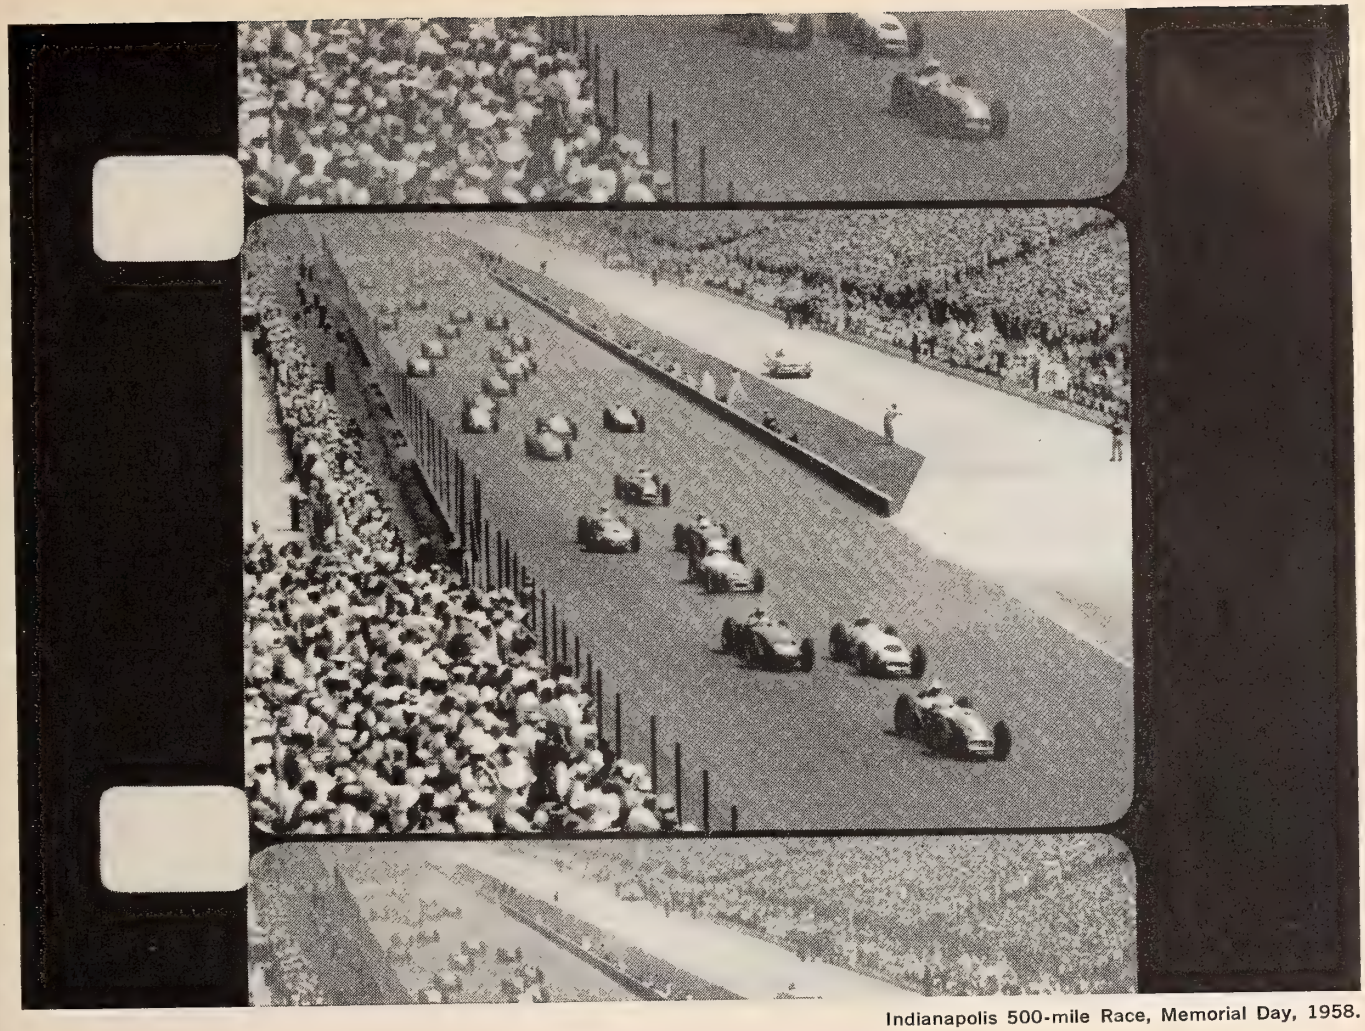
May 26, June 2 (8:30-9 p.m.) **Jimmie Rodgers Show,** Liggett & Myers through McCann-Erickson.

May 27, June 3 (8:30-9 p.m.) **Price Is Right,** Speidel through Norman, Craig & Kummel and Lever through J. Walter Thompson.

May 27, June 3 (9-9:30 p.m.) **Kraft Music Hall, Starring Dave King,** Kraft through J. Walter Thompson.

May 28 (9:30-10 p.m.) **Ford Show,** Ford through J. Walter Thompson.

May 28 (10:30-11 p.m.) **Masquerade Party,** P. Lorillard through Lennen & Newell.



May 29 (7:30-8 p.m.) **Northwest Passage,** sustaining.

May 29 (8-9 p.m.) **Ellery Queen.** Gulf through Young & Rubicam.

May 30 (8-9 p.m.) **Perry Como Show,** participating sponsors.

May 31 (7:30-8:30 p.m.) **Steve Allen Show,** sustaining.

May 31 (9-10 p.m.) **Dinah Shore Chevy Show,** Chevrolet through Campbell-Ewald.

Indianapolis 500-mile Race, Memorial Day, 1958.

"FOR SPEED AND LATITUDE, THE WINNER IS 931"

That's what Steve Pefley, Chief Photographer at WISH-TV, in Indianapolis, Indiana, says about Du Pont Rapid Reversal Film.

"Film, camera technique and editing are a winning team only when top quality exists all down the line," says Mr. Pefley. "Du Pont 931 is an important member of our team. There's no question about its quality. When the chips are down and we have to depend on speed and latitude to pull us through, we can always count on 931."

Fast processing, too, is a must in local news coverage. Using Du Pont Rapid Reversal Film, WISH-TV is able to shoot news footage as little as 45 minutes before show time, and go on the air with the finished newsreel. "All in all," concludes Mr. Pefley, "we couldn't ask for better film than this Du Pont product."

For more information about this fine 16mm film for every TV use, write Du Pont, 2432A Nemours Building, Wilmington 98, Delaware. In Canada: Du Pont of Canada Limited, Toronto.

Channel 7
REDDING, CALIFORNIA

KVIP-TV is located in Redding, California, and along with sister station KVIQ-TV in Eureka, serves television fare for NBC and ABC to the Northern portion of California.

With transmitter located on mile-high Shasta Bally Mountain, the station's facilities penetrate large areas of mountain population that enjoy no other television service . . . as well as the rich Sacramento Valley.

Lynn Olsen, Studio Engineering Supervisor

George C. Fleharty, President and General Manager KVIP-TV, Redding

A recent report from KVIP-TV, advises two extremely valuable cogs in the KVIP team are Lynn Olsen, Studio Engineering Supervisor, and Richard Bertolin, Film Director. Both men came to the station in its early days of telecasting from Northwest Schools and have continued to develop their aptitudes and positions to the present date. "Needless to state, we are more than satisfied with the performance of your two graduates", is the pleased comment of KVIP President, George Fleharty.

Richard Bertolin, Film Director

DAVE PFAFF, WNOG Naples, CRAWFORD RICE, WTVT (TV) Tampa, ED GRANT, WPDQ Jacksonville, DON MILLER, WDAE Tampa, FRANK BLACK, WJXT and Mr. Bayer, all directors.

• HAROLD SALZMAN, news director of WLS Chicago, re-elected president of Illinois News Broadcasters Assn. to serve remaining eight months of 1959, as INBA reverts to calendar year for officers. Others: JOHN RHODES, WRRR Rockford, vp; FRAZIER WRIGHT, WCIA (TV) Champaign, treasurer; DONALD BROWN, U. of Illinois, executive secretary. Directors: FRAN BOOTON, WLBK DeKalb; GEORGE MARTIN, WTHI-TV Terre Haute (Ind.); BILL SPANGLER, WFRX West Frankfort, and RALPH SMITH, WIRL Peoria.

• DEAN NAVEN, KMA Shenandoah, elected president of Iowa Radio & Television News Directors Assn., succeeding DICK PETRIK, KOEL Oelwein. FRANK MANGOLD, KWPC Muscatine, elected vp, and ART BARNES, U. of Iowa, re-elected secretary-treasurer. Directors: WALLY BISHOP, KXEL Waterloo; ROBERT FRANK, WOC Davenport, and Mr. Petrik.

• MIMI HOFFMEIR, manager of program analysis of NBC, elected president, New York Chapter of American Women in Radio & Television, for 1959-60 season. She succeeds LUCILE MASON, casting director, Compton Adv.

• THOMAS MARSHALL WEAVER, formerly sales manager of *Adult* magazine, Dallas, joins KRGV-AM-TV Weslaco, Tex., as administrative assistant.

• ROBERT W. BLOCK, formerly manager of Los Angeles office of AM Radio Sales Co., to KSFO San Francisco sales staff.

• CHARLES BOHN, newsreel photographer of KMOX-TV St. Louis, elected president of National Press Photographers Assn.'s St. Louis chapter.

• JOSEPH LUTZKE transfers from NBC Radio Spot Sales, Chicago, to sales staff of WNBZ (TV), that city. ROBERT E. MCAULIFFE, formerly of WBKW-TV Buffalo, N.Y., to WNBQ sales staff.

• MIKE WEIDE, air personality of KOMO Seattle, named account executive. DOROTHY SORTOR, formerly publicity director of Seattle-King County March of Dimes, joins KOMO-AM-TV as public relations assistant.

• CHUCK OLSON, formerly sales promotion manager of WREX-TV Rockford, Ill., to WITI-TV Milwaukee, Wis., in similar capacity. JACK LIGHTNER promoted from sales staff to succeed Mr. Olson at WREX-TV.

• FRANK J. MARUCA, formerly field account executive of Ketchum, MacLeod & Grove, Pittsburgh, to WAMP/WFMP (FM), that city, as program-promotion coordinator. EARL BUNCHER, formerly commercial manager of WEDO McKeesport, Pa., to WAMP/WFMP as sales representative on local accounts.

• BILL MCMAHON, formerly air personality of WISC and WMFM (FM), both Madison, Wis., appointed program and public affairs director of WSJM St. Joseph, Mich.

• MAX MACE and JIM PITTS named commercial production supervisor and copy chief-newscaster, respectively, of WESC Greenville, S.C.

• JERRY BOWER, formerly of WGN-TV Chicago, to WPTA (TV) Ft. Wayne, Ind., as chief engineer. BOB CARTER, producer-announcer, named production manager of WPTA.

• MARSHALL KARP, formerly account executive, National Telefilm Assoc., N.Y., to WPIX (TV) New York, in similar capacity.

• MARTY CONNELLY, account executive of Peters, Griffin, Woodward, S. F., has joined sales staff of KTLA (TV) Los Angeles.

• MAX REEDER, sales manager of KLX Oakland, and ROBERT I. PRICE, account executive of KCBS San Francisco, are joining KTVU (TV) San Francisco-Oakland as account executives.

• ROBERT W. BLOCK, manager of Los Angeles office of Am Radio Sales Co., has joined sales staff of KSFO San Francisco.

• LARRY CONTI promoted to chief announcer of WSTV-AM-FM Steubenville, Ohio. MARSHALL FATKIN joins news staff of WSTV (TV).

• NORMAN WINN and SANDY SIMS join copy staff of WMAZ-AM-TV Macon, Ga. DONNIE CARL, formerly of copy staff to announcer of WMAZ.

• BURT YOUNG, formerly of Lando Adv., Pittsburgh, to WTAE (TV), that city, as member of promotion department.

• CHARLIE JEFFERDS, air personality of WHIM Providence, R.I., to WICE, that city, in similar capacity.

• DEEMS TAYLOR, music critic and commentator, signed by WGN-TV Chicago for *Great Music From Chicago* symphony series starting Oct. 18.

• DR. JOHN WESLEY HOLLAND, 82, radio pastor of WLS Chicago's *Little Brown Church of the Air* for 26 years, died May 15 after several weeks' illness. He is credited with being first ordained minister ever appointed for a "radio parish," retiring in 1958.

• HAROLD J. SCHMITZ, KFEQ-AM-TV St. Joseph, Mo., honored with national Animal Agricultural Award for farm directors, sponsored by American Feed Mfrs. Assn.

• GENE BLAINE resigns as program director of WAKE Atlanta, Ga.

• ELWOOD S. THOMPSON, formerly of WPVL Painesville, Ohio, and SANDY FOUTS, formerly of WRRF and WITN (TV), both Washington, N.C., join WBRE-AM-FM-TV Wilkes-Barre, Pa., as members of announcing and production staffs.

• KENNETH DAUST, formerly staff announcer of KWK-AM-TV St. Louis, to KPLR-TV, that city, in similar capacity.

• DON HICKMAN, formerly part owner of WTUC Union City, to WDXI-AM-TV Jackson, both Tennessee, as announcer and member of programming staff.

• JULIAN ROSS, head of music library, WINS New York, named newsroom supervisor.

• EV SUTHERIN, formerly of WWVA-AM-FM Wheeling, W. Va., to WGL Fort Wayne, Ind., as air personality.

• JACK CHASE, oldest son of Warren Chase, chief engineer of WDEV Waterbury, Vt., has received appointment to U. S. Military Academy at West Point, reporting July 1. He was sponsored by Sen. George Aiken (R-Vt.).

Representatives

MR. COTTINGTON

• CHARLES H. COTTINGTON, formerly vp in charge of broadcasting, Erwin Wasey & Co. (now Erwin Wasey, Ruthrauff & Ryan), N.Y., to Stars National, that city, as president.

• GIL JOHNSTON, formerly manager of KWK St. Louis, to Robert E. Eastman & Co. as manager of St. Louis office.

• JOHN A. MCELFRESH, formerly on sales staff of WCAU-TV Philadelphia, to CBS Television Spot Sales, as account executive, Chicago office.

• GEORGE BEAVERS, salesman in New York office of Broadcast Time Sales, named director of sales development in firm's west coast division.

Programming

• ARNOLD FETBROD, formerly coordinator of syndication sales of Screen Gems, N.Y., to Official Films, that city, as manager, syndication department.

• JACK J. BROWN, formerly head of his own advertising agency in Chicago, appointed midwest division manager, Trans-Lux Television Corp., that city.

• JACK SHEA, NBC-TV director, elected president of Hollywood local of Radio & Television Directors Guild. HOWARD QUINN, CBS-TV association director, elected vp; MURRAY SCHWARTZ, NBC-TV associate director, secretary. Runoff election will be held between Hap Weyman, director of KABC-TV, and DAN GINGOLD, director of KNXT (TV), for post of treasurer. Mr. Shea, as president, automatically becomes representative of local on union's international board, to which SEYMOUR BERNS, retiring president, was elected and MICHAEL KANE re-elected.

• CHARLES L. TOWNSEND, formerly manager, film and kinescope facilities of NBC, to TelePrompTer Corp., N.Y., as director, television engineering.

• RICHARD R. KREPALA to promotion manager of Peachtree Production Assoc., Atlanta. Other PPA appointments: BETTY L. MERRITT to promotion and pr manager; LOUIS C. INGRAM, JR., formerly on sales staff of 20th Century Fox Films, Hollywood, to sales manager; NORMAN WHITMAN, formerly of WERG-TV, Mobile, Ala., to production manager.

• GERTRUDE PALMER, office manager of National Telefilm Assoc., N.Y., named director of personnel.

• MEL LONDON, formerly executive producer of On Film Inc., Princeton, N.J., to Transfilm Inc., N.Y., as producer for industrial film division.

• TOM MORGAN, artist and repertoire producer of Capitol Records, Hollywood, adds duties of liaison with motion picture and tv industries.

• L. MERCER FRANCISCO, head of Francisco Films, Chicago, appointed editorial consultant to Atlas Film Corp., Oak Park, Ill. Film firm also announced leasing of additional quarters at 185 N. Wabash Ave., Chicago.

• TONY WILSON, formerly production executive of Young & Rubicam, signed by Screen Gems, Hollywood, as producer for *Alcoa-Goodyear Theatre* tv series.

• OSCAR RUDOLPH, who directed most of *The Donna Reed Show* during current season for Screen Gems, N.Y., signed to multiple-film contract as director of next season's series. PHIL SHARP, formerly contract producer of CBS-TV, signed as associate producer of *The Donna Reed Show*. Other Screen Gems appointments: HET MANHEIM as story editor for new *Undercover Man* series; DON MOORE as story department editor, Hollywood office, and EVE ETTINGER as department's associate editor.

Equipment & Engineering

• MICHAEL BALOG, formerly manager of semiconductor division of Sylvania Electric Products, N.Y., named plant manager of CBS-Hytron's receiving tube plant in Newburyport, Mass.

• CHARLES M. VOLKLAND, formerly west coast assistant regional sales manager of Philco Corp.'s Govt. & Industrial Div., appointed sales manager of Sierra Electronic Corp., Menlo Park, Calif., Philco subsidiary.

• DAVID ALAN SAFER, formerly public relations consultant of Embassy of India in Washington, D.C., and previously director of public and professional relations of Cavitron Equipment Corp., Long Island City, N.Y., named director of information services of CBS Labs, Stamford, Conn.

• WILLIAM L. REYNOLDS, general counsel of Electronic Industries Assn., Washington, resigns to join Litton Industries, Beverly Hills, Calif., as general attorney, effective about June 1.

Allied

• LLEWELLYN BROOKE WHITE, 59, veteran editor and author of *The American Radio*, died May 15 in Lenox Hill Hospital, N.Y., following coronary thrombosis. Mr. White retired in 1955 as State Dept. program division chief for press service of International Information Administration. Published in 1947, *The American Radio* dealt with the history and growth of that industry.

• PAUL DUDLEY, 46, script writer for radio, tv and motion pictures, died May 18 in Duarte, Calif., of lung fungus disease. Mr. Dudley wrote for Jack Paar, Frank Sinatra and *Martin Kane, Private Eye* series.

International

• ELDON M. SINCLAIR named president of Leo Burnett Co. of Canada, Toronto, Ont., succeeding RICHARD N. HEATH, Chicago, appointed chairman of Canadian executive committee.

ELECTRONICS: $21 BILLION IN '70

EIA delegates optimistic at convention; WE's Lack honored

Electronics production is headed toward a period of intensive growth, with military output likely to quadruple by 1970, members of Electronic Industries Assn. were told last week at the association's 35th convention in Chicago.

The industry's meeting was marked by presentation of the EIA Medal of Honor to Frederick R. Lack, retired vice president of Western Electric Co. and a past vice president-director of EIA. The medal was presented by EIA President David R. Hull, Raytheon Co., at the Thursday (May 21) dinner.

Mr. Lack was the eighth "Electronics Man of the Year" honored by EIA. He served nearly a half-century with Western Electric, starting as a shop tester in 1911 and moving upward until his retirement in 1958. Among recent achievements was direction of the development and manufacture of Western Electric's Nike family of missiles and the recent Nike-Zeus anti-missile missile.

A series of two-score separate business meetings marked EIA's convention, held at the Sheraton Towers in Chicago. These ranged from consumer items to military and specialty product problems.

Bullish Report • Mr. Hull gave an optimistic report on industry progress. He estimated 1959 electronics sales at the factory level will reach $9 billion this year for a new record. Military production absorbs 52% of industry sales and 30% of the Defense Dept.'s procurement dollars he explained. The military output will approach $5 billion this year, he predicted, emphasizing the $2 billion electronic output devoted to missiles. Civilian space equipment will use about a third of electronics through 1970, he estimated, with $4.8 billion this year.

EIA's efforts to induce the government to conduct a long-range spectrum study of the radio spectrum were recounted by Mr. Hull. EIA will state its views at a June 8-9 Senate Commerce subcommittee hearing.

"We in electronics must strive for technical improvements that will assure the United States of continuing mastery in modern military armaments and the exploration of outer space," Mr. Hull said. "At present we have good reason to believe that this country is ahead of its rivals in electronic technology and production. It is our responsibility to retain this lead."

The $5 billion military electronics output this year is expected to exceed $21 billion by 1970, EIA was told by Frank W. Mansfield, Sylvania Electric Products, reported in his capacity as chairman of EIA's Marketing Data Dept.

"Sales of table, clock and portable radios increased 400,000 sets to 8.6 million during the current fiscal year," he said, with tv sales to consumers declining from 5.9 million to 5.2 million sets.

Stereo Stimulation • Robert S. Bell, Packard Bell Electronics Corp. who heads EIA's Consumer Products Division, said the increase in phonograph sales of 4.7 million units during the year was mainly because of the enthusiastic public response to stereo. Only 50,000 stereo phonos were sold by factories during fiscal 1957-58, he said, but 1959 stereo sales are expected to reach 2.2 million units. Stereo's impact cut monaural sales from 4.4 million to 2.5 million units.

Factory production of tv sets is running around the 100,000 mark per week, 15% of the previous year-to-date figure, Mr. Bell said, and consumer purchases in March and April were ahead of the same months last year. He added that EIA is studying the threat of foreign imports, excise tax relief and multiple tv set production activities.

Servicing and installation of electronic equipment has risen to $2.8 billion a year, tripling in the last eight years, according to Kenneth H. Brown, Westinghouse Electric Corp., chairman of the EIA Service Committee. He said the industry should continue to work toward increasing the prestige and business ability of the service technician.

D. W. Gunn, Sylvania Electric Products, speaking as chairman of the EIA Tube-Semiconductor Division, said the dollar value of transistor sales by factories has increased more than 20 times in a five-year period, or from $5.1 million to $112.7 million. In the same period the germanium silicon semiconductor dioderectifier industry has quadrupled from $20 million to $96 million.

Picture Tubes Down in '58 • Sales of tv picture tubes by manufacturers during 1958 fell below 1957, or 8.3 million units with factory value of $163 million, he said, adding, "Developments in this industry are pointing toward shorter necks, more efficient electron guns and improved picture quality."

U. S. exports of electronic equipments and parts rose nearly 10% between 1957 and 1958, said Ray C. Ellis, Raytheon Co., chairman of the EIA International Dept. Radio shipments increased from 298,000 units worth $7.9 million in 1957 to 316,000 units valued at $10.3 million, he said. Tv receiver exports in 1957 totaled 156,000 units priced at $19.6 million, rising to 219,000 sets valued at $25 million in 1958.

Mr. Ellis reported shipments in the broadcast transmitter field (am, fm and tv), including studio equipment, rose from $11.2 million in 1957 to $12.8 million in 1958. Export business totaled $100 million in the first quarter of 1959, down a little for the period.

Mr. Hull said the Consumer Products Division has embarked on a cooperative industry program "designed to stimulate tv set sales by convincing

numerous families that one receiver is no longer enough. It also began a preliminary study of the question of whether EIA should sponsor an electronic patent exchange, starting in the consumer goods area."

Spectrum Re-evaluation • He explained another activity which is more long range in its effects but of great importance to the industry was its continuing program "to bring about a re-evaluation of one of our greatest national resources, the radio spectrum.

"EIA participated in the more limited studies and report of the Television Allocations Study Organization, which recently made its recommendations to the Federal Communications Commission. We also saw some progress in our two-year efforts to stimulate a government study of the civilian and military uses and requirements for radio channels."

Commenting on the June 8-9 EIA Spectrum Study Committee's scheduled House appearance, he said the committee is headed by H. Leslie Hoffman, Hoffman Electronics Corp. "While it is too early to forecast the ultimate disposal of pending legislation," Mr. Hull said, "it is encouraging that both the President and Congressional leaders are agreed on the need for a spectrum study although somewhat apart on the best method for conducting it.

"On the government relations front, our Government-Industry dinner in Washington last March was the most successful event of this kind we have yet held. Almost 600 persons, including 150 or more high ranking Government officials and legislators attended."

EIA Industry Problems • Mr. Hull added: "Despite a productive year and the generally optimistic outlook, we have some problems which are still unsolved and which should have our continuing attention. These fall into two categories: (1) those of concern to the entire industry and other industries and (2) those of a strictly EIA character.

"One of the most serious and complex problems in the first category is what we are to do about the rapidly increasing foreign competition, especially from Japan. Our Board of Directors and several of our divisions and committees have been occupied with this problem for more than a year. Yet no solution has been found which is acceptable to all members.

"Our Electronic Imports Committee, under Chairman Robert C. Sprague, Sprague Electric Co., has spent considerable time and effort in alerting federal agencies to the problem and attempting to win industry support for a petition asking our government to negotiate a limitation on these imports with Japan. We still hope this can be accomplished.

Electronic parts on upward sales curve

Electronic parts volume at the factory level should reach between $9.1 and $10 billion by 1960, according to estimates given at last week's Electronic Parts Distributors Show in Chicago last week.

Manufacturers of radio, tv and high fidelity parts and components, electronic equipment and service tools exhibited their wares to distributors at the Conrad Hilton Hotel May 18-20. Attendance hit about 13,000, comprising distributor, commercial sound, sales and advertising agency representatives.

The show conducted by the Electronic Industry Show Corp., included as sponsors Electronic Industries Assn., Assn. of Electronic Parts & Equipment Mfrs., National Electronic Distributors Assn. and other groups.

William H. Thomas, of James B. Lansing Sound Inc. and vice president of Electronic Industry Show Corp., noted a "very definite interest" in high fidelity by buyers and parts distributors. He reported that while hi-fi sales of wholesale parts distributors declined with the emergence of audio dealer specialists, the trend has now been reversed. He felt the "great bulk of high fidelity stereo customers" hasn't really materialized yet in the market place. He claimed stereo has required customers to "spend twice as much money and need twice as much space."

W. S. Parsons, of Centralab and show corporation president, predicted an annual 10-12% increase in parts distributor sales. In the past 10 years, he noted, volume increased 226%, while total electronic industry growth (excepting radio-tv entertainment products) jumped 165%. The largest potential, he said, law in the commercial and industrial market for electronic parts.

RCA delivers tv-tape

RCA last week announced delivery to WBTV (TV) Charlotte, N.C., of the first production model of its "advanced" television tape recorder. It features production of interchangeable color or black-and-white tv tapes, plus a built-in cueing system. Its tapes are said to be usable on any recorder meeting industry-determined standards, while properly prepared tapes from other machines can be played back on the RCA recorder with "maximum fidelity." RCA earlier produced seven pre-production models of its tv tape recorder. Six of them are being used by NBC in New York and Burbank, Calif., and the seventh has been in service at WBTV since September 1958.

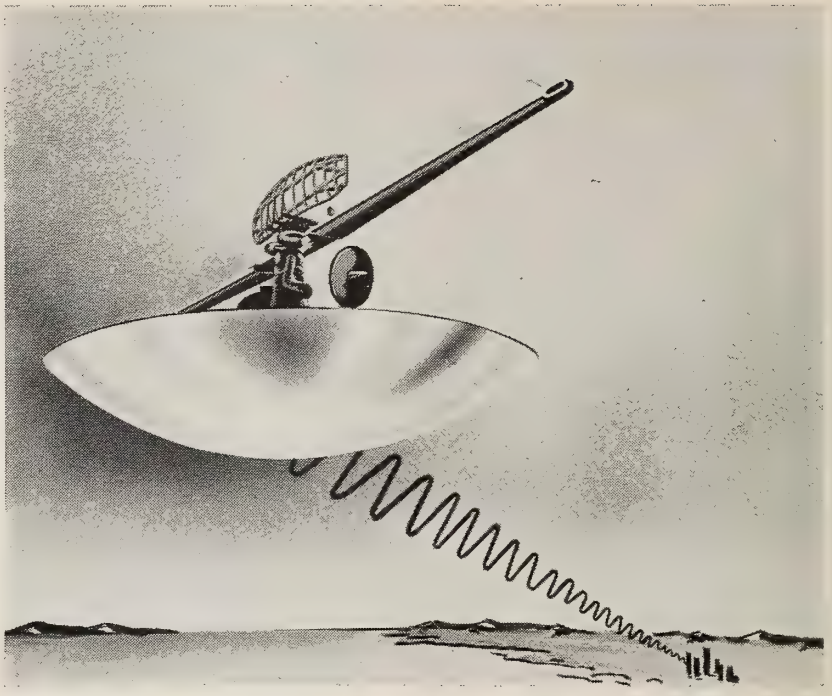
Jerrold has 26% gain



Operating revenues of Jerrold Electronics Corp. for the fiscal year ended Feb. 28 totalled $7,658,371, according to Milton J. Shapp, president of the manufacturing and community antenna system-owning firm. The new revenue figure was a 26% increase over the previous fiscal year's report. Net income after taxes was up to $397,656 (36c per share of common stock) for the fiscal year as compared to $105,281 (10c per share of common) for the fiscal year ended Feb. 28, 1958. Jerrold owns and operates community antenna systems in Alabama, Iowa, Arizona, Idaho, California, New Jersey and Washington, serving approximately 33,000 subscribers.

• Technical topics

• Nems-Clarke Co. (electronic equipment), Silver Spring, Md., a division of Vitro Corp. of America, had $2 million new business last month. N-C had orders totaling $3.6 million in the first four months of this year (about three times the same 1958 period). Equipment is being shipped at a rate of $500,000-worth a month.

• Camera Equipment Co., N. Y., introduces a new CECO Blimp designed exclusively for the Maurer camera. The new Blimp features an external viewfinder which permits the cameraman greater ease in viewing scenes. Lenses from 15mm focal length can be used. The Blimp normally takes a 400-ft. magazine but an additional hood for a 1200-ft. magazine is available.

• Raytheon Co., Waltham, Mass., announces a new 24-channel fm carrier system for channelizing its MCR-1000 microwave radio communications link. Manufactured for Raytheon by Lynch Carrier Systems, S.F., the B-640 multiplex carrier features transmitter crystal-control, miniaturized plug-in assembly and full compatability with telephone transmission standards. It provides voice channels over fm subcarriers in the 40 to 420 kc base band. The carrier equipment may be separated from the associated rf equipment by several miles of wireline or cable.

Sky stations • The Raytheon Co., Waltham, Mass., plans to send stratospheric stations (see drawing) miles above the earth. The company's Government Equipment Div. says that a key factor in the project is development by Raytheon of a high-frequency, high-power microwave tube called the Amplitron. Long-range tv transmission, other communications, missile detection meteorology and other commercial-military operations will be aided by the helicopter-borne stations. Weightless fuel to power them will be from high frequency radio waves in the microwave region. The energy will be beamed in narrow paths from transmitters on earth.

• Emerson Radio & Phonograph Corp., Jersey City, N.J., has leased 10,000 square feet of space in Canada House, 680 Fifth Ave., New York, to provide facilities for an Emerson and DuMont Exhibition Hall. An additional area is to be occupied by Emerson's national sales headquarters. The hall, expected to open in June, will be used to demonstrate radios, tv receivers, stereophonic high fidelity instruments and air conditioners. DuMont's radio-tv receiver line is manufactured by Emerson.

• Philco Corp., Phila., had first-quarter sales of $95,558,000 and net income of $1,589,000. Earnings were 37 cents a common share after preferred dividend requirements. Sales in last year's first quarter were $74,016,000 with a net loss of $1,098,000 (29 cents a common share). This means a 29% volume increase over 1958.

• Minnesota Mining & Manufacturing Co., St. Paul, had first-quarter sales of $102,361,998 and common stock earnings of $13,191,419 (78 cents a share). In the same time last year 3M sales were $85,207,362 with common stock earnings of $7,899,374 (47 cents a share).

• General Precision Lab Inc., Pleasantville, N.Y., has appointed The Northern Electric Co. Ltd., as Canadian distributor for its tv equipment.

CBC faces threat of NABET strike

A strike vote is being taken by the 1,268 members of the National Assn. of Broadcast Employees & Technicians against the Canadian Broadcasting Corp., on a matter of higher wages in a new contract. A Canadian conciliation board has recommended an 8% increase over an 18-month period.

The strike vote is expected to be completed by the end of May and if NABET goes on strike it will interfere with the extensive coverage of the six-week tour of Queen Elizabeth II to Canada, June 18 to Aug. 1.

NABET Canadian Director Tim O'Sullivan, claimed that CBC technicians are paid "well below" the national average for skilled workers, starting at $46.44 weekly and receiving a minimum of $70.61 weekly after two years' experience. A NABET strike would mean that the national radio and television networks could work only with limited coverage and film, but CBC would carry on as shown by this past winter's two-month strike on the French-language radio and tv networks.

CAB's Neill urges beer-wine ban repeal

Beer, wine and securities advertising on Canadian broadcasting stations was urged by Malcolm Neill, CFNB Fredricton, N.B., and president of the Canadian Assn. of Broadcasters, at a May 14 hearing of the Canadian Board of Broadcast Governors (BBG) at Ottawa.

Mr. Neill suggested that the BBG impose no special regulations prohibiting beer and wine advertising. This would permit stations to use such advertising in provinces where the provincial government permits such advertising in other media.

At present beer and wine advertising is only allowed in Quebec province. BBG is at present overhauling broadcasting regulations inherited when it took over regulatory operations from the Canadian Broadcasting Corp. last fall.

CAB also asked that advertising of certain securities, those approved by provincial authorities and for investment under the Canadian and British Insurance Companies Act, be permitted on radio and television stations.

FC&B German office

Foote, Cone & Belding is setting up shop in Frankfurt, Germany. Don R. Cunningham, FC&B Chicago account executive, will head the office.

Growing business in Germany and the potential of the expanding European Common Market were cited by Robert F. Carney, board chairman of FC&B, as reasons for opening the Frankfurt branch. As managing director, Mr. Cunningham will be in charge of a staff of 16 people. FC&B also is represented in England, Mexico and Canada.

CBC loans personnel for West Indies study

Neil Morrison, audience research director of Canadian Broadcasting Corp., Toronto, Ont., has been loaned to the West Indies Federation government for three months, to make studies for a federal system of broadcasting for the new federation of former British colo-

CCA SWAMPS KCRG

In a letter to Boyd W. Lawlor, General Sales Manager of Community Club Awards, Mr. Redd Gardner, General Manager of KCRG-TV & AM, Cedar Rapids, Iowa, stated:—

Mr. Gardner

"If you could see the mountain of sales slips, bottle caps, etc., we have accumulated as CCA proofs-of-purchase, you would know that CCA in Cedar Rapids is a big success. We even rented an empty store in which to pile them!
The KCRG Stations are concerned with the quality of their advertisers. Every single advertiser we signed up for CCA is of the highest quality in Cedar Rapids. Many of them have never advertised as heavily before and many had never been on our stations at all. All of them allocated new budgets to include CCA, or they increased their current spending to include CCA.
Thanks for selling CCA to the KCRG Stations!"

COMMUNITY CLUB AWARDS

nies. Other CBC personnel are expected to be loaned to the federation as well. Mr. Morrison will make recommendations on programming, capital and recurrent costs, regularizing standards of radio and television, and the establishment of a co-ordinating authority.

At present, there are six radio stations in the West Indies Federation, and no tv stations. Commercial stations are operated at Kingston, Jamaica, and two in Trinidad, with government stations on the islands of Grenada, Antigua and Montserrat.

• Abroad in brief

• New York office of the National Film Board of Canada has set up a television film library for service organizations that reach the public through time donated by local tv stations. The library offers films dealing with creative arts, health, welfare, safety, science, nature study, industry, labor and sociology. Catalogues obtainable from NFBC, Canada House, 680 Fifth Ave., New York 19.

• The following are locations and dates of electronic exhibitions: International Electronics & Nucleonics, Tv, Radio & Kinematography Show, Rome, Italy, June 15-July 5. (Nucleonics, June 15-20; electronics and radio-tv, June 22-26.) Bi-annual West German Radio Show, Frankfurt-on-Main, Aug. 14-23. Swiss Radio & Television Show, Zurich (tentatively) Aug. 27-Sept. 1. Sixth Annual Radio, Television, Telecommunication & Automation Fair, Lyublyana, Yugoslavia, Aug. 28-Sept. 8. Tenth International FIRATO Radio, Television & Phonograph Exhibition, Amsterdam, Sept. 1-8. National Radio, Television & Phonograph Exhibition, Sept. 10-21, Paris, France.

• Ontario Radio Sales Ltd., Toronto, Ont., has been formed by Arnold Stinson, formerly of Radio Representatives Ltd., Toronto, and CJOY Guelph, Ont., and CJRH Richmond Hill, Ont. The new firm starts with representation in Ontario of CJOY and CJRH and will make its headquarters at CJRH in suburban Toronto.

• West German radio-tv set wholesalers had a 4% sales increase in January-February over the same period last year. The increase was influenced by a short period of price-slashing of 90° deflection tubes now that 110° models are on the market.

• Siemens & Halske (electronic manufacturer), West Germany, paid a 14% dividend on registered capital in its 1957-58 fiscal year.

• Standard Elektrik Lorenz had a 15% sales increase last year. Export sales were up 11%.

• Max Braun (radio-tv appliance manufacturer), West Germany, had a 20% sales increase last year over 1957.

• The Russians have an experimental vhf color television transmitter at the state-owned laboratories in Leningrad. It gives coverage to a five-mile radius. The transmitter uses OIR standards with an additional subcarrier for color information (a 625-line picture resolution with a spectrum distance of 1.5 mc between video and sound carriers).

• Canadian Broadcasting Corp., Toronto, Ont., has sold two educational television film series for use in other countries. The Australian Broadcasting Commission has ordered 26 episodes of CBC's *The Living Sea* series, and the National Educational Television Network, Ann Arbor, Mich., has ordered 12 programs of the physics series *Live and Learn*. This is the first time the U.S. network has bought an outside film series. CBC had earlier sold *The Living Sea* series to Great Britain's Granada Television organization.

• CHAU-TV New Carlisle, Que., to go on the air early this summer with 52 kw video and 27 kw audio power. The ch. 5 outlet will use a Canadian GE eight-slot low channel antenna. This will be the tallest low channel tv antenna built in Canada with a 32 inch diameter, power gain of 24, length of 164 feet (12 feet inside tower top) and will be erected on a mountain about 1,800 feet above the Bay of Chaleur on the Gaspe Peninsula.

• CHUM Toronto, Ont., has moved studios and offices to 1331 Yonge St., where station occupies 15,000 sq. ft. of floor space on two floors. Telephone is Walnut 5-6666.

Too many spots

Television commercials are "about the most public piece of systematic looting in British history," Laborite Christopher Mayhew said in recommending passage of a law restricting sponsored time on the country's commercial tv network.

Mr. Mayhew said tv advertising averages about six minutes an hour during the day but increases to nine minutes an hour in evening peak hours. He maintains this is "wholly excessive."

Drummer boy • Four-year-old Bill Autry is commissioned in the sales corps of WRBL-TV Columbus, Ga., by Ridley Bell, station manager (top). Below, he has been convoyed north and is shown at a Madison Avenue engagement with Ted Kelly, McCann-Erickson timebuyer. The "Wee Rebel," son of WRBL-TV production director Chick Autry, won the post over a number of outsiders recruited through casting and model sources. The idea of personifying the station's cartoon logotype was suggested by Liller Neal Battle & Lindsey, WRBL-TV's agency.

WFAA farm tour next month

A group of 175 farmers, ranchers, bankers and their wives leave June 17 on the 10th WFAA Dallas Farm Study Tour. They will be away through July 1.

A special train will take the tourists from Dallas to Omaha, Minneapolis, Winnipeg, Jasper National Park, Kamloops, Vancouver, Portland, Spokane, Coeur d'Alene, Glacier National Park, Billings, Black Hills, Denver, Colorado Springs and back to Dallas. Stops include markets, farms, fairs, factories and local points of interest along the way.

Murray Cox, WFAA farm director, conducts the tour this year as he has for the past nine.

Saturation awards

Liquid detergent Lestoil's 25th anniversary and completion of 150,000 sq. ft. of office and plant space was celebrated at an open house last week in Holyoke, Mass. By the end of the party, Lestoil's founder and president, Jacob L. Barowsky, had collected a long shelf-full of awards.

A silver tray was presented by WHYN-TV Springfield, Mass., to Mr. Barowsky. WHYN-TV was the first station that Lestoil used in its march from regional to national distribution by the saturation tv route. WBNS-TV Columbus, Ohio, presented Mr. Barowsk ywith a "Buckeye" tree. Knox Glass Co. and distributor Feldman Glass Co. presented a sterling silver Lestoil bottle in recognition of Mr. Barowsky's "25 years of outstanding leadership in modern manufacturing, merchandising and advertising." The Massachusetts Dept. of Commerce Special Achievement Award was also given.

Massachusetts' Lt. Gov. Robert F. Murphy, spoke at the dedication ceremonies, along with Holyoke Mayor Samuel Resnic, who brought along a City of Holyoke plaque for the Lestoil president. Mr. Barowsky took the occasion to announce a forthcoming new product (details not given) and to restate his faith in television.

At the May 18 ceremonies: state and local officials, media and trade representatives. Tours through the new plant went on all week.

WINS anti-freeze dollars

New York car owners drained WINS there of $500 in less than two hours on May 16 when the station paid $1 each to the first 500 listeners who brought in their drained out anti-freeze. The contest was held to encourage the warm weather draining of anti-freeze from car radiators. The song "Cool, Cool Water" was the theme music of a week-long series of 30-second spots preceding the event.

Finals in the race

Winners have been announced in the annual WFBM-AM-TV Indianapolis Motor Speedway Race contest for timebuyers and Katz Agency Inc. sales-

IN CINCINNATI METROPOLITAN AUDIENCE IN

ONE YEAR

Jan.-Feb. '58 avg. ¼ hr. rating 3.0
Jan.-Feb. '59 avg. ¼ hr. rating 4.7
6 AM - 6 PM, Mon. - Fri.

AND WCKY gives you a larger percentage of women buyers than any other Cincinnati station. Compare the percentage of women in WCKY's audience to the other Cincinnati stations. These figures are from the latest Nielsen Report (Jan.-Feb. 1959):

Station	Women	Men	Teen-agers and Children
WCKY	68%	14%	17%
Sta. A - Ind.	51%	20%	29%
Sta. B - Net	61%	22%	17%
Sta. C - Net	66%	20%	14%
Sta. D - Ind.	43%	8%	45%

MORE AUDIENCE and MORE BUYERS mean MORE SALES

Let us show you how we can sell your product or service on WCKY. Call CHerry 1-6565 in Cincinnati; in New York, call Tom Welstead, EL 5-1127; in Chicago and on the West Coast, call AM Radio Sales.

men. The trick is to guess drivers' pole positions (qualifying times) for the upcoming Indianapolis race.

Winners: N. C. Doughty of N. W. Ayer & Son Inc., Detroit; Rudi Marti of Campbell-Mithun Inc., Minneapolis; Arthur J. Meagher of Young & Rubicam Inc., New York; Edward Kahn of Victor A. Bennett Co., New York; Eleanor D. Werner of Hirsch Tamm & Ullman, St. Louis.

Katz Agency winners: Ken MacQueen of Detroit, Don Kamin of Chicago, Frank McCann of New York, Jim Greenwald of New York and Alan Axtell of St. Louis.

Victors will be flown to Indianapolis Saturday (May 30), for a weekend that includes box seats at the Indianapolis 500 event.

WFBM-AM-TV also assign the number of a competing car to each of the agencymen. The holders of these numbers will receive prizes according to how their cars place at the race's finish.

Francophile flacks

Press releases dated "le 13 Mai" and written entirely in French were distributed by CBS Radio. Baffled monolingual editors were informed the following day by an English translation dispatch that it was all about the network's hour-long Maurice Chevalier "spectacular" upcoming from Paris in September. The message expressed confidence that Monsieur Chevalier's performance will further cement Franco-American relations, already off to a good start, thanks to Lafayette, Jefferson and Franklin.

Looking ahead

In the rush of day-to-day promotion, KXEL Waterloo, Iowa, also is looking to the future and has taken steps to remind future generations of its call letters. In a cornerstone for Waterloo's new city hall, there is a half-hour KXEL taped message to listeners in the year 2059. The mayor placed the recording alongside city documents, maps and civic mementoes in the cornerstone at building ceremonies.

The tape, narrated by KXEL announcer Bob Lakin, includes general news items, farm news and popular songs to convey "the sound of a hundred years ago." Playback instructions are included in the package. The recording was made on Scotch brand 150 magnetic recording tape of Minnesota Mining & Mfg. Co. It was sealed in a plastic bag and encased in an aluminum can sealed with masking tape.

Merchandising the medium market

How do you put a medium-size market on the map?

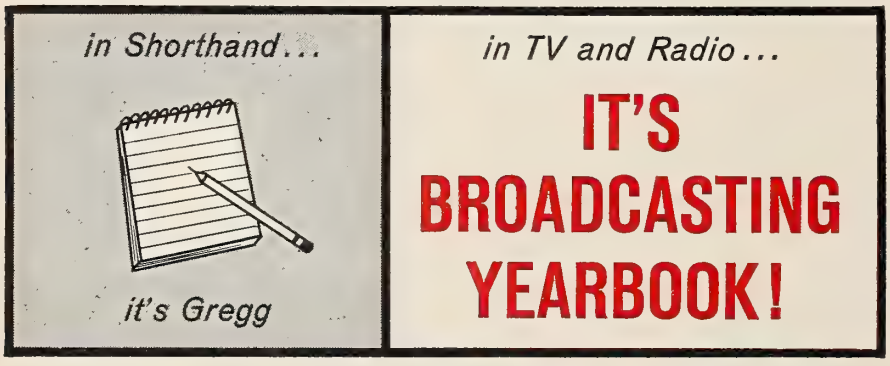
WICU-TV Erie, Pa., acknowledges that it has a problem "in convincing some national dollar-spenders that the Erie market is a fruitful place to plant a budget."

In such places local product sales representatives spend considerable time in sporadic efforts to sell the territory to national marketers and dispensers of cooperative advertising funds. These diverse efforts now are being coordinated in Erie. WICU-TV has taken the initiative and come up with the Sell the Erie Market (STEM) Club.

Club members are product men, jobbers, brokers, retailers and others. Some 80 of them, mostly food and drug people, answered WICU-TV's call last month to organize. Now they are on a bi-monthly meeting basis and feeding Erie promotional material regularly to their home offices.

For the first STEM meeting, Paul Whittingham, WICU-TV marketing director, planned a relaxed but substantial bill of fare. Ben McLaughlin, general manager of the station, was on hand to greet guests as they stepped up for a menu featuring a bar, a buffet and a beauty (briefly uniformed serving maid).

In addition to refreshments, the guests got corsages to carry home to wives who allowed them an extra night out.



Substance of the meeting: a speech by a food trade publisher, a question and answer session, information kits on Erie and WICU-TV and a visual presentation on market promotion by station officials. Costs of this and all subsequent STEM meetings are being born by WICU-TV.

First-person presentation

The personalized approach to agencies was used in New York by Graham Moore, sales manager of Gold Coast stations KSBW-TV Salinas-Monterey and KSBY-TV San Luis Obispo, all California.

Mr. Moore held nightly presentations at a suite in New York's Sheraton-East Hotel for two weeks running for media experts from leading agencies, taking one group (30 people on the average) from a single advertising agency or two medium-sized agencies each night. About 270 New Yorkers saw the showings (May 5-15) which point up the Gold Coast region as a single, virtually exclusive area market.

The same presentation has been

To the uninitiated, a page of Gregg is so much Greek. But a secretary trained in the symbology of shorthand's foremost authority can translate it into a meaningful communication. To a bus-driver, a page from the 1959 **BROADCASTING YEARBOOK** won't be very lucid either. But the men and women who make important decisions in broadcast advertising look upon this comprehensive volume as **THE** authority for a multitude of facts about television and radio... **dependable** facts they can translate into more profitable advertising plans. Nowhere is so much useful TV-radio information assembled within a single set of covers, or consulted so often day-after-day throughout the year. The 1959 **BROADCASTING YEARBOOK**, packed with more data about the broadcast media than ever before, will be delivered to 16,000 **paid** subscribers in August. Your message gets a big bonus of attention and long life at regular **BROADCASTING** rates. Today's **the** day to reserve a good spot for it.

Deadlines? July 1 if proofs are needed; July 15, no proofs.

BROADCASTING
THE BUSINESSWEEKLY OF TELEVISION AND RADIO
1735 DeSales Street, N. W., Washington 6, D. C.

shown elsewhere around the country, including San Francisco and Cincinnati. Chicago and Minneapolis are next on Mr. Moore's itinerary.

• Drumbeats

• NBC News has established a $60,000 annual fund to spur development of new programming. Preparations are currently underway for seven full hour news programs to be scheduled in prime evening time. Announced so far are: a two-part examination of "Africa: Its New Nationalism," "Spotlight on Latin America," a mid-year appraisal of major world news developments, "The Best of '59," "Projection '60," and a special program probing the background of a major news event.

• Bill Stewart, d.j., KMPC Los Angeles, has inaugurated a series of teenage news conferences to bring entertainers to youngsters for interrogation. In the first program, school newspaper editors questioned Columbia Pictures' actor-singer James Darren.

• The tower of KYA San Francisco has become a giant "Victory Candle" for the Giants baseball team. The structure has been outlined with red lights topped by a red and yellow flame. It is turned on whenever a Giant victory is announced and left ablaze until midnight that evening. The Victory Candle, visible for a 15-mile radius in the Bay Area, was the idea of Morton J. Wagner, executive vice president of the Bartell Family Radio stations and general manager of KYA.

• WCCO Minneapolis has helped two local newswomen tour Russia. They won part of their expenses from a journalism society but were $1,000 short when WCCO announced their plight one Sunday evening. Listeners and the station rallied with the full amount. The women are taking recordings of WCCO programs to play in Moscow and will also send back reports to the station.

• There is a new name among show credits of WTMJ-TV Milwaukee. It will appear June 15 when the station presents a "translation" of Shakespeare's "Macbeth," 2-3 p.m. The adaptation is by Milwaukee Mayor Frank P. Zeidler who has put the play in modern English.

• KEZY Anaheim, Calif., set out to let people in its coverage area know about it before the station commenced operation. A 50-ft.-long, 10 ft.-high electrically illuminated sign was flown behind a plane over Orange County and an 18 ft. x 12 ft. sign toured the area atop a station wagon. KEZY debuted May 17 on 1190 kc with 1 kw.

• KXOK St. Louis, Mo., has more than 300 news stringers touring its area each day. They are cab drivers carrying "KXOK Radio News Cab" decals on their taxis. The station pays $5 for each news tip phoned in by the drivers. They also compete for $25 given for the best tip of the week.

• WFMQ (FM), Chicago good music station, is publishing a "Top-40" list every two weeks. The list, distributed via record stores, comprises the top four classical albums, the top seven jazz albums, and the top 15 popular albums and the top 15 single phonograph records, excluding rock and roll. numbers.

• Three times as many votes were cast in the KXO El Centro, Calif., "Imperial Valley Mother of the Year" contest than in the last city election there, according to station calculations. The winner got a diamond ring, a three-day trip to Las Vegas and a color portrait.

• Graduation ceremonies were to be held Saturday (May 23) in the studios of WMAL-TV Washington for 156 persons who are receiving full American U. college credit for its series, *The Life and Teachings of Jesus*. Another 1,800 participated on a non-credit basis in addition to an estimated 32,000 families (American Research Bureau) that watched the Saturday series. The course was taught by Dr. Edward W. Bauman, university chaplain. FCC Comr. Rosel H. Hyde took part in the graduation program.

• A spate of bad checks in the area prompted KRSD-TV Rapid City, S.D., to put on a special public service program presenting a panel of local officials, showing samples of bogus checks and telling how to spot them. No more were passed after the show, KRSD-TV reports.

• WJPS Evansville, Ind., collected 35 cakes in a contest offering $50 first prize and ten $5 merchandise certificates for the best call letter-decorated entries. Winners included an edible turntable and a typewriter cake complete with keys and inserted paper bearing a station slogan. The Sears Roebuck Evansville store co-sponsored the WJPS promotion, putting up prizes and in-store signs.

• WPEN Philadelphia calls its summer sales presentation "Fresh Air Selling." Cardboard fans bearing the slogan are being left with sales contacts along with a brochure on the summer pitch. WPEN salesmen use a flip chart presentation

on "Radio as a Basic Summertime Buy," selling directly against television and newspapers. Points and figures are summarized in the brochure left with prospects.

• The WTMJ-TV Milwaukee *Woman's World* series (Monday-Friday 1:30-2 p.m.) has launched an "Architects at Home" feature. Each week a different Wisconsin architect discusses his own home, showing how it suits his family and what he had in mind when he designed it.

• When morning man Al Lohman Jr. left KBOX Dallas to join WABC New York, KBOX placed a three-column by 15-inch spread in the *Dallas Times Herald* to congratulate its departing dj.

• WBZ Boston broadcast five 20-second announcements a day for 17 days to promote its "Sports Car Gymkhana." About 25,000 turned up at a suburban shopping center parking lot to see sports cars compete for WBZ prizes. A feature of the event was a race with WBZ staffers driving small carts powered by chain saw engines.

• Promotions by KISN Portland, Ore., to announce its change of call from KVAN included parading 10 girls with sandwich boards announcing "I just love KISN. Try it at Radio 91." The girls gave away numbered candy kisses to passers by. Numbers were selected, announced and listeners with the corresponding numbers given prizes.

• Half a hundred stringer cameramen for KDKA-TV Pittsburgh were wined, dined and briefed at an all-day studio seminar this month. The news photographers came from Pennsylvania, Ohio and West Virginia to discuss tv news techniques and technical developments. Stringer Steve Sewzak of New Castle, Pa., received a correspondent's award for his footage of the New Castle flood in January 1959. KDKA-TV is going to make the stringer seminar an annual affair.

BUILT-IN RADIO MONITORING

COLLINS **NEW** 3 CHANNEL REMOTE AMPLIFIER

Now, a remote that allows you to monitor on the spot. The new Collins Remote has a built-in, crystal-controlled superheterodyne receiver to let you monitor your station. Instantaneous switching is provided between receiver and line monitor. And the Remote is lighter, more convenient than any other three channel remote you've ever used. It's completely self contained — features line check control through a built-in microphone with a press-to-talk switch. All controls are front panel mounted.

The Collins Remote Amplifier measures a compact 6⅝" high, 13⅜" wide, and 7 5/16" deep — weighs approximately 14 lbs.

Check these specifications:

Frequency Response: 50 to 15,000 cps.
Distortion: 1% or less at 12 dbm output.
Signal to Noise Ratio: —68 db.
Input Impedance: 250 ohms (nominal).
Output Impedance: 600 ohms balanced.
Power Source: 117/230 v at 50/60 cps.

Collins is your one *complete* source for all your broadcast needs. For further information and technical specifications, call or write Collins Radio Company, Broadcast Sales Division, Cedar Rapids, Iowa.

Equipping a Radio Station?

New RCA 5 KW FM Transmitter Designed for Multiplexing

A "Direct FM" system plus many other outstanding performance features such as built-in remote control provisions and screen voltage power output control, make the BTF-5B today's best FM transmitter buy. Its 5000-watt power output provides adequate coverage of a multiplex channel and improved coverage for conventional operation. New Exciter, Type BTE-10B, uses "Direct FM" modulator circuits, thus fewer tubes are required. Whatever your equipment needs—SEE RCA FIRST!

Or write for descriptive literature to RCA, Dept. TD-22 Building 15-1, Camden, N. J.

Lee Glasgow,** present 20% owner, making both Messrs. Mayes and Glasgow 50% owners. Consideration: half ownership of real estate owned by Mr. Glasgow. Ann. May 20.

Hearing Cases

FINAL DECISION

By decision, Commission granted application of Fred H. Whitley for new am station to operate on 960 kc, 1 kw, D, in Dallas, N.C., and denied mutually exclusive application of Wayne M. Nelson for new station on same frequency with 500 w, D, in Concord, N.C. Comrs. Bartley, Lee and Ford dissented. Initial decision of May 14, 1958 looked toward this action. Ann. May 20.

INITIAL DECISION

Hearing Examiner Annie Neal Huntting issued initial decision looking toward granting applications of Orange County Bcstg. Corp. to increase power of station WGNY Newburgh, N.Y., from 1 kw to 5 kw and install DA, continuing operation on 1220 kc, D, with effective date of grant to be stayed, pursuant to Commission's Public Notice of June 18, 1957, pending ratification of Agreement between United States and Mexico with respect to operation on Mexican Clear channels with 5 kw power during daytime hours; and Vincent De Laurentis for new station to operate on 1220 kc, 1 kw, DA, day, in Hamden, Conn.; conditions. Ann. May 19.

STAFF INSTRUCTIONS

Commission on May 20 directed preparation of document in accordance with remand by U.S. Court of Appeals in proceeding on applications of Plainview Radio and Star of Plains Bcstg. Co. for new am stations (1050 kc) in Plainview and Slaton, Texas, respectively. (May 15, 1958 decision granted Plainview application and denied Star of Plains.)

OTHER ACTIONS

By memorandum opinion and order, Commission took following actions on pleadings in Terre Haute, Ind., ch. 10 comparative proceeding: (1) denied petition by Plains Television Corp. (WICS, ch. 20, Springfield, and WCHU ch. 33, Champaign, Ill.) for review of Chief Hearing Examiner ruling terminating Plains participation as party intervenor, and affirmed that ruling; (2) dismissed petitions of Plains and of Prairie Television Co. (WTVP [TV] ch. 17, Decatur, Ill.) for enlargement of issues; and (3) denied Plains petition for reconsideration of Sept. 22, 1958 hearing order. Comr. Ford dissented and issued statement. Ann. May 20.

By memorandum opinion and order, Commission denied (1) petition by Wabash Valley Bcstg. Corp. to consolidate in one proceeding applications for tv chs. 2 and 10 in Terre Haute, Ind., now designated for hearing in two separate proceedings, and (2) request by Illiana Telecasting Corp. that Wabash Valley be required to elect which of its applications to prosecute. (Applications of Wabash Valley and Illiana Telecasting Corp. for new tv stations on ch. 2 in Terre Haute are in comparative hearing; application of Wabash Valley for renewal of license of station WTHI-TV, ch. 10 in Terre Haute is in comparative hearing with application of Livesay Broadcasting Inc., for new station on that channel in Terre Haute. Ann. May 20.

By memorandum opinion and order, Commission denied petition by David V. Harman for leave to enlarge issues in proceeding on his application and those of Tempe Bcstg. Co. and Richard B. Gilbert for new am stations to operate on 1580 kc in Tempe, Ariz.; granted motion by Gilbert for leave to file answer to Broadcast Bureau's reply; and granted Broadcast Bureau request for enlargement of issues, with burden of proof thereunder on Gilbert. Chairman Doerfer not participating. Ann. May 20.

On joint request by Standard Radio and Television Co. (KNTV [TV] ch. 11), San Jose, Calif. (protestant), and United Bcstg. Co., Commission continued for 60 days oral argument set for May 22 on United application for new class B fm station (KEEN-FM) in San Jose to operate on 100.3 mc, ERP 3 kw, ant. height minus 150 ft. Jan. 21 grant of United application was, on March 23, postponed pending decision after oral argument. Parties are now negotiating to effect resolution of engineering conflict. Ann. May 20.

By memorandum opinion and order, Commission granted petition by Continental Bcstg. Corp. and enlarged issues in proceeding on its application to change facilities of WHOA, San Juan, P.R., from 1400 kc, 250 w, U, to 870 kc, 5kw, DA-1, U, and that of Jose R. Madrazo for new station to operate on 860 kc, 500 w, D, in Guaynabo, P.R. Comr. Lee dissented and issued statement. Ann. May 20.

Routine Roundup

By memorandum opinion and order, Commission denied petition by the Association of Federal Communications Consulting Engineers for reconsideration of April 8 report and order which amended Part I of procedural rules by setting forth new procedure for processing am applications and by establishing new "cut-off" dates determining time and order in which these applications will receive consideration. Ann. May 18.

BROADCAST ACTIONS

By Broadcast Bureau

Actions of May 15

WKWK-AM-FM Wheeling, W.Va.—Granted involuntary transfer of control from estate of **John B. Reynolds** to **Corinne Anderson Reynolds.**

NOTICE TO EDITORS—For more than 30 years, Metropolitan Life has sponsored advertising messages on national health and safety. Because of public interest in the subject matter of these advertisements, Metropolitan offers all news editors (including radio news editors) free use of the text of each advertisement in this series. The text may be used in regular health features, health columns or health reports with or without credit to Metropolitan. The Company gladly makes this material available to editors as one phase of its public-service advertising in behalf of the nation's health and safety.

What happens in a hospital at 2 A.M.?

If there is a good hospital where you live, it is *always* ready to serve you . . . regardless of the hour or the need.

While you sleep, its staff may be performing emergency surgery . . . caring for a victim of sudden illness . . . or bringing a new life into the world.

In fact, the responsible hospitals of our nation treat millions of patients and care for thousands of emergency cases every day. And many hospitals also find time for teaching, training and research.

Suppose our hospitals suddenly closed their doors entirely . . . *or even locked up for the night.* When you consider the consequences, you'll realize that a good, modern hospital is as essential to your community as good school, police, fire and health departments.

Fortunately, we have many excellent hospitals which are worthy of the trust and the support of the communities they serve. Other hospitals, too, are trying to improve their facilities and services. In some of these cases, the primary need may be for better equipment,while in others, personnel shortages may be the most pressing problem.

Whatever the need, a hospital with a strong board of directors of representative citizens will be the community's best guarantee that everything is being done to insure progressive standards of hospital care.

How does a hospital become better? By meeting and maintaining standards specified by the Joint Commission on Accreditation of Hospitals. If your hospital meets the Commisssion's requirements, it is a sign that the facilities and the quality of medical and nursing care offered have been inspected in great detail . . . and found worthy of the Commission's approval. And to maintain its accreditation, the hospital must undergo inspection every three years.

Many people find satisfaction in giving some of their spare time to volunteer work in hospitals. Perhaps there are many things that you could do in your community hospital to comfort patients . . . and to ease the load on its busy professional staff, especially its doctors and nurses.

Most hospitals throughout our country need more volunteer workers.

1 MADISON AVENUE, NEW YORK 10, N. Y.

OUR RESPECTS TO . . .

George Kenneth Gould

There's only one George Gould on the payroll at Telestudios in New York. He's the president and the man you might find sometimes behind a brand new desk in the brand new executive wing of the pioneer video tape production company. But if you spend some time around the third and fourth floors of 1481 Broadway, on Times Square, you'll soon run into him in many other places too.

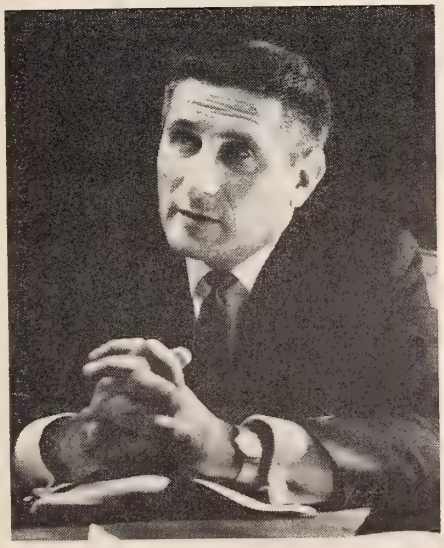
One might be back with the engineers in tape central, working out the arrangements for installing the studio's newest (and fourth) Ampex VR-1000. He'd be talking their language and you'd sense mutual respect in the way they tackle the job.

Another might be in master control, supervising the production of a new Sealtest commercial, suggesting a different camera angle to catch the texture of some ice cream.

Still another might be on the set itself, working out a bit of business for the pilot of a new syndicated series.

Up Through the Ranks • Mr. Gould is equally at home wearing any of the many hats he assumes in the course of a day's work. There's good reason. His career has included long specialization in all these stages of the television art, as well as earlier broadcasting and show business phases.

George Kenneth Gould was born in Brooklyn March 19, 1915. His father was a retail worker, his mother a housewife and musician. It was from here that he received encouragement to take up music and eventually he became accomplished at the piano, organ and trumpet. These talents, now indulged only as a hobby, were once both meal ticket and travel ticket to him—he sailed the Funners-Prince Line through the Caribbean and to South America playing in shipboard bands in 1932-33.



Before that, however, he had gone to high school at James Monroe in the Bronx, then to Brooklyn Polytechnic, where he picked up his basic engineering education. The latter was put into play when he took his first broadcasting job in 1938 with WAAT Newark. The next year he moved to another engineering duty at WINS New York, and then, in 1941, joined CBS in technical operations.

That phase of the Gould story was to last 13 years, the first nine in technical operations including master control in radio and, after television had begun to take its first steps, as a technical director and supervisor in the new medium. During those years he worked on such shows as *Studio One, Suspense* and *Danger*.

Time to Experiment • Television was feeling its way in those days. Mr. Gould recalls working with Worthington Minor on some of the early *Studio One* shows, when each broadcast was an intramural contest between the producer and the technicians. Take lighting, for example. At first everyone thought that television required bright lighting and no one would consider doing with fewer than the full complement of kliegs. Solution: to go behind the scenes between dress rehearsal and the show and pull out the plugs. It was a trial and error school, but an effective one.

It was late in the 1940's when Mr. Gould discarded his engineer's hat (and his active IBEW standing) for a creative one (and an RTDG card, which he still carries). He became a staff director and producer, working on such CBS-TV shows as *Space Cadet* (itself a technical challenge). The transition was a successful one, and by 1954 his work was accepted enough that he found it possible to leave the staff position for more lucrative freelance assignments.

But George Gould had still bigger things in mind. For one, he wanted his own business. For another, he saw the coming opportunity in tape, a development then in the laboratories but one he felt would open new doors to the tv medium and the people who worked in it. Putting the pieces together and knowing his own talents, he started the plans for a new company.

TELESTUDIOS' GEORGE GOULD
At home in tape central

With Nat Schekter, a New York businessman, he opened Telestudios in March 1956.

One month later Ampex unveiled its Videotape recorder at the NAB Convention and Mr. Gould's order was one of the first over the counter.

Telestudios didn't just tread water while waiting for the video tape machines to come off the Ampex production line. It spent the time readying its plan for tape production and, using kine equipment, operating as a production laboratory for various agencies. Viceroy's "Thinking Man" commercials were charted on "kinescope storyboards" at Telestudios during this period.

Commercials Go to Tape • Then came the tape machines (Telestudios was the first non-broadcasting company to install one) and, subsequently, the first independently-produced video tape commercial. The pacesetter was for Florists' Telegraph Delivery Assn. Telestudios celebrated the first anniversary of that commercial with a party for New York advertising people several weeks ago. The list of clients who have turned out taped commercials since then reads like a who's who of tv's blue chip spenders: Kellogg, Sealtest, Schick, General Mills, Maxwell House, Breck, Revlon, Kent, Newport, Parliament and du Pont, to mention only a few.

Life since 1956 has been a hectic affair both for Mr. Gould and Telestudios. It's been a constant scramble to increase plant, train crews (the staff has jumped from 9 to 39 in the past year), and keep up with the ever-increasing work schedule and spread the evangelical word about the marvels of the technique. Last year he put Telestudios under the rapidly-expanding National Telefilm Assoc. umbrella and now is engaged in a furious production schedule for all that company's burgeoning syndicated program output (BROADCASTING, May 18). Eight series are currently being taped at Telestudios, with more on the drawing boards.

Mr. Gould takes the pace in his stride and still finds time to get away for the commute to his Valley Stream, L.I., home. He and Mrs. Gould (the former Mae Antzis, whom he met on a blind date in 1940 and married after a three-year courtship) have two daughters, Ronnie Beith 16 and Jane Ann 13. The family's principal interest is boating. They have a 26-ft. cruiser that sleeps four. Mr. Gould is a past vice commodore of the Nassau Yacht Club.

If any are surprised at the giant strides video tape has made in its few years, George Gould is not among them. He knew it all the time.

More than 'Make Believe'

IT does not demean any of their company to say that 4,000 disc jockeys can afford to assemble in Miami this week because of two men and a rival medium. There would be no Second Annual Programming Seminar and Disc Jockey Convention, or indeed a first one, if it had not been for Martin Block, Ted Husing and television.

Mr. Block made disc jockeying pay, Mr. Husing made it respectable, television made it essential.

Many of the delegates to the Miami convention, the second to be sponsored by the Storz Stations, are too young to remember the three crucial moments in the history of their craft. The first occurred Feb. 3, 1935, when Mr. Block went on WNEW New York with the pioneer version of what was to become his *Make Believe Ballroom.*

Others had played records on radio before, but it remained for Mr Block to make an art of it. In an age when network radio was flooding the air with live performances of the best musicians and singers that money could attract, Mr. Block succeeded in mesmerizing audiences with nothing more than a stack of records and a resourceful line of chatter. In a few years he became one of the biggest money earners on the air.

Among other performers in radio, however, Mr. Block's talent was not immediately esteemed. He was thought of as a pitchman (as in fact he had once been) operating a transient stand that some morning would be gone.

It took some time for radio to adjust its standards to those of Mr. Block. The adjustment was hastened when Ted Husing resigned as the respected sports director of CBS in October 1946 to become a disc jockey on WHN New York. In his first year at WHN he earned $130,000, or about $100,000 more than he had been earning at the network. Hearing of Mr. Husing's fortunes and noticing he was still admitted to the better restaurants, other name talent turned to disc jockeying. Within a year Paul Whiteman and Tommy Dorsey had platter shows.

Then came television, the decline of network radio and the coincidental rise of independent radio operations like those of Todd Storz. The craft of disc jockey became a basic craft of radio.

There is a fourth factor that accounts for the presence of 4,000 disc jockeys in Miami this week. It is the public's trust in radio.

This trust was won and is maintained by many things, by the reliability and speed of radio news, the depth of its special events coverage, the divertissement of its many, many entertainment shows including those presided over by the delegates to the Storz convention. It is a trust not to be ignored by any one with access to a microphone.

Front page (circa, 1959)

WITH each passing week there are more abundant signs that editorializing on the air is paying off in recognition and prestige.

The American Civil Liberties Union, which for a decade had inveighed against expresson of editorial opinion on the air, has reversed itself. It based its change in policy on the need "in today's turbulent, complex world for the fullest exchange of information and opinion, a need which the radio-tv industry is uniquely able to fill."

An infallible barometer of public opinion is the *Congressional Record,* official compendium of the Congress. Over the years the appendix to the *Record* has been used by members of Senate and House to reprint editorials from newspapers or other publications.

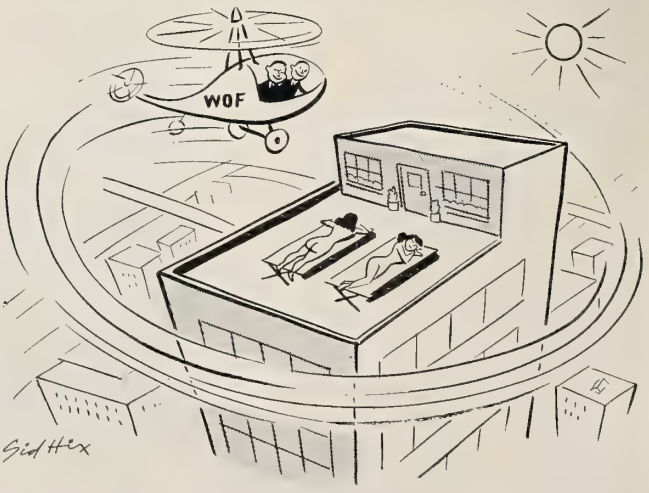
Now one finds in the *Record* the same reprinted editorials. But members of Congress are also having reproduced "by unanimous consent" editorials broadcast over their local stations. When politicians begin to appreciate the potency and value of broadcast editorials to this degree, it is recognition indeed.

Recognition came to broadcast journalism in another way last week. Westinghouse Broadcasting Co. announced it had become the first news entity to receive permission to set up a news bureau in Red China.

By degrees broadcasters are overcoming their journalistic inferiority complex. There is nothing in the whole field of communications that broadcasters cannot do better and infinitely faster than the printed page.

Vicious tax bite

LAST week we reported (page 70) that a ruling by a West Coast Internal Revenue Service office on amortization of feature films purchased for tv performance may prove costly to broadcasters. This was understatement. If this ruling is sustained and applied nationally, it would run into millions in back payments.



It has been the practice, inherited from motion picture exhibition, to amortize the first run of a feature film at 60% of the lease rental. The regional office ruling holds that amortization is to be computed by dividing the cost of the package by the number of plays the contract permits.

This ruling collides with a Dept. of Justice requirement that feature films be leased individually to prevent distributors from packaging a lot of undesirable films with desirable films. On the other hand, the IRS ruling holds that a station must nevertheless amortize on a package basis. The example cited was that if there are 500 films procured from one producer which can be performed five times during the lease period, only 1/2,500th of the total lease cost can be amortized for each individual showing.

The telecaster who received this ruling a fortnight ago told us it could be ruinous. Under the statutes, the IRS could go back three years in assessing returns.

It is not unusual for rulings of regional offices of IRS to be circularized to bring about uniformity. With the tax squeeze always on, it can be expected that the West Coast ruling will permeate the IRS national organization.

To save his rights (and those of all telecasters), we hope the West Coast broadcaster will promptly seek a conference with tax officials. All telecasters should meet this issue head-on and they should be joined by those in feature film leasing and syndication.

Drawn for BROADCASTING by Sid Hix

"Say, these traffic news assignments aren't so dull after all."

Another major news award for KSTP-TV

In the last five years, KSTP-TV, Minneapolis-St. Paul has won *seven* major news awards.

The most recent winner is Harold "Bud" Meier, Assistant TV News Director, who received the coveted Sigma Delta Chi award for "distinguished service in the field of Television News-writing." Previous awards have included two RTNDA trophies ("Outstanding TV News Operation; Outstanding News Story Televised), three NPPA awards (Community Service, Spot News, Creative Photography) and, in 1957, another SDX award for television reporting.

Since 1948 when it became the Northwest's first television station, KSTP-TV has maintained one of the largest, most complete news-gathering operations in the nation. We are proud that the skill of Bud Meier has brought another important award to the vital Northwest market which KSTP-TV serves.

This desolate picture represented life on the Standing Rock Sioux Indian reservation last Thanksgiving when sub-zero temperatures and blizzards aggravated already marginal living conditions of tribesmen. Bud Meier developed and followed through on the story which resulted in 13 tons of food being flown to the hungry Sioux families, a payment of $2 million to the tribes by the U. S. Dept. of Interior which owed them for property taken, and Meier's documentary script, "Standing Rock Uncensored" which appeared, with film, on KSTP-TV, and which won him this Sigma Delta Chi award.

CLOSED CIRCUIT®

Blue Book re-opened • What could become super Blue Book attempt at program censorship is envisaged in new FCC staff document involving license renewal of seven Atlanta radio stations, now on temporary license because of purported program "imbalance." New philosophy proposed by staff but not yet accepted by FCC would appraise community as a whole as to its cultural program needs. This would be compared with actual breakdown of program schedules of stations to show where "imbalance" occurs. Over-commercialization and failure to provide adequate public service programming would be staff aim.

More than year ago, FCC cited eight Atlanta stations, holding up their renewals pending programming study. Since then, one license has been renewed to make way for station's sale (WIIN Decatur). FCC reached no conclusions on radical proposal at its meetings during last two weeks but subject comes up again this week.

Rating war • Madison Avenue is bracing itself for tv network rating competition next season. It's no secret that CBS-TV regards ABC-TV, with its rating-pulling westerns and mysteries, as main competition. Dollarwise, however, odds are heavily weighted in favor of CBS-TV and NBC-TV as at present.

Educational tv • First test of strength in House of Senate-passed federal subsidy for educational tv will come Wednesday (June 3) when Rep. Harris' Communications Subcommittee votes on proposal. Considerable opposition has arisen, particularly among Republicans but also on majority side, to government grant of $1 million to each state. One congressman predicted vote would be very close, especially when and if measure reaches full Committee.

Changing focus • There's decisive trend by camera manufacturers to shift more and more of their budgets to tv and cut down on space in magazines, long-time favored medium of camera organizations. Case in point: Polaroid Corp., Cambridge, Mass., is expected to double its 1958-59 tv allocation of $1.5 million to at least $3 million in 1959-60, while Eastman Kodak, Revere Camera and ANSCO Camera are all hiking their tv investments next season.

RWW Inc. • Long awaited incorporation of Radio World Wide, news-programming service plan being developed by major network affiliates who contemplate going independent, will be filed in Delaware within next 10 days. Sixteen stations in major markets, it's reported, already are definitely aligned with two dozen others considering participation or awaiting other network radio developments. Estimated net for operation is in neighborhood of $1,000,000.

No cake • Ambitious plan for 25th anniversary commemoration of beginning of communications regulation by federal government (BROADCASTING, April 20) to all intents has gone by boards. Proposed by Federal Communications Bar Assn., plan was to include gala dinner in Washington, July 11, to be underwritten by all entities in communications. Bad timing, in view of vacation season, plus adamance of certain parties, resulted in postponement, with likelihood that it will be dropped altogether unless new interest is revived.

Spot measurement • Search for new formula is underway by Station Representatives Assn. and Price Waterhouse, accounting firm, to revise SRA's national spot radio reports issued quarterly. Figures would be broken down to reflect business in primary and secondary markets. Current method of lumping statistics has some stations in quandary when it fails to reflect market-size conditions. If procedure is workable, new-type report will be issued by end of June or beginning of July for first six months of year.

As result of review, SRA may not issue any report on first quarter of this year. Report was expected to show slight lag behind last year's good first quarter. SRA, however, sees this year in entirety as sound for spot with business strong during summer and early fall (BROADCASTING, *May 18).*

KFI key man • Elmer O. Wayne, who resigned last March as vice president in charge of sales of WJR Detroit, will shortly join KFI Los Angeles as general sales manager. Earle C. Anthony, owner-general manager, will announce appointment this week. Mr. Wayne had been with WJR since 1951.

Low budget tv • WXIX (TV) Milwaukee, ch. 18 outlet taken off air by CBS last March then sold for $50,000 to Gene Posner, WMIL Milwaukee, scheduled to return to life with comparatively tiny $20,000 per month operating budget. Goal of independent is to serve small advertisers, mainly with film shows. FCC authorization for resumption of programming has been obtained.

Buick air plans • Motivation behind regrouping announced in Detroit on McCann-Erickson's servicing of Buick account there is need to shift agency broadcast specialist from New York to Detroit. Charles P. Flynn, now tv and radio account executive in Detroit, was transferred from New York where he had been on Buick broadcast activity. Agency sources report move indicates continued Buick emphasis on radio-tv.

Boosters • Tv Repeater Assn., group of vhf booster operators, which met in Denver Friday to establish program for presentation to Senate Commerce Committee—generally opposing FCC recommendations for legislation (BROADCASTING, May 11)—took up one significant question: Should boosters get into microwave business to bring in distant big city signals to their viewers? Meeting also laid plans for appearances before Senate Committee which takes up FCC recommendations on variety of subjects beginning June 9.

Border incident • Because of failure of Mexican border stations to cooperate on Conelrad test of April 17 (they kept operating while U.S. stations went silent), formal overtures will be made to Mexican government in connection with future tests. Mexican Communications ministry, it's understood, had been notified of test. When informal inquiries were made after U.S. stations had protested Mexican border operations during half-hour test, report was made that telegram had been lost or misplaced.

Advertising hub • Growing strength of broadcast advertising in Chicago is seen in efforts to install agency executive at helm of Chicago Broadcast Advertising Club for 1959-60 season. Presidency has been offered to Thomas A. Wright, vice president-media, Leo Burnett Co., and he's reportedly amenable. It would mark first time agency man had headed club. Predecessors include James Beach (currently in office), ABC vice president in charge of Central Division, and Ward L. Quaal, vice president and general manager of WGN-AM-TV.

WEEK IN BRIEF

MR. TIMMONS

What radio timebuyers need • There would be more money spent in the medium if broadcasters provided more research information, according to Earl Timmons, research-media director of Stromberger, La Vene, McKenzie, Los Angeles agency. Two types are needed by agencies, in his opinion—quantitive and qualitative, with the latter more important. But of course it's necessary to have data on how many people are listening, he contends. MONDAY MEMO, Page **21.**

Sec. 315 goes on the pan • Foibles of equal-time law in political campaigns will be aired by Senate subcommittee starting June 12. Move spreads for concerted attack on outmoded section with its crippling impact on campaign broadcasts. Page **35.**

Ford's $25 million-plus • That's for time and talent in network television next season. Ford advances its plans for specials, hires services of CBS-TV's Hubbell Robinson who is going out on his own in tv program production. Page **38.**

Anacin's $2.5 million • Estimated gross billing issued by Television Bureau of Advertising shows Anacin the top network brand leader for the first quarter of the year, and is No. 1 for March as well. Page **44.**

Top 10 in tv • A statistical look at tv's leading 10 advertisers (network and spot combined) and how the expenditures stack up in other media. Page **44.**

Cleanup for Texize • Heavy tv spot user enjoys booming sales in competitive detergent market. "A Southern Lestoil," one tv advertising executive says of product's swift rise. Page **48.**

Mood over Miami • Disc jockeys, thousands and thousands of them, wage the good fight for freedom to let their personalities have expression on the air; formula music, teen-agers, media competition and audience building are discussed at d.j. convention. Page **52.**

First step in allocations study • Participants set for next week's panel before House Communications Subcommittee on investigation of radio spectrum. Page **66.**

Should commissioners be hermits? • FCC Chairman Doerfer raises questions on moves to force FCC commissioners to seclude themselves from all contact with outside sources; sees threat to commissioners' ability to become experts in field. Page **68.**

Multiplexing lowdown • Seminar at Newport News, Va., will look into technical and commercial progress of piggyback fm medium as well as federal regulatory situation. Fm Assn. of Broadcasters will hold first meeting on final day of June 4-6 session. Page **72.**

Democracy in Cuba • New Cuban minister of communications believes in free enterprise; says island will respect NARBA treaty. Page **79.**

IN CINCINNATI METROPOLITAN AUDIENCE IN

ONE YEAR

Jan.-Feb. '58 avg. ¼ hr. rating 3.0
Jan.-Feb. '59 avg. ¼ hr. rating 4.7
6 AM - 6 PM, Mon. - Fri.

AND WCKY gives you a larger percentage of women buyers than any other Cincinnati station. Compare the percentage of women in WCKY's audience to the other Cincinnati stations. These figures are from the latest Nielsen Report (Jan.-Feb. 1959):

Station	Women	Men	Teen-agers and Children
WCKY	68%	14%	17%
Sta. A - Ind.	51%	20%	29%
Sta. B - Net	61%	22%	17%
Sta. C - Net	66%	20%	14%
Sta. D - Ind.	43%	8%	45%

MORE AUDIENCE and MORE BUYERS mean MORE SALES

Let us show you how we can sell your product or service on WCKY. Call CHerry 1-6565 in Cincinnati; in New York, call Tom Welstead, EL 5-1127; in Chicago and on the West Coast, call AM Radio Sales.

Rutgers foundation plans Sec. 315 study

Foundation study of Sec. 315, supported by $100,000 to be undertaken starting next autumn by Rutgers U. to show relationship of broadcasting and politics. Impartial project will be conducted by Eagleton Foundation, political science forum at New Jersey university (see Sec. 315 story page 35).

Dr. Paul Tillett, assistant director of foundation who announced political study at Wednesday (May 27) meeting of New Jersey Broadcasters Assn., said it will cover "many areas of interest to broadcasters, ourselves as educators and politicians as candidates." He explained public is dependent on nation's broadcasters for enlightenment as well as entertainment.

Project will study, criticize and evaluate existing practices of broadcasters and politicians, survey attitudes of listeners and "pass judgment on effectiveness of FCC to regulate this aspect of the broadcasting industry." Some preliminary details have already been studied at university.

Idea developed last November at NJBA meeting after Ralf Brent, WIP Philadelphia, said in speech that political study should be undertaken because politicians don't use broadcast media effectively and their appearances are boring. President Mason Gross, of Rutgers, later met with Fred Walker WTTM Trenton, NJBA president; Everett Rudloff, WJLK Asbury Park, and Mr. Brent.

These basic questions are to be answered by privately financed foundation: What are public interests, conflicts and agreements involved; common responsibilities; role of government in resolving broadcast-politician interests and guaranteeing fulfillment of responsibilities; adequacy of service to public; ways of making media available to candidates equitably in view of cost factors; development of greater political responsibility in use of broadcasting.

NJBA endorsed Hartke and Cunningham bills providing Sec. 315 relief but insisted outright repeal is needed.

G. Krueger Brewing Co. $200 public service award given to WSNJ Bridgeton.

Daly willing

Lar Daly, perennial America First party candidate, has asked to testify in forthcoming Sec. 315 political broadcasting hearing to be held before Senate Commerce subcommittee headed by Sen. John O. Pastore (D-R.I.). Hearing opens June 12 (see early story page 35). Splinter candidate also wrote House Commerce Committee, asking Chairman Oren Harris (D-Ark.), for right to testify in case that committee holds hearings on Sec. 315.

Hyde draws praise at Senate probe

In highly friendly atmosphere, Senate Commerce Committee quizzed Comr. Rosel Hyde for 15 minutes Thursday (May 28) on his reappointment for third consecutive term on FCC. Only five members were present and Chairman Warren Magnuson (D-Wash.) forestalled many questions when he announced FCC would be called before committee within two weeks for "an annual informal get-together."

Comr. Hyde said he is very hopeful that FCC will, in near future, add additional vhf channels to selected markets on individual basis. "I have urged the need to do so to my associates and I will continue to do so," he said.

In answer to question by Sen. Vance Hartke (D-Ind.), Comr. Hyde said he thought Barrow report was "somewhat extreme, perhaps unrealistic" in its recommendations concerning multiple ownership. Commissioner said he has fought to keep limits from being increased above present 5-vhf restriction and that effective multiple ownership rules would make unnecessary other regulations on subject.

At start of session, Sen. Magnuson also pointed out that committee planned June 12 hearings on Sec. 315 (equal time) of Communications Act and asked if FCC would have decided Lar Daly case by then. Commissioner replied FCC hoped to make decision by then and that commissioners would be in much better position to discuss matter on that date. He said Commission had no plans at this time to make own recommendations for amendment of Sec. 315.

Letters from Idaho senators, Comr. Hyde's home state, favoring endorsing Hyde appointment, and Sen. Strom Thurmond (D-S.C.) praised commissioner for his "efficient, faithful service." Sen. Magnuson said that he knew of no one better qualified for FCC than nominee, who has been commissioner since 1946 and on staff since days of old Federal Radio Commission.

Oakland, Pittsburgh stations purchased

Station sales announced Friday, subject to usual FCC approval:

KWBR Oakland, Calif. • Sold by E.N. Warner and First Western Bank of Oakland as trustee, each 50% owner, to Egmont Sonderling and associates for $550,000. Mr. Sonderling and his group also own WOPA Oak Park, Ill., and WDIA Memphis, Tenn. KWBR is 1 kw on 1310 kc. Transaction handled by Blackburn & Co.

WEEP Pittsburgh, Pa. • Sold by John W. Kluge and associates to Myron Jones and group for sum in neighborhood of $300,000-$350,000. Mr. Jones also owns WHOT and WRED (FM) Youngstown, Ohio; WJET Erie and WTIV Titusville, both Pa. Mr. Kluge is principal owner of Metropolitan Broadcasting Co. (WNEW New York and others). WEEP is 1 kw daytimer on 1080 kc.

KXA Seattle, Wash. • 75.1% sold by Samuel I. Savidge, Cassius E. Gates and 23 others to Wesley I. Dumm (24.9% owner) for $149,270, giving Mr. Dumm 100%. KXA is on 770 kc, with 1 kw day, limited by clear channel WABC New York.

WCNH Quincy, Fla. • Sold by A.B. Letson (controlling stockholder) to William S. Dodson and wife Dorothy for $90,000. Mr. Letson controls WMOP Ocala and WZRO Jacksonville Beach, both Florida. Mr. Dodson is radio-tv director for Robert F. Gamble Inc. advertising agency, Washington, D.C. WCNH is on 1230 kc with 250 w and is MBS affiliate.

WTKO Ithaca, N.Y. • 52% ownership sold by Thompson K. Cassell to group headed by Ellis E. Erdman for $77,500. Mr. Erdman, who is already 32% owner, will own total of 52% when transaction approved by FCC. Mr. Erdman is executive vice president-general manager of WTKO; others with whom he is associated also own WOLF Syracuse, N.Y. WTKO is 1 kw daytime on 1470 kc. Other Cassell stations

AT DEADLINE

CONTINUED *from page 9*

are WCHA-AM-FM Chambersburg, WBRX Berwick, WATS Sayre, all Pa.; WACK Newark, WTVE (TV) Elmira, both N.Y., and WGGG Gainesville, Fla.

ABC Radio signs two

ABC Radio last week announced affiliation of KIBS Bishop, Calif., and KSLM Salem, Ore. KIBS, owned and operated by Southeastern Sierra Broadcasting Co., is headed by James R. Oliver, president-general manager. It operates on 1230 kc with 250 w. Glenn E. McCormick is president-general manager of KSLM, which broadcasts on 1390 kc with 5 kw daytime and 1 kw nighttime. Station is owned and operated by Oregon Radio Inc.

Uhf translators at missile base

Operation of two uhf translators at West Coast missile center, Vandenberg Air Force Base, Calif., was made known Friday by FCC. Stations, on chs. 73 and 82, pick up and relay ch. 6 KSBY (TV) San Luis Obispo and ch. 3 KEYT (TV) Santa Barbara, both Calif., for "several thousand" personnel on base. Translators have been in operation since May 6, bring to six number of military tv stations operated in continental U. S.

Commission agreed to operation with three provisos: (1) transmissions solely for retransmission of signals received from commercial tv stations subject to prior consent of licensees, (2) operations will be discontinued immediately if interference discovered to any U.S. non-government station, and (3) operations will be reconsidered if they appear to impede development of private tv broadcasting.

Oldsmobile buys comedy on CBS-TV

Automakers' tv network buying (see Ford Motor story, page 38) continued last week as fall nighttime schedules were about wrapped up. Latest on Thursday (May 28): Oldsmobile Div. of General Motors contracting with CBS-TV, through D. P. Brother, Detroit, for *Dennis O'Keefe Show* (comedy situation series by Cypress Productions and sold to Oldsmobile by United Artists Television), Sun., 7:30-8 p.m. period. Oldsmobile seeks coverage in each market in which it has dealer, asked 227-station clearance, said to be above average for network lineup. This is second network sale for UA-TV which started production about year ago, its other series sold being *The Troubleshooters* that goes on NBC-TV with Philip Morris sponsoring alternative weekly half-hour. UA-TV also is negotiating with NBC-TV for *United Artists Playhouse* anthology made up of hour and 90-minute shows.

KCFI renewal opposed

FCC Hearing Examiner Herbert Sharfman recommended Friday that application for license for KCFI Cedar Falls, Iowa, be denied on ground Jane A. Roberts, permittee, had not, in fact, signed original application and other documents. In scathing initial decision, Mr. Sharfman held that Mrs. Roberts "knowingly misrepresented the facts about her signature." KCFI, which began operating in February 1958, is 500 w daytimer on 1250 kc. Mrs. Roberts and husband, Cecil W. Roberts, also own KREI Farmington, KCHI Chillicothe, KBIA Columbia, all Mo., and KCRB Chanute, Kan.

Sauce for tv

New barbeque sauce spray for outdoor cooking is getting its first substantial tv push. Product, Sizzle Spray, had its initial testing and now is on tv spot schedules in western markets, with campaigns set to begin at end of June and run through summer. Manufacturer is Heublein Inc., Hartford, through its food divisions with Bryan Houston, New York, as agency.

• Business briefly

• Studebaker-Packard Corp., South Bend, Ind., on behalf of Lark auto dealers, will sponsor CBS Radio's concerts from Newport (R.I.) Jazz Festival (July 2-5, 9:05-10 p.m.). Agency: D'Arcy, New York.

• S.C. Johnson & Son (wax products), Racine, Wis., buys alternate weeks of *Johnny Ringo* replacing *Yancy Derringer* on CBS-TV starting Oct. 1, Thurs., 8:30-9 p.m. Agency: Needham, Louis & Brorby. Purchase sets Johnson's fall network tv plans, including renewals of *Red Skelton Show* and *Zane Grey Theatre* (latter through Benton & Bowles) on same network.

• Armstrong Rubber Co. (tires), West Haven, Conn., understood to be scheduling spot tv campaign in unspecified number of markets throughout country, starting shortly for 13 weeks. Agency: Lennen & Newell, N.Y.

• Philip Morris Inc., N.Y., has signed as alternate-week sponsor of *Troubleshooters* (NBC-TV, Fri. 8-8:30 p.m.) which begins next season. Agency: Leo Burnett, Chicago and N.Y.

WEEK'S HEADLINERS

MR. PIANO

VINCENT C. PIANO, for past six years director of sales development and promotion, The Meeker Co., station representative, appointed director of radio promotion and research of Peters, Griffin, Woodward, station representative, effective today (June 1). At PGW, Mr. Piano will head expanded department, said Robert H. Teter, PGW's vp-director of radio. Before he joined Meeker, Mr. Piano was promotion manager at WSB Atlanta (1948-1953) and holds master of arts degree in advertising from Columbia U.

HUBBELL ROBINSON JR., CBS-TV executive vp in charge of network programs, resigns to become executive producer of Ford Motor Co.'s series of specials to be seen on NBC-TV this fall and head of his own production company (see story, page 38). Mr. Robinson entered advertising at Young & Rubicam during the depression, working there until 1944 when he left to join Blue Network (now ABC) as vp-director of programs. In 1945 he switched to Foote, Cone & Belding as vp in charge of radio. Mr. Robinson joined CBS in 1947 as vp and director of programs, advancing successively to vp in charge of network programs in 1951 and executive vp in 1956.

Station managers may compete for promotion prizes and for all expense-paid trips to Nashville.

June 19—**Rhode Island Broadcasters Assn.,** Viking Hotel, Newport.

June 21-22—**Colorado Broadcasters & Telecasters Assn.,** Colorado Hotel, Glenwood Springs. Howard Bell, NAB assistant to the president, will speak.

*June 22-23—**Montana State U. School of Business,** Missoula, advertising conference. Thomas D'Arcy Brophy, former board chairman of Kenyon & Eckhardt, will be chief speaker. Joseph Sample, KIIK-AM-TV Billings, is chairman.

June 22-26—**First Advertising Agency Group,** annual conference, Belmont Hotel, Cape Cod, Mass.

June 22-Aug. 15—**Summer Radio-Tv Institute,** Stanford U., Calif. George A. Willey, director.

June 23-25—**National Community Television Assn.,** Sheraton Hotel, Philadelphia.

June 23-Aug. 1—Broadcasting Symposium, **Northwestern U. Radio-Tv-Film Dept.,** Evanston, Ill. Speakers include FCC Chairman John C. Doerfer, Hugh M. Beville Jr., NBC; Gilbert Seldes, Saturday Review, John O'Brien, Voice of America; Eric Barnouw, Columbia U.

June 28-29—**South Carolina Broadcasters Assn.,** William Hilton Motel, Hilton Head Island, summer convention.

June 28-July 2—**Advertising Assn. of the West,** annual convention, Tahoe Tavern, Tahoe City, Calif.

June 28-July 4—**National Advertising Agency Network,** management conference, Del Monte Lodge, Pebble Beach, Calif.

June 29-July 1—Military electronics convention sponsored by **Professional Group on Military Electronics of Institute of Radio Engineers,** Sheraton Park Hotel, Washington. Space propulsion, space electronics, radar, missile guidance, computers and related topics will be discussed.

JULY

July 5-11—**Advertising Federation of America** management seminar in advertising and marketing, Harvard Business School, Cambridge, Mass. Speakers to include Dr. Frank Stanton, CBS president.

July 5-17—**NAB Management Development Seminar,** Harvard Graduate School of Business Adm., Cambridge, Mass. Designed to give station management principles and analytic techniques involved in the executive job.

July 14-15—**Idaho Broadcasters Assn.,** Shore Lodge, McCall.

AUGUST-NOVEMBER

*Aug. 3—Comments due on **FCC** proposal to revise television network rules including cutting down on option time, counting straddle programs as option time entirely, etc. Commission requests that comments also refer to same revisions in radio network rules. Docket 12,859. Postponed from June 22.

Aug. 18-21—**Western Electronic Show & Convention** (Wescon), Cow Palace, San Francisco.

Aug. 21-23—**Arkansas Broadcasters Assn.,** Hot Springs.

Aug. 24-28—**American Bar Assn.** annual convention, Miami, Fla.

Aug. 28-30—**West Virginia Broadcasters Assn.,** Greenbrier, White Sulphur Springs. FCC Comr. Frederick W. Ford will speak.

*Aug. 29—**Oklahoma Broadcasters Assn.** summer meeting, Lake Murray Lodge, Ardmore. Judge John Brett, presiding judge of Oklahoma Criminal Court of Appeals whose court rendered decision in favor of court broadcasting, will address luncheon. Ben Sanders, KICD Spencer, Iowa, will conduct sales clinic.

Sept. 10 — **Advertising Research Foundation** seminar in operations research, on 13 consecutive Thursdays starting this date. Further information from ARF.

Sept. 17-19 — **Mutual Adv. Agency Network,** second in series of three-day workshop-business sessions under new format calling for three (instead of four) annual meetings, Bismarck Hotel, Chicago.

Sept. 21-22 — **Louisiana Assn. of Broadcasters** Monroe.

Sept. 21-23 — **Westinghouse Broadcasting Co. Third Industrywide Public Service Programming Conference,** Stanford U., Palo Alto, Calif.

Sept. 25—**Advertising Research Foundation,** fifth annual conference, Waldorf-Astoria, New York.

Sept. 29-Oct. 3 — **Affiliated Advertising Agencies Network** international convention, Somerset Hotel, Boston.

Oct. 6-7—**Electronic Industries Assn.,** value engineering symposium, U. of Pennsylvania. Virgil M. Graham, associate director; R. S. Mandelkorn, Lansdale Tube Co., general chairman.

*Oct. 7-9—**Canadian Section. Institute of Radio Engineers,** annual convention, Automotive Bldg., Canadian National Exhibition, Toronto, Ont.

*Oct. 7-9—**Institute of Radio Engineers Canadian Convention,** Toronto, Canada.

Oct. 12-14 — **National Electronics Conference,** 15th annual meeting and exhibit at Hotel Sherman, Chicago, with expectancy of 10,000 attendance and some 266 display booths. Sessions will be held on antennas and propagation, audio, circuit theory, communications systems, computers, microwaves, space electronics, television, transistors, and communication and navigation, among other topics.

*Oct. 18-21—Western Regional Convention, **American Assn. of Advertising Agencies,** Biltmore and Miramar Hotels, Santa Barbara, Calif. Agenda includes day of closed sessions for member agency management delegates and day-and-a-half of open sessions.

*Oct. 26-30—**National Assn. of Educational Broadcasters** convention at Sheraton-Cadillac Hotel, Detroit.

*Oct. 29-30—Electronic devices meetings sponsored by **Professional Group on Electronic Devices, Institute of Radio Engineers,** Shoreham Hotel, Washington.

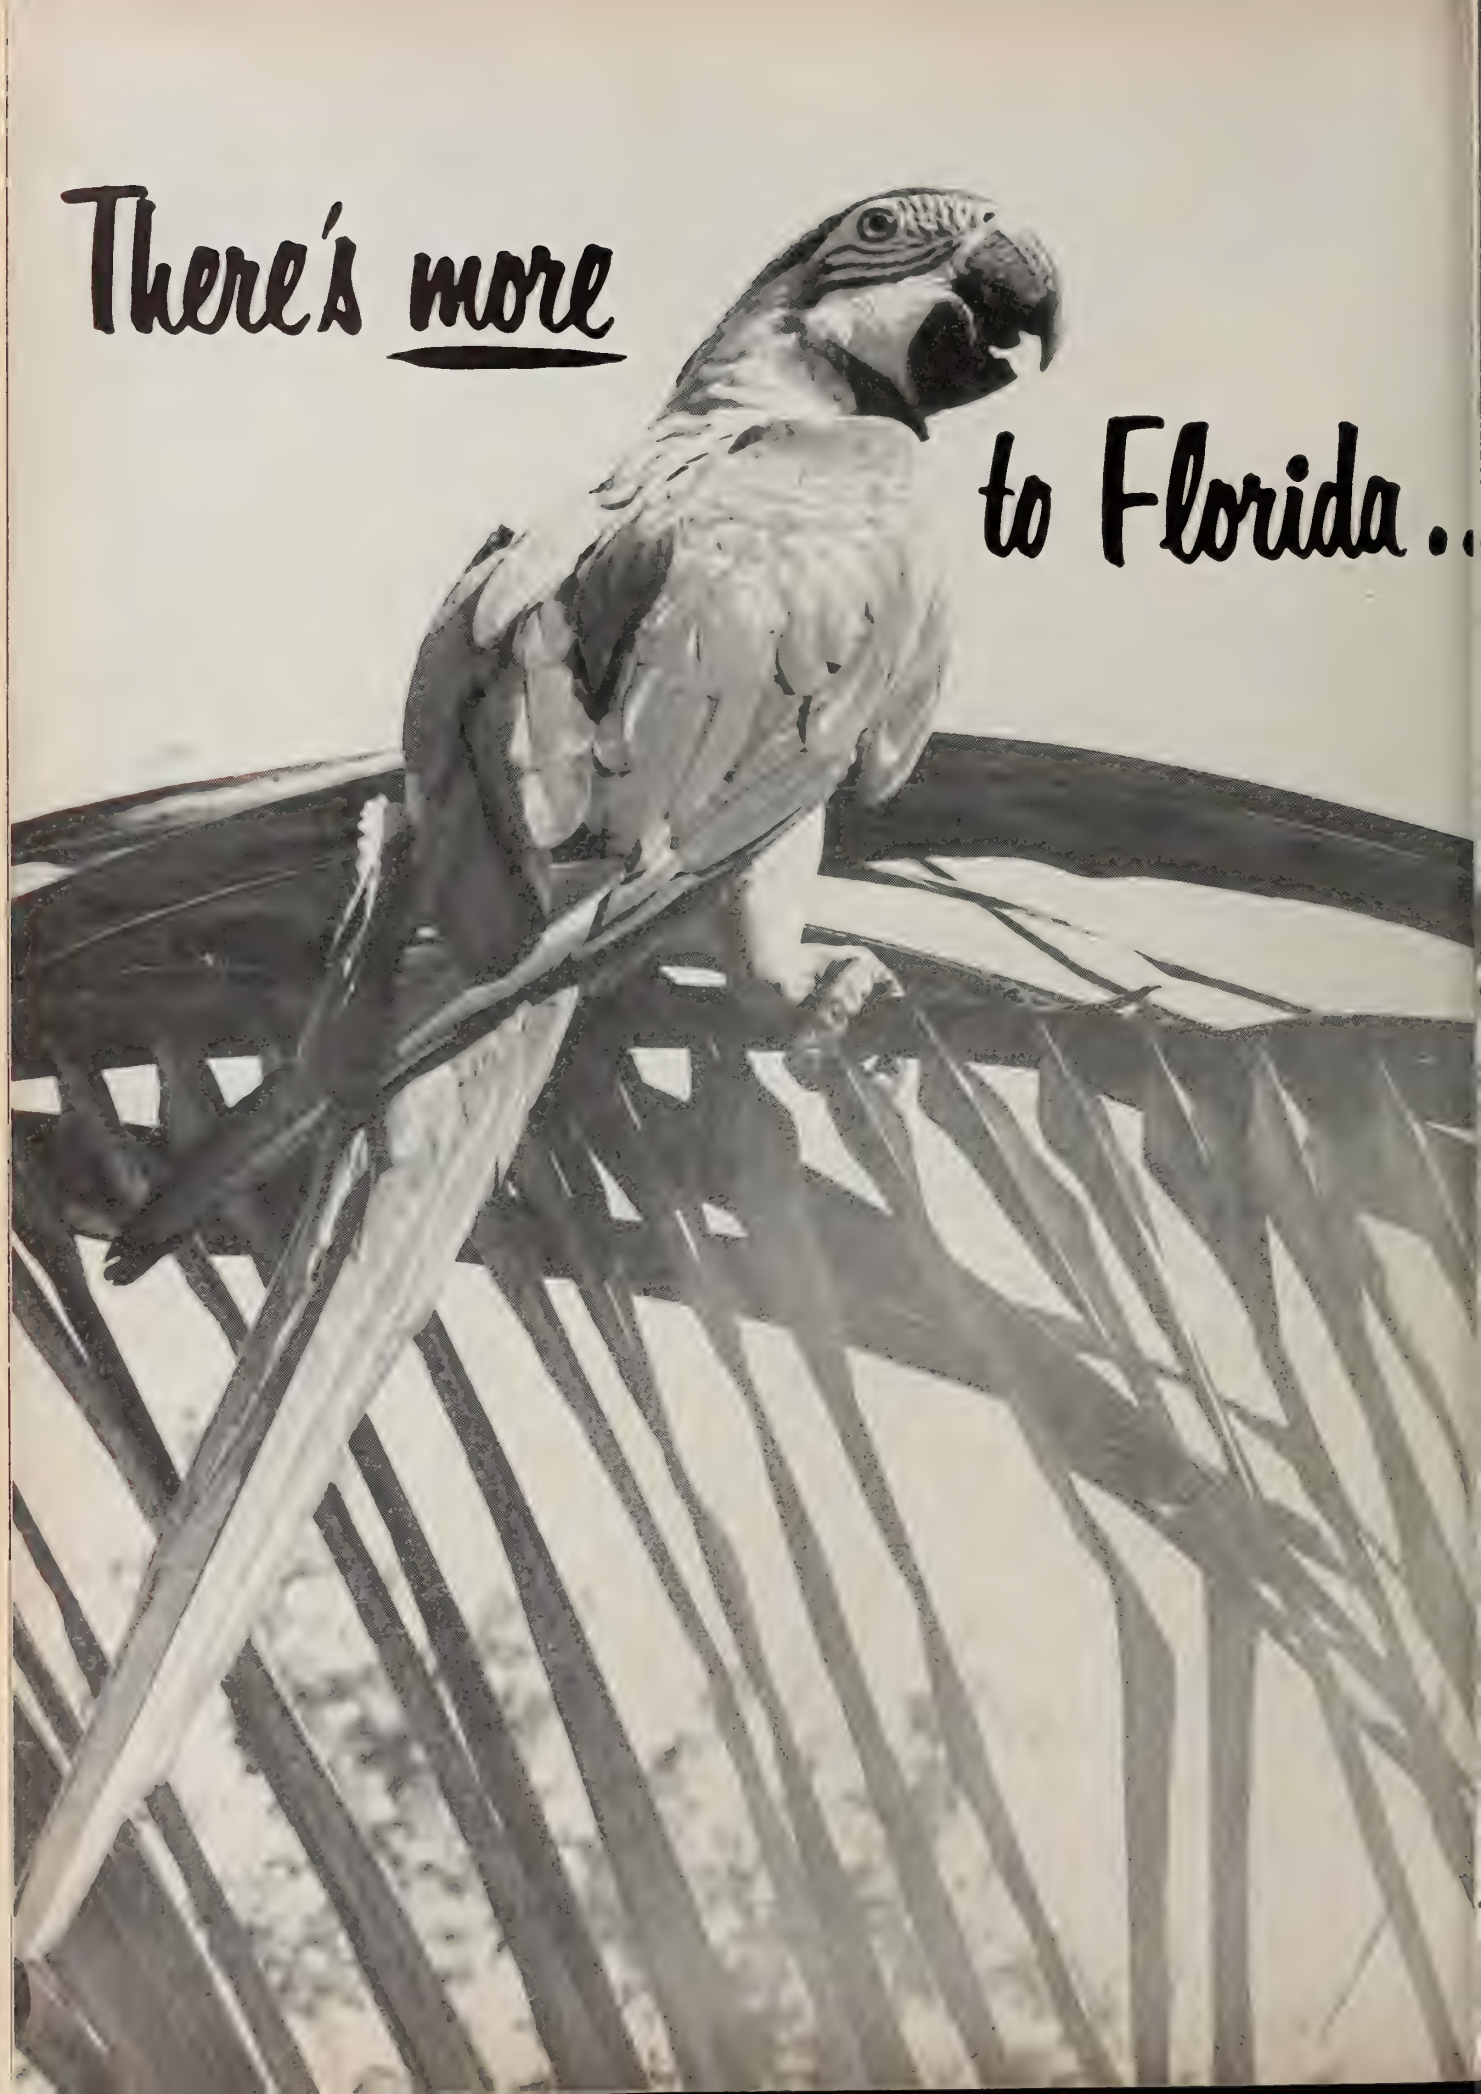
*Nov. 2-4—**Broadcaster Promotion Assn.,** 4th annual convention, Warwick Hotel, Philadelphia.

"Survey Proves PROSPECTS WANT MORE of WISN's Advertising Book Matches"

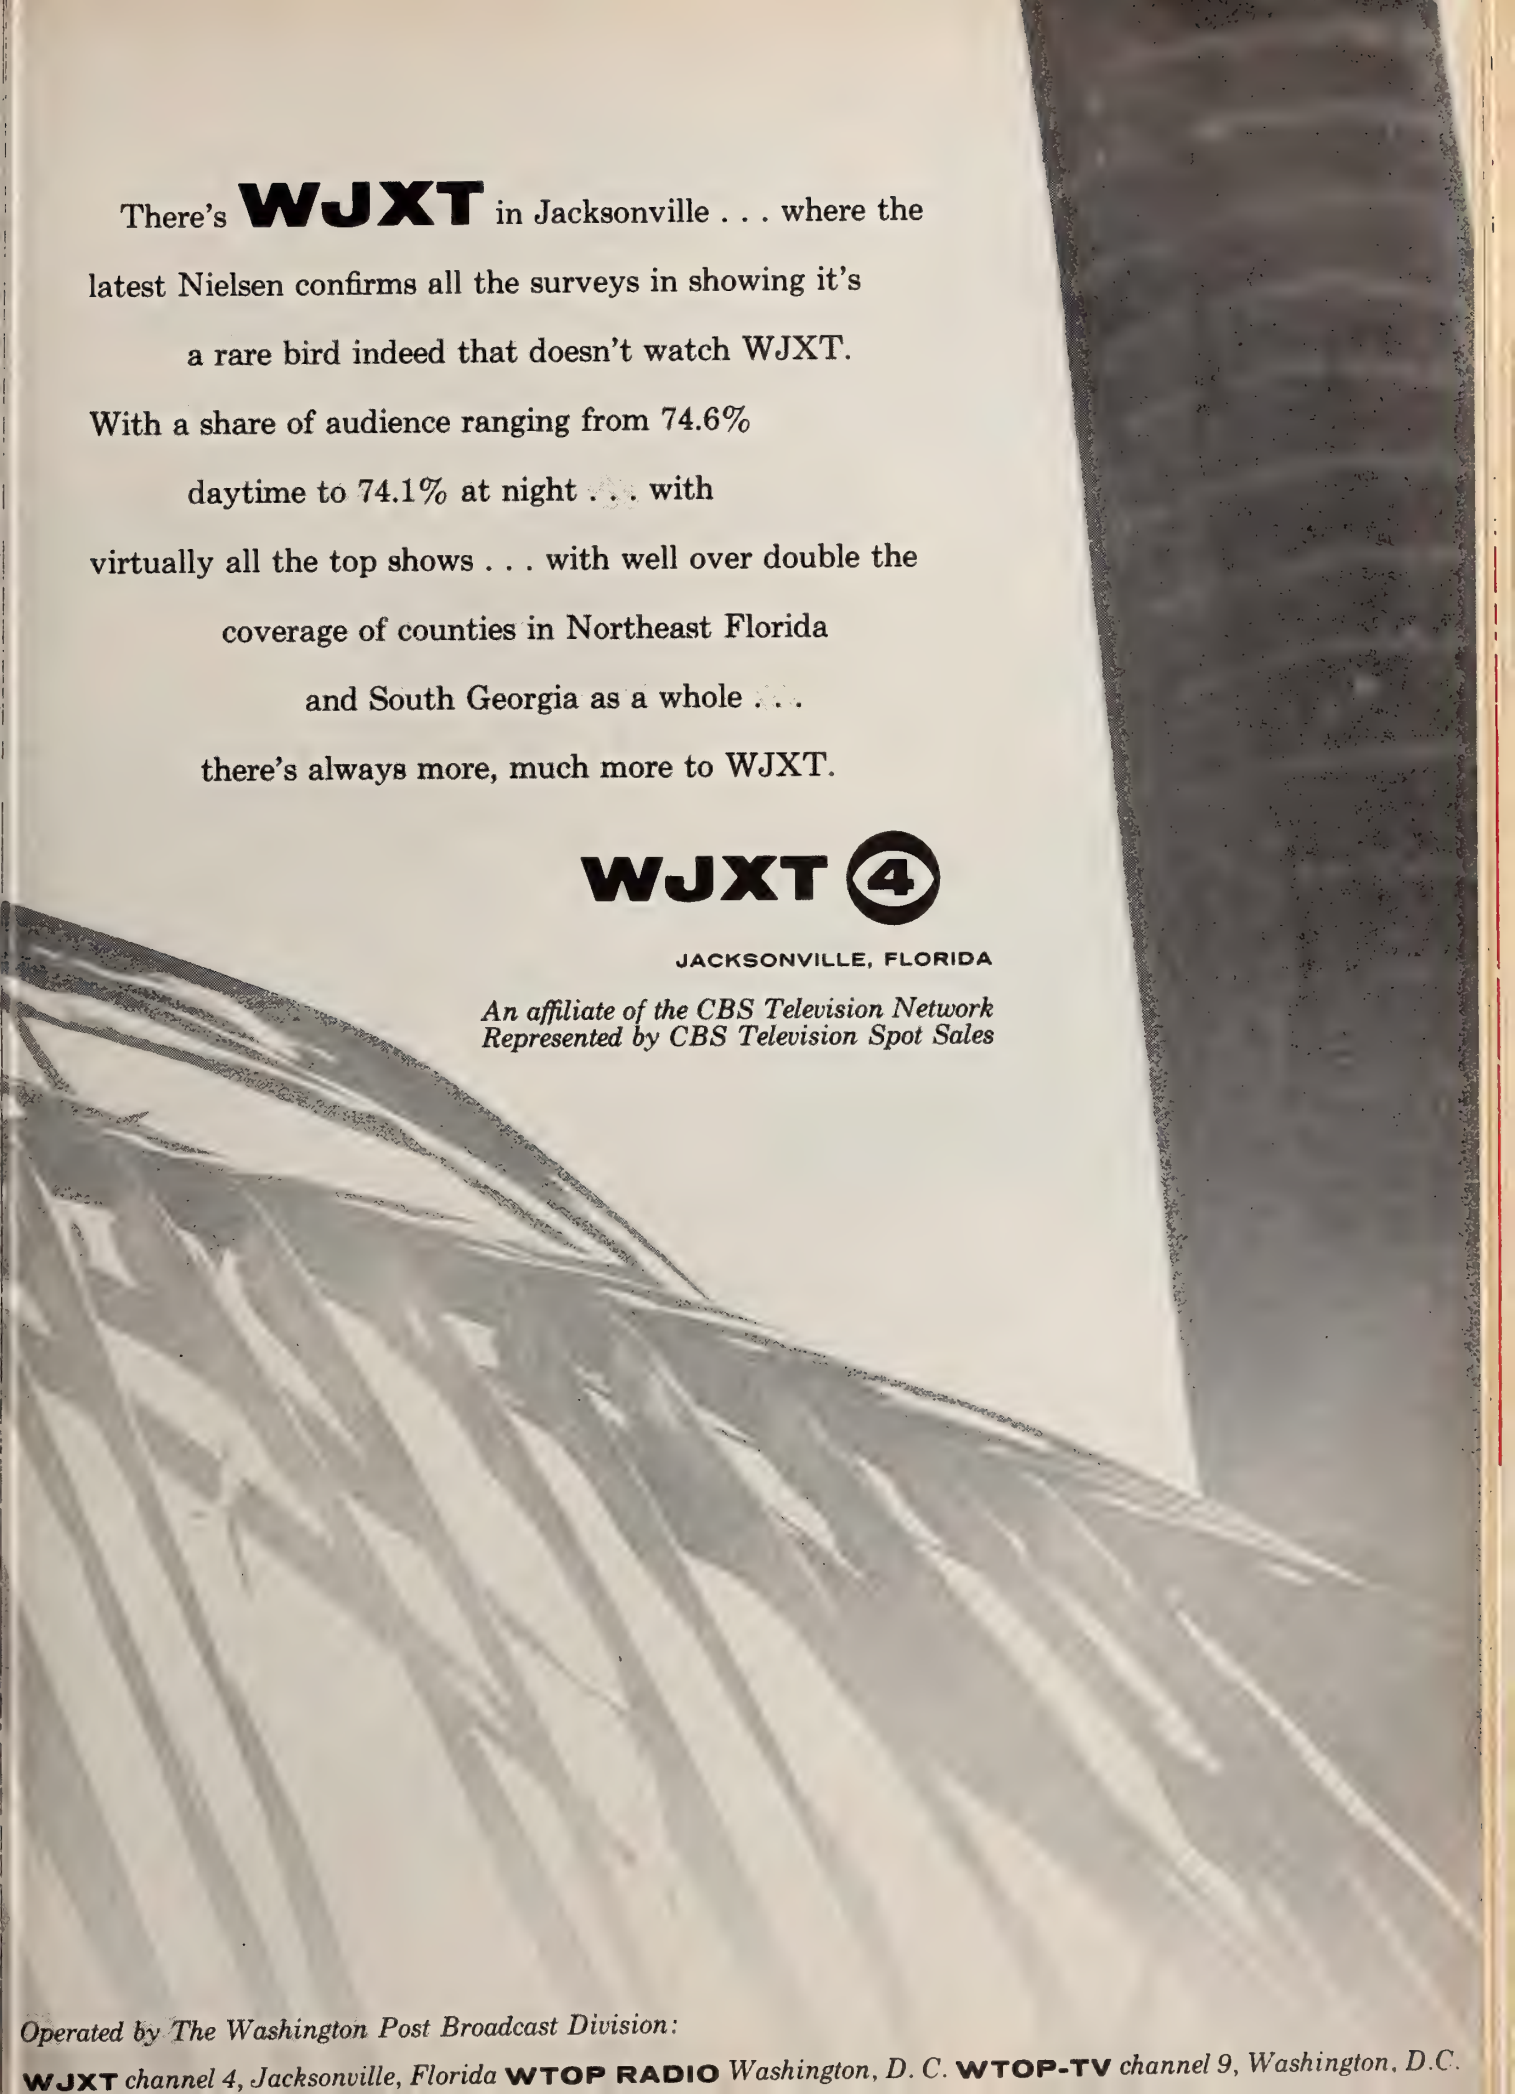
writes Mr. Arthur Barnes, promotion manager, WISN-TV-Radio, Milwaukee, Wis.

"When people like advertising, they *read and remember* it. That's why we know our direct mail book match advertising is packing real sales punch. In a recent, certified survey, 87% of the respondents who had received our book match mailings asked to be continued on the mailing list.

"Besides our direct mail program to agency time buyers and national advertisers, we use book matches as reminder advertising left by our salesmen on local calls. We use them also because they give our prospects something they like and value while putting our message across."



Book matches are invaluable for new product promotions, building company prestige, brand name and package recognition, salesmen's aids, reaching hard-to-see prospects. Book matches are a daily necessity for 3 out of 4 people . . . deliver your message at *extremely low cost-per-reader*.



"Diamensionized" book match advertising gives your sales message new 3-dimensional power, new magnitude and new penetration. Diamond Counselors are professionally trained to design book match programs to meet your specific needs.

MONDAY MEMO

from **EARL TIMMONS,** *director, research and media, Stromberger, LaVene, McKenzie, Los Angeles*

Needed: more radio research

We buy a fair amount of spot radio at Stromberger, LaVene, McKenzie, probably spending as many dollars for this medium in Southern California as any of the agency offices in this market. About 12% of our billing in the last fiscal year went to radio (all spot), as compared to 24% for television, 37% for newspapers, 11% for magazines, 6% for business papers and 8% for outdoor.

The majority of this $600,000 or so of radio money was spent in the Southern California market, hence our obvious interest in local radio research and related problems.

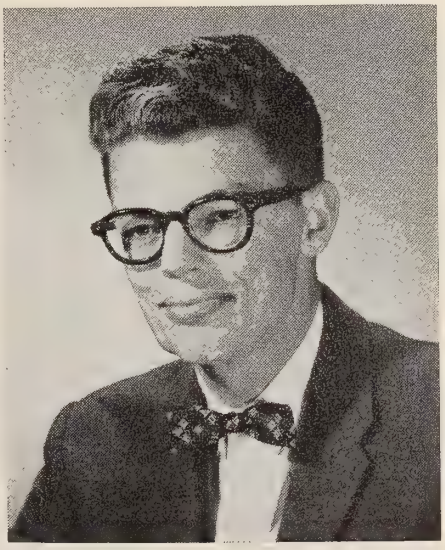
But there could have been more dollars spent in this medium had there been more research available and had it been spotted where we needed it.

Need for More Research • We do not know as much about radio in Southern California as we should.

In a way it is no one's fault, since I attribute it largely to the recent history of radio and television. With the advent of commercial television, radio rapidly became a poor relation as regards research.

Then in the last few years, radio has "come back." As many point out, it never really went away; but it did drop to the bottom of the totem pole among the major media in research spending. It has not yet caught up. But the fault is really nobody's and the solution, as in most media research, lies in the cooperation of all concerned—broadcasters, advertisers and agencies.

What Is Needed • As to what is needed in local radio research, it is easily divided into two broad categories—quantitative and qualitative.



One major limitation of present-day radio research of both types was recently recognized by the National Assn. of Broadcasters, when its Radio Research Committee published a set of minimum standards to be followed by research firms in approving the promotional material developed from research studies. NAB stated that every radio survey report should be prefaced by a statement containing at least these minimums: (1) Dimensions of the audience surveyed; (2) area surveyed; (3) method of survey; (4) size and sample, and (5) survey dates.

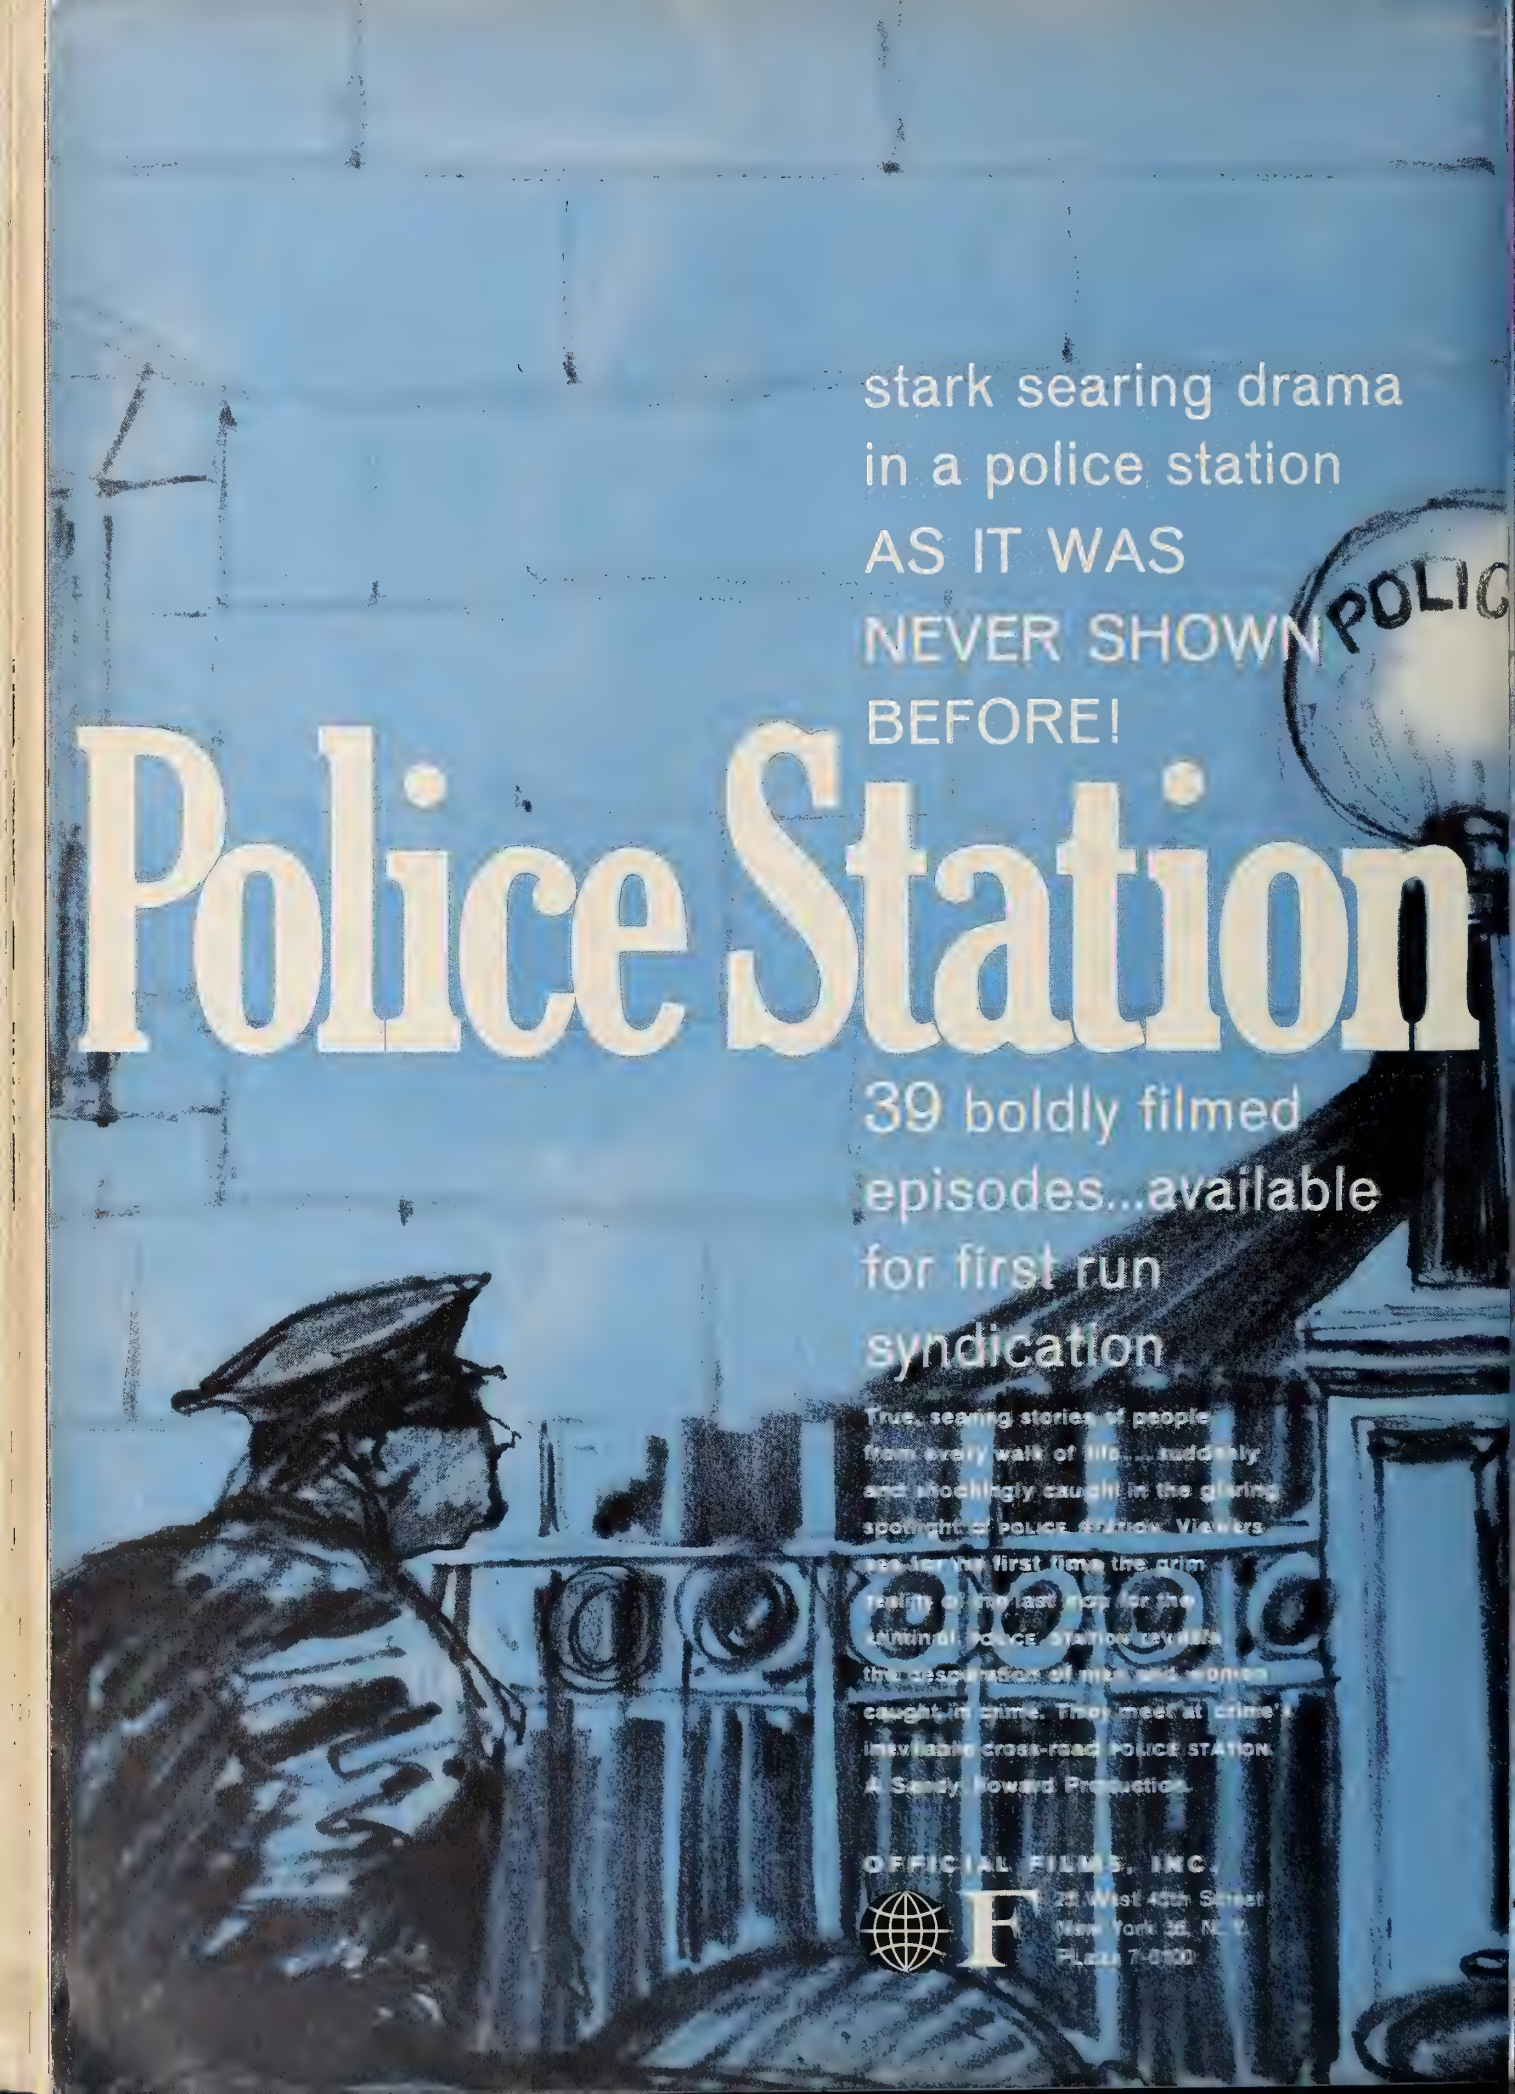
These points are pretty obvious to us today, but many so-called research reports still overlook them.

Quantity and Quality • Another important quantitative limitation is in the nature of today's rating reports on radio. These famous volumes are, of necessity, the starting point for most spot buys. They have their shortcomings, but a buyer has no other source for the size of the audience to be reached. The buyer cannot be honest to the client if he does not consider how large the potential audience is. The quality of the station and the quality of its audience are vital, but they don't help much if no one happens to be listening to the client's commercial.

The usefulness of radio rating reports cannot match that of television rating reports today in a market like Los Angeles, because of the simple fact that we have seven or eight times as many radio stations in the market as we do television stations, with virtually the same total potential audience.

In order for the two report methods to be comparable, the sample size would have to be substantially greater for radio and the cost correspondingly higher. As you know, this is not the case. Their overall statistical accuracy is approximately comparable to that of television ratings. But by the time the sample is subdivided as fine as the user would like it, statistical accuracy has gone out the window.

Earl Timmons b. Hanford, Calif., Dec. 5, 1923. Schooled in Kansas and California. U.S. Army 1943-46, including 18 months in Europe. Graduated UCLA College of Business Administration June 1948. Has spent 11 years in marketing research, including three years with General Telephone Co. of California, three years with a private economic research organization and five years in advertising research (three years with Erwin, Wasey and last two years at Stromberger, LaVene, McKenzie). Lives in Hollywood with wife, Peggy, a tv art director at Erwin, Wasey, Ruthrauff & Ryan.



The buyer would like to know the audience size of all am and fm stations which he might consider buying in the Los Angeles area. He would like this by 15 minute intervals and by audience composition. Today's rating samples cannot be split this fine. The reports compromise by showing just the top 10 or 12 stations and by showing audience composition only for the top programs. Actually they stretch the sample pretty far even showing that much.

Sample Size Factor • As far as the rating services are concerned, they can give us any audience facts we want at little extra cost, once we have given them a big enough sample. Such a sample costs money. Advertisers and agencies will have to pay more for radio rating reports to get that kind of a sample. But since the stations provide the principal support of the rating services, if they want to help us with ratings they are probably going to have to pay more to the researchers for the extra effort.

Radio Most Important • We are convinced that radio is a most important medium in Southern California, perhaps more so here than anywhere else because of the high ratio of autos to population and of miles driven per auto.

In order to prove this to our clients we need to know more about audience characteristics. Cooperative studies of radio in Southern California, of radio in all markets I am sure, seem called for.

One last word in the qualitative area —the final decision must depend heavily upon judgment. To help the buyer, account executive, and the client to exercise the best informed judgment, stations should display their product. Nothing sells a good station better than demonstration of its programming and commercials and nothing kills one faster than misinformation spread around about its policies. If a broadcaster has something good to sell, he should show it off!

Sec. 315: repeal or repent

EDITOR:

Many, many thanks for pages 58, 59 and 62 in Vol. 56, No. 21 [an editorial, "Repeal Sec. 315 Now Or Repent Later," BROADCASTING, May 25].

Frank Stanton
President
CBS Inc., New York

EDITOR:

FREEDOM OF BROADCASTING FROM BUREAUCRATIC RED TAPE AND HAMSTRINGING REGULATION IS LONG OVERDUE. HERE IS THE SOUGHT-FOR OPPORTUNITY TO GET RELIEF FROM THE SOURCE WHENCE IT SHOULD COME—THE CONGRESS OF THE UNITED STATES. EVERY BROADCASTER SHOULD GO INTO ACTION WITH HIS SENATORS AND REPRESENTATIVES, ASKING REPEAL OF SEC. 315. ACTION NOW IS VITAL.

LESLIE C. JOHNSON
VICE PRES. & GEN. MGR.
WHBF-AM-TV ROCK ISLAND, ILL.

[EDITOR'S NOTE: For advance story on hearings by the Senate Interstate and Foreign Commerce Committee on bills to amend Sec. 315 of the Communications Act (political equal time provision) see page 35.]

Electronic timebuying

EDITOR:

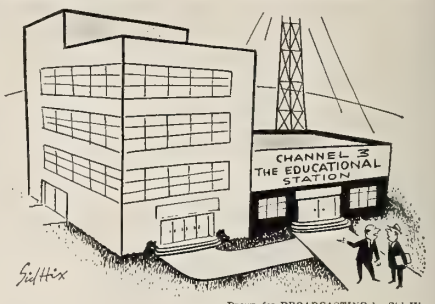
Many thanks for the excellent story in this week's BROADCASTING covering our new nationwide tv audience surveys and our new automation program [LEAD STORY, May 25]. The reporting was most accurate, and many of the points were covered more clearly than we have been able to do in our presentations.

You may be interested in knowing that beginning early Monday morning we received numerous calls and inquiries . . . from all parts of the tv industry commenting and seeking further elaboration on the items in your story.

James W. Seiler, Director
American Research Bureau
Beltsville, Md.

Extensive coverage

EDITOR:



. . . On my return to my office this morning (May 19), I found about 10 letters from friends around the country who had read the article (MONDAY MEMO, page 25, May 11) and they have all been extremely complimentary. You might be interested in knowing that one of the letters even came from a magazine salesman, proving that your publication is far from limited to only those in broadcasting.

John C. Simmons
National Advertising Mgr.
Dr. Pepper Co., Dallas, Tex.

Keep 'em laughing

EDITOR:

If possible I would like to have the original of the Sid Hix cartoon for

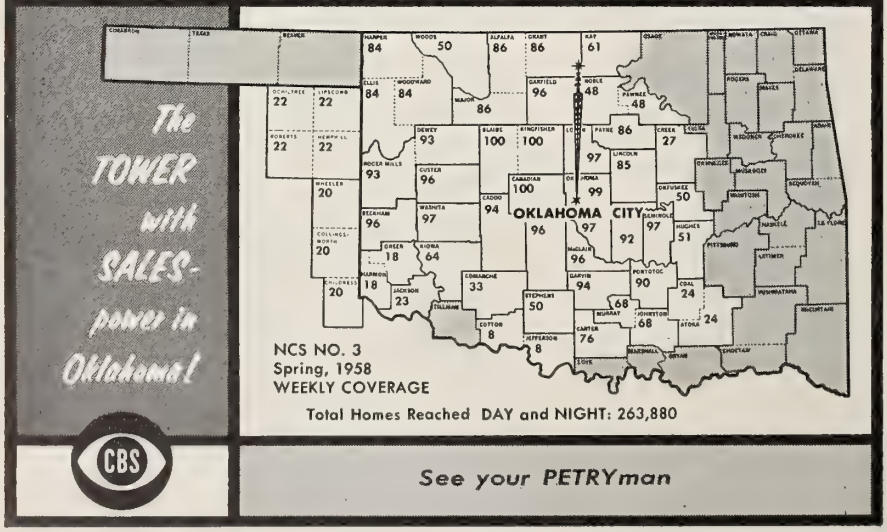
May 18 to frame for display in our headquarters. Visiting etv station managers, I am sure, would enjoy this editorial cartoon.

Ralph Steetle
Executive Director
Joint Council on Educational Television
Washington, D.C.

[EDITOR'S NOTE: Cartoon is enroute. The gagline reads, "We had to build that addition for our fund-raising operations."]

TvB's role: to sell tv



EDITOR:

Your suggestion that there be a federation of trade associations ("The big image" editorial, page 118, May 11) "to supersede these various disjointed activities" is one which is certain to evoke a great deal of thought. However, I think it is a good idea to first look at the functions of these associations before making judgments.

TvB, for one, has a single specific assignment to perform for television stations, networks and representatives and that is to sell the medium to advertisers. In this capacity (excuse my pride as a member of the board of directors and current chairman of TvB), it has performed beyond the industry's highest expectations. . . . TvB's record of development of new dollars, protection of existing ones and the arsenal of selling facts which will continue to keep television revenues at an all-time high, is outstanding. . . .

TvB was never created to serve as a mass good will organization for the

Retailers and radio-tv

EDITOR:

Hurray for you in presenting "Stores Miss Radio-Tv Boat" [retailers cannot afford not to use radio-tv] page 35, Jan. 26 issue. I've knocked my brains out in three different markets getting this point across to retailers.

Bob Walton
Local Sales Mgr.
WRBL-TV Columbus, Ga.

Background helpful

EDITOR:

Once again I wish to compliment your magazine on the splendid article starting on page 76 . . . of your April 27 issue on the position that the community antenna television industry has taken on the matter of FCC licensing.

The manner in which you report a news item and then back it up with an historical summary of the background of the news item is very well presented. I notice you have been doing this more and more in your news coverage. I for one believe that this makes your magazine much more interesting to read and certainly of greater value to the reader in that it gives him the news of importance and at the same time gives him a complete background of the story. This way the reader can weigh the news in its true perspective.

AND...

IN TV AND RADIO—EVERYBODY COUNTS ON BROADCASTING YEARBOOK!

It's a logical dependence. Just as those other venerable volumes are respected as fountainheads of information in their respective fields, so too is the BROADCASTING YEARBOOK recognized as an authority without peer in the business of television and radio!

Why? First of all, there's nothing else like it. Here is the most complete compendium of accurate facts available. It's handy as well as helpful.... Furthermore, you can't beat its established reputation for reliability. For 24 years now, these information-crammed source books have held a place of importance on the desks and bookshelves of every key person in TV-and-radio advertising. Few reference volumes get dog-eared and thumb-printed so fast by so many makers of decisions as a BROADCASTING YEARBOOK.

Now... right around the corner... is the publication date of the bigger-than-ever BROADCASTING YEARBOOK *for 1959—bigger because (1) it contains more, and (2) it covers both electronic media in a single edition.*

The 1959 edition scheduled for August publication will be snapped up by 16,000 busy people with the stakes of their livelihood in television or radio . . . or in both. And because they make BROADCASTING YEARBOOK a working partner, day after day, this remarkable volume becomes a powerful, long-lasting medium for your advertising. This year, the *NEW* combined format represents a greater value than ever.

Mark these dates, large and loud, on your calendar. *Deadline for advertising if proofs are desired: July 1. If no proofs, July 15.* Regular rates and mechanical specifications apply. Write, wire or phone your reservation before another day's sun has set. The *NEW* 1959 BROADCASTING YEARBOOK is too good a bet to miss!

READ WHAT IMPORTANT AGENCY EXECUTIVES SAY ABOUT THE

BROADCASTING YEARBOOK

In an agency as deeply involved in the broadcast media as we are, the compilation of facts such as those contained in your new YEARBOOK is invaluable. Congratulations!

Ted Bergmann, President
Parkson Agency
New York, N. Y.

I always look forward to the BROADCASTING YEARBOOK. It is a contribution to the industry and contains so many valuable facts.

Arthur Pardoll, Media Group Director
Foote, Cone & Belding
New York

. . . I find the YEARBOOK a valuable reference and . . . will be referring to it constantly.

William King Jr., V.P.
Kenyon & Eckhardt
Los Angeles

. . . The 1958 YEARBOOK is very complete and is constantly within arm's reach of all our buyers and supervisors.

. . . YEARBOOK will be frequently used.

Marie Coleman
Donahue & Coe
New York

. . . I leafed through the YEARBOOK from cover to cover. It's a storehouse of real information. Congratulations on making it better every year.

Harry W. Witt, Vice President
Reach, McClinton & Co.
Los Angeles

THE NEW, TWO-IN-ONE BROADCASTING YEARBOOK OFFERS FEATURES LIKE THESE:

- **Latest working information about *both* television and radio.
- **Directories restyled for faster reference—giving facilities and key personnel, of advertising agencies, networks, stations, station representatives, program suppliers, equipment sources, and many other organizations related to TV-radio business.
- **Definitive round-up introductions, reporting on progress in each major area of activity covered by a directory.
- **Special articles and reports on such important developments as—
  - . . . radio and TV audiences, their size and composition.
  - . . . radio and television time sales — by network, spot and local—nationally and by individual markets.
  - . . . market information for every U.S. county.
  - . . . trends in the use of feature and syndicated film.
  - . . . analyses of specialized radio programming—foreign language, Negro market, multiplexing, stereophonic broadcasting.
  - . . . a review of how advertising agencies have grown with radio and television.
- **PLUS — all the many other standard features which have made BROADCASTING YEARBOOK *the* most authoritative, most cosely-read reference work in radio and television for the past 24 years!

BINGO TIME-U.S.A.—Box 906, DENVER 2, COLO.—Plant OMAHA, NEBR.

This card is printed on seven colors of paper stock, 3000 unduplicated cards to a series. Each week's order is either printed on a different color paper stock, or the ad message is printed in a different ink color. This gives you weekly card color distribution control.

Game name can be any name that you want printed on ribbon. Call letters may be printed in center square.

Since we imprint eight cards at a time, you are allowed eight ads with order. However, you must supply us with camera ready copy of ads or a fee of $10.00 will be charged for 1 ad; $25.00 for eight ads.

Minimum order is 39,000 cards. This will give you 3000 cards per week, for thirteen weeks.

SEC. 315: BEGINNING OF THE END?

FCC's Doerfer, repeal advocate, to open Senate hearing; Stanton, Fellows, Swezey, Smith urge death for old law

The spreading move for relief from the political broadcast law will go to hearing next week before a Senate Commerce subcommittee.

New support for repeal of Sec. 315 of the Communications Act, with its throttling effect on broadcasts of political campaigns, was developing last week. Outright repeal had been urged by BROADCASTING (May 25) in an editorial titled "Repeal Sec. 315 Now or Repent Later."

While the sentiment for repeal isn't unanimous, at the very least those who stated positions last week called for modification of Sec. 315.

Networks, NAB, federal agencies and broadcast stations are slated to appear at the subcommittee hearings, scheduled to start June 12.

Sen. John A. Pastore (D-R.I.), chairman of the Communications Subcommittee which will hear the Sec. 315 argument, said four bills to amend Sec. 315 will come before the sessions. At least three days of hearings are scheduled.

Top industry figures will present the position of broadcasters, divided between demand for outright repeal and/or clarification of the equal-time clause. Dr. Frank Stanton, CBS Inc. president, will represent that network. President Harold E. Fellows, of NAB, will appear for the association. In a letter endorsing the BROADCASTING editorial, Mr. Fellows came out for complete elimination of Sec. 315.

Witness Lineup Incomplete • Other industry witnesses had not been announced at the weekend. AB-PT's president, Leonard H. Goldenson, recently went on record for ABC network on behalf of clarified language in the equal-time clause. Malcolm E. Smith Jr., MBS board chairman, called for repeal in a statement to BROADCASTING. MBS wants a law that will recognize broadcasting's maturity and ability to cover campaigns fairly. The MBS witness has not been designated but there's a good chance Robert F. Hurleigh, vice chairman, will appear.

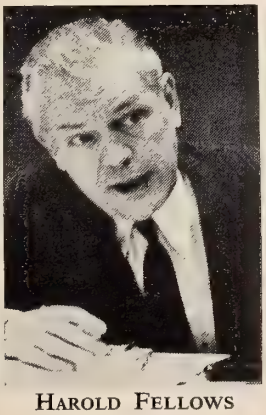
FCC Chairman John C. Doerfer will testify for the FCC.

Chairman Doerfer, who will be the first witness, said his appearance at the hearing as Commission head would be based on a formal statement approved by the agency. However if he is questioned on his personal views he probably will take a stand for repeal of Sec. 315 in accordance with his comments at the NAB convention last March (BROADCASTING, March 23).

In Chicago, Chairman Doerfer said for the first time that he favored repeal of the section and substitution of "a rule of reason." Should abuses develop after repeal, he said, then safeguards could be written into a new law.

The chairman said also that he felt distinctions should be drawn to keep the equal-time requirements from applying to other legitimate news coverage even if political candidates are involved. He proposed a test of this type: Did the candidate (or his party, backers, etc.) initiate the coverage, or was he included because, in the station's news judgment, he was newsworthy apart from political considerations? If the latter, the equal-time provision should not apply.

FCC Decision Imminent • A decision by FCC on appeals for reconsideration of its Lar Daly decision is due soon, possibly this week.



Chairman Pastore announced hearings would start at 10 a.m. in Room 5110 of the new Senate Office Bldg. The four bills to come before the June 12 opening session are S 1585 by Sen. Gordon Allot (R-Colo.); S 1604 by Sen. Strom Thurmond (D-S.C.); S 1858 by Sen. Vance Hartke (D-Ind.), and S 1929 by Sen. Spessard L. Holland (D-Fla.).

All four bills were introduced after the FCC interpreted Sec. 315 to require granting of equal time to Lar Daly, splinter candidate in a Chicago election, after ceremonial appearances by Mayor Richard J. Daley (BROADCASTING, Feb. 23).

Following the opening testimony of

FRANK STANTON
CBS President

HAROLD FELLOWS
NAB President

JOHN DOERFER
FCC Chairman

ROBERT SWEZEY
Access Leader

MALCOLM SMITH
MBS Chairman

All these leaders want repeal of the political broadcasting law

Chairman Doerfer, the Dept. of Justice will be heard. Dr. Stanton also is early on the list.

The Allot, Thurmond and Holland bills would exempt broadcasters from the provisions of Sec. 315. In addition, the Hartke bill would clarify the libel responsibility of broadcasters for candidates' remarks and define qualified candidates.

NAB notified the committee May 27 that President Fellows would appear on behalf of the association. It was not known if member broadcasters would testify for the industry under association auspices.

Swezey Possible Witness • The NAB Freedom of Information Committee will meet June 11 at the Mayflower Hotel, Washington, one day before the Senate committee starts its hearings. It was suggested the NAB committee chairman, Robert D. Swezey, WDSU-AM-TV New Orleans, might appear on behalf of his NAB group but this decision awaits the June 11 meeting.

Chairman Swezey last week "heartily endorsed" the BROADCASTING position for repeal of Sec. 315. He said:

"The climate is right for a clean sweep. I fear bills proposing modification of this section in various particulars may raise new interpretive questions," Mr. Swezey said. "Anything short of repeal is temporization with a problem that has caused untold hardship, inconvenience and confusion for both government and industry."

NAB Statement • Mr. Fellows' statement calling for "complete repeal" of Sec. 315 follows:

"The BROADCASTING editorial of May 25 presents the problems of the industry, relative to Sec. 315 and the upcoming Senate hearings, in realistic terms.

"As pointed out in the editorial, NAB, in 1952, concluded that the only real solution to the political broadcasting dilemma was the complete repeal of Sec. 315. We reached this conclusion after considering all of the possible alternatives which had been proposed. Each was subject to serious defects, and none, we believe, would serve the interests of the public, the candidates, and the broadcasters, as well as the complete elimination of Section 315.

"We recognize that this solution will place upon the broadcaster the necessity of making fair and honest judgments during campaigns. However, the broadcaster has been performing this function in a fair and reasonable manner when treating with issues controversial in nature, and for that matter, when scheduling appearances of those who might be speaking in behalf of a particular candidate.

"We are confident that if Sec. 315 were repealed, the broadcasting industry would continue to provide fair and objective coverage of political campaigns."

CBS Backs Hartke Proposal • Dr. Stanton told BROADCASTING that while the network wants repeal of Sec. 315, it approves the discretional relief in the Hartke bill. He said:

"CBS strongly supports the Hartke bill. It represents a significant advance in freeing a broadcaster from restrictions which have resulted in impairing radio and television's participating in, and informing the electorate first hand during campaigns.

"Concededly, CBS believes that the ideal solution would be to repeal Sec. 315 altogether and to rely on the general standards of fairness and balance. These are the standards which govern the broadcaster in all other areas of controversy, and it is submitted that there is a 30-year track record which establishes reliability and responsibility wholly outside Sec. 315.

"But CBS believes in taking first steps first. With the 1960 Presidential campaign only a year away, CBS believes it urgent, first, that the Lar Daly decision be reversed; second, that there be greater discretion to exclude fringe candidates in Presidential campaigns and, third, that the opportunity for genuine two-way discussion and debate among all important candidates be expanded and encouraged.

"The Hartke bill accomplishes each of these vital objectives."

NBC endorsed the Sec. 315 editorial, issuing this statement: "BROADCASTING is to be congratulated on an excellent and timely analysis of the problems that have been spawned by Sec. 315 and which have plagued the industry for years. NBC is studying the several leg-

PARTY LINE VOTE

Oversight committee furor over Sec. 315

Sec. 315 of the Communications Act has caused the first public rift of 1959 in the controversial Legislative Oversight Subcommittee. The subcommittee's chagrined ranking minority member last week accused the investigative body of "unwarranted interference" with the FCC.

Rep. John Bennett (R-Mich.) became incensed when a subcommittee majority last Monday (May 25) voted, along party lines, to inquire of the Justice Dept. and the FCC on what basis Justice had a right to intervene in the Lar Daly-Chicago case (BROADCASTING, May 11). In a letter to Attorney General William Rogers, over the signature of Chairman Oren Harris (D-Ark.), the subcommittee stated it "would appreciate learning from you the statutory or other basis upon which you undertake to have the Commission reverse its application of the statute and exercise its powers thereunder in accordance with the views expressed in your memorandum."

Justice had urged the FCC to reconsider its decision that Mr. Daly, a candidate for mayor on both parties' tickets, was entitled to equal time on Chicago's tv stations because the incumbent mayor had appeared in regular newscasts. Justice also sought FCC authority to file an *amicus curiae* brief in the case.

The subcommittee, in addition, asked of the FCC the role of the Attorney General under the Communications Act or "any rule promulgated by the Commission thereunder in connection with the administration of Sec. 315 . . ."

"This action is not only an interference on the part of the committee with the adjudicatory processes of an independent regulatory agency," Rep. Bennett charged, "but it also amounts to unwarranted pressure on the part of the committee upon an independent agency during the agency's deliberations and prior to its decision. One of the basic purposes of the Legislative Oversight Committee is to uncover and prevent the exertion of this kind of pressure upon independent agencies on the part of others. To be guilty of the same conduct it was designed to prevent places [its] future work and usefulness . . . in great jeopardy."

Democratic members of the subcommittee were quick to deny Rep. Bennett's charges. "Purely and simply ridiculous," stated Rep. Peter Mack Jr. (D-Ill.). "All we are trying to do is find out if the Executive Branch of the government is trying to influence the FCC," he said. President Eisenhower had termed the decision "ridiculous" and told the Justice Dept. to consider whether any remedial legislation is needed (BROADCASTING, March 23).

Rep. John Moss (D-Calif.) moved that the inquiries be sent to Justice and FCC, with all five Democratic members voting for the proposal. Three Republican members voted against sending the letters and the fourth minority member (Rep. Stephen Derounian of New York) was not present.

WHO-TV IS "TOP BANANA"!

WHO-TV is on top of the bunch in Central Iowa television, and the formula's as easy as pie—banana pie!

WHO-TV simply gives this booming $2 billion market *the very best there is in television.*

And WHO-TV *nourishes* its giant audience, with a terrific library of top film packages. Three top rated daily shows (Mon.-Fri.) are exceptional, low cost "buys" for your announcements. Cumulative ARB ratings are:

FAMILY THEATRE (Noon-2 p.m.)—42.0%
EARLY SHOW (4:30-6:05 p.m.)—47.9%
LATE SHOW (10:30 p.m.-sign-off)—31.7%

Ask PGW for ALL the reasons why WHO-TV is "top banana" in Central Iowa!

islative proposals that have been made to remedy the situation and will present its views to the congressional committee concerned."

Mutual Takes Stand • MBS Chairman Smith said there is "no doubt that the original Communications Act, designed to circumvent abuses of air privileges, is now archaic." The controversial Lar Daly decision on Sec. 315 has definitely proved that, he said, adding:

"There are many acts in the congressional hoppers now designed to change this pattern. Some, such as Sen. Vance Hartke's 'Fair Political Broadcasting Act of 1959' (S 1858), stress changes merely in political usage of air facilities. Others go farther to permit more provocative and editorial use of air-waves.

"I feel, however, that one thing must be kept uppermost in mind by Congress—that 40 years of consistently good practice, good judgment, responsible self-policing, common sense, extreme fairness and community consciousness of broadcasters should be recognized by the lawmakers. Licensees have proved their abilities and rights despite hecklings, harassments and provocative criticisms from competitive media. They have shown themselves to be responsible users of publicly franchised facilities, as responsible as all others who have used public properties for the betterment and advancement of our country and its peoples.

"Congress should consider broadcasters like any others in the broad communications field—men fully qualified and sufficiently responsible to operate with a minimum of government supervision. This is a philosophy and tenet that BROADCASTING magazine has itself emphasized through the years.

It is not sufficient merely to provide stop-gap remedies to prevent repetitions of Lar Daly decisions. The ultimate, it seems to me, is complete recognition of broadcasting as an of-age medium, operated by men with wisdom, foresight and keen awareness of their responsibilities to the people in their listening areas and the nation as a whole.

"This means, too, breaking down of various Jericho Walls that still stand in broadcasters' ways towards providing the ultimate in service to listeners—services that listeners want, and need, today. I have great faith in the upcoming hearings. I think from these will come the stepping stones we are seeking. But broadcasters should not be satisfied until full recognition of their medium is demonstrated by our federal government."

ABC Qualifies Support • ABC Network's position advocating partial clarification of the equal-time section was stated in a recent letter answering a request by Sen. Hartke for network opinion. President Goldenson expressed the network's views as follows:

"ABC would welcome a clarification of the act to provide that news coverage of a legally qualified candidate on a newscast shall not be deemed to be a 'use' of a broadcasting station within the meaning of the act. Also, ABC would welcome a clarification of the act absolving the broadcaster of liability for any defamatory statement made by a legally qualified candidate unless the broadcaster participated in preparation of such material.

"However, with respect to the proposed amendments concerning candidates for the office of President or Vice President of the United States, the problem of definition is indeed, as you recognized in your own letter, an extremely complex one. While the present provisions of Sec. 315 can in certain instances create troublesome questions for us as well as others, nevertheless there are many diverse and conflicting interests which must be protected and carefully considered in connection with any change, lest we substitute for the present requirements of Sec. 315 other provisions which would prove unworkable or even more difficult to administer.

"It is not readily apparent to us at this time how best to preserve the legitimate rights of all parties involved and our concern is that the time required for the deliberations necessary

BROADCAST ADVERTISING

FORD $25 MILLION HAND REVEALED

CBS-TV loses Robinson to program project benefiting NBC-TV

The Ford Motor Co.'s projected network tv splash next season made its first deep impression on the tv industry last week. It will involve an estimated $25 million-plus in time and talent.

Ironically, the most impressed was CBS-TV, which is not expected to share in the $25 million investment.

Ford's drive to wrap up its fall programming involves, among other features, one of the most ambitious network tv undertakings yet conceived—a tv special each week for 39 weeks (on NBC-TV).

CBS-TV officials reacted with shock to the formal resignation tendered last week by Hubbell Robinson, the network's executive vice president in charge of programming (see WEEK's HEADLINERS, page 10). Mr. Robinson departs the network perhaps as early as the end of this week to head his own tv production company, Hubbell Robinson Jr. Assoc., Hollywood.

The assignment: production service for the Ford Motor tv specials with Mr. Robinson as executive producer on the series and Music Corp. of America acting as his agent. (MCA Tv will sell product that Mr. Robinson's firm creates, produces and packages.)

Second Major Change • His resignation, which was the second major change at CBS-TV in two weeks (the first was appointment of James T. Aubrey Jr., CBS-TV's vice president for creative services, to executive vice president with general supervision of all the network's departments) was announced to CBS-TV affiliates by closed circuit Tuesday (May 26).

The CBS-TV executives at the telecast were Mr. Robinson, Mr. Aubrey and CBS-TV President Louis G. Cowan.

Mr. Robinson assured the stations that "the organization on the program side is in good hands," noting that William Dozier in Hollywood (vice president for network programs) and Harry G. Ommerle in New York (vice president in charge of network programs) "will continue to oversee the entire programming operation."

He added. "I'll still be producing for CBS and Lou Cowan may be my first customer."

Implications were that for the immediate present CBS would not fill Mr. Robinson's post, other CBS-TV programming executives absorbing his duties.

. . . . . They have powerful support, but also powerful opposition

for a general rewriting of the equal time requirements may well result in delay in achieving the immediate implementation of the statute to meet the critical need of excluding news coverage from its purview.

"ABC would, of course, be glad to appear and testify before your committee when and if hearings are scheduled."

American Civil Liberties Union has noted the problems created by Sec. 315 though it originally endorsed its language because of a desire to see a fair break on the air for all candidates. Executive Director Patrick Murphy Malin explained ACLU's stand:

"The ACLU has supported Sec. 315 because, on balance, it seems generally to have resulted in fair treatment of candidates during election periods, particularly by giving minority party candidates the opportunity to express their views. As radio-tv stations are licensed to serve the public interest, we believe their facilities should be used to bring the fullest discussion to the electorate.

"However, we recognize that the section's requirement of 'equal time' has created difficult situations which, in some instances, have reduced opportunities for debate among major candidates. The ACLU, therefore, always is eager to review plans suggested to assure fair and balanced discussion among all candidates. The current questions raised about Sec. 315 are now being studied by our radio-tv committee and we hope to make known our views soon.

"One other aspect of Sec. 315 needs to be mentioned. This is our belief that radio-tv stations are immune from libel action if they broadcast defamatory statements by a political candidate who demands 'equal time'. This position was presented in a brief filed with the Supreme Court in the Farmers Union-WDAY case, in which we stated that the law's purpose to promote the widest political discussion would be defeated if station managers become the final arbiters of what might be defamatory matter. Behind this position, naturally, is recognition of Sec. 315's prohibition against censoring a candidate's material."

ACLU is expected to submit a statement at the Senate hearing.

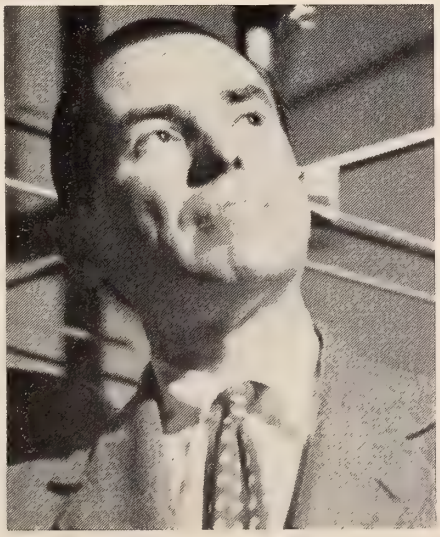
Opposition in House • While Sen. Hartke was optimistic over chances his bill will be enacted, members of the House weren't so certain. Rep. Jack Flynt Jr. (D-Ga.) said that Sec. 315, "if fairly enforced, is both workable and fair." He said candidates must be assured of protection.

Rep. Peter F. Mack Jr. (D-Ill.) said, "I am certainly not insisting that every 'i' be dotted and every 't' crossed in enforcing the present bill but Congress must proceed with caution. It would be rather dangerous to isolate a particular instance and exempt equal time, as in the case of news coverage and panel shows."

Several representatives feared broadcasters would not always be completely impartial in presenting panel shows and covering campaign news. Reps. Flynt and Mack were members of the House Committee that gave a pocket veto to 1956 amendments to Sec. 315 following hearings. At those hearings, however, there was not the broadcaster preparation that is promised for the Senate hearings next week.

Sen. Andrew F. Schoeppel (R-Kan.), in a May 23 address to Kansas Assn. of Radio Broadcasters, meeting in Wichita, said he disagreed with the equal-time law but added "some licensees would welcome the opportunity to be selective on their own part."

A new legal guidepost with a reasonable approach is needed for practical operation of broadcasting, he suggested, paying tribute to broadcasting "as a catalyst between people and events." Leaving politics for a moment, he credited the industry with selling vast amounts of goods to make America the industrial marvel of the world. "The broadcasting industry is . . . vital in today's world," he added.



Broadcasters have the right to editorialize, Sen. Schoeppel said, but noted that in the public interest this editorializing requires a high degree of fairness.

Mr. Robinson's departure comes at a point where the network's fall programming appears set, thus presaging no sudden upheavals in that area.

Ford's network tv showcase will consist of both one-hour and 90-minute specials, including variety, musical and dramatic formats, live, tape and on film. A good measure of the production will be in Hollywood but there are plans for at least one and possibly two shows to be produced in England.

Ford Thinking • Theory behind the concept, as worked out by Mr. Robinson, Dan Seymour, vice president and radio-tv chieftain at J. Walter Thompson, and packager MCA, is that the specials at first will create excitement and be of such quality and interest as to draw viewers back to the same time slot (Tuesday, 9:30-10:30 p.m.) for 39 weeks.

Some time ago, Mr. Robinson and Mr. Seymour had mapped a similar fall series that Ford would have sponsored on CBS-TV. But that network after study reportedly did not accept the Ford proposal on its 39-week only basis. Ford's contract with NBC-TV apparently calls for the 39 weeks firm and an option for another 39 in the 1960-61 season. The network thus will have to program and sell the 13 weeks in between.

PROGRAMMER ROBINSON

Heading Ford tv production line

In the Ford budgeting it is estimated the advertiser next fall will invest 40% more in network tv than it did this past season. In addition to its highly-budgeted Ford specials—there were reports placing the cost at $12 million, including time and talent—the auto manufacturer will continue to sponsor the weekly half-hour *Ford Show* (Tennessee Ernie Ford) on NBC-TV, and an alternate weekly hour of *Wagon Train* on NBC-TV.

Off-the-cuff estimates place the production budget of the specials alone at some $8 millions, which would place the effort as one of the most costly in network tv.

Progress Rate • Of the projected 39 specials, it was learned that some two dozen have been "shaped up" (that is, stars signed, properties purchased or programs otherwise conceived).

In the Robinson arrangement, the production company will not be limited

A Wide-Open "WASHINGTON LETTER" . . .

To America's 5,697 Important Radio Advertisers

—and to the Washington Area's Most Important *Million* Citizens: Our Federal Government's Employees, Their Families and Friends.

FOREWORD: *This is the first personal message I have ever addressed to—and in behalf of—the tremendously important Washington area consumer market . . . in many ways the most important of its kind in America today. Seldom, if indeed ever, in this country's brilliant advertising and marketing history, has a radio station been planned so completely to surround, saturate and sell a market so rich in potential, as the 250,000 Government Employees whose listening ear this station now specifically serves. Those who fail to read the following statement will miss a business message of inestimable value.*

President, and Chairman of the Board,
Radio Station WGAY.

(Now with studios in Maryland, Virginia and the District of Columbia)

* * *

With the publication of this announcement, there comes to you the first news of an entirely new technique in shaping an advertising medium to *exactly, specifically fit* a rich, and vitally important consumer market.

It is (so far as is known) the first *successful* attempt to apply to the great field of radio broadcasting the *only* basic principle ever found successful in designing a *primary* consumer advertising medium of any kind.

Nowhere else in America (so far as is known) is there a radio broadcasting station beamed so *directly and exclusively* at—and for—a large prosperous group of free-spending consumers and their families and friends, as the Washington area's *new* Radio Station WGAY.

With a specialized broadcasting service that includes news of, and for, the Federal Government and its dedicated Washington area workers, WGAY announces the final triumph of years of careful planning.

Planning which now makes this station—alone of all advertising facilities available to those who wish to advertise in this rich, important consumer market—the finest and most profitable *selling* medium available.

* * *

In order to fully bring out the importance of this new broadcasting achievement, consider these typical examples:

—A retailer, plant owner, lawyer, accountant, doctor or businessman in any line, has one or more magazines or trade journals edited and published exactly for him.

—A housewife, fashion designer, or career girl has many magazines, radio programs, TV programs and the like that appeal exactly to her own special interests.

—An average man or woman in office, factory, or construction work has newspapers, magazines, and programs of wide general interest to keep them informed on their own work and affairs.

But nowhere in the entire Washington market area has there been a radio station or broadcasting facility which is designed specifically and exactly to select, reach, interest and sell the U.S. Government Employee, and his or her circle of family and friends.

Our 250,000 Federal Government workers number a full quarter-million of $6000-and-over incomes—who with their families and friends comprise a "market within a market" of close to *one million consumers.*

Yet up to now, the only way to reach this huge prosperous "market within a market," was through advertising media edited and published—not for this specific group—but for the general public at large.

No wonder that advertisers wishing to reach and sell the Government Employee, have found that it has been—up to now—one of the most expensive *per capita* advertising projects on the American business scene. *And this is particularly vital, when you realize that in reaching and selling the Government Employee, regardless of his or her level or status, you reach and sell a "sphere of influence" that places all consumers in the whole great Washington area market right in your lap.*

* * *

No city on earth, no matter where, is quite like Washington, D. C.

Advertisers and marketers who judge it by other markets, or try to sell in Washington by generally accepted marketing procedures, sometimes miss this fact.

It is the Government Employee, at all levels, who makes this so. Washington is a City of Government and of the men and women who make good government in this country possible.

To many marketing experts, it has long been a source of wonderment that so little broadcasting time on the air, and so little space in so many publications, has been devoted *specifically and exclusively* to the people and the governmental agencies that are personally and officially responsible for the movement and activities of governmental affairs.

It has been a source of wonderment to me. (Especially during the ten years I spent as a Government employee.)

It has been a *challenge* to me, to find a way of providing constant, scheduled, tailormade broadcasting news and comment *of and for* this "market within a market," within the Washington area: *The all-important people who help run the United States Government.*

Recently, with the purchase of Station WGAY, this challenge became an opportunity.

And so, today, it is my privilege to promise greater Washington a new technique in radio broadcasting.

A technique designed for the viewpoint of the listener and advertiser in this inherent segment of our American way of life.

To further clarify this new WGAY technique, it is necessary to borrow another example from other media fields—*because nothing like this has ever happened in radio broadcasting before.*

A few years ago, on the eve of one of the highest circulations in the history of general publications, a great and time-honored national magazine announced it would have to cease publication.

Now why would a great magazine, read by millions, fail of its purpose?

The answer is, *lack of specialization.* When a publication (or a radio station) *tries to serve too broad an area . . . when it tries to be all things to all people . . . it ends inevitably doing too little for too many.*

The new WGAY will not be guilty of such a marketing error.

We are concentrating specifically on the men and women of Government, and through them their families and friends, who comprise the "market within a market" of our great Washington community.

How the New WGAY Will Implement this Specific New Radio Concept.

Within the framework of our Federal and District Governments are more than 80 separate agencies.

Each one of these regularly releases news of importance—not only to the public at large, but *to those who comprise the agency personnel.*

Up to now, there has been no day-to-day, regularly-scheduled dissemination of the news from these agencies. Such news has been subject to the needs of radio and news publication editors, and has been used on a basis of *interest to the general public* rather than government personnel.

Thus, in the welter of news releases that pour out of these Government agencies, many important items are overlooked. Contrary to sentiment (in some quarters) that so many releases are unnecessary and costly, it is quite evident that they are not only necessary but vital in the complex movement of Governmental affairs.

It is the calculated policy of the NEW Radio Station WGAY to broadcast Government News Bulletins each quarter-hour throughout the broadcast day.

Plus the kind of *good* music that has been responsible for the sale of millions upon millions of albums and single records. Records by such great artists as: Perry Como, Percy Faith, Frank Sinatra, Patti Page, Doris Day, Peggy Lee and scores of others.

In this way, the entire area of Governmental activity will become public knowledge.

And employees of Government will, themselves, keep abreast of the activities and decisions of their own agencies, departments, divisions and offices—whether at home or in the car—by staying tuned to WGAY.

* * *

But the news of Government itself is only part of the new WGAY broadcasting Services. News is not necessarily "news" to all.

Nor is it of particular interest to the individual, except as it affects *him.*

Therefore, the new WGAY concept of airing Government activities will be *personalized* for those to whom it is of paramount importance: *The Government Official and Staff Worker.*

Our quarter-hour news bulletins will frequently be broadcast by the *agency or department head personally.*

And not all of these bulletins will concern *decisions by departments* in their broader aspects.

Many of them will directly concern the inner activities of the agencies and the individuals concerned. In short:

—Although in serving the Government Employee we are—in the broad sense—also serving all of the people, WGAY *will not* establish an arbitrary "news policy" that requires our news bulletins to be of *general* interest to the "public at large."

—Primarily, our aim will be to keep Government Personnel informed of their own activities, of their own agency, department, or division—in a personal, intimate, airworthy manner.

—WGAY will serve, first and foremost, the specific interests of the quarter-million "first citizens" of greater Washington and their families and friends —the group who comprise the top-and-center segments of our social, economic and political community.

* * *

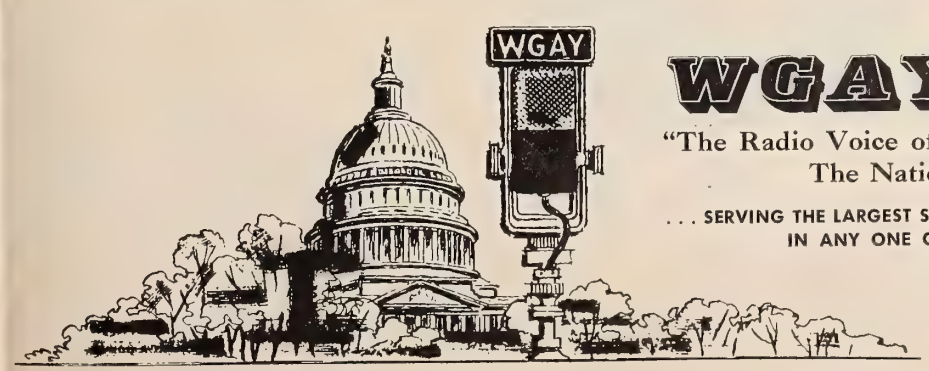
Business and Industry Should Quickly Learn the Value of this "Market within a Market"

If you are a businessman or manufacturer selling merchandise or offering services in greater Washington, this announcement is of compelling importance to you. And for three compelling reasons:

1. It means that for the first time, there will be a focal point of listening interest for Government people.
2. It means that for the first time, there is a *specialized* advertising medium in the Washington area that reaches the *first and the most people, with the most to spend.*
3. It means that an advertiser can now *beam* his message *exclusively* to Government Personnel, without the expense of using "general" media designed to reach "everybody."

For the first time in Washington, an advertising medium of "general" listener-interest will offer a *specialized, personalized* service to those *who mean the most, earn the most and buy the most in the Washington market.*

—For the first time you will have a direct pipeline to the prosperous, generous-spending Government Official and Staff Worker, whose per capita income approximates $6,000.00 a year—*and whose family-and-friends income is considerably higher.*



—For the first time *one* advertising medium in the Washington area can offer you a specialized broadcast-advertising service to the "cream of the citizenry" of our national capital.

I am grateful for this opportunity that has come to me. The opportunity of giving function, life and significance to an idea that has long occupied my time and thought.

By publishing this announcement, I want to pledge the facilities and abilities of Station WGAY and its staff to genuine, heartfelt service.

While we hope to entertain and inform many thousands of others . . . *our first consideration, and our dedication of service, is to those who serve our Government.*

to production of the Ford programs though in effect this will be the case for next season. Mr. Robinson already has rough plans to produce three or four shows for the 1960-61 season.

In the contractural set up, Mr. Robinson's company will be paid for its services by Ford Motor. The arrangement also is expected to pay Mr. Robinson a salary in the neighborhood of $250,000 a year and ownership rights of all programs he creates (perhaps as many as 10 or a dozen of the total 39).

Little Said • Ever since the first word was out on Ford's plans, the advertiser, agency J. Walter Thompson and MCA have refused to discuss programming, costs or even the advertising objectives.

In the undertaking, JWT (handles Ford Div., Ford trucks, Ford's new small car, the English-built Ford as well as Ford dealers) initiated the negotiations. The showcase of specials is expected to feature the Ford Motor car in the major spot, with the Mercury and Edsel (through Kenyon & Eckhardt) and the Lincoln (through Foote, Cone & Belding) in the minor spots, emphasis apparently scaled down on that order.

Ford Div. sponsors Tennessee Ernie's vehicle and *Wagon Train* has been assigned to either Ford or Edsel over the past few seasons. Mercury's top network program was half of *Ed Sullivan Show* on CBS-TV which it will drop next season, while Lincoln-Continental's main endeavor in network tv has been an occasional Leonard Bernstein's New York Philharmonic show.

Mr. Seymour remained aloof from developments of last week except to comment that the series of specials would be the "most exciting entry in tv next year."

THE ANALOZE FLOP
Everybody bought it ... except the public

A strong case for adequate test marketing was presented last Monday (May 25) to the New York Chapter of the American Marketing Assn.

In a change of pace from the usual product success story, Richard K. Van Nostrand, assistant vice president of product group supervision, Bristol-Myers Product Div., told the AMA how lessons may also be learned from failure. Speaking on "Everybody Bought the Product But the Public," he analyzed Bristol-Myers' unsuccessful product, Analoze, an antacid and analgesic that relieves headache and "works without water."

In July 1956, Mr. Van Nostrand said, Bristol-Myers and its agency, Young & Rubicam, completed plans for a test market program for Analoze. Production followed in August, distribution in September and advertising in print and on television broke in October. Everything had been checked out to show consumer interest and acceptance of the product, he reported. However, in time Analoze had to be picked up from the retail outlet. "The consumers stayed away in droves," he said. Examination of the failure pointed to the attitude that people wanted to take their tablets with water, feeling that water is part of the treatment.

Commenting further, he said:

"Test marketing . . . is a perfect time to test different copy ideas, different media strategies. You get needed sales experience to put to use in the expansion of the market should the product be successful. You can test at different levels of expenditure to determine what is best under existing circumstances. In short, it's a shakedown cruise in an effort to minimize or eliminate problems that could plague you later."

Chicago tv awards for Elgin, Johnson

Two enthusiastic tv advertisers, Elgin National Watch Co. and S. C. Johnson & Son (BROADCASTING, May 25, 18) with their agencies, J. Walter Thompson and Foote, Cone & Belding, captured commercial copy honors in the Chicago Federated Advertising Club 17th annual competition.

Other national tv winners: Philip Morris (top in its category) through Leo Burnett Co., Procter & Gamble (Burnett), Purex (Edward H. Weiss & Co.), Pillsbury (Burnett), Paper Mate (Foote, Cone & Belding), Revere Camera (Keyes, Madden & Jones), Hertz Corp. (Campbell-Ewald), Englander Co. (North Adv.), Hallmark Co. (Foote, Cone & Belding) and Durkee's Famous Foods (Meldrum & Fewsmith).

Elgin won the grand award for corporate image and another in its own product category. Fred A. Niles Productions was cited for its Durkee's and Revere Camera commercials. A winning regional advertiser in tv was Hekman Biscuit Co. (George H. Hartman Co). Peoples Gas Light & Coke Co. (Needham, Louis & Brorby) was the sole local advertiser picked in tv.

Among national advertisers cited for radio commercials were W. F. McLaughlin's Manor House coffee (Earle Ludgin & Co.), which took two awards, and Reynolds Metals Co. (Clinton E. Frank). Regional advertiser, Drewry's Ltd. (MacFarland, Aveyard & Co.) and local radio-user Reuben H. Donnelley Corp. (Ludgin) took radio honorable mentions. Gingiss Bros., local account handled by Olian & Bronner, won top 60-second radio commercial honors.

The awards dinner took place May 27. Forty-seven winners and 28 honorable mentions were selected.

Television exclusively • Speidel Corp., Providence, held its first full-scale convention in its 40-year history in New York last week and officials paid special tribute to the contributions of tv to the growth of company. Paul Levinger (second from right), executive vice president of Speidel, noted that company places its entire budget of estimated $1.7 million into NBC-TV's *The Price Is Right.* Speakers at meeting included (l. to r.): H. William Coulthurst, advertising director, Speidel; Charles Spitzer, sales manager; Carolyn O'Connor of *The Price Is Right;* Mr. Levinger, and Bill Cullen, host of *The Price Is Right.*

TV NETWORK STAKES—1st QUARTER

Anacin, Chevrolet, P&G: win, place, show in brand billing race

Whitehall's Anacin, General Motors' Chevrolet car and Procter & Gamble's Tide detergent ranked in that order as the brand leaders in network tv in March and for the first quarter of 1959.

Brand expenditures as well as the top network advertisers, product classifications and daypart billings for the two periods were compiled by Leading National Advertisers and Broadcast Advertisers Reports and released Thursday (May 28) by Television Bureau of Advertising.

Anacin, a product of Whitehall (division of American Home Products Corp., New York), provided network gross time charges of nearly $2.5 million in the first quarter, of which $759,365 was registered in March.

Both Chevrolet and Tide came in with more than $1.9 million in the first quarter. For that period, in fact, each brand in the first 22 spent more than $1 million.

P&G the Pacesetter • Procter & Gamble's gross billing in March alone was more than $4.5 million and for the first quarter the firm had over $13 million in network tv.

Lever pulled up its total, hitting over the $2.6 million mark for March and more than $7 million in the January-March period.

The largest product groups were advertisers of foods and of toiletries-toilet goods, the estimated billing reaching into the $30.9 million and $25.1 million levels respectively for the first quarter. Other leaders were proprietaries, smoking materials, soaps and automotives.

TOP TV SPENDERS

Tv gets biggest slice of their ad dollars

Of the top 10 advertisers in television last year, 9 placed more than half of their total national ad budget in the medium. These findings crop up in a statistical profile made of the top 10. The profile includes spot and network gross expenditures for the year.

The advertisers are Procter & Gamble Co., Lever Bros., Colgate-Palmolive Co., General Foods Corp., American Home Products Corp., General Motors Corp., Bristol-Myers Co., R. J. Reynolds Tobacco Co., Gillette Co. and Brown & Williamson Tobacco Co.

Each advertiser is a huge corporation and a blue-chip in other media as well as in television.

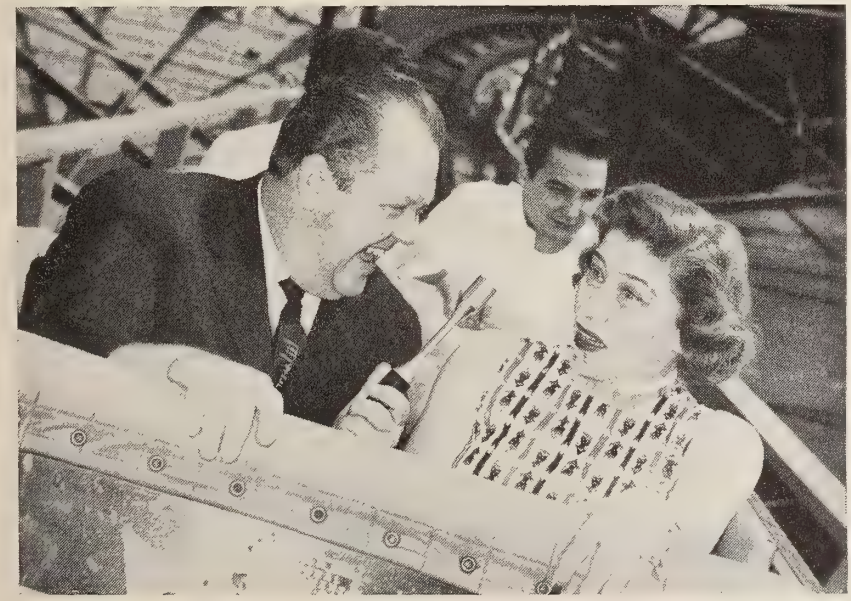
The profile is based on estimated gross expenditures available at Television Bureau of Advertising which

commissions the compilations from Leading National Advertisers and Broadcast Advertisers Reports (LNA-BAR).

As a group these top 10 advertisers last year rang up a gross billing in network and spot combined of $311.7 millions. The same 10 in the preceding year (1957) totaled up $253.5 millions.

What Each Spends • Key to the profile is a breakdown for each advertiser's media investments in 1958 including tv (network and spot), newspapers, general magazines and outdoor. These comparisons show that 9 of the 10 (General Motors is the exception) spent more than half of their budgets in tv and 7 out of the 10 allocated more than 70% to tv.

Per advertiser these percentages appear as follows: P&G, 86%; Gillette, 85.8%; Brown & Williamson, 82.7%; Bristol-Myers, 76.8%; Lever, 76.1%; American Home, 74.5%; Colgate-Palmolive, 74%; Reynolds Tobacco, 65.7%; General Foods, 60.7%, and General Motors 25.2%.



Though General Motors has less of a percentage of its budget in tv, that's only part of the giant automaker's media story. In 1958, GM billed a gross of some $22.1 million in tv as compared to $14.3 million the year before, for a proportional increase of 55%.

Budgets Go Up • In fact every one of the top 10 advertisers except Brown & Williamson increased its gross time purchases in 1958 compared with 1957. The increases: P&G spent 16% more, Lever 61%., C-P 25%, General Foods 29%, American Home Products 26%, Bristol-Myers 29%, R. J. Reynolds 14% and Gillette 2%. B&W's change was a 12% reduction.

But Brown & Williamson also reduced its newspaper spending (a medium in which it invests much less—$17.7 million in tv and $1 million in newspapers) by 23%. Its hike was in general magazines, a 50% increase for a total expenditure in that medium of $2.7 million.

Looking at the statistics from still another viewpoint: 7 out of the 10 advertisers cut back their newspaper budgets, 8 out of the 10 did so with magazine budgets and 3 out of the 10 lowered the outdoor total allocation. GM, which has one-quarter of its budget in tv, nevertheless cut back 34% in newspapers and 8% in magazines (tv increase was 55% and outdoor upped 2%).

RADIO PREVIEW

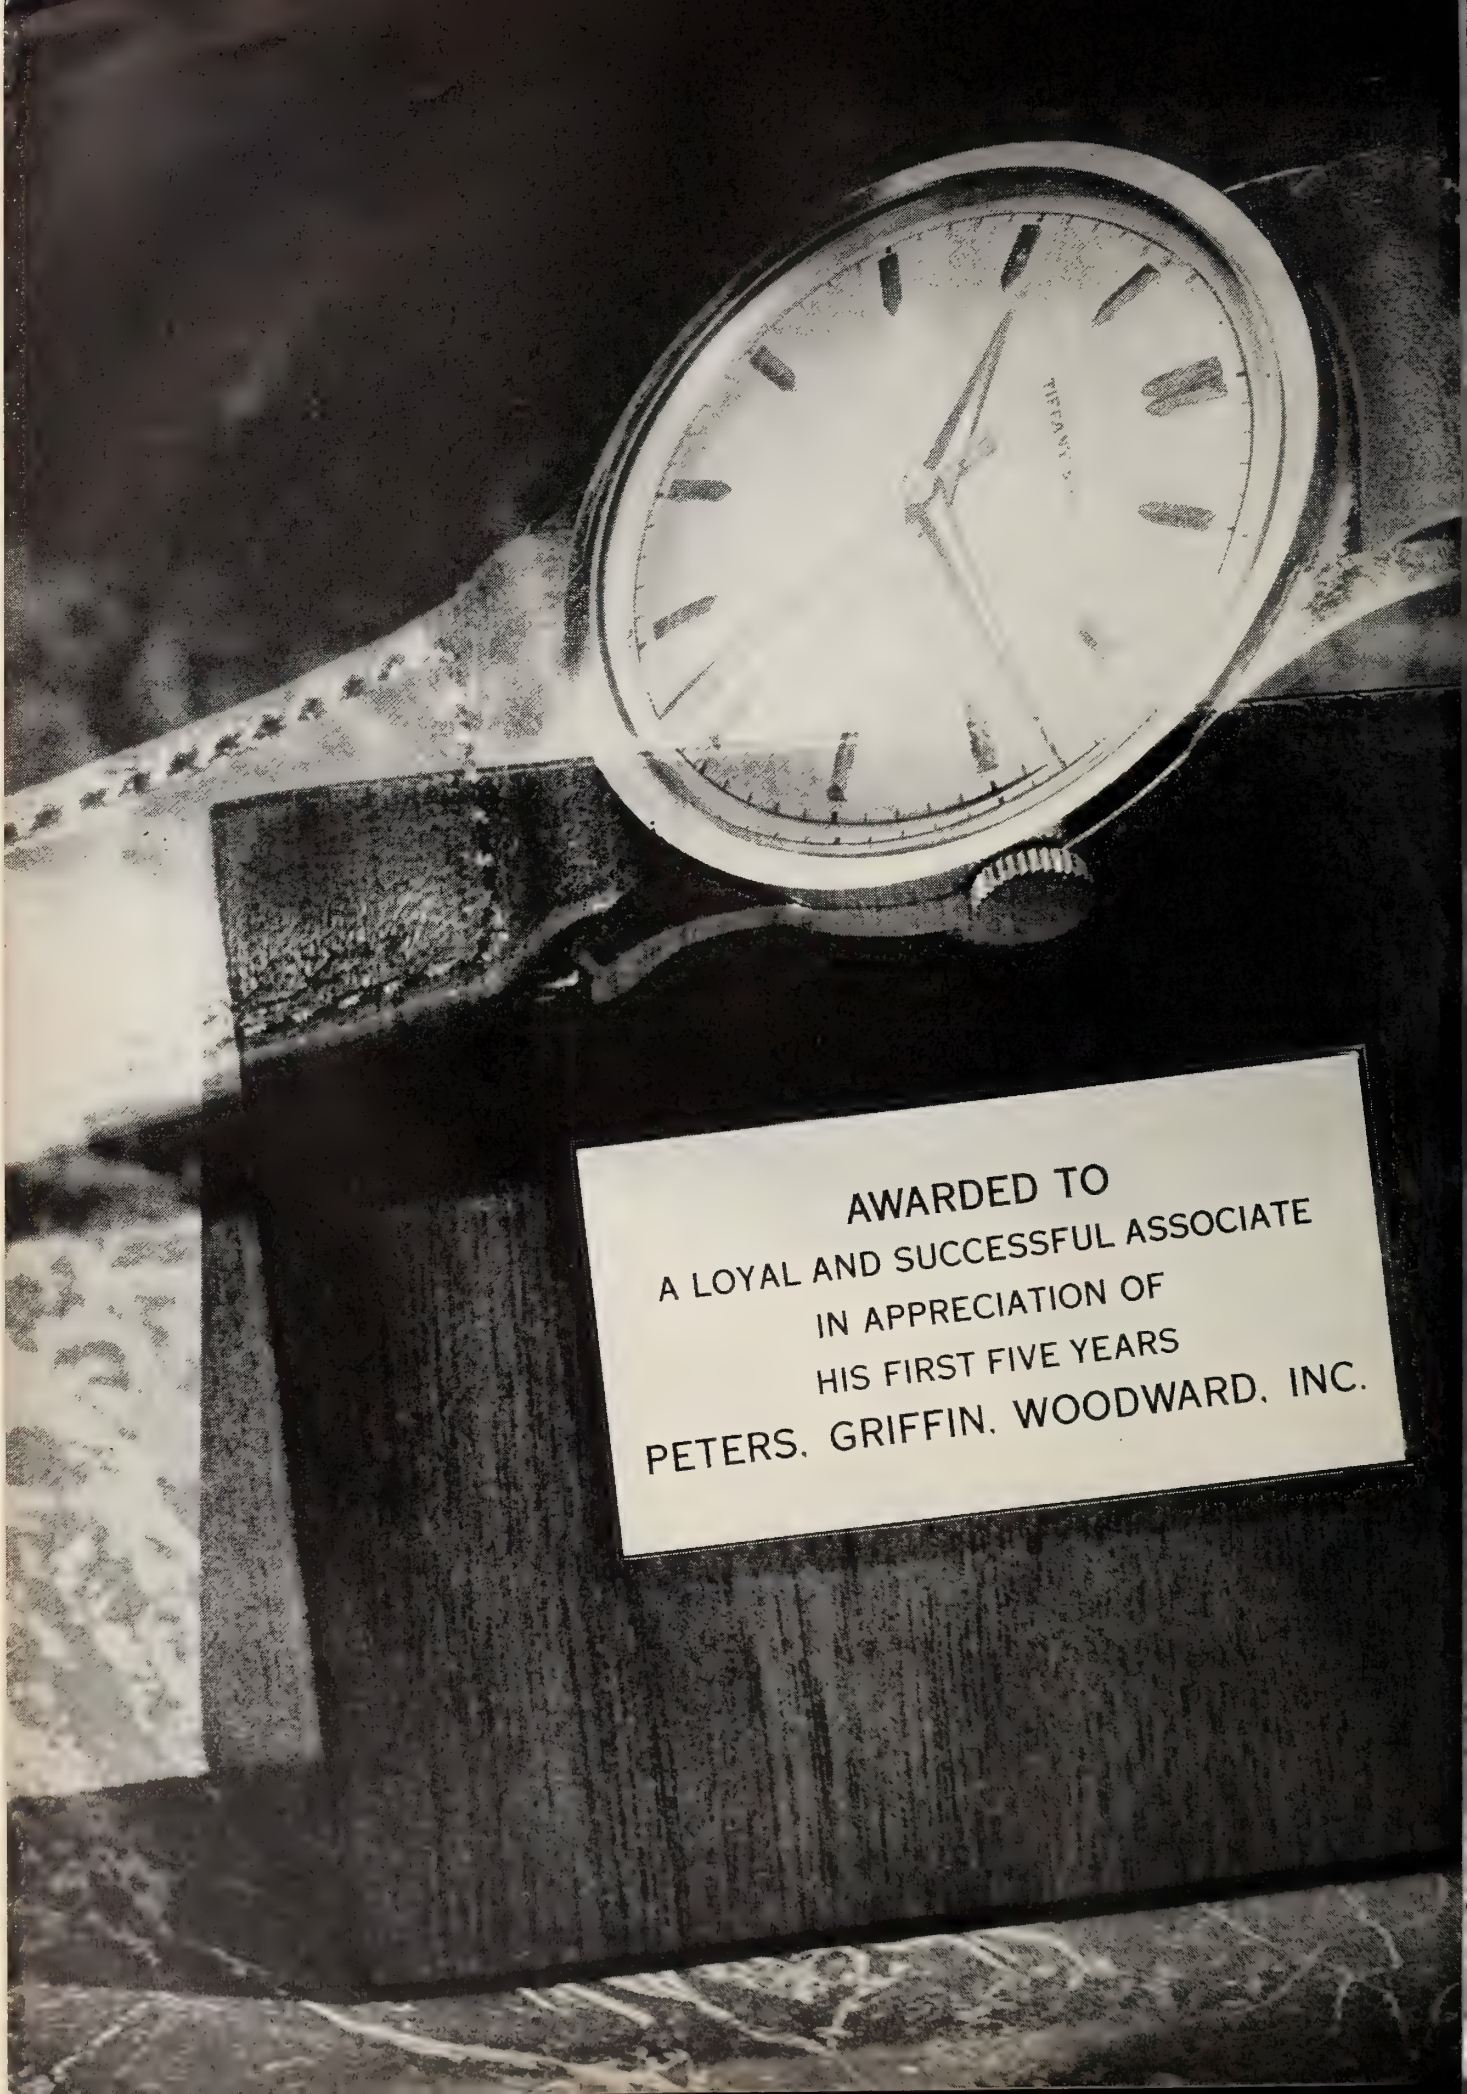
Up in the air on the air • Pacific Ocean Park, Santa Monica, Calif., wanted "realism" for a radio spot campaign this summer and got it from actor-announcer Hal Smith who scaled the heights and plumbed the depths of the Park's many amusements including the roller coaster (above). The interviews elicited informal opinions from fun seekers on the park's many amusement facilities plus POP's accessibility from nearby cities. POP and its agency, Stromberger, LaVene, McKenzie, L.A., dreamed up the idea and came up with a mile of tape which they reduced to approximately 11 minutes of commercial time. The spots will be aired over KMPC Los Angeles during the Dodgers' baseball games. POP also plans to use tv spots on children's shows on KTLA (TV), KHJ-TV, KABC-TV, KNXT (TV), all Los Angeles, showing people balling it up at the park.

Bolte sees big demand for ad field manpower

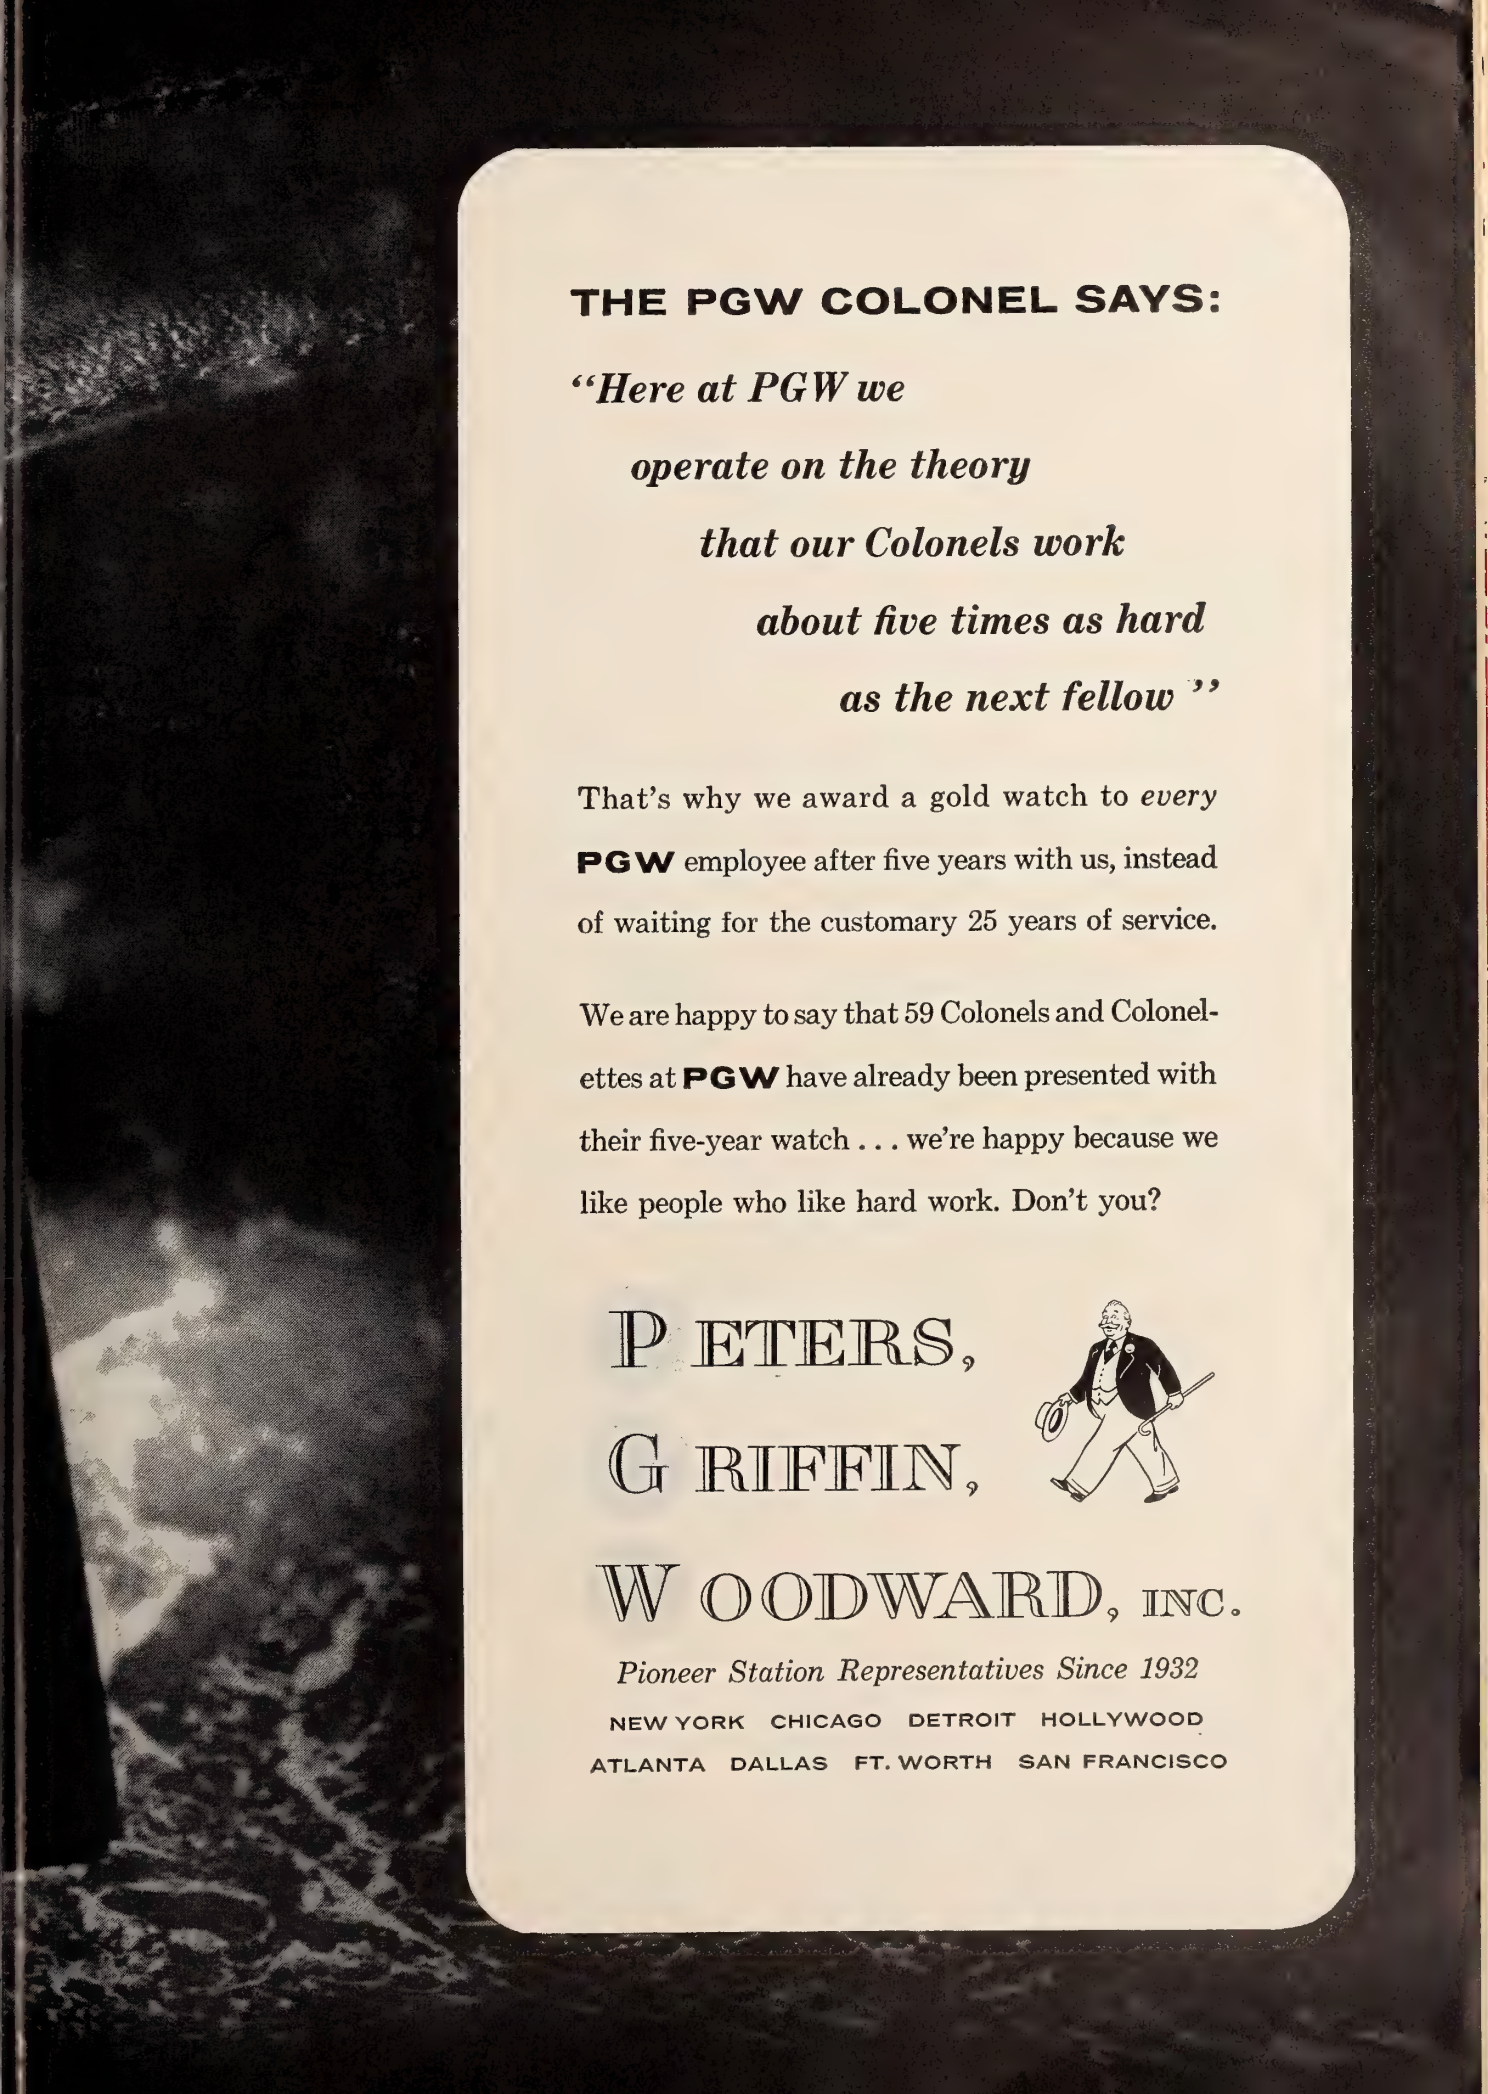
The field of advertising will need 15,000 trainees yearly to service a predicted $20 billion in ad expenditures by 1968, Brown Bolte, president of Sullivan, Stauffer, Colwell & Bayles, said in a talk May 22 at the U. of Missouri School of Journalism. The 1958 advertising bill was $10.2 billion.

Mr. Bolte, in one of two speeches made over a three-day period, said 72 specialists are needed to produce a single one-minute tv film commercial.

In advertising, he said, 75,000 specialists work in four general areas of ad departments, agencies, media and suppliers, and of these, 25,000 work for the nation's 2,800 agencies.



That Cost Efficiency • In pointing up advertising's efficiency today, Mr. Bolte noted that the cost for a salesman to call on 1,000 homes and "get into the living room and make a polished, persuasive, illustrated sales talk" would run about $5,000. But, he emphasized, "one tv commercial on the *Perry Como Show* can do all of that in 1,000 homes for as little as $2.99."



In another talk May 25 to the Advertising & Sales Executive Club in Kansas City, Mr. Bolte covered future opportunities for executives already in the advertising business.

In that talk, Mr. Bolte warned the "manufacturer of tomorrow is going to measure with a more critical eye the effectiveness of his advertising expenditures. He will want more for his dollar."

Budgets Up • The obvious reason, he explained, is that many companies' ad budgets now equal or exceed the expenditures for labor or raw materials, with the average ad budgets of Assn. of National Advertisers' members having grown in 10 years from $400,000 to well over $2 million per year.

To keep up with the times, he advised the executives to study these five points: Orientation to top management marketing viewpoint and objectives (not thinking only in terms of advertising but also "as consumer salesmen"); flexibility and adaptability to new situations and ideas (as contrasted to stylized advertising-marketing or the "formula" school); creativity in marketing and also in the use of media, particularly in copy; leadership today; and action as advertising men first but with added responsibility for building and maintaining consumer sales.

TEXIZE CLEANING UP VIA TV

'Shy' detergent buys, uses spot boldly

Ever hear of Texize Chemical Inc., a company in the detergent field that invested approximately $4.1 million in spot tv in 1958 and plunked down an estimated $2.25 million in that medium for the first quarter of 1959?

Texize is a "sleeper" among tv advertisers and apparently relishes its anonymity. Efforts by BROADCASTING to obtain the story behind Texize's continual expansion in television over the past five years brought this rejoinder from a spokesman: "Our client is by nature publicity shy."

From information that is available to the public emerge these highlights of the company's activities:

• Texize Chemicals Inc., which is based in Greenville, S.C., had net sales in 1958 of $9,257,950, as compared with net sales of $4,582,631 in 1957; $3,455,167 in 1956 and $1,087,018 in 1951. (Standard & Poor's figures.)

• The company's sales growth chart appears to coincide with its constantly expanding investment in spot tv. In 1955, spot tv expenditures amounted to about $50,000, boosted to $210,000 in 1956, $675,000 in 1957 and $4.1 million in 1958. (TvB-Rorabaugh figures.)

• With increasing sales and tv spending came a broadening of its market distribution. Back in 1951, Texize products were distributed mainly in North Carolina and South Carolina. By 1956, distribution had spread to Alabama, Georgia, Tennessee, Texas and Virginia.

In 1958, Texize marketed its products southward and westward to include Arkansas, Louisiana, Mississippi, Missouri, Indiana, Kansas, Kentucky, Nebraska, Oklahoma and West Virginia. Today, distribution has been widened to cover 24 states, including such "northern" locales as Maryland and Washington, D.C.

A television advertising executive with a cursory but nevertheless awed interest in Texize's progress remarked wryly last week: "Texize is a 'southern' Lestoil."

The metaphor is quite apt. Lestoil's remarkable growth pattern through tv advertising (BROADCASTING, Nov. 4, 1957) was built largely at the outset in New England and then the middle Atlantic. Texize sprouted in the South, moved to the Midwest and the Mountain states and now has doubled back to the middle Atlantic. And a noteworthy event is that both Lestoil and Texize now are advertising heavily in Washington, D.C.—a battle of the "tv detergents."

Heavy Spender • One advertising executive familiar with detergent companies shed some light on the apparently disproportionately heavy investment in tv advertising by Texize, measured by its total net sales. He pointed out that detergents generally have a higher ratio of advertising investment to sales, as compared with many other advertisers, and this ratio is wider for comparative newcomers to a field (for example, Lestoil had sales of about $35 million in 1958 and spent about $12 million in tv).

Another factor, he added, is that Texize relies heavily on saturation television and discounts may lower its net tv investment by almost $1 million.

There is no indication that Texize is in any of the other measured media. A perusal of media breakdowns points to spot tv as Texize's pre-eminent (if not exclusive) advertising vehicle.

Texize now advertises on 128 tv stations in 24 states, a jump from nine stations in five states in 1955 (based on Rorabaugh Reports on Spot Tv Advertisers). Its saturation technique of spot tv spending calls for the use of as many as 100 announcements per week, including minute participations, 20-seconds, station breaks and ID's. Texize relies heavily on daytime participations but its schedule extends throughout the broadcast day.

Texize Products • The company markets that Texize household cleaner, Texize starch and pine oil and Texy detergents, as well as industrial compounds, Standard & Poor's reports that Texize employs 281 workers in plants in Malden, S.C., and Palestine, Tex. Its net income in 1958 was $309,050.

Texize's agency is Henderson Adv., Greenville, S.C. If it is not already clear that Texize is girding for national recognition in the detergent field through saturation television, here is proof that tends to be substantiating: John H. Williams resigned as a senior vice president of Cunningham & Walsh, New York, to join Henderson Adv. in an executive capacity two months ago.

UA to sponsor bout on radio

An unusual tie-up of motion pictures, network radio and a heavyweight championship match has been announced.

The advertiser: The Mirisch Co. and United Artists Corp. Sold: the radio rights in the U.S. to the June 25 Floyd Patterson-Ingemar Johansson heavyweight title bout. Product: "The Horse Soldiers," a new motion picture produced by Mirisch and distributed by UA. Seller: TelePrompTer Corp. and Floyd Patterson Enterprises Inc. Price: $100,000 for the package including time costs.

Just which radio network will carry the bout has not been pinned down by the negotiators but ABC radio appears to be the leading contender for the business.

TelePrompTer has the closed-circuit tv, radio and motion picture rights for the boxing bout at Yankee Stadium in New York. It paid an announced $300,000 for those rights (BROADCASTING, May 18).

It's reported that the motion picture carries an advertising budget near $1 million which includes cooperative money for radio and tv and for newspapers as well as the network expenditures. Agency handling the UA buy is Monroe Greenthal Co., New York.

Manhattan switches

The Manhattan Shirt Co., New York, moves its million-dollar men's wear account from Doner & Peck, New York, to Daniel & Charles there, effective June 13. Manhattan this year allocated approximately 85% of its previously all-print advertising budget to television. It backed the *Sammy Kaye* show (ABC-TV Sat. 10-10:30 p.m.) for 14 weeks at the beginning of the season (BROADCASTING, Sept. 15, 1958), coming back

ARBITRON'S DAILY CHOICES

Listed below are the highest-ranking television network shows for each day of the period May 21-26 as rated by the multi-city Arbitron instant ratings of American Research Bureau.

Date	Program and Time	Network	Rating
Thur., May 21	You Bet Your Life (10 p.m.)	NBC-TV	17.1
Fri., May 22	77 Sunset Strip (9:30 p.m.)	ABC-TV	20.6
Sat., May 23	Gunsmoke (10 p.m.)	CBS-TV	24.2
Sun., May 24	Loretta Young (10 p.m.)	NBC-TV	20.0
Mon., May 25	Danny Thomas (9 p.m.)	CBS-TV	23.0
Tue., May 26	Rifleman (9 p.m.)	ABC-TV	19.8

Four hundred forty-eight thousand and one!

Change your records and let there be sounds of rejoicing along Madison, Michigan and other avenues of enlightenment. Another tv family just moved into our 58-county area.

That makes it 448,001, some of whom are left handed, some right handed, and some ambidextrous.

Whether they use (a) the left or (b) the right hand to tune to channel 10, they tune to channel 10.

NCS No. 3 shows us No. 1 daily *and* weekly, daytime *and* nighttime, in Roanoke. WSLS-TV reaches more homes than any other station in the greater Roanoke market. Blair Television Associates will take it from there.

WSLS-TV

Channel 10 • NBC Television

Mail Address: Roanoke, Va.

A broadcast service (with WSLS Radio)
of Shenandoah Life Insurance Company

for a five alternate-week run of that program beginning in April.

The company is expected to continue in tv next season though with a somewhat smaller budget. Daniel & Charles, currently handling Manhattan ladies' wear, will have the entire account when the shift occurs. The agency has not previously been active in television.

Ziv 'Lock-Up' show sold in 46 markets

Ziv Television Programs Inc., New York, racked up sales in 46 markets in its first two weeks of selling *Lock-Up,* new syndicated series starring MacDonald Carey, it was reported last week by Len Firestone, Ziv sales manager.

Among the advertisers purchasing *Lock-Up* were: Thorpe Finance Co. in six Wisconsin cities; Texas State Optical Co. in Midland-Odessa and Harlingen, all Texas; Morris Plan Savings & Loan Assn. in Indianapolis; American Savings Bank and Blackburn Department Stores as co-sponsors in Amarillo, Tex.; Kroger Co. in St. Louis; Henke and Pillot Supermarkets (owned by Kroger) in Houston and Beaumont-Port Arthur, Tex.; American Bank and Trust Co. in Baton Rouge - Lake Charles, La.; *Dallas Morning News* in Dallas and Towne Service Inc. in Waco-Temple, Tex.

Stations that have booked *Lock-Up:* KVAR (TV) Phoenix and KOLD-TV Tucson, both Arizona; KSL-TV Salt Lake City; KOVR (TV) Sacramento-Stockton, Calif.; KTSM-TV El Paso; WWL-TV New Orleans; KSTP-TV Minneapolis-St. Paul; KFSD-TV San Diego, Calif.; KOB-TV Albuquerque, N.M.; WTVJ (TV) Miami; KOMO-TV Seattle-Tacoma; WAVY-TV Norfolk, Va.; WTVT (TV) Tampa, Fla.; KLZ-TV Denver; KLFY-TV Lafayette, La.; KEYT (TV) Santa Barbara, Calif., and WSJV (TV) South Bend-Elkhart, Ind.

• Business briefly

Time sales

• *Perry Presents,* a musical colorcast series slated to fill the *Perry Como* time-period (Sat. 8-9 p.m.) on NBC-TV this summer, begins June 13. Signed for sponsorship on varied dates: American Dairy Assn., Chicago, through Campbell-Mithun there; Chemstrand Corp., Decatur, Ala., through Doyle Dane Bernbach, N.Y.; Kimberly-Clark Corp., Neenah, Wis., through Foote, Cone & Belding, Chicago; Noxema, Chemical Co., Baltimore, through Sullivan, Stauffer, Colwell & Bayles, N.Y.; Radio Corp. of America, N.Y., through Kenyon & Eckhardt there, Whirlpool Corp., St. Joseph, Mo., through K&E, Chicago, and Sunbeam Corp., Chicago, through Perrin-Paus there.

About the Yearbook

The 1959 BROADCASTING YEARBOOK is in its final stages of production. Stations, agencies, equipment firms and programming firms which have not returned questionnaires sent out last month are urged to make returns by June 5. There is no charge for listing in the YEARBOOK, a year-round reference book for agencies, advertisers and others in the field.

If you have not received such a questionnaire, contact BROADCASTING, 1735 DeSales St., N.W., Washington, D.C., or any of the bureaus in New York. Chicago and Los Angeles.

• Alternate week sponsorship of *M Squad* has been renewed by the American Tobacco Co., N.Y. through Sullivan, Stauffer, Colwell & Bayles. The NBC-TV detective series will appear one half-hour later beginning Sept. 11 (Fri. 9:30-10 p.m.).

• Seven-Up Co., St. Louis, through J. Walter Thompson Co., Chicago, is currently seeking short-term participation availabilities in network tv properties this fall. The soft-drink company, it's understood, will hold off on outright alternate week purchase of a network show until after the first 13 weeks of the 1959-60 season—or after Jan. 1, 1960. Additional spot tv and radio buys are still uncertain at this time.

• New and renewal NBC-TV daytime orders by Lever Bros., N.Y., and Miles Labs, Elkhart, Ind., are reported to exceed $5 million in gross revenue. Agencies: Needham, Louis & Brorby, N.Y., for Lever; Wade, Chicago, for Miles.

• Dro Inc. (insecticides, air deodorizers), Brooklyn, N.Y., has turned primarily to radio for its spring-summer push. Seven New York radio stations are airing some 300 spots (mostly minutes) per week. Other stations may be added. Negotiations are on for tv spot in the city, with one weekly spot already underway. Agency: Kenneth Rader Co., N.Y.

• Reddi-Wip Inc. (whip cream), L.A., has appointed Kenyon & Eckhardt's L.A. office to handle advertising of its Top-Wip low calorie cream whip for U.S. and Canada effective July 1. Budget will run about $250,000 with no media plans set. Account formerly was handled by D'Arcy which continues with Reddi-Wip.

• Kenner Products Manufacturing Co., Cincinnati, has budgeted $250,000 for tv advertising to introduce its Presto-Paints, children's brushless paint sets. The tv allocation comes after successful market testing. Kenner's campaign will last from late September until early December. During this time about 40 one-minute spots will be placed in children's shows in major markets. Presto-Paints also will be advertised in *Romper Room* (tv kindergarten) in 71 markets. Robert L. Steiner, Kenner vice president, is working with Leonard M. Sive Adv., Cincinnati, the company's agency, on the tv promotion.

• Also in advertising

• Detroit's big three last week appeared settled on the agencies to handle their small cars, the automakers' answer to the foreign auto invasion. The lineup: General Motors' Convair to Campbell-Ewald (which handles the Chevrolet Division); Ford Motors' Falcon to J. Walter Thompson (also see story on Ford's network tv plans), and Chrysler's Valiant to BBDO which also has the DeSoto Division. Estimates were made that each of the accounts will add about $10 million in billings to each agency assigned.

• Messages in Music has been formed by Ivan Ditmars, an NBC music director, and Jerry Browne, veteran writer-director, to specialize in the production of advertising jingles. Headquarters are at 6053½ Melrose Ave., Los Angeles. Telephone: Hollywood 4-4584.

• Leo Burnett Co. moves its New York offices from 677 Fifth Avenue to 477 Madison Avenue today, June 1. The new telephone number: Plaza 9-5959.

• Dawson Mac Leod & Stivers, Washington, D.C., creative communication consultant, has moved to new offices in the City Bank Bldg., 1612 K St., N.W., Washington 6. Telephone: Executive 3-3414.

• Webcor Inc. (tape recorders, other products), Chicago, names Richard S. Smith & Assoc., same city, to handle its public relations program.

• Hill & Knowlton, public relations counsel, announces the transfer of its Washington, D.C., offices to the Solar Bldg., 1000 16th St., NW, Washington 6. Telephone: Sterling 3-1270. Avery McBee is Washington vice president.

• Milton A. Weiss, a founder of Webb Assoc. agency five years ago, has opened his own agency, Milton A. Weiss Inc., at 9 E. 40th St. Mr. Weiss said Thursday (May 21) that the broadcast accounts he brought with him from Webb total from $425,000 to $525,000, all in tv.

BROADCAST SERVICES OF THE DALLAS MORNING NEWS ■ EDWARD PETRY & CO., NATIONAL REPRESENTATIVES

A CROWDED CONCLAVE IN MIAMI

4,000 delegates to d.j. convention look for new radio trends

The largest contingent of on-the-air personalities ever assembled hit the beach this past weekend in Miami. Occasion: the second annual International Radio Programming Seminar & Pop Music Disc Jockey Convention May 29-31.

And the disc jockeys, who with station management delegates, recording company officials and others made up the approximate 4,000 turnout, had a shirtsleeve working session despite the holiday atmosphere.

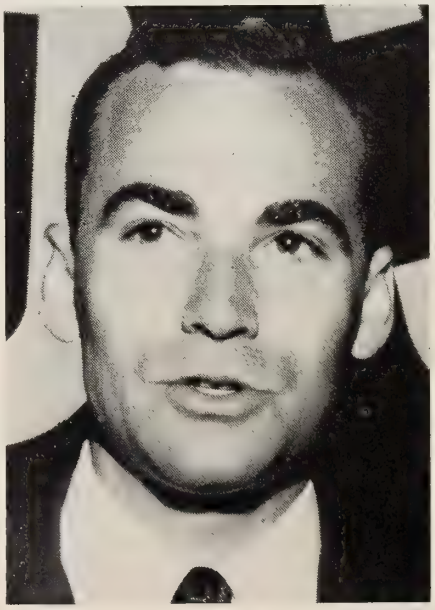
Among the highspots of the three-day agenda, discussions dealt with:

- The tug-of-war between personality freedom and the strict demands of formula radio.
- The FCC's concern over the music-news operation in pending license renewals for seven Atlanta radio stations (BROADCASTING, May 25).
- A hint that a better music trend is getting stronger.
- The type of buying market and purchasing influence of the teen-agers.
- Agreement between a network spokesman and a leading independent that henceforth there should be unity in fighting "the other media."
- The correct programming procedures for a local station to build audience and community prestige.
- The consensus of an agency panel that the present live commercial rates low.

Here are reports of major speeches that were available at the time this issue of BROADCASTING went to press:

D.j.s can spin into the executive suite

Disc jockeys are "the ideal reserve pool for the industry management strength of tomorrow," WNTA New York Operations Manager Art Ford said at a Friday afternoon (May 29) panel session at the d.j. convention.



Telling d.j.'s how to reach the management level, Manager Bill Camperson of WHOL Allentown, Pa., advised all assembled "to remember that you're a vital part of your overall station organization." Both managers spoke on the topic "From D.J. to Management—It's Happening."

Mr. Camperson called successful disc jockeys creative people, ". . . hard working, intelligent . . . [with a] sense of awareness considerably above the average needs of other, more staid or non-changing professions." These are the attributes which enable the d.j. to move up into management positions, Mr. Camperson added. Mr. Ford predicted that just as top talent such as Arthur Godfrey and Steve Allen have come from d.j. ranks so the "future Sarnoffs, Paleys and Weavers" will also develop from the platter spinner level.

Mr. Ford also had some recommendations for better management-talent relations in the industry. He declared that any station could benefit from a quarterly meeting of talent and management to explain the general direction in which management was traveling. NAB should establish a two-week seminar in New York, for talent with management potentialities, Mr. Ford suggested. He noted that Storz, Westinghouse, McLendon, NTA and other "far-sighted leaders" might benefit from the support of such an annual seminar. "The Radio Corp. of America for many years has within its own framework, made vice presidents out of pageboys by the simple method of developing the potential," Mr. Ford said.

Counseling d.j.'s how to rise to management, Mr. Camperson warned against the feeling "that we have an ivory-tower built on a stack of 45's and LP's around which the rest of the world revolves." Disc jockeys must keep abreast of the daily operation of their outlets, must keep on top of the local and national sales situations. The boss will welcome questions and ideas in this area, stated Mr. Camperson.

The d.j.'s sponsor-awareness and civic activities in his market also are aids to reaching the top, noted the WHOL chief. And once the management goal is gained, he added, time will be even more important than it was before and "you must arm yourself with a competent staff." Mr. Camperson concluded his advice with the observation that although the manager's job is a "rough one" it is also the "surer way to the higher income brackets than waiting for that 'big break' which may never come."

TODD STORZ
A host with 4,000 guests

What's to dominate—individual or format?

Personalities are making the difference in radio today but formula radio can take a heavy toll of personal individuality, according to a Friday afternoon (May 29) panel including Joe Finan, KYW Cleveland; Jim Hawthorne, KDAY Santa Monica, Calif.; Mike Joseph, Capital Cities Stations, and Dick Martin, WWL New Orleans.

Mr. Joseph, vice president of the Lowell Thomas group which recently added WPRO Providence, said he has "always been a great believer in strict format right from the start," but admitted "my belief in the personality has grown stronger through the years. At first, I subdued the personality completely to a rigid, automatic music format. He was only a voice and a tool of my programming. He could only introduce titles and artists briefly and operate a staccato-like format.

"There were no such things as personality shows. This was very successful. The formula worked. Voices came cheap. Ratings skyrocketed. Stations made money. Men came a dime a dozen. Then, other stations in the same markets began doing the same thing. All stations, people and formulae began to sound alike. Things became more and more competitive. Ratings equalized."

Mr. Joseph said there had to be a change and the change was in the personality. "They made and now are making the difference. Though I still operate on the format principle, I depend strongly today on the live personality and I pay him well to be one."

His word of advice to the personality:

"Think of the audience all the time. Forget about yourself, your wife's or friend's tastes. We're all classical music and jazz lovers. That does not get us ratings. Neither does the playing of too many plug tunes . . . Don't use the airwaves as an audition turntable. Making a record a hit doesn't *make* you any more. . . . Sell your station, your product and yourself. Favor your audience."

Terse Times • A radio personality today is much the same as his predecessor of 10 or 15 years ago, except that he has learned to speak up and shut up, to condense his spiel to a few words rather than a few hundred, according to Mr. Hawthorne, KDAY personality. Compared to a few years ago, the radio personality today provides more music, less chatter.

No longer a straight announcer reading copy, today's personality is apt to be found at a supermarket opening or some other outside affair when he's not beside his turntable, Mr. Hawthorne said. He works as closely with the station sales manager as with the program director, perhaps even more so now that programs are no longer independent entities but all part of one big show encompassing all of a station's programming.

Looking to the future, Mr. Hawthorne believes that we're on the verge of a tremendous change in radio music, perhaps as drastic as the one that swept rock and roll into its present place and that today's personality won't be there tomorrow unless he keeps a careful finger on the pulse of the public's musical preferences. He urged record companies to make shorter, possibly one-minute records for disc jockey use, letting them sample the record that the public buys at the record shop instead of playing it *in toto*. This would give more records a chance for more exposure on the air.

Gagged • It was WWL's Mr. Martin who asked, "Where are the personalities today?" He said until a few short years ago there had been a gradual increase in the number of record program personalities. Starting back in the 1930s he said, big names used their own imagination in programming and thus "enhanced" their ability to sell. But this element "has been decidedly submerged, yea condemned, by the 'lead-goat' known as 'chart-programming'."

Mr. Martin felt that "hand-in-hand with the dictatorial policy that restricts the would-be personality from exercising some of those qualities for which he supposedly was hired in the first place (taste, imagination, good judgment), there has been a large adoption of a high-pressure presentation format to be adhered to which has made it wellnigh impossible for individualities to shine forth."

THE LIVE SPOT—A DEAD DUCK

Agencymen put trust in the transcription

The live commercial was given a low rating on the scoresheet of two agency executives during a Saturday morning (May 30) panel at the d.j. convention, but a rescue was attempted by a Chicago freelance performer who attacked the screams, sirens and whistles he associated with today's recorded spot.

The panelists: Joseph Stone, vice president, J. Walter Thompson Co., New York; Harry Renfro, radio-tv director, D'Arcy Adv., St. Louis, and Bill O'Conner, Chicago freelance.

"Are live commercials dead? No, they just sound that way," according to Mr. Stone. And they will sound that way, he asserted, "as long as there's a sponsor in a hurry, an advertiser who cannot afford transcriptions, a dealer who wants to go in his own direction, or a disc jockey who insists on delivering his own copy." The J. Walter Thompson executive felt there is no need to belabor the fact there is a "vast gulf of ingenuity and imagination" between today's electrical transcription and the live script.

Guilty Trio • But the blame must be shared by three—disc jockey, agency and sponsor, he said. Advertisers must spend $5,000-$35,000 to cut a spot, he said, hence the small-budget account or economy-minded advertiser picks live spots which "cost nothing." The advertiser "orders them by the bushel and changes them as often as his socks." Similarly, the agency faced with a five-hour copy change notice on ten spots is handicapped quality-wise.

Mr. Stone felt another reason is important too: "Seldom has anybody really tried to produce excellent live radio spots. For in live radio merely good is good enough. In fact, the writer of live scripts is even discouraged from getting 'too tricky' because everything has to be brought down to the least common denominator of the least talented announcer who may never be called on to deliver the spot."

Mr. Stone, then ventured, "I'm going to play Daniel to this lion's den of disc jockeys and tell you plainly that if you fellows paid half as much attention to the commercials on your show as you do to whose and what records you play, to becoming talent impressarios, to becoming publishers and record manufacturers and barn dance callers, live radio spots might be more interesting.

"I know the entertainment business is more glamorous than the advertising business. I'm sure you find the continental cut far more appealing than the grey flannel suit, but whether you like it or not, you're in the ad business. Unfortunately, most of you have learned only one ad trick—and a very questionable one at that—the sincere falsehood."

Everything's Great • Mr. Stone continued. "You go on, year after year, giving your *personal* assurance that an ever changing list of products you endorse are the 'greatest.' I know Martin Block made millions that way. And so did the greatest salesman of our time, Arthur Godfrey. But, frankly, I think most of you are laying a big goose egg.

"That's why agencies generally give you scripts to read, instead of letting you use your own words. And when some boy in Brooklyn is writing the words that you'll say in Dallas, something ain't gonna sound right."

The Madison Avenue representative felt that if enough disc jockeys demonstrated a greater knowledge of the true science of advertising ("which in a nutshell means supporting claims with 'reason why' sales points, giving convincing facts rather than sincerely spoken generalities"), agencies would be more inclined and "most happy to give you fact sheets instead of scripts and let you brighten up our commercials."

History of the ET • Mr. Renfro traced the evolution of the transcribed commercial, which he feels is more effective than the live one. He urged d.j.s to pyramind their musical programming "up to the commercial" and exercise creativity in bridging the gap between music and announcements.

Among examples of "outstanding" transcribed commercials cited by Mr. Renfro were those of Anheuser-Busch for Budweiser beer, which fit well into the climate of musical programming.

Last Days of Live • Mr. O'Connor believes that while the live commercial may not be dead, "it certainly is dying. Unless those of us who are on the air assert ourselves, then the live commercial will be gone forever."

Mr. O'Connor said that d.j.s, announcers and air personalities are "playing second fiddle to a barrage of jingles, screams, bugles, crashes, bells, sirens, echo chambers, etc." and have been relegated to a minor role by a flat foot floogie known as over-production."

Mr. O'Connor, a top-ranking Chicago commercial "pitchman" for independent stations, acknowledged this to be an exaggeration, but claimed that "agencies, stations and sponsors don't realize how much business they're missing . . . because the sounds are detracting from the all important message in the commercial."

SWITCH ON AN OLD THEME

McLendon wants law to limit competition; Culligan fears more regulation is in wind

The prospect that "there may finally be need for Congressional action to limit the number of radio stations in a given market" was voiced Friday at the d.j. convention by an independent station operator, Gordon McLendon, president of the McLendon Stations (KLIF Dallas, KILT Houston, KTSA San Antonio, WAKY Louisville, KEEL Shreveport and KABL San Francisco). His argument: if stations cannot survive, they cannot serve.

Mr. McLendon's point was made during his "debate" on independent vs. network radio with Matthew J. Culligan, NBC executive vice president. Both speakers, however, devoted their attention to what they considered the more important problems of radio today rather than blowing new wind on an old intramural fire.

MATTHEW CULLIGAN
He fears program crackdown

Mr. Culligan warned against the prospect of government regulation of programming as a result of what he described as the philosophy of cynicism among certain station management. The alarm was sparked by FCC's consideration of whether to renew the licenses of all seven Atlanta radio stations without a hearing in view of a lack of public service features.

The Law • Mr. McLendon explained that any Congressional action to limit the number of stations in a market "should be inimical to all beliefs." He said the FCC governs in the "public interest, convenience and necessity," but "it must by law license radio stations in many cities which can only serve to destroy the power to serve held by others.

"When so many radio stations have been licensed in a city that some must sell announcements for 25 cents to exist, rates are so damaged in that market that soon the revenues and programming resources of even the finest stations are impaired."

Mr. McLendon said that as fearful of government regulation as he is, "it is now clear that if we are to preserve decent programming standards some Congressional curb must be put upon the spectrum in most markets." He added, however, that there are still a few major and minor markets which have too few radio stations.

Program Threat • Mr. Culligan said, "The danger of government intervention in programming in the broadcasting industry hangs like a spectre over us all. The performance of some radio stations has been bad enough to direct a national spotlight on seven stations in just one major American city."

Mr. Culligan quoted a headline from the May 25 BROADCASTING, "Music-news on the spot. Commission divided on Atlanta renewals." He was disturbed at the news that "a troubled FCC is wrestling with music-news operations —and how radio's 1959 voice fits in with the Communications Act's mandate that broadcasters shall operate in the 'public interest, convenience and necessity'."

The fact that the seven Atlanta stations have been operating without license for more than a year because of their failure to program public service features, Mr. Culligan said, "is part of the bitter harvest of the philosophy of cynicism to which I raise objection."

The NBC executive pointed out that "one practitioner of formula radio outstands in this connection. His promotion formula is replete with gimmicks and devices and techniques which are disturbingly reminiscent of the propagandist who believes that the public will eventually believe anything if it is shouted often enough and loud enough. He describes this as 'an old psychological trick.' It may have its place in propaganda, but I do not believe it belongs in the radio industry."

The Big Lie • "If examined on this cynical attitude, I suspect his defense would be that his tactics got the ratings, and the advertising and the profits. This may well be true, but let us examine what else is 'gotten' for the radio industry as these tactics spread and come to the attention of the trade press, advertisers and agencies."

Mr. Culligan disclaimed he is against formula radio *per se*. "I do believe in formula radio. . . . I use it in its literal sense." He explained, "No business of any kind can survive without some kind of formula," but examinations of the various formulas in radio "are secondary in importance. Of primary importance is the philosophy behind the formulae, be they for network or independent stations.

"I am unalterably opposed to any formula which emerges from a cynicism of its creator about the intelligence of the public, the disc jockey and some advertisers," he asserted.

He noted, "All mature broadcasters recognize that the exercise of our own responsibility is the best public safeguard—not government intervention."

Mr. Culligan felt the industry can no longer afford to argue network vs. independent stations, because the clarity of definition is diffusing with the "changing image of all radio stations in America, network or independent."

GORDON MCLENDON
He wants limit on stations

As example, he noted "the Westinghouse stations can no longer be called independent stations in the old sense because these stations now in themselves are a small network with central news and programming services. Westinghouse, in effect, is a small radio network and its stations are really affiliates of this small network."

Ex-network Man • Mr. McLendon said he could talk on both sides of the fence since he also had network experience in operation of the Liberty Network 1948-52.

"Liberty took me through about

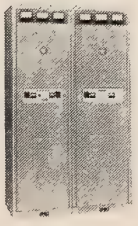
...and let STANDARD SE ELECTRONICS solve your **FM** problems!

Getting on the air at minimum cost

S-E 250 watt FM Multiplex Transmitter economically puts you on the air **now** with a high-quality signal, simplex or multiplex, lets you "Add-A-Unit" for higher power **later.** Available soon, **S-E 1 kw FM Multiplex transmitter.**



Putting more punch in your signal

S-E 3 kw Amplifier uses your present low-power transmitter as a driver, has minimum requirements in the way of space, power consumption, operating and maintenance attention. Available soon, **S-E 10 kw Amplifier.**

Getting on the air with a powerful signal

S-E 3 kw FM Multiplex Transmitter takes less space than comparable equipment, can't be surpassed for signal quality, operating simplicity, all-around economy. Available soon, **S-E 10 kw FM Multiplex Transmitter.**

Updating your present transmitter

S-E FM SERRASOID® Multiplex Exciter replaces modulator panels in old Western Electric or similar FM transmitter to bring performance up to present-day standards.

Burying the hatchet—sort of

In their prepared texts at least, independent radio's Gordon McLendon and network's Matthew J. Culligan (NBC) more or less called quits to the network vs. indie debate to join forces in fighting "the other media."

"In good conscience, I cannot abuse network radio here today," Mr. McLendon said. "The networks are doing whatever they can to stay in business and having been in that situation myself long ago (Liberty Network) I can understand. I am sad to see some networks selling announcements to national advertisers for less than $5 per station. On our stations, we wouldn't let an advertiser burp for $5. Yet who is to say I wouldn't do differently when the question is survival?

"Particularly can I not abuse NBC radio, for with all its problems, NBC gave this industry its first and greatest heritage."

Also asserting other radio problems are more important than continuing the network vs. independent fued, Mr. Culligan good-naturedly said, "I am perfectly willing to be bloodied and battered by Mr. McLendon before this audience if he would take his victory here as final satisfaction for his ego and henceforth direct his undoubted talents to the selling of a new radio image against our competitors—all other advertising media."

every experience that a network operator can have, including one experience that some other network operators must yet experience—that of going out of business," he quipped.

Mr. McLendon said he preferred to discuss the "real problems of radio" such as the contention "that all popular music stations can be different and have a different personality." He explained some have compared the situation to that of newspapers, that while all have the same basic big news stories, each has a distinct personality and its own circulation.

"This may be true of newspapers," Mr. McLendon, said, "but the analogy is inapplicable to radio. Unlike newspapers, where rewrite and columnists and editorial content is markedly dissimilar, radio stations specializing in popular music base three of every four minutes of programming on the *same* records."

Out of the Groove • Radio's major need today, Mr. McLendon said, "is for experimentation in new program techniques. In markets below the top 10, there is simply no room or excuse for six or seven popular music stations all of which sound virtually alike—although their owners would deny it—and many are already suffering financially." Citing plans to experiment with KABL San Francisco as a good music station, Mr. McLendon noted "a fellow in Portland is trying an all-talk station and my hat is off to him. Perhaps experiments will be made in the field of news stations, or more specialized, in financial stations, or all-sports stations, or perhaps somebody someday will originate a station that programs soap opera all day."

Radio today also needs "more originators and fewer imitators," Mr. McLendon asserted. "A few months ago, we had a new idea in Dallas and put it on the air. I wanted to try it out before I gave the idea to our other stations. But I was too late. Before I could give it to our Louisville station, another Louisville station had already monitored us in Dallas and had it on the air in Louisville, Too few stations are *originating* these days. Ninety percent are merely copying."

Mr. McLendon said American radio "must begin to combat the power of the printed word. All of us have encountered the average citizen who is awed by his name, or that of his business, in print. I have but one suggestion for overcoming this print phobia. It is both the duty and the necessity of every radio station to editorialize." He said that after five years of sustained editorializing by KLIP Dallas, the station "is now given the respect formerly reserved in most markets for the printed word alone."

Mr. McLendon said of radio's opportunity, "In these days to come, as we chase the sun, radio must seize the news leadership of the nation. And what a period of service faces radio in this amazing day when our east coast is the west coast of the Rhine and the defense of Portland begins in Shanghai."

Why solid news policy is 'must' for stations

Enterprise and responsibility in the presentation of news can build prestige and audience, according to a Friday morning panel at the disc jockey convention consisting of Morgan Beatty, NBC; Dave Muhlstein, KLIF Dallas, and Dick Schmitz, KAKC Tulsa. Their views varied, however, as to the extent to which sound or "showmanship" may be used to accentuate news programming.

Mr. Beatty said the "seasoned national-regional-local team approach" is the only way "to win the battle against eager beaver politicians, who either try to hide political mistakes, or look for more services to perform for the people —usually bumbling, bureaucratic services at that. This is the only way to put fear into the hearts of those who pass odd-ball rulings—such as equal time formulas. This is the only way to keep the critics in their places and win the audience we deserve."

Mr. Beatty detected a drift away from this total responsibility concept in some segments of the radio industry —"those stations and deejays who read press association salvage broadcasts over the air, with occasional bulletins thrown in to make it look legitimate." He felt if the trend grows "the practice will destroy the financial vitality of the station and the wage levels and enterprise of the deejays and announcers who do it."

Assuring his remarks were not an attack on the wire services ("what is wrong here is wrong with us"), Mr. Beatty said he has heard disc jockeys occasionally read serious bulletins "as building blocks to reflect their own clever images."

"When they do this," he said, "they ignore the fact that nearly every American family, including the young rock and rollers, has a voluntary—or involuntary—representative in our armed services, and they lead hazardous lives in the cold war age. Kidding or slurring, or plain careless reading of serious news, is kidding the blood of the people."

The basic duty of the radio industry, Mr. Beatty said, "is to provide balanced news—a combination of local and network enterprise, that meets the challenge of government, of the press, and the magazines, yes, even television."

Radio's Big Chance • Mr. Muhlstein expressed amazement "that there are still some holdouts to the value of a real, honest-to-goodness news operation." He said "radio news today has a chance for its finest hour since World War II."

The KLIF news director noted television news "to a great extent is riding along on its 'magic' concept and in most areas is doing little in the way of imaginative reporting. And newspapers still are hampered by the mechanical procedure of publication. Radio news remains first, when it's run as a heads-up operation."

Stating that on the other side of the coin some stations have become "over-zealous" in their effort to prove

The Ones That SERVE Are The Ones That SELL

In DES MOINES... KRNT RADIO and TV

In this area, most people have learned through years of experience that KRNT and KRNT-TV stand above all others in service to the public, day in and day out. Most people turn to these stations for help and information. During Iowa's blizzard of March 5 and 6, worst in the past decade, more Des Moines people chosen at random in an impartial survey of 500 telephone calls made March 6 said they listened for the greatest part of the time to KRNT TOTAL RADIO for storm news and information than all other stations combined!

Another outstanding example of public service occurred when KRNT-TV, in cooperation with the local Medical Society, planned and televised coverage of a "miracle" heart operation. Television made it possible for all Central Iowa doctors to benefit from viewing a new "mechanical heart" in actual operation.

Still another public service "tie-in" was with Goodwill Industries of Des Moines. A completely isolated appeal for neckties for re-sale by Goodwill Industries resulted in a landslide of ties to KRNT-TV's dominant emcee personality.

No wonder most people listen to, believe in and depend upon KRNT and KRNT-TV . . . selling Iowa because they're serving Iowa. In 1958, KRNT-TV presented 5,620 public service announcements; KRNT RADIO presented 5,628.

Serves BEST...Sells BEST In DES MOINES....

KRNT RADIO and TV

Represented by The KATZ AGENCY

their news "is the most recent, the most daring, the most sensational," Mr. Muhlstein cited the recent board action of the Radio-Television News Directors Assn. which charged such operations "with distorting the news and deceiving audiences." He said, "I'm not going to defend these stations, because I agree with many of the RTNDA charges. But I cannot help but feel that behind the charges there is at least a portion of sour grapes. There's not a phony news operation in the world that can last for any great length of time in competition with top-notch, top-quality news gathering and reporting."

The KLIF news executive said "news may not be vaudeville, but whether it's heard on radio, seen on television or read in the newspapers, news demands some degree of showmanship." Citing how the KLIF mobile unit was on hand when a bank robber was captured and taped the full story including the comments of the robber, he said, "no hoaxes, no phony showmanship. Just using the tools we've been given.

Building Listening • KAKC's program director, Mr. Schmitz, said disc jockeys sometimes turn up their nose at news, but "news itself can be an audience builder, particularly in the case of the format stations." He said KAKC learned "that as our ability to cover and report news fluctuates, so does our rating."

As to the frequent argument that "there's not much news today," Mr. Schmitz noted that contrarywise "that in many cases the only things new in a three-hour disc jockey show might be found in the newscast. And since learning something new and keeping up with the times is apparently a characteristic of people in general, the well-built newscast might conceivably be the major determining factor in the d.j.'s rating."

Mr. Schmitz also said he basically agreed with the RTNDA ruling against use of techniques which would tend to misrepresent the news, but he felt the "sound" of the news is significant and can be profitably and properly controlled. By "sound" he meant rewriting, use of present tense where possible, updating a story, developing a local personality to deliver the news and use of multiple voices such as is achieved by tape or disc inserts.

Reps talk of teens, new sounds—and reps

The much-maligned American teenager was described as a segment of the "mass American market which should be of tremendous importance to the advertiser" by Robert Eastman, president of Robert Eastman Co., New York, at the d.j. convention.

Speaking on a Friday morning panel, "Radio Reps Are Salesmen Too," Mr. Eastman termed the young audience (15-30 years of age) the "headwaters of the market." He called the younger generation "most impressionable" and said they are just beginning to form their brand preferences, marrying, forming new consuming households and raising children.

"A great misconception of Madison Avenue is to the effect that all these young people are raising is hell," Mr. Eastman continued. He said national advertisers do not realize that "spot radio alone really delivers this youth market."

"We have observed in our national spot selling a tendency to apologize for or conceal the [radio's] youth appeal." Admitting that the nation's youth is only one segment of radio's reach, Mr. Eastman said radio reaches the "entire family and all classes of people in all economic strata."

Accentuate the Positive • But, he said, radio must stop maligning the teenager, through such negative approaches as: "our station reaches more adults than your station, or our audience composition figures prove our listeners are the people who have the money to buy."

"The teenagers," he added, "are the influentials. They influence millions of product purchases in all types of merchandise." Mr. Eastman concluded: "They are susceptible through spot radio personalities to be sold the products which will become a part of their homes when they marry and begin to raise a family."

In another speech, Arthur H. McCoy, executive vice president, John Blair & Co., New York, called for more creativity on the part of the air personality through the development of new sounds. He said: "You gentlemen spend more time working with sounds than any other group in the business."

Mr. McCoy suggested that d.j.s with specific creative sales ideas turn them over to station management and reps. He said: "We can make advertisers listen if we have creative ideas to shake them loose from the rut" they're in.

Expanding Role • The final panel member, Stephen A. Machcinski Jr., executive vice president, Adam Young Inc., New York, spoke about the changing role of the station rep. He said that today, more and more reps are giving stations outside objective thinking about the individual station's image.

He said there is a strong case for such objective thinking "from someone who can see your station and its problems in better perspective than someone intimately involved in the operation." He added that the rep's "counsel should be sought the way you would seek the advice of a consulting engineer on an engineering problem."

Mr. Machcinski described the station image as being based, in part, on "methods of programming, doing business, selling, advertising and promotion, and follow up."

Useful Creativity • He suggested that the station rep could be useful in either creating the image or improving the image of a station by (1) making the "station aware of the problem sur-

WHAT THE D.J. IS THE STATION IS TOO

The disc jockey must be alert to the station's overall public responsibility, Harold E. Fellows, board chairman and president of NAB, said Friday morning in his keynote speech opening the disc jockey convention.

"The complexity of civilization has led to a diffusion of responsibility," Mr. Fellows said. "In fact, it has affected you in a way that is somewhat terrifying. There are hours of the day, and important ones too, when you alone are in direct communion with most of the citizens of the U.S., and upon you alone—in your comportment and judgment—depends the reputation of the entire American system of broadcasting. I cannot say to you in a word . . . how needful it is that you be aware of this great challenge to your integrity and decency and good judgment."

Warning against the pitfalls of self-glorification the trap into which public personalities may fall. Mr. Fellows said, "you are the station and all of the people who made it possible for you to be on the air. Your responsibility is to the members of that team—the executives, secretaries, the salesmen, the engineers, your colleagues of the program department and your fellow performers, just as your responsibility runs to the audience itself."

Mr. Fellows felt a few disc jockeys overlook this basic consideration. "They become so intent upon projecting themselves as characters, or as dominant and influential figures on the local scene that they fail to remember that they are but a part of this overall and comprehensive effort that comprises a thing we call a broadcasting station."

rounding the development of a good image"; (2) showing "how to present the story of the station in its best light"; (3) suggesting "how to best promote the station through advertising and direct mail," and (4) suggesting how "to give the kind of service that agencies and advertisers expect."

Mr. Machcinski concluded: "The role of the station representative is becoming increasingly complex. He is doing considerable research and promotion, handling advertising and publicity and performing many functions that were not done previously. It will become more complex . . . if radio is to become a basic primary medium . . . Properly used radio is a great buy for any advertiser . . . who wants to reach the most people with the most frequency for the lowest cost and obtain excellent sales response for his money."

Thespians nurtured • CBS employes in all categories have a chance to grow theatrically under the network's new workshop program, "Dimensions-in-the-Round." An outgrowth of its strictly audio predecessor, "Dimensions-in-sound," the new project encompasses all phases of the theatre. The first arena-style performances took place May 7-8 at the CBS-TV Production Center in New York. Along with dance sequences and a monologue, the group presented a one-act play directed by Charles N. Hill who has filled a similar capacity for *Person to Person*. Shown in a scene from the play are Judy Miller, a secretary with *Look Up and Live*, and Stan Bakis of the CBS mimeograph department.

Music men see swing toward better tunes

A trend toward better music was noted at a Saturday morning (May 30) panel by Dave Cavanaugh, Capitol Records, Hollywood, while a strong defense of the record manufacturer as a reactor to public taste rather than a generator was expounded by Joe Kolsky, executive vice president, Roulette Records, New York. Jack Karey, WCFL Chicago, called upon the disc jockey to use his influence more constructively and to be more selective in his choice of records.

Mr. Kolsky said "Roulette Records is in the business of dispensing home entertainment, not the kind of home entertainment we want, or that Joe Kolsky wants, but the kind of home entertainment the public wants and, what is more important, will be willing to go out and buy." The same is true of the disc jockey, he contended. "If he starts playing the type of music he likes or the type of music he thinks his public *should* have, and not what they want, he's going to find himself spinning records at home and not on the air."

Concerning the complaint stations refuse to play "adult music" and instead program to the "lolly-pop crowd" which "does not buy the autos, tv sets, washing machines and furniture sets that buy the air time," Mr. Kolsky noted a great many stations have a lot of advertisers using such programming and still are selling plenty of autos, tv sets and other goods. "Maybe there is a vast underground of adults who listen to these stations too," he said.

Stop and Listen • Mr. Karey urged the disc jockey to "come of age" and asserted that the d.j. is the most powerful single force in music, broadcasting and his community. Mr. Karey suggested more selectivity in choice of music played for the good of the recorded music field itself. His conclusion: rock and roll is not necessarily "garbage" but "garbage" most often is "rock and roll." His recommendation: "Let's audition before we play."

Balanced programming is still worth the time it takes to prepare it, Mr. Karey said, calling for originality and individuality among d.j.s through professionalism rather than "haphazard" programming.

D.j.s can better serve their communities, the Chicago panelist said, by selling public interest projects as "genuinely as the most lucrative commercial account on the log." He claimed that while public service may be "dirty words to the sales department," they represent success to the people who feel the d.j. adequately performs his job.

Musical Taste • Mr. Cavanaugh reported his feeling that "there is a trend that is rapidly growing stronger for better music. As evidence of this, we merely have to look at the tremendous rise in importance of record albums—albums that generally speaking contain songs with much more musical merit than the songs that usually make up the 'Top 40' lists. Also as evidence are a few sponsors and advertising agencies that have come to the realization that radio programming based on music primarily designed for teenagers may be great for selling soft drinks and chewing gum. However, programming of this type does not have too much appeal for the majority of consumers."

During an earlier panel on the problem of excessive new record releases, Mike Maitland of Capitol Records, said, "The record companies spend a lot of time, money and effort in a constant search for new talent, new ideas and new ways of presenting them. Unless there is a ceaseless flow of good new talent and good new ideas, we're all going to be hurting."

He exhorted his audience, "No matter how many records you receive each day or each week, you've got to make the time, however long it takes, to give a fair audition to each record that comes your way. And I mean every record, not just the Sinatras, Presleys and Pat Boones. The records we want you to play are the ones by the kids you've never heard of, the kids who are tomorrow's Sinatras, Presleys and Boones."

On their part, the record companies can and should be more selective about their releases, Mr. Maitland said. Reporting that in 1957, 211 record companies released 4,194 records and in 1958, 373 companies (over a 75% increase) put out 4,703 records, he noted that five major companies, Capitol, Columbia, Decca, Mercury and Victor, cut back on single-record releases by nearly 20%. "The answer is selectiveness," he declared. "If the company doesn't have something good they shouldn't release anything."

Omaha radio-tv awards

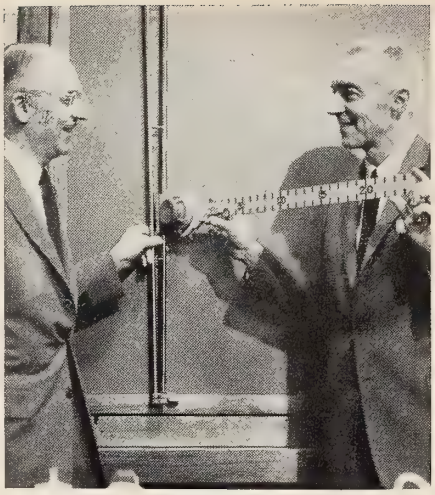
KMTV (TV) Omaha, Neb., won five Gold Frame programming awards of the Radio-Television Council of Omaha. WOW-TV and KETV (TV) there won four and one, respectively. In the radio programming category WOW won five Gold Frames. KBON and KFAB there won three each.

Summer to see seven new network tv shows

The three television networks are currently offering a total of seven new shows on their nighttime summer schedules. ABC-TV has one; CBS-TV lists a new series but does not call it a summer replacement; and NBC-TV names five, two of which have already started.

With the network schedules virtually set, it appears that 78 programs, roughly 70% of all the nighttime shows, will be all or partly reruns.

The new shows, by network, are: ABC-TV—*Music for a Summer Night* (Wed. 7:30-8:30 p.m.), starting June 30. CBS-TV's qualified replacement is *Brenner* (Sat. 9-9:30 p.m.), starting June 6. Singer Andy Williams returns to CBS-TV with his own summer show starting July 7 (Fri. 10-11 p.m.). At NBC-TV, the schedule includes *Kraft Music Hall Presents Dave King* (Wed. 9-9:30 p.m.), which started May 20; *Texas Rodeo* (Thurs. 7:30-8 p.m.), which was launched April 30; *Who Pays?* (Thurs. 8-8:30 p.m.), starting July 2; *21 Beacon Street* (Thurs. 9:30-10 p.m.), starting July 2, and *Perry Presents* (Sat. 8-9 p.m.), starting June 13.



According to BROADCASTING estimates, by the middle of summer there will be 39½ nighttime hours of repeats per week. From this past season, a total of 29 live programs will continue through the summer, with only occasional reruns planned by a few.

Chemistry added to NBC-TV curriculum

Like conventional schools throughout the U.S., NBC-TV's year-old *Continental Classroom* will be expanded next September. In addition to repeating the full course in Atomic Age Physics, the program will offer a two-semester college level course in Modern Chemistry to be televised in color, according to NBC board chairman Robert W. Sarnoff.

Starting Sept. 28, the current physics course taught by Dr. Harvey E. White will be repeated by tv tape recording and kinescopes from 6 to 6:30 a.m. The 160-lesson course in chemistry is scheduled to follow from 6:30 to 7 a.m. Dr. John W. Baxter, professor of chemistry at the U. of Florida, will be taking a year's leave of absence to teach the tv chemistry course. Nobel prizewinning chemists and other outstanding scientists will be guest lecturers, it was announced.

Approximately 300 colleges and universities are expected to carry Modern Chemistry for academic credit, 35 more than the current total for Atomic Age Physics. Mr. Sarnoff said that the decision to expand *Continental Classroom* reflected both the first season's success and "the great need that must still be served."

BLACKBOARD SWITCH
Physicist White (l) to chemist Baxter

To be taped in color in NBC's New York studios, the new half-hour class is under the supervision of Edward Stanley, NBC director of public affairs. Dorothy Culbertson is executive producer; Robert Rippen producer and Marvin D. Einhorn director.

The American Chemical Society and the American Assn. of Colleges for Teacher Education are partners with NBC in presenting Modern Chemistry. Financial backing is from the Ford Foundation, E.I. duPont de Nemours & Co., new donor to the program; Bell Telephone System, General Foods Fund, International Business Machines Corp., Pittsburgh Plate Glass Foundation, Standard Oil Co. of California, and United States Steel Corp.

Regis Films plans four tv-tape series

Regis Films, sales organization for the five-minute animated tv series, *Crusader Rabbit,* is going into program production as well as distribution, a move made possible by tv tape, Lee Argel, Regis vice president, has announced.

Four tv tape program series are being developed by Regis, Mr. Orgel reported. They are: *Beat the Genius,* a panel program in which five specialists, each an expert in his own field, match wits with a "genius" who takes on all comers; an untitled interview-discussion series with musician Artie Shaw as interviewer and name guests, such as J. Lee Cobb and Julie London, who discuss the effects of being a celebrity on an individual's private life in one of the first tapes of this series; *Chopsticks,* a musical quiz with John Scott Trotter as m.c. and five talented youngsters, aged 9 and 12, seated at baby grand pianos on which they play their answers to the questions, and a five-minute strip series featuring Morrie Amsterdam as a stand-up comic with a commentary on topics of general interest.

The first three projected series are being produced by Regis in cooperation with Ross-Danzig Productions, Mr. Orgel said. The fourth is a solo venture by Regis. The Artie Shaw series and *Chopsticks* have aroused interest from the networks, Mr. Orgel said, with the Amsterdam and *Beat the Genius* programs to be put into immediate production for syndication to stations in time for use on the air starting this fall.

Regis also has a film series in preparation, a documentary-adventure series with Greg (Pappy) Boyington, Marine aviation ace in World War II, as host to introduce each week's broadcast.

California stations win AP news awards

Two CBS-owned stations, KCBS San Francisco and KNXT (TV) Los Angeles, were top winners of awards for metropolitan broadcast stations made May 23 at the 11th annual meeting of the California Associated Press Television & Radio Assn. in San Diego, Calif. Each of the pair was voted an award for general excellence of presentation. KCBS also won one award for excellence and four for merit in the various program categories; KNXT won one award for excellence and three for merit.

KACE Riverside walked away with honors among non-metropolitan radio stations, winning not only the award for general excellence but three awards for excellence and three for merit in the individual program classes. KXTV (TV) Sacramento (formerly KBET-TV) was overall tv winner in the non-metropolitan field, also receiving an award for program excellence in the news category. Special awards went to the Armed Forces Radio Service for its coverage of the 1958 elections and a documentary, "Flying Tiger."

Award winners were selected by a panel of judges representing the Michigan AP Broadcasters Assn. Awards, covering broadcasts made during 1958, were;

News: Metropolitan radio for excellence—KNBC San Francisco "Noon News;" for merit—KFI Los Angeles "Pat Bishop Reports," KCBS San Francisco "California Tonight." In addition, 16 stations received recognition for cooperation in reporting local news to AP. Certificates of excellence went to KMYC Marysville, KUBA Yuba City, KPRL Paso Robles, KUKI Ukiah, KSCO Santa Cruz, KACE Riverside, KUTY Palmdale and KFMB San Diego. Certificates of merit for news cooperation were awarded to KGEN Tulare, KWIP Merced, KGO San Francisco, KXTV (TV) Sacramento, KOBY San Francisco, KCBS San Francisco, KENL Arcata and KUDU Ventura.

Eidophor Inc. set up by CIBA for C-C tv

CIBA has entered the closed-circuit television business. The Swiss drug, dye and plastics concern last week announced formation of Eidophor Inc., wholly-owned subsidiary which is to handle the new million-dollar venture.

Named president of Eidophor was Roderic L. O'Connor, former assistant secretary of state, and since Jan. 1 vice president and counsel of CIBA States Ltd., New York, which manages U.S. operations. The new company's vice president and general manager is Felton Davis Jr., who headed the medical tv unit of CIBA Pharmaceutical Products Inc., Summit, N.J.

Basis for CIBA's diversification is ownership of the Eidophor large screen, black-and-white and color tv projector, which had its first U.S. showing at the close of last year (BROADCASTING, Dec. 29, 1958). It features an independent light source allowing for projection of a 40x30ft. monochrome of 20 x15 ft. color picture. Contrast equivalent to that in good film projection is said to be obtainable.

Initial plans call for production of closed-circuit tv shows for business. Eidophor has entered an agreement with Teletalent Inc., New York, whereby the latter will produce the shows to be broadcast via Eidophor equipment. By fall, coast-to-coast monochrome projection is expected to be ready. Color for the immediate future will be limited to six locations within a 50-mile radius.

Movieman sues RKO over tv distribution

Tv distribution of six theatrical motion pictures produced by Benedict E. Bogeaus for RKO Radio Pictures has been halted by a preliminary injunction issued Monday (May 25) by Los Angeles Superior Court Judge Ellsworth Meyer. The injunction is a prelude to two suits totaling $7.5 million brought by Pinecrest, Alpine & Filmcrest Productions, of which Mr. Bogeaus is president and principal stockholder, against RKO Teleradio and its parent company, General Tire & Rubber Co. The complaint charges RKO with improper distribution of the pictures, alleging that they were released to tv stations owned by RKO without competitive bids from other stations and generally without efforts to secure the best revenue. Other breaches of distribution agreements are alleged, including a charge that RKO refused to deal with talent unions regarding residual payments for the tv showings and that RKO packaged the Bogeaus pictures with "others of inferior quality." The six pictures are: "Cattle Queen of Montana," "Tennessee's Partner," "Slightly Scarlet," "Pearl of the South Pacific," "Appointment in Honduras" and "Silver Lode."

NBC-TV fall schedule: 'Tv for every taste'

A fall nighttime schedule that is 60% new, more than 150 specials in prime time and "at least seven major informational programs at peak viewing hours," was promised last week by NBC Board Chairman Robert Sarnoff.

In one of his regular letters to tv-radio editors, he also said that "a key Sunday night time period devoted primarily to original, live, in-color, New York-originated dramatic shows" is on the fall schedule.

Speaking of the "image" that NBC-TV expects to present, he said that if this fall's schedule doesn't present "rewarding television for every taste," then "I will offer to swap images with Jim Knight" [publisher of the *Miami Herald*, who has been writing that newspapers should improve their own "image"].

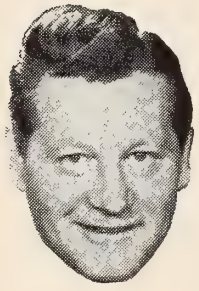
Mr. Sarnoff said that if NBC-TV were not conscientious about the "face it exposes," it "would have a crackling good private-eye or western series on Sunday from 8 to 9." "Nothing," he said "would be more saleable." Instead, he continued, NBC-TV has scheduled *The Sunday Showcase*, which he described as "primarily original plays, especially created for television by the medium's most gifted playwrights."

Mr. Sarnoff said the network plans to "practice a liberal withholding policy in the Sunday night period so that the *Showcase* productions will be interspersed irregularly with other specials ranging from variety and comedy hours to dramatic classics to news and public affairs."

Affiliation talks held by SDIG, SDGA

Screen Directors International Guild, which represents directors employed at film studios in the East, has been holding talks with the Screen Directors' Guild of America in Hollywood toward setting up an affiliation agreement. Members of SDIG last week endorsed a resolution recommending the approval of the general basis for affiliation. Under this proposal, SDIG would become the New York branch of SDGA after both groups approved the revised SDGA by-laws, making such an affiliation possible.

Under terms of the agreement, directors in the East would retain the power to deal with all local problems, including collective bargaining, government, finances and discipline over members working under its administration. The New York branch would be represented on the national board of SDGA in numerical proportion to its membership strength, and all east and west coast directors would enjoy equal working privileges.



• Program notes

• MCA Tv Film Syndication Div., N.Y., has completed its initial sale on *Shotgun Slade* mystery-adventure series to P. Ballantine & Sons, Newark, covering 28 markets in 17 eastern states, it was announced last week by David V. Sutton, vice president in charge of the

or hear Chuck Healy tell about it on his top-rated

SPORT SHOWS 6:38 pm Monday thru Friday • 11:15 nightly

Western New Yorkers are sportsminded . . . and so is WBEN-TV, their favorite sports station!

We learned long ago . . . back in 1948 when we first pioneered television in our rich, 15-county coverage area . . . to give our viewers what they wanted. "Live" wrestling was our first remote sports feature.

Since then WBEN-TV has supplemented the superb CBS network Sports Features with equally fine telecasts of our own. "Live" bowling . . . our BEAT THE CHAMP show . . . beats all competition and enjoys one of the largest audiences ever attracted to local TV.

The International Regatta on the turbulent Niagara River attracts the biggest names in speedboat racing and everything from outboards to hydroplanes. Our remote crew's annual coverage puts this water spectacle into hundreds of thousands of homes. Also, we've covered Ryder Club Golf, the Western Open, and almost every other sports event of local importance.

For good measure — and the good of our sponsors — we are the only Buffalo station that has a Late Sports Show *7 nights a week!*

All selling is LOCAL, and this effort to localize sports with thorough, creative and imaginative coverage has made WBEN-TV audiences large and loyal. It also helps make your TV dollars count for more on Channel 4.

WBEN-TV CH. 4

CBS IN BUFFALO

Represented nationally by Harrington, Righter and Parsons

division. The agency for Ballantine is Wm. Esty Co., N.Y. The series, starring Scott Brady, now is being offered for sales in other parts of the country.

• The signing of orchestra leader Lawrence Welk to an exclusive radio-tv agreement with the Dodge Div., Chrysler Corp., and ABC was announced last week. Mr. Welk, who currently has two weekly programs on ABC-TV, will concentrate on one tv program in the fall—*Lawrence Welk's Dodge Dancing Party* (Sat., 9-10 p.m.) It was reported that Mr. Welk also signed a separate agreement with ABC covering a period of five years.

• Gomalco Enterprises, producer of the *George Gobel Show*, filed a $1 million damage suit May 22 against NBC, NBC International and BBC. The suit charges that use by BBC last year of the Sept. 23 and Oct. 7 Gobel shows was unauthorized. The suit is filed by Pacht, Ross, Warne & Bernhard in the Superior Court of Los Angeles.

• The UPI Broadcasters Assn. of Massachusetts' annual Tom Phillips Awards for the state's best news broadcasts have been given to WEEI Boston and WKOX Framingham. The former's is for newscaster Ellis Mott's disclosure of industrialist Bernard Goldfine's income tax debt. WKOX's award is for coverage of last December's Chicago school fire.

• *Cold War—Berlin Crisis*—a one-hour documentary film syndicated by WPIX (TV) New York is in 34 markets at latest count. Most recent purchasers: WSLS-TV Roanoke, Va.; WHEN-TV Syracuse, N.Y.; WSJV (TV) Elkhart, Ind; KVOS-TV Bellingham, Wash. KPHL-TV Phoenix, Ariz.; WBTV (TV) Charlotte, N.C.; KCTV (TV) San Angelo and KMID (TV) Midland, both Texas; WBTW (TV) Florence, S.C. and KKTV (TV) Colorado Springs, Colo.

• A new weekly hour series entitled *The Lawbreakers* will occupy the 7:30-8:30 p.m. Tuesday segment on CBS-TV, the network announced Wednesday (May 27). The series will commence Sept. 22 with Ralph Meeker starring in "Dillinger: A Year to Kill". The new series, which fills the time previously announced for *Destination Space*, is based on an idea by veteran crime reporter and tv film writer George Ellis and by Lester Gottlieb, director of CBS-TV program development. It will be produced by John Houseman, with Charles H. Schultz as associate producer.

• Monarch Productions Corp., N.Y., commercial, industrial and program film producing company, is expanding its services for east coast clients requiring west coast production. Monarch will utilize Hal Roach Studios, Hollywood, at the sales and production level. West coast clients will use Monarch's facilities in New York. The flexible arrangement was announced last week by Norman Berman, Monarch executive producer.

COLORCASTING

Here are the next 10 days of network color shows (all times are EDT).

NBC-TV

June 1-5, 8-10 (2:30-3 p.m.) **Haggis Baggis**, participating sponsors.

June 1-5, 8-10 (4-4:30 p.m.) **Truth or Consequences**, participating.

June 2, 9 (8:30-9 p.m.) **Jimmie Rodgers Show**, Liggett & Myers through McCann-Erickson.

June 3, 10 (8:30-9 p.m.) **Price is Right**, Speidel through Norman, Craig & Kummel and Lever through J. Walter Thompson.

June 3, 10 (9-9:30 p.m.) **Kraft Music Hall** presents Dave King, Kraft through J. Walter Thompson.

June 4 (9:30-10 p.m.) **Ford Show**, Ford through J. Walter Thompson.

June 4 (10:30-11 p.m.) **Masquerade Party**, P. Lorillard through Lennen & Newell.

June 5 (7:30-8 p.m.) **Northwest Passage**, sustaining.

June 5 (8-9 p.m.) **Ellery Queen**, Gulf Oil through Young & Rubicam.

June 6 (10-10:30 a.m.) **Howdy Doody**, Continental Baking through Ted Bates.

June 6 (10:30-11 a.m.) **The Ruff and Reddy Show**, Borden's through Benton & Bowles and Mars through Knox-Reeves.

June 6 (8-9 p.m.) **Perry Como Show**, participating sponsors.

June 7 (7-7:30 p.m.) **Midwestern Hayride**, local co-operative sponsorship.

June 7 (7:30-8:30 p.m.) **Steve Allen Show**, RCA through Kenyon & Eckhardt. hardt.

• NBC-TV plans 13 new programs for its *Wisdom* series next season. The half-hour interviews with elder wise men and women from varied fields will be produced by James Nelson, associated with NBC Special Projects since 1956, and will again have John Bloch as director. Among the topics for the new season: Classical ballet, specialized medicine, symphony orchestra conducting and humor. The series began in 1952.

• Radio & Television Directors Guild, New York local, reports the election of John J. Sughrue Jr., as president, replacing Tom Donovan. Other new officers are: Ted Nathanson, vice president; Cort Steen, secretary and Robert G. Myhrum, treasurer.

• Lewis Freedman is to produce and direct Westinghouse Bcstg. Co.'s public service series *In Praise of Learning*. Michael R. Santangelo will be associate producer.

• The tape of an interview KYW Cleveland, Ohio, News Editor Leah Montgomery had with a confessed murderer has been requested by Cuyahoga (Cleveland) County Prosecutor John Corrigan.

• Television Communications Inc. (closed-circuit tv producer), S.F., names Martin & Tuttle, Seattle, northwest representative. Address: John Heverly, vice president, M&T, 1609 Tower Bldg., Seattle 1.

• The Taussig Paint Sales Co., Jenkintown, Pa., is producing "Lasticolor," a vinyl spray for quick redecoration of color tv props. The company says that it "dries so quickly that the same props could be used on different shows less than an hour apart."

• WDAU-TV Scranton, Pa., has given state Governor David Lawrence a copy of its coverage of his inauguration ceremonies. The 45-minute film includes the governor's inaugural address, shots at the inaugural ball and other footage of the two-day celebration.

• NBC Radio's second *Image* series starts tomorrow (June 2). Titled *Image Minorities*, the four-week series will preempt the 8:40-10 p.m. EDT segment of *Monitor Summertime* Mondays through Thursdays, announced Albert L. Capstaff, vice president, radio network programs. The documented programs will examine the history, problems and ambitions of minority groups in the U.S. Topics include immigration, cultural traits and assimilation of various racial and religious groups, it was reported. The first series, *Image Russia*, was broadcast in January and February of this year. Peter Lassally is executive producer and director of the new series. Associate producers are Peter Flynn and Charles Grinker. Jim Holton is editorial supervisor. Alice Wallace and Jim Aldrich are the writers.

• Allied Artists Pictures Corp., Hollywood, Calif., has paid 13¾ cents a share on its 5½% preferred stock to stockholders of record June 3.

• Television production students with Northwest Schools (vocational training), Portland, Chicago and Hollywood, have selected their third annual Stella Award winners:

Best male vocalist—Perry Como; female vocalist—Dinah Shore; dramatic series—*Playhouse 90;* adventure or mystery—*Perry Mason;* western—*Maverick;* situation comedy—*Father Knows Best;* comedian—Red Skelton; newscast—Chet Huntley; musical or variety—Lawrence Welk; personality—Jack Paar.

• Compass Productions Inc., N.Y., is headquartered at 1841 Broadway, not 1341 as reported by the company in last week's BROADCASTING (May 25).

"So then U.S. Steel invested $770 million in us"

An American baby is born every eight seconds—11,000 every day—4,000,000 a year. Our population will soon be over 200 million. And as our population grows, our production must grow. We'll need millions of new homes . . . new schools and hospitals . . . new highways to carry 75 million motor vehicles by 1970 . . . not to mention countless appliances and conveniences that haven't even been invented yet!

No temporary setback can stop the growing needs of our population. That's why United States Steel has gone ahead with expenditures totaling $770 million to provide more and better steels for tomorrow's citizens. This is the practical way that we've demonstrated our faith in the future.

HOUSE LINES UP SPECTRUM PANEL

Harris names panel participants for next week's sessions

The first step in a $200,000 investigation of the radio spectrum and allocations will be taken next Monday and Tuesday (June 8-9) in Washington when the Communications Subcommittee of the House Commerce Committee calls a panel of experts on the subject.

Increased demands for additional frequencies and expected future requirements by various government and non-government users have pointed up the necessity for such a study. Several members of Congress have called for an investigation by a specially-appointed commission while the White House has proposed its own study.

Who will be there • Names of the participants in the panel were finalized last week, Rep. Oren Harris (D-Ark.), committee chairman, said.

Government members will include Leo A. Hoegh, director of the Office of Civilian & Defense Mobilization; E. R. Quesada, administrator of the Federal Aviation Agency; Paul Goldsborough, Dept. of Defense, and Comrs. John Doerfer and Robert Bartley of the FCC.

Speaking for industry organizations will be D. R. Hull, president, H. Leslie Hoffman and Paul Chamberlin, Electronics Industries Assn.; President Harold Fellows, and A. Prose Walker, both of the NAB; Howard T. Head, Assn. of Maximum Service Telecasters, and Harold R. Huntley of AT&T for Communications Common Carriers.

Participating as individuals will be Victor E. Cooley, chairman of the President's Special Advisory Committee on Communications; Dr. Irvin Stewart, former chairman of the FCC and member of the Cooley committee; Dr. W. L. Everitt, dean of the U. of Illinois School of Engineering, and Frank G. Kear, Washington consulting engineer and member of the Cooley committee.

According to Rep. Harris, the panel will discuss "the nature of the problems attending the present and future utilization of the radio spectrum and the most appropriate and effective methods of approaching the examination and resolution of these problems."

One of the government panelists will open the discussions with an explanation of the problems of dividing the radio spectrum among the various government and non-government users.

Many hands in pot • There is a great deal of confusion in this area because of the dual responsibility in allocating spectrum space. The FCC assigns frequencies to private users while the Administration allocates space to the government, including the military. Each spokesman from the government agencies will be given approximately 15 minutes to outline the specific problems of his particular organization.

Many involved in the problem, including several congressmen, look to the spectrum study as a possible vehicle for eventually providing more vhf spectrum space for broadcasting. Rep. Harris has pointed out that the first problem is to determine how much space is necessary for a truly nationwide, competitive tv service. He has indicated the belief that possibly 25 contiguous vhf channels will be sufficient while the FCC has talked of providing 50 channels through a swap with the military.

The FCC has a special meeting scheduled on allocations for today (Monday).

Rep. Harris has not given any indication what course the spectrum investigation will take following next week's panel. The committee still does not have a staff of allocations experts to help in the study.

ARKANSAN SPECTRUM PROBER

Rep. Oren Harris (D-Ark.) has never been known to refuse to meet a controversial issue head-on. And, the astute chairman of the House Commerce Committee and its communications Subcommittee is not ducking the issue in tackling a study and investigation of radio spectrum allocations.

At a time when the White House, military and Congress were squabbling over who—if anybody—should be authorized to investigate the spectrum, Rep. Harris asked the House for, and received $200,000 for a study by his own subcommittee.

A panel discussion (see above) on Monday and Tuesday of next week is the first public step by the subcommittee in implementing its investigation. Behind the scenes, the congressmen have had more than a little trouble acquiring competent staffers for the investigation. To date, not a single person has been retained on a full time basis.

It was natural for Oren (Doc) Harris to run for Congress from Arkansas' fourth district. The family name has been well-known in the district's 17 counties since late in the 19th Century.

Family Tradition • His grandfather first put the Harris name before the public as a county judge prior to the turn of the century. His father, in addition to farming, was at one time or another a tax assessor, county superintendent and school teacher—activities that caught the public's eye.

Young Oren continued to keep the Harris name in the forefront. First with his athletic prowess, then as prosecuting attorney for a four county area and as district governor of Lions International. In this last post, he traveled all over Arkansas' fourth congressional district addressing local clubs of the civic organization.

Consequently, when Oren Harris in 1940 decided to run for Congress, he was not offering the voters an unknown quantity. In the Democratic primary—which in Arkansas is tantamount to the general election—he defeated incumbent Rep. Wade Kitchens and has been representing the district in Washington ever since.

Rep. Harris became chairman of the House Interstate & Foreign Commerce Committee at the beginning of the 85th Congress, in January 1957. Widely-known as an expert on broadcast matters, he retained his chairmanship of the Communications Subcommittee upon being elevated to the full chairmanship.

Self Made Chairman • And in February 1958, when the internal fights of the Legislative Oversight Subcommittee were splashed all over the front pages of the nations newspapers, Rep. Harris appointed himself chairman of that controversial investigative body.

When he moved up from an ex-officio member of the subcommittee to the chairmanship, Rep. Harris stated: "I feel personally that I have now the greatest challenge of my life . . . I accept this challenge . . . I will stand or fall on the success of this investigation. . . . I am now calling for the most thorough investigation insofar as pos-

sible that Capitol Hill has ever seen."

Whether or not the subsequent investigation during 1958 and the subcommittee's work in the future will constitute "the most thorough investigation that Capitol Hill has ever seen" probably will be decided by historians of the future. But, the investigations already have caused the resignation and criminal indictment of former FCC Comr. Richard A. Mack and the resignation of the President's top aide, Sherman Adams.

As a result of the Oversight Subcommittee's work, Rep. Harris has been called just about everything that can be printed. Except for rare instances, he has steadfastly refused to enter into a controversary with his critics or to answer them publicly. There was open speculation in the press and among congressional colleagues that he would give up the chairmanship of the Oversight Subcommittee during the 86th Congress.

Rep. Harris' reply: "Not on your life. That's one job I'm not about to give up." In fact, he voluntarily tackled still another tough job in the Communications Subcommittee's investigation of the spectrum.

The Beginning • Oren Harris was born in Hempstead County, Ark., Dec. 29, 1903, a son of a farmer and school teacher. The Harris home was a combination frame and split log house. A teenage Oren decided to become an attorney one day while helping his father plow. The senior Harris told of his childhood hopes to become a member of the bar, but he was successfully discouraged by his mother. "I guess I decided right then and there to become a lawyer," Rep. Harris remembers.

However, money for schooling was something of a problem. As a 16-year-old, Oren Harris worked in the oil fields (in 1920) during the famous Smackover boom. Returning to farming the following summer, he harvested an extra good cantaloupe crop, thereby earning enough money for six months of high school.

In the fall of 1921, he entered Academy State Teachers College Prep School and attracted considerable fame as a football halfback. In fact, Oren's skill on the gridiron solved the problem of his future education as no less than a half dozen high schools offered him "scholarships."

He chose Prescott (Arkansas) High School and, in addition to excelling in football, he was a member of the National Honor Society (scholastic). Sports eligibility rules were somewhat lax in those days and, although Oren qualified for graduation in the spring of 1925, his certificate was held up until November so that he could play one more year of football.

After that final high school football season, he worked in a Prescott drug store until entering Henderson-Brown College (now Henderson State) in Arkadelphia in September 1926. It was while working in the drug store that he picked up the nickname "Doc."

Gridiron Hero • The first person Oren met at Henderson was Ed (Jug) Williamson, who became his roommate and today is chief clerk of Rep. Harris' congressional committee. "Jug" also was a star football player and the roommates claim, "We had a hell of a football team."

Student Harris became a campus leader immediately. He was president of his freshman and senior classes and in addition to a football scholarship, worked at various times in a sandwich shop, on the college yearbook and in the school's business office.

During the summers, Oren was sought out by various sandlot and semi-pro baseball teams because of his abilities as a catcher. He remembers being paid $5-$10 per game at the start and in later summers was employed on a monthly basis to play baseball. From 1940-54, Rep. Harris continued to star as a baseball player as the Democratic catcher in the annual congressional baseball game.

After the 1954 game, when Rep. Harris was 50, and he couldn't get out of bed the next morning, he accepted his wife's advice and "retired."

Graduation Gifts • But that's getting ahead of the story. From Henderson State, Mr. Harris went to the Cumberland U. Law School in Lebanon, Tenn. When he received his LLB (requirements could be met in one year) in 1929, "Jug" Williamson engineered a collect telegram of congratulations containing several hundred signatures.

"Doc" Harris got a look at the wire without paying and promptly sent his ex-roommate a large, extremely heavy box filled with bricks—collect—and Jug had to pay.

Mr. Harris taught school the following year and in July 1930 passed the Arkansas bar exam. He entered practice in Prescott but stayed there only a short time before moving to El Dorado to enter the law office of John E. Harris (no relation).

In January 1933, he became assistant prosecuting attorney and in 1936 was elected prosecuting attorney for the four counties of Union, Columbia, Calhoun and Ouachita. He remained prosecuting attorney until his election to Congress four years later. He also served one year as Lions district governor while he was the area's chief prosecutor.

CHAIRMAN HARRIS

Challenge accepted

The Family • Shortly after moving to El Dorado, Mr. Harris began dating Ruth Ross, whom he had known only slightly while in college. They were married in May 1934. The Harris' have two children; Carolyn Marie, 21, and Jimmie, 11. Carolyn, a senior at the U. of Arkansas, is the current National Cherry Blossom Princess. She also is captain of the university's cheer leaders squad and has been a cheer leader for three years.

In the fall of 1938, attorney Harris received one of the first FHA loans ever granted for the purchase of a home in El Dorado. A solemn ceremony was held just last fall in the Harris household when this 20-year-old mortgage was burned.

In addition to belonging to Lions International, Rep. Harris is a 32d Degree Mason, a Shriner, member of Knights of Pythias and Sigma Alpha Epsilon social fraternity. He sometimes teaches the Von Bible Class at Washington's Calvary Baptist Church.

On the rare Saturdays when Rep. Harris is not in his Capitol Hill office, he likes a round of golf and in the fall seldom misses a U. of Arkansas football game. Also, on occasion he can be found in the House gym beating a colleague in squash.

"I've been very fortunate and have a lot of friends who are responsible for my success," Rep. Harris said in explaining his 10 consecutive terms in Congress.

ALL EX PARTE ISN'T ALL BAD

Can even educate, Doerfer tells FCBA

The chairman of the FCC last week warned that some of the cures being proposed to cope with off-the-record representations before regulatory agencies may be worse than the disease itself.

FCC Chairman John C. Doerfer, commenting on "Extra Record Reliance in Rule-Making," told members of the Federal Communications Bar Assn. that an overall bar against commissioners talking to outsiders in so-called rule-making proceedings might work against the very thing the commissioners were appointed to acquire: expertise.

Mr. Doerfer said he was opposed to proposed legislation which would make all cases and proceedings before the FCC adjudicatory in nature.

"We must be free to talk to people, go to the library and research, make investigations in order to gain the knowledge to make policy," Mr. Doerfer said.

He added: "I have felt there is no question about my discussing any subject with anyone, unless it's an adjudicatory case. How else will I learn? How else will I become an expert?"

From the shoulder • Discussing the problem with unusual frankness, Mr. Doerfer proposed a working definition of an adjudicatory case and a rule-making case. It was this:

• Any proceeding involving a "valuable right" is adjudicatory.

• Any proceeding involving a hotly contested issue (as against a valuable right) is rule-making.

The general policy that the FCC would consider deintermixing some cities to try to overcome the problems of uhf and vhf was rule-making, Mr. Doerfer stated. But, he added, the specific deintermixture cases that resulted from that policy should not have been considered rule-making.

He likened this latter situation to spot zoning in municipal administration.

Redeeming Grace • Mr. Doerfer asked the FCBA to study the question and the proposals and come up with some plan which will save the "one redeeming feature of the whole scheme of regulatory agencies—experience."

"If you don't," he declared, "there's no need for an agency. There's no need for the FCC and its 1,200 people. It will become all court work."

The establishment of an administrative court—as proposed in some quarters as a solution to the *ex parte* problem—would be retrogression, Mr. Doerfer explained. It would result, he said, in the very thing Congress was trying to overcome in establishing the regulatory agencies—awkwardness, expense, long delay.

Aside from the regular adjudicatory cases (applications for new stations, changes in facilities), Mr. Doerfer said he felt that such matters as license revocations, and hearings on license renewals should also be included in the judicial category. As to the latter, he said, he thought the situation should become adjudicatory as soon as a complaint was filed.

Tender Area • The FCC chairman was treading on delicate ground.

The very identical subject—*ex parte* representations in rule-making proceedings—is on the agenda for discussion by the House Oversight Committee panel June 15. It is part of an overall discussion of various administrative process problems.

Early in May the U.S. Court of Appeals in Washington remanded back to the FCC the decision moving ch. 2 from Springfield, Ill., to St. Louis, Mo. The remand was on the ground that there had been off-the-record conversations with commissioners on this subject (BROADCASTING, May 11).

Pending before both houses of Congress are various bills which would prohibit FCC and other federal agency commissioners from having off-the-record contacts with anyone on any subject involving a proceeding before the agency. The most significant of these is Rep. Oren Harris' bill (HR-4800) which resulted from the recommendations of the House Oversight Committee sessions last year.

Malfeasance bill

A bill which would empower the President to remove any member of the FCC or the Federal Power Commission for inefficiency, neglect of duty or malfeasance in office has been introduced by Chairman Warren G. Magnuson (D-Wash.) of the Senate Commerce Committee. The bill also would retain in office a member of the FCC or FPC whose term has expired until his successor "is appointed and has qualified." The bill, it was explained, would make the Federal Communications Act and Federal Power Act more uniform with the acts which created other agencies and commissions under the Senate committee's jurisdiction. Sen. Magnuson offered an identical bill in 1958.

FCC affirmed on ch. 7

The U.S. Court of Appeals in Washington last week upheld the FCC's handling of the four-year-old Buffalo ch. 7 case.

In a unanimous three-judge decision the court held no detriment was suffered by the other applicants from the various steps taken by the FCC in establishing the financial qualifications of successful

Norton's tv ideas his own—Astin

The director of the National Bureau of Standards has applied the muzzle to the rampaging Dr. Kenneth H. Norton and his campaign to persuade the FCC to reduce co-channel tv station spacing to as low as 100 miles (BROADCASTING, May 11, April 6).

Dr. A. V. Astin, NBS director, told FCC John C. Doerfer in a letter dated May 7, that Dr. Norton's recommendations on tv allocations was made in his capacity as a member of the Television Allocations Study Organization and "does not reflect the official views" of NBS. Dr. Astin said it would have been "more appropriate" if Dr. Norton's letter had been submitted as a minority TASO report. He said NBS was available to advise the FCC on technical radio problems involving tv allocations.

Publication of Dr. Norton's April letter was completely unauthorized, Dr. Astin said. The NBS director expressed his apologies for its having been released. He added that "steps have been taken" to prevent a recurrence of this "misunderstanding."

Mr. Doerfer replied on May 21 telling Dr. Astin he had read the letter to the other FCC commissioners and that it had clarified "what we all suspected."

Dr. Norton's April letter was addressed to Mr. Doerfer. In it the NBS radio propagation expert took issue with some of the TASO findings.

He urged that closer co-channel spacing of tv stations would "maximize" each channel thus permitting the assignment of additional vhf stations. CBS' engineering Vice President William Lodge publicly took issue with Dr. Norton, which spurred another communication from the Boulder, Colo., scientist.

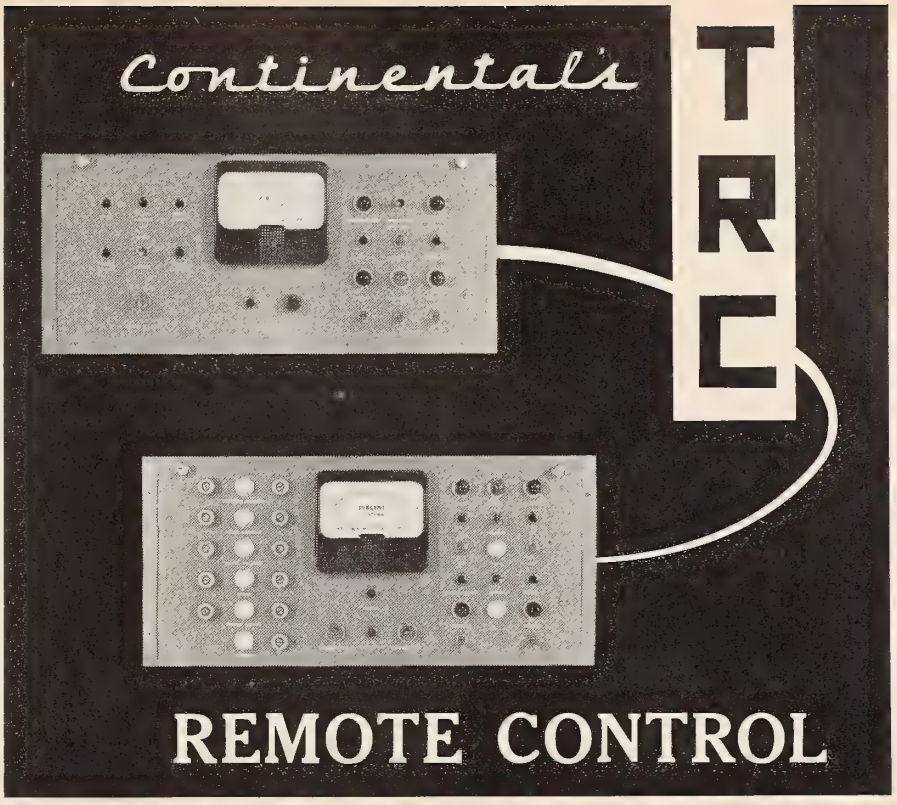
WKBW-TV Inc. and in permitting that applicant to amend its engineering proposals. The court also, caustically, turned down Greater Erie Broadcasting Co.'s request that the court remand the August 1958 decision in favor of WKBW because of the Commission's findings on the reliability of its owner, Leon Wyszatycki. Greater Erie is the licensee of WWOL Buffalo.

The decision was written by Circuit Judge John A. Danaher for himself and Judges George T. Washington and Walter Bastian.

White House yanked 2,800 mc, airmen say

The FCC played second fiddle to the White House in taking frequencies away from civilians and turning them over to the military, it was charged last week.

The allegation was made before a three-judge panel of the U.S. Court of Appeals in Washington by lawyer Joseph DuCoeur representing Aeronautical Radio Inc., Air Transport Assn. of America and others.



Airinc and Bendix Aviation Corp. have appealed the FCC's April 1958 decision removing 2,800 mc of radio spectrum space from "non-government" use and assigning it exclusively to government service. (BROADCASTING, April 21).

Summary Treatment Cited • Airinc claimed that the Commission acted without notice, without a hearing, and in violation of international treaties. Bendix charged that the FCC turned down its application for aircraft anti-collision development without a hearing.

Airinc is fighting the Commission's reallocation of the 8500-9000 mc band. This was being used for aeronautical radio navigation. Bendix sought 430 mc for its anti-collision development; the FCC reallocated 420-450 mc.

Included in the 14 bands changed to government usage was the 890-942 mc band, which contained allocations for am, fm and tv studio-transmitter links. Broadcasters operating in the deleted band were permitted to remain, but subject to interference from government sources.

FCC Assistant General Counsel Max Paglin justified the change on the ground of "vital" national defense. The request was made to the FCC by the Office of Civilian & Defense Mobilization, he pointed out, and the reasons have been submitted to the court under seal. He warned that the court may not question the Executive branch's judgment that the move was required in the national defense, but agreed that the court could review the method the Com-

mission took in ordering the changes.

Richard A. Solomon, former FCC assistant general counsel now with the Dept. of Justice, also told the court that it could not go behind the OCDM decision.

The court comprised Circuit Judges George T. Washington, John A. Danaher and Warren E. Burger.

Entire FTC staff used to monitor tv

The Federal Trade Commission calls on practically its entire staff to help monitor radio and tv programs for false and misleading advertising, Trade Commission-nominee Earl W. Kintner told the Senate Commerce Committee last week.

Mr. Kintner, present FTC chief counsel, appeared last Wednesday (May 27) for confirmation of his promotion to a commission member. Sen. Warren Magnuson (D-Wash.), committee chairman, asked Mr. Kintner if he planned to "vigorously pursue" the FTC's monitoring activities. The nominee replied that as long as he is at the FTC, it will continue and intensify the monitoring of tv advertisements.

"I am very familiar with the problem," Mr. Kintner stated. The general staff of the Trade Commission watches tv at home and then reports alleged violations to the tv monitoring unit for action, he pointed out.

Mr. Kintner, in answering a query by Sen. Andrew Schoeppel (R-Kan.), said that he had no objection to members of Congress inquiring about the status of pending cases. Chairman John W. Gwynne, who plans to leave the FTC today (June 1), testified on behalf of the nominee, an Indiana Republican. Sen. Magnuson said that he knew of no objections to the Kintner nomination and expected the committee to act favorably without delay.

Rep. Magnuson hits operator rule change

Rep. Don Magnuson (D-Wash.) last week took issue with the FCC's recommendation for a revision of Sec. 318, of the Communications Act, which requires that a licensed operator be on duty at broadcast stations at all times. The Commission has recommended this and other amendments in order to recognize vhf translators already operating without authorization (BROADCASTING, April 20).

"I do not feel that this proposed amendment is necessary or desirable," Rep. Magnuson said. In the proposed form it clearly is irrelevant to the vhf translator problem and goes far beyond it."

Rep. Magnuson entered into the *Congressional Record* an exchange of correspondence with Comr. Rosel Hyde, acting FCC chairman. Comr. Hyde pointed out that Sec. 318 was enacted in 1934 and since then there have been wide improvements in broadcasting equipment so that it no longer is necessary for an operator to be on duty at all times.

Questions and answers • FTC-nominee Earl W. Kintner (l), with an assist from retiring Trade Commission Chairman John W. Gwynne (r), answers the questions of the Senate Commerce Committee at his confirmation hearing.

Hill report blisters FCC on AT&T handling

The FCC was described as a weak sister in its regulation of AT&T in a House Antitrust Committee report on the 1956 AT&T consent decree, released last week by Rep. Emanuel Celler (D-N.Y.), chairman of the committee.

The report—an attack on the Dept. of Justice's handling of the controversial AT&T antitrust case and particularly on then Attorney General Herbert Brownell Jr.—was signed by Mr. Celler and three Democratic members of the committee. Two Democratic members did not sign and all three Republican members dissented.

The document was critical of the FCC's participation in the case because, it said, the Commission's report to the Justice Dept. on its power to supervise Western Electric's prices to the Bell System companies was "distorted" and "inadequate." It said the FCC deleted information suggested by its staff which raised questions whether the Commission in fact was capable of supervising Western Electric's prices. Named as being active in preparing the FCC's statement to the Justice Dept. were former FCC Chairman George C. McConnaughey, present Chairman John C. Doerfer and former Comr. Richard A. Mack.

It also was critical of the Commission's failure to investigate long distance telephone rates. It observed that as a result of the 1953 FCC approval of a $65 million raise in such rates the public may have been overcharged a total of $159 million for 1955-57.

In the AT&T case, the Justice complaint originally asked that Western Electric be divested from AT&T ownership. The consent decree did not force this.

The report also reviewed the 1941 oil pipeline consent decree.

Kefauver on stand today in Mack case

Sen. Estes Kefauver (D-Tenn.) is scheduled to testify today (June 1) as a defense witness in the government's criminal conspiracy trial against former FCC Comr. Richard A. Mack and his friend, Miami attorney Thurman A. Whiteside. The senator, who leaves for London tomorrow, accepted a subpoena last week and said he would be glad to testify.

Sen. Kefauver is a friend of A. Frank Katzentine, a losing applicant in the Miami ch. 10 contest. He has acknowledged contacting some FCC members about the ch. 10 case while FCC adjudication was pending, but said he was interested only in having the case decided on its merits.

Mr. Katzentine, who also has been subpoenaed by the defense, complained that he is being harassed by being told to make the trip to Washington at once.

Witnesses last week were two banking executives, Frank W. Colton, First National Bank of Coral Gables, Fla., and William R. Von Blon, Munsey

branch of the Union Trust Co. of Washington, D.C. Both testified on financial transactions between Mr. Whiteside and Mr. Mack while the latter was an FCC member.

Federal District Judge Burnita S. Matthews ruled last week that Mr. Whiteside's testimony before the House Legislative Oversight Subcommittee last year may be introduced at the trial. The defendants are charged with conspiracy to rig the FCC vote in the Miami ch. 10 case to favor Public Service Tv Inc., a National Airlines subsidiary.

FCC announces tv channel changes

Some far-reaching tv allocation decisions were made by the FCC last week.

The Commission denied conflicting proposals by the Joint Council on Educational Television and WHTO-TV Atlantic City, N.J., to make now-dark ch. 12 Wilmington, Del., educational or assign it either partially or fully to Atlantic City. In terminating rulemaking proceedings on this channel, which has aroused the interest of commercial and educational groups (BROADCASTING, May 25), the FCC noted that any timely application proposing noncommercial operation on ch. 12 would be entitled to comparative consideration with pending commercial applications.

Also last week, the Commission amended the tv table of assignments by allocating ch. 10 to Appleton, Minn., for educational use, by deleting ch. 61 from Moses Lake, Wash., and substituting ch. 33 there, by deleting ch. 67 from Wenatchee, Wash., and adding ch. 27 instead and by exchanging ch. 33 Kellog, Idaho for ch. 36. The FCC amended the tv table of assignments in the 50th state by substituting ch. 7 for 8 in Wailuku, Hawaii, deleting educational ch. 7 from Honolulu and reserving now commercial ch. 11 for educational use in Honolulu and deleting ch. 7 from Hilo. At the same time the Commission assigned educational ch. 14 to Mount Pleasant, Mich., and substituted ch. 27 for ch. 21 in West Branch, Mich.

Among tv rulemaking petitions denied by the FCC last week was one by KUMA Pendleton, Ore., to assign ch. 5 to that city, which now has uhf ch. 28 allocated to it. Also, the Commission denied a petition by ch. 53 WATR-TV Waterbury, Conn., to shift ch. 18 (WHCT [TV]) from Hartford to Waterbury and permit WATR-TV to change channels accordingly. A petition for reconsideration and a request for oral argument by Gregg Television Inc., Longview, Tex., on the Commission's rejection of proposals to shift the educational reservation in Denton, Tex., from ch. 2 to a uhf frequency was likewise denied.

Puts out the fire

Stomach acid can't burn a hole in a cloth napkin and the tv Rolaids commercials that contend so are forbidden, the Federal Trades Commission has ruled.

The FTC also called an official halt to the use of white coated actors in Rolaids tv commercials. The "men in white", an old tv controversy (BROADCASTING, June 23, 1958), were used to imply the medical profession's endorsement of Rolaids. The FTC stipulated that any such medical representation must be "limited to numbers of doctors not greater than has been ascertained to be the fact." The FTC dismissed without prejudice a charge against Rolaids that the product, as per its claim, was twice as effective as competitors.

• Government notes

• June 1, 1960, was set as the effective date by the FCC last week for tv outlets to have type-approved frequency and modulation monitors at the station whenever the transmitter is in operation. In the wake of continued development of am-fm-tv transmitters as to more stable frequency control circuits, the Commission announced it is considering a review of its requirements regarding continuously operating frequency monitors. A rulemaking proceeding is a possibility, the FCC noted.

• KTVE (TV) El Dorado, Ark., was granted a waiver of FCC rules by that body last week to enable the station to identify itself as a Monroe, La., outlet as well. Comrs. Robert Bartley and Frederick Ford dissented on this grant to the ch. 10 station.

• The "Kohler hearings" kinescope controversy, in which some two dozen tv outlets carried films of the hearings before a special Senate committee without identifying them as being furnished by the National Assn. of Manufacturers (BROADCASTING, Dec. 1, 1958) was mentioned by the FCC last week as it renewed the license of a tv station. KARD-TV, ch. 3, Wichita, Kan., was granted its license renewal only after the Commission had reminded the station of the requirement for full identification of "sponsors" as in the NAM donated kinescopes.

SURE-FIRE

says John Guider, Pres. & Gen. Mgr.
WMTW-TV
POLAND SPRINGS, ME.

The Warner Bros. library is sure-fire. These are films you can program dozens of different ways, and come up with a top rating every time. According to Mr. John Guider:

"Last year we bought half the Warner Bros. library. The results were completely satisfactory—both as to ratings and to sponsor reactions. So we just came back and bought the remaining half despite the fact that we already had the three other complete major packages. Those Warner Bros. features have certainly proved a real good buy."

Warner Bros. features offer big name stars, great pictures. Many stations run these films in several time slots, morning, afternoon and night. It's a smart way to put the whammy on competition, and profitable, too.

FM—WHAT'S WRONG
'Why they don't buy' on Old Comfort agenda

Agencies and fm broadcasters will confront each other with their common problems June 4-6 at the second Multiplex (mx) Seminar to be held at Old Point Comfort, Va.

Their main problem: why agencies don't buy fm.

Following the pattern of the first fm-mx seminar in the autumn of 1957, the program will cover the full range of developments in fm broadcasting and the use of sidebands for broadcast and nonbroadcast services.

FmAB's First • Combined with the seminar will be the first meeting of the new Fm Assn. of Brodcasters, formed last March during the NAB Chicago convention (BROADCASTING, March 23). Larry Gordon, WBNY-FM Buffalo, is FmAB president. The association's meeting will be held on the final day.

Two agency executives will appear on the timebuying panel, according to Dan Hydrick Jr., general manager of WGH-FM Newport News, Va., sponsoring the seminar. They are John Walt, Motorola account executive of Leo Burnett Co., Chicago, and Ed Acree, partner in Wilson & Acree, Richmond, Va. Esther Rauch, John Blair & Co., Chicago, will speak from the representatives' viewpoint. Two New York agency officials are expected to join the panel, Mr. Hydrick said.

Agenda • Besides the don't-buy discussion, the panel will go into future potential buys on fm, what's to come in stereo, need for ratings, and size and compostion of the fm audience.

A broadcast management panel will review mx problems such as telephone lines vs. fm, sales and competition, cost of equipment, size of business and problems of entering the fm broadcast field.

A manufacturing panel will include Gardiner Green, Browning Labs.; Sal Fulchino, General Electronic Labs.; Wally Warren, Gates Radio Co., and A.H. Bott, RCA.

The fm-mx tax problem will be handled by Sigmund Timberg, FmAB attorney who is involved in ASCAP negotiations; Seymour Krieger, attorney, discussing the 8% federal tax on fm and fm-mx background music, and Douglas A. Anello, NAB chief attorney. Legal phases of storecasting, FCC stereo and mx regulations and mx excise taxes will be reviewed.

Taking part in an engineering panel will be A. Prose Walker, NAB engineering manager; Milton Chambers, Washington consultant; Phil Hayden, General Electronic Labs., and Carl Schabiner, WFLY (FM) Troy, N.Y.

Back to skool

A spelling test conducted by an elementary school teacher in Phoenix, Ariz., showed the influence of KOOL-AM-TV there. When asked to spell "cool," 18 fourth graders in a class of 35 spelled it "kool."

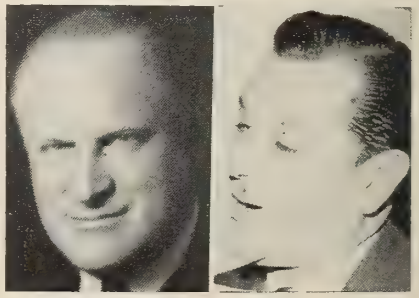
Pickford-Rogers told to dispose of WSJS-TV

Mary Pickford and her husband Buddy Rogers have been ordered to sell their one-third interest in WSJS-TV Winston-Salem, N.C. After 11 weeks of testimony and argument in the suit of Piedmont Publishing Co. to compel the couple to sell their stock, and the Pickford-Rogers countersuit for $750,000, Los Angeles Superior Court Judge John L. Ford last Monday (May 25) ruled that the couple must sell their stock at a price of $133,243.

Piedmont, controlled by Gordon Gray, assistant to President Eisenhower, contended that in 1953 it was issued 1,000 shares of stock in Triangle Broadcasting Corp., licensee of WSJS-TV, and Miss Pickford was issued 500 shares, at $100 per share. Piedmont also asserted that it had an option to buy her stock within six years under a formula which would give her and her husband a total of $126,812, or a profit of $76,812 on their $50,000 investment.

Miss Pickford and Mr. Rogers rejected this offer and filed a cross-suit alleging that she had been induced to withdraw her application for a tv station in Winston-Salem and join Piedmont in WSJS-TV on the assurance that the option would not be exercised. The Pickford-Rogers action also said that the Piedmont offer was designed to deflate the true value of the stock, which the couple said was at least $500,000.

WRCA-TV goes 'Orbit'



WRCA-TV New York is placing into effect on July 4 its "Orbit Plan," under which an advertiser may purchase spots in Triple A time on a rotating basis vertically and horizontally (CLOSED CIRCUIT, May 25).

Under the plan an advertiser may buy a spot on Thursday at 8 p.m. the first week; at 8:30 p.m. the following week, and progressing to 10:30 p.m. the sixth week. On a horizontal basis, an advertiser may buy the 8 p.m. spot on different days of the week over a six-week period. Mr. Davidson reported that research indicates that over a six-week period an advertiser using the "orbit" schedule would gain 25% in his cumulative rating.

Jaret, Hull merge as new station brokers

A new entry in the field of station brokers was announced last week by David Jaret, president of the business brokerage house of that name. Warren Hull, long-time radio-tv entertainer and producer, will be associated with Mr. Jaret's firm in station sales.

David Jaret Corp., located at 150 Montague St., Brooklyn, N. Y., has been in business brokerage for 36 years. It was described by *Barron's*, financial

MR. JARET MR. HULL

Capitalizing on a seller's market

publication, as the only house dealing nationally in every kind of enterprise—54 main categories and 20 supplemental, from hotels to bowling alleys. Its current inventory of properties for sale is estimated at $1.6 billion, with $2.5 million changing hands in a recent week.

Messrs. Jaret and Hull have been investigating the station sales field for the past year. Their conclusion: a seller's market, with no indication of any slackening in the record prices being put on radio-tv properties. Mr. Jaret says the most popular properties for "men of means" are those which bill over $500,000 a year. His rule of thumb on price: One and a half times the annual gross, with the buyer paying one-third cash, the seller taking a mortgage on the balance.

Mr. Hull entered radio in 1924 on the NBC Blue network (now ABC). He was m.c. of the long-running *Strike It Rich* tv show before it left the air several seasons back. Mr. Hull said he would continue radio-tv appearances.

Changing hands

ANNOUNCED • *The following sales of station interests were announced last week, subject to FCC approval:*

• KBUS Mexia, Tex.: Sold to Thomas R. Elkins and associates by J.B. McNutt Jr. for $42,500. Mr. Elkins is a disc jockey-producer with KCTT Davenport, Iowa. The sale was handled by Patt McDonald. KBUS is on 1590 kc with 500 w.

APPROVED • *The following transfers of station interests were approved by the FCC last week (for other Commission activities see* FOR THE RECORD, *page 87**).*

• WAGA-AM-FM Atlanta, Ga.: Sold by Storer Broadcasting Co. to Plough Radio Inc. for $830,000. Plough wholly owned subsidiary companies own: WCAO-AM-FM Baltimore, Md., WJJD Chicago, Ill., WCOP-AM-FM Boston, Mass., and WMPS-AM-FM Memphis, Tenn. Comr. Robert Bartley dissented. WAGA is on 590 kc with 5 kw, directional night and is affiliated with CBS. WAGA-FM is on 103.3 mc with 36 kw.

• WDAU-TV Scranton, Pa.: 75% sold to Mrs. M. E. Megargee and family for $700,000 by WCAU Inc., former licensee of WCAU-AM-FM-TV Philadelphia before it was bought by CBS last year. Megargee family, which owns WGBI-AM-FM Scranton, now owns 100% of WDAU-TV. WDAU-TV is on ch. 22 and is affiliated with CBS-TV.

• WEDR Birmingham, Ala.: Sold to Radio Birmingham Inc. (James R. Bonfils, president) by Edwin H. Estes for $225,000. WEDR is on 1220 kc with 1 kw, day.

Ohio news privileged

The Ohio Legislature has passed a bill which would give radio and tv broadcasters the same immunity from having to disclose news sources as that conferred on newspaper and news service reporters. Gov. Michael V. DiSalle is expected to sign the bill. The bill was introduced by Ohio Sen. Ray T. Miller Jr., president of WERE Cleveland. It also requires stations to keep records of newscasts for six months after delivery so they may be checked for accuracy. The bill arose after a court ruling last January that existing law does not protect radio and tv newscasters.

New studios for WNBF

WNBF-AM-TV Binghamton, N.Y., opened new studios and offices at the Sheraton Inn May 22. The $750,000 quarters occupy about 20,000 sq. ft. comprising two tv studios, three radio studios and executive offices.

Special programs on the stations for the occasion: a half-hour simulcast in which Binghamton Mayor John J. Burns formally opened the studios; WNBF-TV telecast a one-hour report on the growing influence of its area in the nation's economic picture and a salute to Binghamton-based industries. WNBF-TV also paid tribute to agriculture with a "Farm & Home Day." The station had an exhibition of poultry incubators, dairy cattle, and new agricultural equipment in its studios.

Etv teaching over half-million students
